Subject: Land to west of Thaxted Road Saffron Walden Essex s62a/2024/0051 sheet 230067-13d walking and cycling network.

[REDACTED]

With reference to the proposed development S62A/2024/0051 :

Sheet 230067-13D now shows a proposed cycle/walking track access from/to the development site and the Glebe.

The position of this track as it is shown indicates that it would impinge on the private car parking allocated areas at this end of The Glebe.

These areas are privately owned.

The passage of people and cycles around peoples' cars etc, is not physically possible, and anyway, would require permission from the appropriate owners of those allocations, which relate to the immediate houseowners.

Therefore, I propose that this access is NOT allowed.

Secondly, assurances should be clearly given with regard to the question of new construction homes overlooking the immediate adjoining houses in the Glebe.

Thankyou,
C.W.Russell
