

Policy DM1: Presumption in favour of sustainable development

2.1.1 The Bristol Core Strategy provides a positive and flexible framework for meeting the development needs of the city. It is supported by a set of Development Management policies which help to ensure new development is compatible with the core planning principles set out in the National Planning Policy Framework.

When considering development proposals a positive approach will be taken that reflects the presumption in favour of sustainable development contained in the National Planning Policy Framework. Bristol City Council will always work proactively with applicants jointly to find solutions which mean that proposals can be approved wherever possible, and to secure development that improves the economic, social and environmental conditions in the city.

Planning applications that accord with the policies in the Bristol Local Plan and, where relevant, with policies in Neighbourhood Development Plans will be approved without delay, unless material considerations indicate otherwise.

Where there are no policies relevant to the application or relevant policies are out of date at the time of making the decision then planning permission will be granted unless material considerations indicate otherwise taking into account whether:

- Any adverse impacts of granting permission would significantly and demonstrably outweigh the benefits, when assessed against the policies in the National Planning Policy Framework taken as a whole; or
- Specific policies in that Framework indicate that development should be restricted.

2.1.2 The National Planning Policy Framework states that Local Plans should be based upon and reflect the presumption in favour of sustainable development, with clear policies that will guide how the presumption should be applied locally. The Planning Inspectorate considers that its suggested model policy wording is an appropriate way of meeting this expectation. This policy closely reflects the model wording. It is applicable to all development and should be read in conjunction with paragraph 14 of the National Planning Policy Framework, including the footnotes to that paragraph.

Application Information

There are no specific submission requirements associated with this policy.

Housing and Economy Policies

Policy DM2: Residential Sub-divisions, Shared and Specialist Housing

2.2.1 The Core Strategy sets out the overall approach to developing new homes in the city. It proposes an overall number of homes, seeks affordable housing and aims for a broad housing mix. This Development Management policy offers an approach to addressing the impacts and issues of certain forms of housing; in particular, sub-divisions, shared housing, specialist student accommodation and housing for older people.
