

Office of  
the Schools  
Adjudicator

## Determination

**Case reference:** VAR2433

**Admission authority:** Hampshire County Council for South Wonston Primary School, Winchester

**Date of decision:** 16 July 2024

## Determination

In accordance with section 88E of the School Standards and Framework Act 1998, I approve the proposed variation to the admission arrangements determined by Hampshire County Council for South Wonston Primary School, Winchester for September 2024.

**I determine that for September 2024 the published admission number will be 30.**

## The referral

1. Hampshire County Council (the local authority) has referred a proposal to the adjudicator for a variation to the admission arrangements for September 2024 (the arrangements) for South Wonston Primary School (the school). The school is a community school for children aged four to eleven near Winchester.
2. The proposed variation is to reduce the published admission number (PAN) for September 2024 from 45 to 30.

## Jurisdiction and procedure

3. The referral was made to me in accordance with section 88E of the School Standards and Framework Act 1998 (the Act) which deals with variations to determined arrangements. Paragraphs 3.6 and 3.7 of the School Admissions Code (the Code) say (in so far as relevant here):

“3.6 Once admission arrangements have been determined for a particular school year, they cannot be revised by the admission authority unless such revision is necessary to give effect to a mandatory requirement of this Code, admissions law, a

determination of the Adjudicator or any misprint in the admission arrangements. Admission authorities may propose other variations where they consider such changes to be necessary in view of a major change in circumstances. Such proposals **must** be referred to the Schools Adjudicator for approval, and the appropriate bodies notified. Where the local authority is the admission authority for a community or voluntary controlled school, it **must** consult the governing body of the school before making any reference.

3.7 Admission authorities **must** notify the appropriate bodies of all variations”.

4. The local authority has provided me with confirmation that the appropriate bodies have been notified. I have seen confirmation that the school’s governing body has been consulted on the proposed variation. I find that the appropriate procedures were followed, and I am also satisfied that the proposed variation is within my jurisdiction.
5. In considering this matter I have had regard to all relevant legislation, and the Code.
6. The information I have considered in reaching my decision includes:
  - a. the referral from the local authority dated 14 June 2024, supporting documents and further information provided at my request;
  - b. the determined arrangements for 2024 and the proposed variation to those arrangements;
  - c. a map showing the location of the school and other relevant schools; and
  - d. information available on the websites of the local authority, the school and the Department for Education.

## The proposed variation

7. The proposed variation is to reduce the PAN from 45 to 30 for admissions to reception year (YR) in September 2024. The arrangements for the school for 2024/25 were determined by the local authority on 21 February 2023.
8. The referral states:

“On the national notification day for September 2024 admissions the school offered 25 places for Year R children. The planning area of Winchester Rural North made a total of 119 Year R offers, however there are 155 Year R places available within that planning area currently.”

The LA has subsequently confirmed that, as of 25 June 2024, 26 offers of a YR place have been made for admission to the school in September 2024. Therefore, 120 YR offers have been made in the planning area as a whole.

9. The referral shows that the school currently has 11 classes, two YR classes and nine mixed-age classes. In Years 1 and 2 there are three mixed-age classes. Similarly, there are three mixed-age classes in Years 3 and 4 and three in Years 5 and 6. The current organisation and pupil numbers are set out in table 1.

**Table 1: South Wonston Primary School arrangement of current classes and pupil numbers**

<b>Class</b>	<b>YR</b>	<b>Y1</b>	<b>Y2</b>	<b>Y3</b>	<b>Y4</b>	<b>Y5</b>	<b>Y6</b>	<b>Total</b>
<b>1</b>	22							<b>22</b>
<b>2</b>	18							<b>18</b>
<b>3</b>		14	14					<b>28</b>
<b>4</b>		14	14					<b>28</b>
<b>5</b>		13	15					<b>28</b>
<b>6</b>				13	17			<b>30</b>
<b>7</b>				14	16			<b>30</b>
<b>8</b>				15	14			<b>29</b>
<b>9</b>						14	15	<b>29</b>
<b>10</b>						14	13	<b>27</b>
<b>11</b>						15	13	<b>28</b>
<b>Total</b>	<b>40</b>	<b>41</b>	<b>43</b>	<b>42</b>	<b>47</b>	<b>43</b>	<b>41</b>	<b>297</b>

10. The referral explains that the intention is to move to a 10 class model from September 2024 with one YR class. The referral states:

“Because the offers for September 2024 are low, failure to reduce the PAN could result in the school needing to operate 11 classes when there are sufficient school places within the planning area and also the local proximity. Offers for 2024 at the neighbouring schools Micheldever Church of England Primary School (11/17), Itchen Abbas Primary School (15/15), Kings Worthy Primary School (51/60) and Sparsholt C E Primary School (17/18), most schools will be undersubscribed in September.

If the school are unable to reduce their PAN for the 2024/2025 academic year, they may need to continue their 11-class organisation structure, as they will need to continue admitting children up to 45 if applications are made naming the school. This would not be financially viable when the school does not have the pupil numbers or forecast data to support this.”

11. Paragraph 3.6 of the Code (as above) requires that admission arrangements, once determined, may only be revised, that is changed or varied, if there is a major change of circumstance or certain other limited and specified circumstances. I will consider below whether the variation requested is justified by the change in circumstances.

## Consideration of proposed variation

12. There is no formal consultation required for a variation and so parents and others do not have the opportunity to express their views. Clearly it is desirable that PAN reductions are made via the process of determination following consultation, as the consultation process allows those with an interest to express their views. It also allows for objections to the adjudicator. None of this is afforded by the variation process.

13. It is, therefore, particularly important that the proposed variation is properly scrutinised. I have accordingly considered the latest available data to form a view about whether there will be a sufficiency of school places in the local area if the school's PAN for September 2024 is reduced from 45 to 30. I have also considered the demand for places at the school, the reasons given for the change and the potential effect on parental preference.

14. Before I consider the proposed variation, I note that the local authority has determined the 2025/26 arrangements, including a PAN of 45, for the school on 20 February 2024. As those arrangements have already been determined, my decision affects only admissions to YR at the school for 2024. If the local authority and the school wish to vary the arrangements for 2025 there will need to be a further request for a variation submitted.

15. The local authority has a duty to make sure that there are sufficient places for the children in its area. To fulfil this duty, the local authority assesses the likely future number of places to be needed and plans to meet that need. The local authority uses planning areas, which are geographical areas each containing a number of schools, for this purpose. The school is one of five schools providing primary education in the Winchester Rural North planning area of Hampshire. All five schools are primary schools providing education for children aged four to eleven. The normal year of entry is YR.

16. Table 2 summarises the data supplied to me by the local authority for each of the schools in the planning area that admit children into YR; the number of children admitted in each of the previous three years; the number of places offered for 2024 and the forecast numbers for 2025.

**Table 2: The number of school places in the planning area and the number of children admitted into YR (data provided 25/06/2024)**

	2021	2022	2023	2024*	2025**
<b>The total PAN for the schools in the planning area that admit into YR</b>	155	155	155	155	155
<b>The total number of children in the planning area admitted into YR</b>	135	125	140	120*	131**
<b>Vacant places in the planning area</b>	20	30	15	35	24
<b>Vacant places in the planning area as a proportion of total number of places expressed as a percentage</b>	12.9	19.4	9.7	22.5	15.5

\* The number of children allocated a place for September 2024

\*\* Forecast data

17. Table 2 shows that, there are likely to be over 30 vacant places for YR children in the planning area in September 2024.

**Table 3: The PAN and the number of places offered for September 2024 for each school within the planning area admitting to YR (Data correct 25/06/2024)**

<b>School name</b>	<b>PAN</b>	<b>No of places offered</b>	<b>No. of vacant places</b>
Itchen Abbas Primary School	15	15	0
Kings Worthy Primary School	60	51	9
Micheldever CE Primary School	17	11	6
<b>South Wonston Primary School</b>	<b>45</b>	<b>26</b>	<b>19</b>
Sparsholt CE Primary School	18	17	1
<b>Total</b>	<b>155</b>	<b>120</b>	<b>35</b>

18. Table 3 shows that all but one school within the planning area is likely to have vacant places in YR in September 2024. Indeed, the school itself will have vacant places. I am, therefore, assured that if the PAN for the school were to be reduced from 45 to 30, there would be sufficient vacant places in the area for those seeking a place in YR during the academic year. I am also assured that parents would be able to secure a place either at the school itself or at another local school as there are likely to be places available at most schools in the area. I do not, therefore, consider that there is any evidence to suggest a likelihood that parental preference would be frustrated if the variation is approved.

19. The request for a variation refers to the risk of the school “needing to operate 11 classes” and that this “would not be financially viable when the school does not have the pupil numbers or forecast data to support this”. The school is regulated by the provisions of the School Admissions (Infant Class Size) (England) Regulations 2012 (the infant class size regulations). The infant class size regulations require that infant classes (those where the majority of children will reach the age of five, six or seven during the school year) must not

contain more than 30 pupils with a single qualified school teacher, except in specific exceptional circumstances.

20. If the PAN for the school were to remain at 45, then any in-year applications for YR will have to be admitted until at least 45 children have been admitted. The infant class size regulations apply to YR and so in the event of any admissions that take YR above 30 children, the school would have to either create an extra class or reorganise their infant children to incorporate YR children into mixed age classes. This would present a significant logistical and/or financial challenge.

21. For admission in September 2024, 26 places have been offered. All applicants have been offered a place at the school and would also have been offered places if the PAN had been 30. I have expressed my concern about the lack of consultation when changes are made to admission arrangements by means of a variation. However, in this case the concern appears unwarranted in the sense that all parents seeking a place for their child at the school have been offered a place and there remain four unallocated places which would be available should a family seek a place for a child during the school year.

22. After consideration of all the factors above, I find that the variation is justified by the circumstances, and I approve it. The PAN for the academic year 2024/25 will be 30.

## **Determination**

23. In accordance with section 88E of the School Standards and Framework Act 1998, I approve the proposed variation to the admission arrangements determined by Hampshire County Council for South Wonston Primary School, Winchester for September 2024.

24. I determine that for September 2024 the published admission number will be 30.

Dated: 16 July 2024

Signed:

Schools adjudicator: Catherine Crooks
