

EMPLOYMENT TRIBUNALS

Claimant: Mr I Bidivanu

Respondent: Sussex Partnership NHS Foundation Trust

JUDGMENT

The claimant's application dated 4 April 2024 for reconsideration of the judgment sent to the parties on **29 February 2024** is refused.

REASONS

There is no reasonable prospect of the original decision being varied or revoked, because the claimant has not produced any new evidence or information that is relevant to the tribunal decision. In particular:

1. The claimant relies on what he says is a history of alarm bells relating to individuals such as David Fuller and Lucy Letby and these have no relevance to his claim for discrimination.
2. The claimant is seeking to re-litigate the matter rather than rely on new issues for example he states that there is proof of harassment discrimination, but the employment tribunal reach an alternative view in its findings of fact.
3. The claimant seeks to rely on what he says is the respondent's conduct ignoring rules and regulations and refers to his stress and diabetes. The tribunal found no evidence of the respondent ignoring rules and regulations it is unclear in any event how this would be relevant to the agreed issues.
