DECISION

Introduction

1. The Applicant seeks an order pursuant to s.20ZA of the Landlord and Tenant Act 1985 (“the Act”) for *retrospective* dispensation with the consultation requirements in respect of lift repairs at the property known as 1-17 Charter Buildings, Catherine Grove, Greenwich, London, SE10 8BB (“the property”).

2. The Applicant is the management company for the property and the Respondents are the long leaseholders.
3. The property is described as being a building comprised of a block of 17 flats (Flats 1-17) and 3 freehold houses (numbered 18,19 and 20).
4. It is the Applicant's case that works were carried out were to rectify a leak in the roof from a lead box gutter, which was confirmed when a roof survey was carried out on the building on or about 15 June 2023. Apparently, the leak from the area in question was worsening due to the weather and this was having an impact on Flat 12, where there seemed to be water ingress. The guttering, felt and timbers on the roof needed to be investigated in order to locate the cause of the leak and remedial works needed to be carried out to stop the leak to prevent further water ingress.
5. The estimated cost of investigating the cause of the leak and carrying out the remedial work was £2,448 and £2,419.20 respectively. As the Tribunal understands it, the work has been carried out and the actual cost of this is unknown. However, the cost of the work does not form part of this application.
6. On 21 March 2024, the Tribunal issued Directions. The Respondents were directed to respond to the application stating whether they objected to it in any way.
7. None of the Respondents have objected to the application save for the leaseholders of flats 16 and 17, who simply requested clarification about the works.

Relevant Law

8. This is set out in the Appendix annexed hereto.

Decision

9. As directed, the Tribunal's determination "on the papers" took place on 6 June 2024 and was based solely on the documentary evidence filed by the Applicant. As stated earlier, no objections had been received from any of the Respondents nor had they filed any evidence.
10. The relevant test to be applied in an application such as this has been set out in the Supreme Court decision in ***Daejan Investments Ltd v Benson & Ors*** [2013] UKSC 14 where it was held that the purpose of the consultation requirements imposed by section 20 of the Act was to ensure that tenants were protected from paying for inappropriate works or paying more than was appropriate. In other words, a tenant should suffer no prejudice in this way.
11. The issue before the Tribunal was whether dispensation should be granted in relation to the requirement to carry out statutory consultation with the leaseholders regarding the overall roof works works. As stated

in the directions order, the Tribunal is not concerned about the actual cost that has been incurred.

12. The Tribunal granted the application for the following main reasons:
 - (a) at all material times, the Tribunal was satisfied that the Respondents have been kept informed of the need, scope and estimated cost of the proposed works.
 - (b) the Tribunal was satisfied that the Respondents have been served with the application and the evidence in support and there has been no objection from any of them. The Tribunal attached significant weight to this.
 - (c) The Tribunal was satisfied that any delay incurred by the Applicant having to carry out statutory consultation would inevitably have resulted in further significant loss of amenity to the leaseholder of Flat 12 and possibly resulted in greater overall remedial cost because of further deterioration in the fabric of the building. .
 - (d) importantly, the real prejudice to the Respondents would be in the cost of the works and they have the statutory protection of section 19 of the Act, which preserves their right to challenge the actual costs incurred by making a separate service charge application under section 27A of the Act.
13. The Tribunal, therefore, concluded that the Respondents were not being prejudiced by the Applicant's failure to consult and the application was granted as sought.
14. It should be noted that in granting this part of the application, the Tribunal makes no finding that the scope and cost of the repairs are reasonable.

Rights of appeal

By rule 36(2) of the Tribunal Procedure (First-tier Tribunal) (Property Chamber) Rules 2013, the tribunal is required to notify the parties about any right of appeal they may have.

If a party wishes to appeal this decision to the Upper Tribunal (Lands Chamber), then a written application for permission must be made to the First-tier Tribunal at the regional office which has been dealing with the case.

The application for permission to appeal must arrive at the regional office within 28 days after the tribunal sends written reasons for the decision to the person making the application.

If the application is not made within the 28-day time limit, such application must include a request for an extension of time and the reason for not complying with the 28-day time limit; the tribunal will then look at such reason(s) and decide whether to allow the application for permission to appeal to proceed, despite not being within the time limit.

The application for permission to appeal must identify the decision of the tribunal to which it relates (i.e. give the date, the property and the case number), state the grounds of appeal and state the result the party making the application is seeking.

If the tribunal refuses to grant permission to appeal, a further application for permission may be made to the Upper Tribunal (Lands Chamber).
