Birmingham,  
B4 6BS

### Introduction

The following is a listing of the numbers allocated to local weights and measures authorities and approved verifiers for identification purposes on items of weighing or measuring equipment. This list covers those numbers used to indicate equipment which has been passed fit for use for trade in accordance with the Weights and measures Act 1985.

Notes:

- (a) Where a number has been cancelled, the name of the last organisation to which the number was allocated has a line through it.
- (b) Numbers have not had static geographical locations; in the past numbers surplus to requirements in one area have been re-allocated to another part of the country.
