IV. Identification of the products

- (a) Description of the products:

- (b) Species of origin of the samples:

- (c) Method of package:

- (d) Number of packages:

- (e) Batch number:

V. Health information

I, the undersigned official veterinarian certify that the laboratory samples described above fulfil the following requirements:

1. The said blood samples were derived from healthy animals, which were kept under strictly controlled isolation conditions and constant veterinary supervision. At the time of production of the said blood sample, no cases of infectious diseases were observed in these animals and to the best of my knowledge and belief they were not likely to disseminate causative agents of any infectious diseases of domestic animals.

2. The packaging of the samples is appropriate, the delivery is done in such a way that it prevents the spread of infectious diseases. The packaged samples pose no danger to the person doing the delivery.

3. The packaging and the samples are marked by the following: "for in vitro diagnostic use only - to be safely discarded after use".
