II. Health information

Public health attestation [Delete when the Union is not the final destination of the casings]

I, the undersigned, declare that I am aware of the relevant requirements of Regulation (EC) No 999/2001 of the European Parliament and of the Council, Regulation (EC) No 178/2002 of the European Parliament and of the Council, Regulation (EC) No 852/2004 of the European Parliament and of the Council and Regulation (EC) No 853/2004 of the European Parliament and of the Council and hereby certify that the casings described in Part were produced in accordance with these requirements, and in particular that:

- they come from (an) establishment(s) applying general hygiene requirements and implementing a programme based on the hazard analysis and critical control points (HACCP) principles in accordance with Article 5 of Regulation (EC) No 852/2004, regularly audited by the competent authorities, and is listed as a Union approved establishment;
- II 1 2 the animals from which the casings were derived have passed ante-mortem and post-mortem inspections;
- ΠA the casings have been produced in accordance with Section XIII of Annex III to Regulation (EC) No 853/2004;
- they have been marked with an identification mark in accordance with Section I of Annex II to Regulation (EC) No 853/2004; \mathbf{n}_{14}
- the guarantees covering casings provided by the control plan submitted in accordance with Article 6(2) of Commission Delegated II.1 Regulation (EU) 2022/2292 are fulfilled and the casings are listed in Annex -I to Commission Implementing Regulation (EU) 2021/405 for the concerned third country or territory;
- II.1.d the means of transport and the loading conditions of casings of this consignment meet the hygiene requirements laid down as regards the entry into the Union;
- (1) [II.1.7. If derived from bovine, ovine or caprine animals, with regard to bovine spongiform encephalopathy (BSE):
- (1) either [the country or region of origin is classified in accordance with Commission Decision 2007/453/EC as a country or region posing a negligible BSE risk, and
 - (1) either [the animals from which the casings are derived were born, continuously reared and slaughtered in a country or region classified in accordance with Decision 2007/453/EC as a country or region posing a negligible BSE
 - (1) and/or [the animals from which the casings are derived originate from a country or region classified in accordance with Decision 2007/453/EC as a country or region posing a controlled BSE risk, and:
 - if derived from bovine animals, the casings do not contain and are not derived from specified risk material as defined in point 1(a)(iii) of Annex V to Regulation (EC) No 999/2001;
 - the animals from which the casings are derived have not been slaughtered after stunning by means (ii) of gas injected into the cranial cavity or killed by the same method or slaughtered by laceration after stunning of central nervous tissue by means of an elongated rod-shaped instrument introduced into the cranial cavity;]]]
 - [the animals from which the casings are derived originate from a country or region classified in accordance (1) and/or with Decision 2007/453/EC as a country or region posing an undetermined BSE risk, and:
 - if derived from bovine animals, the casings do not contain and are not derived from specified risk material as defined in point 1(a)(iii) of Annex V to Regulation (EC) No 999/2001;
 - the animals from which the casings are derived have not been slaughtered after stunning by means (ii) of gas injected into the cranial cavity or killed by the same method or slaughtered by laceration after stunning of central nervous tissue by means of an elongated rod-shaped instrument introduced into the cranial cavity;
 - (iii) the animals from which the casings are derived have not been fed with meat-and-bone meal or greaves, as defined in the Terrestrial Animal Health Code of the World Organisation for Animal Health;]]]
- [the country or region of origin is classified in accordance with Decision 2007/453/EC as a country or region posing a (1) or controlled BSE risk, and
 - (1) either [the animals from which the casings are derived were born, continuously reared and slaughtered in a country or region classified in accordance with Decision 2007/453/EC as a country or region posing a negligible BSE risk in which there have been no BSE indigenous cases;]]]
 - [the animals from which the casings are derived were born, continuously reared and slaughtered in a country (1) and/or or region classified in accordance with Decision 2007/453/EC as a country or region posing a negligible BSE risk in which there has been at least one BSE indigenous case and, if the casings derived from bovine animals:
 - (1) either [the animals were born after the date from which the ban on the feeding of ruminants with meat-and-bone meal and greaves derived from ruminants has been enforced,]
 - (1) and/or [the casings do not contain and are not derived from specified risk material as defined in point 1(a)(iii) of Annex V to Regulation (EC) No 999/2001.]]]]
 - [the animals from which the casings are derived originate from a country or region classified in accordance with Decision 2007/453/EC as a country or region posing a controlled BSE risk, and:
 - the animals from which the casings are derived have not been slaughtered after stunning by means of gas injected into the cranial cavity or killed by the same method or slaughtered by laceration after stunning of central nervous tissue by means of an elongated rod-shaped instrument introduced into the cranial cavity,
