

Application to keep a vehicle registration number and put it on another vehicle

You can do this online at:
www.gov.uk/keep-registration-number
www.gov.uk/put-registration-number-vehicle

V317

You must read the attached guidance notes before you fill in this form. Please use black ink and CAPITAL LETTERS. You must choose option A or option B. Please put an 'X' in the box of the option you choose.

Option A (see below)

I want to take the vehicle registration number off a vehicle and put it straight onto a different vehicle. Please fill in sections 1 to 5 below. You can also do this online at www.gov.uk/keep-registration-number (the fee is £80). You can complete the process by putting the registration number onto the vehicle immediately afterwards at www.gov.uk/put-registration-number-vehicle

Option B (see over the page)

I want to take the number off a vehicle and keep it on a retention document for up to 10 years. Please fill in sections 1 to 4 over the page. You can also do this online at www.gov.uk/keep-registration-number (the fee is £80).

Option A

Before you start

To take off or put a vehicle registration number on a vehicle, the following must apply:

- the vehicle must exist and be registered at DVLA
- you must be, or are becoming, the registered keeper of the vehicle you are taking the number off
- you must have taxed or made a 'Statutory Off Road Notification' (SORN)
- the vehicle must be able to move under its own power
- the vehicle must be available for inspection
- the vehicle must be a testable type, subject to MOT or GVT (road worthiness test)
- you cannot display a vehicle registration number that will make your vehicle appear younger than it is

Please note:

If you are taking the vehicle registration number off a vehicle to keep on a retention document, you (as the registered keeper) can choose to become the grantee or you can give up your right to the vehicle registration number and give the details of someone else as the grantee. Once the application is finalised, only the grantee will have the right to the vehicle registration number.

The vehicle record will be checked. The vehicle must either have been taxed (or have a SORN in place) continuously for the last 5 years. The vehicle will need to be taxed if it has had a SORN for longer than 5 years. It might also need to be inspected.

Documents you need

You will need to include:

- a completed 'Application to keep a vehicle registration number or put it on another vehicle' (V317) filled in with the vehicle details
- vehicle registration certificate (V5C) for each vehicle (please enclose the full certificate) – if you have changed address or changed keeper, you must fill in the relevant section of the V5C
- insurance certificate, if the vehicle is being taxed as part of this application (Northern Ireland only)
- £80 fee

If your current V5C has been lost, stolen, damaged or destroyed, you can apply for a duplicate at

www.gov.uk/vehicle-log-book You'll be able to tax your vehicle at the same time.

Where to send your application

You must send your application and the appropriate documents to:

DVLA Personalised Registrations
Swansea
SA99 1DS

You can pay by:

Cheque, banker's draft or postal order made payable to 'DVLA Swansea'. We cannot accept damaged or altered cheques. If you send us a damaged or altered cheque, your application will be rejected and returned to you.

What happens next

DVLA may want to inspect your vehicle. If so, we will contact you.

Once your application is approved, the following will apply:

- the vehicle in section 1 will be given a replacement vehicle registration number, unless you want to assign another personalised vehicle registration number at the same time
- the vehicle in section 4 (Option A) will have its current vehicle registration number withdrawn (even if it is a personalised registration number), unless you also apply to transfer or keep it when you make this application
- we will send your new V5C and a retention document (if you are retaining the vehicle registration number) within 2 weeks of receiving your application – however, this could take up to 4 weeks if you included an 'Application for a vehicle registration certificate' (V62) or if we need to inspect the vehicle
- if you have given someone else's details as the grantee, the retention document will be sent to them
- you are responsible for informing your insurance provider of your new registration – if you do not, your insurance may be invalid (you may also receive a fine)
- don't forget to update your new registration number on any road charging accounts operated by Transport for London, Highways England and Clean Air Zones – failure to update an account may result in a penalty charge notice
- if your vehicle has Clean Vehicle Retrofit Accreditation scheme certification, you will need to get the certification updated with the new registration number

Further information

You cannot remove a vehicle registration number from – or put one on – a vehicle starting with a ‘Q’ or ‘QNI’ prefix.

It is an offence to misrepresent a vehicle registration number on a number plate (for example, by making a ‘5’ look like an ‘S’). See leaflet ‘Vehicle registration numbers and number plates’ (INF104), which you can get from www.gov.uk/displaying-number-plates/rules-number-plates

Telling us of any changes

If you have the V5C with the multicoloured section at the bottom of the front page, fill in either section 2 for a change of keeper or section 3 to change your address. If you have the older version of the V5C, fill in section 6.

If you have bought a vehicle, the person you bought the vehicle from can go online at www.gov.uk/sold-bought-vehicle to give DVLA your details. You should receive the vehicle registration certificate (V5C) in 5 days. Once received, you can put the registration number on the vehicle at www.gov.uk/put-registration-number-vehicle. Before doing so, you must have already applied to keep the personalised registration number at www.gov.uk/keep-registration-number

You can get an ‘Application for a vehicle registration certificate’ (V62), an ‘Application for vehicle tax’ (V10) and an ‘Application to tax a Heavy Goods Vehicle (HGV)’ (V85) from www.gov.uk/dvlaforms or any Post Office® branch that deals with vehicle tax. To request an ‘Application for first vehicle tax and registration of a new motor vehicle’ (V55) by post, phone 0300 790 6802.

You should also read our leaflet ‘Registration numbers and you’ (INF46), which you can get from www.gov.uk/government/publications/inf46-registration-numbers-and-you

Please note the personalised registration number will be held in the name of the registered keeper unless section 4 (option B) is completed.

If this section is not completed, the person or company who is becoming the registered keeper will receive the retention document (V778) and have all rights to this registration number.

You will need to remove the number before you sell or destroy the vehicle, or you will lose the rights to it.

If the vehicle has been transferred or sold on before you apply to keep your number, you will lose all rights to the personalised registration number.

The original registration number will be reassigned to the vehicle in most instances when you remove the personalised registration number.

If the vehicle that has the private registration number assigned to it has been stolen, you can apply to keep the personalised registration number straight away to safeguard it. You will not be able to assign it to another vehicle and no retention certificate will be issued until 6 months from the date of theft has lapsed or the vehicle has been recovered. It is the customer’s responsibility to contact DVLA for the certificate to be issued after this time.

By law, we can withdraw your right to the vehicle registration number at any time.

Also, we can cancel an application if:

- you have not met the conditions of the scheme
- any information you give in this form, or in any document used to support this form, is false or incorrect
- there is any mistake to do with the vehicle registration number
- your bank does not send us your payment

Data protection

DVLA handles your personal data in accordance with road vehicle law and data protection laws. The law allows us to release your data to the police and other enforcement bodies. We also provide data to other parties where the law allows it.

For further information about how we process your data, your rights and who to contact, see our privacy notice at www.gov.uk/dvla/privacy-policy
