Instructions

You **must not** use a calculator to answer any questions in this test.

Questions and answers

You have **40** minutes, plus your additional time allowance, to complete this test.

Follow the instructions for each question.

Work as quickly and as carefully as you can.

If you need to do working out, you can use any space on the page.

Method questions

Some questions say: ‘Show your method.’

For these questions, you may get a mark for showing your method.

If you cannot do a question, go on to the next one. You can come back to it later, if you have time.

If you finish before the end, go back and check your work.

1. The shapes on the opposite page have a fraction shaded.

Match each shaded fraction of a circle to the same shaded fraction of a rectangle.
