## We provide swab testing

We are NHS Test and Trace.

We are making Covid swab testing available to all General Practices in England. The service will be available to all practices on a **voluntary, opt in basis**.

This can be a supplementary option for practices and does not replace any of the existing routes to access testing. Members of the public will continue to be directed to drive through, walk in and home testing services.

## Target population

These tests can be offered to **patients who present in practice with Covid symptoms**.

GPs can use their discretion to offer the swabs where they deem it to be clinically appropriate in order to streamline patient care and/or increase/improve access to testing for patients who would otherwise be unlikely to get a test via the primary testing routes, for example, due to barriers around language, distance, disability or digital inclusion.

Testing will also be available to **symptomatic general practice staff and their symptomatic household members**.

## We want to help you to keep general practices open and your community safe

By offering swab tests via general practice we hope to address health inequalities by reaching vulnerable patients who might otherwise not easily access testing, and support you to streamline patient care.

Timely testing for patients improves patient care and ensures symptomatic people safely isolate and protect others in their community.

We also hope to provide an easy access to testing for symptomatic general practice staff and their households to support keeping general practice settings operational.

# We piloted the service with a number of general practices and identified the following benefits:

**1**

**It addresses health inequalities by improving access to testing for the most vulnerable patients**

**2**

**It provides a helpful addition to the UK testing capability**

**3**

**The process is simple and straightforward to administer**

**4**

**Patients like the joined up service**

This is what our pilot GPs said about the service:

“We have deaf patients who would struggle with 119”

“[It allows us to test] frail patients who would struggle with a home testing kit”

75% of sites have had to use a GP surgery email on behalf of a digitally excluded patient

“Our closest RTS is some distance away so we are glad to add this to the services we can provide”

“[As a visiting service] it is good that we can offer testing kits to elderly who are normally housebound”

3 of our hot sites have reported that their RTS is too far away for the vulnerable patients in their catchment area

“The admin burden has proven to be nothing”

“Really straight forward, the admin side was so easy”

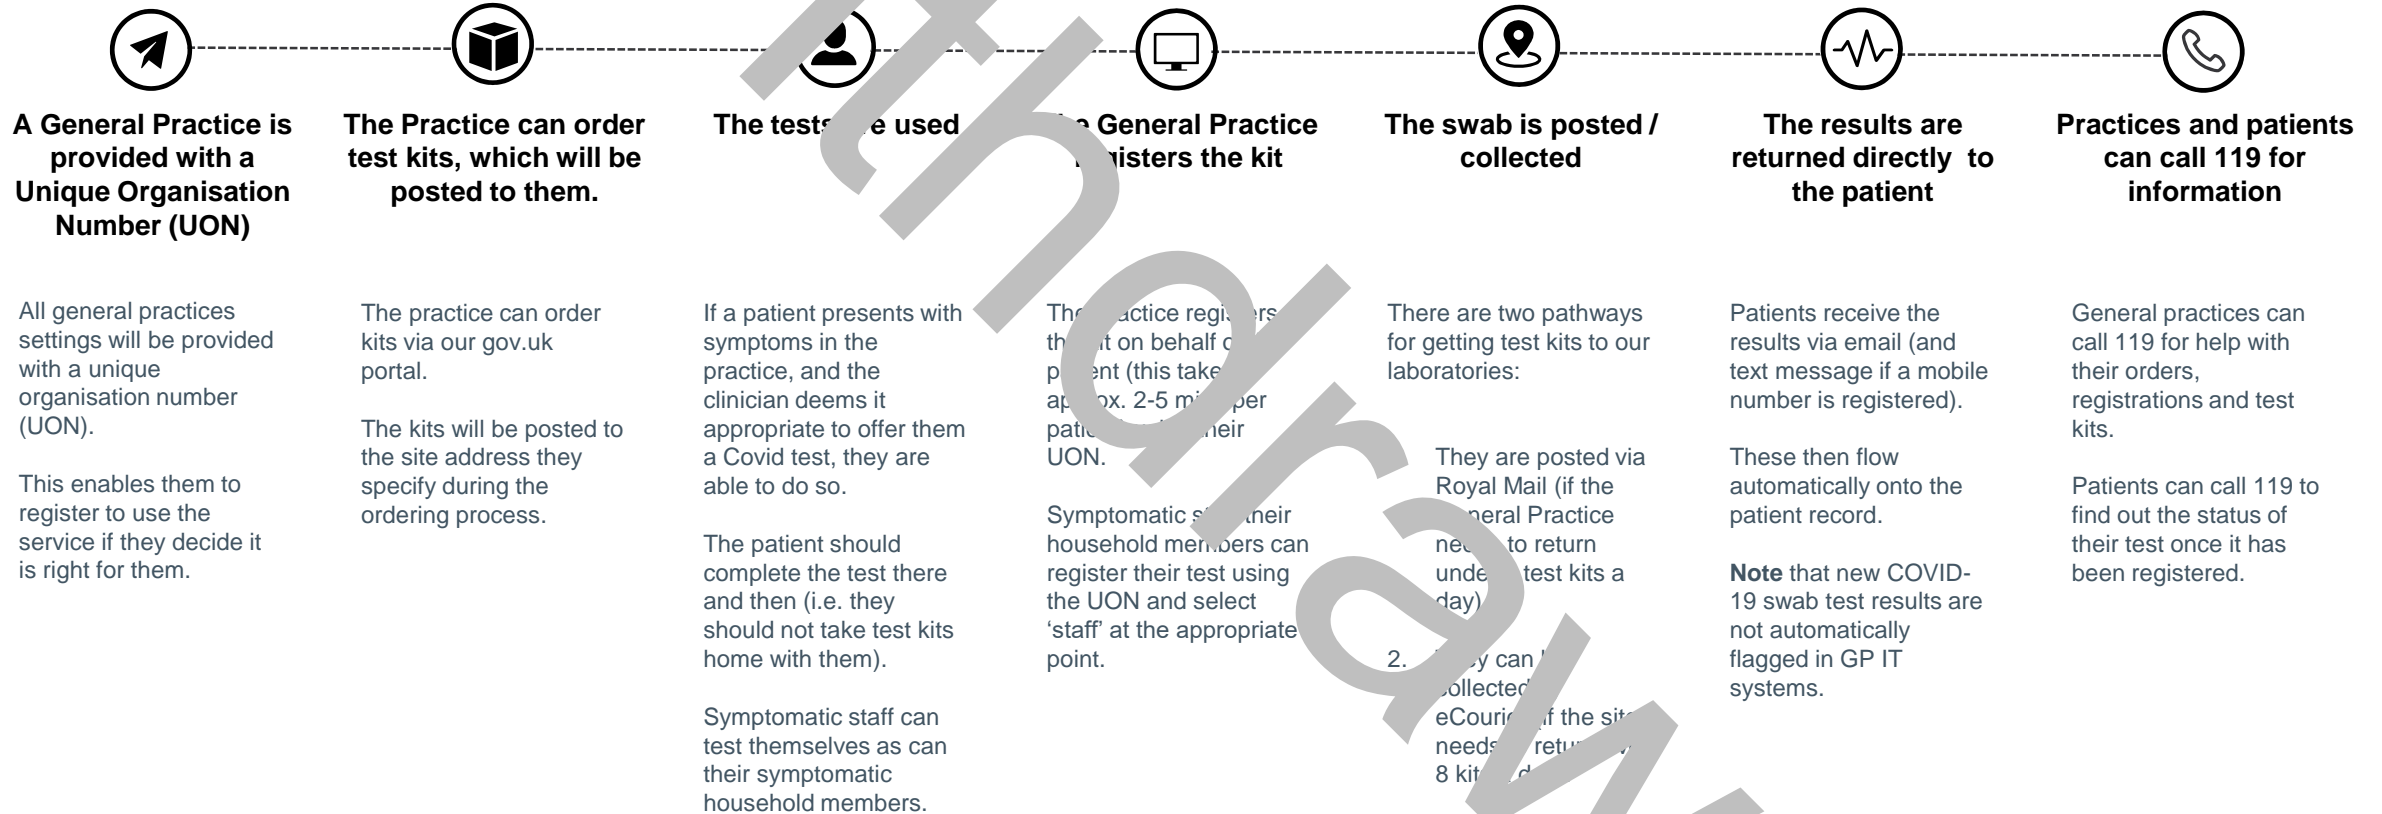

Sites reported administration takes 2-3 minutes a test kit with an average of 5 tests per week across the pilot

“Great to have the test kits at hand rather than telling [vulnerable] patients to call 119”

“[The service] improves patient experience, as you can do [the swab] there and then”

# How the service works

# Service overview

Please note that this process may evolve as we test and learn during and after roll out. Throughout, patient and staff safety is our first priority.

# We have two service models, depending on your circumstances. This affects how many kits you can order and how you can return these to our labs

## Category 1

All general practices will be placed in **Category 1** when they initially opt-in via the Gov.uk portal.

They can order a batch of up to **40** swab testing kits per week. These can be returned via Royal Mail priority post boxes.

## Category 2

These sites will be able to order batches of up to **200** swab testing kits per week.

These can be returned via Royal Mail priority post boxes or Courier.

General practices can move from Category 1 to 2 if they meet either of the following criteria:

- They are using more than 40 kits per week
- They have unique circumstances that mean they require a courier collection (e.g. they are conducting weekend testing, they are not located near a priority post box, their priority post box is full due to close proximity to other surgeries / testing organisations)

**To begin this process, please ring 119**

# Receiving your Unique Organisation Number

## All general practices will receive a Unique Organisation Number (UON) – this will act as your gateway into the service

**NHS Test and Trace assigns all of our organisational users a single Unique Organisation Number (UON).**

A UON is a random 8 digit number which is exclusive to an individual organisation. This can be used to login to all online elements of the testing process.

**You will need to use your UON for:**

- Ordering test kits (<https://request-testing.test-for-coronavirus.service.gov.uk>)
- Booking a courier to collect completed kits (<https://testkitcollection.co.uk>)
- Registering completed test kits for results (<https://gov.uk/register-organisation-tests>)

**You will also need to use your UON number when contacting us for support, including if you need to call 119.**

If your practice is unsure of it's UON, please visit <https://organisation-number-lookup.test-for-coronavirus.service.gov.uk> or by contacting the NHS Test and Trace Helpdesk on:

- **119** in England, Northern Ireland and Wales
- **0300 303 2713** in Scotland

## Call 119 if your sites did not receive a UON email or if you need to change your details on the account

The information about your practice was provided by the CCG to be used exclusively in support of activities in response to the COVID-19 pandemic.

We understand that there may be some instances where the data did not provide your practice's or hot site's details, such that you are not able to order kits. We also understand the information given to us may not be accurate.

To resolve these issues please ring 119 with the following details:

- Organisation name
- ODS number
- Key contact email address
- Key contact phone number
- Key contact name
- Key contact job title
- Full practice address

# Ordering and using the test kits

# You can order kits up to once a week using the online portal

You can register for test kits on behalf of your General Practice by visiting the following website: <https://request-testing.test-for-coronavirus.service.gov.uk/>

Once you have placed an order, you will receive a confirmatory email from the following address:

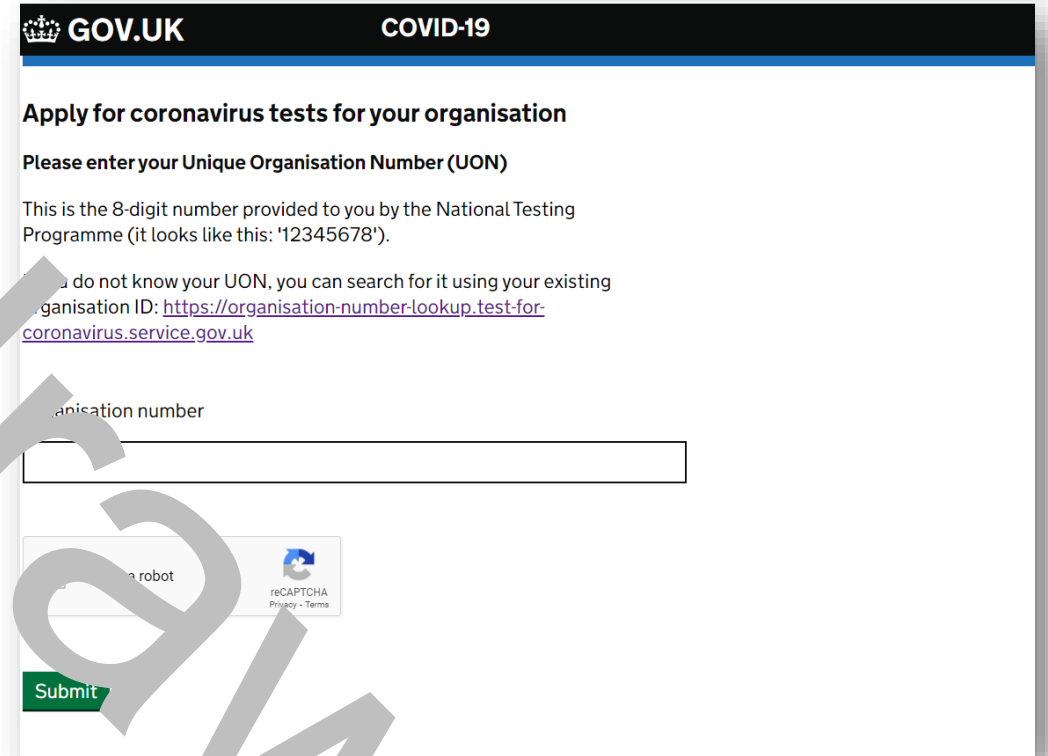

[organisation.coronavirus.testing@notifications.service.gov.uk](mailto:organisation.coronavirus.testing@notifications.service.gov.uk)

To order kits, you will need:

- your Unique Organisation Number
- number of test kits you will need

If you are having problems ordering test kits, please call 119.

Please see the **appendix** for a step-by-step guide on how to order kits through the portal.

# Each box contains 40 kits containing everything needed to perform and return a swab test.

These are Kingfisher PCR swab kits.

In each Kingfisher kit, you will receive a:

In addition you will also find a Royal Mail label to be used if you return the sample via the Priority Post Box. Please place each item in the following piece of packaging to ensure that the barcode attached to the vial and the barcode on the biohazard bag are the same.

## Who these tests are for

These tests can be offered to patients who present with COVID-19 symptoms in general practice settings. This will be a supplementary option for practices and does not replace any of the existing routes to access testing.

Members of the public will continue to be directed to drive through, walk in and home testing services.

Clinical staff can use their discretion to offer the swabs where they deem it to be clinically appropriate in order to:

- streamline patient care; and/or
- improve access to testing for patients who would otherwise be unlikely to get a test via the primary testing routes. For example:
  - due to barriers around language;
  - disability
  - frailty; or
  - digital inclusion.

The tests can also be used by symptomatic general practice staff and their symptomatic household members.

# Most patients should be able to self-administer swabs

There is an expectation that GP staff should administer swabs. Where staff do administer a test, it is considered a non-aerosol procedure.

Where possible a **combined nose and throat swab** should be taken. However a person-centred approach should be used to assess which samples are taken.

Where a combined nose and throat swab is not possible, a nose swab from **both nostrils** can be taken. This swab does not need to be pushed far into the nostril.

Extra care is needed when interpreting the results from a nasal swab compared to a full throat and nose swab. If the result is negative but the patient has persistent symptoms, a clinical assessment should be made to determine whether a repeat test is required. Isolation should continue until symptoms resolve.

**Instructions for self-swabbing** have been provided for patient use.

Separate instructions will be available for testing on children. Please ensure you familiarise yourself with both.

## YouTube video instructions for self-swabbing

There is a step-by-step guide to performing the test in the following video:

<https://www.youtube.com/watch?v=zCqo7Mh9T6U>

For advice on testing children, please also see the following video:

<https://www.youtube.com/watch?v=Xaw8DsF2lgc>

# Registering test kits

## Registering test kits

You need to register every kit on our portal, you can do this individually or multiple (up to 50) at one time. The portal to register kits can be found at: <https://gov.uk/register-organisation-test>

You will need:

- Your Unique Organisation Number (UON)
- The barcode number of the test kit you are registering
- Date and time of test

For each patient being tested:

- Name
- Email address and mobile phone number (optional) to which the test results should be sent (refer also to 'Results' slide)
- Staff or non-staff
- Whether they have symptoms or not and the date of onset of symptoms (only symptomatic persons should be swabbed)
- Gender
- Occupation & whether they were in the office in the last 2 weeks (you can select *prefer not to say*)
- Ethnicity group & background (you can select *prefer not to say*)
- Date of birth
- First line of address and postcode
- NHS number (optional, but we recommend adding to support quick delivery of results into GP record)

Please see the step-by-step guide for registering a kit in the **appendix**.

In the rare occurrence that a patient nor a close family member does not have an email address, some pilot sites have provided their generic practice address to receive the result. If this is not possible, the individual will not be able to receive a test as the email address field is mandatory.

# Returning test kits

# Most General practices will use Royal Mail Priority Post Boxes to return test kits to our laboratories

Each test kit contains a pre-paid return label. Please attach these to the delivery packaging next to the security seal.

You will find your nearest priority post box and its collection times at [www.royalmail.com/services-near-you](http://www.royalmail.com/services-near-you)

Please be aware of the following key points to ensure samples reach the laboratories in time:

- **Do not** put any completed tests in a priority box on Sunday (unless you have a courier collection booked no testing should be conducted on a Sunday)
- Please drop the kits at least one hour before the last collection time to ensure that is not missed

**Only use a Royal Mail priority post box.** It will be labelled with the below sign Priority Box sign and one of the regional NHS logos. Please do not enter any Post Office with the kit.

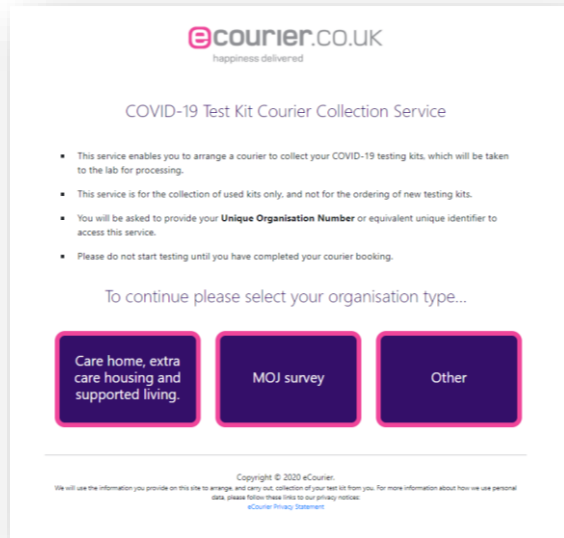

# Some sites will use courier collection

Courier collection is provided by eCourier. This is only if you regularly complete more than 8 tests in a day, or if you have unique requirements, such as weekend testing or remote geographical location. You must be set up as Category 2 site to be able to book a courier.

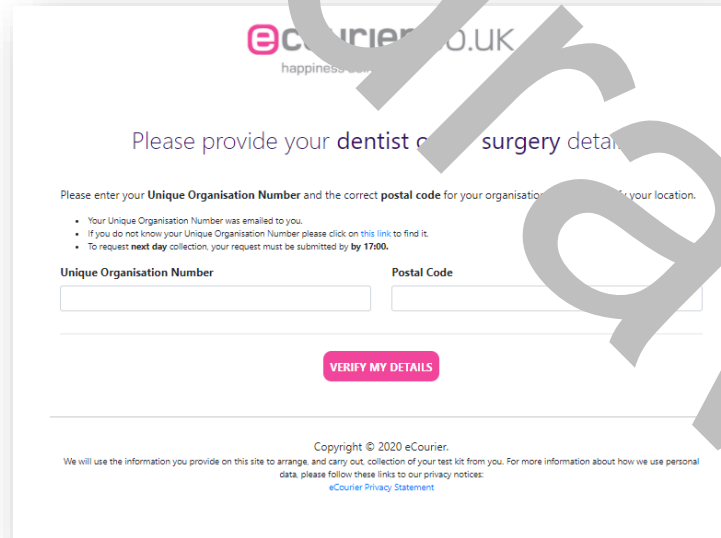

A courier collection can be scheduled for each Category 2 address using the eCourier portal (<https://testkitcollect.co.uk/>). You can book courier collection for the following day or up to 6 days in advance using their portal. **Next day collection must be booked by 5pm.**

The courier will collect the kits between **9am – 5pm**. They will send confirmation to the registered email of any bookings. This courier will collect any test kits completed since the last collection.

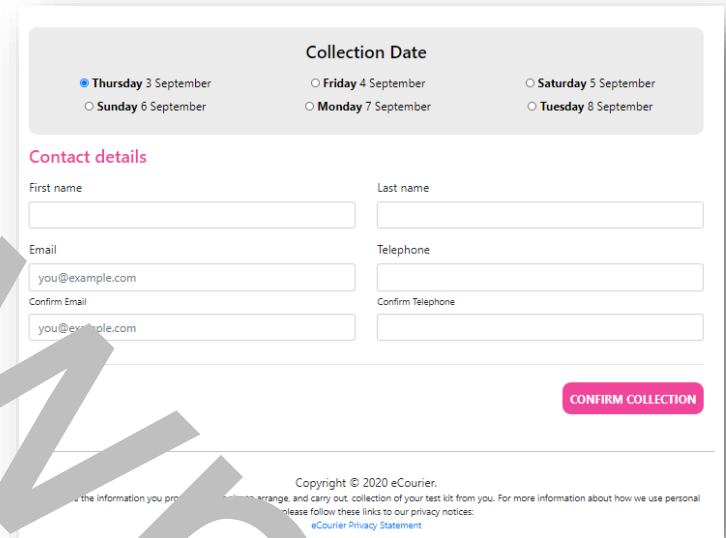

## Choose 'Other'

## Enter your UOM & Postal Code

## Choose day for collection & fill in details

# Results

Unpublished

## We will directly notify patients about their test results

The person tested will receive:

1. An email
2. A text message (if number provided)

The results will also include guidance on next steps for the patient. We have included example guidance in the next few slides for your information.

The results of the test will flow into the patient record in the same way as with tests completed at other testing routes (for example, home testing).

**Note:** A national decision was made not to flag test results on GP IT systems. It is possible to produce local work arounds for this if you wish test results to flag on your systems.

# Template of email containing results

There are 3 possible results – Negative, Positive and Unclear

## Negative

From	NHS COVID-19 Notification
To	email address
Subject	NHS COVID-19 Notification

Dear ((Full Name))  
 Birth date - ((Date of Birth))  
 ((Date of test))

Your coronavirus test result is negative. You did not have the virus when the test was done.  
 You only need to self-isolate if:

- you get symptoms of coronavirus (you'll need a new test)
- you're going into hospital (self-isolate until the date you go in)
- someone you live with tests positive
- you've been traced as a contact of someone who tested positive

For advice on how long to self-isolate, go to [www.nhs.uk/coronavirus](http://www.nhs.uk/coronavirus) and read 'Self-isolation and treating symptoms'.

Otherwise, you may return to work if you've not had a high temperature for 48 hours and feel well. Talk to your employer first.  
 For a care home resident, follow the care homes guidance. If the resident still has symptoms, they may need a repeat test.  
 Contact 111 if you need medical help.  
 In an emergency, dial 999.

Help the NHS with coronavirus vaccine research  
 Sign up below to be contacted about taking part in coronavirus vaccine studies.  
[www.nhs.uk/researchcontact/testing](http://www.nhs.uk/researchcontact/testing)

## Positive

From	NHS COVID-19 Notification
To	email address
Subject	NHS COVID-19 Notification

Dear ((Full Name))  
 Birth date - ((Date of Birth))  
 ((Date of test))

Your coronavirus test result is positive. It means you had the virus when the test was done.  
 Try not to worry. You will often ease symptoms as you recover.  
 You may be contacted for contact tracing.

You must, by law, self-isolate for 10 days from your symptoms starting. If you've not had symptoms self-isolate for 10 days from your test.  
 You may return to work on day 10 if you've not had a high temperature for 48 hours and are well. Talk to your employer first.  
 People you live with should self-isolate for 10 days from your symptoms starting or 10 days from their symptoms starting.

For a care home resident, follow relevant guidelines.  
 For a child or staff at school or nursery, tell the school/nursery.  
 For medical help, contact 111. In an emergency dial 999.  
 More advice: [www.gov.uk/coronavirus](http://www.gov.uk/coronavirus)

## Unclear

From	NHS COVID-19 Notification
To	email address
Subject	NHS COVID-19 Notification

Dear ((Full Name))  
 Birth date - ((Date of Birth))  
 ((Date of test))

We could not read your coronavirus test sample. This means it's not possible to say if you had the virus when the test was done.  
 We're sorry, but you'll need to get another test as soon as possible.  
 Keep self-isolating (and stay off work if relevant) if:

- you have or develop symptoms of coronavirus
- someone you live with has symptoms or tests positive
- you've been traced as a contact of someone who tested positive

For advice on how long to self-isolate in these situations, go to [www.nhs.uk/coronavirus](http://www.nhs.uk/coronavirus) and read 'Self-isolation and treating symptoms'. You can end your self-isolation period early if your new test result says to stop self-isolating.  
 For a child or staff at school or nursery, tell the school/nursery.  
 Contact 111 if you need medical help. In an emergency dial 999.

# Where to go for help

## The 119 service is there if you need help

They can help you with the following queries:

- Finding out your UON
- Adding / editing a GP account
- Late / incomplete deliveries
- Issues with placing an order
- Changing from Category 1 to 2
- Results that are still missing after 5 days (N.B. they cannot provide the result but will be able to investigate)

NOTE: Patients will need their barcode number when they call 119 to check their test status

# Appendix

Unfinal draft

# Guide to ordering kits

You must input the below details to be able to place an order

**Order details**

**Organisation ID:** [Redacted]

**Delivery address**  
These details are automatically pre-populated based on your organisation number. Test kits will be delivered to this address.

Organisation name [Redacted]  
Street [Redacted]  
City [Redacted]  
Postcode [Redacted]

**Testing requirements**  
Please enter the number of test kits required for one week of testing. GP surgeries are able to request up to 40 test kits per week by default, but some sites with higher demand may request permission to order up to 200 tests per week. If you are regularly using more than 40 test kits per week, please call 119 to request more kits.

Total number of test kits requested: [Redacted]

**Weekend testing**  
This does not apply to schools or organisations that do not open at weekends. If you can, do your testing at the weekend. This spreads our workload across the week and helps us process more kits faster. Weekend testing is any testing done between Friday and Monday, with at least one day of testing on a Saturday or Sunday. However, if your test kits arrive early in the week do not delay testing and get them straight back to us as normal.

Tick this box to confirm that you can do your testing over a weekend.

**Primary contact information**  
Please enter the contact details of the person who will be responsible for receiving delivery of the test kits. This will normally be the registered manager. All delivery details and testing instructions will be emailed to this person.

Primary contact first name [Redacted]  
Primary contact last name [Redacted]  
Primary contact job title [Redacted]  
Primary contact UK telephone number [Redacted]  
Primary contact email address [Redacted]  
Confirm primary contact email address [Redacted]

**Secondary Contact Information**  
Do you want to add a secondary contact to this order? This contact will also receive all delivery details and testing instructions.

No [v]

[Save and continue](#)

**Order details**

**Organisation ID:** 72528631

**Delivery address**  
These details are automatically pre-populated based on your organisation number. Test kits will be delivered to this address.

Organisation: Viaduct Care  
Street: Ground Floor, White House Wellington Road North  
City: Stockport  
Postcode: SK10 2ST

**Testing requirements**  
Please enter the number of test kits required for one week of testing. GP surgeries are able to request up to 40 test kits per week by default, but some sites with higher demand may request permission to order up to 200 tests per week. If you are regularly using more than 40 test kits per week, please call 119 to request more kits.

Total number of test kits requested: 50

**Error message:** We have encountered an error. You have exceeded the maximum order. By default, most GP surgeries can request a maximum of 40 tests per week. Category 2 surgeries can request a maximum of 200 tests per week. Please contact 119 if you are regularly using more than 40 tests per week.

You will receive an error message if you input a number of test kit requested above your category limit.

**Order placed**

**Thank you for requesting coronavirus testing for your organisation.**

A confirmation email has been sent to the contact email provided (Rachel.wrights@nhs.net) from organisation.coronavirus.testing@notifications.service.gov.uk. If this confirmation email has not been received within a few hours, please check the spam folder.

If you still have problems, contact the customer contact centre:

- England, Wales and Northern Ireland: call 119 (free from mobiles and landlines)
- Scotland: call 0300 303 2713 (charged at your standard network rate)

[Request test kits for another organisation](#)

# Individual registration – Process Walkthrough

# Registration

## Individual kit registration portal

### Steps to register a test kit one at a time:

1. Please go to <https://test-for-coronavirus.service.gov.uk/one-home>
2. Enter Unique Organisation Number, UON you come from email from [organisation.coronavirus.testing@notifications.service.gov.uk](mailto:organisation.coronavirus.testing@notifications.service.gov.uk) with the subject title 'COVID-19: Your new Unique Organisation Number (UON)
3. Enter or scan test kit barcode, please ensure carefully and do not copy and paste
4. Enter the person's personal details:
  - Name
  - Whether they are a service user or staff member
  - Whether they have symptoms or not
  - Gender
  - Date of birth
  - Email address (**for results**)
  - Phone number (**for results**)
  - Home postcode
  - NHS number (optional, note that this is important to update the subjects NHS record)
5. Check your answers
6. Test kit registration confirmed
7. The person who was tested will receive confirmation of registration via email.

# Individual registration upload – Process Walkthrough

**STEP 16:** Enter NHS number, this is used to link the result to patient records.

**GOV.UK** Get a coronavirus test

ALPHA This is a new service – your [feedback](#) will help us to improve it.

[Back](#)

## Do you know Peter Smith's NHS number?

It's OK if you do not, you can still continue.

Their NHS number is a 10 digit number, like 867 406 5600. You can find it on any letter the NHS has sent them, on a prescription, or by logging in to some GP online services.

[How to find your NHS number](#)

Yes, I know Peter Smith's NHS number

No, I do not know Peter Smith's NHS number

**Continue**

**STEP 17:** Select Yes as this route should only be used by symptomatic staff or patients.

**GOV.UK** Get a coronavirus test

ALPHA This is a new service – your [feedback](#) will help us to improve it.

[Back](#)

## Does Peter Smith currently have coronavirus symptoms?

This will help us track and control the spread of coronavirus.

The main symptoms of coronavirus are:

- a high temperature
- a new, continuous cough
- a loss or change to your sense of smell or taste

Most people with coronavirus have at least one of these symptoms.

Yes, they currently have at least one of these symptoms

No, they currently do not have any of these symptoms

**Continue**

**STEP 18:** Enter date of onset of symptoms.

**GOV.UK** Get a coronavirus test

ALPHA This is a new service – your [feedback](#) will help us to improve it.

[Back](#)

## When did Peter Smith's symptoms start?

Enter the date. If they cannot remember the exact date, enter the date they think it was, roughly.

Use the format DD MM YYYY, for example 15 4 2020

Day    Month    Year

**Continue**

# Individual registration upload – Process Walkthrough

## STEP 19: Enter test kit barcode

GOV.UK Get a coronavirus test

ALPHA This is a new service – your [feedback](#) will help us to improve it.

[Back](#)

### Enter your unique test kit barcode or Randox URN

There are 2 types of home test kit, one of which is branded Randox.

If you have a non-Randox test, use the camera on your phone or computer to scan one of the identical barcodes inside your test kit. You'll either find them attached to the plastic vial, biohazard bag and return box or loose for you to stick on yourself (please read instructions).

You can also manually enter the 11 character reference below the barcode.

If you have a Randox test kit, manually enter the 9 or 10 character unique reference number (URN) on the label.

[What does the barcode look like?](#)

[What does the Randox URN look like?](#)

Scan my barcode

Test kit barcode reference or URN

Confirm test kit barcode reference or URN

Continue

## STEP 20: Enter the date and time the test was completed. This can be done retrospectively.

GOV.UK Get a coronavirus test

ALPHA This is a new service – your [feedback](#) will help us to improve it.

[Back](#)

### When did Peter Smith take their swab test?

Select the date and time that you will take their swab test. If they've already taken the swab test, tell us the date and time they took it.

We need to know this so the lab can test when the test is due. If you select the wrong date and time, it may mean they receive an incorrect result.

**Select a date**

Today, 15 October 2020

Yesterday, 14 October 2020

A different date

**Enter a time**

For example, 9pm

Hour

am

pm

Continue

## STEP 21: Enter email of the person being tested. Results will be sent to this email address.

GOV.UK Get a coronavirus test

ALPHA This is a new service – your [feedback](#) will help us to improve it.

[Back](#)

### Enter an email address

We'll send their test result to this email address.

If the email address does not belong to the person being registered, make sure you have got their consent for their results to go to someone else's email address.

Email address

Confirm Email address

Continue

# Individual registration upload – Process Walkthrough

**STEP 22:** Enter mobile phone number of the person who's taken the test. If they do not have a mobile please select 'No'.

GOV.UK Get a coronavirus test

ALPHA This is a new service – your [feedback](#) will help us to improve it.

[Back](#)

## Do you want to add a mobile number?

We'll also send their test result to this mobile phone number.

If the mobile phone number does not belong to the person being registered, make sure you have got their consent for their results to go to someone else's mobile phone number.

Yes, I want to add a mobile phone number

No, I do not want to add a mobile phone number

## Individual registration upload – Process Walkthrough

Your test will have now been registered.

**The confirmation page also allows you to register more test kits should you need to.**

**Note:** The person who was tested will receive confirmation of registration via email.

The screenshot shows the NHS Test and Trace confirmation page. At the top, there is a black header with the GOV.UK logo and 'COVID-19'. Below this is a blue banner with the text 'ALPHA This is a new service – your feedback will help us to improve it.' The main content area features a large green box with the text 'Test kit registration confirmed'. Below this, there is a section for user details: 'Bob Smith', 'Bsmithlonglong@email.co.uk', '07771 900 900', 'Test kit barcode reference: CHE00000501', 'Tested: 28 March 2020', and 'Time: 9pm'. There is also a section for feedback: 'We want to hear from you' and 'Think of our (3 minutes)'. At the bottom, there is a green button that says 'Register another test kit'. The footer contains the OGL logo and text: 'All content is available under the Open Government Licence v3.0, except where otherwise stated' and the NHS logo.

# Multiple registration upload – Process Walkthrough

## Multiple registration upload – Process Walkthrough

This portal should be used to register for more test kits in one upload

**STEP 1:** Look out for our email confirming your UON

This email will come from [organisation.coronavirus.testing@notifications.service.gov.uk](mailto:organisation.coronavirus.testing@notifications.service.gov.uk) with the subject title 'COVID-19: Your new Unique Organisation Number (UON)'

**STEP 2:** Before testing, download the record keeping spreadsheet. This is available to download from <https://gov.uk/register-organisation-tests>.

The spreadsheet is the same for staff and non-staff within your organisation but you should save and upload two separate spreadsheets if you're uploading results for both groups.

**NOTE: Do not alter the spreadsheet layout.** Only use the record keeping spreadsheet provided via the online service to upload registrations. Trying to upload a different or altered spreadsheet will not work.

**STEP 3:** Once you have completed testing, visit the Organisation Registration service at: <https://gov.uk/register-organisation-tests>

**Complete registration as soon as possible after conducting testing.**

**GOV.UK** Get a coronavirus test

ALPHA This is a new service – your [feedback](#) will help us to improve it.

### Register test kits for your organisation

Use this service to register coronavirus (COVID-19) tests for your organisation.

If you're registering a test for yourself, you can still use this service. You can get the results sent directly to you by entering your personal contact details.

#### Before you start

- read the [online guidance pack](#) and your printed instructions
- if you need to, book your [courier collection here](#)
- take your test on the same day you're returning your kit

Make sure people getting tested give you consent to:

- register them
- get their results sent to the contact details you enter

#### What you'll need

- your 8 digit organisation number
- a completed version of our current [record keeping spreadsheet](#) if you're registering lots of tests
- the barcode or unique reference number for each test kit
- the home address (and ideally mobile number) to get the test results

#### How we use personal data

Find out how we use people's data when you register them for a coronavirus test. See our [coronavirus privacy note](#).

**Start now** >

## Multiple registration upload – Process Walkthrough

**STEP 4:** Complete the **record keeping spreadsheet** (sample on the next page) with details of all the individuals you are testing that day.

### Please carefully read the following notes before filling in the spreadsheet

You can enter up to 50 people per spreadsheet or tests. If you need to register more than 50 people, you will need to use multiple spreadsheets.

**Separate spreadsheets should be completed for staff and non-staff.**

On each row of the spreadsheet (for each individual tested) it is important to **enter the correct email address and phone number that you want the results for that person to be sent to – failure to do so is a breach of GDPR regulations.** Please also ensure that this email address is able to receive emails, as this is how test results will be communicated.

**TIP:** Pre-populate personal information on this spreadsheet and print the spreadsheet so that ‘Test kit URN or barcode’ and ‘Time of swab taken’ can be entered at the point of testing. **Please note that when printing only the first eight columns of the spreadsheet will print.**

**TIP:** To maximise administrative efficiencies when re-testing, rather than populate a new spreadsheet every time you test, you may want to create master spreadsheets of all staff and all non-staff. You can then create new copies for each new testing day, and simply remove the details of anybody not being tested on that day, and save the dated copy of each spreadsheet for your organisations records.

Ensure that the personal details on the master spreadsheets are kept up-to-date, and remember to add new staff members and non-staff.

# Multiple registration upload – Process Walkthrough

## STEP 5: Confirmation of written consent

GOV.UK Get a coronavirus test

ALPHA This is a new service – your [feedback](#) will help us to improve it.

< Back

### Confirm you have consent

I confirm that I've got consent from each person to register them

I confirm that I've got consent for the results to go to the contact details entered for them

Continue

## STEP 6: Select organisation type

GOV.UK Get a coronavirus test

ALPHA This is a new service – your [feedback](#) will help us to improve it.

< Back

### Which type of organisation are you?

- Care home
- GP surgery
- Dental surgery
- Prison
- Other

Continue

## STEP 7: Enter your 8 digit UON

GOV.UK Get a coronavirus test

ALPHA This is a new service – your [feedback](#) will help us to improve it.

< Back

### What's your organisation number?

This is the 8 digit number provided to you by the National Testing Programme. For example 12345678.

[What to do if you cannot find your organisation number](#)

Continue

# Multiple registration upload – Process Walkthrough

## STEP 8: Select registration method

< Back

### How do you want to register tests?

- Use our record keeping spreadsheet to add a list of personal details  
Enter and upload details for up to 50 people at a time
- Add each person's details one by one  
Use an online form to enter their details

Continue

**NOTE:** For multiple registration, select the first option which allows you to upload your completed record keeping spreadsheet.

**However, if you prefer, individual registration is still available.**

## STEP 9: Select whether you are registering staff or non-staff

< Back

### Who are you registering?

- Staff
- Non-staff (for example residents or patients)

Continue

### Why separate staff and non-staff uploads?

Staff and non-staff testing is often completed at different times and following different processes. Having separate uploads ensures the accuracy and completeness of all records.

# Multiple registration upload – Process Walkthrough

**STEP 10:** Upload your completed record keeping spreadsheet

ALPHA This is a new service – your [feedback](#) will help us to improve it.

< [Back](#)

## Upload personal details

To enter and upload personal details using our spreadsheet:

- [download our record keeping spreadsheet](#) if you have not already
- do not add any extra sheets, rows or columns
- enter personal details for up to 50 people at a time
- save the completed spreadsheet and then upload it

Upload a file

Upload file

**Upload checklist:** Ensure that your spreadsheet...

- ✓ is complete and accurate for all individuals being registered
- ✓ only contains details for 50 people at a time
- ✓ is in the correct Excel file format (.xlsx)
- ✓ does not contain any extra sheets, rows or columns, as this may impact the data upload

**STEP 11:** Select the correct date that the tests were performed.

ALPHA This is a new service – your [feedback](#) will help us to improve it.

< [Back](#)

## When did you take the tests?

- Today, Tuesday 28 July 2020
  - Yesterday, Monday 27 July 2020
  - A different date
- or
- On multiple days

Continue

### Why are we asking for this?

This is to let the labs know when the test was taken so that they can ensure that the test is not void.

# Multiple registration upload – Process Walkthrough

The online service will now automatically display the relevant personal details from the record keeping spreadsheet upload.

Before entering the Barcode/URN and time of test for each individual, please do a quick check of personal details to ensure that they are correct. To see details in full, click 'view personal details' under each individual's name.

**NOTE:** Take extra care to ensure that email addresses and phone numbers are correct, as this is where test results will be sent.

Personal details: Alun Smith
