Subject: Promenade House Clifton Down Bristol BS8 3NE Planning Application S62A/2024/0040

To Whom it may concern

I write in respect of the above application and the outrageous audacity of Stride Treglown to even think that this plan would find favour from neighbours and friends of Clifton, and this on one of most prime examples of excellent 19th century houses there are in Clifton.

As a neighbour of this corner property apart from the unsightly intrusion to the area at the front of this property which would be on view to all to see, we would be further inconvenience due to noise and added parking during the day; this would certainly impinge on our daily life and any peaceful enjoyment that it would shatter. And then the evenings, which will surely happen, this, of course will echo the day's troubles to surrounding peoples and area if you agree this application, the disruption to sleep being an added upset, the warmer the weather the more its likely to happen.

Please dismiss this application in its entirety without recourse to further amended applications.

I remain
Mrs Gwynneth Harris
