Dear Section 62A Applications Team,

Thank you for consulting with the aerodrome safeguarding authority for Stansted Airport on this case.

We have no objection to this development on the understanding that the developer will use up-to-date technology in order to minimise the potential for glint and glare.

The applicant's attention is drawn to the procedures for crane and tall equipment notifications, please see: <https://www.caa.co.uk/Commercial-industry/Airspace/Event-and-obstacle-notification/Crane-notification/>

Sincerely,

Diane Jackson
