

UK spontaneous suspected ADR reports for hyaluronidase up to and including 20/03/2024

Table 1: UK spontaneous suspected ADR reports for hyaluronidase where reported as the only suspect drug, broken down by dose

Dose	Units	Number of reports
2	IU	1
4	IU	1
5	IU	1
6	IU	1
30	IU	2
45	IU	1
50	IU	1
90	IU	1
150	IU	2
300	IU	3
450	IU	1
500	IU	2
750	IU	3
1000	IU	1
1500	IU	25
3000	IU	1
400-750	IU	1
0.75	mg	1
500	mg	1
1000	mg	7
1400	mg	1
1809	mg	1
0.3	ml	1
0.6	ml	1
1	ml	2
7	ml	1

Table 2: UK spontaneous suspected ADR reports for hyaluronidase, broken down by drug name

Drug name	Number of Reports
Hyaluronidase	55
Hyalase	58
Lesionl	11
Xydotase	4

Table 3: UK spontaneous suspected ADR reports for hyaluronidase, broken down by indication

Indication	Number of Reports
Back pain	1
Glaucoma	1
Hyaluronic acid	1
Intraocular lens implant	1
Localised oedema	1
Lymphoma	1
Neck pain	1
Skin test	1
Skin test positive	1
Vascular occlusion	1
Surgery	2
Dermal filler overcorrection	2
Fluid replacement	2
Ill-defined disorder	2
Product use in unapproved indication	2
Dermal filler injection	3
Cataract operation	4
HER2 positive breast cancer	4
Anaesthesia	5
Breast cancer metastatic	5
Off label use	6
Product used for unknown indication	6
Adverse drug reaction	7
Local anaesthesia	11

Table 4: UK spontaneous suspected ADR reports for hyaluronidase, broken down by reporter qualification

Reporter qualification	Number of Reports
Physician*	2
Pharmaceutical industry	3
Nurse*	14
Pharmacist*	20
Consumer or other non health professional	31
Other healthcare professional*	43

**\*aggregated group**  
**Physician:** Hospital doctor, Physician, GP  
**Nurse:** Hospital nurse, Nurse  
**Pharmacist:** Community pharmacist, Pharmacist, Hospital pharmacist  
**Other healthcare professional:** Dentist, Hospital healthcare professional, Optometrist, Other healthcare professional

Table 5: UK spontaneous suspected ADR reports for hyaluronidase for selected MedDRA PTs and reported outcomes

Reaction PT	Total number of reports	Outcomes				
		Recovered/Resolved	Recovered/Resolved with Sequelae	Recovering/Resolving	Not recovered/Not resolved	Unknown
SKIN REACTIONS	0					
ANAPHYLACTIC REACTION	9	4	1	3		1
MUSCLE SPASMS	1				1	
MUSCULOSKELETAL STIFFNESS	2				2	
MUSCULAR WEAKNESS	2	2			1	
PAIN	5	2		1	1	1
ERYTHEMA	8	3		2		
ECZEMA	1					1
HAEMATOMA	0					
CONTUSION	1			1		
RASH	6	2		1	2	1
OEDEMA	0					
RASH ERYTHEMATOUS	4	3		1		
CELLULITIS*	1			1		
OSTEOMYELITIS*	1	1				
DEVICE RELATED INFECTION*	2	2				
INJECTION SITE ABSCESS*	4	2			1	1
SEPSIS*	2	2				
NAIL INFECTION*	1					1
STAPHYLOCOCCAL INFECTION*	1				1	
WOUND INFECTION STAPHYLOCOCCAL*	1				1	
SINUSITIS*	2	1				1
URINARY TRACT INFECTION*	4	2				2
VASCULAR DEVICE INFECTION*	1	1
