3.0 Before the correction can be authorised you will need to provide evidence that an error has been made.

You need to show that the information originally given at the time of the registration was wrong. You will have to produce document(s) that clearly show what the correct information should be. Where relevant, these documents should be valid or dated around the time of the death.

It is not possible to list every example of acceptable evidence, but it should be an official document which shows the correct information. Examples will include:

passport utility bill

identity card credit card statement photocard driving licence NHS medical card

letter from a government department valid will/probate document bank/building society statement birth and/or marriage certificate

Please do not send in original documents or photographs of original documents; we will accept photocopies which have been certified by a professional or reputable person as a true copy of the original. A list giving examples of suitable persons can be found at: https://www.gov.uk/countersigning-passport-applications

If you are taking the application to a Register Office and paying in person then the Register Office should be able to certify your documents as a true copy of the original which means you can retain your original documentation.

If you cannot send any evidence of an error having occurred, then normally a correction will not be possible. Further advice can be obtained by calling **0300 123 1837**

4.0 The correction:

The original information will always be shown as it was first given, but a note will be written against the registration. This will explain what the correct information should be and the date when the correction was made. All death certificates issued afterwards will include the note in the margin. There is no legal requirement to witness the correction.

4.1 Declaration:

I confirm that I understand the correction will be made in my absence and the correction will take the form of a note in the margin.
