Dear Mark,

I have reviewed the conditions provided by the applicant (attached) and consider these acceptable, they are consistent with the Council's originally submitted conditions and consistent with the points discussed at the hearing

In regards to the heritage question, is Clavering Court registered anywhere as a heritage asset? I confirm Court Lodge and Court Cottage are both Grade II listed buildings (as per the highlighted buildings in the map below). Clavering Court itself is not a listed building or a locally listed building.
