Medium-term forecasts, May 2024

This edition of the comparison contains 8 new medium-term projections for the calendar years 2024 to 2028, and the fiscal years 2024-25 to 2028-29, as well as the OBR's March Economic and Fiscal Outlook. The table below summarises the independent average of new forecasts.

2024 and 2025 short and medium-term forecasts may differ. This is due to different samples sizes and definitions e.g. medium-term CPI figure reflects annual, rather than Q4-on-Q4 growth
