10 June 2024

Dear [REDACTED]

Thank you for your emails of 8 May 2024 to the Ministry of Defence (MOD), requesting the following information:

"Do you have an update on FOI2023/13761 (attached) in regard to any that were listed at the time as 'Cause Not Currently Available'?"

"Could I get an update on the number of deaths among serving UK Armed Forces personnel based at each military base to Feb 2021 to June 2022 and Oct 31 2023-latest date. (I already have the data from June 1 2022-Oct 31 2023)

Please provide totals as well as a breakdown of all deaths, specifying the name, age, rank, the month and year they died, the base at which they were registered at the time of their death, and the cause of death.

Could I also ask that you highlight any cases where the cause of death is not listed as suicide as per Defence Statistics Health, but the mechanism of injury suggests suicide and a coroner's inquest is yet to begin/conclude."

I am treating your correspondence as a request for information under the Freedom of Information Act 2000 (FOIA).

A search for the information has now been completed within the MOD and I can confirm all information in scope of your request is held. However, some of the information you have requested falls within the scope of the qualified exemptions Section 38 (Health and Safety) and Section 26 (Defence).

Under Section 38 of the FOIA, information is exempt if its disclosure would, or would be likely to endanger the physical or mental health of any individual, and under Section 26(1)(b) of the FOIA, information is exempt if its disclosure would, or would be likely to, prejudice the capability, effectiveness, or security of any relevant forces. As both of these are qualified exemptions, it was necessary for the Department to decide whether, in all the circumstances of the case, the public interest in maintaining the exemption outweighed the public interest in disclosure.

The public interest test has now been completed and I can advise that after careful consideration of the information, the balance of public interest was found to be in favour of

withholding specific details under Section 38 for individuals whose death may suggest suicide but have yet to have a Coroner's inquest completed, to protect the wellbeing of the Next of Kin. Additionally, the balance of public interest was found to be in favour of withholding specific details under Section 26(1)(b) of the Act for several deaths, namely name, age, rank and unit location.

I can confirm that for the period 1 February 2021 to 30 April 2024, there were 227 deaths among UK armed forces personnel. Annex A provides the name, age, rank, month and year of death, unit location at time of death, and cause of death.

Under section 16 of the Act (Advice and Assistance), you may find it useful to note that Defence Statistics Health compiles the Department's authoritative deaths database for all UK Armed Forces personnel who died whilst in Service going back to 1984. Information is compiled from several internal and external sources from which we release several internal analyses and external Accredited Official Statistics Notices.

The information on deaths presented are for UK Armed Forces Regular personnel and only those UK Armed Forces Reservists who died whilst deployed on operations, as Defence Statistics Health do not routinely receive notification of all Reservists deaths.

Defence Statistics receive weekly notifications of all Regular Armed Forces deaths from the Joint Casualty and Compassionate Cell (formerly the single service casualty cells). Defence Statistics also receive cause of death information from military medical sources in the single services. At the end of each calendar year, Defence Statistics cross-reference the medical information it holds against publicly available death certificate information available from NHS Digital and The General Registrar's Office Scotland.

When providing statistics on suicides, Defence Statistics Health rely exclusively on the information provided by coroners in England and Wales and in Northern Ireland, and the Procurator Fiscal in Scotland. This ensures the Department's objectivity, as all accidental deaths and those resulting from violent action have to be referred to these officials for investigation. There is an obligation for all accidental deaths, and those resulting from violent action, to be referred to these officials. Inquests are usually held within a few months of the death, but occasionally a few years may elapse, therefore some recent deaths may not have clearly defined causal information. In these cases, deaths are identified as waiting verdicts and classified as "Other Accident" for cause of death whilst awaiting a Coroner's verdict.

The information presented for suicides includes coroner-confirmed suicides in line with the definition used by the Office for National Statistics (ONS) in the publication of National Statistics. The National Statistics definition of suicide includes deaths given an underlying cause of intentional self-harm or an injury/poisoning of undetermined intent. In England and Wales, it has been customary to assume that most injuries and poisonings of undetermined intent are cases where the harm was self-inflicted, but there was insufficient evidence to prove that the deceased deliberately intended to kill themselves and thus given an open or narrative verdict by the coroner. The convention of including both suicide and open verdicts has been adopted across the UK. In accordance with ONS practice, throughout, the term 'suicide' should be understood to include all suicide and open verdict deaths.

All causes of death are coded to the International Classification of Diseases 10th edition (ICD-10) which is produced by the World Health Organisation (WHO).

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact us in the first instance at the address above. If informal resolution is not possible and you are still dissatisfied then you may apply for an

independent internal review by contacting the Information Rights Compliance team, Ground Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Please note that any request for an internal review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not normally investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.ico.org.uk>.

Yours sincerely,

Defence Business Services Secretariat

UK armed forces deaths 1 February 2021 to 30 April 2024

Name	Age	Rank	Date of death	Unit location	Cause of death	Cause of death updated since ¹ FOI2023/13761
