

### Hayati Twist 5000 + Puffs Electronic Vape (Juicy Peach)

Aspect	Details
Images	 The image shows the retail packaging for the Hayati Twist 5000+ Puffs Juicy Peach e-cigarette. The box is white with red and black accents and features the brand name 'HAYATI TWIST' and '5000+ PUFFS JUICY PEACH'. A warning label on the box states: 'This product contains nicotine which is a highly addictive substance'. Next to the box are the two components of the product: a small, dark plastic e-liquid tank and a larger, silver and black electronic cigarette device with the brand name 'HAYATI TWIST' printed on it.
PSD Number	2407-0026
Product Type	Gadgets – Electronic Cigarette/Vape
Product Identifiers	Brand: Hayati Barcode: 6977119131496
Product Description	The product is a non-rechargeable 5000+ Puff Electronic Vape containing a battery and a separate plastic tank containing a peach scented nicotine-containing liquid.
Country of Origin	China
Counterfeit	No
Risk Level	High
Risk Type	Chemical
Risk Description	The product presents a high chemical risk as the 10ml nicotine e-liquid cartridge which attaches to the device is not locked to the device robustly and can be easily removed. This allows the toxic nicotine e-liquid to leak out of the device and cartridge, presenting a risk to human health. E-cigarettes are required to be child-resistant and tamper-evident, and therefore the product does not meet the requirements of the Tobacco and Related Products Regulations 2016.
Corrective Measures	The import has been rejected at the border and the manufacturer has redesigned the product to ensure the e-liquid cartridge locks effectively. Owners should stop using the vape immediately and check whether they have an affected device by attaching the e-liquid cartridge and trying to remove it. Affected devices should be disposed of safely. Vapes should not be placed in the same bins as your regular rubbish or recycling. Their batteries can cause a fire if they overheat or when crushed in bin lorries or waste and recycling plants. You can find out how to dispose of your vape safely by checking your local authority's website for information about the safe disposal of batteries in your area or you can find your nearest recycling centre at: <a href="http://www.recycleyourelectricals.org.uk">www.recycleyourelectricals.org.uk</a>
Online Marketplace	N/A
