# Grenfell Tower site update

## May 2024

### Grenfell Tower site update May 2024

A summary of current activity at the Grenfell Tower site.

- The tower wrapping is replaced annually. Work began mid-March and will take about 10 weeks. Rewrapping has had to stop occasionally due to high winds. Some work will now take place on Saturday mornings, 8am to 1pm, so that it is complete before the seventh anniversary. This year, the banners at the top of the tower have also been replaced due to wear and tear.

For more information on the annual rewrapping, please go to:

- Deconstruct UK Ltd (DUK), part of a wider group of companies called De-Group, has been reappointed as the principal contractor of the Grenfell Tower site.

This contract was reprocured due to government rules and guidance on spending public money. It is a standard process and is part of the government's role in keeping the tower and site secure and stable.

To find out more about the procurement process, please go to:

- DUK carries out regular maintenance and checks of the props (the metal supports installed in the tower), the hoardings around the site, and the lighting, security systems and scaffolding.
- Local opportunities including employment, training and practical support, are available from DUK. You can find out more at [www.degroupp-community.uk](https://www.degroupp-community.uk).
