PART I: TERMS OF THE LICENCE

1. This licence, granted by the Secretary of State under section 7(1) (as modified by section 16 and Schedule 1) of the Energy Act 2023 (the "**Act**"), authorises [**●**], a company registered in England and Wales under company registration number [**●**] (the "**Licensee**") whose registered office is situated at [**●**], to participate in carrying out the activities set out in section 2(2) of the Act in the area specified in Schedule 1, during the period specified in paragraph 3 below, subject to:
 - (a) the standard conditions set out in PART II ("**the conditions**");
 - (b) the special conditions, if any, set out in Part III (the "**special conditions**"); and
 - (c) such Schedules to the licence, if any, as may be referenced in the conditions, the special conditions or the terms of the licence.
2. This licence is subject to transfer, modification or amendment in accordance with the provisions of the Act, the special conditions or the conditions.
3. This licence shall come into force on [**●**] and unless revoked in accordance with Schedule 2, shall continue until determined by not less than 25 years' notice in writing given by the economic regulator (the "**Regulator**") to the Licensee where such 25 years' notice cannot be served before the date on which Section H of the special conditions of this licence takes effect.
4. All notices or other communications under or in connection with the licence must be in writing.
5. Any such notice or communication will be deemed to have been received, provided it has been addressed and sent to the correct contact person and/or department, notified in accordance with paragraph (c) below:
 - (a) at the time of delivery, if delivered by hand or courier (including by postal "signed for" services) ; or
 - (b) at the time of sending, if sent by electronic mail, provided that receipt shall not occur (i) if the sender receives an automated message indicating that the email has not been delivered to, or received by, the recipient; and/or (ii) until 9.00 am the next Business Day if the time of sending is between 5.00 pm and 9.00 am,
 - (c) each in accordance with the contact details specified by either the Regulator or the Licensee from time to time (which may include different contact details dependant on the subject matter of the notice or communication).
6. Paragraphs 4 and 5 shall not apply to any document in relation to the service of which provision is made by rules of court.
7. Without prejudice to sections 11 and 23(1) of the Interpretation Act 1978, Parts I to III of this licence and its Schedules shall be interpreted and construed in the same manner as an Act of Parliament passed after the commencement of the Interpretation Act 1978.
8. References in this licence to a provision of any enactment, where after the date of this licence:
 - (a) the enactment has been replaced or supplemented by another enactment; and

- (b) such enactment incorporates a corresponding provision in relation to fundamentally the same subject matter,

shall be construed, so far as the context permits, as including a reference to the corresponding provision of that other enactment.

- 9. Words and expressions used in this Part I that are defined terms for the purposes of any of the conditions or the special conditions of this licence have, for the purposes of this Part I, the meaning that is given to them in this licence in the form in which it was in force at Licence Award.

PART II: STANDARD CONDITIONS

Note: the Standard Conditions set out in this licence are not standard conditions that have been determined as such by the Secretary of State pursuant to section 12 of the Energy Act 2023.

Draft

Section A: Interpretation, application and payments

Reference	Subject matter	Page
Standard Condition A1	Definitions for the standard conditions	7
Standard Condition A2	Interpretation of this licence	34
Standard Condition A3	Payment of the Licence Fee	39
Standard Condition A4	Housekeeping Modifications	41
Standard Condition A5	T&S Network Area	43

Standard Condition A1: Definitions for the standard conditions

Introduction

- 1.1 This condition sets out most of the defined words and expressions (all of which begin with capital letters) that are used in the standard conditions of Sections A, B, C and D of this licence, and gives their definitions next to them.
- 1.2 But where defined words and expressions are used only in a particular standard condition, their definitions are included in that condition.

Structure of this condition

- 1.3 Part A sets out the definitions used in the standard conditions of this licence.

Part A: Definitions in alphabetical order

- 1.4 In the standard conditions of this licence, unless the context otherwise requires:

"Act"	means the Energy Act 2023;
"Affiliates"	means, in relation to the Licensee, any Parent Undertaking of the Licensee, any Subsidiary Undertaking of the Licensee, or any Subsidiary Undertaking of a Parent Undertaking of the Licensee;
"Agreed Upon Procedures"	means procedures from time to time agreed between the Regulator, the Appropriate Auditor, and the Licensee for the purpose of enabling the Appropriate Auditor to review and report to the Regulator on matters relating to: (a) in the case of Standard Condition B10 (<i>Regulatory Accounts</i>), the Licensee's compliance with the obligation to which Part V of that standard condition refers; and (b) in the case of Standard Condition B19 (<i>Regulatory Instructions and Guidance</i>), the Licensee's provision of Specified Information;
"Amendment"	means, in relation to a contract, any amendment (including amendment of scope), supplement, novation, replacement, waiver, renewal or extension of term (including extension by way of exercise of an option pursuant to that contract) of that contract;
"Applicable Accounting Framework"	means either:

- (a) in respect of any reference to statutory accounts of the Licensee (except for group accounts):
 - (i) individual accounts prepared in accordance with section 396 of the Companies Act 2006; or
 - (ii) individual accounts prepared in accordance with international accounting standards;or
- (b) in respect of any reference to statutory accounts of the Licensee that are group accounts:
 - (i) group accounts prepared in accordance with section 404 of the Companies Act 2006; or
 - (ii) group accounts prepared in accordance with international accounting standards;

"Applicable Procurement Threshold" means a "threshold amount" as set out in Schedule 1 of the Procurement Act 2023, as such threshold amount is updated from time to time;

"Appropriate Auditor" means:

- (a) in the case of a licensee that is a company within the meaning of section 1 of the Companies Act 2006, a person appointed as auditor under Chapter 2 of Part 16 of that Act; and
- (b) in any other case, a person who is eligible for appointment as a company auditor under Part 42 of that Act;

"Appropriate Proportion" has the meaning given to it in Standard Condition A3.5 (*Payment of Licence Fee*);

"Approved Contracts" means the contracts listed in the List of Approved Contracts, in each case in the form:

- (a) entered into as at Licence Award; or
- (b) as may be subsequently approved by the Regulator in accordance with Standard Condition B26 (*Approved Contracts*);

"Approved Offshore Decommissioning" means the Offshore Decommissioning Funding and Investment Strategy approved by the Regulator in

"Funding and Investment Strategy"	accordance with Standard Condition D2.7 (<i>Offshore Decommissioning Fund</i>);
"Approved Onshore Decommissioning Fund Cost Estimate"	means the Onshore Decommissioning Fund Cost Estimate approved by the Regulator under C2.7 (<i>Onshore Decommissioning Fund</i>);
"Approved Onshore Decommissioning Funding and Investment Strategy"	means an Onshore Decommissioning Funding and Investment Strategy approved by the Regulator under Standard Condition C2.7 (<i>Onshore Decommissioning Fund</i>);
"Approved Onshore Holding Arrangements"	means the Onshore Holding Arrangements approved by the Regulator in accordance with Standard Condition C2.7 (<i>Onshore Decommissioning Fund</i>);
"Approved Project Development Plan" or "APDP"	means the project development plan designated as such as at Licence Award, based on the template included in Schedule 6, as updated in accordance with the conditions of this licence;
"Asset Management Objectives"	means developing, operating and maintaining the T&S Network in a manner which: <ul style="list-style-type: none">(a) is economic, efficient and effective;(b) is consistent with Good Industry Practice;(c) complies with all safety and other applicable Legal Requirements; and(d) complies with such other objectives as the Regulator may set out in Asset Management Plan and Reporting Guidance;
"Asset Management Plan"	means the plan to be provided by the Licensee to the Regulator in accordance with the requirements of Standard Condition B15 (<i>Asset Management Plans</i>) as may be updated from time to time in accordance with this licence;
"Asset Management Plan and Reporting Guidance"	means the document issued by the Regulator from time to time pursuant to a direction under Standard Condition B15 (<i>Asset Management Plans</i>);
"Associate"	means: <ul style="list-style-type: none">(a) an Affiliate or Related Undertaking of the Licensee;(b) an Ultimate Controller of the Licensee;

	(c) a Participating Owner of the Licensee; or
	(d) a Common Control Company of the Licensee;
"Backstop Direction"	has the meaning given in Standard Condition B5.24 (<i>CCS Network Code</i>);
"Business Day"	means a day (other than a Saturday or Sunday) on which banks are open for domestic business in the City of London;
"carbon dioxide" (or "CO₂")	means a stream consisting overwhelmingly of carbon dioxide molecules, and references to carbon dioxide being delivered by a User to the T&S Network assume that the stream being delivered is overwhelmingly carbon dioxide;
"CCS Decommissioning Fund Guidance"	means guidance prepared and published by the Regulator in relation to the Licensee's obligations relating to the establishment of the Onshore Decommissioning Fund and the Offshore Decommissioning Fund;
"CCS Network Code"	has the meaning given to it in Standard Condition B5 (<i>CCS Network Code</i>);
"CCS Network Code Website"	has the meaning given to it in Standard Condition B5.6(b) (<i>CCS Network Code</i>);
"Change in Scope"	has the meaning given to it in Special Condition E1.2 (<i>Definitions</i>);
"Charging Year"	means a period of 12 months commencing on 1 April and ending on 31 March, save that: (a) the first Charging Year will commence on Licence Award and end on the immediately following 31 March; and (b) the final Charging Year will commence on 1 April immediately preceding the last day of the term of this licence and end on that day;
"Commercial Operations Date"	has the meaning given to it in Special Condition E1 (<i>Definitions</i>);
"Commissioning Period"	has the meaning given to it in Special Condition E1 (<i>Definitions</i>);
"Common Control Company"	means, in relation to any person, a company any of whose Ultimate Controllers is also an Ultimate Controller of that person;

"Compliance Officer"	has the meaning given to it in Standard Condition B7.11 (<i>Independence of the T&S Business and restricted use of Confidential Information</i>);
"Compliance Report"	has the meaning given to it in Standard Condition B7.16 (<i>Independence of the T&S Business and restricted use of Confidential Information</i>);
"Compliance Statement"	has the meaning given to it in Standard Condition B7.4 (<i>Independence of the T&S Business and restricted use of Confidential Information</i>);
"Connection Agreement"	means a connection agreement entered into between the Licensee and a User of the T&S Network in accordance with the provisions of the CCS Network Code;
"Confidential Information"	means information relating to, or derived from, the T&S Business that is not published or otherwise legitimately in the public domain;
"Control"	means, for the purposes of a Qualifying Acquisition, either: <ul style="list-style-type: none">(a) where the percentage of shares or voting rights that the person holds in the Licensee increases:<ul style="list-style-type: none">(i) from 25% or less to more than 25%;(ii) from 50% or less to more than 50%; or(iii) from less than 75% to 75% or more, or(b) where the acquisition is of voting rights in the Licensee that (whether alone or together with other voting rights held by the person) enable the person to secure or prevent the passage of any class of shareholder resolution governing the affairs of the Licensee with respect to all or substantially all matters relating to the T&S Business; or(c) where the acquisition is of assets which fall within the regulatory ringfence under this licence, the acquisition of a right or interest such that the person is able:<ul style="list-style-type: none">(i) to use the asset, or use it to a greater extent than prior to the acquisition; or(ii) to direct or control how the asset is used, or direct or control how it is used to a greater extent than prior to the acquisition;

"Construction Period"	has the meaning given to it in Special Condition E1 (<i>Definitions</i>);
"Corporate Governance Statement"	has the meaning given to it in Standard Condition B10.18 (<i>Regulatory Accounts</i>);
"Corporate Information"	means information of a type that would usually be disclosed in the context of and limited to normal business reporting or governance and oversight of a company;
"CPIH"	means: <ul style="list-style-type: none">(a) all items index of consumer price inflation including owner occupiers' housing costs published each month by the Office for National Statistics;(b) if that index is no longer being published, such index as the Regulator may reasonably determine to be appropriate in the circumstances; or(c) if there is a material change to the basis of that index, such other index as the Regulator may from time to time reasonably determine to be appropriate in the circumstances;
"CPIH Indexed"	means that the relevant amount is subject to indexation by CPIH at the start of each Charging Year after Licence Award;
"Cross-Default Obligation"	means, other than a payment obligation that is a Permitted Payment, a term of any agreement or arrangement whereby the Licensee's liability to pay or repay any debt or other sum arises or is increased or accelerated, or is capable or arising, increasing or of acceleration by reason of a default (howsoever such default may be described or defined) of any person other than the Licensee;
"Crown Estate"	means the statutory corporation established under the Crown Estate Act 1961;
"Crown Estate Scotland"	means the public corporation established under the Crown Estate Scotland (Interim Management) Order 2017;
"Data"	means the information contained in any submissions to the Regulator under this licence in respect of which the Licensee must carry out a Risk Assessment, as specified in the Data Assurance Guidance (as may be further clarified in the Data Assurance Guidance);

"Data Assurance Activity"	means, in respect of Data, an activity undertaken by or on behalf of the Licensee in order to verify or provide assurance that the Data meets the required level of accuracy and reliability (as may be further clarified in the Data Assurance Guidance);
"Data Assurance Guidance"	means the document issued by the Regulator from time to time pursuant to a direction under Standard Condition B20 (<i>Data Assurance</i>);
"Data Best Practice Guidance"	means the guidance issued by the Regulator pursuant and for the purposes of Standard Condition B25 (<i>Digitalisation</i>);
"De Minimis Business"	has the meaning given to it in Standard Condition B13.8 (<i>Restriction on activity and financial ringfencing</i>);
"Decommissioning Regulations"	means the regulations in respect of the decommissioning costs of carbon dioxide-related sites, pipelines or installations, made under section 92 of the Act;
"Delivery Point"	means a point at the boundary between a User's facilities and the T&S Network, more particularly described in the User's Connection Agreement, at which a User transfers title in carbon dioxide to the Licensee;
"Designated Non-Code Party"	has the meaning given to it in Standard Condition B5.9 (<i>CCS Network Code</i>);
"Directors' Report"	has the meaning given to it in Standard Condition B10.18 (<i>Regulatory Accounts</i>);
"Disposal"	means (under the laws applicable in any part of the UK) any of the following: <ul style="list-style-type: none">(a) a transfer of any asset (whether or not for value) to a person other than the Licensee (including any disposal of any right or interest in that asset whether legal or beneficial); or(b) a lease, licence, or loan of (or the grant of any other right of possession in relation to) any asset; or(c) the grant of any mortgage, charge, or other form of security or encumbrance over any asset; or(d) if the asset is an interest in land, any transaction or event that is capable under any enactment or rule

of law of affecting the title to a registered interest in that land,

and references to "dispose" are to be read accordingly;

"Distribution"

means any distribution within the meaning of section 829 of the Companies Act 2006 or any other payment, repayment, redemption, discharge (by way of set-off, counterclaim or otherwise) or other dividend, distribution or the like, whether in cash or in kind, made by or on behalf of the Licensee to any Associate howsoever the same may arise and whether pursuant to the terms of an agreement (including any loan agreement) or otherwise or by way of gift other than a payment required under the Approved Contracts;

"Energy System Data"

has the meaning given to that term in the Data Best Practice Guidance;

"Equity Share"

has the meaning given to it in Standard Condition B13.14 (*Restriction on activity and financial ringfencing*);

"Examiner"

means a member of the Regulator's staff, or any other person, whose degree of knowledge and experience is appropriate for the purposes of the relevant review under Standard Condition B20 (*Data Assurance*);

"Fast Track Self-Governance Criteria"

means that a proposal, if implemented:

- (a) would meet the Self-Governance Criteria; and
- (b) is properly a housekeeping modification required as a result of some error or factual change, including but not limited to:
 - (i) updating names or addresses listed in the CCS Network Code;
 - (ii) correcting minor typographical errors;
 - (iii) correcting formatting and consistency errors, such as paragraph numbering; or
 - (iv) updating out of date references to other documents or paragraphs;

"Fast Track Self-Governance Route"

has the meaning given to it in Standard Condition B5.29 (*CCS Network Code*);

"Financial Resilience Report"

has the meaning given to it in Standard Condition B18.10 (*Financial Resilience and Credit Quality*);

"Financial Settlement Document"	means the financial settlement document designated as such as at Licence Award, based on the template included in Schedule 3, as updated in accordance with the conditions of this licence;
"Financing Documents"	means the financing documents entered into by the Licensee with financial institutions and other parties for the purpose of financing the T&S Business;
"First Regulatory Period"	means the period from Licence Award to the first 31 March to occur on or following the third anniversary of the Commercial Operations Date;
"Good Industry Practice"	means in relation to any undertaking and any circumstances, the exercise of that degree of skill, care, diligence, prudence, foresight and operating practice which would reasonably and ordinarily be expected from a skilled and experienced operator engaged in the same or similar type of undertaking as that of the Licensee under the same or similar circumstances;
"Government"	means His Majesty's Government of the United Kingdom of Great Britain and Northern Ireland;
"Government Support Package"	means the Government support package, consisting of the Supplemental Compensation Agreement, the Discontinuation Agreement and the Liaison Agreement, as amended from time to time, or any other agreement that is entered into between the Secretary of State and the Licensee from time to time during the term of this licence.
"Group Relief"	means any Relief capable (without a change of accounting date by the Licensee) of being surrendered, transferred or otherwise made available by or to a company pursuant to any fiscal unity, tax grouping, tax sharing or tax consolidation agreements or arrangements under which any losses or Reliefs are surrendered or otherwise made available by or to any other company within the same fiscal unity or same group or consortium for tax purposes;
"Holding Company"	means a holding company within the meaning of section 1159 of the Companies Act 2006;
"Housekeeping Modification"	means minor changes such as: (a) renumbering of paragraphs, capitalising defined terms and deleting transitional provisions that have expired;

(b) corrections of evident mistakes including typographical errors, incorrect cross-references and formatting errors; or

(c) updates to:

(i) version numbers of other documents mentioned in the licence or any of the Project-Specific Documents;

(ii) the titles of re-enacted legislation;

(iii) names of bodies that have been renamed,

but does not include any changes that would have an impact on the Licensee's obligations or economic interests under this licence;

"Housekeeping Modification Working Group"

means a working group established for the purposes of considering proposed Housekeeping Modifications under Standard Condition A4 (*Housekeeping Modifications*), consisting of representatives from (among others) the Licensee and the Regulator;

"Indebtedness"

means all liabilities that are now or hereafter due, owing, or incurred, whether actual or contingent, whether solely or jointly with any other person, and whether as principal or surety, together with any interest accruing on them and all costs, charges, penalties, and expenses incurred in connection with them;

"Indicative Credit Rating Process"

means either a "Rating Evaluation Service" conducted by S&P, a "Rating Assessment Service" conducted by Moody's or Fitch, or an equivalent credit rating assessment conducted by DBRS Morningstar to give an assessment of the potential credit rating of the Licensee;

"Indicative Credit Rating Process Guidance"

means the guidance to be issued by the Regulator in accordance with Standard Condition B18.6 (Financial Resilience and Credit Quality);

"Indirect Control"

means, in relation to a Qualifying Acquisition, where the person does not directly hold the relevant right or interest, but holds a Majority Stake in an entity and that entity:

(a) holds the interest or right; or

(b) is part of a chain of entities and either:

(i) each of those entities other than the last has a Majority Stake in the entity immediately below it in the chain, and the last entity holds the interest or right; or

(ii) if the last entity in the chain holds a majority stake in the Licensee, all but one of the other entities in the chain hold a Majority Stake in the entity immediately below it in the chain, and the other entity in the chain holds more than 25% of the shares or voting rights in the entity immediately below it;

"Information"

means information (other than information subject to legal privilege) in any form or medium and of any description specified by the Regulator and includes any documents, accounts, estimates, returns, records, or reports and data of any kind, whether or not prepared specifically at the request of the Regulator;

"Injection Period"

means that part of the Operational Period (as that term is defined in the special conditions) during which the Licensee is injecting carbon dioxide into its T&S Storage Site and receiving Allowed Revenue (as that term is defined in the special conditions);

"Interim Period"

has the meaning given in the Act;

"Intervention Plan"

has the meaning given to it in Standard Condition B14.15 (*Availability of resources*);

"Investment Grade Issuer Credit Rating"

means an investment grade issuer credit rating of the Licensee from S&P, Moody's, Fitch or DBRS Morningstar, required by the Regulator in accordance with Part C of Standard Condition B18 (*Financial Resilience and Credit Quality*);

"Investment Grade Issuer Credit Rating Guidance"

means the guidance issued by the Regulator in accordance with Standard Condition B18.8 (*Financial Resilience and Credit Quality*);

"Land Rights"

means any legal or beneficial interest in (or right, title or interest in) land upon which the T&S Network is situated (including any estate, interest, easement, right of access or other leasehold right in or over land including any leasehold interests or other rights to occupy or use and any contractual or personal rights in favour of the Licensee

relating to the occupation, use or acquisition of such property for the purposes of the T&S Business);

"Legal Requirement"

means a requirement under:

- (a) any licences, permits, approvals and consents issued by any body of competent jurisdiction (including, for the avoidance of doubt, the consents of any devolved administration and agreements entered into with a body of competent jurisdiction as part of a consenting process) in relation to the construction, commissioning, operation or decommissioning (and post-decommissioning monitoring) of the T&S Network; and
- (b) any act of Parliament, subordinate legislation, ordinance, code (including the CCS Network Code), decision, directive, direction, requirement, order, decree, regulation, determination or published procedure, policy or guidance of any body of competent jurisdiction (including courts and tribunals) which is legally binding on the Licensee,

but excluding any requirement under this Licence;

"Liaison Agreement"

means the agreement of that name entered into between the Secretary of State and the Licensee on or around Licence Award;

"Licence Award"

means the date on which this licence comes into force;

"Licence Derogation"

has the meaning given to it in Standard Condition B28.3 (*Licence Derogations*);

"Licence Derogations Document"

means the document setting out the Licence Derogations that apply to the Licensee, based on the template included in Schedule 5, as updated in accordance with the conditions of this licence;

"Licence Fee"

has the meaning given to it in Standard Condition A3.5 (*Payment of the Licence Fee*);

"Licensee"

is the licensee named in the terms of this licence;

"List of Approved Contracts"

means the list of Approved Contracts designated as such as at Licence Award, based on the template included in Schedule 9, as updated in accordance with the conditions of this licence;

"Local Content"

means:

- (a) in respect of works or services, those works or services carried out or provided by a company carrying on business in the UK; and
- (b) in respect of goods, those goods which are being made, changed or improved in the UK (using the same definition as goods eligible for a UK country of origin certificate);

"Majority Stake"

means, in relation to a Qualifying Acquisition, that 'A' has a majority stake in 'B' if:

- (a) 'A' holds a majority of voting rights in 'B';
- (b) 'A' is a member of 'B' and has the right to appoint or remove a majority of the board of directors of 'B';
- (c) 'A' is a member of 'B' and controls alone, pursuant to an agreement with other shareholders or members, a majority of the voting rights in 'B'; or
- (d) 'A' has the right to exercise, or actually exercises, dominant influence over 'B' for the purposes of section 1162(2)(c) and paragraph 4 of schedule 7 the Companies Act 2006,

where:

- (i) majority means a simple majority of more than 50%;
- (ii) the reference to the right to appoint or remove a majority of the board of directors of an entity is to the right to appoint or remove directors holding a majority of the voting rights at meetings of the board on all or substantially all matters; and
- (iii) the reference to the board of directors, in the case of an entity that does not have such a board, is to be read as a reference to the equivalent management body of that entity;

"Mandated Financing Terms"

has the meaning given to it in Standard Condition B18.17 (*Financial Resilience and Credit Quality*);

"Metering Equipment"

means all equipment used to measure and/or assess the rate of flow, quantity and composition of all carbon dioxide in the T&S Network, at different points of the T&S Network;

"Modification Panel"	has the meaning given to it in Standard Condition B5.6(a) (<i>CCS Network Code</i>);
"Modification Procedures"	has the meaning given to it in Standard Condition B5.5(c) (<i>CCS Network Code</i>);
"Modification Proposal"	has the meaning given to it in Standard Condition B5.6(c) (<i>CCS Network Code</i>);
"Modification Report"	has the meaning given to it in Standard Condition B5.6(c) (<i>CCS Network Code</i>);
"Non-Code Party"	means any person that is not a party to the CCS Network Code, other than a Third Party Participant, the Regulator or the Secretary of State;
"North Sea Transition Deal"	means the initiative agreed between the Government and the oil and gas industry, as documented in the document of that name, dated March 2021, as may be updated or supplemented, or replaced by any similar initiative involving the Government and the oil and gas industry and/or the carbon capture and storage industry;
"NSTA"	means the North Sea Transition Authority, which is the business name of the Oil and Gas Authority, which is the regulatory authority for offshore carbon dioxide storage, responsible for permitting and licensing;
"Obligated Network Capacity"	means the Obligated Network Capacity as set out in section 3.4 of the Approved Project Development Plan;
"Obsolete"	means that the asset consumables and/or key spare parts can no longer be procured, or support has been withdrawn, or like-for-like replacement of a failed component is no longer possible without resorting to the Licensee commissioning, engineering and manufacturing a compatible replacement that is economic, efficient and effective;
"OffDF Monthly Contribution"	means the amount payable by the Licensee into the Offshore Decommissioning Fund for each calendar month of each relevant Charging Year, being one-twelfth of the Offshore Decommissioning Fund Contribution Amount for that Charging Year;
"Offshore Decommissioning Costs"	has the meaning given to it in Standard Condition D2.7 (<i>Offshore Decommissioning Fund</i>)

"Offshore Decommissioning Fund"	means a fund or multiple funds established in accordance with Standard Condition D2 (<i>Offshore Decommissioning Fund</i>) and the Decommissioning Regulations;
"Offshore Decommissioning Fund Accrual Profile"	means a straight line accrual profile (in real terms) over the RAV Asset Life of the T&S Network;
"Offshore Decommissioning Fund Contribution Amount"	has the meaning given to it in Standard Condition D2.9 (<i>Offshore Decommissioning Fund</i>);
"Offshore Decommissioning Fund Cost Estimate"	has the meaning given to it in Standard Condition D2.7(a)(iii) (<i>Offshore Decommissioning Fund</i>);
"Offshore Decommissioning Programme"	means a decommissioning programme prepared under the Petroleum Act 1998 and the Energy Act 2008 in the form approved by the Secretary of State, as may be amended from time to time with the Secretary of State's approval;
"Offshore Decommissioning Requirements"	means [<i>definition to be inserted</i>];
"Offshore Holding Arrangements"	means the structure for the Offshore Decommissioning Fund, which meets the ringfencing and holding criteria and requirements set out in the Decommissioning Regulations and the CCS Decommissioning Fund Guidance, as approved by the Offshore Decommissioning Regulators in accordance with the Decommissioning Regulations;
"Offshore Infrastructure"	means those parts of the T&S Network (including the Offshore Pipeline Infrastructure and T&S Storage Site(s)) to which the requirements of the Decommissioning Regulations apply, [to the extent the Decommissioning Regulations deal with offshore infrastructure];
"Offshore Pipeline Infrastructure"	means that part of the T&S Network which is offshore, being the pipelines and related infrastructure from the pig trap(s) at the outlet(s) of the Terminal(s) to the pig trap(s) or manifold entry flange(s) at the entry to the T&S Storage Site;
"Offshore Transportation and Storage System"	means: <ul style="list-style-type: none">(a) the Offshore Pipeline Infrastructure;(b) the T&S Storage Site(s); and

- (c) the Terminal(s);

"OnDF Monthly Contribution"

means the amount payable by the Licensee into the Onshore Decommissioning Fund for each calendar month of each relevant Charging Year, being one-twelfth of the Onshore Decommissioning Fund Contribution Amount for that Charging Year;

"Onshore Decommissioning Authority"

means:

- (a) the local planning authority; or
(b) multiple local planning authorities, where the Onshore Infrastructure is located in a geographical area that straddles more than one local planning authority area,

in charge of enforcing the Onshore Decommissioning Requirements that apply to the Onshore Infrastructure;

"Onshore Decommissioning Fund"

means a fund or multiple funds established for providing security for the discharge of liabilities in respect of decommissioning costs (and costs of related activities) in relation to the Onshore Infrastructure, established in accordance with Standard Condition C2 (*Onshore Decommissioning Fund*);

"Onshore Decommissioning Fund Accrual Profile"

means a straight line accrual profile (in real terms) over the RAV Asset Life of the T&S Network;

"Onshore Decommissioning Fund Contribution Amount"

has the meaning given to it in Standard Condition C2.9 (*Onshore Decommissioning Fund*);

"Onshore Decommissioning Fund Cost Estimate"

has the meaning given to it in Standard Condition C2.7(a)(ii) (*Onshore Decommissioning Fund*);

"Onshore Decommissioning Funding and Investment Strategy"

has the meaning given to it in Standard Condition C2.7 (*Onshore Decommissioning Fund*);

"Onshore Decommissioning Plan"

has the meaning given to it in Standard Condition C2.7 (*Onshore Decommissioning Fund*);

"Onshore Decommissioning Requirements"

means the Legal Requirements that require onshore infrastructure to be decommissioned (and any activities related to decommissioning to be carried out), including but

not limited to any requirements imposed or administered by any Onshore Decommissioning Authority;

"Onshore Holding Arrangements"

has the meaning given in Standard Condition C2.7 (*Onshore Decommissioning Fund*);

"Onshore Infrastructure"

means any part of the T&S Network which is not Offshore Infrastructure;

"Onshore Transportation System"

means those part(s) of the T&S Network which are located onshore, including the pipelines and related infrastructure from the User(s) boundary fence to a pipeline entry pig trap at the entry to a Terminal, but excluding any part(s) of the T&S Network which constitute the Offshore Transportation and Storage System;

"OPRED"

means the Offshore Petroleum Regulator for Environment and Decommissioning, which is a part of the Department for Energy Security and Net Zero;

"Parent Undertaking"

means a parent undertaking within the meaning of section 1162 of the Companies Act 2006;

"Participating Interest"

has the meaning given in section 421A of the Financial Services and Markets Act 2000;

"Participating Owner"

means, in relation to any person, a company which:

- (a) holds a Participating Interest in that person; or
- (b) holds a Participating Interest in an Affiliate of that person;

"Periodic Review"

means the reviews undertaken by the Regulator at regular intervals in accordance with Special Condition H28 (*Periodic Reviews*);

"Permitted Payment"

means any of the following:

- (a) a payment made pursuant to and in accordance with the Government Support Package; or
- (b) a payment made pursuant to and in accordance with any Approved Contract;

"Permitted Purpose"

means the purpose of all or any of the following:

- (a) the T&S Business;

- (b) any other business or activity within the limits of Standard Condition B13 in (*Restriction on Activity and Financial Ringfencing*);
- (c) any business or activity to which the Regulator has given its consent in accordance with Standard Condition B13 in (*Restriction on Activity and Financial Ringfencing*); and
- (d) without prejudice to the generality of paragraphs (a) to (c), any payment or transaction lawfully made or undertaken by the Licensee for a purpose within Standard Condition B16 (*Indebtedness*);

"Permitted Transaction" means any arrangements put in place pursuant to and in accordance with any or all of the following:

- (a) the Government Support Package; and
- (b) the Approved Contracts;

"Post Commissioning Review" has the meaning given to it in Special Condition E1 (*Definitions*);

"Post Construction Review" has the meaning given to it in Special Condition E1 (*Definitions*);

"Post-closure Obligations" means [*definition to be inserted*];

"Potential Mitigating Actions" means actions designed to improve the financial resilience of the Licensee, which may include:

- (a) dividend restraint;
- (b) equity injection or other additional sources of finance;
- (c) profiling of investment within the Regulatory Period;
- (d) cost reduction;
- (e) profiling of financial liabilities within the Regulatory Period; and
- (f) if relevant, negotiations with lenders regarding covenants and possible exemptions;

"Potential Provider" means any entity that responds to an invitation to tender;

"PR Determination"	means the determination issued by the Regulator to the Licensee at the conclusion of each Periodic Review;
"Price Control Financial Model" or "PCFM"	means the model, represented by a workbook in Microsoft Excel, that is issued by the Regulator to the Licensee as amended from time to time in accordance with this licence;
"Project-Specific Documents"	means: <ul style="list-style-type: none">(a) the Approved Project Development Plan;(b) the Financial Settlement Document;(c) the Technical Details Document;(d) the List of Approved Contracts;(e) the Licence Derogations Document;(f) the Price Control Financial Model; and(g) the Price Control Financial Handbook;
"Prospective User"	means any person (other than a User) who has applied to connect to the T&S Network pursuant to Section C of the CCS Network Code;
"Qualifying Acquisition"	means an event in which a person: <ul style="list-style-type: none">(a) acquires Control or Indirect Control of the Licensee; or(b) acquires Control or Indirect Control of the T&S Network;
"Qualifying Acquisition Notice"	has the meaning given to it in Standard Condition B22.3 (<i>Qualifying Acquisition</i>);
"Quoted Company"	has the meaning given to that term in section 385 of the Companies Act 2006;
"RAV Asset Life"	has the meaning given to that term in the Technical Details Document;
"Receivable"	means a contractual right to receive any sum or sums or any other financial asset from another person;
"Redundant"	means: <ul style="list-style-type: none">(a) that the asset is no longer required or necessary to enable the Licensee to comply with its obligations under this licence or the CCS Network Code in

relation to its T&S Network, provided that an asset can only be considered Redundant where it has an installed new build value of less than £5 million; and

- (b) in the case of surplus construction materials, that the materials are no longer required to enable the Licensee to carry out any construction work for which the materials were acquired, provided that any surplus construction materials related to Phase 1 Activities cannot be considered to be Redundant until after the Commercial Operations Date, and the same principle applies to any surplus construction materials related to Phase 2 Activities and Expansion Activities (where "Phase 1 Activities", "Phase 2 Activities" and "Expansion Activities" have the meaning given to those terms in the special conditions);

"Regulator"

means the Gas and Electricity Markets Authority in its role as the economic regulator under Part 1 of the Act;

"Regulator Costs"

has the meaning given to it in Standard Condition A3.3 (*Payment of the Licence Fee*);

"Regulator's Website"

means www.ofgem.gov.uk, as updated from time to time;

"Regulatory Accounts"

means the accounts of the Licensee produced in accordance with Standard Condition B10 (*Regulatory Accounts*);

"Regulatory Period"

means the First Regulatory Period and any subsequent period ending on 31 March immediately before a PR Determination takes effect;

"Related Undertaking"

means, in relation to any person, any undertaking in which such person has a Participating Interest;

"Relevant Objectives"

means:

- (a) the safe, economic, efficient and effective development and operation of the T&S Network to which the licence relates (as well as the coordinated, safe, economic, efficient and effective development and operation of the carbon dioxide transport and storage networks of one or more other T&S Licensees where relevant); and

	(b) the economic, efficient and effective discharge of the Licensee's obligations under the licence;
"Relevant Obligations"	has the meaning given to it in Standard Condition B7 (<i>Independence of the T&S Business and restricted use of Confidential Information</i>);
" Offshore Decommissioning Regulator"	means the Secretary of State (including OPRED);
"Relief"	means any allowance, credit, exemption, deduction or relief from or in computing tax or any right to the repayment of tax;
"Relinquishment of Operational Control"	includes entering into any agreement or arrangement under which decisions relating to the operational management and control of the T&S Assets are not (or cease to be) at the sole direction of the Licensee, and "relinquish" and any related expressions in this context are to be read accordingly;
"Re-use Service"	means the re-use service provided by the Licensee to some Users under the CCS Network Code, whereby such Users are given the right to temporarily withdraw some carbon dioxide from the T&S Network for certain operational purposes, on the condition that such carbon dioxide is subsequently re-delivered into the T&S Network;
"Revenue Support Agreement"	means the carbon dioxide transport and storage revenue support contract (within the meaning of the Act) entered into between the Licensee and the Low Carbon Contracts Company (or any successor entity);
"RIGs"	means the Regulatory Instructions and Guidance published by the Regulator under Standard Condition B19 (<i>Regulatory Instructions and Guidance</i>);
"Risk Assessment"	means an assessment of the likelihood and potential impact of any inaccurate or incomplete reporting, or any misreporting, of Data by the Licensee to the Regulator under this licence (as may be further clarified in the Data Assurance Guidance);
"SAR Transfer Scheme"	means the T&S transfer scheme within the meaning of paragraph 3(1) of schedule 21 of the Energy Act 2004 as applied and modified by section 44 of the Act;

"Scheduled COD"	has the meaning given to it in Special Condition E1 (<i>Definitions</i>);
"SCR Directions"	means directions issued by the Regulator following publication of Significant Code Review conclusions which contain: <ul style="list-style-type: none">(a) instructions to the Licensee to make (and not withdraw, without the Regulator's prior consent) a Modification Proposal;(b) the timetable for the Licensee to comply with the Regulator's directions; and(c) the Regulator's reasons for its directions;
"Secretary of State" or "SoS"	means the Secretary of State for the Department for Energy Security and Net Zero;
Section 50 Transfer Scheme	means a scheme for the transfer of designated property, rights and/or liabilities of a T&S Licensee made by the Secretary of State under section 50 of the Act;
"Segmental Information"	means such financial and descriptive information in respect of the T&S Business Activities of the Licensee as would be disclosable under International Financial Reporting Standard 8 (or Statement of Standard Accounting Practice 25) if each of those activities were an operating segment (or reportable segment) of the Licensee within the meaning of those respective standards;
"Self-Governance Criteria"	means that a Modification Proposal, if implemented, <ul style="list-style-type: none">(a) is unlikely to have a material effect on:<ul style="list-style-type: none">(i) existing or future Users;(ii) competition in the pipeline transportation and storage of carbon dioxide or any commercial activities connected with the pipeline transportation and storage of carbon dioxide;(iii) matters relating to the operation of the T&S Network, including emergencies; and(iv) the Modification Procedure; and(d) is unlikely to discriminate between different classes of parties to the CCS Network Code.

- "Self-Governance Route"** has the meaning given in Standard Condition B5.26 (*CCS Network Code*);
- "Self-Governance Statement"** means the statement made by the Modification Panel and submitted to the Regulator in accordance with Standard Condition B5.26(a):
- (a) confirming that, in its opinion, the Self-Governance Criteria are met and the modification is suitable for the Self-Governance Route; and
 - (b) the Modification Panel's reasons for that opinion;
- "Significant Code Review"** means a review of one or more matters which:
- (a) relate to the CCS Network Code;
 - (b) the Regulator considers likely to be of particular significance in relation to the Regulator's principal objectives and/or general duties (under section 1 of the Act); and
 - (c) concerning which the Regulator has issued a notice to the parties listed in Standard Condition B5.11(a) (*CCS Network Code*) (among others, as appropriate) stating:
 - (i) that the review will constitute a Significant Code Review;
 - (ii) the start date of the Significant Code Review; and
 - (iii) the matters that will fall within the scope of the review;
- "Significant Code Review Phase"** means the period:
- (a) commencing either:
 - (i) on the start date of a Significant Code Review as stated by the Regulator; or
 - (ii) on the date the Regulator makes a Backstop Direction; and
 - (b) ending in one of the following ways:
 - (i) on the date on which the Regulator issues a statement under Standard Condition B5.18(b) that no SCR Directions will be

issued in relation to the CCS Network Code;
or

(ii) if no statement is made under Standard Condition B5.18(b) or 5.18(d), on the date on which the Licensee has made a Modification Proposal in accordance with SCR Directions issued by the Regulator under Standard Condition B5.18(a), or the Regulator makes a Modification Proposal under Standard Condition B5.18(c); or

(iii) immediately under Standard Condition B5.18(c) if neither a statement, a Modification Proposal nor SCR Directions are made by the Regulator within (and including) twenty eight (28) days from the Regulator's publication of its Significant Code Review conclusions; or

(iv) if a statement has been made under Standard Condition B5.18(d) or a Backstop Direction has been made, on the date specified in accordance with Standard Condition B5.20;

"Significant Managerial Responsibility or Influence"

means where a person plays a role in:

- (a) the making of decisions about how the whole or a substantial part of a Licensee's activities are to be managed or organised; or
- (b) the actual managing or organising of the whole or a substantial part of those activities;

"Specific Provisions"

has the meaning given to that term in the CCS Network Code;

"Specified Information"

means information (or a category of information) that is so described or defined in the RIGs;

"Storage Licence"

means a licence or licences held by the Licensee in relation to one or more T&S Storage Site under section 18 of the Energy Act 2008 and expressly referenced in the Licensee's Approved Project Development Plan;

"Storage Permit"

means a storage permit or storage permits held by the Licensee in relation to one or more T&S Storage Site, under the Storage Licence(s) and the Storage of Carbon Dioxide (Licensing etc.) Regulations 2010;

"Storage Site"	has the meaning given to it in the Storage of Carbon Dioxide (Licensing etc.) Regulations 2010;
"Strategic Report"	has the meaning given to it in Standard Condition B10.18 (<i>Regulatory Accounts</i>);
"Strategic Spares"	has the meaning given to it in Standard Condition B15.14 (<i>Asset Management Plans</i>);
"Subsidiary Undertaking"	means a subsidiary undertaking within the meaning of section 1162 of the Companies Act 2006;
"Supplemental Compensation Agreement"	means the agreement of that name entered into between the Licensee and the Secretary of State on or around Licence Award;
"System Development Statement"	has the meaning given to it in Standard Condition B2.3 (<i>System Development Statement</i>);
"T&S Assets"	means: <ul style="list-style-type: none">(a) all infrastructure and equipment that makes up the T&S Network;(b) the Land Rights;(c) the T&S Storage Site(s);(d) any items on the Licensee's register of Strategic Spares;
"T&S Business"	means the development and operation of a network for the transportation and storage of carbon dioxide, including: <ul style="list-style-type: none">(a) compliance with the Licensee's obligations under this licence;(b) compliance with all decommissioning obligations (including the Post-closure Obligations);(c) compliance with and discharge of the Licensee's obligations and rights relating to the maintenance, administration and modification of the CCS Network Code;
"T&S Business Activities"	has the meaning given to that term in Standard Condition B10.3 (<i>Regulatory Accounts</i>);
"T&S Licensee"	means any holder of a licence granted under section 7 of the Act or under section 7 (as modified by section 16 and Schedule 1) of the Act;

"T&S Network"	means the Licensee's Onshore Transportation System and/or Offshore Transportation and Storage System, and includes any part of them, the location of which is described in Standard Condition A5 (<i>T&S Network Area</i>);
"T&S Storage Site"	means a Storage Site or Storage Sites which forms part of the T&S Network, as described in the Licensee's Storage Permit;
"T&SCo of Last Resort Direction"	means a direction issued by the Regulator in accordance with Standard Condition B23 (<i>T&SCo of Last Resort</i>);
"Technical Details Document"	means the technical details document designated as such as at Licence Award, based on the template in Schedule 4, as updated in accordance with the conditions of this licence;
"Terminal"	means an onshore terminal facility and all ancillaries between the pig trap(s) at the outlet of the Onshore Transportation System(s) and the pipeline pig trap(s) at the inlet(s) of the Offshore Pipeline Infrastructure, which is deemed to form part of the Offshore Transportation and Storage System and not form part of the Onshore Transportation System;
"Third Party Participant"	has the meaning given to it in Standard Condition B5.8 (<i>CCS Network Code</i>);
"UK ETS"	means the UK Emissions Trading Scheme established under the Greenhouse Gas Emissions Trading Scheme Order 2020 (as amended or supplemented by other legislation) and any guidance issued in relation to it;
"UK Listing Authority"	means the Financial Conduct Authority (FCA) acting in its capacity as the competent authority for the purposes of Part VI (Official Listing) of the Financial Services and Markets Act 2000 or any successor body;
"Ultimate Controller"	means, in relation to any person: (a) a Parent Undertaking of that person which is not itself a Subsidiary Undertaking of another company; and (b) any person who (whether alone or with a person or persons connected with them) is in a position to control, or to exercise significant influence over, the policy of that person or any Parent Undertaking or Participating Owner of that person by virtue of:

- (i) rights under contractual arrangements to which they or any of their Affiliates are a party or of which they are a beneficiary; or
- (ii) rights of ownership (including rights attached to or deriving from securities or rights under a trust) which are held by them or any of their Affiliates or of which they are a beneficiary,

but excluding any director or employee of a corporate body in their capacity as such; and

for the purposes of sub-paragraph (b), a person is connected with another person if they are party to any arrangement regarding the exercise of any such rights as are described in that paragraph;

"User Metering Equipment"

has the meaning given in Standard Condition C3.4 (*Onshore Metering*) and in Standard Condition D3.4 (*Offshore Metering*);

"Urgent Modification Proposal"

means a Modification Proposal which the Regulator agrees or determines should be treated as urgent, in accordance with the CCS Network Code;

"Use of System"

means use of the T&S Network (or part of it) by any person to deliver carbon dioxide at a Delivery Point in the T&S Network, for the transportation and/or storage of carbon dioxide by the Licensee, including the Re-use Service;

"User"

means a person other than the Licensee or any other holder of a licence issued under section 7 of the Act who is for the time being bound by the CCS Network Code; and

"User Arrangements"

means arrangements between the Licensee and Users/ future Users for use of the T&S Network, including arrangements for the connection of Users' and future Users' facilities to the T&S Network, and the delivery of carbon dioxide by Users at a Delivery Point.

Standard Condition A2: Interpretation of this licence

Introduction

2.1 The purpose of this condition is to set out some general principles of interpretation that apply to this licence.

Structure of this condition

2.2 This condition is structured as follows:

- (a) Part A sets out the general rules of interpretation applying to this licence;
- (b) Part B sets out the Licensee's performance of obligations;
- (c) Part C sets out the specific application of Regulator's powers;
- (d) Part D sets out the ability of the Regulator when it may specify a date;
- (e) Part E sets out the method of calculation of periods of time;
- (f) Part F sets out things done which have a continuing effect;
- (g) Part G sets out the meaning of references to "the Licensee"; and
- (h) Part H sets out that the provisions of this licence should be read and understood as if they were an Act of Parliament and the Interpretation Act 1978 applied to them.

Part A: General rules of interpretation

- 2.3 Unless the context otherwise requires, any word or expression defined in the Act has the same meaning when used in this licence.
- 2.4 Unless the context otherwise requires, any reference in this licence to an industry code, an agreement, or a statement is a reference to that code, agreement, or statement as modified, supplemented, transferred, novated, revised, or replaced from time to time.
- 2.5 The heading or title of any section, standard condition, schedule, paragraph, or sub-paragraph in the licence is for convenience only and does not affect the interpretation of the text to which it relates.
- 2.6 In the event of any conflict or inconsistency between the provisions of the licence and any headings, sub-headings or introductory text, the provisions of the licence will prevail.
- 2.7 Any reference to this licence includes the schedules, each of which forms part of this licence for all purposes.
- 2.8 Unless the context otherwise requires, any reference to a condition or schedule (other than to a schedule to a statutory provision), paragraph, annex, appendix or part in this licence shall be a reference to a condition, schedule, paragraph, annex, appendix or part (as the case may be) of or to this licence and a reference in a schedule to a paragraph, annex,

appendix or part shall mean references to a paragraph, annex, appendix or part of that schedule, provided that:

- (a) any reference in the standard conditions or special conditions of this licence to a section, standard or special condition (as the case may be), schedule, paragraph, or sub-paragraph is a reference to it in the standard or special conditions of this licence (as the case may be);
- (b) any reference in a standard condition or special condition of this licence to a paragraph or subparagraph is a reference to it in that standard or special condition (as applicable); and
- (c) any reference in this licence to a provision of the standard conditions or special conditions of this licence, is to be read, if the standard or special conditions of this licence are subsequently modified, as a reference (so far as the context permits) to the corresponding provision of the modified standard or special conditions.

2.9 Unless the context otherwise requires, any reference in this licence to a person or company includes any person, firm, company, corporation, government, state or agency of a state, or any association, trust or partnership (whether or not having separate legal personality) or two or more of the foregoing and their successors and permitted assignees or transferees.

2.10 Any reference to "writing" in this licence includes typing, printing, photography and other modes of representing or reproducing words in a visible form and expressions referring to writing are to be construed accordingly.

2.11 Any references to "includes" or "including" in this licence is to be construed as "includes without limitation" or "including without limitation".

2.12 Any use of the singular in this licence includes the plural and vice versa.

2.13 Any words denoting any gender in this licence includes any other gender.

2.14 Any reference to an enactment or statutory provision in this licence shall, unless otherwise expressly specified in this licence, include:

- (a) a reference to any subordinate legislation made under the relevant enactment or statutory provision whether before or after Licence Award; and
- (b) be a reference to that enactment, statutory provision or subordinate legislation as from time to time amended, consolidated, modified, re-enacted or replaced, whether before or after Licence Award.

2.15 Any references in this licence to any English legal term for any action, remedy, method of judicial proceeding, legal document, legal status, court, official or any legal concept or thing shall in respect of any jurisdiction other than England be deemed to include that which most nearly approximates the English legal term in that jurisdiction and references to any English statute or enactment shall be deemed to include any equivalent or analogous laws or rules in any other jurisdiction.

- 2.16 Any references to the Regulator or the Licensee in this licence includes their respective (and any subsequent) successor(s) in title, and their respective permitted transferee(s) or assignee(s).
- 2.17 Where any condition of this licence requires the Licensee to do or not to do anything, the Licensee shall remain responsible for compliance with that condition notwithstanding the fact that:
- (a) the Licensee has delegated or contracted responsibility for any matters related to that requirement to an agent, servant, contractor or subcontractor; and/or
 - (b) any action or inaction by the agent, servant, contractor or subcontractor has caused the Licensee to be in breach of the condition.
- 2.18 Any references in this licence to costs, expenses and losses which are to be indemnified to, or recovered by, the person incurring the same shall be construed as references to an amount equal to the amount of such costs, expenses and losses together with any amount that represents VAT or other similar tax properly chargeable therein in any jurisdiction.

Part B: Licensee's performance of obligations

- 2.19 Where any obligation in this licence is required to be performed by a specified date or time or within a specified period and the Licensee has failed to do so, the obligation will continue to be binding and enforceable after the specified date or time or after the end of the specified period, but without prejudice to all rights and remedies available against the Licensee in relation to its failure.
- 2.20 Unless otherwise stated in the licence, the Licensee must provide any information requested by the Regulator as soon as reasonably practicable, or as may otherwise be specified by the Regulator in its notice requesting the information.

Part C: Specific application of Regulator's powers

- 2.21 Unless a contrary intention appears, any power of the Regulator under any provision of this licence to give a direction, consent, derogation, approval, or designation is a power:
- (a) to give it to such extent, for such period of time, and subject to such conditions as the Regulator thinks reasonable in all the circumstances of the case; and
 - (b) to revoke or amend it (after consulting with the Licensee) or give it again under that power.
- 2.22 Unless a contrary intention appears, any power of the Regulator under any provision of this licence to make a determination or a decision is a power:
- (a) to make it subject to such conditions as the Regulator thinks reasonable in all the circumstances of the case; and
 - (b) to make it again under that power.

- 2.23 Any direction, consent, derogation, determination, approval, designation, decision, or other instrument given or made by the Regulator under this licence will be give or made in writing.
- 2.24 The time periods for the Regulator to take any action, issue any notification, or make any determination under or pursuant to this licence will be suspended during any period when:
- (a) a request by the Regulator for information from the Licensee is outstanding; and/or
 - (b) the Regulator is consulting on the action, notification or determination.

Part D: Date to be specified by the Regulator

- 2.25 In each case in which the Regulator may specify a date under any of the standard conditions of this licence, it may specify:
- (a) that date; or
 - (b) the means by which that date is to be determined.

Part E: Calculation of periods of time

- 2.26 Periods of time under this licence are to be calculated as follows:
- (a) where an act is required to be done within a specified period after or from a specified date, the period begins on the day immediately after that date;
 - (b) where the period would include Christmas Day, Good Friday, or a day which under the Banking and Financial Dealings Act 1971 is a bank holiday in England and Wales or, as the case may be, in Scotland, that day is to be excluded from the calculation;
 - (c) where the period is expressed in terms of Business Days, any day that is a Saturday or Sunday is also to be excluded from the calculation; and
 - (d) references to a time of day shall be deemed to be a reference to that time in London (United Kingdom) on the date in question.

Part F: Things done to have continuing effect

- 2.27 Anything done under or because of a standard condition of this licence, which is in effect immediately before that condition is modified, has continuing effect for so long as it is permitted or required by or under the modified condition.
- 2.28 Without prejudice to the generality of Standard Condition A2.27, every direction, consent, determination, designation, approval, decision, or other instrument given or made by the Regulator in relation to a standard condition of this licence, which is in effect immediately before that condition is modified, has continuing effect for so long as it is permitted or required by or under that modified condition.

Part G: References to the Licensee

- 2.29 References to "the Licensee" in this licence are references to the person to whom this licence has been granted, or is to be treated as so granted, under section 7 of the Act and

include references to any person to whom the whole or any part of this licence has been transferred under section 18 of the Act.

Part H: Interpretation Act 1978

- 2.30 The provisions of this licence are to be read and understood as if they were in an Act of Parliament and the Interpretation Act 1978 applied to them.
- 2.31 Any references to Standard Conditions in this licence shall be Standard Conditions for the purposes of this licence only and shall not be construed as Standard Conditions determined by the Secretary of State pursuant to section 12 of the Energy Act 2023.

Standard Condition A3: Payment of the Licence Fee

Introduction

- 3.1 The purpose of this condition is to set out the Licensee's obligation to pay the Licence Fee and set out how the Licence Fee is calculated.

Structure of this condition

- 3.2 This condition is structured as follows:
- (a) Part A sets out how the Licence Fee is calculated; and
 - (b) Part B sets out when the Licensee is required to pay the Licence Fee.

Part A: Calculation of the Licence Fee

- 3.3 For each Charging Year, the Regulator shall estimate the costs (the "**Regulator Costs**") which are likely to be or which have been the costs of the Regulator in performing its functions under the Act as the economic regulator for carbon dioxide transport and storage networks (and excluding any costs of the Regulator associated with the performance by the Regulator of any of its other functions).
- 3.4 In estimating the costs referred to in Standard Condition A3.3, the Regulator shall have regard to principles determined by the Regulator for the purpose of this condition (after consulting the Licensee and others likely to be affected by the application of such principles) and notified to the Licensee in advance.
- 3.5 To calculate the Licence Fee and give notice of it to the Licensee, the Regulator shall:
- (a) determine the proportion (as a percentage figure) of the Regulator Costs attributable to the Licensee (the "**Appropriate Proportion**") in accordance with the principles determined by the Regulator for the purposes of this condition (after consulting the Licensee and others likely to be affected by the application of such principles);
 - (b) calculate the amount (the "**Licence Fee**") which is equal to the Appropriate Proportion of the Regulator Costs; and
 - (c) notify the Licensee of the Appropriate Proportion, the Regulator Costs and the Licence Fee.

Part B: Payment of Licence Fee

- 3.6 In respect of each Charging Year at the beginning of which the Licensee holds this licence, the Licensee must pay to the Regulator the Licence Fee, in respect of the Regulator Costs for that Charging Year, in accordance with Standard Condition A3.5.
- 3.7 The Licence Fee calculated in accordance with Standard Condition A3.5 must be paid by the Licensee to the Regulator in two instalments:

- (a) the first of which must be paid by 31 July in each year, if the Regulator gives the Licensee notice of the amount of that instalment by 30 June in the year; and
- (b) the second of which must be paid by 31 January in each year, if the Regulator gives the Licensee notice of the amount of that instalment by 1 January in the year.

3.8 If the Regulator does not give the Licensee notice of the amount of the instalment by 30 June or (as the case may be) 1 January in the year, the Licensee must pay the amount in question within 30 days after the date on which the Regulator does give such notice to the Licensee.

3.9 If the Licensee does not pay the amount determined in accordance with Standard Condition A3.5 within 30 days after the relevant payment date referred to in Standard Condition A3.7(a) or A3.7(b), it must with effect from that date pay simple interest on the amount:

- (a) at the rate which is from time to time equivalent to the base rate of NatWest Bank plc; or
- (b) if there is no rate equivalent to the base rate of NatWest Bank plc, the base rate of an equivalent institution designated by the Regulator for this purpose.

Standard Condition A4: Housekeeping Modifications

Introduction

- 4.1 The purpose of this condition is to provide a process for making Housekeeping Modifications to the licence and any Project-Specific Document.

Structure of this condition

- 4.2 This condition is structured as follows:
- (a) Part A sets out the process for determining whether a modification constitutes a Housekeeping Modification; and
 - (b) Part B sets out the process for making Housekeeping Modifications.

Part A: Assessment of proposed modification

- 4.3 Notwithstanding any other provision of this licence, the Regulator may make Housekeeping Modifications to this licence or any Project-Specific-Documents in accordance with this condition.
- 4.4 Before initiating any modification under this condition, the Regulator will assess whether that modification is a Housekeeping Modification.
- 4.5 In making the assessment required by Standard Condition A4.4, the Regulator will have regard to all relevant factors, including the views of the Housekeeping Modification Working Group.

Part B: Process for implementing Housekeeping Modifications

- 4.6 If, having carried out the assessment required under Part A, the Regulator considers that the intended modification is a Housekeeping Modification, it may modify the licence or a Project-Specific Document (as relevant) by direction to implement the intended modification.
- 4.7 Subject to Standard Condition A4.8, before making a direction under Standard Condition A4.6, the Regulator will publish on the Regulator's Website:
- (a) the text of the proposed direction;
 - (b) the reasons for the proposed direction, including why the Regulator considers that it is a Housekeeping Modification; and
 - (c) a period during which representations may be made on the proposed direction, which will not be less than 28 days.
- 4.8 Where a Housekeeping Modification relates to a Project-Specific Document, then instead of publishing the information referred to in Standard Condition A4.7, the Regulator will send that information to the Licensee.
- 4.9 A direction under Standard Condition A4.6 will set out:

- (a) the modification to the conditions of this licence or a Project-Specific Document (as relevant); and
- (b) the date on which it is to have effect or the mechanism by which that date is to be determined.

Standard Condition A5: T&S Network Area

Introduction

5.1 The purpose of this condition is to set out the geographical area covered by this licence.

Structure

5.2 This condition is structured as follows:

- (a) Part A sets out the Specified Area in relation to which the licence is granted; and
- (b) Part B sets out the more detailed geographical details of the location of the T&S Network to be built, operated and maintained by the Licensee.

Part A: Specified Area

5.3 This licence is granted for the "[*name of the relevant T&S Network to be inserted*]" within the Specified Area (stated in Schedule 1 (Specified Area) of this licence) and more particularly defined in Standard Condition A5.4.

Part B: T&S Network

5.4 In this condition, "[*name of the relevant T&S Network to be inserted*]" means the T&S Network to be built, operated and maintained by the Licensee of which:

- (a) the geographical location of the Onshore Transportation System is identified in Annex A to section A, as expanded or varied in accordance with this licence; and
- (b) the assets of the Offshore Transportation and Storage System are identified in Annex A to section A, as expanded or varied in accordance with this licence.

Annex A to Section A

1. Geographical location of the Onshore Transportation System

[*General description of geographical location to be inserted*] as shown on the map in Exhibit A.

2. Assets of the Offshore Transportation and Storage System

[The assets being:

- (a) the Offshore Pipeline Infrastructure, the approximate route of which is shown on the map in Exhibit B, and which is subject to [Crown Estate/Crown Estate Scotland lease [●]];

[Note: this may also include other offshore infrastructure, where relevant, such as offshore electricity cables.]

- (b) the Terminal, as shown on the map in Exhibit B; and
- (c) the T&S Storage Site(s), being [*insert description*] as shown on the map in Exhibit B, and which is subject to carbon dioxide appraisal and storage lease number [●] and subject to [Crown Estate/Crown Estate Scotland lease [●]].]

Standard Condition B1: System development obligations

- 1.1 The purpose of this condition is to set out obligations of the Licensee to develop the T&S Network.
- 1.2 The Licensee must develop, maintain and operate the T&S Network in an economic, efficient, effective and co-ordinated manner, having regard to, among other things:
 - (a) the duty to offer access in accordance with Standard Condition B3 (*Access to the T&S Network*);
 - (b) the Licensee's obligations under the CCS Network Code;
 - (c) the Licensee's obligations and commitments under the Approved Project Development Plan; and
 - (d) the Storage Licence and Storage Permit.

Standard Condition B2: System Development Statement

Introduction

- 2.1 This condition applies for the purpose of ensuring that the Licensee prepares and publishes a System Development Statement.

Structure of this condition

- 2.2 This condition is structured as follows:
- (a) Part A sets out the obligation of the Licensee to prepare a System Development Statement;
 - (b) Part B sets out the information to be included in a System Development Statement;
 - (c) Part C sets out the Licensee's obligation to publish the System Development Statement; and
 - (d) Part D sets out details of any future guidance that the Regulator may issue in relation to the content of the System Development Statement.

Part A: Obligation to prepare System Development Statement

- 2.3 Unless the Regulator has otherwise consented, on an annual basis, by the start of each Charging Year, the Licensee must prepare a document, to be known as the System Development Statement, which:
- (a) sets out a forward-looking summary of the development activities that the Licensee is or will be carrying out in discharging its obligations under Standard Condition B1 (*System development obligations*);
 - (b) includes, among other things, the information expressly specified in this condition;
 - (c) is consistent with the Approved Project Development Plan; and
 - (d) is in a form approved by the Regulator.

Part B: Information to be included in System Development Statement

- 2.4 The System Development Statement must include:
- (a) information about current activities relating to the use, development and expansion of the T&S Network;
 - (b) information by way of forward-looking forecasts, for the next ten (10) years ahead, of:
 - (i) the use likely to be made of the T&S Network, covering aspects including, but not limited to, potential new User connections and forecasted storage demand;

- (ii) the likely development and expansion of the T&S Network, covering aspects including, but not limited to, potential new spur lines and pipeline routing, potential access points for new Users and options for expansion of existing Storage Sites or development of new Storage Sites, to facilitate an efficient, economical, effective and coordinated T&S Network;
 - (iii) the Licensee's plans for modifying the T&S Network, including works that it expects to be carried out for that purpose; and
 - (iv) the Licensee's plans to reduce or put right any predicted shortcomings in the operation or capability of its T&S Network,
as it is reasonably practicable for the Licensee to provide; and
- (c) information about the Licensee's decommissioning obligations, and proposals for the discharge of those obligations, in relation to the Onshore Infrastructure and the Offshore Infrastructure, as the case may be.

2.5 Where the Licensee considers that any details included in its System Development Statement would materially and prejudicially affect the commercial interests of the Licensee or any third party if made public, then, with the prior consent of the Regulator, the Licensee may redact such details from the version of the System Development Statement which is to be published in accordance with this condition.

Part C: Publication obligations

2.6 The Licensee must publish its System Development Statement on its website in a readily accessible form and manner and must give a copy of it on request and free of charge to any person who asks for one.

Part D: Future guidance

- 2.7 In preparing the System Development Statement, the Licensee must have regard to any future guidance which may be issued by the Regulator which may, among other things, include requirements relating to:
- (a) interaction of the Licensee's System Development Statement with development plans of the wider UK carbon dioxide transport and storage network and possible interactions with international carbon dioxide import network connections and non-pipeline carbon dioxide transportation; and
 - (b) any policy objectives being taken forward by the Regulator in response to a CCUS strategy and policy statement prepared by the Secretary of State pursuant to the Act.

Standard Condition B3: Access to T&S Network

Introduction

- 3.1 The purpose of this condition is to set out the Licensee's obligations relating to offering access to the T&S Network.

Structure of this condition

- 3.2 This condition is structured as follows:
- (a) Part A sets out the obligation of the Licensee to offer access to its T&S Network in accordance with the CCS Network Code;
 - (b) Part B sets out the Obligated Network Capacity that the Licensee must make available; and
 - (c) Part C sets out the exceptions to the obligation to offer access.

Part A: Obligation to offer access

- 3.3 The Licensee must offer access to its T&S Network in accordance with the CCS Network Code and any legislative requirements relating to third party access to carbon dioxide transport and storage facilities.
- 3.4 Subject to Standard Condition B3.5, the minimum amount of capacity in the T&S Network that the Licensee must make available to Users is based on the Obligated Network Capacity as set out in Standard Condition B3.6.
- 3.5 The Licensee is entitled to relief from the obligation to make available capacity in the T&S Network to the extent that any relief is provided pursuant to Special Conditions H18 (*Availability Incentive*), J2 (*Supervening Event Re-openers, Insured Risk Events and Relief Events*), J6 (*Uncertain Cost Events*) and J9 (*Project Specifics*).

Part B: Obligated Network Capacity

- 3.6 The level of Obligated Network Capacity that the Licensee must make available is set out in section 3.4 of the Approved Project Development Plan, as may be updated in accordance with the conditions of this licence.

Part C: Exceptions to obligation to offer access

- 3.7 The Licensee shall not be obliged pursuant to this condition to offer access to its T&S Network and/or make available capacity in the T&S Network if:
- (a) to do so would be likely to involve the Licensee being in breach of:
 - (i) any regulations made under section 128 of the Act; or
 - (ii) any other Legal Requirement applicable to the T&S Network; or

- (iii) the CCS Network Code;
- (b) the person making the application does not undertake to be bound by the terms of the CCS Network Code; or
- (c) to do so would require an expansion or enhancement of the T&S Network, requiring the Licensee to apply to the Regulator for a Change in Scope in accordance with this licence, and such Change in Scope is not approved by the Regulator.

Standard Condition B4: Requirement to enter into User Arrangements in conformity with CCS Network Code

Introduction

- 4.1 The purpose of this condition is to set out a requirement that any arrangements entered into with Users of the T&S Network are on the terms set out in the CCS Network Code.

Structure of this condition

- 4.2 This condition is structured as follows:
- (a) Part A sets out the general obligation of the Licensee in relation to User Arrangements; and
 - (b) Part B sets out the requirement that the Licensee comply with disclosure obligations in the CCS Network Code.

Part A: General obligation

- 4.3 Unless the Regulator has otherwise consented, the Licensee must only enter into User Arrangements which are:
- (a) in conformity with any relevant provisions of the CCS Network Code; and
 - (b) on such terms as may be prescribed under the CCS Network Code.
- 4.4 The restriction in Standard Condition B4.3 does not apply to any User Arrangements that is an Approved Contract, but only to the extent that such Approved Contract does not entitle the relevant counterparty to connect to and/or deliver carbon dioxide to a Delivery Point on the T&S Network or otherwise impact the entitlement of any User or future User to connect to and/or deliver carbon dioxide to a Delivery Point on the T&S Network.

Part B: Disclosure of information

- 4.5 The Licensee must comply with any obligation in the CCS Network Code to disclose information relating to the operation of the T&S Network.

Standard Condition B5: CCS Network Code

Introduction

- 5.1 The purpose of this condition is to set out:
- (a) an obligation on the Licensee to have in place, maintain and comply with the CCS Network Code;
 - (b) the purpose and objectives of the CCS Network Code;
 - (c) the requirements relating to the Modification Procedures that apply to the CCS Network Code; and
 - (d) an obligation on the Licensee to carry out a review of certain provisions of the CCS Network Code.

Structure

- 5.2 This condition is structured as follows:
- (a) Part A sets out a general proviso in relation to the Licensee's obligations under this condition;
 - (b) Part B sets out the nature and purpose of the CCS Network Code;
 - (c) Part C sets out the Licensee's general obligations in relation to the CCS Network Code;
 - (d) Part D sets out the bodies and functions to be established for the purposes of the Modification Procedures;
 - (e) Part E sets out general provisions relating to the Modification Procedures;
 - (f) Part F sets out the Regulator's ability to propose Urgent Modification Proposals;
 - (g) Part G deals with Significant Code Reviews by the Regulator;
 - (h) Part H deals with "self-governance" modifications;
 - (i) Part I deals with Secretary of State's ability to modify the Code during the Interim Period;
 - (j) Part J deals with the Modification Procedures as they apply to Specific Provisions;
 - (k) Part K deals with publication of modified versions of the CCS Network Code;
 - (l) Part L deals with determinations by the Regulator;
 - (m) Part M deals with reviews of Section E of the CCS Network Code; and

- (n) Part N deals with the Licensee's reporting obligations on the Carbon Dioxide Specifications and Measurement Requirements.

Part A: General

- 5.3 Where the Licensee has taken all possible steps to comply with the requirements of this Standard Condition B5, the Licensee shall not be considered to be in breach of these requirements where they have not been able to be fulfilled as a result of any action or inaction by another T&S Licensee.

Part B: Nature of the CCS Network Code

- 5.4 The CCS Network Code is the document which:
- (a) sets out terms that apply to the use of the T&S Network of every T&S Licensee (unless otherwise provided in the CCS Network Code);
 - (b) covers all material commercial and technical aspects relating to connections to and the operation and use of every T&S Licensee's T&S Network;
 - (c) includes procedures for the modification of the terms of the CCS Network Code, in accordance with the requirements of this condition; and
 - (d) is designed to facilitate the achievement of the Relevant Objectives.

Part C: Licensee's general obligations with respect to the CCS Network Code

- 5.5 The Licensee must:
- (a) have in place and maintain the CCS Network Code;
 - (b) be a party to (by signing or acceding to the Code Agreement) and comply with the CCS Network Code from Licence Award; and
 - (c) take all reasonable steps to:
 - (i) ensure that the CCS Network Code is administered to facilitate the achievement of the Relevant Objectives;
 - (ii) maintain and operate procedures for the modification of the CCS Network Code (the "**Modification Procedures**") so as to better facilitate the achievement of the Relevant Objectives;
 - (iii) ensure that the Modification Procedures comply with this condition and that the CCS Network Code provides for all matters set out in this condition; and
 - (iv) establish, develop and operate (or otherwise procure the operation of (including without limitation on a subcontracted basis)) arrangements for the administration of the CCS Network Code (including its governance and modification).

Part D: Bodies and functions to be established for the purposes of the Modification Procedure

- 5.6 The CCS Network Code must provide for:
- (a) a panel body (the "**Modification Panel**") whose functions shall include the matters required by this condition and as set out in the CCS Network Code;
 - (b) the maintenance of a portal or website for the publication of the CCS Network Code (the "**CCS Network Code Website**"); and
 - (c) an impartial secretarial or administrative person or body, as specified in the CCS Network Code, to perform administrative functions relating to maintenance and modification of the CCS Network Code (the "**Secretary**") whose functions shall include the following:
 - (i) maintaining the CCS Network Code Website, for the purpose of publication of:
 - (A) the CCS Network Code (to facilitate compliance by the Licensee of its obligation under Standard Condition B5.32); and
 - (B) the documents/information relating to and arising under the Modification Procedures;
 - (ii) convening meetings of the Modification Panel and notifying all relevant persons of the date of such meetings;
 - (iii) keeping record of all proposals to modify the CCS Network Code ("**Modification Proposals**");
 - (iv) preparing reports relating to Modification Proposals ("**Modification Reports**");
 - (v) circulating all Modification Proposals, Modification Reports and associated documents to all members of the Modification Panel, any Third Party Participants and any Designated Non-Code Parties.
- 5.7 The composition of the Modification Panel must at all times be such as to allow for:
- (a) equal voting rights as between T&S Licensees and Users;
 - (b) representation from Users from different industry types (as specified in the CCS Network Code);
 - (c) a chairperson, who is a non-voting member of the Modification Panel (other than having a limited casting vote, as specified in the CCS Network Code);
 - (d) one (1) representative of the Regulator, who is a non-voting member of the Modification Panel; and
 - (e) one (1) representative of the Secretary of State, who is a non-voting member of the Modification Panel.

- 5.8 The Regulator may designate (and de-designate), from time to time, any person or body who is not a party to the CCS Network Code but who is representative of interested third parties to participate in the Modification Procedure as a third party participant ("**Third Party Participant**").
- 5.9 The Regulator may designate (and de-designate), from time to time, any Non-Code Party as a "**Designated Non-Code Party**" to give them the right to be sent copies of any Modification Proposals, Modification Reports and associated documents.

Part E: General provisions relating to the Modification Procedures

- 5.10 The CCS Network Code Modification Procedures must provide for:
- (a) a mechanism by which the CCS Network Code may be modified;
 - (b) the making of Modification Proposals in accordance with Standard Condition B5.11(a);
 - (c) the making of alternative Modification Proposals in accordance with Standard Condition B5.11(b);
 - (d) the giving of adequate publicity to any Modification Proposal by:
 - (i) publishing a copy on the CCS Network Code Website; and
 - (ii) circulating a copy to all relevant T&S Licensees, all Users, any Third Party Participants and any Designated Non-Code Parties;
 - (e) proper evaluation of the suitability of the Self-Governance Route (in accordance with Standard Condition B5.26) for a particular Modification Proposal;
 - (f) proper evaluation of the suitability of the Fast Track Self-Governance Route (in accordance with Standard Condition B5.29) for a particular Modification Proposal;
 - (g) during a Significant Code Review Phase, proper evaluation of the relevance of the Significant Code Review to a particular Modification Proposal;
 - (h) the seeking of the views of the Regulator on any matter connected with any Modification Proposal (other than a Modification Proposal that is the subject of the Self-Governance Route or the Fast Track Self-Governance Route);
 - (i) the consideration of any representations relating to a Modification Proposal made (and not withdrawn) by the Licensee, any other relevant T&S Licensee, any User, any Third Party Participant, the Secretary of State and any Non-Code Party;
 - (j) a proposed implementation date to be either:
 - (i) a date set out in any SCR Directions; or
 - (ii) where no SCR Directions have been issued by the Regulator, a date that would enable any proposed modification to take effect as soon as practicable

after the decision to implement it has been reached, taking into account the complexity, importance, and urgency of that modification;

- (k) where the Regulator accepts (or determines pursuant to Standard Condition B5.15) that the CCS Network Code may require modification as a matter of urgency, meaning that the proposal in question is an Urgent Modification Proposal, the exclusion, acceleration or other variation, subject to the Regulator's approval, of any particular procedural steps which would otherwise be applicable;
- (l) Modification Proposals made by the Regulator or the Licensee in accordance with Standard Condition B5.11(a) and Standard Condition B5.10(m)(i) respectively:
 - (i) to be accepted into the Modification Procedures by the Modification Panel;
 - (ii) where they are raised by the Licensee, not to be withdrawn without the Regulator's prior consent;
 - (iii) to proceed in accordance with any timetable(s) directed by the Regulator in accordance with Standard Condition B5.10(m);
- (m) compliance by the Licensee and (where applicable) the Modification Panel with any direction(s) issued by the Regulator setting and/or amending a timetable (in relation to a modification within the scope of Standard Condition B5.25) for the:
 - (i) Licensee to raise a Modification Proposal; and/or
 - (ii) completion of each of the procedural steps outlined in this Part D, to the extent that they are relevant; and/or
 - (iii) implementation of a modification; and
- (n) each of the procedural steps outlined in this Standard Condition B5.10, to the extent that they are relevant, to be in accordance with any timetable(s) directed by the Regulator under Standard Condition B5.10(m).

5.11 The CCS Network Code Modification Procedures must provide that:

- (a) a Modification Proposal may be made by the following:
 - (i) the Licensee;
 - (ii) any other relevant T&S Licensee that is a party to the CCS Network Code;
 - (iii) any User that is a party to the CCS Network Code;
 - (iv) a Third Party Participant;
 - (v) the Regulator (but only in relation to modifications within the scope of Standard Condition B5.15 or Standard Condition B5.25); and/or
 - (vi) the Secretary of State (generally, and in relation to modifications within the scope of Standard Condition B5.30);

- (b) where a Modification Proposal has been made under Standard Condition B5.11(a) (an “original proposal”) alternative Modification Proposals may be made, in respect of any such original proposal, by any of the parties listed in Standard Condition B5.11(a) with the exception of the person who made the original proposal.

5.12 Any proposals to modify the CCS Network Code must be designed to better facilitate the achievement of the Relevant Objectives.

5.13 The Licensee must not implement or permit the implementation of any modification to the CCS Network Code except:

- (a) to comply with Standard Condition B5.14(b) or Standard Condition B5.22(b)(i); or
- (b) with the written consent of the Regulator; or
- (c) in accordance with Standard Condition B5.26 (the “**Self-Governance Route**”); or
- (d) in accordance with Standard Condition B5.29 (the “**Fast Track Self-Governance Route**”),

and shall furnish the Regulator with a copy of any such modification made.

5.14 Where a Modification Proposal is made in accordance with the Modification Procedures, the Licensee must:

- (a) except in the case of a modification falling within the scope of Standard Condition B5.22 or Standard Condition B5.29, as soon as is reasonably practicable, and no later than the time specified in the Modification Procedures, give notice to the Regulator:
 - (i) giving particulars of the Modification Proposal;
 - (ii) where an alternative Modification Proposal is made in respect of the same matter as the original proposal, giving particulars of that alternative proposal;
 - (iii) giving particulars of any representations made by any persons with respect to those Modification Proposals;
 - (iv) including a recommendation (or, in the case of a proposal falling within the scope of Standard Condition B5.26, a determination) by the Modification Panel as to whether any proposed modification should or should not be made, and the factors which (in the opinion of such body) justify the making or not making of a proposed modification, which shall include a detailed explanation of whether and, if so how, the proposed modification would better facilitate the achievement of the Relevant Objectives; and
 - (v) giving such further information as may be required to be given to the Regulator by the Modification Procedures; and
- (b) without prejudice to Standard Condition B5.28, except in the case of a modification falling within the scope of Standard Condition B5.26 or Standard Condition B5.29, comply with any direction of the Regulator:

- (i) to make a modification to the CCS Network Code in accordance with a proposal described in a notice given to the Regulator under Standard Condition B5.14(a) which, in the opinion of the Regulator, will, as compared to the existing provisions of the CCS Network Code or any alternative Modification Proposal, better facilitate the achievement of the Relevant Objectives; or
- (ii) to revise and re-submit a notice provided in accordance with Standard Condition B5.14(a) to reflect the additional steps (including drafting or amending existing drafting of the amendment to the CCS Network Code), revisions (including timetable revisions), analysis or additional information specified in the direction to enable the Regulator to form such an opinion in accordance with Standard Condition B5.14(b)(i) as soon after the Regulator's direction as is appropriate (taking into account the complexity, importance and urgency of the modification).

Part F: Regulator's ability to propose Urgent Modification Proposals

- 5.15 The Modification Procedures must include provision for the Regulator to make a Modification Proposal, in accordance with the procedures that apply to Urgent Modification Proposals as set out in the Modification Procedures, where:
- (a) the Regulator considers that circumstances have arisen which mean that the CCS Network Code needs to be amended as a matter of urgency through an Urgent Modification Proposal; and
 - (b) no other party has made such an Urgent Modification Proposal.

Part G: Significant Code Reviews

- 5.16 Without prejudice to Standard Condition B5.21, the Modification Procedures must provide that proposals for the modification of the CCS Network Code falling within the scope of a Significant Code Review may not be made during the Significant Code Review Phase, except:
- (a) where the Regulator determines that the Modification Proposal may be made, having taken into account (among other things) the urgency of the subject matter of the proposal; or
 - (b) at the direction of, or by, the Regulator.
- 5.17 The Modification Procedures must provide that, where a Modification Proposal is made during a Significant Code Review Phase the Modification Panel shall:
- (a) unless exempted by the Regulator, notify the Regulator as soon as practicable of:
 - (i) any representations received in relation to the suitability of the Significant Code Review; and

- (ii) the Modification Panel's assessment of, whether the proposal falls within the scope of the Significant Code Review and its reasons for that assessment; and
 - (b) if the Regulator so directs, not proceed with the Modification Proposal until the Significant Code Review Phase has ended.
- 5.18 If within twenty-eight (28) days after the Regulator has published its Significant Code Review conclusions:
- (a) where the Regulator issues SCR Directions to the Licensee, the Licensee must comply with those SCR Directions and shall treat the Significant Code Review Phase as ended;
 - (b) where the Regulator issues to the Licensee a statement that no SCR Directions will be issued in relation to the CCS Network Code, the Licensee shall treat the Significant Code Review Phase as ended;
 - (c) where the Regulator raises a Modification Proposal in accordance with Standard Condition B5.11(a), the Licensee shall treat the Significant Code Review Phase as ended;
 - (d) where the Regulator issues a statement that it will continue work on the Significant Code Review, the Licensee shall treat the Significant Code Review Phase as continuing until it is brought to an end in accordance with Standard Condition B5.20;
 - (e) where neither SCR Directions, nor a statement under Standard Condition B5.18(b) or Standard Condition B5.18(d) have been issued, nor a Modification Proposal under Standard Condition B5.18(c) has been made, the Significant Code Review Phase will be deemed to have ended.
- 5.19 The Regulator's published conclusions and SCR Directions to the Licensee will not fetter any voting rights of the members of the Modification Panel or the procedures informing the recommendation described at Standard Condition B5.14(a)(iv).
- 5.20 If the Regulator issues a statement under Standard Condition B5.18(d) and/or a Backstop Direction in accordance with Standard Condition B5.24, the Significant Code Review Phase will be deemed to have ended when:
- (a) the Regulator issues a statement that the Significant Code Review Phase has ended;
 - (b) one of the circumstances in Standard Condition B5.18(a) or 5.18(c) occurs (irrespective of whether such circumstance occurs within twenty-eight (28) days after the Regulator has published its Significant Code Review conclusions); or
 - (c) the Regulator makes a decision consenting or otherwise to the modification of the CCS Network Code following the submission of the report under Standard Condition B5.22(a).
- 5.21 The Modification Procedure must provide that, where the Regulator has issued a statement in accordance with Standard Condition B5.18(d) and/or a Backstop Direction, the Regulator

may submit a Modification Proposal for a modification falling within the scope of Standard Condition B5.26 to the Modification Panel.

- 5.22 The Modification Procedures must provide, where the Regulator submits a Significant Code Review Modification Proposal to the Modification Panel in accordance with Standard Condition B5.21:
- (a) for the Licensee to give a report to the Regulator:
 - (i) including a recommendation by the Modification Panel as to whether the proposed modification should or should not be made, and the factors which (in the opinion of such body) justify the making or not making of the proposed modification, which shall include a detailed explanation of whether and, if so how, the proposed modification would better facilitate the achievement of the Relevant Objectives; and
 - (ii) giving such further information as may be required to be given to the Regulator by the Modification Procedure;
 - (b) for the Licensee to comply with any direction of the Regulator:
 - (i) to make a modification to the CCS Network Code in accordance with a proposal described in a notice given to the Regulator under Standard Condition B5.22(a) which, in the opinion of the Regulator, will, as compared to the existing provisions of the CCS Network Code or any alternative Modification Proposal, better facilitate the achievement of the Relevant Objectives; or
 - (ii) to revise and re-submit a report provided in accordance with Standard Condition B5.22(a) where the Regulator determines that it cannot properly form an opinion on the approval of the Modification Proposal in accordance with Standard Condition B5.22(b)(i);
 - (c) for each of the procedural steps outlined in this Standard Condition B5.22, to the extent that they are relevant, to be in accordance with any timetable(s) directed by the Regulator under Standard Condition B5.10(l).
- 5.23 The Regulator's published conclusions and Significant Code Review Modification Proposal shall not fetter the voting rights of the members of the Modification Panel or the recommendation procedures informing the recommendation described at Standard Condition B5.22(a)(i).
- 5.24 The Modification Procedures shall provide that, where a proposal has been raised in accordance with Standard Condition B5.18(a) or Standard Condition B5.10(l), or by the Regulator under Standard Condition B5.18(c) and it falls within the scope of Standard Condition B5.25, the Regulator may issue a direction (a "**Backstop Direction**"), which requires such proposal(s) and any alternatives to be withdrawn and which causes the Significant Code Review Phase to recommence.

- 5.25 Modification proposals fall within the scope of this Standard Condition B5.25 where the Modification Proposal is in respect of a Significant Code Review.

Part H: Self-governance

- 5.26 The Modification Procedure must provide that Modification Proposals shall only be implemented without the Regulator's approval pursuant to this Standard Condition B5.26 (the "**Self Governance Route**") where:

- (a) in the view of the Modification Panel, the Modification Proposal meets all of the Self-Governance Criteria and the Modification Panel has submitted to the Regulator in respect of the Modification Proposal and not withdrawn a Self-Governance Statement; or if a Self-Governance Statement has not been made, or has been withdrawn, the Regulator has determined that the Self-Governance Criteria are satisfied and the Modification Proposal is suitable for the Self-Governance Route; and
- (b) unless otherwise exempted by the Regulator, the Modification Panel has sent copies of all consultation responses to the Regulator at least seven (7) days before the Modification Panel intends to make its determination under Standard Condition B5.26(d); and
- (c) the Regulator has not directed that the Regulator's decision is required prior to the Modification Panel's determination under Standard Condition B5.26(d); and
- (d) the Modification Panel has, no earlier than seven (7) days after sending the consultation responses referred to at Standard Condition B5.26(b), determined that the Modification Proposal should be implemented on the basis that it would, as compared with the then existing provisions of the CCS Network Code and any other modifications proposed in accordance with Standard Condition B5.11(b), better facilitate the achievement of the Relevant Objectives; and
- (e) either:
 - (i) no appeal has been raised up to and including 15 Business Days after the Modification Panel's determination under Standard Condition B5.26(d) in respect of such Modification Proposal and any alternative Modification Proposal in accordance with Standard Condition B5.27; or
 - (ii) an appeal has been raised in respect of such a Modification Proposal and any alternative Modification Proposal in accordance with Standard Condition B5.27 and the Regulator has not quashed the Modification Panel's determination referred to at Standard Condition B5.26(d), and either remitted the relevant Modification Proposal and any alternative Modification Proposal back to the Modification Panel for reconsideration or taken the decision on the relevant Modification Proposal and any alternative Modification Proposal itself following the appeal.

- 5.27 The Modification Procedure must provide that those persons set out at Standard Condition B5.11(a) may appeal to the Regulator the approval or rejection by the Modification Panel of a

Modification Proposal and any alternative Modification Proposal falling under the Self-Governance Route, provided the appeal has been made up to and including 15 Business Days after the approval or rejection and in accordance with Modification Procedure and, in the opinion of the Regulator:

- (a) the appealing party is likely to be unfairly prejudiced by the implementation or non-implementation of that Modification Proposal and any alternative Modification Proposal; or
- (b) the appeal is on the grounds that:
 - (i) in the case of implementation, the modification may not better facilitate the achievement of at least one of the Relevant Objectives; or
 - (ii) in the case of non-implementation, the modification may better facilitate the achievement of at least one of the Relevant Objectives; and
- (c) the appeal is not brought for reasons that are trivial or vexatious, nor does the appeal have no reasonable prospect of success.

5.28 The Modification Procedure must provide that:

- (a) where an appeal has been raised in respect of a Modification Proposal in accordance with Standard Condition B5.27, that Modification Proposal shall be treated in accordance with any decision and/or direction of the Regulator following that appeal; and
- (b) if the Regulator quashes the Modification Panel's determination referred to at Standard Condition B5.26(d)) of this condition and takes the decision on the relevant Modification Proposal itself following an appeal in accordance with Standard Condition B5.28, the Modification Panel's determination of that modification shall be treated as a recommendation under Standard Condition B5.14(a)(iv).

5.29 The Modification Procedure shall provide that modifications shall only be implemented without the Regulator's approval pursuant to this Standard Condition B5.29 (the "**Fast Track Self-Governance Route**") where:

- (a) in the unanimous view of the Modification Panel, the proposed modification meets all of the Fast Track Self-Governance Criteria;
- (b) the Modification Panel unanimously determines that the modification should be made;
- (c) parties to the CCS Network Code, any Third Party Participants, the Secretary of State and the Regulator, have been notified of the proposed modification;
- (d) none of the persons named in Standard Condition B5.29(c) have objected to the proposed modification being made via the Fast Track Self-Governance Route in the fifteen (15) Business Days immediately following the day on which notification was sent; and

- (e) notification under Standard Condition B5.29(c) contains details of the modification proposed, that it is proposed to be made via the Fast Track Self-Governance Route, how to object to the modification being made via the Fast Track Self-Governance Route, the proposed legal drafting and the proposed implementation date.

Part I: Secretary of State's ability to modify the CCS Network Code

5.30 The Modification Procedures must provide that in addition to the Secretary of State's general rights to make Modification Proposals in accordance with Standard Condition B5.11(a), during the Interim Period, the Secretary of State may follow certain additional procedures to modify the CCS Network Code, as are set out in the CCS Network Code as at Licence Award.

Part J: Modification Provisions relating to Specific Provisions

5.31 The Modification Procedure must provide that where a Modification Proposal relates to any Specific Provisions, the following will apply:

- (a) a Modification Proposal in respect of a Specific Provision may only be initiated by:
 - (i) the T&S Licensee that owns and operates the T&S Network to which those Specific Provisions apply;
 - (ii) a User that is the holder of a Connection Agreement relating to the T&S Network, or relevant part of the T&S Network, to which those Specific Provisions apply;
 - (iii) the Secretary of State; and
 - (iv) the Regulator where the Modification Proposal is in respect of a Significant Code Review;
- (b) where a Modification Proposal in respect of a Specific Provision is initiated, the Secretary must convene a special modification panel comprising:
 - (i) the chairperson of the Modification Panel;
 - (ii) the T&S Licensee that owns and operates the T&S Network to which those Specific Provisions apply, being a voting member;
 - (iii) each User that is the holder of a Connection Agreement relating to the T&S Network, or relevant part of the T&S Network, to which those Specific Provisions apply, being voting members;
 - (iv) the Secretary of State, being a non-voting Member; and
 - (v) the Regulator, being a non-voting Member,

but preserving an equal number of voting rights as between the T&S Licensee and the Users, and otherwise adopting the Modification Procedures in relation to that Modification Proposal.

Part K: Publication of modified versions of the CCS Network Code

- 5.32 The Licensee must make available a copy of the CCS Network Code as modified from time to time on the CCS Network Code Website freely available to all interested parties (the website address of which must be given adequate publicity).

Part L: Determinations by the Regulator

- 5.33 Where the Licensee is required, as specified in the CCS Network Code, to make a determination as is calculated to facilitate the achievement of the Relevant Objectives, any question as to whether the Licensee has complied with that requirement shall be determined by the Regulator.
- 5.34 The Modification Procedures shall provide that any question arising under those procedures as to:
- (a) whether any party is likely to be materially affected by a proposal to modify the CCS Network Code were it to be implemented; or
 - (b) whether representations relating to such a proposal and made in pursuance of the rules have been properly considered by the Licensee,
- shall be determined by the Regulator.
- 5.35 Following a direction under Standard Condition B5.14(b), the implementation date for the relevant modification may only be altered with the consent of, or as directed by the Regulator.

Part M: Reviews of Section E of the CCS Network Code

- 5.36 The Licensee must carry out reviews of certain operational matters governed by Section E of the CCS Network Code (the "**Section E Reviews**") in accordance with the requirements set out in Section E of the CCS Network Code.
- 5.37 Within six (6) months of commencement of a Section E Review, the Licensee must publish and provide to the Regulator and the Secretary of State a report setting out a summary of its findings and:
- (a) where the Licensee was able to agree on a set of recommendations with the Users of its T&S Network, the agreed recommendations; and
 - (b) where the Licensee and the Users were not able to agree on a set of recommendations, the different views of the Licensee and the Users of its T&S Network.
- 5.38 For the purposes of this Part L, the term "Section E Reviews" has the meaning given to that term in the CCS Network Code, and the subject matter and scope of each Section E Review is as set out in the CCS Network Code.

Part N: Annual reporting on Carbon Dioxide Specifications and Measurement Requirements prescribed under the CCS Network Code

5.39 By 30 June following each Operational Charging Year, the Licensee must report to the Regulator and the Secretary of State on the following matters, based on operational data for that preceding Operational Charging Year:

- (a) whether the Licensee considers that the Licensee's Carbon Dioxide Specifications continue to be appropriate, having regard to the technical specifications of the Licensee's T&S Network, the composition of carbon dioxide being delivered by Users at Delivery Points in the T&S Network, and current carbon dioxide transport and storage industry best practice;
- (b) the extent and frequency of any Users delivering carbon dioxide that does not comply with the Carbon Dioxide Specifications, with or without any temporary and longer-term derogations (including any Local Requirements) from compliance with the Carbon Dioxide Specifications;
- (c) whether the Licensee considers that the Licensee's Measurement Requirements continue to be appropriate, having regard to current carbon dioxide transport and storage industry best practice.

5.40 The Regulator may require the Licensee to provide further information in relation to the matters referred to in Standard Condition B5.39.

5.41 In this Part M:

- (a) "**Carbon Dioxide Specifications**" means the Carbon Dioxide Specifications for the Licensee's T&S Network, set out in the CCS Network Code, that Users of the T&S Network must comply with;
- (b) "**Measurement Requirements**" means the Measurement Requirements for the Licensee's T&S Network, as set out in the CCS Network Code, that Users of the T&S Network must comply with; and
- (c) "**Local Requirements**" has the meaning given in the CCS Network Code.

Standard Condition B6: Conduct of T&S Business

Introduction

6.1 The purpose of this condition is to set out the principles that the Licensee must adhere to when conducting the T&S Business.

Structure of this condition

6.2 This condition is structured as follows:

- (a) Part A sets out the general obligation of the Licensee in relation to how it conducts its T&S Business; and
- (b) Part B sets out more detailed requirements relating to Use of System, connection obligations and the CCS Network Code.

Part A: General obligation

6.3 The Licensee must conduct its T&S Business in the manner best calculated to secure that neither:

- (a) the Licensee or any Associate of the Licensee, nor
- (b) any User or future User,

obtains any unfair commercial advantage including, in particular, any such advantage from a preferential or discriminatory arrangement, being, in the case of such an advantage accruing to the Licensee, one in connection with a business other than the T&S Business.

Part B: Use of System, connection and CCS Network Code

6.4 Subject to the provisions of the CCS Network Code and any legislation dealing with access to the T&S Network, the Licensee must not unduly discriminate between any person or class or classes of persons:

- (a) in providing Use of System;
- (b) in carrying out works for the purposes of connection to the T&S Network; or
- (c) in providing for a modification to or the retention of an existing connection to the T&S Network.

6.5 Without prejudice to Standard Condition B6.4, and subject to Special Condition H26 (*Use of System Charging Methodology*), the Licensee must not make charges for providing Use of System to any person or class or classes of persons which differ from the charges for such provision to any other person or any other class or classes of persons, except insofar as such differences reasonably reflect differences in the costs associated with such provision.

- 6.6 In implementing and maintaining the CCS Network Code and in complying with its obligations under that Code (including in respect of the scheduling of the maintenance of its T&S Network), the Licensee must not show undue preference to, or unduly discriminate between, any person or class or classes of persons.

Standard Condition B7: Independence of the T&S Business and restricted use of Confidential Information

Introduction

7.1 The purpose of this condition is to impose certain restrictions and requirements on the Licensee to protect the independence of the T&S Business.

Structure of this condition

7.2 This condition is structured as follows:

- (a) Part A sets out the general obligation of the Licensee to maintain independence and restrict access to Confidential Information;
- (b) Part B sets out the requirement to prepare and publish a Compliance Statement;
- (c) Part C sets out the obligation to comply with the Compliance Statement;
- (d) Part D sets out the obligation to appoint a Compliance Officer;
- (e) Part E sets out the tasks of the Compliance Officer; and
- (f) Part F sets out the obligation to prepare a Compliance Report.

Part A: General obligation

7.3 The Licensee must at all times:

- (a) maintain the full managerial and operational independence of the T&S Business from any businesses carried out by any Associate of the Licensee; and
- (b) maintain managerial and operational systems that prevent any Associate of the Licensee from having access to Confidential Information except and to the extent that such information:
 - (i) is made available on an equal basis to any User or Prospective User of the T&S Network; or
 - (ii) is of a type that is Corporate Information.

Part B: Preparation and content of Compliance Statement

7.4 The Licensee must, within 90 days of Licence Award (and after that at all times, subject to Standard Condition B7.5), have in place a statement (the "**Compliance Statement**"), approved by the Regulator, that describes the practices, procedures, and systems which the Licensee has adopted (or intends to adopt) to ensure compliance with Standard Condition B7.3.

7.5 The Licensee may, with the Regulator's approval, revise a Compliance Statement prepared in accordance with Standard Condition B7.4.

- 7.6 The Licensee must publish an up to date Compliance Statement on its website within 21 days of its approval by the Regulator.
- 7.7 The Compliance Statement must, in particular, set out how the Licensee will:
- (a) maintain the full managerial and operational independence of the T&S Business from any businesses carried out by any Associate of the Licensee; and
 - (b) manage the transfer of employees from the T&S Business to any businesses carried out by any Associate of the Licensee.
- 7.8 The Compliance Statement must also set out how the Licensee will ensure that:
- (a) any arrangements to which the Licensee is party that fall within any of the descriptions given in Standard Condition B7.9(a) are such as to prevent any breach of the requirements under Standard Condition B7.3; and
 - (b) any such arrangements comply with the requirements of Standard Condition B7.9(b).
- 7.9 The arrangements referred to in Standard Condition B7.8 are those that:
- (a) enable any Associate of the Licensee (other than an Associate who is a User or a Prospective User), or any person engaged in the activities of an Associate of the Licensee (other than an Associate who is a User or a Prospective User), to have any use of or access to:
 - (i) premises or parts of premises occupied by persons engaged in, or in respect of, the management or operation of the T&S Business;
 - (ii) systems for recording, processing, or storing data to which persons engaged in the management or operation of the T&S Business also have access;
 - (iii) equipment, facilities, or property employed for the management or operation of the T&S Business; and
 - (iv) the services of any persons who are (whether or not as their principal occupation) engaged in the management or operation of the T&S Business;
 - (b) ensure that any Associate of the Licensee who is a User or a Prospective User does not have access to any of the items listed in (i) to (iv) of Standard Condition B7.9(a).

Part C: Obligation to comply with the Compliance Statement

- 7.10 The Licensee must take all reasonable steps to ensure that it complies with the terms of the Compliance Statement in place under this condition.

Part D: Appointment of Compliance Officer

- 7.11 The Licensee must ensure, following consultation with the Regulator, that a competent person (who is to be known as the "**Compliance Officer**") is appointed for the purpose of facilitating compliance by the Licensee with the Relevant Obligations.

- 7.12 For the purposes of this condition, Relevant Obligations means:
- (a) the requirements of this condition; and
 - (b) so far as they relate to relationships with Associates of the Licensee, the requirements of:
 - (i) Standard Condition B6 (*Conduct of T&S Business*);
 - (ii) Standard Condition B9 (*Prohibition of cross-subsidies*).

Part E: Tasks of Compliance Officer

- 7.13 The Licensee must at all times ensure that the Compliance Officer is engaged for the performance of such duties and tasks as the Licensee considers it appropriate to assign to the Compliance Officer for the purpose specified at Standard Condition B7.11.
- 7.14 The duties and tasks of the Compliance Officer, as referred to in Standard Condition B7.13, must include:
- (a) providing relevant advice and information to the Licensee (including directors of the Licensee) for the purpose of facilitating the Licensee's compliance with the Relevant Obligations;
 - (b) monitoring the effectiveness of the practices, procedures and systems adopted by the Licensee in accordance with its Compliance Statement;
 - (c) investigating any complaint or representation made available to them in accordance with Standard Condition B7.15, and recommending and advising on the remedial action that any such investigation has demonstrated to be necessary or desirable; and
 - (d) providing Information about compliance with the Relevant Obligations for the purpose of the Compliance Report to be prepared by the Licensee under Part F of this condition.
- 7.15 The Licensee must give the Compliance Officer a copy of any complaint or representation that it receives from any person about a matter arising under or because of the Relevant Obligations.

Part F: Compliance Report

- 7.16 The Licensee must, within 90 days of Licence Award and after that no later than every 12 months, provide to the Regulator a report (the "**Compliance Report**") setting out details of the activities of the Compliance Officer during the relevant period covered by the Compliance Report, as well as the procedures in place to ensure that the Licensee is complying with this condition.
- 7.17 The Compliance Report must also set out the details of any investigations conducted by the Compliance Officer, including:

- (a) the number, type, and source of the complaints or representation on which those investigations were based;
- (b) the outcome of the investigations; and
- (c) any remedial action taken by the Licensee following them.

7.18 The Compliance Report must be accompanied by a compliance certificate, in a form approved by the Regulator, certifying the accuracy of the Compliance Report, and which has been approved by a resolution of the Licensee's board of directors and signed by a director of the Licensee.

Standard Condition B8: Requirement for Sufficiently Independent Directors

Introduction

8.1 The purpose of this condition is to set out the Licensee's obligations relating to the requirement for the Licensee to have two sufficiently independent directors.

Structure

8.2 This condition is structured as follows:

- (a) Part A sets out the general obligation of the Licensee to ensure it has at least two non-executive directors;
- (b) Part B sets out the criteria for a sufficiently independent director;
- (c) Part C sets out the required notification to the Regulator of the names of its sufficiently independent directors;
- (d) Part D sets out the terms of appointment of each sufficiently independent director; and
- (e) Part E deals with associated obligations, including notification to the Regulator.

Part A: General obligation

8.3 Subject to Standard Condition B8.14, except and to the extent that the Regulator consents otherwise, the Licensee must ensure that at all times it has at least two non-executive directors who meet the criteria set out in Standard Conditions B8.4, B8.5 and B8.7. In this condition, such directors are referred to as "sufficiently independent directors".

Part B: Criteria for a sufficiently independent director

8.4 A sufficiently independent director must:

- (a) be a natural person; and
- (b) in the reasonable opinion of the Licensee, have the skills, knowledge, experience, and personal qualities necessary to perform effectively as a non-executive director of the Licensee; and
- (c) not have any executive duties within the T&S Business.

8.5 Except and to the extent that the Regulator consents otherwise, and subject to Standard Condition B8.4, a sufficiently independent director must not be, and must not have been during the 12 months before their appointment as a director of the Licensee or Licence Award (whichever is the later):

- (a) an employee of the Licensee; or
- (b) a director or employee of an Associate of the Licensee.

- 8.6 The reference to "director" in Standard Condition B8.5(b) does not include appointment as a non-executive director of a wholly-owned subsidiary of the Licensee that has been incorporated by it solely for the purpose of raising finance for a Permitted Purpose.
- 8.7 A sufficiently independent director must not:
- (a) have, or have had during the 12 months before their appointment as a director or the coming into force of this condition (whichever is the later), any material business relationship with the Licensee or any Associate of the Licensee;
 - (b) hold a remit to represent the interests of any particular shareholder or group of shareholders of the Licensee or the interests of any Associate of the Licensee; or
 - (c) receive remuneration from the Licensee or any Associate of the Licensee apart from a director's fee and reasonable expenses.
- 8.8 For the purposes of Standard Conditions B8.7(a) and B8.7(c) respectively:
- (a) the holding of a small number of shares or associated rights shall not, of itself, be considered a material business relationship; and
 - (b) the receipt or retention of any benefit accrued as a result of prior employment by or service with the Licensee or any Associate of the Licensee shall not be considered to be remuneration.

Part C: Notification to Regulator

- 8.9 The Licensee must notify the Regulator of the names of its sufficiently independent directors within 14 days of Licence Award and must notify the Regulator within 14 days where any new directors are appointed to fulfil the obligation in Standard Condition B8.3.

Part D: Terms of appointment of each sufficiently independent director

- 8.10 The terms of appointment of each sufficiently independent director must include a condition stipulating that both the Licensee and the appointee will use their best endeavours to ensure that the appointee remains sufficiently independent during their term of office, having particular regard to the criteria set out in Standard Conditions B8.4, B8.5 and B8.7.
- 8.11 A term of appointment for a sufficiently independent director may not be for longer than eight years, but an individual may be reappointed thereafter provided that they continue to meet the criteria set out in Standard Conditions B8.5 and B8.7.
- 8.12 The terms of appointment and/or the articles of association of the Licensee must not restrict the ability of each sufficiently independent director to vote at board meetings of the Licensee.

Part E: Other obligations

- 8.13 The Licensee must notify the Regulator in writing within 14 days if any sufficiently independent director is removed from office or resigns, giving reasons for the removal or (to the extent that they are known to the Licensee) the resignation. For the purposes of this

requirement, the reasons for a resignation may, if appropriate, be stated to be personal reasons.

- 8.14 If at any time the Licensee has fewer than two sufficiently independent directors because of a removal or resignation or other reason (including death or incapacity), the Licensee must use its reasonable endeavours to ensure that a new director is, or new directors are, appointed to fulfil the obligation in Standard Condition B8.3 as soon as is reasonably practicable to bring the number of sufficiently independent directors up to at least two.

Standard Condition B9: Prohibition of cross-subsidy

Introduction

9.1 The purpose of this condition is to set out a prohibition on any cross-subsidy to or from the T&S Business.

Structure of this condition

9.2 This condition is structured as follows:

- (a) Part A sets out the general prohibition of any cross-subsidy; and
- (b) Part B sets out additional points of interpretation for this condition.

Part A: General prohibition

9.3 Unless the Regulator has otherwise consented, the Licensee must ensure that the T&S Business does not give any cross-subsidy to, or receive any cross-subsidy from, any other business of:

- (a) the Licensee; or
- (b) any Associate of the Licensee.

Part B: Interpretation

9.4 In this condition, any reference to the T&S Business includes a reference to any activity that is part of the T&S Business to the extent that it is carried on by any third party acting on the Licensee's instruction or behalf.

Standard Condition B10: Regulatory Accounts

Introduction

- 10.1 This condition applies to Regulatory Accounts prepared for each Charging Year and requires the Licensee to:
- (a) prepare and publish Regulatory Accounts within the meaning set out in Standard Conditions B10.3 to B10.9; and
 - (b) maintain (and ensure that any Affiliate or Related Undertaking of the Licensee maintains) such accounting records, other records, and reporting arrangements as are necessary to enable the Licensee to comply with that obligation.

Structure of this condition

- 10.2 This condition is structured as follows:
- (a) Part A sets out the requirement to prepare Regulatory Accounts;
 - (b) Part B sets out the required consistency with the statutory accounts;
 - (c) Part C sets out the required audit and delivery of Regulatory Accounts;
 - (d) Part D sets out the terms of appointment of an Appropriate Auditor;
 - (e) Part E deals with Agreed Upon Procedures in relation to the prohibition of cross-subsidy and discrimination;
 - (f) Part F sets out the requirement that the Licensee publish its Regulatory Accounts; and
 - (g) Part G sets out additional points of interpretation for this condition.

Part A: Preparation of Regulatory Accounts

- 10.3 For the purposes of this condition, but without prejudice to Standard Condition B10.10, the Licensee must prepare separate Regulatory Accounts for each of the following activities (where the Licensee is conducting that activity) for each Charging Year (referred to as the "**T&S Business Activities**"):
- (a) the T&S Business; and
 - (b) other activities to which this licence relates and to which the Regulator has given its consent in accordance with Standard Condition B13 (*Restriction on activity and financial ringfencing*).
- 10.4 Except and so far as the Regulator otherwise consents, the Licensee must comply with the obligations imposed by Standard Conditions B10.3 to B10.9.

- 10.5 The Licensee must keep or cause to be kept, for a period approved by the Regulator that is not less than the period referred to in section 388(4)(b) of the Companies Act 2006, and in the manner referred to in that section 388, such accounting and other records as are necessary to ensure that all of the revenues, costs, assets, liabilities, reserves, and provisions of, or reasonably attributable to, each of the T&S Business Activities of the Licensee are separately identifiable as such in those records (and in those of any Affiliate or Related Undertaking of the Licensee).
- 10.6 The Regulatory Accounts must be prepared on a consistent basis derived from the accounting and other records referred to in Standard Condition B10.5.
- 10.7 The Regulatory Accounts must be prepared under the same Applicable Accounting Framework as the most recent or concurrent statutory accounts of the Licensee and must comprise the accounting items set out at Standard Condition B10.8, supported by the explanatory notes mentioned at Standard Condition B10.9.
- 10.8 The accounting items to which Standard Condition B10.7 refers are:
- (a) a profit and loss account (or, as appropriate, a statement of profit or loss and other comprehensive income);
 - (b) a statement of income;
 - (c) a statement of total recognised gains and losses (or, as appropriate, a statement of changes in equity and, if appropriate, a statement of recognised income and expense);
 - (d) a balance sheet (or, as appropriate, a statement of financial position);
 - (e) a cash flow statement (or, as appropriate, a statement of cash flows);
 - (f) a Corporate Governance Statement;
 - (g) a Strategic Report; and
 - (h) a Directors' Report.
- 10.9 The explanatory notes to which Standard Condition B10.7 refers must:
- (a) provide a summary of the accounting policies adopted by the Licensee for the purpose of producing Regulatory Accounts;
 - (b) disclose, in relation to the accounts to which Standard Condition B10.8(a) refers, Segmental Information for each of the T&S Business Activities of the Licensee for each of the disclosure lines in the relevant account or statement down to the total operating profit level; and
 - (c) disclose, in relation to the accounts to which Standard Condition B10.8(c) refers, Segmental Information for each of the T&S Business Activities of the Licensee for gross additions to tangible and intangible assets in the case of a balance sheet, or for

gross additions to non-current assets by category in the case of a statement of financial position.

Part B: Consistency with the statutory accounts

10.10 Regulatory Accounts prepared in respect of a Charging Year under Standard Conditions B10.3 to B10.9 must, so far as is reasonably practicable and except with the Regulator's approval, having regard to the purposes of this condition:

- (a) have the same content and format as the most recent or concurrent statutory accounts of the Licensee prepared under Chapter 4 of Part 15 of the Companies Act 2006 and follow the reporting requirements of the Applicable Accounting Framework, subject to the inclusion of Segmental Information as prescribed in Standard Conditions B10.9(b) and B10.9(c);
- (b) comply with all relevant accounting and reporting standards currently in force under the Applicable Accounting Framework as set out in section 395 of the Companies Act 2006; and
- (c) also be prepared as group accounts in the format required under the Applicable Accounting Framework if the holder of this licence is a Parent Undertaking and itself prepares group accounts under the Applicable Accounting Framework.

Part C: Audit and delivery of Regulatory Accounts

10.11 Unless the Regulator otherwise consents, the Licensee must:

- (a) procure an audit by an Appropriate Auditor of such parts of its Regulatory Accounts and the Directors' Report as would be required by the Companies Act 2006 if the Licensee were a Quoted Company and they were the Licensee's statutory accounts drawn up to 31 March and prepared under Part 15 of the Companies Act 2006;
- (b) procure a report by the Appropriate Auditor, addressed to the Regulator, that states whether in his opinion those accounts fairly present the Licensee's financial position, financial performance, and cash flows in accordance with the requirements of this condition; and
- (c) deliver those accounts and the Appropriate Auditor's report required under Standard Condition B10.11(b) to the Regulator as soon as is reasonably practicable and in any event before the date of their publication under Standard Condition B10.16.

Part D: Terms of appointment of Appropriate Auditor

10.12 For the purposes of Standard Condition B10.11, the Licensee must enter into a contract of appointment with an Appropriate Auditor that includes a term requiring that the audit of the Licensee's Regulatory Accounts must be conducted by that Appropriate Auditor in accordance with all such relevant auditing standards in force on the last day of the Charging Year to which the audit relates as would be appropriate for accounts prepared in accordance with the provisions of Part 15 of the Companies Act 2006.

Part E: Agreed Upon Procedures: prohibition of cross-subsidy and discrimination

- 10.13 The Licensee must enter into a contract of appointment with an Appropriate Auditor for the completion of Agreed Upon Procedures in relation to the prohibition of cross-subsidy and discrimination generally and in particular under Standard Condition B6 (*Conduct of T&S Business*) and under Standard Condition B9 (*Prohibition of cross-subsidy*).
- 10.14 The contract of appointment must require that the Agreed Upon Procedures are conducted in relation to each Charging Year and that the Licensee will arrange for the Appropriate Auditor to address a report to the Regulator by 31 July following the end of each Charging Year that:
- (a) states that he has, in a manner consistent with the relevant auditing standards, completed the Agreed Upon Procedures issued by the Regulator in respect of the Charging Year under report; and
 - (b) sets out the Appropriate Auditor's findings.
- 10.15 If the Regulator is satisfied that the report referred to in Standard Condition B10.14 demonstrates that the Licensee has complied with the obligation to avoid discrimination and cross-subsidy that is imposed on the Licensee by the standard conditions of this licence referred to in Standard Condition B10.13, the report will be deemed to represent the results of an audit of that obligation.

Part F: Publication and provision of Regulatory Accounts

- 10.16 Unless the Regulator, after consulting with the Licensee, directs otherwise, the Licensee must publish its Regulatory Accounts:
- (a) as a stand-alone document in accordance with this condition;
 - (b) by 31 July after the end of the Charging Year to which the accounts relate;
 - (c) on, and in a way that is readily accessible from, its website or a website of an Affiliate or Ultimate Controller of the Licensee provided that the link is both clear and readily accessible; and
 - (d) in any other manner that, in the opinion of the Licensee, is necessary to secure adequate publicity for the accounts.
- 10.17 The Licensee must provide a copy of the Regulatory Accounts free of charge to any person who requests a copy.

Part G: Interpretation

- 10.18 The requirement under Standard Condition B10.8 for the Licensee to include a Strategic Report, a Corporate Governance Statement, and a Directors' Report in its Regulatory Accounts must be read as if the requirement applied to the Licensee as a Quoted Company, whether or not it is such a company, such that:
- (a) the Corporate Governance Statement, has the coverage and content of the corporate governance statement that a Quoted Company is required to prepare under the UK

Corporate Governance Code issued under the UK Listing Authority's listing rules and interpretations on corporate governance;

- (b) the Strategic Report has the coverage and content of the Strategic Report that a Quoted Company is required to prepare under sections 414A, 414C and 414D of the Companies Act 2006; and
- (c) the Directors' Report, has the coverage and content of the directors' report that a Quoted Company is required to prepare under sections 415, 416, 418(2), and 419(3) and (4) of the Companies Act 2006.

Standard Condition B11: Provision of information to the Regulator

Introduction

- 11.1 The purpose of this condition is to set out a general obligation on the Licensee to provide Information to the Regulator and to procure an undertaking from its Ultimate Controller to facilitate the provision of such Information.

Structure of this condition

- 11.2 This condition is structured as follows:
- (a) Part A sets out the general obligation of the Licensee to provide Information to the Regulator as reasonably required;
 - (b) Part B sets out the requirement that the Licensee procure Information undertakings;
 - (c) Part C sets out the evidence requirements to show compliance and the duty to enforce;
 - (d) Part D sets out the restriction of arrangements with any Ultimate Controller;
 - (e) Part E sets out the presumption that the provision of Information is sufficient for the purposes of the relevant condition; and
 - (f) Part F sets out the exception to the general obligation set out in Part A.

Part A: General obligation

- 11.3 Subject to Standard Condition B11.11, the Licensee must, in addition to any requirements under the Act, provide to the Regulator, in such manner and at such times as the Regulator may require, such Information as the Regulator may reasonably require or as may be necessary for the purpose of performing:
- (a) any functions conferred on the Regulator by or under the Act; and
 - (b) the regulatory functions conferred on the Regulator by other statute or enactment.

Part B: Procurement of Information undertaking

- 11.4 The Licensee must procure from each company or other person which the Licensee knows or reasonably should know is at any time an Ultimate Controller of the Licensee a legally enforceable undertaking (the "**Information Undertaking**") in favour of the Licensee, in a form specified by the Regulator for the purposes of this condition and on the terms set out in Standard Condition B11.5.
- 11.5 The terms of the Information Undertaking are that the Ultimate Controller (the "**Information Covenantor**"):
- (a) will give to the Licensee; and

- (b) will procure that any person (including a corporate body) which is a Subsidiary Undertaking of, or is controlled by, the Information Covenantor (other than the Licensee and the Licensee's Subsidiary Undertakings) will give to the Licensee, all such Information as may be necessary to enable the Licensee to comply fully with its obligation under Standard Condition B11.3.

11.6 The Information undertaking to be procured under Standard Condition B11.4:

- (a) must have been obtained before the end of seven (7) days after the date on which the corporate body or other person in question becomes an Ultimate Controller of the Licensee; and
- (b) must remain in force for so long as the Licensee remains the holder of this licence and the Information Covenantor remains an Ultimate Controller of the Licensee.

Part C: Evidence of compliance and duty to enforce

11.7 Whenever the Licensee obtains an Information Undertaking in accordance with Standard Condition B11.6(a), it must:

- (a) give the Regulator evidence of its compliance without delay, including a copy of the Information Undertaking in question; and
- (b) at all times comply with any direction from the Regulator to enforce that Information Undertaking.

Part D: Restriction of arrangements with Ultimate Controller

11.8 Except with the Regulator's consent, the Licensee must not enter (directly or indirectly) into any agreement or arrangement with any Ultimate Controller of the Licensee or, where the Ultimate Controller is a corporate body, with any of the Subsidiary Undertakings of such a corporate Ultimate Controller (other than the Subsidiary Undertakings of the Licensee) at any time when:

- (a) an Information Undertaking complying with Standard Condition B11.4 is not in place in relation to that Ultimate Controller; or
- (b) there is an unremedied breach of an Information Undertaking that is in place in relation to that Ultimate Controller; or
- (c) the Licensee is in breach of the terms of any direction issued by the Regulator under Standard Condition B11.7(b).

Part E: Sufficiency of Information

11.9 The power of the Regulator to request Information under this condition is in addition to the power of the Regulator to call for Information under or pursuant to any other condition and under any statutory powers.

- 11.10 There shall be a presumption that the provision of Information in accordance with any other condition is sufficient for the purposes of that condition, but that presumption shall be rebutted if the Regulator states in writing that in its opinion such further Information is, or is likely to be, necessary to enable it to exercise functions under the condition in question.

Part F: Exception to general obligation

- 11.11 This condition shall not require the Licensee to produce any documents or give any Information which it could not be compelled to produce or give in evidence in civil proceedings before a court.

Standard Condition B12: Disposal of assets and restrictions on charges

Introduction

12.1 The purpose of this condition is to impose restrictions on the ability of the Licensee to dispose of T&S Assets and grant security.

Structure of this condition

12.2 This condition is structured as follows:

- (a) Part A sets out the general prohibition on the Licensee regarding the disposal of T&S Assets and the grant of security;
- (b) Part B sets out the arrangements for Regulator's consent;
- (c) Part C sets out exceptions to the general prohibition set out in Part A; and
- (d) Part D sets out a restriction on the surrender of Group Relief.

Part A: General prohibition

12.3 The Licensee must not, except with the consent of the Regulator or unless otherwise permitted under this condition:

- (a) take any action that is or would be a Disposal of, or Relinquishment of Operational Control over, any T&S Asset (in whole or in part);
- (b) grant any mortgage, charge, or other form of security over any Receivables and/or any T&S Asset.

12.4 Notwithstanding any other provision of this licence, the Licensee must ensure that any Disposal of, or Relinquishment of Operational Control over, any T&S Asset is always subject to the Licensee complying with applicable Legal Requirements, and any terms of the Government Support Package.

Part B: Arrangements for Regulator's consent

12.5 Where the Licensee is:

- (a) seeking the Regulator's consent to a transaction otherwise prohibited under Standard Condition B12.3; or
- (b) intending to proceed with a transaction that would be prohibited under Standard Condition B12.3 except that it falls within the exception set out in Standard Condition B12.8(a),

the Licensee shall give the Regulator not less than three (3) months' prior written notice of its intention to proceed with the transaction, together with such further information as the Regulator may request relating to such transaction (including details of the relevant Legal

Requirement, where the Licensee is seeking to rely on the exception in Standard Condition B12.8(a)).

12.6 A consent by the Regulator under Standard Condition B12.5(a) may be given subject to the acceptance by the Licensee, or by any third party to the transaction in question, of such conditions as may be specified in that consent.

12.7 The Licensee may proceed with the transaction in relation to which it is seeking the Regulator's consent pursuant to Standard Condition B12.5(a) if:

- (a) the Regulator consents to the transaction in question;
- (b) the Licensee has complied with such conditions as the Regulator may attach to its consent; and
- (c) if applicable, the Licensee has procured that any third party to the transaction in question complies with such conditions.

Part C: Exceptions to general prohibition

12.8 Notwithstanding Standard Condition B12.3 above, the Licensee may:

- (a) take any action referred to in Standard Conditions B12.3(a) or B12.3(b) without the consent of the Regulator if the Licensee is required to do so by pursuant to a requirement limb (b) of the definition Legal Requirement;
- (b) take any action referred to in Standard Condition B12.3(a) without the consent of the Regulator if:
 - (i) the Regulator has issued directions for the purposes of this condition containing a general consent (whether or not subject to conditions) to (A) transactions of a specified description; or (B) the Disposal of, or Relinquishment of Operational Control over, a T&S Asset of a specified description; and
 - (ii) the transaction or the T&S Asset subject to the proposed Disposal or Relinquishment of Operational Control are of a description to which such directions apply and the Disposal or Relinquishment of Operational Control is in accordance with any conditions to which such directions are subject;
- (c) take any action referred to in Standard Condition B12.3(a) without the consent of the Regulator where this is a Disposal which:
 - (i) is a Disposal at arm's length and on normal commercial terms of Redundant or Obsolete assets (other than any part of the T&S Storage Site(s)) which, in the case of Obsolete assets, have been replaced by items of equivalent or better quality in accordance with the Licensee's usual maintenance programme; or
 - (ii) is a Disposal at arm's length of any asset (other than any part of the T&S Storage Site(s)) having a market value which, when aggregated with the market value of all other assets disposed of by it under this condition in any

Charging Year, does not exceed £50,000 (CPIH Indexed), provided that any such Disposal (either alone or when aggregated with any related disposal) does not result in a material adverse effect on the T&S Network.

12.9 If the relevant T&S Asset that is subject to a proposed Disposal or Relinquishment of Operational Control comprises a significant part of the T&S Network, notwithstanding that the Disposal or Relinquishment of Operational Control is permitted under Standard Condition B12.8(a) or Standard Condition B12.8(b), the Licensee must:

- (a) notify the Regulator at least 60 days in advance of the proposed Disposal or Relinquishment of Operational Control over the T&S Asset; and
- (b) not proceed with the proposed Disposal or Relinquishment of Operational Control unless the Regulator has provided its consent.

12.10 For the purposes of Standard Condition B12.9, "a significant part of the T&S Network" means such that, if a Disposal or Relinquishment of Operational Control of that part proceeded, then this would reduce the capacity available to existing and/or future Users and/or cause constraints in the T&S Network.

Part D: Surrender of Group Relief

12.11 The Licensee must not make any surrender of Group Relief to any Associate of the Licensee or to any other person, even where such a surrender is for value, unless agreed by the Regulator at the end of the asset life.

Standard Condition B13: Restriction on activity and financial ringfencing

Introduction

- 13.1 The purpose of this condition is to require the Licensee to comply with certain requirements so that, subject to some limited exceptions, the T&S Business is ringfenced and the Licensee does not carry out any other business.

Structure of this condition

- 13.2 This condition is structured as follows:
- (a) Part A sets out the general prohibition on the Licensee in conducting any business other than the T&S Business or the holding of any other investments;
 - (b) Part B sets out the activities which are not prevented by the general prohibition;
 - (c) Part C sets out that the conduct of De Minimis Business is permitted;
 - (d) Part D sets out the limitations of De Minimis Business which cannot be exceeded;
 - (e) Part E sets out the calculation of total amount of investments;
 - (f) Part F sets out the ability to invest any Onshore Decommissioning Fund and/or Offshore Decommissioning Fund; and
 - (g) Part G sets out additional points of interpretation for this condition.

Part A: General prohibitions

- 13.3 The Licensee must not, without the prior consent of the Regulator, conduct any business or carry on any activity other than the T&S Business.
- 13.4 The Licensee must not, without the prior consent of the Regulator, hold or acquire shares or other investments of any kind except:
- (a) shares or other investments in a body corporate the sole activity of which is to carry on the activities of the T&S Business;
 - (b) shares or other investments in a body corporate which is a Subsidiary Undertaking of the Licensee and incorporated by it solely for the purpose of raising finance for the T&S Business; or
 - (c) subject to Standard Condition B13.5, investments acquired in the usual and ordinary course of the Licensee's treasury management operations.
- 13.5 The Licensee can only rely on the exception permitted by Standard Condition B13.4(c) if it has in force, in relation to those operations, a system of internal controls which complies with such best corporate governance practice as required (or, in the absence of any such requirement, recommended) from time to time by the UK Listing Authority.

Part B: Activities not prevented by the general prohibition

- 13.6 Subject to the provisions of Standard Conditions B13.4 and B13.5, nothing in this condition prevents:
- (a) any Affiliate, in which the Licensee does not hold shares or other investments, conducting any business or carrying on any activity;
 - (b) the Licensee holding shares as, or performing the supervisory or management functions of, an investor in respect of any body corporate in which it holds an interest consistent with the provisions of this licence; or
 - (c) the Licensee carrying on any business or conducting any activity to which the Regulator has given its consent; or
 - (d) the Licensee performing the supervisory or management functions of a Holding Company in respect of any Subsidiary Undertaking to which the Regulator has given its consent.

Part C: Permission to conduct De Minimis Business

- 13.7 Nothing in this condition prevents the Licensee or an Affiliate or Related Undertaking of the Licensee in which the Licensee holds shares or other investments (a "relevant associate") conducting De Minimis Business as defined in Standard Condition B13.8 provided that and for so long as each of the limitations specified in Standard Conditions B13.9 to B13.11 are complied with.
- 13.8 For the purpose of this condition, "De Minimis Business" means any business or activity carried on by the Licensee or a relevant associate or relevant associates other than:
- (a) the T&S Business; and
 - (b) any other business activity to which the Regulator has given its consent in writing in accordance with Standard Condition B13.6(c).

Part D: Limitations of De Minimis Business not to be exceeded

- 13.9 The Licensee or a relevant associate may carry on De Minimis Business so long as neither the following limitations is exceeded.
- 13.10 The first limitation is that the total turnover of all the De Minimis Business carried on by the Licensee plus the Equity Share of the total turnover of all the De Minimis Business carried on by all its relevant associates must not in any Charging Year exceed 2.5 per cent of the total turnover of the Licensee as shown by the most recent audited Regulatory Accounts of the Licensee.
- 13.11 The second limitation is that the total amount (calculated in accordance with Standard Condition B13.12) of all investments made by the Licensee in De Minimis Business, as carried on by the Licensee and all relevant associates, must not at any time after the date at which this condition takes effect in this licence exceed 2.5 per cent of the sum of the Licensee's share capital in issue, its share premium and its consolidated reserves (including

retained earnings) as shown by its most recent audited Regulatory Accounts available at that date.

Part E: Calculation of total amount of investments

13.12 For the purpose of calculating the total amount of the investments referred to in Standard Condition B13.11:

- (a) "investments" means any form of financial support or assistance given by or on behalf of the Licensee for the De Minimis Business whether on a temporary or permanent basis and including any commitment to provide any such support or assistance in the future; and
- (b) at any relevant time, the amount of an investment is the sum of:
 - (i) the fair value of such investment, having regard to the audited historical cost balance sheet of the Licensee as at its latest accounting reference date to have occurred prior to Licence Award and any other information considered as relevant by the Regulator in assessing the fair value of such investment;
 - (ii) the total gross amount of all expenditure (whether of a capital or revenue nature) howsoever incurred by the Licensee in respect of such investment in all completed accounting reference periods since such accounting reference date; and
 - (iii) all commitments and liabilities (whether actual or contingent) of the Licensee relating to such investment outstanding at the end of the most recently completed accounting reference period,

less the sum of the total gross amount of all income (whether of a capital or a revenue nature and however received by the Licensee) in respect of such investment in all completed accounting reference periods since the accounting reference date referred to in sub-paragraph (i).

Part F: Investment of Onshore and Offshore Decommissioning Funds

13.13 Nothing in this condition shall prevent the Licensee from investing any Onshore Decommissioning Funds and any Offshore Decommissioning Funds in accordance with the conditions of this licence.

Part G: Interpretation

13.14 In Standard Condition B13.10, Equity Share, in relation to any shareholding, means the nominal value of the equity shares held by the Licensee in a relevant associate, as a percentage of the nominal value of the entire issued equity share capital of that relevant associate.

Standard Condition B14: Availability of resources

Introduction

14.1 The purpose of this condition is to set out certain obligations of the Licensee, so that the Licensee has, at all times, the necessary financial and other resources available to it.

Structure of this condition

14.2 This condition is structured as follows:

- (a) Part A sets out the general obligation on the Licensee to act in a manner designed to secure for itself such resources as required and to provide a document to the Regulator certifying the availability of such resources;
- (b) Part B sets out the required content of a Financial Resources Certificate;
- (c) Part C sets out the statement of factors and report by auditors in relation to the Financial Resources Certificate;
- (d) Part D sets out the required content of a Operational Resources Certificate;
- (e) Part E sets out the statement of factors in relation to the Operational Resources Certificate;
- (f) Part F sets out the required content of a Licence Compliance Certificate;
- (g) Part G sets out the obligation to report any adverse circumstance;
- (h) Part H sets out the restriction on payment of Distributions; and
- (i) Part I sets out an obligation for the Licensee to prepare and maintain an Intervention Plan.

Part A: General obligations

14.3 The Licensee must at all times act in a manner designed to secure that it has available to itself such resources, including (without limitation) management and financial resources, personnel, fixed and moveable assets, rights, licences, consents and facilities, on such terms and with such rights, as shall ensure that it is at all times able to:

- (a) economically, efficiently and effectively carry on the T&S Business; and
- (b) comply in all respects with its obligations under this licence, the CCS Network Code and any Legal Requirements.

14.4 The Licensee must by 31 July each year give the Regulator a document:

- (a) that comprises the Financial Resources Certificate, the Operational Resources Certificate and the Licence Compliance Certificate; and

- (b) the contents of which (that is, the certificates) have been approved by a resolution of the Licensee's board of directors and signed by a director of the Licensee pursuant to that resolution.

Part B: Financial Resources Certificate

14.5 The Financial Resources Certificate, to be provided in accordance with Standard Condition B14.4, must take one of the following forms:

(a) **Certificate 1F**

"After making enquiries and having taken into account all relevant information, including (without limitation) any Distribution that might reasonably be expected to be declared or paid by the Licensee, the Licensee's directors have a reasonable expectation that the Licensee will have available to it sufficient financial resources and financial facilities available to enable the Licensee to carry on the T&S Business economically, efficiently and effectively for the following period:

- (i) where the certificate is being provided before the Commercial Operations Date, for the period up to the Commercial Operations Date or 36 months from the date of the certificate, whichever is the longer; and
- (ii) where the certificate is being provided on or after the Commercial Operations Date, for the period of 36 months from the date of the certificate."

or

(b) **Certificate 2F**

"After making enquiries, and subject to what is explained below, having taken into account all relevant information, including (without limitation) any Distribution that might reasonably be expected to be declared or paid by the Licensee, the Licensee's directors have a reasonable expectation, subject to what is explained below, that the Licensee will have available to it sufficient financial resources and financial facilities to enable the Licensee to carry on the T&S Business economically, efficiently and effectively for the following period:

- (i) where the certificate is being provided before the Commercial Operations Date, for the period up to the Commercial Operations Date or 36 months from the date of the certificate, whichever is the longer; and
- (ii) where the certificate is being provided on or after the Commercial Operations Date, for the period of 36 months from the date of the certificate.

However, the directors of the Licensee would like to draw attention to the following factors, which may cast doubt on the Licensee's ability to carry on the T&S Business economically, efficiently and effectively [*followed by a description of the factors concerned*]."

or

(c) **Certificate 3F**

"In the opinion of the Licensee's directors, the Licensee will not have available to it sufficient financial resources and financial facilities to enable the Licensee to carry on the T&S Business economically, efficiently and effectively for the following period:

- (i) where the certificate is being provided before the Commercial Operations Date, for the period up to the Commercial Operations Date or 36 months from the date of the certificate, whichever is the longer; and
- (ii) where the certificate is being provided on or after the Commercial Operations Date, for the period of 36 months from the date of the certificate."

Part C: Statement of factors and report by auditors in relation to Financial Resources Certificate

14.6 The Licensee must ensure that the Financial Resources Certificate is accompanied by:

- (a) a statement of the main factors that the Licensee's directors have taken into account in giving that certificate including reference to:
 - (i) the main financial resources and financial facilities available to the Licensee;
 - (ii) the most recent cash flow statement and cash flow forecast for the period covered by the certificate, prepared for the Licensee;
 - (iii) assumptions the Licensee has made in relation to the availability of financial markets for any financing or refinancing requirements needed to be able to carry on the T&S Business economically, efficiently and effectively for the relevant period; and
- (b) a report prepared by its auditors and addressed to the Regulator that states whether or not the auditors are aware of any inconsistencies between, on the one hand, that certificate and the statement submitted with it under Standard Condition B14.6(a) and, on the other hand, any Information that they obtained during their audit work under Standard Condition B10 (*Regulatory Accounts*) on the Licensee's Regulatory Accounts.

Part D: Operational Resources Certificate

14.7 The Operational Resources Certificate, to be provided in accordance with Standard Condition 14.4, must take one of the following forms:

(a) **Certificate 1R**

"After making enquiries the Licensee's directors have a reasonable expectation that the Licensee will have sufficient operational resources including management, personnel, fixed and moveable assets, rights, licences, consents, and facilities available to itself to enable the Licensee to carry on the T&S Business for the following period:

- (i) where the certificate is being provided before the Commercial Operations Date, for the period up to the Commercial Operations Date or 36 months from the date of the certificate, whichever is the longer; and
- (ii) where the certificate is being provided on or after the Commercial Operations Date, for the period of 36 months from the date of the certificate."

or

(b) **Certificate 2R**

"After making enquiries, and subject to what is explained below, the Licensee's directors have a reasonable expectation, subject to what is explained below, that the Licensee will have sufficient operational resources including management, personnel, fixed and moveable assets, rights, licences, consents and facilities available to itself to enable the Licensee to carry on the T&S Business for the following period:

- (i) where the certificate is being provided before the Commercial Operations Date, for the period up to the Commercial Operations Date or 36 months from the date of the certificate, whichever is the longer; and
- (ii) where the certificate is being provided on or after the Commercial Operations Date, for the period of 36 months from the date of the certificate."

However, the directors of the Licensee would like to draw attention to the following factors, which may cast doubt on the Licensee's ability to carry on the T&S Business [*followed by a description of the factors concerned*]."

or

(c) **Certificate 3R**

"In the opinion of the Licensee's directors, the Licensee will not have sufficient operational resources including management, personnel, fixed and moveable assets, rights, licences, consents, and facilities available to itself to enable the Licensee to carry on the T&S Business for the following period:

- (i) where the certificate is being provided before the Commercial Operations Date, for the period up to the Commercial Operations Date or 36 months from the date of the certificate, whichever is the longer; and
- (ii) where the certificate is being provided on or after the Commercial Operations Date, for the period of 36 months from the date of the certificate."

Part E: Statement of factors in relation to Operational Resources Certificate

- 14.8 The Licensee must ensure that the Operational Resources Certificate is accompanied by a statement of the main factors that the Licensee's directors have taken into account in giving that certificate.

Part F: Licence Compliance Certificate

14.9 The Licence Compliance Certificate, to be provided in accordance with Standard Condition B14.4, must take one of the following forms:

(a) **Certificate 1C**

"After making enquiries the Licensee's directors consider that, at the time of their approval of this certificate, the Licensee is in compliance in all material respects with all of the obligations imposed on it by Standard Condition B11 (*Provision of Information to the Regulator*), Standard Condition B13 (*Restriction on activity and financial ringfencing*), Standard Condition B14 (*Availability of resources*), Standard Condition B16 (*Indebtedness*) and Standard Condition B17 (*Undertaking from Ultimate Controller*)."

(b) **Certificate 2C**

"After making enquiries the Licensee's directors consider that, at the time of their approval of this certificate, the Licensee is not in compliance in all material respects with all of the obligations imposed on it by Standard Condition B11 (*Provision of Information to the Regulator*), Standard Condition B13 (*Restriction on activity and financial ringfencing*), Standard Condition B14 (*Availability of resources*), Standard Condition B16 (*Indebtedness*) and Standard Condition B17 (*Undertaking from Ultimate Controller*) because [followed by an explanation as to why the directors are of this opinion]."

Part G: Obligation to report any adverse circumstance

14.10 The Licensee must inform the Regulator in writing immediately if:

- (a) the directors of the Licensee become aware of any circumstance that causes them no longer to have the reasonable expectations expressed in the most recent certificate given in the form of Certificate 1F, Certificate 2F, Certificate 1R or Certificate 2R; or
- (b) the directors of the Licensee consider that any adverse circumstance that caused them to give the Regulator a certificate in the form of Certificate 3F or Certificate 3R has materially worsened; or
- (c) the directors of the Licensee become aware of any disciplinary, compliance, enforcement or regulatory action (including investigations) taken by any regulatory body against the Licensee.

Part H: Restriction of the declaration and payment of Distributions

14.11 The Licensee must only declare, make, pay or permit Distributions in accordance with a Distribution policy which has been approved by the board of the Licensee and which complies with the principle that any Distributions declared, made, paid or permitted will not cause a default or event of default under the Financing Documents nor impair the ability of the Licensee to finance the T&S Business.

- 14.12 The Licensee must not declare, make, pay or permit Distributions where:
- (a) the Licensee is required not to declare, make, pay or permit Distributions pursuant to the Government Support Package or the Mandated Financing Terms; or
 - (b) the Licensee is in breach of Standard Condition B18.14 (*Financial Resilience and Credit Quality*).

Part I: Requirement to maintain an Intervention Plan

- 14.13 The Licensee must prepare within 12 months of Licence Award, and thereafter maintain, an Intervention Plan fulfilling the criteria described in the definition of Intervention Plan in Standard Condition B14.15.
- 14.14 The requirement for the information described in any of sub-paragraphs (a) to (k) in the definition of Intervention Plan in Standard Condition B14.15 to be included in the Intervention Plan will be satisfied if the plan provides details of other documents or records (including electronic records) where that information can be readily obtained and those documents or records are either maintained by the Licensee itself or are available to the Licensee at all times under a legal or contractual right.
- 14.15 For the purposes of this condition, an "Intervention Plan" means a document or set of documents (which may be in a suitably secure electronic format) containing information that would be sufficient to allow a T&S administrator (within the meaning of section 42 of the Act) readily to obtain information on:
- (a) the financial assets, resources, and facilities of the Licensee;
 - (b) the non-financial assets, rights, and resources of the Licensee including information on key management and operational personnel and information technology systems;
 - (c) the liabilities of the Licensee, including contingent and contractual liabilities, with counterparty and maturity information;
 - (d) the tax affairs of the Licensee;
 - (e) the personnel of the Licensee and any pension schemes sponsored or administered by the Licensee;
 - (f) any mortgages, charges, or other forms of security over the Licensee's assets;
 - (g) the systems and processes by which the Licensee carries on the T&S Business with information on any significant contractual arrangements, including those that impose obligations on the Licensee;
 - (h) any arrangements under which the Licensee has relinquished operation control over any assets that form part of the T&S Network to an Associate of the Licensee (where permitted to do so under this licence);
 - (i) any contractual rights to receive cash or other financial assets from any Associate of the Licensee;

- (j) any contractual obligations to deliver cash or other financial assets to any Associate of the Licensee; and
- (k) the Licensee's arrangements and procedures for ensuring compliance with Legal Requirements and with its obligations under this licence, including Periodic Review reporting requirements.

Standard Condition B15: Asset Management Plans

Introduction

- 15.1 The purpose of this condition is to set out the Licensee's obligations in respect of the development and amendment of the Asset Management Plans and the associated reports that the Licensee must provide to the Regulator.

Structure of this condition

- 15.2 This condition is structured as follows:
- (a) Part A sets out the process for the Regulator to publish and update Asset Management Plan and Reporting Guidance
 - (b) Part B sets out the Licensee's obligations in respect of the Asset Management Plan and Reporting Guidance and Asset Management Plans; and
 - (c) Part C provides the minimum content requirements of any Asset Management Plan.

Part A: Asset Management Plan and Reporting Guidance

- 15.3 The Regulator will prepare and publish Asset Management Plan and Reporting Guidance from time to time in accordance with this Part A.
- 15.4 The Regulator will issue and amend Asset Management Plan and Reporting Guidance by direction.
- 15.5 The Regulator will publish Asset Management Plan and Reporting Guidance on the Regulator's Website.
- 15.6 Before issuing the Asset Management Plan and Reporting Guidance by direction, the Regulator will publish on the Regulator's Website:
- (a) the text of the proposed Asset Management Plan and Reporting Guidance;
 - (b) the date on which the Regulator intends the Asset Management Plan and Reporting Guidance to come into effect; and
 - (c) a period during which representations may be made on the content of the Asset Management Plan and Reporting Guidance, which will not be less than 28 days
- 15.7 Before amending the Asset Management Plan and Reporting Guidance by direction, the Regulator will publish on the Regulator's Website:
- (a) the text of the amended Asset Management Plan and Reporting Guidance;
 - (b) the date on which the Regulator intends the amended Asset Management Plan and Reporting Guidance to come into effect;

- (c) the reasons for the amendments to the Asset Management Plan and Reporting Guidance; and
- (d) a period during which representations may be made on the amendments to the Asset Management Plan and Reporting Guidance, which will not be less than 28 days.

Part B: Licensee's obligations in respect of the Asset Management Plan and Reporting Guidance and Asset Management Plans

- 15.8 The Licensee must comply with its obligations under the Asset Management Plan and Reporting Guidance.
- 15.9 The Asset Management Plan and Reporting Guidance may, amongst other things, require the Licensee to:
- (a) submit (or re-submit pursuant to and in accordance with Standard Condition B15.11) Asset Management Plans to the Regulator for its approval;
 - (b) provide an evaluation of its performance against the Asset Management Plan and the Asset Management Objectives;
 - (c) develop and maintain a methodology that enables the Licensee to achieve and report on the Asset Management Objectives;
 - (d) in each case, in accordance with such provisions and timescales as are specified for that purpose in the Asset Management Plan and Reporting Guidance.
- 15.10 Amongst other things, the Licensee's asset management related reporting obligations will include submitting:
- (a) an initial Asset Management Plan, no less than 12 months prior to Scheduled COD;
 - (b) an updated Asset Management Plan, at Commercial Operations Date; and
 - (c) an updated or revised Asset Management Plan as and when required pursuant to the Asset Management Plan and Reporting Guidance.
- 15.11 The Licensee must keep the Asset Management Plan under constant review and revise it in accordance with the Asset Management Plan and Reporting Guidance.
- 15.12 The Licensee must ensure that any updated or revised Asset Management Plan clearly identifies any changes made and a reasonable explanation for such changes, together with relevant supporting information. Following consideration of the Licensee's submission pursuant to Standard Condition B15.10 the Regulator will:
- (a) confirm that the Licensee's Asset Management Plan is accepted;
 - (b) require the Licensee to revise and re-submit a valid Asset Management Plan, which addresses any issues notified to it by the Regulator; or
 - (c) require further supporting information from the Licensee to confirm whether the Licensee's Asset Management Plan can be accepted.

Part C: Minimum contents of the Asset Management Plan

15.13 Each Asset Management Plan that the Licensee delivers to the Regulator must:

- (a) meet the Asset Management Objectives;
- (b) be consistent with the Asset Management Plan and Reporting Guidance and Good Industry Practice; and
- (c) contain, as a minimum:
 - (i) details of how the Licensee will maintain the T&S Network and its proposed approach to asset replacement (including the management of Strategic Spares and obsolescence mitigation); and
 - (ii) in each case for each Charging Year in the applicable Regulatory Period.

15.14 **"Strategic Spares"** means items that are essential for the effective operation of the T&S Network and:

- (a) have a high risk of obsolescence; or
- (b) have an individual cost that is lower than the value calculated in accordance with the following formula:

$$\text{Forecast Availability Reduction} \times \text{ONC}_A \times \text{FES Databook Carbon Price}$$

Where:

"Forecast Availability Reduction" means the annual average forecast Availability reduction if spares to repair or replace that equipment are not held, either as a single item or the cumulative impact related to all instances of the same item across the T&S Network;

"Availability" has the meaning given to that term in the special conditions of this licence;

"FES Databook Carbon Price" means the latest National Grid Future Energy Scenarios Carbon Price forecast for the Base scenario in 2040 or the current year if later; and

"ONC_A" is the Maximum Annual Cumulative Flow (measured in MtCO₂) as defined in the APDP.

Standard Condition B16: Indebtedness

Introduction

16.1 The purpose of this condition is to set out the restrictions that apply to the Licensee in respect of Indebtedness.

Structure of this condition

16.2 This condition is structured as follows:

- (a) Part A sets out the restrictions on the Licensee incurring Indebtedness or entering into associated specified transactions, and any exceptions to those restrictions;
- (b) Part B sets out the additional limitations that apply, in certain circumstances, to any permissions set out in Part A; and
- (c) Part C sets out an obligation to notify the Regulator of certain breaches.

Part A: Restrictions

16.3 In addition to complying with the requirements of Standard Condition B12 (*Disposal of assets and restrictions on charges*), the Licensee must not enter into any transaction or commitment of a type described or referred to in this condition that does not comply with the restrictions applicable to it under this condition, unless and until:

- (a) the Licensee has provided to the Regulator all material facts relating to the proposed transaction or commitment; and
- (b) following consideration of such material facts, the Regulator has consented to the proposed transaction or commitment.

16.4 With the exception of any Permitted Transactions, the Licensee must not create or continue or permit to remain in effect any mortgage, charge, pledge, lien or other form of security or encumbrance, or undertake any Indebtedness to any other person, or enter into or continue or permit to remain in effect any guarantee or any obligation, except in accordance with all of the following requirements:

- (a) the transaction in question must be on an arm's length basis;
- (b) it must be on normal commercial terms;
- (c) it must be for a Permitted Purpose; and
- (d) if the transaction is within the ambit of Standard Condition B12, it must comply with the requirements of that condition.

16.5 Subject to Standard Condition B16.8, the Licensee must not transfer, lease, license, or lend any sum or sums, asset, right or benefit to any Associate of the Licensee except by way of any of the following transactions:

- (a) a Distribution; or
- (b) a payment under an Approved Contract; or
- (c) a payment, right or benefit conferred on a User under User Arrangements that comply with the CCS Network Code; or
- (d) a repayment of capital; or
- (e) a payment properly due for any goods, services or assets provided on an arm's length basis and on normal commercial terms; or
- (f) a transfer, lease, licence or loan of any sum or sums, asset, right or benefit on an arm's length basis, on normal commercial terms and made in compliance with the payment condition referred to in Standard Condition B16.7; or
- (g) a repayment of, or payment of interest on, a loan that is not prohibited by Standard Condition B16.4; or
- (h) payments for group corporation tax relief calculated on a basis not exceeding the value of the benefit received (subject to the restriction on the surrender of Group Relief, pursuant to Standard Condition B12.11); or
- (i) an acquisition of shares or other investments that is in conformity with Standard Condition B13.4 (*Restriction on activity and financial ringfencing*) and is made on an arm's length basis and on normal commercial terms,

provided, however, that the provisions of Standard Condition B16.8 will prevail in any of the circumstances described or referred to in Standard Condition B16.8.

- 16.6 The Licensee must not create, incur or permit to remain in effect any agreement or commitment incorporating a Cross-Default Obligation, except that the Licensee may give a guarantee permitted by, and compliant with, the requirements of Standard Condition B16.4.

Part B: Additional limitations

- 16.7 The payment condition referred to in Standard Condition B16.5(f) is that the consideration due in respect of the transaction in question is paid in full when the transaction is entered into unless either:
- (a) the counterparty to the transaction has and maintains until payment is made in full an Investment Grade Issuer Credit Rating; or
 - (b) the obligations of the counterparty to the transaction are fully and unconditionally guaranteed throughout the period during which any part of the consideration remains outstanding by a guarantor that has and maintains an Investment Grade Issuer Credit Rating.
- 16.8 Except with the Regulator's consent, if any of the circumstances set out in Standard Conditions B16.10 to B16.11 apply, the Licensee must not enter into or complete any

transaction of a type described or referred to in Standard Condition B16.5 otherwise than in accordance with Standard Condition B16.12.

- 16.9 Notwithstanding Standard Condition B16.8, the prohibition set out in Standard Condition B16.5 does not apply to arrangements entered into prior to the occurrence of any of the circumstances set out in Standard Conditions B16.10 and B16.11, nor to any transactions contemplated by those arrangements.
- 16.10 The circumstances described by this Standard Condition is that the Licensee has:
- (a) given the Regulator a certificate in the form of Certificate 3F under the requirement set out in Standard Condition B14.5 (*Availability of resources*) and has not subsequently given the Regulator a certificate in the form of Certificate 1F or Certificate 2F as set out in the same condition;
 - (b) given the Regulator a certificate in the form of Certificate 3R under the requirement set out in Standard Condition B14.7 and:
 - (i) the opinion expressed in the certificate arises in whole or in part from circumstances affecting an Associate of the Licensee, and
 - (ii) the Licensee has not subsequently given the Regulator a certificate in the form of Certificate 1R or Certificate 2R as set out in the same condition; or
 - (c) informed the Regulator of any circumstance of the type referred to in Standard Condition B14.9 and:
 - (i) the circumstances giving rise to the Licensee's report related to the Licensee's financial resources and the Licensee has not subsequently given the Regulator a certificate in the form of Certificate 1F or 2F as set out in the same condition; or
 - (ii) the circumstances giving rise to the Licensee's report relate to the Licensee's operational resources and:
 - (A) relate in whole or in part to circumstances affecting an Associate of the Licensee; and
 - (B) the Licensee has not subsequently given the Regulator a certificate in the form of Certificate 1R or 2R as set out in the same condition.
- 16.11 The circumstance described by this paragraph is that the Licensee has, after Licence Award, breached any formal covenant contained in any loan agreement, commercial paper, bond issue or committed facility that it has entered into with a counterparty, the Government Support Package or the Revenue Support Agreement, unless one of the following applies:
- (a) the Licensee has remedied the breach to the satisfaction of the counterparty concerned;
 - (b) the Licensee has renegotiated the covenant or arrangement to the satisfaction of the counterparty concerned;

and in either case (a) or (b) the remedy or renegotiation has been notified in writing to the Regulator;

or

- (c) in response to a written request from the Licensee, the Regulator has confirmed, before the breach occurs, that the breach in question will not trigger the provisions of Standard Conditions B16.8 or B16.12.

16.12 Where, under the provisions of Standard Condition B16.8, the Licensee is prohibited from entering into or completing any transaction of a type referred to or described in Standard Condition B16.5, the Licensee may not, without the consent of the Regulator (following the Licensee's disclosure of all material facts) transfer, lease, license, or lend any sum or sums, asset, right, or benefit (as described or referred to in Standard Condition B16.5) to any Associate of the Licensee unless by way of payments for group corporation tax relief calculated on a basis not exceeding the value of the benefit received, so long as the payments are not made before the date on which the amounts of tax thereby relieved would otherwise have been due (subject to the restriction on the surrender of Group Relief, pursuant to Standard Condition B12.11).

Part C: Notification of breaches

16.13 The Licensee must inform the Regulator in writing immediately if a breach of the type described in Standard Condition B16.11 has occurred.

Standard Condition B17: Undertaking from Ultimate Controller

Introduction

17.1 The purpose of this condition is to require the Licensee to obtain an undertaking from its Ultimate Controller to safeguard the Licensee's ability to comply with this licence.

Structure of this condition

17.2 This condition is structured as follows:

- (a) Part A sets out the obligation to procure an undertaking from the Ultimate Controller;
- (b) Part B sets out the required evidence of compliance, and the duty to enforce;
- (c) Part C sets out the reporting obligations in the event of breach; and
- (d) Part D sets out the restriction of arrangements with the Ultimate Controller.

Part A: Obligation to procure undertaking

17.3 The Licensee must procure from each company or other person that is at any time an Ultimate Controller of the Licensee a legally enforceable undertaking in favour of the Licensee, in a form specified by the Regulator for the purposes of this condition generally, and on the terms set out in Standard Condition B17.4.

17.4 The terms referred to in Standard Condition B17.3 are that the Ultimate Controller (the "**Covenantor**"):

- (a) will refrain from any action; and
- (b) will procure that any person (including a corporate body) that is a Subsidiary Undertaking of, or controlled by, the Covenantor (other than the Licensee and any of its Subsidiary Undertakings) will refrain from any action,

that would be likely to cause the Licensee to breach any of its obligations under this licence.

17.5 The undertaking to be procured under Standard Condition B17.3:

- (a) must have been obtained before the end of seven (7) days after the date on which the company or other person in question becomes an Ultimate Controller of the Licensee; and
- (b) must remain in force for as long as the Licensee remains the holder of this licence and the Covenantor remains an Ultimate Controller of the Licensee.

Part B: Evidence of compliance and duty to enforce

17.6 Whenever the Licensee obtains an undertaking in accordance with Standard Condition B17.5(a), it must:

- (a) give the Regulator evidence of its compliance without delay, including a copy of the undertaking in question; and
- (b) at all times comply with any direction from the Regulator to enforce that undertaking.

17.7 The Licensee must, on or before 31 July of each Charging Year, provide to the Regulator with a schedule of the undertakings obtained in accordance with Standard Condition B17.3 that are in force at the time, together with a confirmation that the Licensee has sent each of the Ultimate Controllers concerned a letter, within the preceding 12 months, reiterating to the Ultimate Controller the terms of the undertaking that it has given.

Part C: Reporting obligation in respect of breach

17.8 The Licensee must inform the Regulator immediately in writing if the directors of the Licensee become aware that any undertaking procured under the provisions of this condition has ceased to be legally enforceable or that its terms have been breached.

Part D: Restriction of arrangements with Ultimate Controller

17.9 Except with the Regulator's consent, the Licensee must not enter (directly or indirectly) into any agreement or arrangement with any Ultimate Controller of the Licensee or, where the Ultimate Controller is a corporate body, with any of the Subsidiary Undertakings of such a corporate Ultimate Controller (other than a Subsidiary Undertaking of the Licensee) at any time when:

- (a) an undertaking procured under Standard Condition B17.3 is not in place in relation to that Ultimate Controller; or
- (b) there is an unremedied breach of any such undertaking that is in place in relation to that Ultimate Controller; or
- (c) the Licensee is in breach of the terms of any direction given by the Regulator as under Standard Condition B17.6(b).

Standard Condition B18: Financial Resilience and Credit Quality

Introduction

18.1 The purpose of this condition is to set out various obligations of the Licensee relating to the Licensee's financial resilience, including the process that may be followed which may ultimately require the Licensee to achieve an Investment Grade Issuer Credit Rating.

Structure of this condition

18.2 This condition is structured as follows:

- (a) Part A sets out the general obligation that the Licensee ensures at all times that it has sufficient financial resources and standing;
- (b) Part B sets out the Indicative Credit Rating Process that may be triggered after the First Regulatory Period;
- (c) Part C sets out the requirements relating to achievement of an Investment Grade Issuer Credit Rating;
- (d) Part D sets out an obligation for the Licensee to provide a Financial Resilience Report in certain circumstances, where required to do so by the Regulator;
- (e) Part E sets out an obligation for the Licensee to publish financial results; and
- (f) Part F sets out an obligation for the Licensee to comply with the Mandated Financing Terms.

Part A: General obligation

18.3 As required by Standard Condition 14.3 (*Availability of resources*), the Licensee must ensure that at all times it has the financial resources and standing required to enable the Licensee to:

- (a) economically, efficiently and effectively carry on the T&S Business, including the carrying out of any Post-closure Obligations; and
- (b) comply in all respects with its obligations under this licence, the CCS Network Code and any Legal Requirements.

18.4 Without limiting the generality of Standard Condition B18.3, during the First Regulatory Period, the Licensee is not required to obtain or maintain an Investment Grade Issuer Credit Rating.

Part B: Indicative Credit Rating Process after First Regulatory Period

18.5 Following the expiry of the First Regulatory Period and subject to Standard Condition B18.6, the Regulator may, in accordance with the Indicative Credit Rating Process Guidance and Special Condition H23.4(a) (*Credit Rating*), require the Licensee to undertake a Indicative

Credit Rating Process to inform the Regulator's assessment of whether the then prevailing conditions or circumstances of the Licensee are such that it would be appropriate to introduce an obligation for the Licensee to obtain/maintain an Investment Grade Issuer Credit Rating of at least BBB- (S&P, Fitch or DBRS Morningstar) or Baa3 (Moody's).

- 18.6 The Regulator shall only be entitled to require the Licensee to undertake a Indicative Credit Rating Process, in accordance with Standard Condition B18.5, where, by no less than six (6) months prior to requiring this of the Licensee:
- (a) the Regulator has issued the Indicative Credit Rating Process Guidance; and
 - (b) the Indicative Credit Rating Process Guidance provides guidance to the Licensee in relation to, among other things, the conditions or circumstances of the Licensee that would need to apply before the Regulator introduces the requirement for the Licensee to undertake a Indicative Credit Rating Process.

Part C: Investment Grade Issuer Credit Rating requirement

- 18.7 Following the Licensee undertaking an Indicative Credit Rating Process and subject to Standard Condition B18.8:
- (a) the Regulator may, in accordance with the Investment Grade Issuer Credit Rating Guidance and Special Condition 23.5 (*Credit Rating*), require that the Licensee use all reasonable endeavours to obtain and maintain an Investment Grade Issuer Credit Rating of at least BBB- (S&P, Fitch or DBRS Morningstar) or Baa3 (Moody's);
 - (b) where the Regulator confirms under Special Condition H23.5(c) the requirement for the Licensee to use all reasonable endeavours to obtain and maintain the Investment Grade Issuer Credit Rating, the Regulator will, in accordance with Special Condition H23.5(c):
 - (i) determine the impact (if any) of the requirement; and
 - (ii) determine any adjustments to be provided to the Licensee to reflect such impact (and any such determination, including any associated amendments to Project-Specific Documents, will be implemented by way of a modification of the conditions of this licence in accordance with section 13 of the Act).
- 18.8 The Regulator shall only be entitled to require the Licensee to use all reasonable endeavours to obtain and maintain an Investment Grade Issuer Credit Rating of at least BBB- (S&P, Fitch or DBRS Morningstar) or Baa3 (Moody's), in accordance with Standard Condition B18.7, in the following circumstances:
- (a) where, by no less than six (6) months prior to requiring this of the Licensee the Regulator has issued the Investment Grade Issuer Credit Rating Guidance; ,
 - (b) the Investment Grade Issuer Credit Rating Guidance provides guidance to the Licensee in relation to, among other things, the conditions or circumstances of the Licensee, informed by the Indicative Credit Rating Process, that would need to apply before the Regulator introduces the requirement for the Licensee to obtain and

maintain an Investment Grade Issuer Credit Rating of at least BBB- (S&P, Fitch or DBRS Morningstar) or Baa3 (Moody's); and

- (c) the Indicative Credit Rating Process that had been carried out by the Licensee in accordance with this condition indicates:
- (i) the existence of the conditions or circumstances of the Licensee, referred to in paragraph (b) above; and
 - (ii) notwithstanding the generality of sub-paragraph (i) above, that the conditions or circumstances of the Licensee are such that the Licensee is capable of achieving an Investment Grade Issuer Credit Rating of at least BBB (S&P, Fitch or DBRS Morningstar) or Baa2 (Moody's) referred to in Standard Condition B18.7.

18.9 Any determination by the Regulator in accordance with this Part C to require the Licensee to use all reasonable endeavours to obtain and maintain an Investment Grade Issuer Credit Rating will constitute a licence modification to be made by the Regulator in accordance with section 13 of the Act and if any amendments to any Project-Specific Documents are required to give effect to its determination, such amendments will be implemented by way of a new licence condition in accordance with section 13 of the Act.

Part D: Requirement for Financial Resilience Report

- 18.10 Where, in accordance with Standard Condition B14 (*Availability of resources*), the Licensee has:
- (a) included in the document required under Standard Condition B14.4 of that condition a Financial Resources Certificate in the form of Certificate 2F or 3F; or
 - (b) notified the Regulator of a change in circumstances in accordance with Standard Condition B14.10 of that condition, to the extent that change relates to the Financial Resources Certificate,

the Regulator may require the Licensee to provide to the Regulator a report ("**the Financial Resilience Report**") within 60 days.

- 18.11 The Licensee must ensure that the Financial Resilience Report includes:
- (a) an assessment of the Licensee's current and forecast financial standing, including an assessment of resilience to downside scenarios relating to either operational performance or macro-economic events;
 - (b) financial projections for the next three Charging Years (including the remainder of the current Charging Year) or the remainder of the Regulatory Period, whichever is the longer; and
 - (c) details of Potential Mitigating Actions the Licensee could take to improve its financial resilience and an indication of whether such actions are planned.

18.12 The financial projections required by Standard Condition B18.11(b) must include:

- (a) a forecast balance sheet;
- (b) income statements;
- (c) cashflow statements;
- (d) key financial metric projections; and
- (e) results of any stress tests that the Licensee considers to be appropriate.

Part E: Publication of financial results

18.13 The Licensee must, at such times and in such ways as may from time to time be required by the listing rules of the UK Listing Authority, publish on its website such Information about its annual interim and final results as is required by those rules to be announced by a company whose shares are for the time being listed on the London Stock Exchange, unless otherwise agreed by the Regulator.

Part F: Mandated Financing Terms

- 18.14 The Licensee must at all times (insofar as applicable to it) comply with the Mandated Financing Terms; and
- 18.15 The Licensee acknowledges and agrees that any event or circumstance that causes or results in (directly or indirectly) the Mandated Financing Terms not being satisfied or met shall be a breach of this Standard Condition B18.15.
- 18.16 The Licensee must inform the Regulator as soon as reasonably practicable and, in any event, within five Business Days, if any event or circumstance occurs that has or could cause the Licensee to be in breach of Standard Condition B18.14.
- 18.17 In this condition, "Mandated Financing Terms" means each of the terms set out in Part 2 of the Financial Settlement Document.

Standard Condition B19: Regulatory Instructions and Guidance

Introduction

- 19.1 This condition sets out the scope, contents, and common governance arrangements for the RIGs published by the Regulator pursuant to this condition.
- 19.2 The RIGs are the primary means by which the Regulator directs the Licensee to collect and provide to it the Information that the Regulator needs to administer the special conditions (and such standard conditions as may be relevant) of this licence.

Structure

- 19.3 This condition is structured as follows:
- (a) Part A sets out the Licensee's obligations under this condition;
 - (b) Part B sets out the scope and content of the RIGs;
 - (c) Part C sets out the requirements for new or more detailed Information;
 - (d) Part D sets out the requirement of the Licensee to comply with the provisions of the RIGs; and
 - (e) Part E sets out the ability of the Regulator to give a derogation.

Part A: Licensee's obligations under this condition

- 19.4 Unless and so far as the Regulator otherwise consents, the Licensee must:
- (a) measure and record or, where permitted in the RIGs, estimate the Specified Information;
 - (b) provide such Information to the Regulator in respect of such periods and within such timeframes as are specified in the RIGs; and
 - (c) have in place and maintain appropriate systems, processes, and procedures to enable it to carry out its obligations in sub-paragraphs (a) and (b).
- 19.5 To facilitate compliance with Standard Condition B19.4, the accounting records and other records kept by the Licensee with respect to the Specified Information must:
- (a) be so arranged as to ensure that such Information can be separately identified and reasonably attributed as between the Licensee's business and the business of any Affiliate or Related Undertaking of the Licensee; and
 - (b) be maintained for a period that runs from the date that the records are made until the following:
 - (i) for all Construction Period related records, until the expiry of six (6) years following the Post Construction Review;

- (ii) for all Commissioning Period related records, until the expiry of six (6) years following the Post Commissioning Review; and
 - (iii) for all other records, until the expiry of six (6) years following the next PR Determination,
- or such shorter period as may be set out in the RIGs.

Part B: Scope and content of the RIGs

- 19.6 Subject to Standard Conditions B19.8 and B19.9, the matters that may be included, or for which provision may be made, in the RIGs are:
- (a) instructions and guidance on the establishment of systems, processes, procedures, and ways for recording and providing Specified Information;
 - (b) instructions and guidance on the standards of accuracy and reliability that are applicable to the recording of Specified Information (including different classes of such Information);
 - (c) a timetable for the development of such systems, processes, and procedures as are required to achieve such standards;
 - (d) instructions on when the Licensee must enter into a contract of appointment with an Appropriate Auditor, and on compliance with the Agreed Upon Procedures;
 - (e) the methodology for calculating or deriving numbers comprising Specified Information;
 - (f) provision with respect to the meaning of words and phrases used in defining Specified Information;
 - (g) requirements as to the form and manner in which, or the frequency with which, Specified Information must be recorded;
 - (h) requirements as to the form and manner in which, or the frequency with which, Specified Information must be provided to the Regulator;
 - (i) a statement on whether and to what extent each category of the Specified Information is required for the purposes of the RIGs;
 - (j) provision about how the Regulator intends to monitor, assess, and enforce compliance with the RIGs;
 - (k) instructions and guidance on the standards of accuracy and reliability that are applicable to the commentary that supports the Specified Information provided by T&S Licensees under the RIGs (to enable the Regulator to assess efficiency); and
 - (l) explanation of why the Specified Information is required for the purposes of the RIGs.
- 19.7 The provisions of the RIGs will not exceed what is reasonably required to achieve the purposes of this condition, with the Regulator having regard to the materiality of the costs likely to be incurred by the Licensee in complying with those provisions.

- 19.8 No Specified Information may exceed what could be requested from the Licensee by the Regulator under Standard Condition B11 (*Provision of Information to the Regulator*).

Part C: Requirements for new or more detailed Information

- 19.9 This Part C applies if any modified or new RIGs have the effect of introducing a requirement to provide:
- (a) a new category of Specified Information; or
 - (b) an existing category of Specified Information to a greater level of detail,
- and such category of Specified Information has not previously been collected by the Licensee, whether under the provisions of the RIGs or otherwise.
- 19.10 Where the circumstances set out in Standard Condition B19.9 apply, the Licensee may provide estimates to the Regulator in respect of the relevant category of Specified Information for any Charging Year specified by the Regulator.
- 19.11 The estimates that are referenced in Standard Condition B19.14 may be derived from such other Information available to the Licensee as may be appropriate for that purpose.

Part D: Compliance with the provisions of the RIGs

- 19.12 The Licensee must at all times comply with the provisions of the RIGs for the time being in force pursuant to this condition.
- 19.13 Nothing in this condition requires the Licensee to provide any documents or give any Information that it could not be compelled to produce or give in evidence in civil proceedings before a court.
- 19.14 The Licensee must take all reasonable steps to validate and check that the Specified Information is complete, reliable and meets the standards prescribed by the RIGs.
- 19.15 The Licensee must, on or before each submission date, write to the Regulator to confirm that, in its opinion, the Specified Information in respect of each Charging Year meets the standards prescribed by the RIGs.

Part E: Derogations

- 19.16 The Regulator may, after consulting with the Licensee, give a direction ("derogation") to the Licensee that relieves it of its obligations under this condition to such extent, for such period of time, and subject to such conditions as may be specified in the direction.

Standard Condition B20: Data Assurance

Introduction

20.1 This condition requires the Licensee to undertake processes and Data Assurance Activities for the purpose of reducing the risk, and subsequent impact and consequences, of any inaccurate or incomplete reporting, or any misreporting, of information to the Regulator.

Structure of this condition

20.2 This condition is structured as follows:

- (a) Part A sets out the Licensee's obligations in respect of the Data Assurance Guidance;
- (b) Part B sets out what the Data Assurance Guidance will cover;
- (c) Part C sets out the process for issuing and amending the Data Assurance Guidance;
- (d) Part D details the Licensee's obligation to carry out Data Assurance Activity; and
- (e) Part E provides that the Regulator may give derogations from the obligations under this condition to the Licensee.

Part A: Licensee's obligations under this condition

20.3 The Licensee must:

- (a) comply with the provisions of the Data Assurance Guidance;
- (b) carry out a Risk Assessment in accordance with such provisions and timescales as are specified for that purpose in the Data Assurance Guidance, and ensure that it has used its best endeavours, in accordance with the Data Assurance Guidance, to manage such risks as it has identified in that assessment;
- (c) if directed by the Regulator, procure an independent review of its Data Assurance Activities in accordance with such provisions and timescales as are specified for that purpose in the Data Assurance Guidance; and
- (d) provide to the Regulator, in accordance with such provisions and timescales as are specified for that purpose in the Data Assurance Guidance, reports that contain:
 - (i) the results of the Licensee's Risk Assessment;
 - (ii) a description of the Data Assurance Activities that the Licensee intends to undertake concerning expected future Data submissions for the relevant reporting period set out in the Data Assurance Guidance;
 - (iii) a description of the Data Assurance Activities undertaken by the Licensee concerning previously submitted Data for the relevant reporting period set out in the Data Assurance Guidance; and

- (iv) if required, the details and results of any independent review procured by the Licensee of its Data Assurance Activities.

20.4 The Licensee must have in place and maintain appropriate systems, processes, and procedures to enable it to perform its obligations under Standard Condition B20.3.

20.5 The Licensee must comply with any direction given by the Regulator that requires it to carry out (or, where appropriate, to procure and facilitate the carrying out of) a specific Data Assurance Activity in accordance with the provisions of Part D.

Part B: Scope and contents of the Data Assurance Guidance

20.6 The purpose of the Data Assurance Guidance is to establish a framework of processes and practices by which the Licensee must comply with its obligations as set out in Standard Conditions B20.3(b) to B20.3(d).

20.7 Subject to Standard Conditions B20.9 and B20.10, the Data Assurance Guidance may include, or make provision for, any of the following matters:

- (a) the Data to which the Risk Assessment applies;
- (b) the format of the Risk Assessment;
- (c) the frequency with which, and the timescales within which, the Risk Assessment is required to be carried out;
- (d) the format of any independent review that the Regulator may require the Licensee to procure of its Data Assurance Activities and the associated reporting requirements;
- (e) the format of the reporting requirements detailed in Standard Condition B20.3(d);
- (f) the frequency with which, and the timescales within which, the Licensee must report on its Data Assurance Activities to the Regulator; and
- (g) the time period(s) to which required reports relate.

20.8 Reference in Standard Condition B20.7 to the format of an assessment, review, or reporting requirement includes reference to its form, layout, scope and content.

20.9 The provisions of the Data Assurance Guidance will not exceed what is required to achieve the purposes of this condition, having regard to the materiality of the costs likely to be incurred by the Licensee in complying with those provisions.

20.10 Nothing in this condition requires the Licensee to provide any documents or give any information that it could not be compelled to produce or give in evidence in civil proceedings before a court.

Part C: The process to issue and modify the Data Assurance Guidance

20.11 The Regulator will issue and amend the Data Assurance Guidance by direction.

20.12 Before issuing or amending the Data Assurance Guidance the Regulator will send to the Licensee and publish on the Regulator's Website:

- (a) the text of the new or amended Data Assurance Guidance;
- (b) the date on which the Regulator intends the new or amended Data Assurance Guidance to come into effect;
- (c) the reasons for the new or amended Data Assurance Guidance; and
- (d) a period during which representations may be made on the content of the new or amended Data Assurance Guidance, which will not be less than 28 days.

20.13 The Regulator will:

- (a) publish the Data Assurance Guidance on the Regulator's Website; and
- (b) ensure that any amendments to the Data Assurance Guidance are promptly incorporated into a consolidated version maintained on the Regulator's Website.

Part D: Regulator's power to specify Data Assurance Activity

20.14 The Licensee must comply with any direction by the Regulator requiring the Licensee to carry out (or, where appropriate, to procure and facilitate the carrying out of) such Data Assurance Activity as may be specified in the direction.

20.15 Before issuing a direction under Standard Condition B20.14 the Regulator will publish on the Regulator's Website:

- (a) the text of the proposed direction;
- (b) the date on which the Regulator intends the direction to come into effect;
- (c) the reasons why it proposes to issue the direction; and
- (d) a period during which representations may be made on the proposed direction which will not be less than 28 days.

20.16 The direction will:

- (a) contain a description of the Data Assurance Activity to be carried out by the Licensee (or, where appropriate, by a person nominated by the Regulator) for the purpose of assuring the accuracy and completeness of Data provided to the Regulator;
- (b) if it refers to a person nominated by the Regulator, specify the steps that must be taken by the Licensee to procure and facilitate the carrying out of that activity by that person;
- (c) contain a description of the Data to which the activity that is described in the direction must apply;

- (d) contain an explanation of why the Regulator requires the Licensee to carry out that activity;
 - (e) specify any relevant dates by which that activity must be completed; and
 - (f) specify the form and content of any information relating to that activity that the Licensee must provide to the Regulator.
- 20.17 The Regulator may, following the submission of Data, appoint or nominate an Examiner to undertake a review of such Data or the systems or processes used to generate it.
- 20.18 Subject to Standard Condition B20.21, the Licensee must cooperate fully with an Examiner so as to enable them to carry out, complete, and report to the Regulator on any review or examination specified by the Regulator.
- 20.19 The Licensee's obligation to cooperate fully with an Examiner under Standard Condition B20.18 includes an obligation to ensure, so far as it can, that the following persons also cooperate fully with that Examiner:
- (a) any Associate;
 - (b) any person from whom the Licensee procures reporting services or who measures and records Data on behalf of the Licensee; and
 - (c) any auditor of such person, or of the Licensee, or of any Associate.
- 20.20 The Licensee's obligation under Standard Conditions B20.18 and B20.19 to cooperate or ensure cooperation with an Examiner includes, so far as may be necessary or expedient for such purpose, and in each case subject to reasonable notice to the Licensee:
- (a) providing access to management, employees, agents, or independent contractors of the Licensee sufficient to enable the Examiner to make any enquiries and to discuss any matters that they reasonably consider to be relevant to the carrying out of the examination;
 - (b) giving the Examiner access at reasonable hours to any premises occupied by the Licensee or by any other person in performing the obligations set out in this condition; and
 - (c) allowing the Examiner at reasonable hours:
 - (i) to inspect and make copies of, and take extracts from, any documents and records of the Licensee maintained in relation to the Data (other than information that is subject to legal privilege);
 - (ii) to carry out inspections, measurements, and tests on or in relation to any systems maintained and operated for or in relation to the Data; and
 - (iii) to take onto such premises or onto or into any assets used for the purposes of the Licensee such other persons and such equipment as may be necessary or expedient for the purpose of carrying out the examination.

- 20.21 The Licensee is not required to perform its obligations in relation to an Examiner and their functions unless the Examiner has entered into an agreement with the Licensee to maintain confidentiality on reasonable terms.

Part E: Derogations

- 20.22 The Regulator may, after consulting with the Licensee, give a direction ("a derogation") to the Licensee that relieves it of its obligations under this condition to such extent, for such period of time, and subject to such conditions as may be specified in the direction.

Standard Condition B21: Fit and proper person requirement

Introduction

21.1 The purpose of this condition is to set out requirements so that any person who has a certain level of responsibility or influence in relation to the Licensee meets certain "fit and proper person" requirements.

Structure of this condition

21.2 This condition is structured as follows:

- (a) Part A sets out the general obligations regarding the appointment of a person in a position of Significant Managerial Responsibility or Influence; and
- (b) Part B sets out the matters to be taken into account in applying the fit and proper person test.

Part A: General obligations

21.3 The Licensee must not appoint or have in place a person in a position of Significant Managerial Responsibility or Influence who is not a fit and proper person to occupy that role.

21.4 The Licensee must:

- (a) have and maintain robust processes, systems and governance in place to ensure that any person holding a position of Significant Managerial Responsibility or Influence in the Licensee is fit and proper to occupy that role; and
- (b) carry out regular assessments on such person(s) to ensure that they remain fit and proper to occupy that role.

Part B: Matters to be taken into account in applying the fit and proper person test

21.5 In complying with Standard Condition B21.3 and B21.4, the Licensee must have regard to and take account of all relevant matters including, but not limited to, whether the individual has:

- (a) been responsible for, contributed to or facilitated any serious misconduct or mismanagement (whether unlawful or not) in the course of carrying out a regulated activity (or, providing a service elsewhere which if provided in the United Kingdom, would be a regulated activity);
- (b) any relevant unspent criminal convictions in any jurisdiction in particular fraud or money laundering;
- (c) any insolvency history, including undischarged bankruptcy, debt judgements and County Court judgements;
- (d) been disqualified from acting as a director of a company;

- (e) been a person with Significant Managerial Responsibility or Influence at a current or former T&S Licensee in respect of whose T&S Network the Regulator issued a T&SCo of Last Resort Direction (including where they were a person with Significant Managerial Responsibility or Influence at that T&S Licensee within the 12 months prior to the T&SCo of Last Resort Direction being issued); and/or
- (f) been refused, had revoked, restricted or terminated any form of authorisation, or had any disciplinary, compliance, enforcement or regulatory action taken by any regulatory body in any jurisdiction whether as an individual, or in relation to a business in which that person held Significant Managerial Responsibility or Influence.
- (g) The Licensee must give particular regard to circumstances in which the relevant person has a background in the carbon capture and storage sector in the United Kingdom and if the previous actions of that person resulted in or contributed towards significant market detriment.

Standard Condition B22: Qualifying Acquisition

Introduction

22.1 The purpose of this condition is to require the Licensee to notify the Regulator of certain acquisitions which have a "change in control" impact on the Licensee and provide certain documents to the Regulator.

Structure of this condition

22.2 This condition is structured as follows:

- (a) Part A sets out a Licensee's obligations regarding Qualifying Acquisitions; and
- (b) Part B sets out the documents that a Licensee must submit with its Qualifying Acquisition Notice.

Part A: Licensee's obligations regarding a Qualifying Acquisition

22.3 The Licensee shall:

- (a) inform the Regulator in writing; and
- (b) provide the information set out in Schedule 7 (*Qualifying Acquisition Information*) of this licence of which it is aware or ought reasonably to be aware, having made reasonable enquiries,

(together being the "**Qualifying Acquisition Notice**") not less than sixty (60) days in advance of completion of any Qualifying Acquisition of which it is aware or ought reasonably to be aware, including in light of Standard Condition B22.4.

22.4 The Licensee shall procure from each company or other person which the Licensee knows or reasonably should know is at any time an Ultimate Controller of the Licensee a legally enforceable undertaking in favour of the Licensee that the Ultimate Controller (the "**Information Covenantor**") will give to the Licensee, and will procure that any person (including, without limitation, a corporate body) which is a Subsidiary Undertaking of the Information Covenantor (other than the Licensee and its Subsidiary Undertakings) will give to the Licensee all such information as may be necessary (and is within its power to give) to enable the Licensee to comply fully with the obligations imposed on it by Standard Condition B22.3. Such undertaking shall be obtained upon such corporate body or other person in question becoming an Ultimate Controller of the Licensee and shall remain in force for so long as the Licensee has a licence under the Act and the Information Covenantor remains an Ultimate Controller of the Licensee.

Part B: Documents to be submitted with Qualifying Acquisition Notice

22.5 At the same time as the Licensee gives the Regulator a Qualifying Acquisition Notice, the Licensee must also provide to the Regulator the following documents in draft for approval by the Regulator, in the form in which they will be provided fully signed upon completion of the Qualifying Acquisition, in accordance with Standard Condition B22.7:

- (a) the Information Undertaking, required pursuant to Standard Condition B11 (*Provision of information to the Regulator*), to be provided by the company or other person who will be the Ultimate Controller of the Licensee upon completion of the Qualifying Acquisition;
- (b) the Compliance Statement, required pursuant to Standard Condition B7 (*Independence of the T&S Business and restricted use of Confidential Information*), to reflect any updated arrangements that will be in place upon completion of the Qualifying Acquisition;
- (c) subject to Standard Condition B22.6, the document comprising the Financial Resources Certificate, the Operational Resources Certificate and the Licence Compliance Certificate, required pursuant to Standard Condition B14 (*Availability of resources*), to be approved by a resolution of the Licensee's new board of directors and signed by a new director upon completion of the Qualifying Acquisition;
- (d) the Ultimate Controller undertaking required pursuant to Standard Condition B17 (*Undertaking from Ultimate Controller*), to be provided by the company or other person who will be the Ultimate Controller of the Licensee upon completion of the Qualifying Acquisition; and
- (e) the Ultimate Controller undertaking required pursuant to Standard Condition B22.4 of this condition, to be provided by the company or other person who will be the Ultimate Controller of the Licensee upon completion of the Qualifying Acquisition.

22.6 Unless the Regulator has otherwise consented, for the purposes of complying with this condition, the certificates to be included in the document to be provided pursuant to Standard Condition B22.5(c) (in draft) and pursuant to Standard Condition B22.7 (in final form) must be:

- (a) in the following forms:
 - (i) for the Financial Resources Certificate, in the form of Certificate 1F;
 - (ii) for the Operational Resources Certificate, in the form of Certificate 1R; and
 - (iii) for the Licence Compliance Certificate, in the form of Certificate 1C, and
- (b) accompanied by the statements required to be provided pursuant to Standard Condition B14, but not the auditors' report referred to in Standard Condition B14.6(b).

22.7 Within 7 days of the completion of the Qualifying Acquisition, the Licensee must provide to the Regulator final, signed versions of the documents referred to in Standard Condition B22.5, in the form submitted and approved by the Regulator pursuant to Standard Condition B22.5.

Standard Condition B23: T&SCo of Last Resort

Introduction

23.1 The purpose of this condition is to allow the Regulator, in certain circumstances, to issue a direction to the Licensee to provide carbon dioxide transport and storage services in respect of particular carbon dioxide transport and storage assets of another T&S Licensee.

Structure

23.2 This condition is structured as follows:

- (a) Part A sets out the Licensee's obligation to comply with T&SCo of Last Resort Direction;
- (b) Part B sets out the circumstances where the Regulator may issue a T&SCo of Last Resort Direction;
- (c) Part C sets out the process for issuing a T&SCo of Last Resort Direction;
- (d) Part D sets out requirement of the Regulator to have regard to its guidance on the T&SCo of Last Resort mechanism; and
- (e) Part E sets out an additional point of interpretation for this condition.

Part A: Licensee's obligation to comply with T&SCo of Last Resort Direction

23.3 The Licensee must at all times comply with any T&SCo of Last Resort Direction that has been given by the Regulator pursuant to the licence.

Part B: Circumstances where Regulator may issue a T&SCo of Last Resort Direction

23.4 The Regulator may, following consultation with the Licensee and any other T&S Licensees affected thereby, give a T&SCo of Last Resort Direction to provide carbon dioxide transport and storage services where:

- (a) the Regulator has the right to revoke the licence of another T&S Licensee; or
- (b) the Secretary of State institutes a Section 50 Transfer Scheme in relation to the assets of another T&S Licensee; or
- (c) a T&S administration order (within the meaning of section 42 of the Act) is made in relation to another T&S Licensee.

23.5 The Regulator may only give a T&SCo of Last Resort Direction to the Licensee if:

- (a) it has not already given a T&SCo of Last Resort Direction that is in force to a T&S Licensee in respect of the carbon dioxide transport and storage network to which the proposed T&SCo of Last Resort Direction relates;

- (b) the Licensee has already commenced commercial operation of its own T&S Network, pursuant to this licence;
- (c) it has consulted the NSTA and OPRED on whether the Licensee would be able to effectively operate its own T&S Network pursuant to this licence, as well as the carbon dioxide transport and storage network to which the proposed T&SCo of Last Resort Direction relates, in accordance with all health and safety and environmental requirements;
- (d) it considers that the Licensee could comply with the T&SCo of Last Resort Direction without materially prejudicing the Licensee's ability to:
 - (i) continue to carry out its activities pursuant to this licence, and
 - (ii) fulfil its contractual obligations under the CCS Network Code;
- (e) it is satisfied that the Licensee is able to carry out operation of the relevant carbon dioxide transport and storage network in an economic, efficient and effective manner, and in accordance with all health and safety requirements, and in this context, the term "operation" extends (to the extent applicable) to the financing, design, construction, commissioning, acceptance, operation, maintenance, development, expansion, decommissioning, post-closure monitoring and ownership of the relevant carbon dioxide transport and storage network, in accordance with the licence under which the Licensee would (following the issue of the proposed T&SCo of Last Resort Direction) be obliged to operate the carbon dioxide transport and storage network which is the subject of the proposed T&SCo of Last Resort Direction (being either this licence as modified under Standard Condition B23.9(a) or the other T&S Licensee's licence transferred to the Licensee under a transfer scheme);
- (f) it is satisfied that the Licensee will be able to finance the activities which are the subject of obligations to be imposed on it by or by virtue of the T&SCo of Last Resort Direction (including any obligation under an associated transfer scheme), in addition to being able to finance the activities associated with operation of its own T&S Network pursuant to this licence;
- (g) it is satisfied that the Licensee will be able to recover the costs of operating the relevant carbon dioxide transport and storage network in an economic, efficient and effective manner, including a reasonable rate of return;
- (h) it has given notice to the Licensee, pursuant to this condition, of its intention to give a T&SCo of Last Resort Direction and specified a reasonable period (not being less than 14 days from the date of publication of the notice) within which the Licensee may make representations to the proposed T&SCo of Last Resort Direction; and
- (i) it has considered any representations made by the Licensee and not withdrawn the notice.

- 23.6 Where there is more than one T&S Licensee to whom a T&SCo of Last Resort Direction may be given, the Regulator in giving a T&SCo of Last Resort Direction must consider in relation to each T&S Licensee:
- (a) the financial, operational and technical standing of the T&S Licensee;
 - (b) any Information provided to the Regulator by the T&S Licensee in connection with the relevant carbon dioxide transportation and storage network, in particular:
 - (i) in relation to the costs that it expects to incur if it receives a T&SCo of Last Resort Direction;
 - (ii) its cost effectiveness relative to other T&S Licensees to whom a T&SCo of Last Resort Direction may be given; and
 - (iii) in relation to any part of the relevant carbon dioxide transportation and storage network to be completed, the period within which it expects to complete the relevant assets; and
 - (c) any other relevant Information available to the Regulator, including the quality, price, technical merit, functional characteristics, environmental characteristics and location of the relevant carbon dioxide transportation and storage network.

Part C: Process for issuing a T&SCo of Last Resort Direction

- 23.7 The Regulator will give notice to the Licensee of its intention to give a T&SCo of Last Resort Direction pursuant to Standard Condition B23.4, setting out:
- (a) the basis on which the Regulator considers that it is reasonable to make a T&SCo of Last Resort Direction pursuant to Standard Condition B23.4;
 - (b) the date on which the Regulator proposes that the T&SCo of Last Resort Direction is to take effect;
 - (c) the carbon dioxide transportation and storage network to which the T&SCo of Last Resort Direction relates (including the geographical location and technical characteristics of those assets).
- 23.8 A notice under Standard Condition B23.7 above shall be given by:
- (a) publishing the notice in such manner as the Regulator considers appropriate for the purpose of bringing the notice to the attention of persons likely to be affected by giving of the T&SCo of Last Resort Direction; and
 - (b) serving a copy of the notice on the Licensee.
- 23.9 A T&SCo of Last Resort Direction shall not take effect unless:
- (a) where the other T&S Licensee's licence is to be revoked, the Regulator has formally proposed modifications to the conditions of this licence, pursuant to section 13 of the Act, that will prescribe the rights and obligations of the Licensee with respect to the

relevant carbon dioxide transportation and storage network, including the allowed revenue that the Licensee is able to earn for providing carbon dioxide transport and storage services through the relevant carbon dioxide transportation and storage network in an economic, efficient and effective manner, and such modifications are made by the Regulator in accordance with section 13 of the Act;

- (b) where the other T&S Licensee's licence is to be subject to a Section 50 Transfer Scheme, the Regulator has been consulted in relation to the Section 50 Transfer Scheme and the transfer takes effect; or
- (c) where the other T&S Licensee's licence is to be subject to a SAR Transfer Scheme, the Regulator has been consulted in relation to the SAR Transfer Scheme and the transfer takes effect.

Part D: T&SCo of Last Resort Guidance

- 23.10 In making a decision on issuing a T&SCo of Last Resort Direction the Regulator must have regard to its guidance on the T&SCo of Last Resort mechanism, but in the event of any conflict between this condition and the guidance, this condition will prevail.

Part E: Interpretation

- 23.11 For the purposes of this condition, any reference to a carbon dioxide transportation and storage network includes a reference to any part of such a network where, for example, the relevant assets only constitute storage or onshore transportation, as the case may be.

Standard Condition B24: Procurement obligations

Introduction

24.1 The purpose of this condition is to set out the requirements that the Licensee must follow when procuring works, goods and services.

Structure

24.2 This condition is structured as follows:

- (a) Part A sets out the general obligation on the Licensee when procuring works, goods and services;
- (b) Part B sets out the procurement principles to be adhered to; and
- (c) Part C sets out the requirement for evidence of compliance.

Part A: General obligation

24.3 The Licensee must ensure that all works, goods and services which are procured by the Licensee in the course of carrying out the T&S Business are procured on terms which are designed to achieve the most economic, efficient, and effective outcome.

24.4 This Standard Condition B24:

- (a) does not apply to the award of any Approved Contracts set out in the List of Approved Contracts as at Licence Award; and
- (b) applies both in relation to letting new agreements and modifications of existing agreements that result in procurement of further works, goods and/or services by the Licensee.

Part B: Procurement principles to be adhered to

24.5 Without limiting the generality of Standard Condition B24.3, unless the Regulator has otherwise consented, when the Licensee is procuring works, goods and services in carrying out the T&S Business, the Licensee must:

- (a) follow procurement processes which:
 - (i) treat Potential Providers equally and without discrimination;
 - (ii) are transparent;
 - (iii) where the procurement concerns any works, goods or services where the total value of the contract or modification thereto to be awarded is forecast to be greater than the Applicable Procurement Threshold, are designed to ensure an effective competition by ensuring:

- (A) such processes are open to all Potential Providers and do not otherwise artificially restrict or narrow competition (acknowledging that nothing in this Standard Condition B24.5 would prevent the Licensee from applying a reasonable and proportionate selection process, based on objective criteria, which, for example, may include criteria to exclude those Potential Providers which (aa) are "excluded suppliers" or "excludable suppliers" within the meaning of the Procurement Act 2023, or (bb) lack the legal and financial capacity to perform the contract, or (cc) lack the technical ability to perform the contract.";
- (B) any contract award decision is to be made on the basis of the most advantageous tenders, or some other clear, transparent and objective award criteria, which in each case are made available in advance to Potential Providers, are linked to a clear and objective scoring methodology and linked to the subject matter of the contract being procured; and
 - (iv) are consistent with Good Industry Practice for the procurement of such goods and services;
- (b) act in a transparent and proportionate manner;
- (c) where the procurement concerns any works, goods or services where the total value of the contract or modification thereto to be awarded is forecast to be greater than the Applicable Procurement Threshold, carry out a competitive tender process or, where this is not possible (for example, because competition is absent for technical reasons), incorporate appropriate procurement benchmarking in its procurement processes where the estimated value of the contract is above the financial threshold specified in Schedule 1 to the Procurement Act 2023 applicable to sub-central government authorities (as defined in the Procurement Act 2023) for that type of contract;
- (d) ensure that any contracts entered into as a result of the procurement process are:
 - (i) on an arm's length basis; and
 - (ii) on normal commercial terms; and
- (e) where the procurement concerns any works, goods or services where the total value of the contract or modification thereto to be awarded is forecast to be greater than the Applicable Procurement Threshold, have regard to any Local Content and other supply chain requirements, including but not limited to commitments under the North Sea Transition Deal, that apply to the Licensee.

Part C: Evidence of compliance

- 24.6 The Licensee must evidence its compliance with the requirements of this condition by providing to the Regulator details of its procurement strategy, including details regarding any

contracts for the procurement of works, goods and services entered into by the Licensee in the course of carrying out the T&S Business, when requested by the Regulator.

Draft

Standard Condition B25: Digitalisation

Introduction

- 25.1 The purpose of this condition is to set out:
- (a) the Licensee's obligations to comply with Data Best Practice Guidance; and
 - (b) the process the Regulator will follow when amending Data Best Practice Guidance.

Structure

- 25.2 This condition is structured as follows:
- (a) Part A sets out the obligation of the Licensee in relation to Data Best Practice Guidance; and
 - (b) Part B sets out the actions of the Regulator in relation to Data Best Practice Guidance.

Part A: Obligation of Licensee in relation to Data Best Practice Guidance

- 25.3 The Licensee must, when conducting work that involves working with or making decisions about the use of Energy System Data, use its best endeavours to act in accordance with Data Best Practice Guidance.

Part B: Regulator's actions in relation to Data Best Practice Guidance

- 25.4 The Regulator will amend Data Best Practice Guidance by direction.
- 25.5 The Regulator will publish Data Best Practice Guidance on the Regulator's Website.
- 25.6 Data Best Practice Guidance will make provision about how the Regulator expects the Licensee to comply with data best practice to generate benefits for Users, stakeholders or the public interest, including but not limited to ensuring services that involve Energy System Data are designed to meet the needs of Users, stakeholders or the public interest.
- 25.7 Before amending Data Best Practice Guidance by direction, the Regulator will publish on the Regulator's Website:
- (a) the text of the amended guidance;
 - (b) the date on which the Regulator intends the amended guidance to come into effect;
 - (c) the reasons for the amendments to the guidance; and
 - (d) a period during which representations may be made on the amendments to the guidance, which will not be less than 28 days.

Standard Condition B26: Approved Contracts

Introduction

26.1 The purpose of this condition is to set out the requirements that the Licensee must comply with when any Approved Contracts are to be amended or new contracts are to be added to the List of Approved Contracts.

Structure

26.2 This condition is structured as follows:

- (a) Part A sets out the requirements that the Licensee must comply with when an Approved Contract is to be amended;
- (b) Part B sets out the requirements that the Licensee must comply with when a new contract is entered into by the Licensee and is to become an Approved Contract;
- (c) Part C sets out the process by which the Regulator will amend the List of Approved Contracts; and
- (d) Part D sets out an obligation for the Licensee to send copies of any Amendments to the Regulator.

Part A: Amendments to Approved Contracts

26.3 Where the Licensee wishes to obtain the Regulator's approval of any Amendment to any Approved Contract, the Licensee must provide the Regulator with:

- (a) details of the proposed Amendment; and
- (b) details of the derogations/carve-outs that apply to Approved Contracts under the conditions of this licence that the Licensee is seeking to rely on by virtue of the Amendment being approved by the Regulator.

26.4 Following review of any Amendment proposed in respect of an Approved Contract submitted by the Licensee pursuant to Standard Condition B26.3, the Regulator may:

- (a) approve the proposed Amendment;
- (b) reject the proposed Amendment; or
- (c) provide recommendations as to an alternative Amendment that it considers should be made and require the Licensee to resubmit its proposed Amendment.

26.5 Where the Licensee enters into any Amendment to any Approved Contract which has not been approved by the Regulator, any reference to the relevant Approved Contract in this licence will be a reference to such Approved Contract in the form that it was last approved by the Regulator in accordance with this condition (including in the form as at Licence Award).

26.6 Where the Regulator has approved an Amendment to an Approved Contract, the List of Approved Contracts shall be amended to reflect that approval.

Part B: Additions to List of Approved Contracts

26.7 Where the Licensee is proposing to:

- (a) enter into a new contract; and
- (b) wishes to seek the Regulator's approval to add that contract to the List of Approved Contracts, such that the contract becomes an Approved Contract for the purposes of this licence,

the Licensee must comply with Standard Condition B26.8

26.8 Where the Licensee is seeking the Regulator's approval under Standard Condition B26.7, the Licensee must provide the Regulator with:

- (a) a copy of it; and
- (b) details of the derogations/carve-outs that apply to Approved Contracts under the conditions of this licence that the Licensee is seeking to rely on by virtue the contract being approved by the Regulator as an Approved Contract; and
- (c) as soon as reasonably practicable and in any event no later than 30 days after entry into the contract, a copy of the executed contract.

26.9 Following review of the proposed contract pursuant to Standard Condition B26.8, the Regulator may:

- (a) approve the proposed contract;
- (b) reject the proposed contract; or
- (c) provide recommendations as to amendments that it considers should be made and require the Licensee to resubmit the proposed contract.

Part C: Amendments to the List of Approved Contracts

26.10 The List of Approved Contracts may only be amended in accordance with this condition, unless otherwise specified in this licence.

Part D: Amendments to be notified to the Regulator

26.11 The Licensee must send a copy of any Amendment to the Regulator as soon as reasonably practicable and in any event no later than 30 days after the Amendment has been implemented.

Standard Condition B27: Project-Specific Documents

Introduction

27.1 The purpose of this condition is to set out the status of the Project-Specific Documents and how they may be updated in accordance with the conditions of this licence.

Structure

27.2 This condition is structured as follows:

- (a) Part A sets out the status of the Project-Specific Documents;
- (b) Part B deals with references to the Project-Specific Documents; and
- (c) Part C deals with the process for amendments to Project-Specific Documents.

Part A: Status of the Project-Specific Documents

27.3 The Project-Specific Documents do not form part of this licence.

Part B: References to the Project-Specific Documents

27.4 Any reference in this licence to a particular Project-Specific Document, or a particular item of information in a Project-Specific Document, is a reference to that Project-Specific Document and/or item of information as amended in accordance with the conditions of this licence.

Part C: Process for amendments to Project-Specific Documents

27.5 Where a particular licence condition provides for a Project-Specific Document to be amended then, unless otherwise specified in that particular licence condition, such an amendment may be made by way of a determination of the Regulator and will take effect upon the Licensee being notified of such amendment.

27.6 Where the Regulator intends to modify any Project-Specific Document in circumstances other than as expressly provided in a particular licence condition or conditions, the Regulator will implement that modification using the procedure set out in condition B27.7.

27.7 Where:

- (a) a particular licence condition provides that any amendments to Project-Specific Documents are to be made by way of a modification of the licence conditions in accordance with section 13 of the Act; or
- (b) the Regulator exercises its general modification power under condition B27.6,

the amendment of the relevant the Project-Specific Document will be made by modification of the licence conditions in accordance with Section 13 of the Act by way of implementation of a new licence condition to be included in Schedule 11 (*Amendments to Project-Specific Document*).

- 27.8 Where a Project-Specific Document is amended by way of a licence modification as described in condition B27.7, then:
- (a) this shall not require the Regulator to make all future amendments to the relevant amended Project-Specific Document (or relevant amended part thereof) by way of a licence modification pursuant to section 13 of the Act; and
 - (b) shall not preclude any future amendment of the amended Project-Specific Document (or relevant amended part thereof) by way of the process described in Standard Condition B27.5.

Standard Condition B28: Licence Derogations

Introduction

28.1 The purpose of this condition is to describe the nature of Licence Derogations and set out the circumstances in which the Regulator may review and amend the Licence Derogations set out in the Licence Derogations Document.

Structure

28.2 This condition is structured as follows:

- (a) Part A deals with the nature of Licence Derogations;
- (b) Part B deals with Licence Derogations that apply to Derogated Contracts;
- (c) Part C deals with Amendments to Derogated Contracts;
- (d) Part D sets out the circumstances in which the Regulator may review and/or amend the Licence Derogations set out in the Licence Derogations Document; and
- (e) Part E sets out the process by which the Regulator will amend the Licence Derogations Document.

Part A: Nature of Licence Derogations

28.3 As at Licence Award, the Licensee is in receipt of certain limited derogations from some requirements under the Licence, to the extent specified in such derogations (each of such derogations being a "**Licence Derogation**").

28.4 The Licence Derogations Document sets out the Licence Derogations, as may be amended by the Regulator in accordance with this condition.

28.5 A Licence Derogation shall be interpreted strictly and shall only exempt the Licensee from requirements to the extent expressly stated in the relevant Licence Derogation. Where a Licence Derogation states that the Licensee is not required to comply with a specific condition of this licence (or a specific paragraph of a specific licence condition) in relation to certain specific circumstances or arrangements described in that Licence Derogation, then that Licence Derogation shall not be interpreted as meaning that the Licensee is not required to comply with some other condition (or some other paragraph of the same condition) of this licence in relation to those specific circumstances or arrangements.

28.6 Where the Licensee is not complying with the relevant conditions of a Licence Derogation, the application of that Licence Derogation shall be suspended until such time as the Licensee complies with the relevant conditions.

Part B: Licence Derogations that apply to certain contractual arrangements

- 28.7 In this Part B, "**Derogated Contract**" means a contract or agreement that is referred to in a Licence Derogation, where that Licence Derogation (in whole or in part) relates to that contract or agreement or arrangements pursuant to it.
- 28.8 Where a Licence Derogation relates to a Derogated Contract or arrangements pursuant to it, that Licence Derogation applies to the Derogated Contract or arrangements pursuant to it, in the form of that Derogated Contract:
- (a) as at Licence Award or the date of issue of the Licence Derogation, as the case may be; or
 - (b) the form subsequently approved by the Regulator in accordance with Part C of this condition,
- being the "**Approved Derogated Contract**".
- 28.9 Where the Licensee seeks to enter into or implement an Amendment to a Derogated Contract then the relevant Licence Derogation shall:
- (a) provided the Regulator has approved such Amendment in accordance with Part C of this condition, apply to the revised terms of the Derogated Contract and/or any arrangements pursuant to it;
 - (b) where the Regulator has not approved such Amendment in accordance with Part C of this condition (either because the Regulator has refused its approval or because the Licensee has not requested approval), continue to apply to the extent that it would have applied to the terms of the Approved Derogated Contract and/or arrangements pursuant to it.
- 28.10 The Licensee must give notice to the Regulator as soon as reasonably practicable:
- (a) where the Licensee considers it reasonably foreseeable that a Derogated Contract will be terminated prior to expiry of its initial term; and
 - (b) following termination or expiry of a Derogated Contract.

Part C: Approval of Amendments to Derogated Contracts

- 28.11 Where the Licensee wishes to obtain the Regulator's approval of any Amendment to any Derogated Contract, the Licensee must provide the Regulator with:
- (a) details of the proposed Amendment; and
 - (b) details of the impact of the proposed Amendment on the Licence Derogation(s) that apply to the relevant Derogated Contract.
- 28.12 Following review of any Amendment proposed in respect of an Derogated Contract submitted by the Licensee pursuant to Standard Condition B26.3, the Regulator may:
- (a) approve the proposed Amendment;

- (b) reject the proposed Amendment; or
- (c) provide recommendations as to an alternative Amendment that it considers should be made and require the Licensee to resubmit its proposed Amendment.

28.13 The Licensee must send a copy of any Amendment to the Regulator as soon as reasonably practicable and in any event no later than 30 days after the Amendment has been implemented.

Part D: Circumstances where Regulator may review and/or amend the Licence Derogations set out in the Licence Derogations Document

28.14 The Regulator may review and/or amend the Licence Derogations Document (including individual Licence Derogations set out in it) in the following circumstances:

- (a) where a Licence Derogation is time-limited and it has expired – in which case the Regulator may update the Licence Derogations Document by deleting that Licence Derogation (but where a time-limited Licence Derogation has expired then it will no longer apply even where the Regulator has not updated the Licence Derogations Document to delete it); or
- (b) where the Licensee has applied to the Regulator for a time extension of a time-limited Licence Derogation and the Regulator has approved this – in which case the Regulator may amend that Licence Derogation to address the time extension and any consequential amendments to the Licence Derogation as a result of the impact of such time extension; or
- (c) where it becomes apparent to the Regulator that the Licensee is unable to comply with the conditions of a Licence Derogation, in which case the Regulator may amend that Licence Derogation to address the impact of the Licensee's inability to comply with such conditions; or
- (d) where there has been a change in the relevant circumstances or arrangements (which are the subject of a Licence Derogation), such that the Regulator considers that the Licence Derogation is no longer appropriate in its current form – in which case the Regulator may amend that Licence Derogation to address the impact of such change in the relevant circumstances or arrangements; or
- (e) the Licensee has requested an amendment to an existing Licence Derogation and the Regulator has approved this – in which case the Regulator may amend that Licence Derogation; or
- (f) the Licensee has requested a new Licence Derogation and the Regulator has approved this – in which case the Regulator may include a new Licence Derogation in the Licence Derogations Document.

Part E: Amendments to Licence Derogations Document

28.15 The Licence Derogations Document may only be amended in accordance with this condition, unless otherwise specified in this licence.

Draft

Section C: Onshore Standard Licence Conditions

Reference	Subject matter	Page
Standard Condition C1	Regulatory compliance	140
Standard Condition C2	Onshore Decommissioning Fund	141
Standard Condition C3	Onshore Metering	147
Standard Condition C4	Obligations in relation to carbon dioxide storage	150

Standard Condition C1: Regulatory compliance

Introduction

- 1.1 The purpose of this condition is to set out regulatory compliance obligations that the Licensee must comply with in relation to the Onshore Transportation System and Terminal, where the Licensee's T&S Network includes an Onshore Transportation System and/or Terminal.

Structure

- 1.2 This condition is structured as follows:
- (a) Part A sets out the obligation to comply with Legal Requirements relating to the Onshore Transportation System and Terminal; and
 - (b) Part B sets out the requirements to comply with obligations under the UK ETS.

Part A: Obligation to comply with Legal Requirements relating to the Onshore Transportation System and Terminal

- 1.3 The Licensee must comply with and carry out the T&S Business in accordance with all Legal Requirements as applicable in respect of or in relation to the Onshore Transportation System and Terminal.

Part B: UK Emissions Trading Scheme

- 1.4 Without limiting the generality of Standard Condition C1.3, the Licensee must comply with all obligations arising under the UK ETS in relation to all carbon dioxide that is delivered by Users into the Onshore Transportation System.

Standard Condition C2: Onshore Decommissioning Fund

Introduction

- 2.1 The purpose of this condition is to set out the Licensee's obligations to comply with the Onshore Decommissioning Requirements and to establish an Onshore Decommissioning Fund, where the T&S Network includes any Onshore Infrastructure.

Structure

- 2.2 This condition is structured as follows:
- (a) Part A sets out the obligation to comply with Onshore Decommissioning Requirements;
 - (b) Part B sets out the obligation to establish an Onshore Decommissioning Fund;
 - (c) Part C sets out obligations to submit the draft Onshore Decommissioning Plan and other information to the Regulator;
 - (d) Part D deals with the calculation of the Onshore Decommissioning Fund Contribution Amount;
 - (e) Part E sets out the obligation to pay the OnDF Monthly Contribution into the Onshore Decommissioning Fund;
 - (f) Part F sets out the position regarding withdrawals from the Onshore Decommissioning Fund;
 - (g) Part G deals with review processes;
 - (h) Part H restricts the creation of any security over the Onshore Decommissioning Fund; and
 - (i) Part I deals with audits.

Part A: Obligation to comply with Onshore Decommissioning Requirements

- 2.3 The Licensee must comply with all Onshore Decommissioning Requirements that apply to the Onshore Infrastructure.

Part B: Obligation to establish an Onshore Decommissioning Fund

- 2.4 The Licensee must establish an Onshore Decommissioning Fund, which must have sufficient funds at the end of the RAV Asset Life to carry out the activities contemplated by the Onshore Decommissioning Plan.
- 2.5 The Licensee must establish and administer the Onshore Decommissioning Fund in accordance with:
- (a) this condition;

- (b) the Onshore Decommissioning Requirements;
- (c) the Approved Onshore Holding Arrangements; and
- (d) the Approved Onshore Decommissioning Funding and Investment Strategy.

2.6 The Licensee must ensure that in complying with this condition, the Licensee takes into account any expansions to the T&S Network, so that any Onshore Decommissioning Plan and the Onshore Decommissioning Fund take account of any additional Onshore Infrastructure.

Part C: Submission of draft Onshore Decommissioning Plan and other information to the Regulator

2.7 The Licensee must, by the date which is 18 months before Scheduled COD, prepare and submit to the Regulator for approval:

- (a) an onshore decommissioning plan in relation to the decommissioning of the Onshore Infrastructure (the "**Onshore Decommissioning Plan**") which the Licensee must use reasonable endeavours to ensure accurately reflects:
 - (i) the programme, measures and activities required to decommission the Onshore Infrastructure (and carry out any related activities), including:
 - (A) what infrastructure will be left in-situ;
 - (B) what infrastructure will be removed; and
 - (C) the remediation and/or monitoring activities that will be carried out; and
 - (ii) the economic, efficient and effective cost of those measures, as estimated by the Licensee having regard to the measures set out in the draft Onshore Decommissioning Plan (the "**Onshore Decommissioning Fund Cost Estimate**"),

in accordance with the Onshore Decommissioning Requirements that apply to the Onshore Infrastructure and Good Industry Practice;

- (b) the proposed structure for the Onshore Decommissioning Fund (the "**Onshore Holding Arrangements**"), which must meet the requirements set out in the CCS Decommissioning Fund Guidance; and
- (c) a funding and investment strategy ("**Onshore Decommissioning Funding and Investment Strategy**") that is designed to grow the value of the Onshore Decommissioning Fund through contributions and investment returns such that by the end of the RAV Asset Life the assets are sufficient to cover the Onshore Decommissioning Fund Cost Estimate, prepared in compliance with the CCS Decommissioning Fund Guidance.

2.8 Where the Licensee has provided the items referred to in Standard Condition C2.7 for approval by the Regulator, the Regulator will review these items and will:

- (a) determine that the items provided for approval under Standard Condition C2.7 are approved; or
- (b) determine that the items provided for approval under Standard Condition C2.7 are not approved and:
 - (i) provide its reasons for such non-approval; and
 - (ii) require the Licensee to re-submit for approval one or more of the items referred to in Standard Condition C2.7; or
- (c) require further information from the Licensee to determine whether to approve the items provided for approval under Standard Condition C2.7.

Part D: Calculation and approval of Onshore Decommissioning Fund Contribution Amount

2.9 Once the Regulator has provided its approval under Standard Condition C2.7, the Licensee must, by 1 July before the start of each Charging Year of the Operational Period:

- (a) calculate an amount (the "**Onshore Decommissioning Fund Contribution Amount**") to represent the amount for that Charging Year required to discharge the Licensee's obligations pursuant to this condition, based on:
 - (i) the Approved Onshore Decommissioning Fund Cost Estimate;
 - (ii) the Onshore Decommissioning Fund Accrual Profile and the RAV Asset Life of the Onshore Infrastructure;
 - (iii) the Approved Onshore Decommissioning Funding and Investment Strategy; and
 - (iv) the opening value of the Onshore Decommissioning Fund for the First Regulatory Period, and for subsequent Regulatory Periods the value as assessed by the most recent audit of the Onshore Decommissioning Fund; and
- (b) submit to the Regulator for approval:
 - (i) the Onshore Decommissioning Fund Contribution Amount that the Licensee has calculated; and
 - (ii) details of how the calculation referred to in Standard Condition C2.9(a) has been made, including the basis of such calculation set out in Standard Condition C2.9(a).

2.10 When making a determination about whether to approve the Onshore Decommissioning Fund Contribution Amount calculated by the Licensee, the Regulator may require the Licensee to:

- (a) provide to the Regulator further information in relation to the matters required to be submitted to the Regulator under Standard Condition C2.9; and/or

- (b) make any necessary changes/corrections to the calculation of the Onshore Decommissioning Fund Contribution Amount and re-submit the calculation for approval.

- 2.11 The Licensee must comply with any requirement issued by the Regulator pursuant to Standard Condition C2.10 within 30 days.
- 2.12 The Onshore Decommissioning Fund Contribution Amount shall only be funded through the Decommissioning Building Block in accordance with Special Condition H16 (*Decommissioning Building Block*).

Part E: Obligation to pay OnDF Monthly Contribution into the Onshore Decommissioning Fund

- 2.13 In each Charging Year of the Injection Period starting from the Commercial Operations Date, the Licensee must promptly pay the OnDF Monthly Contribution into the Onshore Decommissioning Fund by the end of each calendar month of that Charging Year.
- 2.14 Within one month of the end of each Charging Year, the Licensee must provide to the Regulator a statement showing:
- (a) the total assets held in the Onshore Decommissioning Fund; and
 - (b) any deficit or surplus in the Onshore Decommissioning Fund (that is, the actual funds held versus the expected funds), together with the reasons for any such deficit or surplus.

Part F: Withdrawals from the Onshore Decommissioning Fund

- 2.15 During the Injection Period:
- (a) the Licensee must not make any withdrawals from the Onshore Decommissioning Fund other than for:
 - (i) the purpose of investment in accordance with the Approved Onshore Decommissioning Funding and Investment Strategy; and
 - (ii) with the approval of the Regulator, the purposes of carrying out any decommissioning of any part of the Onshore Infrastructure (or related activities) as required by the Onshore Decommissioning Authority or any other regulator in accordance with the Onshore Decommissioning Plan (the "**Required Onshore Decommissioning Works**"); and
 - (b) before withdrawing any funds from the Onshore Decommissioning Fund for the purposes of carrying out the Required Onshore Decommissioning Works, the Licensee must provide evidence to the Regulator of the cost of the Required Onshore Decommissioning Works.

Part G: Reviews

- 2.16 As soon as it is reasonably possible in accordance with the requirements of any relevant Onshore Decommissioning Authority, the Licensee must actively engage with any relevant

Onshore Decommissioning Authority to obtain the approval of the relevant Onshore Decommissioning Authority to the Onshore Decommissioning Plan, which had earlier been submitted to the Regulator for approval in accordance with this condition.

2.17 The Onshore Decommissioning Plan, the Approved Onshore Decommissioning Funding and Investment Strategy, the Onshore Decommissioning Fund Accrual Profile and the Approved Onshore Decommissioning Fund Cost Estimate may be subject to review by the Regulator and re-determination of the matters previously approved by the Regulator pursuant to this condition:

- (a) at each Periodic Review; and
- (b) outside of a Periodic Review if:
 - (i) the Onshore Decommissioning Plan prepared by the Licensee no longer accurately reflects the estimated cost and/or scope of the relevant measures or works that will need to be undertaken, as a result of:
 - (A) any changes to the Onshore Decommissioning Plan required to be made by the relevant Onshore Decommissioning Authority, as part of the approval process referred to in Standard Condition C2.16;
 - (B) any new requirements imposed by any Onshore Decommissioning Authority in accordance with the Onshore Decommissioning Requirements; or
 - (C) any Change in Scope to the Onshore Infrastructure;
 - (ii) other circumstances (other than a failure by the Licensee to adhere to the Approved Onshore Decommissioning Funding and Investment Strategy) mean that there is a reasonable likelihood of a material deficit in the funds required to carry out the relevant measures or works in accordance with the Onshore Decommissioning Plan, having regard to:
 - (A) the amount actually in the Onshore Decommissioning Fund on the date of the assessment, including the mark to market value of any fund investments;
 - (B) the Onshore Decommissioning Fund Cost Estimate as at the date of the assessment; and
 - (C) the expected future growth of the Onshore Decommissioning Fund, based on future payments and fund investments.

2.18 As soon as reasonably practicable, upon the occurrence of any circumstances referenced in Standard Condition C2.17(b), the Licensee must:

- (a) notify the Regulator, and provide details of any of the circumstances contemplated in Standard Condition C2.17(b), as well as the Licensee's analysis of the changes required to address this; and

(b) where relevant, obtain the approval of the relevant Onshore Decommissioning Authority to any changes to the Onshore Decommissioning Plan.

2.19 Following the receipt of the information referred to in Standard Condition B2.18, the Regulator will review the Licensee's submission and determine whether any changes are required to the Onshore Decommissioning Plan, the Approved Onshore Decommissioning Funding and Investment Strategy, the Onshore Decommissioning Fund Accrual Profile or the Approved Onshore Decommissioning Fund Cost Estimate.

2.20 Where the Regulator has determined pursuant to Standard Condition B2.19 that any changes are required to the items referred to in that condition, the Licensee must make such changes and recalculate the Onshore Decommissioning Fund Contribution Amount in accordance with Standard Condition B2.9.

Part H: No security

2.21 The Licensee must not grant security over the Onshore Decommissioning Fund to any person.

Part I: Audits

2.22 When required to do so by the Regulator (but not more frequently than once every Regulatory Period) the Licensee must provide to the Regulator a Decommissioning Fund Audit conducted and prepared in accordance with the CCS Decommissioning Fund Guidance.

Standard Condition C3: Onshore Metering

Introduction

- 3.1 The purpose of this condition is to set out the Licensee's obligations relating to metering arrangements for the Onshore Transportation System, where the Licensee's T&S Network includes an Onshore Transportation System.

Structure

- 3.2 This condition is structured as follows:
- (a) Part A sets out the general obligation on the Licensee with regard to Metering Equipment;
 - (b) Part B sets out the requirement for compliance with all applicable requirements and standards;
 - (c) Part C deals with coordination of verification activities; and
 - (d) Part D requires the Licensee to provide to the Regulator evidence of its compliance with this condition.

Part A: General obligation

- 3.3 Subject to Standard Condition C3.4, the Licensee must ensure that:

- (a) the Licensee; and/or
- (b) each User connected to the Licensee's T&S Network,

installs, operates and maintains all Metering Equipment that is required for the purposes of accurately measuring and/or analysing:

- (c) the rate of flow; and
- (d) the composition,

of carbon dioxide delivered into the T&S Network by Users of the T&S Network for purposes including, but not limited to:

- (e) calculating charges and monitoring the composition of the carbon dioxide for the purposes of the CCS Network Code; and
- (f) measuring and monitoring the carbon dioxide being transported through the T&S Network, including identifying any leakage or venting of carbon dioxide, for the purposes of complying with any Legal Requirements.

- 3.4 Where any Metering Equipment is installed, maintained and operated by a User in accordance with the CCS Network Code ("**User Metering Equipment**"), the Licensee's

obligations under Part A and Part B of this condition are limited to an obligation for the Licensee to exercise any rights under the CCS Network Code to:

- (a) inspect, test, audit or verify the User Metering Equipment; and
- (b) require any User to repair or replace any User Metering Equipment that does not comply with the requirements of the CCS Network Code.

Part B: Compliance with all requirements and standards

3.5 Subject to Standard Condition C3.4, the Licensee must ensure that the Metering Equipment referred to in Standard Condition C3.3 complies with the requirements of:

- (a) the CCS Network Code;
- (b) the UK ETS;
- (c) any Legal Requirements relating to the Metering Equipment or pursuant to which the Licensee is required install, operate and maintain the Metering Equipment;
- (d) any applicable industry standards; and
- (e) any regulators responsible for enforcing or administering the requirements referred to Standard Conditions C3.5(a) to C3.5(c).

3.6 The requirements referred to in Standard Condition C3.5 include any requirements relating to the location, specification, standard of accuracy and functionality of the Metering Equipment.

3.7 Where the requirements referred to in Standard Condition C3.5 allow for a range in the standards of accuracy that may be permitted, the Licensee must use all reasonable endeavours to ensure that the standards of accuracy of any Metering Equipment installed and maintained in accordance with this condition are the highest possible, to the extent this is economic, efficient and effective, to:

- (a) reduce the overall measurement uncertainty across the T&S Network; and
- (b) reduce the liability of the Licensee and Users under the UK ETS.

Part C: Verification activities

3.8 Where the Licensee carries out or procures any verification activities in accordance with the requirements set out in Standard Condition C3.5 or the CCS Network Code, the Licensee must ensure that the costs of such verification activities are economic, efficient and effective, including by using all reasonable endeavours to coordinate the verification activities required to satisfy the different requirements.

Part D: Verification of compliance

3.9 The Regulator may require the Licensee to:

- (a) provide evidence of verification that the Metering Equipment complies with the requirements set out in Standard Condition C3.5; and

- (b) where the Regulator is not reasonably satisfied with the evidence of verification referred to in paragraph (a), procure such verification by an independent technical expert and provide evidence of such verification to the Regulator.

3.10 Where the Regulator requires the Licensee to procure verification by an independent technical expert, as referred to in Standard Condition C3.9(b), the Licensee must first obtain the Regulator's approval of the identity of the independent technical expert, which approval shall not be unreasonably withheld where the proposed independent technical expert has expertise in relation to Metering Equipment verification activities.

Standard Condition C4: Obligations in relation to carbon dioxide storage

Introduction

- 4.1 The purpose of this condition is to set out the Licensee's obligations relating to the carbon dioxide delivered into the T&S Network.

Structure

- 4.2 This condition is structured as follows:
- (a) Part A sets out the general obligation on the Licensee in relation to carbon dioxide storage; and
 - (b) Part B sets out the exceptions to the obligation in Part A.

Part A: General obligation

- 4.3 Subject to Standard Condition C4.6, the Licensee must ensure that any carbon dioxide that the Licensee accepts is contained within the T&S Network in accordance with the requirements of the licence and either:
- (a) stored in a T&S Storage Site in relation to which the Licensee holds a Storage Licence and Storage Permit (where the Offshore Transportation and Storage System is also operated by the Licensee); or
 - (b) delivered to an Onshore Transportation System or an Offshore Transportation and Storage System operated by another T&S Licensee.
- 4.4 By 30 June of each year, the Licensee must report to the Regulator on the quantity of carbon dioxide not contained in and/or vented from the T&S Network in the previous Charging Year, in accordance with the RIGs.
- 4.5 When requested to do so by the Regulator, the Licensee must provide to the Regulator further information in relation to the matters required to be reported on to the Regulator under this Part A.

Part B: Exception to obligation

- 4.6 The Licensee's obligations under Standard Condition C4.3 are subject to:
- (a) any arrangements entered into with any User for the provision of a Re-use Service pursuant to the CCS Network Code;
 - (b) any non-containment/venting due to operational reasons related to health and/or safety issues; and
 - (c) any appropriately planned and executed maintenance plan, undertaken in line with Good Industry Practice.

Section D: Offshore Standard Licence Conditions

Reference	Subject matter	Page
Standard Condition D1	Regulatory Compliance	152
Standard Condition D2	Offshore Decommissioning Fund	153
Standard Condition D3	Offshore Metering	158
Standard Condition D4	Obligations in relation to carbon dioxide storage	161

Standard Condition D1: Regulatory Compliance

Introduction

- 1.1 The purpose of this condition is to set out regulatory compliance obligations that the Licensee must comply with in relation to the Offshore Transportation and Storage System, where the Licensee's T&S Network includes an Offshore Transportation and Storage System.

Structure

- 1.2 This condition is structured as follows:
- (a) Part A sets out the obligation to comply with Legal Requirements relating to the Offshore Transportation and Storage System;
 - (b) Part B sets out the requirement to comply with obligations arising under the UK ETS; and
 - (c) Part C sets out the requirement for the Licensee to comply with the terms of any Storage Licence and Storage Permit.

Part A: Obligation to comply with Legal Requirements relating to the Offshore Transportation and Storage System

- 1.3 The Licensee must comply with and carry out the T&S Business in accordance with all Legal Requirements as applicable in respect of or in relation to the Offshore Transportation and Storage System.

Part B: UK Emissions Trading Scheme

- 1.4 Without limiting the generality of Standard Condition D1.3, the Licensee must comply with all obligations arising under the UK ETS in relation to all carbon dioxide that is delivered by Users into the Offshore Transportation and Storage System.

Part C: Compliance with Storage Licence and Storage Permit

- 1.5 Without limiting the generality of Standard Condition D1.3, the Licensee must comply with the terms of any Storage Licence and Storage Permit.

Standard Condition D2: Offshore Decommissioning Fund

Introduction

- 2.1 The purpose of this condition is to set out the Licensee's obligations to comply with the Offshore Decommissioning Requirements and to establish an Offshore Decommissioning Fund in accordance with the Decommissioning Regulations, where the T&S Network includes any Offshore Infrastructure.

Structure

- 2.2 This condition is structured as follows:
- (a) Part A sets out the obligation to comply with Offshore Decommissioning Requirements;
 - (b) Part B sets out the obligation to establish an Offshore Decommissioning Fund;
 - (c) Part C sets out obligations to submit information to the Regulator;
 - (d) Part D deals with the calculation and approval of the Offshore Decommissioning Fund Contribution Amount;
 - (e) Part E sets out the obligation to pay the OffDF Monthly Contribution into the Offshore Decommissioning Fund;
 - (f) Part F sets out the position regarding withdrawals from the Offshore Decommissioning Fund;
 - (g) Part G deals with review processes;
 - (h) Part H restricts the creation of any security over the Offshore Decommissioning Fund;
 - (i) Part I deals with audits; and
 - (j) [Part J deals with the payment of a lump sum on account of decommissioning obligations relating to any Re-use Assets].

Part A: Obligation to comply with Offshore Decommissioning Requirements

- 2.3 The Licensee must comply with all Offshore Decommissioning Requirements that apply to the Offshore Infrastructure.

Part B: Obligation to establish an Offshore Decommissioning Fund

- 2.4 The Licensee must establish an Offshore Decommissioning Fund, which must have sufficient funds at the end of the RAV Asset Life to:

- (a) carry out the activities contemplated by the Offshore Decommissioning Programme; and
- (b) carry out other activities/pay costs (as the case may be) as required by the Offshore Decommissioning Requirements,

pursuant to the Decommissioning Regulations.

2.5 The Licensee must establish and administer the Offshore Decommissioning Fund in accordance with:

- (a) this condition;
- (b) the Decommissioning Regulations;
- (c) the Approved Offshore Holding Arrangements; and
- (d) the Approved Offshore Decommissioning Funding and Investment Strategy.

2.6 The Licensee must ensure that in complying with this condition, the Licensee takes into account any expansions to the T&S Network, so that the Offshore Decommissioning Programme and the Offshore Decommissioning Fund take account of any additional Offshore Infrastructure.

Part C: Submission of Offshore Decommissioning Programme and other information to the Regulator

2.7 The Licensee must, by the date which is [18 months] before Scheduled COD, submit to the Regulator:

- (a) for reference:
 - (i) the Offshore Decommissioning Programme and other plans or submissions relating to the Licensee's obligations under any Offshore Decommissioning Requirements, as approved in each case by the Offshore Decommissioning Regulator;
 - (ii) the Offshore Holding Arrangements; and
 - (iii) cost estimates for each of the individual categories of costs which the Licensee is required to include and make provision for in the Offshore Decommissioning Fund in accordance with the Decommissioning Regulations (the "**Offshore Decommissioning Costs**") and the total of those individual Offshore Decommissioning Costs (the "**Offshore Decommissioning Fund Cost Estimate**"), as approved by the Offshore Decommissioning Regulator for each individual category of Offshore Decommissioning Costs and the Offshore Decommissioning Fund Cost Estimate; and
 - (iv) evidence of the approvals referred to in paragraphs (i) to (iii) above; and
- (b) for approval:

- (i) [a funding and investment strategy that is designed to grow the value of the Offshore Decommissioning Fund through contributions and investment returns such that by the end of operations the assets are sufficient to meet the expected costs associated with the Offshore Decommissioning Programme and any complying with any other Offshore Decommissioning Requirements (the "**Offshore Decommissioning Funding and Investment Strategy**"), prepared in compliance with the CCS Decommissioning Fund Guidance].

2.8 Where the Licensee has provided the items referred to in Standard Condition D2.7 for approval by the Regulator, the Regulator will (following consultation with the Offshore Decommissioning Regulator and the NSTA) review these items and will:

- (a) determine that the items provided in accordance with Standard Condition D2.7(b) for approval under Standard Condition D2.7(b) are approved; or
- (b) determine that the items provided in accordance with Standard Condition D2.7(b) for approval under Standard Condition D2.7(b) are not approved and:
 - (i) provide its reasons for such non-approval; and
 - (ii) require the Licensee to re-submit for approval one or more of the items referred to in Standard Condition D2.7(b); or
- (c) require further information from the Licensee to determine whether to approve the items provided for approval under Standard Condition D2.7(b).

Part D: Calculation and approval of Offshore Decommissioning Fund Contribution Amount

2.9 Once the Regulator has been provided with or approved (as applicable) the items under Standard Condition D2.7, the Licensee must, by 1 July before the start of each Charging Year of the Injection Period:

- (a) calculate an amount (the "**Offshore Decommissioning Fund Contribution Amount**") to represent the amount for that Charging Year required to discharge the Licensee's obligation pursuant to this condition, based on:
 - (i) the Offshore Decommissioning Fund Cost Estimate, submitted to the Regulator pursuant to Standard Condition D2.7;
 - (ii) the Offshore Decommissioning Fund Accrual Profile and the RAV Asset Life of the Offshore Infrastructure;
 - (iii) the Approved Offshore Decommissioning Funding and Investment Strategy; and
 - (iv) the opening value of the Offshore Decommissioning Fund for the First Regulatory Period, and for subsequent Regulatory Periods the value as assessed by the most recent audit of the Offshore Decommissioning Fund; and
- (b) submit to the Regulator for approval:

- (i) the Offshore Decommissioning Fund Contribution Amount that the Licensee has calculated; and
 - (ii) details of how the calculation referred to in Standard Condition D2.9(a) has been made.
- 2.10 When making a determination about whether to approve the Offshore Decommissioning Fund Contribution Amount calculated by the Licensee, the Regulator may require the Licensee to:
 - (a) provide to the Regulator further information in relation to the matters required to be submitted to the Regulator under Standard Condition D2.9; and/or
 - (b) make any necessary changes/corrections to the calculation of the Offshore Decommissioning Fund Contribution Amount and re-submit the calculation for approval.
- 2.11 The Licensee must comply with any requirement issued by the Regulator pursuant to Standard Condition D2.10 within 30 days.
- 2.12 The Offshore Decommissioning Fund Contribution Amount shall only be funded through the Decommissioning Building Block in accordance with Special Condition H16 (*Decommissioning Building Block*).

Part E: Obligation to pay OffDF Monthly Contribution into the Offshore Decommissioning Fund

- 2.13 In each Charging Year of the Injection Period starting from the Commercial Operations Date, the Licensee must promptly pay the OffDF Monthly Contribution into the Offshore Decommissioning Fund by the end of each calendar month of that Charging Year.
- 2.14 Within one month of the end of each Charging Year, the Licensee must provide to the Regulator a statement showing:
 - (a) the total assets held in the Offshore Decommissioning Fund;
 - (b) the assets held in the Offshore Decommissioning Fund on account of each of the different categories of Offshore Decommissioning Costs; and
 - (c) any deficit or surplus in the Offshore Decommissioning Fund (that is, the actual funds held versus the expected funds), together with the reasons for any such deficit or surplus.

Part F: Withdrawals from the Offshore Decommissioning Fund

- 2.15 During the Injection Period, the Licensee must not make any withdrawals from the Offshore Decommissioning Fund other than for:
 - (a) the purpose of investment in accordance with the Approved Offshore Decommissioning Funding and Investment Strategy; and

- (b) with the approval of any Offshore Decommissioning Regulator, the purposes of carrying out or discharging any obligations arising under the Offshore Decommissioning Requirements.

Part G: Reviews

[Note: process/principles to be further developed.]

Part H: No security

- 2.16 The Licensee must not grant security over the Offshore Decommissioning Fund to any person.

Part I: Audits

- 2.17 When required to do so by the Regulator (but not more frequently than once every Regulatory Period) the Licensee must provide to the Regulator a Decommissioning Fund Audit conducted and prepared in accordance with the CCS Decommissioning Fund Guidance.

[Part I: Payment on account of decommissioning obligations relating to Re-use Assets]

[Note: to be developed and included where relevant.]

Standard Condition D3: Offshore Metering

Introduction

- 3.1 The purpose of this condition is to set out the Licensee's obligations relating to metering arrangements for the Offshore Transportation and Storage System, where the Licensee's T&S Network includes an Offshore Transportation and Storage System.

Structure

- 3.2 This condition is structured as follows:
- (a) Part A sets out the general obligation of the Licensee with regard Metering Equipment;
 - (b) Part B sets out the requirement of compliance with all requirements and standards;
 - (c) Part C deals with coordination of verification activities; and
 - (d) Part D requires the Licensee to provide to the Regulator evidence of its compliance with this condition.

Part A: General obligation

- 3.3 Subject to Standard Condition D3.4, the Licensee must ensure that:
- (a) the Licensee; and/or
 - (b) each User connected to the Licensee's T&S Network,
installs, operates and maintains all Metering Equipment that is required for the purposes of accurately measuring and/or analysing:
 - (c) the rate of flow; and
 - (d) the composition,
of carbon dioxide delivered into the T&S Network by Users of the T&S Network for purposes including, but not limited to:
 - (e) calculating charges and monitoring the composition of the carbon dioxide for the purposes of the CCS Network Code; and
 - (f) measuring and monitoring the carbon dioxide being transported through the T&S Network and being injected into the T&S Storage Site, including identifying any leakage or venting of carbon dioxide, for the purposes of complying with any Legal Requirements.
- 3.4 Where any Metering Equipment is installed, maintained and operated by a User in accordance with the CCS Network Code ("**User Metering Equipment**"), the Licensee's

obligations under Part A and Part B of this condition are limited to an obligation for the Licensee to exercise any rights under the CCS Network Code to:

- (a) inspect, test, audit or verify the User Metering Equipment; and
- (b) require any User to repair or replace any User Metering Equipment that does not comply with the requirements of the CCS Network Code.

Part B: Compliance with all requirements and standards

3.5 Subject to Standard Condition D3.4, the Licensee must ensure that the Metering Equipment referred to in Standard Condition D3.3 complies with the requirements of:

- (a) the CCS Network Code;
- (b) the UK ETS;
- (c) any Legal Requirements relating to the Metering Equipment or pursuant to which the Licensee is required install, operate and maintain the Metering Equipment;
- (d) any applicable industry standards; and
- (e) any regulators responsible for enforcing or administering the requirements referred to in Standard Conditions D3.5(a) to (c).

3.6 The requirements referred to in Standard Condition D3.5 include any requirements relating to the location, specification, standard of accuracy and functionality of the Metering Equipment.

3.7 Where the requirements referred to in Standard Condition D3.5 allow for a range in the standards of accuracy that may be permitted, the Licensee must use all reasonable endeavours to ensure that the standards of accuracy of any Metering Equipment installed and maintained in accordance with this condition are the highest possible, to the extent this is economic, efficient and effective, to:

- (a) reduce the overall measurement uncertainty across the T&S Network; and
- (b) reduce the liability of the Licensee and Users under the UK ETS.

Part C: Verification activities

3.8 Where the Licensee carries out or procures any verification activities in accordance with the requirements set out in Standard Condition D3.5 or the CCS Network Code, the Licensee must ensure that the costs of such verification activities are economic, efficient and effective, including by using all reasonable endeavours to coordinate the verification activities required to satisfy the different requirements.

Part D: Verification of compliance

3.9 The Regulator may require the Licensee to:

- (a) provide evidence of verification that the Metering Equipment complies with the requirements set out in Standard Condition D3.5; and

- (b) where the Regulator is not reasonably satisfied with the evidence of verification referred to in paragraph (a), procure such verification by an independent technical expert and provide evidence of such verification to the Regulator.

3.10 Where the Regulator requires the Licensee to procure verification by an independent technical expert, as referred to in Standard Condition D3.9, the Licensee shall first obtain the Regulator's approval of the identity of the independent technical expert, which approval shall not be unreasonably withheld where the proposed independent technical expert has expertise in relation to Metering Equipment verification activities.

Standard Condition D4: Obligations in relation to carbon dioxide storage

Introduction

- 4.1 The purpose of this condition is to set out the Licensee's obligations relating to the carbon dioxide delivered into the T&S Network.

Structure

- 4.2 This condition is structured as follows:
- (a) Part A sets out the general obligation of the Licensee in relation to carbon dioxide storage; and
 - (b) Part B sets out the exception to the obligation in Part A.

Part A: General obligation

- 4.3 Subject to Standard Condition D4.6, the Licensee must ensure that any carbon dioxide that the Licensee accepts is contained within the T&S Network in accordance with the requirements of the licence and either:
- (a) stored in a T&S Storage Site in relation to which the Licensee holds a Storage Licence and Storage Permit; or
 - (b) delivered to an Onshore Transportation System or an Offshore Transportation and Storage System operated by another T&S Licensee.
- 4.4 By 30 June of each year, the Licensee must report to the Regulator on the quantity of carbon dioxide not contained in and/or vented from the T&S Network in the previous Charging Year, in accordance with the RIGs.
- 4.5 When requested to do so by the Regulator, the Licensee must provide to the Regulator further information in relation to the matters required to be reported on to the Regulator under this Part A.

Part B: Exception to obligation

- 4.6 The Licensee's obligations under Standard Condition D4.3 are subject to:
- (a) any arrangements entered into with any User for the provision of a Re-use Service pursuant to the CCS Network Code;
 - (b) any non-containment/venting due to operational reasons related to health and/or safety issues; and
 - (c) any appropriately planned and executed maintenance plan, undertaken in line with Good Industry Practice.

PART III: SPECIAL CONDITIONS

Special Condition E1: Definitions

Introduction

- 1.1 The purpose of this special condition is to set out the definitions used in these special conditions.
- 1.2 In these special conditions, capitalised terms defined in the standard conditions of this licence shall have the same meaning and, unless the context otherwise requires, capitalised terms used in these special conditions shall have the following meaning:

"Actual Corporation Tax Liability"

means the value as shown in the Licensee's Company Tax Return (CT600) as submitted to His Majesty's Revenue and Customs relating to the Licensee together with any other tax liabilities or allowances of the Licensee;

"Actual Debt Fee Costs"

means any commitment fee, upfront fee, arrangement fee, fee for LC issuance, fee for LC participation, bank role fees and/or fee for a guarantee facility paid by the Licensee in relation to the debt facilities obtained by the Licensee in respect of the T&S Network including in respect of the facilities set out in Part A (*All Licensee debt facilities*) of Schedule 8 (*Licensee debt facilities*), excluding any:

- (a) such fees paid to any Associate or Affiliate;
- (b) such fees arising in relation to the financing of Excluded Project Spend; and
- (c) Excluded Project Spend;

"Actual Ongoing Capex Costs"

means the actual Capex costs incurred by the Licensee during the Operational Period, excluding any Excluded Project Spend;

"Actual Ongoing Devex Costs"

means the development costs in respect of the continued development, expansion and enhancement of the Approved T&S Network (including in respect of certain Phase 2 Activities) which are incurred by the Licensee in performing the development activities required to enable the final investment decision of the relevant development, expansion or enhancement project (as the case may be) to be taken, including front end engineering design ("**FEED**"), pre-FEED, NSTA appraisal term stage work programme and all development activities required to obtain the relevant

permits, consents, regulatory and/or statutory approvals and land agreements related to the relevant development, expansion or enhancement project (as the case may be), which in each case are incurred by the Licensee:

- (a) other than in respect of the Additional Pre-Licence Award Devex Costs, post-Licence Award; and
- (b) prior to the date of the final investment decision of the relevant development, expansion or enhancement project (as the case may be),

excluding any Excluded Project Spend;

"Actual Opex Costs"

means the actual Opex costs incurred by the Licensee, excluding any Excluded Project Spend;

"Actual RP-related CM Capex Costs"

means the actual RP-related CM Capex costs incurred by the Licensee, excluding any Excluded Project Spend;

"Actual RP-related CM Opex Costs"

means the actual RP-related CM Opex costs incurred by the Licensee, excluding any Excluded Project Spend;

"Actual RP-related Non-CM Capex Costs"

means:

- (a) the actual RP-related Store Capex costs incurred by the Licensee; and/or
- (b) the actual RP-related AIW Capex costs incurred by the Licensee,

in each case excluding any Excluded Project Spend;

"Actual RP-related Non-CM Opex Costs"

means:

- (a) the actual RP-related Store Opex costs incurred by the Licensee; and/or
- (b) the actual RP-related AIW Opex costs incurred by the Licensee,

in each case excluding any Excluded Project Spend;

"Actual SRAV Capex and Opex Costs"

means the actual SRAV Capex and SRAV Opex costs incurred by the Licensee, excluding any Excluded Project Spend;

"Additional or Expanded/Enhanced Storage Site"	has the meaning given to it in Special Condition H22.14 (<i>Storage Site performance</i>);
"Additional Pre-Licence Award Devex Costs"	means the actual development costs incurred by the Licensee in relation to the T&S Business: <ul style="list-style-type: none">(a) following the assessment of the Pre-Licence Award Devex amount set out in the Financial Settlement Document; and(b) prior to Licence Award, excluding any: <ul style="list-style-type: none">(i) development costs included in the Pre-Licence Award Devex amount set out in the Financial Settlement Document; and(ii) Excluded Project Spend;
"Adjusted Constrained Registered Capacity"	means Constrained Registered Capacity in relation to Delivery Point <i>dp</i> in a Delivery Period <i>0.5h</i> , expressed in tCO ₂ , but excluding any Constrained Registered Capacity to the extent to which such Constrained Registered Capacity was directly caused by an Availability Relief Factor;
"Adjusted Curtailed Nomination"	means a Curtailed Nomination in relation to Delivery Point <i>dp</i> in a Delivery Period <i>0.5h</i> , expressed in tCO ₂ , but excluding any Curtailed Nomination to the extent to which such Curtailed Nomination was directly caused by an Availability Relief Factor;
"Adjustment Factor"	has the meaning given to it in Special Condition H18.19 (<i>Availability incentive</i>);
"AIW Capex"	means Capex demonstrably and solely arising in respect of the implementation of an Availability Improvement Works Proposal, which Capex is not Store Capex or CM Capex, and excluding any Excluded Project Spend;
"AIW Opex"	means Opex demonstrably and solely arising in respect of the implementation of an Availability Improvement Works Proposal, which Opex is not Store Opex or CM Opex, and excluding any Excluded Project Spend;

"Allowed Cost of Debt"	has the meaning given to it in the Revenue Support Agreement;
"Allowed Cost of Depreciation"	has the meaning given to it in the Revenue Support Agreement;
"Allowed Cost of Equity"	has the meaning given to it in the Revenue Support Agreement;
"Allowed Offshore Revenue"	has the meaning given to that term in Special Condition H8.9(b);
"Allowed Onshore Revenue"	has the meaning given to that term in Special Condition H8.9(a);
"Allowed Revenue"	means the revenue calculated, from time to time, in accordance with Special Condition H9 (<i>Calculation of Allowed Revenue during the Operational Period</i>);
"Allowed Unavoidable Opex"	<p>means the categories of costs the Regulator determines as Unavoidable Opex pursuant to Special Condition G4.9 (<i>First User Delay</i>) including without limitation:</p> <ul style="list-style-type: none">(a) Actual Debt Fee Costs; and(b) Pass Through Costs, <p>which satisfy the definition of Unavoidable Opex and at all times excluding any Excluded Project Spend;</p>
"Annual Iteration Process"	means the process carried out by the Regulator by [31 October] of each SRAV Calculation Period or Operational Charging Year (as relevant) in accordance with the process set out in the Price Control Financial Handbook;
"Appropriately Qualified Independent Examiner"	means a qualified tax accountant from a firm regulated by a relevant professional body;
"Approved CP Allowance"	has the meaning given to it in Special Condition H19.10(a)(ii)(B) (<i>Correction Plans and associated Remediation Plans</i>);
"Approved CP Spend"	has the meaning given to it in Special Condition H19.10(a)(ii)(A) (<i>Correction Plans and associated Remediation Plans</i>);

"Approved Energy Procurement Strategy"	means the Licensee's strategy in respect of the procurement, hedging and risk management of energy as approved by the Regulator in accordance with Special Condition H12.26 (<i>Opex Building Block</i>);
"Approved T&S Network"	means the parts of the T&S Network: <ul style="list-style-type: none">(a) comprising the Phase 1 Systems and the Phase 2 Systems, as described in [sections 3.1 and 3.2] of the APDP;(b) arising from any Expansion Activities and/or arising from the Development Activities as described [section 5] of the APDP that have associated approved Capex allowance(s); and(c) that have associated approved Capex allowance(s) pursuant to the conditions of this licence, including pursuant to any Supervening Event Re-opener and/or any Periodic Review;
"AR CM Capex Costs"	has the meaning given to it in Special Condition H20.6 (<i>Corrective Measures-related spend under a Remediation Plan</i>);
"AR CM Capex Costs Incentive"	has the meaning given to it in Special Condition H20.6(b)(ii) (<i>Corrective Measures-related spend under a Remediation Plan</i>);
"AR CM Capex CP Allowance"	has the meaning given to it in Special Condition H20.6 (<i>Corrective Measures-related spend under a Remediation Plan</i>);
"AR Non-CM Capex Costs"	has the meaning given to it in Special Condition H21.6 (<i>Corrective Measures-related spend under a Remediation Plan</i>);
"AR Non-CM Capex Costs Incentive"	has the meaning given to it in Special Condition H21.6(b)(ii) (<i>Corrective Measures-related spend under a Remediation Plan</i>);
"AR Non-CM Capex CP Allowance"	has the meaning given to it in Special Condition H20.6 (<i>Corrective Measures-related spend under a Remediation Plan</i>);
"Asset Damage Insurance"	means the insurance described in Special Condition H27 (<i>Insurance</i>);

"Availability"	has the meaning given to it in Special Condition H18.6 (<i>Availability incentive</i>);
"Availability Adjustment"	means the adjustments to Allowed Revenue implemented under Special Condition H9 (<i>Calculation of Allowed Revenue during the Operational Period</i>) and as determined by the Regulator pursuant to Special Condition H18 (<i>Availability incentive</i>);
"Availability Ceiling"	means 99% Availability;
"Availability Floor"	means the floor in respect of Availability as set out in [section 3.3] of the APDP;
"Availability Improvement Works" or "AIW"	means remediation works relating to a T&S Storage Site which are undertaken other than: (a) to respond to an Availability Issue or as part of a Corrective Measures Action; and (b) as part of the usual operation and maintenance of the Approved T&S Network (e.g. scheduled maintenance), the implementation of which remediation works shall (i) improve Availability in the future; and (ii) require AIW Capex and/or AIW Opex;
"Availability Improvement Works Proposal"	means a proposal to undertake Availability Improvement Works;
"Availability Issue"	means that Confirmed Availability has fallen below the Availability Target;
"Availability Relief Factor"	has the meaning given to it in Special Condition H18.13 (<i>Availability incentive</i>);
"Availability Target"	means the target in respect of Availability as set out in [section 3.3] of the APDP;
"Average Price of Energy"	means the figure (in £/MWh) calculated in accordance with Special Condition H12.19 (<i>Opex Building Block</i>);
"Base Revenue"	means, in respect of each Operational Charging Year, the revenue calculated in respect of that Operational Charging Year in accordance with the formula set out in Special Condition H9.5 (<i>Calculation of Allowed Revenue during the Operational Period</i>);

"Base Year"	means the year set out in the Financial Settlement Document or as determined by the Regulator at the relevant Periodic Review;
"Blended WACC"	means the WACC rate calculated in accordance with Special Condition J4.5 (<i>Delay WACC</i>);
"Business Interruption Insurance"	means the insurance described in Special Condition H27 (<i>Insurance</i>);
"Business Interruption Proceeds"	means amounts in respect of business interruption: <ul style="list-style-type: none">(a) recovered by the Licensee pursuant to the<ul style="list-style-type: none">(i) Business Interruption Insurance that the Licensee is obliged to procure pursuant to Special Condition H27 (<i>Insurance</i>);(ii) Insurances (as defined under the Supplemental Compensation Agreement) in respect of business interruption that the Licensee is obliged to procure pursuant to the Supplemental Compensation Agreement; and/or(iii) Supplemental Compensation Agreement provided by the Secretary of State in respect of business interruption; and(b) that, in addition to the amounts recovered in accordance with limb (a), would have been recovered had the Licensee used reasonable endeavours to make a successful claim under (as applicable) the:<ul style="list-style-type: none">(i) Business Interruption Insurance that the Licensee is obliged to procure pursuant to Special Condition H27 (<i>Insurance</i>);(ii) Insurances (as defined under the Supplemental Compensation Agreement) that the Licensee is obliged to procure pursuant to the Supplemental Compensation Agreement; and/or(iii) Supplemental Compensation Agreement provided by the Secretary of State, <p>to recover any Allowed Revenue (but for any Allowed Revenue in respect of any Variable Opex</p>

Allowance) that the Licensee would otherwise have been entitled to recover in accordance with the provisions of this licence and the Revenue Support Agreement, had the relevant event or occurrence covered by the relevant Business Interruption Insurance not occurred;

"Business Rates"

means business rates which are levied by Local Government and which are outside of the Licensee's control, excluding any Excluded Project Spend;

"Calculated Revenue"

means, in respect of each Operational Charging Year, the revenue calculated in respect of that Operational Charging Year in accordance with the formula set out in Special Condition H9.4 (*Calculation of Allowed Revenue during the Operational Period*);

"Calculated Tax Allowance"

means the value of the CTAt term as set out in the ["Revenue" sheet] of the Price Control Financial Model;

"Capex"

means post-Licence Award capital expenditure costs incurred in respect of the Approved T&S Network, which costs may relate to construction and/or commissioning-related activities;

"Carbon Storage Development Plan"

means the carbon storage development plan (or equivalent plan) required to be prepared by the Licensee and submitted to the NSTA as part of the Licensee's application for a Storage Permit in relation to the relevant Storage Site, in accordance with the requirements of the Storage of Carbon Dioxide (Licensing etc.) Regulations 2010;

"CCUS Re-opener Guidance and Applications Requirements Document"

means the guidance document issued by the Regulator in respect of re-openers as amended, updated and/or superseded from time to time;

"Change in Law"

means the coming into effect after Licence Award of any change:

- (a) to any Legal Requirement which results in the Licensee being required to implement a new Legal Requirement; and/or

- (b) to any Legal Requirement which applies to the Licensee and impacts on the capital or operational cost of the Project (including any change which results in such Legal Requirement ceasing to apply, being withdrawn or not being renewed); and/or
- (c) in the application, interpretation or effect of any Legal Requirement as the result of:
 - (i) any judgment given by a court or tribunal of competent jurisdiction and in respect of which the period for making an appeal has expired; or
 - (ii) guidance published by the relevant body of competent jurisdiction,

which, in either case, applies (whether exclusively or otherwise) to the Licensee and/or the T&S Network and impacts on the capital or operational cost of the Project;

"Change in Scope"

means following Licence Award a change to the scope of the Approved T&S Network as a result of:

- (a) the conclusion of Development Activities, such that settlement can be reached in respect of Capex for the associated Development Project; or
- (b) a proposed new expansion or enhancement of the Approved T&S Network (which for the avoidance of doubt excludes any Phase 2 Activities) for:
 - (i) Future Users; and/or
 - (ii) an increase in either of the Maximum Flowrates and/or in the Overall Store Capacity or an addition of a new Storage Site,

which requires:

- (A) where Ongoing Devex is required as a precursor to settlement of an increase to an SRAV Capex and Opex Allowance or the Ongoing Capex Allowance (as

relevant) to account for the associated new expansion or enhancement of the Approved T&S Network, an allocation of an Ongoing Devex Allowance; or

(B) where Ongoing Devex is not required as a precursor to settlement of an increase to an SRAV Capex and Opex Allowance or the Ongoing Capex Allowance (as relevant) to account for the associated new expansion or enhancement of the Approved T&S Network, an allocation of an increase to such allowances (as relevant) to account for the associated new expansion or enhancement of the Approved T&S Network; or

(c) a proposed cancellation or decommissioning of part of, or of a change to the scope of, the Approved T&S Network, including the cancellation of Ongoing Devex in respect of a change to the scope of the Approved T&S Network;

"Change in Scope (Variation)" means a Change in Scope which also relates to a Variation;

"CiS Submission" means a notice submitted by the Licensee to the Regulator pursuant to Special Condition J2.3 (*Supervening Event Re-openers, Insured Risk Events and Relief Events*) which complies with the requirements of Special Condition J2.4 (*Supervening Event Re-openers, Insured Risk Events and Relief Events*);

"Closing RAV" means, in respect of each Operational Charging Year, the amount calculated in accordance with the formula set out in Special Condition H3.8 (*Calculation of RAV*);

"Closing SRAV"	means, in respect of each SRAV Calculation Period, the amount calculated in accordance with the formula set out in Special Condition F4.8 (<i>SRAV During the Construction Period</i>) or Special Condition G7.8 (<i>SRAV During the Commissioning Period</i>) (as applicable);
"CM Capex"	means Capex demonstrably and solely arising in respect of the performance of any Corrective Measures activities, excluding any Excluded Project Spend;
"CM Opex"	means Opex demonstrably and solely arising in respect of the performance of any Corrective Measures activities, excluding any Excluded Project Spend;
"COD Readiness"	means that the Regulator has determined that the COD Readiness Activities have been completed pursuant to Special Condition G3.9 (<i>COD Readiness</i>);
"COD Readiness Activities"	means those Commissioning Activities which are identified as "COD Readiness Activities" in the APDP;
"COD Readiness Certificate"	means a certificate issued by an Independent Certifier in accordance with the relevant IC Deed of Appointment certifying that the Independent Certifier is satisfied that the COD Readiness Activities have been completed in accordance with this licence and the relevant Legal Requirements, excluding any applicable COD Readiness Punchlist Items;
"COD Readiness Punchlist Items"	means any minor defects, deficiencies or omissions which: (a) would not have an adverse effect on the performance of any Commissioning Activities which are performed following the initial introduction of CO ₂ into the Phase 1 Systems and/or operation of the Phase 1 Systems if not rectified, resolved or completed prior to the introduction of CO ₂ into the T&S Network; and (b) have been confirmed in writing as COD Readiness Punchlist Items by the relevant Independent Certifier (acting in accordance with the relevant IC Deed of Appointment);
"COD SRAV"	has the meaning given to it in Special Condition H2.5 (<i>Post Commissioning Review</i>);

"Commercial Operations Date" or "COD"	means the date when System Acceptance is achieved, as determined by the Regulator pursuant to Special Condition G6.6(a) (<i>System Acceptance/Commercial Operations Date</i>);
"Commissioning Activities"	has the meaning given to it in the APDP;
"Commissioning Month"	means each calendar month during the Commissioning Period, with the first such calendar month commencing on the Handover Date;
"Commissioning Period"	means the period commencing on the Handover Date and ending on the Commercial Operations Date;
"Company Tax Return" or "CT600"	means His Majesty's Revenue and Customs' company tax return form CT600, any supplemental pages, accounts, computations and any relevant information;
"Competent Auditor"	has the meaning given to it in Special Condition H22.10 (<i>Storage Site performance</i>);
"Competent Authority"	means: <ul style="list-style-type: none">(a) any international, national, federal, regional, state, local, or other court, arbitral tribunal, administrative agency or commission or other governmental, administrative or regulatory body, authority, agency or instrumentality;(b) any private body to the extent it carries out one or more public functions and whilst acting in that capacity; or(c) any other body exercising public functions, in each case, which has jurisdiction in respect of the Licensee, the T&S Network, the Project and/or this licence;
"Competent Person's Audit"	has the meaning given to it in Special Condition H22.5(a) (<i>Storage Site performance</i>);
"Competent Person's Report"	has the meaning given to it in Special Condition H22.5(b) (<i>Storage Site performance</i>);
"Confirmed Availability"	means Availability in respect of an Operational Charging Year, as confirmed or determined by the Regulator in accordance with Special Condition H18.11(b)(i) or H18.16 (<i>Availability incentive</i>) (as the case may be);
"Connection Agreement"	has the meaning given to it in the CCS Network Code;

"Constrained Registered Capacity"	means the amount by which a User's Registered Capacity has been reduced by the Licensee, in response to a capacity constraint (or some other reason contrary to the provisions of the CCS Network Code), before Nomination Close Time: (a) in accordance with the capacity constraint principles set out in Section E of the CCS Network Code or otherwise; and (b) except to the extent this was done in response to an ONC Maximum Annual Cumulative Flow Constraint; as more particularly described in the CCS Network Code;
"Construction Agreement"	has the meaning given to it in the CCS Network Code;
"Construction Period"	means the period commencing on Licence Award and ending on the Handover Date;
"Contingent Store Resources"	has the meaning given to the term "Contingent Store Resources" in the SRMS Guidelines;
"Corporation Tax"	means tax payable pursuant to the Corporation Tax Act 2010;
"Correction Plan" or "CP"	means a correction plan as referred to in Special Condition H19.4 (<i>Correction Plans and associated Remediation Plan</i>) setting out a detailed programme of works and/or activities the Licensee proposes to undertake, the implementation of which by the Licensee shall improve Availability and/or implement Corrective Measures (as applicable);
"Corrective Measures" or "CM"	has the meaning given to it in the Carbon Dioxide Storage Regulations;
"Corrective Measures Action"	means: (a) the implementation of a Corrective Measures Plan and/or any Corrective Measures (and/or any measures for the protection of human health); and/or (b) responding to a Corrective Measures Direction;

"Corrective Measures Direction"	means a direction in respect of Corrective Measures (and/or any measures for the protection of human health) given to the Licensee under The Storage of Carbon Dioxide (Licensing etc.) Regulations 2010;
"Corrective Measures Issue"	occurs when the Licensee: <ul style="list-style-type: none">(a) is required to take Corrective Measures Action; and(b) forecasts that CM Capex and/or CM Opex is required as a direct result of or in connection with such Corrective Measures Action;
"Corrective Measures Plan"	has the meaning given to the term "corrective measures plan" in The Storage of Carbon Dioxide (Licensing etc.) Regulations 2010;
"Corrective Measures Requirements"	means the requirements of any relevant Corrective Measures Plan, Corrective Measures Direction or Corrective Measures (and/or any measures for the protection of human health) (as the case may be);
"CP Forecast"	has the meaning given to it in Special Condition H19.9(b) (<i>Correction Plans and associated Remediation Plan</i>);
"Crown Estate Lease Fees"	means any agreement for lease fees or lease fees incurred to the Crown Estate and which do not include any Crown Estate value share, but excluding any: <ul style="list-style-type: none">(a) fines, penalties or other analogous one off costs imposed as a result of any action or inaction of the Licensee; and(b) Excluded Project Spend;
"Cumulative Actual SRAV Capex and Opex"	means the amount calculated in accordance with Special Condition F7.2 (<i>SRAV Capex and Opex Incentive during the Construction Period</i>) or G10.2 (<i>SRAV Capex and Opex Incentive during the Commissioning Period</i>) (as applicable);
"Cumulative Capex and Opex Variance"	means the amount calculated in accordance with Special Condition F7.3 (<i>SRAV Capex and Opex Incentive during the Construction Period</i>) or G10.3 (<i>SRAV Capex and Opex Incentive during the Commissioning Period</i>) (as applicable);

"Curtailed Nomination"

means the amount by which a Nominated Quantity of a User has been rejected or reduced in response to a capacity constraint (or some other reason contrary to the provisions of the CCS Network Code), after Nomination Close Time:

- (a) in accordance with the capacity constraint principles set out in Section E of the CCS Network Code or otherwise;
- (b) not due to the User not complying with the requirements for nominations or renominations under Section E of the CCS Network Code; and
- (c) except to the extent this was done in response to an ONC Maximum Annual Cumulative Flow Constraint;

as more particularly described in the CCS Network Code;

"Day1 RAV"

means the value of the RAV in Base Year prices as at the Commercial Operations Date, as referenced in Special Condition G16.7 (*Post Construction Review*);

"Day1 SRAV"¹

means the value of the SRAV as at Licence Award in Base Year prices as set out in the Financial Settlement Document;

"Debt Fee Allowance"

means the allowance for the Construction Period and Commissioning Period in respect of the Licensee's Debt Fees expenditure, which:

- (a) in respect of the First Regulatory Period, is as set out in the Financial Settlement Document; and
- (b) in respect of each subsequent Regulatory Period, is any such allowance determined by the Regulator pursuant to the conditions of this licence (if applicable) and set out in the Financial Settlement Document,

¹ **Explanatory note:** Day1 SRAV is intended to include the Devex incurred by the Licensee prior to Financial Settlement and the Debt Fees incurred at Licence Award.

in each case as amended pursuant to the conditions of this licence;

"Debt Fees"

means the amount calculated in accordance with Special Condition F10 (*Debt Fees during the Construction Period*) and G13 (*Debt Fees during the Commissioning Period*) (as applicable);

"Decommissioning Building Block"

means the building block applicable to the calculation of Allowed Revenue for each Operational Charging Year calculated in accordance with Special Condition H16 (*Decommissioning Building Block*);

"Deferred Commissioning Activities"

means any Notified Commissioning Activities which the Regulator determines under Special Condition G2.11 (*Obligation to achieve System Acceptance*) shall be removed from the Commissioning Activities and completed in the Operational Period as part of the Phase 2 Activities;

"Deferred Handover Works"

means any Notified Handover Works which the Regulator determines under Special Condition F2.12 (*Obligation to achieve Handover*) shall be deferred from the Construction Period and completed during the Commissioning Period as part of the Commissioning Activities;

"Delay Notice"

means:

- (a) a notice (or notices) served by the Licensee and/or a First User under [clause 13.1] of the relevant Construction Agreement;
- (b) a notice (or notices) served by the Licensee and/or a First User under [paragraph 2.8 or 2.9] of [schedule 6] of the relevant Construction Agreement; or
- (c) where the circumstances described in Special Condition G4.3(b) (*First User Delay*) arise after the relevant User Commencement Date, a notice from the Licensee informing the Regulator of the relevant delay and its cause, together with Supporting Information substantiating to the Regulator's satisfaction the relevant delay and its cause;

"Delay WACC"	means: <ul style="list-style-type: none">(a) for the First Regulatory Period, the amount, in real terms, as set out in the Financial Settlement Document; and(b) for each subsequent Regulatory Period, any amount, in real terms, as determined by the Regulator pursuant to the conditions of this Licence (if applicable) and set out in the Financial Settlement Document;
"Delivery Period"	has the meaning given to that term in the CCS Network Code;
"Depreciation Building Block"	means the building block applicable to the calculation of Allowed Revenue for each Operational Charging Year calculated in accordance with Special Condition H11 (<i>Depreciation Building Block</i>);
"Development Activities"	means the development activities relating to the T&S Network included in the APDP, as such activities are further described in [section 5] of the APDP;
"Development Project"	means an expansion or enhancement of the Approved T&S Network;
"Devolved Administration"	means the devolved legislatures of Scotland, Wales and Northern Ireland;
"Difference Payment Calculation"	has the meaning given to it in the Revenue Support Agreement;
"Difference Payment Information"	has the meaning given to it in the Revenue Support Agreement;
"Discontinuation Date"	has the meaning given to it in the Discontinuation Agreement;
"Discounted RAV"	means, in respect of each Operational Charging Year, the present value of the Closing RAV in that Operational Charging Year calculated in accordance with Special Condition H10.6 (<i>Return on Capital Building Block</i>);

"Discriminatory Change in Law"

means a Change in Law that specifically applies to:

- (a) the Project and not to the design, development, construction, completion, testing, commissioning, operation, maintenance, development, expansion and decommissioning of any other project;
- (b) the T&S Network and not to any other network; or
- (c) the Licensee and not to any other person,

which, in each case, is not a Foreseeable Change in Law;

"Draft Energy Procurement Strategy"

means the Licensee's draft strategy in respect of the procurement, hedging and risk management of energy submitted to the Regulator for approval in accordance with Special Condition H12.23 (*Opex Building Block*);

"Draft Varied IC DoA"

has the meaning given to it in Special Condition J3.8 (*Independent Certifier*);

"EA Fees"

means any fees incurred by the Licensee to the Environment Agency but excluding any:

- (a) fines, penalties or other analogous one off costs imposed as a result of any action or inaction of the Licensee; and
- (b) Excluded Project Spend;

"End of Quarter Date"

means each of 31 March, 30 June, 30 September and 31 December in a calendar year;

"Energy Relationship Adjustment"

means in respect of each Operational Charging Year, the adjustment to the Variable Opex Allowance calculated in accordance with the formula set out in Special Conditions H12.15 or H12.16 (*Opex Building Block*) (as applicable);

"Enforcement Guidance"

means the guidance issued by the Regulator regarding its enforcement powers in relation to this licence as amended, updated and/or superseded from time to time;

"Environment Agency"	means the executive non-departmental public body sponsored by the United Kingdom government's Department for Environment, Food & Rural Affairs and where applicable, any equivalent agency in a Devolved Administration;
"ETS Allowance"	means an allowance in respect of the Licensee's UK ETS expenditure which: (a) in respect of the First Regulatory Period, is as determined by the Regulator in accordance with Special Condition H14.4 (<i>ETS Building Block</i>) and set out in the Financial Settlement Document; and (b) in respect of each subsequent Regulatory Period, is any such allowance determined by the Regulator pursuant to the conditions of this licence and set out in the Financial Settlement Document, in each case as amended pursuant to the conditions of this licence;
"ETS Building Block"	means the building block applicable to the calculation of Allowed Revenue for each Operational Charging Year calculated in accordance with Special Condition H14 (<i>ETS Building Block</i>);
"ETS Costs"	means the Licensee's costs associated with procuring emissions allowances under the UK ETS;
"Event of First User Delay"	has the meaning given to it in Special Condition G4.4 (<i>First User Delay</i>);
"Event of Phase 2/ExpA Delay"	has the meaning given to it in Special Condition I2.27(a)(ii)(A) (<i>T&S Network expansion and additional construction, commissioning and operational periods</i>);
"Excess RP-related CM Capex Costs"	means 100% of any Actual RP-related CM Capex Costs over and above the relevant Approved CP Allowance(s);
"Excess RP-related CM Opex Costs"	means 100% of any Actual RP-related CM Opex Costs over and above the relevant Approved CP Allowance(s);
"Excess RP-related Non-CM Capex Costs"	means 100% of any Actual RP-related Non-CM Capex Costs over and above the relevant Approved CP Allowance(s);

"Excess RP-related Non-CM Opex Costs"

means 100% of any Actual RP-related Non-CM Opex Costs over and above the relevant Approved CP Allowance(s);

"Excluded Project Spend"

means any expenditure incurred by the Licensee that constitutes:

- (a) financing costs, fees and expenses (which are to be deemed to be fully compensated via the WACC due under this licence), save that:
 - (i) Actual Debt Fee Costs; or
 - (ii) financing costs resulting from a Senior Debt Hedge,

shall not, for the purposes of Special Conditions F10 (*Debt Fees during the Construction Period*), G13 (*Debt Fees during the Commissioning Period*), H12.4 (*Opex Building Block*) and J8 (*Regulator review of hedging strategies*) only (as applicable), be considered to be Excluded Project Spend under this limb (a) only;

- (b) Actual Debt Fee Costs or financing costs resulting from a Senior Debt Hedge to the extent incurred due to actual gearing being higher than Notional Gearing, other than in respect of the Actual Debt Fee Costs incurred in relation to the facilities listed as "Full Reimbursement" in the column entitled "Full Reimbursement or Prorating of Fees" in Part A (*All Licensee debt facilities*) and Part B (*Facilities capable of Debt Fee Allowance adjustment*) of Schedule 8 (*Licensee debt facilities*);
- (c) tax expenditure (save to the extent such expenditure is remunerated through the Tax Building Block or Pass Through Costs Building Block, in which case such tax expenditure is only not considered to be Excluded Project Spend under this limb (c) in respect of any amounts recovered under Special Condition H15.6 (*Pass Through Costs Building Block*) or H17.6 (*Tax Building Block during the Operational Period*));
- (d) a Distribution;

- (e) expenditure funded by commercial insurance or that would have been recoverable under commercial insurance had the Licensee used reasonable endeavours to make a successful claim under such commercial insurance or Supplemental Compensation Agreement insurance proceeds;
- (f) any expenditure incurred due to the fraud, Wilful Misconduct or Gross Negligence of the Licensee (or its agents or contractors), except to the extent incurred towards a contractor of the Licensee due to the fraud, Wilful Misconduct or Gross Negligence of another contractor of the Licensee and not recoverable against such other contractor;
- (g) costs which are not justified by the Licensee's accounts and records;
- (h) payments made by the Licensee to its sub-contractors or suppliers which are not in accordance with the terms of the relevant contracts, provided however that payments made by the Licensee pursuant to compromise or settlement agreements that have previously been approved in writing by the Regulator shall not be treated as Excluded Project Spend if under a materiality threshold of £100,000;
- (i) expenditure incurred by the Licensee as a consequence of an event within the scope of the cover provided by the Supplemental Compensation Agreement, but which is not reimbursed due to the application of additional deductibles under the Supplemental Compensation Agreement following a Failure Event;
- (j) additional premium incurred by the Licensee as a consequence of escalation of the SCA Fee under the Supplemental Compensation Agreement following a Failure Event;
- (k) fines payable under any law or regulation and any financial remedies payable under any relevant contracts in respect of such fines;

- (l) expenditure incurred by the Licensee under the UK ETS that go beyond the ETS Allowance because of an increase in emission volumes relative to the allowed amount;
- (m) fees payable to Associates (other than pursuant to and in accordance with this licence and/or pursuant to and in accordance with the Approved Contracts);
- (n) expenditure not related or attributable to the Approved T&S Network or the Project, unless otherwise permitted in accordance with this licence; or
- (o) costs:
 - (i) relating to activities which are not permitted pursuant to the conditions of this licence and/or costs stated to be at the Licensee's own expense;
 - (ii) that are greater than they would otherwise have been had the Licensee complied with Standard Condition B24 (*Procurement obligations*) of this licence; or
 - (iii) which, in respect of a particular cost category, are envisaged by the conditions of this licence to fall within (and therefore be logged to the SRV or RAV (as applicable) or remunerated by a building block as) a cost category other than such cost category (for example, in the Operational Period, ETS Costs can only be remunerated via the ETS Building Block and not (whether in part or in whole) the Opex Building Block));

"ExpA Acceptance"

means a determination by the Regulator that:

- (a) where there are no ExpA Tranches, the Expansion Activities have been completed; or
- (b) where there are ExpA Tranches, an ExpA Tranche has been completed;

"ExpA Acceptance Certificate"	means a certificate issued by an Independent Certifier in accordance with the relevant IC Deed of Appointment certifying that the relevant Independent Certifier is satisfied that an ExpA Acceptance has been achieved in accordance with this licence and the relevant Legal Requirements, excluding any applicable ExpA Acceptance Punchlist Items;
"ExpA Acceptance Punchlist Items"	has the meaning given to it in the APDP (where applicable);
"ExpA Acceptance Punchlist Programme"	has the meaning given to it in Special Condition I2.49 (<i>T&S Network expansion and additional construction, commissioning and operational periods</i>);
"ExpA Commissioning Activities"	has the meaning given to it in [section [●]] of the APDP (where applicable);
"ExpA Handover"	means a determination by the Regulator that: <ul style="list-style-type: none">(a) where there are no ExpA Tranches, the completion of the ExpA Handover Works; and(b) where there are ExpA Tranches, the completion of the ExpA Handover Works in relation to the relevant ExpA Tranche;
"ExpA Handover Certificate"	means a certificate issued by an Independent Certifier in accordance with the relevant IC Deed of Appointment certifying that the Independent Certifier is satisfied that the relevant ExpA Handover Works have been completed in accordance with this licence and the relevant Legal Requirements, excluding any applicable ExpA Handover Punchlist Items;
"ExpA Handover Punchlist Items"	has the meaning given to it in the APDP (where applicable);
"ExpA Handover Works"	has the meaning given to it in [section [●]] of the APDP (where applicable);
"ExpA Tranche"	means a tranche of Expansion Activities as set out in the APDP (where applicable);

"Expansion Activities" or "ExpA"	means activities relating to the Approved T&S Network which: <ul style="list-style-type: none">(a) are introduced into the APDP pursuant to a determination by the Regulator under Special Condition J2.9 (<i>Supervening Event Re-openers, Insured Risk Events and Relief Events</i>);(b) where so specified in the APDP, may be divided into ExpA Tranches and carried out and completed on a tranche by tranche basis;(c) have associated SRAV Capex and Opex, Ongoing Capex and/or Opex relating to the Approved T&S Network; and(d) do not form part of the Phase 1 Activities or Phase 2 Activities;
"Failure Event"	has the meaning given to it in the Liaison Agreement;
"Final Reconciliation Difference Payment"	has the meaning given to it in the Revenue Support Agreement;
"First Operational Year"	means the period of 12 months commencing upon (and including) the Commercial Operations Date and ending on (and including) the day immediately prior to the first anniversary of the Commercial Operations Date;
"First User"	means any User or Users which is/are needed to supply the CO ₂ required by the Licensee to carry out the Commissioning Activities;
"First User Delay Difference Payment"	has the meaning given to it in the Revenue Support Agreement;
"First User Delay Difference Payment Reconciliation Amount"	has the meaning given to it in the Revenue Support Agreement;
"Fixed Unit Cost Element"	has the meaning given to it in Special Condition H12.9(a)(i) (<i>Opex Building Block</i>);
"FME Notice"	has the meaning given to it in Special Condition J2.22(a) (<i>Supervening Event Re-openers, Insured Risk Events and Relief Events</i>);

"FME Submission"

means a notice submitted by the Licensee to the Regulator pursuant to Special Condition J2.23 (*Supervening Event Re-openers, Insured Risk Events and Relief Events*) which complies with the requirements of Special Condition J2.24 (*Supervening Event Re-openers, Insured Risk Events and Relief Events*);

"Force Majeure Event" or "FME"

means the occurrence of any of the following events after Licence Award:

- (a) war, invasion, civil war, armed conflict, revolution, insurrection or encountering munitions of war;
- (b) terrorism;
- (c) pressure waves caused by devices travelling at supersonic speeds;
- (d) encountering explosive materials, ionising radiation or contamination by radioactivity except as may be attributable to the Licensee's use of such explosives, radiation or radioactivity;
- (e) nuclear, chemical or biological contamination unless the source or cause of the contamination is as a result of the Project or any act of the Licensee, its personnel/other employees or its subcontractors; or
- (f) a Public Health Event,

which directly prevents the Licensee from performing one or more of its obligations under this licence, if and to the extent that the Licensee demonstrates to the Regulator that:

- (i) such impediment is beyond its control;
- (ii) where the relevant event occurs:
 - (A) prior to the date of the first PR Determination, it was an event for which a T&S Licensee would reasonably not have made allowance given the risk of occurrence at or before Licence Award; and

(B) on or following the date of the first PR Determination, it was an event for which a T&S Licensee would reasonably not have made allowance given the risk of occurrence at or before the date immediately preceding PR Determination; and

(iii) the effects of the impediment could not have been avoided or overcome or otherwise mitigated by the Licensee acting in accordance with Good Industry Practice;

"Forecasted Throughput Element"

has the meaning given to it in Special Condition H12.9(a)(ii) (*Opex Building Block*);

"Foreseeable Change in Law"

means, in respect of a Change in Law, that the relevant change:

(a) was:

(i) published (including in draft) by a Competent Authority; or

(ii) otherwise contemplated by public notice or public consultation or modification,

prior to:

(A) where the relevant change occurs prior to the date of the first PR Determination, Licence Award; and

(B) where the relevant change occurs on or following the date of the first PR Determination, the date of the immediately preceding PR Determination,

but only to the extent that:

(C) the relevant change has substantially the same effect as that which was so published or contemplated; and

- (D) in circumstances where multiple options for changes are proposed, it is presented as the preferred option; or
- (b) constitutes the re-enactment, re-making or similar of an equivalent Legal Requirement to the extent that the relevant change has substantially the same effect as that equivalent Legal Requirement; or
- (c) results from legal proceedings, including by way of judicial review in respect of any consent or permit required by the Licensee for performance of its obligations under this licence, where prior to:
 - (i) where the relevant change occurs prior to the date of the first PR Determination, Licence Award; and
 - (ii) where the relevant change occurs on or following the date of the first PR Determination, the date of the immediately preceding PR Determination,
 - either:
 - (A) notice of such proceedings has been published by the court or other arbitral, tribunal, administrative, regulatory or expert person hearing the proceedings; or
 - (B) the Licensee or any of its Associates has received notice of such proceedings;

"Future User"

means any potential new User (including any Prospective Users) that is not a Planned Initial User;

"Handover"

means a determination by the Regulator of the completion of the Handover Works;

"Handover Certificate"	means a certificate issued by an Independent Certifier in accordance with the relevant IC Deed of Appointment certifying that the Independent Certifier is satisfied that the Handover Works have been completed in accordance with this licence and the relevant Legal Requirements, excluding any applicable Handover Punchlist Items;
"Handover Date"	means the date on which Handover is achieved, as determined by the Regulator pursuant to Special Condition F3.6 (<i>Handover Date</i>);
"Handover Punchlist Items"	means the Phase 1 Handover Punchlist Items or the Phase 2 Handover Punchlist Items (as the case may be);
"Handover Works"	has the meaning given to it in the APDP;
"HSE"	means the Health and Safety Executive;
"IC Deed of Appointment"	means a deed of appointment of an Independent Certifier which sets out the terms of the Independent Certifier's appointment, such deed of appointment entered into between the Licensee and the relevant Independent Certifier in a form approved by the Regulator under Special Condition J3.10(a) (<i>Independent Certifier</i>);
"IC Meeting Schedule"	has the meaning given to that term in Special Condition J3.18
"IC Scope"	means the agreed scope of works and activities of the Independent Certifier set out in [section 6] of the APDP;
"Independent Certifier"	means a person (or persons) appointed by the Licensee in accordance with Special Condition J3 (<i>Independent Certifier</i>) to act as an independent certifier to the Project in accordance with an IC Deed of Appointment
"Independent Certifier Fees"	means the fees payable by the Licensee to the Independent Certifier pursuant to the IC Deed of Appointment, excluding any Excluded Project Spend;
"Initial Competent Person's Report"	means the initial Competent Person's Report provided by the Licensee to the Regulator at or prior to Licence Award;
"Insured Losses"	has the meaning given to it in the Supplemental Compensation Agreement;

"Insured Risk Event"

means the occurrence of any of the Insured Risks (as such term is defined in the Supplemental Compensation Agreement) after Licence Award which directly prevents, or will directly prevent, the Licensee from performing its obligations under this licence during the Operational Period, if and to the extent that the Licensee demonstrates to the Regulator that:

- (a) such impediment is beyond its control;
- (b) where the relevant event occurs:
 - (i) prior to the date of the first PR Determination, it was an event for which a T&S Licensee would reasonably not have made allowance (other than by obtaining any insurance in respect of the relevant event), given the risk of occurrence at or before Licence Award; and
 - (ii) on or following the date of the first PR Determination, it was an event for which a T&S Licensee would reasonably not have made allowance (other than by obtaining any insurance in respect of the relevant event), given the risk of occurrence at or before the date immediately preceding PR Determination; and
- (c) the effects of the impediment could not have been avoided or overcome or otherwise mitigated by the Licensee acting in accordance with Good Industry Practice;

"Insured Risk Event Notice"

has the meaning given to it in Special Condition J2.32(a) (*Supervening Event Re-openers, Insured Risk Events and Relief Events*);

"Insured Risk Event Submission"

means a notice submitted by the Licensee to the Regulator pursuant to Special Condition J2.33 (*Supervening Event Re-openers, Insured Risk Events and Relief Events*) which complies with the requirements of Special Condition J2.34 (*Supervening Event Re-openers, Insured Risk Events and Relief Events*);

"K-Factor"	means the correction term calculated in accordance with the formula set out in Special Condition H9.10 (<i>Calculation of Allowed Revenue during the Operational Period</i>);
"LCCC"	means Low Carbon Contracts Company Ltd, a company incorporated under the laws of England and Wales whose registered office is 10 South Colonnade, London, England, E14 4PU and whose company number is 08818711;
"Local Government"	means a local authority as defined under section 1 of the Local Government Act 2000;
"Logged RP-related CM Capex Costs"	means 100% of any Actual RP-related CM Capex Costs up to a cap equivalent to 100% of the relevant Approved CP Allowance(s);
"Logged RP-related CM Opex Costs"	means 100% of any Actual RP-related CM Opex Costs up to a cap equivalent to 100% of the relevant Approved CP Allowance(s);
"Logged RP-related Non-CM Capex Costs"	means 80% of any Actual RP-related Non-CM Capex Costs up to a cap equivalent to 80% of the relevant Approved CP Allowance(s);
"Logged RP-related Non-CM Opex Costs"	means 80% of any Actual RP-related Non-CM Opex Costs up to a cap equivalent to 80% of the relevant Approved CP Allowance(s);
"Longstop Date"	<p>means the date which is:</p> <ul style="list-style-type: none">(a) 12 months following the Scheduled COD; or(b) such later date as may be determined pursuant to a Supervening Event Re-opener or a Relief Event (each as applicable), <p>and as such date may be extended in accordance with Special Condition G5 (<i>Longstop Date</i>);</p>
"Major Expansion Activities"	means any Expansion Activities which are designated as Major Expansion Activities in the APDP (where applicable);
"Market Revenue"	<p>means any revenue in respect of the relevant Operational Charging Year from:</p> <ul style="list-style-type: none">(a) Use of System Charges:

- (i) recovered by the Licensee; or
- (ii) which in addition to those Use of System Charges recovered by the Licensee in accordance with limb (a)(i), would have been recovered by the Licensee acting in compliance with Special Condition H8.12 (*Allowed Revenue*);

(b) Business Interruption Proceeds; and

(c) any other sources of revenue received by the Licensee;

"Maximum Flowrates"

means the "Maximum Instantaneous Flowrate" and the "Maximum Annual Cumulative Flow", in each case as identified in [section 3.4] of the APDP;

"Monthly IDP Amount"

has the meaning given to it in the Revenue Support Agreement;

"Monthly QRP Adjustment"

has the meaning given to it in the Revenue Support Agreement;

"MWh"

means megawatt hour;

"Nominated Quantity"

means the quantity of carbon dioxide expressed in tCO₂ that is nominated by a User for delivery for each Delivery Period of the day, in accordance with the CCS Network Code;

"Nomination Close Time"

is the time by which Users are required to submit their daily nomination for the following day, in accordance with the CCS Network Code;

"Non-Regulated Activities"

means any activity carried out by the Licensee that is not a Regulated Activity;

"Non-Regulated Revenue"

means any revenue generated by the Licensee that is not Regulated Revenue;

"Non-RP-related Capex"²	means Capex which is provided for in a Correction Plan and which is not any of the following: <ul style="list-style-type: none">(a) RP-related Store Capex;(b) RP-related CM Capex; or(c) RP-related AIW Capex;
"Non-RP-related Opex"³	means Opex which is provided for in a Correction Plan and which is not any of the following: <ul style="list-style-type: none">(a) RP-related Store Opex;(b) RP-related CM Opex; or(c) RP-related AIW Opex;
"Notified Commissioning Activities"	has the meaning given to it in Special Condition G2.9 (<i>Obligation to achieve System Acceptance</i>);
"Notified Handover Works"	has the meaning given to it in Special Condition F2.10 (<i>Obligation to achieve Handover</i>);
"Notional Gearing"	means: <ul style="list-style-type: none">(a) in respect of the First Regulatory Period, the level of notional gearing as set out in the Financial Settlement Document; and(b) in respect of each subsequent Regulatory Period, the level of notional gearing as determined by the Regulator at the relevant Periodic Review and set out in the Financial Settlement Document;
"NPV-Neutral RAV Return Base"	means, in respect of each Operational Charging Year, the average present value in that Operational Charging Year of the RAV calculated in real (Base Year) prices in accordance with the formula set out in Special Condition H10.5 (<i>Return on Capital Building Block</i>);

² **Explanatory note:** this will include Store Capex, CM Capex and AIW Capex where the de minimis threshold is not met.

³ **Explanatory note:** this will include Store Opex, CM Opex and AIW Opex where the de minimis threshold is not met.

"NSTA Fees"	means fees payable to the NSTA with regard to the relevant Licensee's Storage Licence but excluding any: <ul style="list-style-type: none">(a) fines, penalties or other analogous one off costs imposed as a result of any action or inaction of the Licensee; and(b) Excluded Project Spend;
"Offshore Users"	has the meaning given to that term in the CCS Network Code;
"ONC Maximum Annual Cumulative Flow Constraint"	has the meaning given to that term in the CCS Network Code;
"Ongoing Capex"	means the amount calculated in accordance with Special Condition H4 (<i>Ongoing Capex during the Operational Period</i>);
"Ongoing Capex Allowance"	means an allowance in respect of the Licensee's Ongoing Capex expenditure which: <ul style="list-style-type: none">(a) in respect of the First Regulatory Period, is as set out in the Financial Settlement Document; and(b) in respect of each subsequent Regulatory Period, is any such allowance determined by the Regulator pursuant to the conditions of this licence and set out in the Financial Settlement Document, in each case as amended pursuant to the conditions of this licence;
"Ongoing Capex Incentive"	means the amount calculated in accordance with Special Condition H5.2 (<i>Ongoing Capex Incentive during the Operational Period</i>);
"Ongoing Capex Sharing Factor"	means: <ul style="list-style-type: none">(a) in respect of the First Regulatory Period, 0.6; and(b) in respect of each subsequent Regulatory Period, any such value as determined by the Regulator at the relevant Periodic Review;

"Ongoing Devex"	means the amount calculated in accordance with Special Condition F9 (<i>Ongoing Devex during the Construction Period</i>), G12 (<i>Ongoing Devex during the Commissioning Period</i>) or H6 (<i>Ongoing Devex during the Operational Period</i>) (as applicable);
"Ongoing Devex Allowance"	means an allowance in respect of the Licensee's Ongoing Devex expenditure which: (a) in respect of the First Regulatory Period, is as set out in the Financial Settlement Document; and (b) in respect of each subsequent Regulatory Period, is any such allowance determined by the Regulator pursuant to the conditions of this licence and set out in the Financial Settlement Document, in each case as amended pursuant to the conditions of this licence;
"Ongoing Devex Re-opener"	has the meaning given in Special Condition J5.5(a) (<i>Ongoing Devex Re-opener</i>);
"Ongoing Devex Stage Check Activities"	has the meaning given in Special Condition J5.3 (<i>Ongoing Devex Re-opener</i>);
"Ongoing Devex Underspend"	means where the Licensee: (a) has completed the activities associated with an Ongoing Devex Allowance; and (b) the Licensee's cumulative Actual Ongoing Devex Costs relating to such activities are less than the relevant Ongoing Devex Allowance;
"Ongoing Devex Underspend Amount"	means in respect of an Ongoing Devex Underspend, the amount by which the Licensee's Actual Ongoing Devex Costs are less than the relevant Ongoing Devex Allowance;
"Onshore Users"	has the meaning given to that term in the CCS Network Code;

- "Operational Charging Year"** means a Charging Year any part of which falls during the Operational Period, save that:
- (a) the first Operational Charging Year will commence on the first day of the Operational Period and end on the immediately following 31 March; and
 - (b) the final Operational Charging Year will commence on 1 April immediately preceding the last day of the term of this licence and end on that day;
- "Operational Period"** means the period commencing on the Commercial Operations Date and ending on the date of revocation of this licence;
- "Opex"** means the operating, maintenance and management costs associated with the operation of the T&S Network;
- "Opex Allowance"** means an allowance in respect of the Licensee's Opex expenditure which:
- (a) in respect of the First Regulatory Period, is as determined by the Regulator in accordance with Special Condition H12.4 (*Opex Building Block*) and set out in the Financial Settlement Document; and
 - (b) in respect of each subsequent Regulatory Period, is any such allowance determined by the Regulator pursuant to the conditions of this licence and set out in the Financial Settlement Document,
- in each case as amended pursuant to the conditions of this licence;
- "Opex Building Block"** means the building block applicable to the calculation of Allowed Revenue for each Operational Charging Year calculated in accordance with Special Condition H12.10 (*Opex Building Block*);
- "Opex Incentive Building Block"** means the building block applicable to the calculation of Allowed Revenue for each Operational Charging Year calculated in accordance with Special Condition H13.4 (*Opex Incentive Building Block*);

- "Opex Sharing Factor"** means:
- (a) in respect of the First Regulatory Period, 0.4; and
 - (b) in respect of each subsequent Regulatory Period, any such value as determined by the Regulator at the relevant Periodic Review;
- "OPRED Fees"** means the fee incurred by the Licensee to OPRED but excluding any:
- (a) fines, penalties or other analogous one off costs imposed as a result of any action or inaction of the Licensee; and
 - (b) Excluded Project Spend;
- "Overall Store Capacity"** means the Overall Store Capacity as identified in [section 3.4] of the APDP;
- "P2 Acceptance Punchlist Programme"** has the meaning given to it in Special Condition I2.41 (*T&S Network expansion and additional construction, commissioning and operational periods*);
- "P2/ExpA Month"** means each calendar month during any period:
- (a) in the context of Phase 2 Activities, from the relevant Reporting Commencement Date until the relevant Phase 2 Acceptance; and
 - (b) in the context of Expansion Activities, from the date on which the Licensee commences the relevant Expansion Activities (or the relevant ExpA Tranche, where relevant) until the relevant ExpA Acceptance;
- "P2/ExpA Quarter"** means each period of three calendar months during any period:
- (a) in the context of Phase 2 Activities, from the relevant Reporting Commencement Date until the relevant Phase 2 Acceptance; and
 - (b) in the context of Expansion Activities, from the date on which the Licensee commences the relevant Expansion Activities (or the relevant ExpA Tranche, where relevant) until the relevant ExpA Acceptance;

"P2/ExpA Reporting Period"	means either a P2/ExpA Month or a P2/ExpA Quarter, as specified in respect of the relevant Phase 2 Activities or Expansion Activities (as the case may be) in the Technical Details Document;
"Pass Through Costs"	means the amount calculated in accordance with Special Condition F8 (<i>Pass Through Costs during the Construction Period</i>), Special Condition G11 (<i>Pass Through Costs during the Commissioning Period</i>) or Special Condition H15 (<i>Pass Through Costs Building Block</i>) (as applicable);
"Pass Through Costs Audit"	means the independent audit, undertaken by an external auditor, of the Licensee's Pass Through Costs which is conducted in accordance with the process set out in the Pass Through Costs Audit Guidance;
"Pass Through Costs Audit Guidance"	means the guidance issued by the Regulator from time to time, which is published on the Regulator's Website and sets out how the Pass Through Costs Audit must be conducted and what it must cover;
"Pass Through Costs Building Block"	means the building block applicable to the calculation of Allowed Revenue for each Operational Charging Year calculated in accordance with Special Condition H15.3 (<i>Pass Through Costs Building Block</i>);
"Pass Through Costs Review Procedure"	means the relevant review procedure relating to Pass Through Costs: <ul style="list-style-type: none">(a) during the Construction Period, set out in Special Conditions F8.9 (<i>Pass Through Costs during the Construction Period</i>) to F8.13 (<i>Pass Through Costs during the Construction Period</i>); and(b) during the Commissioning Period set out in Special Conditions G11.12 (<i>Pass Through Costs during the Commissioning Period</i>) to G11.14 (<i>Pass Through Costs during the Commissioning Period</i>); and(c) during the Operational Period set out in Special Conditions H15.10 (<i>Pass Through Costs Building Block</i>) to H15.14 (<i>Pass Through Costs Building Block</i>);
"PCFM Variable Value"	means the values in the table of that name in the Price Control Financial Handbook;

- "PConR Deadline"** means the date which falls one calendar month after Handover;
- "Periodic Review Start Date"** means:
- (a) in respect of the first Periodic Review, [24 months ahead of the end of the First Regulatory Period]; and
 - (b) in respect of each subsequent Periodic Review, the date to be determined by the Regulator at the previous Periodic Review;
- "Phase 1 Activities"** means the Handover Works and Commissioning Activities which are anticipated in the Project Programme to be carried out during the Construction Period and/or Commissioning Period, with associated SRAV Capex relating to the Approved T&S Network included in the APDP, as further described in [section 3.1] of the APDP;
- "Phase 1 Handover Punchlist Items"** means any minor defects, deficiencies, or omissions which:
- (a) would not have an adverse effect on the safe performance of the Commissioning Activities and/or safe operation of the Phase 1 Systems if not rectified, resolved or completed prior to Handover; and
 - (b) have been confirmed in writing as Phase 1 Handover Punchlist Items by the relevant Independent Certifier (acting in accordance with the relevant IC Deed of Appointment);
- "Phase 1 Systems"** has the meaning given to it in [section 3.1(a)] of the APDP;
- "Phase 2 Acceptance"** means a determination by the Regulator that:
- (a) where there are no Phase 2 Tranches, the Phase 2 Activities have been completed; or
 - (b) where there are Phase 2 Tranches, a Phase 2 Tranche, has been completed;

"Phase 2 Acceptance Certificate"

means a certificate issued by an Independent Certifier in accordance with the relevant IC Deed of Appointment certifying that the relevant Independent Certifier is satisfied that a Phase 2 Acceptance has been achieved in accordance with this licence and the relevant Legal Requirements, excluding any applicable Phase 2 Acceptance Punchlist Items;

"Phase 2 Acceptance Punchlist Items"

has the meaning given to it in the APDP;

"Phase 2 Activities"

means the works and activities relating to the Approved T&S Network as further described in [section 3.2] of the APDP, which:

- (a) have associated SRAV Capex and Opex, Ongoing Capex and/or Opex relating to the Approved T&S Network;
- (b) may have associated Ongoing Devex relating to the Approved T&S Network;
- (c) where so specified in [section 3.2[(●)]] of the APDP, may be divided into Phase 2 Tranches and carried out and completed on a tranche by tranche basis; and
- (d) do not form part of the Phase 1 Activities or any Expansion Activities;

"Phase 2 Commissioning Activities"

has the meaning given to it in [section 3.2[(●)]] of the APDP;

"Phase 2 Handover"

means a determination by the Regulator that:

- (a) where there are no Phase 2 Tranches, the completion of the Phase 2 Handover Works; and
- (b) where there are Phase 2 Tranches, the completion of the Phase 2 Handover Works in relation to the relevant Phase 2 Tranche;

"Phase 2 Handover Certificate"

means a certificate issued by an Independent Certifier in accordance with the relevant IC Deed of Appointment certifying that the Independent Certifier is satisfied that the relevant Phase 2 Handover Works have been completed in accordance with this licence and the relevant Legal Requirements, excluding any applicable Phase 2 Handover Punchlist Items;

"Phase 2 Handover Punchlist Items"	has the meaning given to it in the APDP;
"Phase 2 Handover Works"	has the meaning given to it in [section 3.2[●]] of the APDP;
"Phase 2 Systems"	has the meaning given to it in [section 3.2[●]] of the APDP;
"Phase 2 Tranche"	means a tranche of Phase 2 Activities as set out in [section 3.2[●]] of the APDP;
"Phase 2/ExpA Delay Event"	has the meaning given to it in Special Condition I2.26 (<i>T&S Network expansion and additional construction, commissioning and operational periods</i>);
"Phase 2/ExpA Delay Notice"	has the meaning given to it in Special Condition I2.26 (<i>T&S Network expansion and additional construction, commissioning and operational periods</i>);
"Planned Initial Users"	means the Users listed in [section 4.1] of the APDP;
"Post Commissioning Review"	means a review of the Construction Period and Commissioning Period as carried out by the Regulator in accordance with Special Condition H2 (<i>Post Commissioning Review</i>);
"Post Commissioning Review RAV Adjustment"	has the meaning given to that term in Special Condition H2.6 (<i>Post Commissioning Review</i>);
"Post Construction Review"	means a review of the Construction Period carried out by the Regulator in accordance with Special Condition G16 (<i>Post Construction Review</i>);
"PostCOD Cost of Debt"	means: <ul style="list-style-type: none">(a) for the First Regulatory Period, the amount, in real terms, set out in the Financial Settlement Document; and(b) for each subsequent Regulatory Period, the amount, in real terms, as determined by the Regulator at the relevant Periodic Review and set out in the Financial Settlement Document;

- "PostCOD Cost of Equity"** means:
- (a) for the First Regulatory Period, the amount, in real terms, set out in the Financial Settlement Document; and
 - (b) for each subsequent Regulatory Period, the amount, in real terms, as determined by the Regulator at the relevant Periodic Review and set out in the Financial Settlement Document;
- "PostCOD WACC"** means:
- (a) for the First Regulatory Period, the amount, in real terms as set out in the Financial Settlement Document; and
 - (b) for each subsequent Regulatory Period, the amount, in real terms, as determined by the Regulator at the relevant Periodic Review and set out in the Financial Settlement Document;
- "PR Determination"** means the determination issued by the Regulator to the Licensee at the conclusion of each Periodic Review, in accordance with Special Condition H28 (*Periodic Reviews*);
- "Preceding Competent Person's Report"** has the meaning given to it in Special Condition H22.6(b) (*Storage Site performance*);
- "PreCOD Cost of Debt"** means:
- (a) for the First Regulatory Period, the amount, in real terms, set out in the Financial Settlement Document; and
 - (b) for each subsequent Regulatory Period (to the extent relevant), the amount, in real terms, as determined by the Regulator at the relevant Periodic Review and set out in the Financial Settlement Document;

"PreCOD Cost of Equity"

means:

- (a) for the First Regulatory Period, the amount, in real terms, set out in the Financial Settlement Document; and
- (b) for each subsequent Regulatory Period (to the extent relevant), the amount, in real terms, as determined by the Regulator at the relevant Periodic Review and set out in the Financial Settlement Document;

"PreCOD WACC"

means:

- (a) for the First Regulatory Period, the amount, in real terms, set out in the Financial Settlement Document; and
- (b) for each subsequent Regulatory Period (to the extent relevant), the amount, in real terms, as determined by the Regulator at the relevant Periodic Review and set out in the Financial Settlement Document;

"Pre-Handover Commissioning Activities"

has the meaning given to it in Special Condition F2.15 (*Obligation to achieve Handover*);

"Pre-Licence Award Devex"

means the development costs properly and efficiently incurred by the Licensee in relation to the T&S Business prior to Licence Award (excluding any Additional Pre-Licence Award Devex Costs), being the amount set out in the Financial Settlement Document;

"Price Control Financial Guidance"

means the guidance to be issued and updated by the Regulator, and published on the Regulator's Website, which sets out, amongst others, the details of all the assumptions, calculations and methodology included in the Price Control Financial Model together with any other documentation necessary to operate it;

"Price Control Financial Handbook" or "PCFM Handbook"

means the handbook to be issued and updated by the Regulator, and published on the Regulator's Website, that sets out the steps that the Licensee must comply with when completing the Annual Iteration Process and which includes, amongst other things:

- (a) instructions and guidance on how to populate the PCFM Variable Values for submission for an Annual Iteration Process;
- (b) instructions and guidance on the process and timeframe for reporting and submitting the required data; and
- (c) any requirements for Supporting Information, documentation or commentary that are to be submitted;

"Price Control Financial Instruments"

means the Price Control Financial Model, the Price Control Financial Guidance and the Price Control Financial Handbook;

"Price Indexation Term"

has the meaning given to it in Special Condition H9.6 (*Calculation of Allowed Revenue during the Operational Period*);

"Project"

means the financing, design, construction, commissioning, acceptance, operation, maintenance, development, expansion, decommissioning, post-closure monitoring and ownership of the T&S Network;

"Project Programme"

means the programme for the Project set out in the Technical Details Document, as updated pursuant to the conditions of this licence, including pursuant to any Supervening Event Re-opener and/or any Periodic Review;

"Proposed COD SRAV"

has the meaning given to it in Special Condition G16.5(d) (*Post Construction Review*);

"Proposed IC"

has the meaning given to it in Special Condition J3.6(c)(i) (*Independent Certifier*);

"Proposed Revised Scheduled COD"

has the meaning given to it in Special Condition G4.6 (*First User Delay*);

"Proposed Revised Scheduled Phase 2/ExpA Acceptance Date"

has the meaning given to it in Special Condition I2.29 (*T&S Network expansion and additional construction, commissioning and operational periods*);

"Public Health Event"	<p>means any epidemic, pandemic, or other national, regional or localised public health event in each case which is recognised after Licence Award as subsisting by the World Health Organization, including without limitation any localised or widespread occurrence of an infectious disease caused by:</p> <ul style="list-style-type: none">(a) pathogen, whether bacterial or viral; or(b) any other biological or natural agent, <p>which directly and adversely affects the operations of the T&S Network by the Licensee;</p>
"QCIL Submission"	<p>means a notice submitted by the Licensee to the Regulator pursuant to Special Condition J2.14 (<i>Supervening Event Re-openers, Insured Risk Events and Relief Events</i>) which complies with the requirements of Special Condition J2.15 (<i>Supervening Event Re-openers, Insured Risk Events and Relief Events</i>);</p>
"Qualifying Change in Law"	<p>means a Discriminatory Change in Law or a Specific Change in Law;</p>
"Quarter"	<p>means each period of three calendar months ending on an End of Quarter Date;</p>
"RAV"	<p>means the regulatory asset value calculated in accordance with Special Condition H3 (<i>Calculation of RAV</i>);</p>
"RAV Additions"	<p>means, in respect of each Operational Charging Year, the additions to RAV for that Operational Charging Year calculated in accordance with the formula set out in Special Condition H3.8 (<i>Calculation of RAV</i>);</p>
"Recovered Revenue"	<p>means the recovered revenue calculated in accordance with the formula set out in Special Condition H9.11 (<i>Calculation of Allowed Revenue during the Operational Period</i>);</p>
"Registered Capacity"	<p>means the quantity of network capacity in the T&S Network that has been allocated to a User and the User is registered as holding, in accordance with the CCS Network Code;</p>

"Regulated Activities"	the financing, design, construction, commissioning, acceptance, operation, maintenance, development, expansion, decommissioning, post-closure monitoring and ownership of the T&S Network and any associated activities necessary to implement the Project and comply with all Legal Requirements;
"Regulated Return on Equity"	has the meaning given to it in Special Condition H10.8 (<i>Return on Capital Building Block</i>)
"Regulated Revenue"	has the meaning given to it in Special Condition H24.3 (<i>Regulated/Non-Regulated Revenue</i>);
"Regulator's Cost Guidance"	means the guidance for cost assessment published by the Regulator on the Regulator's website from time to time;
"Regulator Licence Fees"	means the fees payable to the Regulator in accordance with Standard Condition A3 (<i>Payment of the Licence Fee</i>), excluding any Excluded Project Spend;
"Related Undertakings"	in relation to the Licensee, means any undertaking in which the Licensee has a participating interest within the meaning of section 421A of the Financial Services and Markets Act 2000;
"Relevant Valuation Regulator"	means the Valuation Office Agency in England and Wales or any successor authority or body;
"Relief Event"	means the occurrence of any of the following events after Licence Award: <ul style="list-style-type: none">(a) riot (by persons other than the Licensee's personnel and other employees of the Licensee and its subcontractors);(b) natural catastrophe such as earthquake, tsunami, volcanic activity, hurricane or typhoon; and(c) sabotage and acts of vandalism (by persons other than the Licensee's personnel and other employees of the Licensee and its subcontractors), which directly prevents the Licensee from achieving Handover by the Scheduled Handover Date, System Acceptance by the Scheduled COD and/or the Longstop Date, a Phase 2 Handover Date by the relevant Scheduled Phase 2 Handover Date, a Phase 2 Acceptance by the relevant Scheduled Phase 2

Acceptance Date, an ExpA Handover Date by the relevant Scheduled ExpA Handover Date and/or an ExpA Acceptance by the relevant Scheduled ExpA Acceptance Date, in each case if and to the extent that the Licensee demonstrates to the Regulator that:

- (i) such impediment is beyond its control;
- (ii) where the relevant event occurs:
 - (A) prior to the date of the first PR Determination, it was an event for which a T&S Licensee would reasonably not have made allowance given the risk of occurrence at or before Licence Award; and
 - (B) on or following the date of the first PR Determination, it was an event for which a T&S Licensee would reasonably not have made allowance given the risk of occurrence at or before the date immediately preceding PR Determination; and
- (iii) the effects of the impediment could not have been avoided or overcome or otherwise mitigated by the Licensee acting in accordance with Good Industry Practice;

"Relief Event Submission"

means a notice submitted by the Licensee to the Regulator pursuant to Special Condition J2.41 (*Supervening Event Re-openers, Insured Risk Events and Relief Events*) which complies with the requirements of Special Condition J2.42 (*Supervening Event Re-openers, Insured Risk Events and Relief Events*);

"Remediation Plan"

means a remediation plan setting out the remediation works that the Licensee proposes to undertake to the T&S Network provided to the Regulator pursuant to Special Condition H19.6 (*Correction Plans and associated Remediation Plans*);

"Removed COD Readiness Activities"	means any Notified COD Readiness Activities which the Regulator determines under Special Condition G3.5 (<i>COD Readiness</i>) are removed from the COD Readiness Activities for the purpose of achieving COD Readiness;
"Reporting Commencement Date"	means the date specified as such for the relevant Phase 2 Activities in the Technical Details Document;
"Return During Commissioning"	means the amount calculated in accordance with the formula set out in Special Condition G15.3 (<i>Return During Commissioning</i>);
"Return During Construction"	means the amount calculated in accordance with the formula set out in Special Condition F12.3 (<i>Return During Construction</i>);
"Return on Capital Building Block"	means the building block applicable to the calculation of Allowed Revenue for each Operational Charging Year calculated in accordance with Special Condition H10.3 (<i>Return on Capital Building Block</i>);
"Re-use Assets Valuation"	means the amount set out in the Financial Settlement Document;
"Re-use Daily Quantity"	has the meaning given to that term in the CCS Network Code;
"Re-use Service"	has the meaning given to that term in the CCS Network Code;
"Re-use Service Opex Allowance"	has the meaning given to that term in Special Condition H12.9(b);
"Revenue Calculations"	means the applicable values and calculations of the SRAV, RAV and/or Allowed Revenue (as applicable) as set out or referred to in these special conditions;
"Revenue Support Agreement"	means the agreement of that name entered into between the RSA Counterparty and the Licensee dated on or around Licence Award;
"RP-CM Capex Costs Incentive"	means the amount calculated in accordance with Special Condition H20.5 (<i>Corrective Measures related spend under a Remediation Plan</i>);

"RP-CM Capex Costs Incentive Sharing Factor"	means: (a) in respect of the First Regulatory Period, 0.6; and (b) in respect of each subsequent Regulatory Period, any such value as determined by the Regulator at the relevant Periodic Review;
"RP-CM Opex Costs Incentive"	means the amount calculated in accordance with Special Condition H20.10 (<i>Corrective Measures related spend under a Remediation Plan</i>);
"RP-CM Opex Costs Incentive Sharing Factor"	means: (a) in respect of the First Regulatory Period, 0.6; and (b) in respect of each subsequent Regulatory Period, any such value as determined by the Regulator at the relevant Periodic Review;
"RP-Non-CM Capex Costs Incentive"	means the amount calculated in accordance with Special Condition H21.5 (<i>Availability-related spend under a Remediation Plan</i>);
"RP-Non-CM Capex Costs Incentive Sharing Factor"	means: (a) in respect of the First Regulatory Period, 0.6; and (b) in respect of each subsequent Regulatory Period, any such value as determined by the Regulator at the relevant Periodic Review;
"RP-Non-CM Opex Costs Incentive"	means the amount calculated in accordance with Special Condition H21.11 (<i>Availability-related spend under a Remediation Plan</i>);
"RP-Non-CM Opex Costs Incentive Sharing Factor"	means: (a) in respect of the First Regulatory Period, 0.6; and (b) in respect of each subsequent Regulatory Period, any such value as determined by the Regulator at the relevant Periodic Review;
"RP-related AIW Capex"	means AIW Capex arising demonstrably and solely in accordance with the relevant Availability Improvement Works Proposal provided for within a Remediation Plan;
"RP-related AIW Opex"	means AIW Opex arising demonstrably and solely in accordance with the relevant Availability Improvement Works Proposal provided for within a Remediation Plan;

"RP-related CM Building Block"	means each of: <ul style="list-style-type: none">(a) Logged RP-related CM Opex Costs;(b) Excess RP-related CM Opex Costs;(c) the RP-CM Opex Costs Incentive; and(d) any Logged RP-related CM Capex Costs, Excess RP-related CM Capex Costs and the RP- CM Capex Costs Incentive which the Regulator has elected will not accrue to the RAV under Special Condition H20.6 (<i>Corrective Measures-related spend under a Remediation Plan</i>);
"RP-related CM Capex"	means CM Capex arising demonstrably and solely in accordance with the relevant Corrective Measures activities provided for within a Remediation Plan;
"RP-related CM Opex"	means CM Opex arising demonstrably and solely in accordance with the relevant Corrective Measures activities provided for within a Remediation Plan;
"RP-related Non-CM Building Block"	means each of: <ul style="list-style-type: none">(a) Logged RP-related Non-CM Opex Costs;(b) Excess RP-related Non-CM Opex Costs;(c) the RP-Non-CM Opex Costs Incentive; and(d) any Logged RP-related Non-CM Capex Costs, Excess RP-related Non-CM Capex Costs and the RP-Non-CM Capex Cost Incentive which the Regulator has elected will not accrue to the RAV under Special Condition H21.6 (<i>Availability-related spend under a Remediation Plan</i>);
"RP-related Non-CM Capex"	means RP-related Store Capex and/or RP-related AIW Capex;
"RP-related Non-CM Opex"	means RP-related Store Opex and/or RP-related AIW Opex;
"RP-related Opex"	means RP-related AIW Opex, RP-related CM Opex and/or RP-related Non-CM Opex;
"RP-related Store Capex"	means Store Capex arising demonstrably and solely in accordance with the relevant remediation of a Store Issue provided for within a Remediation Plan;

"RP-related Store Opex"	means Store Opex arising demonstrably and solely in accordance with the relevant remediation of a Store issue provided for within a Remediation Plan;
"RSA Counterparty"	means [LCCC] or its (and any subsequent) successor(s) in title, permitted transferee(s) or permitted assignee(s) which the Secretary of State may notify in writing to the Licensee;
"SCA Fee"	means the fee payable by the Licensee to the Secretary of State calculated in accordance with Clause 15 of the Supplemental Compensation Agreement, excluding any Excluded Project Spend;
"Scheduled COD"	means the date on which System Acceptance is scheduled to be achieved as set out in the Technical Details Document, as may be extended pursuant to the conditions of this licence;
"Scheduled ExpA Acceptance Date"	means the date on which an ExpA Acceptance is scheduled to be achieved as set out in the Technical Details Document ⁴ , and as may be extended pursuant to the conditions of this licence;
"Scheduled ExpA Commencement Date"	means the date on which Expansion Activities, or, where applicable, an ExpA Tranche, are scheduled to be commenced, as set out in the Technical Details Document and as may be extended pursuant to the conditions of this licence; ⁵
"Scheduled ExpA Handover Date"	means the date on which an ExpA Handover is scheduled to be achieved, as set out in the Technical Details Document and as may be extended pursuant to the conditions of this licence ⁶
"Scheduled Handover Date"	means the date set out in the Technical Details Document, as may be extended pursuant to the conditions of this licence;

⁴ **Explanatory note:** Expansion Activities and related terminology will be varied into the APDP/TDD as a result of conclusion of a Development Activity, a Supervening Event Re-opener or Periodic Review.

⁵ **Explanatory note:** see above.

⁶ **Explanatory note:** see above.

"Scheduled Phase 2 Acceptance Date"	means the date on which a Phase 2 Acceptance is scheduled to be achieved, as set out in the Technical Details Document and as may be extended pursuant to the conditions of this licence;
"Scheduled Phase 2 Handover Date"	means the date on which a Phase 2 Handover is scheduled to be achieved, as set out in the Technical Details Document and as may be extended pursuant to the conditions of this licence;
"Senior Debt Hedge"	means any interest rate hedging arrangement entered into by the Licensee in respect of the Licensee's senior debt;
"Senior Debt Hedging Confirmations"	has the meaning given to that term in Special Condition J8.5 (<i>Regulator review of hedging strategies</i>);
"Senior Debt Hedging Evidence"	has the meaning given to that term in Special Condition J8.6 (<i>Regulator review of hedging strategies</i>);
"Senior Debt Hedging Policy"	means the Licensee's policy in respect of senior debt hedging, which: <ul style="list-style-type: none">(a) in relation to the First Regulatory Period, is in the agreed form prior to Licence Award; and(b) in relation to each subsequent Regulatory Period, is as approved by the Regulator in accordance with Special Condition J8.3 (<i>Regulator review of hedging strategies</i>);
"Specific Change in Law"	means a Change in Law that specifically applies to: <ul style="list-style-type: none">(a) the provision of services the same or similar to those provided by the Licensee across the T&S Network; or(b) the holding of shares in a company whose main business is providing services the same or similar to those provided by the Licensee across the T&S Network, which, in each case, is not a Foreseeable Change in Law;

"SRAV"

means a shadow regulatory asset value, including:

- (a) the shadow regulatory asset value calculated in accordance with Special Condition F4 (*SRAV during the Construction Period*) and Special Condition G7 (*SRAV during the Commissioning Period*); and
- (b) any additional shadow regulatory asset value associated with a new construction and commissioning period included in this licence as a result of a Supervening Event Re-opener, as referred to in Special Condition J2 (*Supervening Event Re-openers, Insured Risk Events and Relief Events*);

"SRAV Additions"

means, in respect each relevant SRAV Calculation Period:

- (a) during the Construction Period, the additions to the SRAV for such SRAV Calculation Period calculated in accordance with the formula set out in Special Condition F4.9 (*SRAV during the Construction Period*); and
- (b) during the Commissioning Period, the additions to the SRAV for such SRAV Calculation Period set out in Special Condition G7.9 (*SRAV during the Commissioning Period*);

"SRAV Calculation Period"

means:

- (a) for the first SRAV Calculation Period, the period from Licence Award until the 31 March of the following calendar year;
- (b) for each subsequent SRAV Calculation Period in the Construction Period, the period from 1 April until the earlier of 31 March of the following calendar year or Handover;
- (c) for the first SRAV Calculation Period in the Commissioning Period, the period from Handover until the earlier of 31 March of the following calendar year or the Commercial Operations Date; and

- (d) for any subsequent SRAV Calculation Period in the Commissioning Period, the period from 01 April until the earlier of 31 March of the following calendar year or the Commercial Operations Date;

"SRAV Capex"

means Capex which is attributable to an SRAV;

"SRAV Capex and Opex"

means the amount calculated in accordance with the formula set out in Special Condition F6 (*SRAV Capex and Opex during the Construction Period*) or G9 (*SRAV Capex and Opex during the Commissioning Period*) (as applicable);

"SRAV Capex and Opex Allowance"

means an SRAV Capex and Opex Construction Period Allowance or an SRAV Capex and Opex Commissioning Period Allowance (as the case may be);

"SRAV Capex and Opex Commissioning Period Allowance"

means an allowance in respect of the Licensee's SRAV Capex and SRAV Opex expenditure during the Commissioning Period, which:

- (a) in respect of the First Regulatory Period, is as set out in the Financial Settlement Document; and
- (b) in respect of each subsequent Regulatory Period, is any such allowance determined by the Regulator pursuant to the conditions of this licence (if applicable) and set out in the Financial Settlement Document,

in each case as amended pursuant to the conditions of this licence;

"SRAV Capex and Opex Commissioning Period Overspend"

has the meaning given to it in Special Condition G10.4 (*SRAV Capex and Opex Incentive during the Commissioning Period*);

"SRAV Capex and Opex Commissioning Period Underspend"

has the meaning given to it in Special Condition G10.5 (*SRAV Capex and Opex Incentive during the Commissioning Period*);

"SRAV Capex and Opex Construction Period Allowance"

means an allowance in respect of the Licensee's SRAV Capex and SRAV Opex expenditure during the Construction Period, which:

- (a) in respect of the First Regulatory Period, is as set out in the Financial Settlement Document; and
- (b) in respect of each subsequent Regulatory Period, is any such allowance determined by the Regulator pursuant to the conditions of this licence (if applicable) and set out in the Financial Settlement Document,

in each case as amended pursuant to the conditions of this licence;

"SRAV Capex and Opex Construction Period Overspend"

has the meaning given to it in Special Condition F7.4 (*SRAV Capex and Opex Incentive during the Construction Period*);

"SRAV Capex and Opex Construction Period Underspend"

has the meaning given to it in Special Condition F7.5 (*SRAV Capex and Opex Incentive during the Construction Period*);

"SRAV Capex and Opex Incentive"

means the amount calculated in accordance with Special Condition F7 (*SRAV Capex and Opex during the Construction Period*) or G10 (*SRAV Capex and Opex Incentive during the Commissioning Period*);

"SRAV Capex and Opex Sharing Factor"

means:

- (a) in respect of the First Regulatory Period, 0.6; and
- (b) in respect of each subsequent Regulatory Period, any such value as determined by the Regulator at the relevant Periodic Review;

"SRAV Opex"

means Opex which is attributable to an SRAV;

"SRMS Guidelines"

means the Guidelines for the Applications of the CO₂ Storage Resources Management System issued by the Society of Petroleum Engineers;

"Storage Capacity"

has the meaning given to the term "Storage Capacity" in the SRMS Guidelines;

"Store Capex"

means Capex demonstrably and solely arising in respect of the remediation of a Store Issue in respect of or in connection with which an Availability Issue has occurred, which Capex is not CM Capex or AIW Capex, and excluding any Excluded Project Spend;

- "Store Issue"** means an issue or issues arising:
- (a) at a T&S Storage Site and/or
 - (b) otherwise as a result of or in connection with the performance of the T&S Storage Site;
- "Store Opex"** means Opex demonstrably and solely arising in respect of the remediation of a Store Issue in respect of or in connection with which an Availability Issue has occurred, which Opex is not CM Opex or AIW Opex, and excluding any Excluded Project Spend;
- "Substantive AIW Capex/Opex"** means AIW Capex and AIW Opex which, in aggregate, exceeds 0.5% of the Allowed Revenue in respect of the Operational Charging Year in which the relevant Availability Improvement Works Proposal is made;
- "Substantive CM Capex/Opex"** means CM Capex and CM Opex which, in aggregate, exceeds 0.5% of the Allowed Revenue in respect of the Operational Charging Year in which the relevant Corrective Measures Issue occurs;
- "Substantive Store Capex/Opex"** means Store Capex and Store Opex which, in aggregate, exceeds 0.5% of the Allowed Revenue in respect of the Operational Charging Year in which the relevant Availability Issue occurs;
- "Supervening Event"** means a Change in Scope, Qualifying Change in Law or a Force Majeure Event;
- "Supervening Event Re-opener"** means any of the following re-openers:
- (a) a re-opener relating to a Change in Scope under Part A of Special Condition J2 (*Supervening Event Re-openers, Insured Risk Events and Relief Events*);
 - (b) a re-opener relating to a Qualifying Change in Law under Part B of Special Condition J2 (*Supervening Event Re-openers, Insured Risk Events and Relief Events*); and
 - (c) a re-opener relating to a Force Majeure Event under Part C of Special Condition J2 (*Supervening Event Re-openers, Insured Risk Events and Relief Events*);

"Supporting Information"	means any and all relevant calculations, confirmations, data, documentation, evidence (including experts' reports), explanations, information, measurements, readings, reports (including experts' reports), representations and statements (whether in written or documentary form);
"System Acceptance"	means a determination by the Regulator that the Commissioning Activities have been completed;
"System Acceptance Certificate"	means a certificate issued by an Independent Certifier in accordance with the relevant IC Deed of Appointment certifying that the Independent Certifier is satisfied that the Commissioning Activities have been completed in accordance with this licence and the relevant Legal Requirements, excluding any applicable System Acceptance Punchlist Items;
"System Acceptance Punchlist Items"	means any minor defects, deficiencies, or omissions which: <ul style="list-style-type: none">(a) would not have an adverse effect on the operation of the Phase 1 Systems if not rectified, resolved or completed prior to System Acceptance; and(b) have been confirmed in writing as System Acceptance Punchlist Items by the relevant Independent Certifier (acting in accordance with the relevant IC Deed of Appointment);
"System Acceptance Punchlist Programme"	has the meaning given to it in Special Condition H29.3 (<i>System Acceptance Punchlist Items</i>);
"Tax Allowance Adjustment"	means the tax adjustment to be applied to the Allowed Revenue, as determined by the Regulator, in accordance with Special Condition H17.8 (<i>Tax Building Block during the Operational Period</i>);
"Tax Building Block"	means the building block applicable to the calculation of Allowed Revenue for each Operational Charging Year calculated in accordance with Special Condition H17 (<i>Tax Building Block during the Operational Period</i>);
"Tax Reconciliation"	means the tax reconciliation template in the form published by the Regulator;
"tCO₂"	means tonnes of carbon dioxide;

"Technical Storage Capacity"	means estimated Storage Capacity, which is calculated by use of uncertainty-range forecasts and the application of technical constraints related to wells and facilities as referenced in paragraph 2.2.2 of the SRMS Guidelines;
"Tranche of Stage Check Activities"	has the meaning given to it in Special Condition J5.3(c) (<i>Ongoing Devex Re-opener</i>);
"Unavoidable Opex"	means Opex costs that the Licensee cannot reasonably mitigate in an Event of First User Delay, taking into account the need to maintain an economic, efficient and effective approach to Opex costs not only following an Event of First User Delay but also in reaching COD;
"Uncertain Cost Event"	means those circumstances and/or events designated as such in Schedule 10 (<i>Project-specific conditions</i>) (where applicable);
"Uncertain Cost Event Re-opener"	has the meaning given in Special Condition J6.3(a) (<i>Uncertain Cost Events</i>);
"Unconnected User"	means any User or Future User (as the case may be) that was scheduled to connect to the T&S Network as a User as part of the Phase 2 Activities or any relevant Expansion Activities, but was unable to do so due to the Licensee's failure to achieve the relevant Phase 2 Acceptance or ExpA Acceptance (as the case may be);
"Use of System Charges"	means charges payable by the Users for Use of System as determined in accordance with the Use of System Charging Methodology, being: <ul style="list-style-type: none">(a) Flow Charges, which comprise an Offshore Flow Charge and an Onshore Flow Charge, as defined and described in the Use of System Charging Methodology;(b) Capacity Charges, which comprise an Offshore Capacity Charge and an Onshore Capacity Charge, as defined and described in the Use of System Charging Methodology;(c) Network Charges, which comprise an Offshore Network Charge and an Onshore Network Charge, as defined and described in the Use of System Charging Methodology; and

	(d) a Re-use Service Charge, as defined and described in the Use of System Charging Methodology;
"Use of System Charging Methodology"	has the meaning given to it in Special Condition H25.3 (<i>Use of System Charging Methodology</i>);
"Use of System Charging Statement"	has the meaning given to it in Special Condition H26.3 (<i>Use of System Charging Statement</i>);
"User Commencement Date"	has the meaning given to the term "Commencement Date" in the relevant Connection Agreement;
"User Commissioning Programme"	has the meaning given to the term "Commissioning Programme" in the relevant Construction Agreement;
"Variable Opex Allowance"	has the meaning given to it in Special Condition H12.9(a) (<i>Opex Building Block</i>);
"Variation"	has the meaning given to it in the Liaison Agreement;
"Variation Notice"	has the meaning given to it in the Liaison Agreement;
"WACC"	means weighted average cost of capital;
"WACC Senior Debt Hedging Adjustment"	has the meaning given to that term in Special Condition J8.8 (<i>Regulator review of hedging strategies</i>); and
"Wilful Misconduct or Gross Negligence"	means any act or failure by the Licensee that was: (a) an intentional breach of this licence and/or an intentional contravention of any Legal Requirement(s) or any act that was intended to cause such breach and/or contravention; or (b) intended to cause, or was in reckless disregard of, or wanton indifference to, the harmful consequences that the Licensee knew or ought to have known such act or failure to act was likely to have for any other party but shall not include an ordinary error of judgement or mistake made by the Licensee in the exercise of good faith or any function, authority or discretion conferred on the Licensee that would constitute mere ordinary negligence.

Special Condition E2: Interpretation

Introduction

- 2.1 The purpose of this special condition is to set out the general principles of interpretation that apply to the special conditions of this licence.

Interpretation

- 2.2 In the special conditions of this licence, except where the context otherwise requires:
- (a) capitalised terms used in these special conditions have the meaning given to them in Standard Condition A1.4 (*Definitions for the standard conditions*), except where otherwise defined in these special conditions;
 - (b) capitalised terms used in these special conditions which are not defined in Standard Condition A1.4 (*Definitions for the standard conditions*) but which are otherwise defined in the standard conditions of this licence have the same meaning in the special conditions of this licence as given to them in the standard conditions of this licence, except where otherwise defined in these special conditions;
 - (c) the provisions of Standard Condition A2 (*Interpretation of this licence*) shall apply to the special conditions of this licence;
 - (d) variable values used in calculations contemplated by this licence (including in relation to the valuation of the SRAV, RAV and calculation of the Allowed Revenue) may be derived from input data provided by the Licensee and any other evidence that may appropriately inform the Regulator's assessment of the validity of the data provided by the Licensee. Where possible, values provided by the Licensee should reflect actual values but, where actual data is not available at the time of submission, the Licensee should provide a provisional value either:
 - (i) if applicable, in accordance with the approach specified in the PCFM Handbook; or
 - (ii) if the PCFM Handbook does not apply, the Licensee's best estimate on the basis of the information available at the time;
 - (e) any values provided on a provisional basis must be updated by the Licensee in each SRAV Calculation Period or Operational Charging Year (as relevant), with any interim updates reflecting the most accurate forecast available at that time, until such a time as the provisional value has been substituted for an actuals value. Any such updates will be reflected in the calculations for that SRAV Calculation Period or Operational Charging Year in accordance with the processes set out in this licence (including pursuant to any reconciliations to be undertaken by the Regulator pursuant to this licence);

- (f) where the subscript 't' is used without further numerical notation, the value to be used is for the SRAV Calculation Period or Operational Charging Year (as relevant) to which the relevant calculation is to be applied, unless otherwise stated. A positive or negative numerical notation indicates that the value to be used is for an SRAV Calculation Period or Operational Charging Year (as relevant) after or before that SRAV Calculation Period_t or Operational Charging Year_t, and the number indicates how many years after or before. For example, the calculation of the Licensee's entitlement to Allowed Revenue for Operational Charging Year_t is performed in Operational Charging Year_{t-1};
- (g) any values derived by reference to the value of revenues accrued, received or paid by or to the Licensee will be the actual sum accrued, received or paid by or to the Licensee on the date of such accrual, receipt or payment without any adjustment for inflation or interest after deduction of value added tax (if any) and any other taxes charged directly by reference to the amounts so accrued, received or paid;
- (h) where any relevant Charging Year is less than 12 months, any calculation made pursuant to or in accordance with these special conditions will be pro-rated on a daily basis, unless otherwise provided for in this Licence; and
- (i) any addition or subtractions to an SRAV or RAV (as relevant) will be deflated to the relevant Base Year prices before being added to, or subtracted from, the relevant SRAV or RAV.

Section F: Construction Period conditions

Reference	Subject matter	Page
Special Condition F1	Construction Period	225
Special Condition F2	Obligation to achieve Handover	226
Special Condition F3	Handover Date	231
Special Condition F4	SRAV During the Construction Period	233
Special Condition F5	Re-use Assets Valuation	236
Special Condition F6	SRAV Capex and Opex during the Construction Period	237
Special Condition F7	SRAV Capex and Opex Incentive during the Construction Period	239
Special Condition F8	Pass Through Costs during the Construction Period	242
Special Condition F9	Ongoing Devex during the Construction Period	245
Special Condition F10	Debt Fees during the Construction Period	248
Special Condition F11	Disposals during the Construction Period	250
Special Condition F12	Return During Construction	251

Special Condition F1: Construction Period

- 1.1 The special conditions in this Section F set out the provisions that apply in respect of the Handover Works and in respect of and during the Construction Period.
- 1.2 The Licensee must also comply with the special conditions set out in Section J (*Overarching Special Conditions*) where relevant.

Special Condition F2: Obligation to achieve Handover

Introduction

2.1 The purpose of this special condition is to set out the Licensee's obligations in relation to achieving Handover through completion of the Handover Works.

Structure

2.2 This special condition is structured as follows:

- (a) Part A sets out the Licensee's obligation to achieve completion of the Handover Works;
- (b) Part B requires the Licensee to provide quarterly updates to the Regulator in respect of the Handover Works;
- (c) Part C requires the Licensee to notify the Regulator if the Licensee is reasonably likely to fail to achieve Handover by the Scheduled Handover Date;
- (d) Part D requires the Licensee to notify the Regulator where the Licensee has failed to achieve Handover by the Scheduled Handover Date;
- (e) Part E sets out the conditions which apply where certain of the Handover Works will not or cannot be completed on-time; and
- (f) Part F confirms that the Licensee may commence part(s) of the Commissioning Activities during the Construction Period.

Part A: Obligation to achieve completion of the Handover Works

2.3 The Licensee must:

- (a) finance and carry out the Handover Works; and
- (b) in doing so, use reasonable endeavours to achieve completion of the Handover Works by the Scheduled Handover Date.

Part B: Provision of quarterly updates in respect of the Handover Works

2.4 The Licensee must provide quarterly updates to the Regulator in the form approved by the Regulator setting out the Licensee's progress in respect of the Handover Works, including:

- (a) progress in relation to the Project Programme; and
- (b) details of the Licensee's forecasted spend against the relevant construction budget, including up-to-date details of all funding sources.

- 2.5 The first quarterly update provided in accordance with Special Condition F2.4 must be provided by the Licensee no later than ten Business Days following the first End of Quarter Date to occur following Licence Award, with subsequent quarterly updates provided no later than ten Business Days following each subsequent End of Quarter Date.

Part C: Notification of likely failure to achieve Handover by the Scheduled Handover Date

- 2.6 The Licensee must notify the Regulator as soon as reasonably practicable after the Licensee becomes aware that it is reasonably likely to fail to achieve Handover by the Scheduled Handover Date.

- 2.7 A notice issued by the Licensee to the Regulator under Special Condition F2.6 must give particulars of:

- (a) the event(s) and/or circumstance(s) leading to such likely failure;
- (b) the reasons behind such event(s) and/or circumstance(s);
- (c) the actions that the Licensee has implemented, and/or will implement, to avoid such failure;
- (d) the forecast impact of such failure, including:
 - (i) the impact on any third parties, including Users, Future Users and any potential Users;
 - (ii) the impact on the Licensee's financing arrangements; and
 - (iii) the length of delay to Handover resulting from such likely failure as well as any resulting potential delay to the Commercial Operations Date and how such potential delay has been calculated;

in each case as reasonably expected by the Licensee based on the information available to the Licensee at the time; and

- (e) the actions that the Licensee proposes to implement to mitigate the impact of any such likely failure and any potential resulting delay.

Part D: Notification of failure to achieve Handover by the Scheduled Handover Date

- 2.8 The Licensee must promptly notify the Regulator where the Licensee fails to achieve Handover by the Scheduled Handover Date.

- 2.9 A notice issued by the Licensee to the Regulator under Special Condition F2.8 must give particulars of:

- (a) the event(s) and/or circumstance(s) leading to such failure;
- (b) the reasons behind such event(s) and/or circumstance(s);
- (c) the actions that the Licensee implemented to attempt to avoid such failure;

- (d) the forecast impact of such failure, including:
 - (i) the impact on any third parties, including Users, Future Users and any potential Users;
 - (ii) the impact on the Licensee's financing arrangements; and
 - (iii) the length of any delay to Handover resulting from such failure as well as any resulting potential delay to the Commercial Operations Date and how such potential delay has been calculated,in each case as reasonably expected by the Licensee based on the information available to the Licensee at the time; and
- (e) the actions that the Licensee proposes to implement to mitigate the impact of any such failure and any resulting delay.

Part E: Deferral of part(s) of the Handover Works where the Licensee is unable to complete them by the date of completion of the rest of the Handover Works

- 2.10 The Licensee must notify the Regulator if the Licensee considers that it is not, or will not be, able to complete any part of the Handover Works (such Handover Works, once notified, being the **"Notified Handover Works"**) prior to, or by no later than, the date of completion of the Handover Works other than the Notified Handover Works without causing undue delay to Handover.
- 2.11 A notice issued by the Licensee to the Regulator under Special Condition F2.10 must give particulars of:
 - (a) any investigations and additional works undertaken to try to complete the Notified Handover Works prior to, or by no later than, the date of completion of the Handover Works other than the Notified Handover Works;
 - (b) the root cause analysis detailing why the Notified Handover Works cannot be completed prior to, or by no later than, the date of completion of the Handover Works other than the Notified Handover Works;
 - (c) the forecast impact of not completing the Notified Handover Works prior to, or by no later than, the date of completion of the Handover Works other than the Notified Handover Works, including any impact on the Licensee's ability to carry out the Commissioning Activities and any potential delay to the Commercial Operations Date;
 - (d) the Licensee's proposed approach to mitigating the impact of non-completion of the Notified Handover Works prior to, or by no later than, the date of completion of the Handover Works other than the Notified Handover Works; and
 - (e) such other Supporting Information that the Regulator has notified the Licensee that the Regulator requires.

- 2.12 Where Special Condition F2.10 applies, the Regulator will review and consider the notice issued by the Licensee to the Regulator under Special Condition F2.10 and may:
- (a) determine that all of the Notified Handover Works shall be deferred from the Construction Period and completed during the Commissioning Period as part of the Commissioning Activities;
 - (b) determine that part of the Notified Handover Works shall be deferred from the Construction Period and completed during the Commissioning Period as part of the Commissioning Activities; or
 - (c) determine that none of the Notified Handover Works shall be deferred from the Construction Period and completed during the Commissioning Period as part of the Commissioning Activities.
- 2.13 As part of any agreement or determination by the Regulator in respect of Deferred Handover Works under Special Condition F2.12, the Regulator will:
- (a) impose such conditions as the Regulator considers appropriate in the context of the deferral of the Deferred Handover Works from the Construction Period into the Commissioning Period and make amendments to update the APDP to reflect such conditions;
 - (b) determine adjustments (if any) to the SRAV Capex and Opex Construction Period Allowance and the SRAV Capex and Opex Commissioning Period Allowance to reflect the deferral of the Deferred Handover Works from the Construction Period into the Commissioning Period and make amendments to update the Financial Settlement Document to reflect any such adjustments; and
 - (c) make amendments to update the APDP to remove the Deferred Handover Works from the definition of "Handover Works" and include them in the definition of "Commissioning Activities" (and "**Handover Works**" and "**Commissioning Activities**" shall be construed accordingly for the purposes of this licence).
- 2.14 The Licensee must provide such assistance and such Supporting Information to the Regulator as the Regulator may require in connection with any Deferred Handover Works and/or Special Condition F2.12.

Part F: Commencement of Commissioning Activities during the Construction Period

- 2.15 The Licensee may commence the carrying out of any of the Commissioning Activities prior to Handover ("**Pre-Handover Commissioning Activities**").
- 2.16 Prior to commencing any Pre-Handover Commissioning Activities, the Licensee shall notify the Regulator of the same, such notice to contain full particulars of the relevant Pre-Handover Commissioning Activities.

- 2.17 Following receipt of the Licensee's notice under Special Condition F2.16, the Regulator will determine adjustments (if any) to the SRAV Capex and Opex Construction Period Allowance and the SRAV Capex and Opex Commissioning Period Allowance to reflect the acceleration of the Pre-Handover Commissioning Activities from the Commissioning Period into the Construction Period and make amendments to update the Financial Settlement Document to reflect any such adjustments.
- 2.18 The Licensee must provide such assistance and such Supporting Information to the Regulator as the Regulator may require in connection with any Pre-Handover Commissioning Activities and/or Special Condition F2.17.

Special Condition F3: Handover Date

Introduction

- 3.1 The purpose of this special condition is to set out the Licensee's obligations in respect of completion of the Handover Works.

Structure

- 3.2 This special condition is structured as follows:
- (a) Part A requires the Licensee to notify the Regulator of the date of anticipated completion of the Handover Works; and
 - (b) Part B sets out the procedure for achieving Handover.

Part A: Notification of date of anticipated completion of the Handover Works

- 3.3 The Licensee must give the Regulator no less than 25 Business Days' notice of the date that it anticipates the Handover Works will be completed, together with the Supporting Information available at that time to substantiate the completion of any of the Handover Works.
- 3.4 In the event that the date notified to the Regulator under Special Condition F3.3 changes following the date of such notification, the Licensee must give the Regulator notice of the revised date of anticipated completion as soon as reasonably practicable following the change.

Part B: Completion of the Handover Works and achievement of Handover

- 3.5 As soon as reasonably practicable following issue of the same by the relevant Independent Certifier, the Licensee must provide to the Regulator:
- (a) a certified copy of the Handover Certificate, which may be issued by the Independent Certifier notwithstanding that there are applicable Handover Punchlist Items; and
 - (b) any further Supporting Information that the Regulator has notified the Licensee that it requires in respect of the completion of the Handover Works.
- 3.6 Within 20 Business Days of receipt of the information in respect of the completion of the Handover Works under Special Condition F3.5, the Regulator will consider such information and will:
- (a) determine that:
 - (i) the Handover Works are complete (notwithstanding that there may be Handover Punchlist Items); and
 - (ii) Handover has been achieved;

- (b) determine that:
 - (i) the Handover Works are not complete; and
 - (ii) Handover has not been achieved;
- (c) require further Supporting Information from the Licensee to determine whether the Handover Works have been completed; or
- (d) otherwise inform the Licensee that it requires additional time to consider whether the Handover Works have been completed.

3.7 Where the Regulator:

- (a) determines under Special Condition F3.6(b) that the Handover Works are not complete, the Licensee must:
 - (i) complete any outstanding Handover Works; and
 - (ii) refer the matter back to the relevant Independent Certifier,and the procedures in Special Conditions F3.5 and F3.6 shall be repeated; or
- (b) requires further Supporting Information from the Licensee under Special Condition F3.6(c), the Licensee must provide such Supporting Information to the Regulator as soon as reasonably practicable and the procedure in Special Condition F3.6 shall be repeated,

in each case until the Regulator determines that the Handover Works are complete and Handover has been achieved.

Special Condition F4: SRAV During the Construction Period

Introduction

- 4.1 The purpose of this special condition is to set out how amounts will accrue to the SRAV for each SRAV Calculation Period during the Construction Period and how the Closing SRAV will be calculated for each SRAV Calculation Period during the Construction Period.

Structure

- 4.2 This special condition is structured as follows:
- (a) Part A sets out how the SRAV will build-up during the Construction Period;
 - (b) Part B sets out certain provisions relating to the calculation of the SRAV;
 - (c) Part C sets out how the value of the Closing SRAV for each SRAV Calculation Period during the Construction Period will be calculated; and
 - (d) Part D sets out how the SRAV Additions for each SRAV Calculation Period during the Construction Period will be calculated.

Part A: SRAV build-up during the Construction Period

- 4.3 During the Construction Period, the:

- (a) Re-use Assets Valuation (if any);
- (b) SRAV Capex and Opex;
- (c) Pass Through Costs;
- (d) Ongoing Devex;
- (e) Debt Fees;
- (f) Disposals; and
- (g) Return During Construction,

will accrue to an SRAV in accordance with the provisions of Special Condition F4.4 to Special Condition F4.9.

Part B: Calculation and Reconciliation of SRAV

- 4.4 In calculating the value of an SRAV in accordance with the provisions of this special condition, the Regulator will rely on input data provided by the Licensee for individual components of the calculation and any other evidence that may appropriately inform the Regulator's assessment of the validity of the data provided by the Licensee.

- 4.5 In accordance with Special Condition E2.2(e) (*Interpretation*), any values provided on a provisional basis must be updated by the Licensee in each SRAV Calculation Period with any interim updates reflecting the most accurate forecast available at that time, until such a time as the provisional value has been substituted for an actual value. Any such updates will be reflected in the calculation of the value of the SRAV for the relevant SRAV Calculation Period as part of the Annual Iteration Process.
- 4.6 As part of the Annual Iteration Process, the Regulator will also reconcile the calculation of the value of the SRAV for any relevant SRAV Calculation Period to reflect the correction of errors and/or revisions of data identified as a result of assurance activities.
- 4.7 An additional reconciliation of the SRAV will occur pursuant to the Post Commissioning Review in accordance with Special Condition H2 (*Post Commissioning Review*).

Part C: Calculation of the Closing SRAV

- 4.8 The Closing SRAV for each SRAV Calculation Period during the Construction Period will be calculated in real (Base Year) prices in accordance with the following formula:

$$CSRAV_t = SRAV_{Day1} + \left[\sum_{n=1}^t SRA_n \right] + \left[\sum_{n=1}^t RDC_n \right]$$

where:

Term	Description	Price Base
CSRAV _t	means the Closing SRAV as at the end of the SRAV Calculation Period	£ real (Base Year)
SRAV _{Day1}	means the Day1 SRAV	£ real (Base Year)
SRA _n	means for each SRAV Calculation Period _n , the SRAV Additions for that SRAV Calculation Period calculated in accordance with Special Condition F4.9	£ real (Base Year)
RDC _n	means for each SRAV Calculation Period _n , the Return During Construction for that SRAV Calculation Period calculated in accordance with Special Condition F12.3 (<i>Return During Construction</i>)	£ real (Base Year)

Part D: Calculation of SRAV Additions

4.9 The SRAV Additions for each SRAV Calculation Period during the Construction Period will be calculated in real (Base Year) prices in accordance with the following formula:

$$SRA_t = RUAV_t + SRAVCO_t + SRCOI_t + PTC_t + OD_t + DF_t - Dis_t$$

where:

Term	Description	Price Base
SRA_t	means the SRAV Additions for SRAV Calculation Period _t	£ real (Base Year)
$RUAV_t$	means the Re-use Assets Valuation (if any) for SRAV Calculation Period _t calculated in accordance with Special Condition F5 (<i>Re-use Assets Valuation</i>)	£ real (Base Year)
$SRAVCO_t$	means the SRAV Capex and Opex for SRAV Calculation Period _t calculated in accordance with Special Condition F6.3 (<i>SRAV Capex and Opex during the Construction Period</i>)	£ real (Base Year)
$SRCOI_t$	means the SRAV Capex and Opex Incentive for SRAV Calculation Period _t calculated in accordance with Special Condition F7 (<i>SRAV Capex and Opex Incentive during the Construction Period</i>)	£ real (Base Year)
PTC_t	means the Pass Through Costs for SRAV Calculation Period _t calculated in accordance with Special Condition F8.6 (<i>Pass Through Costs during the Construction Period</i>)	£ real (Base Year)
OD_t	means the Ongoing Devex for SRAV Calculation Period _t calculated in accordance with Special Condition F9.3 (<i>Ongoing Devex during the Construction Period</i>)	£ real (Base Year)
DF_t	means the Debt Fees for SRAV Calculation Period _t calculated in accordance with Special Condition F10.3 (<i>Debt Fees during the Construction Period</i>)	£ real (Base Year)
Dis_t	means any adjustment in respect of any approved disposals of T&S Assets determined by the Regulator for SRAV Calculation Period _t in accordance with Special Condition F11 (<i>Disposals during the Construction Period</i>)	£ real (Base Year)

Special Condition F5: Re-use Assets Valuation

Introduction

- 5.1 The purpose of this special condition is to set out how the Re-use Assets Valuation is to:
- (a) be calculated for each SRAV Calculation Period during the Construction Period; and
 - (b) accrue to the SRAV.
- 5.2 The Re-use Assets Valuation for each re-use asset shall, subject to Special Condition F5.3, accrue to the SRAV in the SRAV Calculation Period in which such asset is paid for by the Licensee.
- 5.3 The Regulator may determine an adjustment to the Re-use Assets Valuation which is to accrue to the SRAV pursuant to Special Condition F5.2 to take account of any tax treatment of such re-use asset that has had an impact on the Re-use Assets Valuation since Licence Award.
- 5.4 The Licensee must provide the Regulator with any information reasonably required to enable the Regulator to determine any adjustment to a Re-use Assets Valuation.

Special Condition F6: SRAV Capex and Opex during the Construction Period

Introduction

6.1 The purpose of this special condition is to set out how the SRAV Capex and Opex costs will be calculated and accrue to the SRAV for each SRAV Calculation Period during the Construction Period.

Structure

6.2 This special condition is structured as follows:

- (a) Part A sets out the calculation of the SRAV Capex and Opex for each SRAV Calculation Period during the Construction Period;
- (b) Part B sets out the how the Actual SRAV Capex and Opex Costs shall accrue to the SRAV; and
- (c) Part C sets out certain information that must be provided by the Licensee in relation to its SRAV Capex and Opex Costs.

Part A: Calculation of SRAV Capex and Opex

6.3 The SRAV Capex and Opex for each SRAV Calculation Period during the Construction Period will be calculated in accordance with the following formula:

$$SRAVCO_t = ASRAVCO_t$$

where:

Term	Description	Price Base
$SRAVCO_t$	means the SRAV Capex and Opex for SRAV Calculation Period _t	£ real (Base Year)
$ASRAVCO_t$	means the Actual SRAV Capex and Opex Costs accrued to the SRAV during SRAV Calculation Period _t in accordance with Special Condition F6.4	£ real (Base Year)

Part B: Accrual of Actual SRAV Capex and Opex Costs

6.4 The Licensee's Actual SRAV Capex and Opex Costs during the Construction Period shall accrue to the SRAV in real (Base Year) prices.

Part C: Provision of information

6.5 At each End of Quarter Date during the Construction Period, the Licensee must provide to the Regulator details of:

- (a) the Actual SRAV Capex and Opex Costs incurred by the Licensee;

- (b) any Excluded Project Spend incurred by the Licensee;
- (c) the Licensee's forecasted Actual SRAV Capex and Opex Costs for the current SRAV Calculation Period and all remaining SRAV Calculation Periods in the Construction Period and Commissioning Period;
- (d) any updates to any values provided by the Licensee in accordance with Special Condition E2.2(e) (*Interpretation*); and
- (e) any other information required relating to Capex and Opex pursuant to the RIGs or any Regulator guidance.

Special Condition F7: SRAV Capex and Opex Incentive during the Construction Period

Introduction

7.1 The purpose of this special condition is to set out how the SRAV Capex and Opex Incentive will be calculated for each SRAV Calculation Period during the Construction Period.

SRAV Capex and Opex Incentive

7.2 In order to determine the SRAV Capex and Opex Incentive, first the Cumulative Actual SRAV Capex and Opex during the Construction Period will be calculated in accordance with the following formula:

$$CASRAVCO_t = \sum_{n=SRC_{Con}}^t ASRAVCO_t$$

where:

Term	Description	Price Base
CASRAVCO _t	means the Cumulative Actual SRAV Capex and Opex during the Construction Period up to and including SRAV Calculation Period _t	£ real (Base Year)
ASRAVCO _t	means the Actual SRAV Capex and Opex Costs accrued to the SRAV during the Construction Period up to and including SRAV Calculation Period _t in accordance with Special Condition F6.4 (<i>SRAV Capex and Opex during the Construction Period</i>)	£ real (Base Year)
SRC _{Con}	means the first SRAV Calculation Period during the Construction Period	N/A

7.3 Next, the Cumulative Capex and Opex Variance for the SRAV Calculation Period will be calculated in accordance with the following formula:

$$CCOV_t = SRAVCOA - CASRAVCO_t$$

where:

Term	Description	Price Base
CCOV _t	means the Cumulative Capex and Opex Variance for SRAV Calculation Period _t	£ real (Base Year)

Term	Description	Price Base
SRAVCOA	means the SRAV Capex and Opex Construction Period Allowance	£ real (Base Year)
CASRAVCO _t	means the Cumulative Actual SRAV Capex and Opex during the Construction Period up to and including SRAV Calculation Period _t	£ real (Base Year)

7.4 For each SRAV Calculation Period_t during the Construction Period where the Cumulative Actual SRAV Capex and Opex for the Construction Period is greater than the SRAV Capex and Opex Construction Period Allowance (an "**SRAV Capex and Opex Construction Period Overspend**"), the SRAV Capex and Opex Incentive for the SRAV Calculation Period will be calculated in accordance with the following formula:

$$SRCOI_t = (CCOV_t - CCOV_{t-1}) \times SCOSF$$

where:

Term	Description	Price Base
SRCOI _t	means the SRAV Capex and Opex Incentive for SRAV Calculation Period _t	£ real (Base Year)
CCOV _t	means the Cumulative Capex and Opex Variance for SRAV Calculation Period _t	£ real (Base Year)
CCOV _{t-1}	means the Cumulative Capex and Opex Variance for SRAV Calculation Period _{t-1} , which in respect of the first SRAV Calculation Period _t in the Construction Period in which there is an SRAV Capex and Opex Construction Period Overspend only, shall be deemed to be zero	£ real (Base Year)
SCOSF	means the SRAV Capex and Opex Sharing Factor	N/A

7.5 For each SRAV Calculation Period_t during the Construction Period where the Cumulative Actual SRAV Capex and Opex for the Construction Period is less than the SRAV Capex and Opex Construction Period Allowance (an "**SRAV Capex and Opex Construction Period Underspend**"), the SRAV Capex and Opex Incentive shall be set to zero other than for the final SRAV Calculation Period in the Construction Period where the SRAV Capex and Opex Incentive will be calculated in accordance with the following formula:

$$SRCOI_t = CCOV_t \times SCOSF$$

where:

Term	Description	Price Base
SRCOI _t	means the SRAV Capex and Opex Incentive for the final SRAV Calculation Period in the Construction Period	£ real (Base Year)
CCOV _t	means the Cumulative Capex and Opex Variance for SRAV Calculation Period _t	£ real (Base Year)
SCOSF	means the SRAV Capex and Opex Sharing Factor	N/A

7.6 The value of any SRAV Capex and Opex Incentive calculated pursuant to:

- (a) Special Condition F7.4 will be negative; and
- (b) Special Condition F7.5 will either be zero or positive (as applicable).

Special Condition F8: Pass Through Costs during the Construction Period

Introduction

- 8.1 The purpose of this special condition is to set out how:
- (a) the Pass Through Costs shall accrue to the SRAV during the Construction Period; and
 - (b) the Pass Through Costs will be calculated for each SRAV Calculation Period for the purposes of the calculation of the SRAV Additions pursuant to Special Condition F4.9 (*SRAV During the Construction Period*).

Structure

- 8.2 This special condition is structured as follows:
- (a) Part A sets out the calculation to determine the Pass Through Costs for each SRAV Calculation Period during the Construction Period;
 - (b) Part B sets out the information required from the Licensee to evidence its Pass Through Costs; and
 - (c) Part C sets out the Pass Through Costs Review Procedure.

Part A: Calculation of Pass Through Costs

- 8.3 In accordance with Special Conditions F8.6, F8.8 and F8.10, the Licensee will be entitled to certain amounts, on a pass through basis, that are incurred by the Licensee during the Construction Period and which are outside of its control.
- 8.4 The Regulator may request evidence from the Licensee in support of any costs incurred by the Licensee in respect of which it is entitled to account for as part of the Pass Through Costs during the Construction Period.
- 8.5 The Licensee may request that the Regulator considers whether additional fees incurred or to be incurred by the Licensee to regulators in connection with the Approved T&S Network and which are outside of its control should be included in the calculation of Pass Through Costs by direction. Where the Regulator agrees to such direction, the Regulator will modify this licence as necessary to give effect to its direction.

8.6 The Pass Through Costs for each SRAV Calculation Period during the Construction Period will be calculated in accordance with the following formula:

$$PTC_t = BR_t + RLF_t + CELF_t + NSTAF_t + SCAF_t + EA_t + OPRED_t + IC_t$$

where:

Term	Description	Price Base
PTC_t	means the Pass Through Costs for SRAV Calculation Period _t	£ real (Base Year)
BR_t	means the Business Rates incurred by the Licensee during SRAV Calculation Period _t	£ real (Base Year)
RLF_t	means the Regulator Licence Fees incurred by the Licensee during SRAV Calculation Period _t	£ real (Base Year)
$CELF_t$	means the Crown Estate Lease Fees incurred by the Licensee during SRAV Calculation Period _t	£ real (Base Year)
$NSTAF_t$	means the NSTA Fees incurred by the Licensee during SRAV Calculation Period _t	£ real (Base Year)
$SCAF_t$	means the SCA Fee incurred by the Licensee during SRAV Calculation Period _t	£ real (Base Year)
EA_t	means the EA Fees incurred by the Licensee during SRAV Calculation Period _t	£ real (Base Year)
$OPRED_t$	means the OPRED Fees incurred by the Licensee during SRAV Calculation Period _t	£ real (Base Year)
IC_t	means the Independent Certifier Fees incurred by the Licensee during SRAV Calculation Period _t	£ real (Base Year)

Part B: Provision of information

8.7 At each End of Quarter Date during the Construction Period, the Licensee must provide to the Regulator details of:

- (a) the Pass Through Costs incurred by the Licensee in the Quarter ending on such End of Quarter Date in accordance with the RIGs or any Regulator guidance including evidence:
 - (i) to substantiate that the Pass Through Costs incurred were unavoidable; and
 - (ii) that the Pass Through Costs were verified and mitigated by the Licensee to the extent possible; and
- (b) the Licensee's forecast of any Pass Through Costs to be incurred in the current SRAV Calculation Period and all remaining SRAV Calculation Periods in the Construction Period and the Commissioning Period.

- 8.8 The Regulator will, using the information provided by the Licensee under Special Condition F8.7(a), assess any Pass Through Costs incurred by the Licensee in accordance with the Regulator's Cost Guidance. The Regulator will also assess the extent to which any Pass Through Costs incurred by the Licensee were unavoidable, verified and mitigated by the Licensee (to the extent possible). Where the Regulator considers that any Pass Through Costs were not unavoidable, verified and mitigated by the Licensee (to the extent possible), the Regulator may adjust the value of the Pass Through Costs by direction.

Part C: Pass Through Costs Review Procedure

- 8.9 The Licensee must engage with the Relevant Valuation Regulator and use reasonable endeavours to minimise its liabilities in respect of the Business Rates.
- 8.10 The Licensee must engage with any regulators whose fees form part of the calculation of the Pass Through Costs in accordance with Special Condition F8.6 to ensure that invoices are accurate and engage with any relevant charging review to minimise the Licensee's liabilities which are calculated as a part of the Pass Through Costs. The Licensee shall ensure that it engages fully in technical engagement with any regulator whose fees are part of the calculation of the Pass Through Costs in order to minimise these liabilities.
- 8.11 The Regulator may review the Licensee's engagement with the Relevant Valuation Regulator with respect to a revaluation.
- 8.12 If, after reviewing the Licensee's engagement in accordance with Special Condition F8.11 and requesting any Supporting Information required from the Licensee, the Regulator considers that the Licensee has not complied with Special Condition F8.9, the Regulator may adjust the value of the Pass Through Costs for an SRAV Calculation Period by direction.
- 8.13 Before making a direction under Special Condition F8.12 the Regulator will publish on the Regulator's Website:
- (a) the text of the proposed direction;
 - (b) the reasons for the proposed direction; and
 - (c) a period during which representations may be made on the proposed direction, which must not be less than 28 days.

Special Condition F9: Ongoing Devex during the Construction Period

Introduction

- 9.1 The purpose of this special condition is to set out how:
- (a) the Actual Ongoing Devex Costs and any Ongoing Devex Underspend Amounts shall accrue to the SRAV during the Construction Period; and
 - (b) the Ongoing Devex will be calculated for each SRAV Calculation Period during the Construction Period for the purpose of the calculation of the SRAV Additions under Special Condition F4.9 (*SRAV During the Construction Period*).

Structure

- 9.2 This special condition is structured as follows:
- (a) Part A sets out the calculation to determine the Ongoing Devex for each SRAV Calculation Period during the Construction Period;
 - (b) Part B sets out how the Actual Ongoing Devex Costs accrue to the SRAV;
 - (c) Part C sets out how costs will accrue to the SRAV where an Ongoing Devex Underspend has occurred during the Construction Period; and
 - (d) Part D sets out the information required from the Licensee in relation to its Ongoing Devex costs.

Part A: Calculation of Ongoing Devex

- 9.3 The Ongoing Devex for each SRAV Calculation Period during the Construction Period will be calculated in accordance with the following formula:

$$OD_t = AODC_t + ODUAt$$

where:

Term	Description	Price Base
OD _t	means the Ongoing Devex for SRAV Calculation Period _t	£ real (Base Year)
AODC _t	means the Actual Ongoing Devex Costs accrued to the SRAV during SRAV Calculation Period _t in accordance with Special Condition F9.4	£ real (Base Year)
ODUA _t	means any Ongoing Devex Underspend Amount that has accrued to the SRAV during SRAV Calculation Period _t in accordance with Special Condition F9.8	£ real (Base Year)

Part B: Calculation of Actual Ongoing Devex Costs

- 9.4 The Licensee's Actual Ongoing Devex Costs shall accrue to the SRAV in real (Base Year) prices, provided that in the event that Licensee's cumulative Actual Ongoing Devex Costs in relation to the relevant Ongoing Devex Allowance exceeds such Ongoing Devex Allowance, only the Actual Ongoing Devex Costs up to (but not exceeding) such Ongoing Devex Allowance shall accrue to the SRAV.
- 9.5 Subject to Special Condition F9.4, the Licensee's Additional Pre-Licence Award Devex Costs incurred prior to Licence Award shall accrue to the SRAV at Licence Award as Actual Ongoing Devex Costs.

Part C: Ongoing Devex Underspend Amount

- 9.6 In the event that an Ongoing Devex Underspend has occurred during an SRAV Calculation Period in the Construction Period, then the provisions of Special Conditions F9.7 to F9.8 shall apply.
- 9.7 Where there has been an Ongoing Devex Underspend, the Licensee must provide to the Regulator evidence that:
- (a) the activities associated with the relevant Ongoing Devex Allowance have been completed by the Licensee; and
 - (b) the Actual Ongoing Devex Costs incurred by the Licensee in relation to such activities are less than the relevant Ongoing Devex Allowance.
- 9.8 Provided that the Regulator is satisfied that there has been an Ongoing Devex Underspend, then the Ongoing Devex Underspend Amount shall accrue to the SRAV in real (Base Year) prices.

Part D: Provision of information

- 9.9 At each End of Quarter Date during the Construction Period, the Licensee must provide to the Regulator details of:
- (a) the Actual Ongoing Devex Costs incurred by the Licensee;
 - (b) any relevant Ongoing Devex Allowance, with reference to the amount of Actual Ongoing Devex Costs incurred by the Licensee against such allowances;
 - (c) any Excluded Project Spend incurred by the Licensee;
 - (d) the Licensee's forecast Actual Ongoing Devex Costs to be incurred in the current SRAV Calculation Period and all remaining SRAV Calculation Periods in the Construction Period and the Commissioning Period;
 - (e) any updates to any values provided by the Licensee in accordance with Special Condition E2.2(e) (*Interpretation*); and

- (f) any other information required relating to Ongoing Devex pursuant to the RIGs or any Regulator guidance.

9.10 For the avoidance of doubt, where the Licensee's Actual Ongoing Devex Costs incurred are in excess of any relevant Ongoing Devex Allowance, the Licensee shall still be required to provide details of such Actual Ongoing Devex Costs in accordance with Special Condition F9.9.

Special Condition F10 Debt Fees during the Construction Period

Introduction

10.1 The purpose of this special condition is to set out how the Actual Debt Fee Costs will be calculated and accrue to the SRAV for each SRAV Calculation Period during the Construction Period.

Structure

10.2 This special condition is structured as follows:

- (a) Part A sets out the calculation of the Debt Fees for each SRAV Calculation Period during the Construction Period;
- (b) Part B sets out the how the Actual Debt Fee Costs shall accrue to the SRAV; and
- (c) Part C sets out certain information that must be provided by the Licensee in relation to its Actual Debt Fee Costs.

Part A: Calculation of Debt Fees

10.3 The Debt Fees for each SRAV Calculation Period during the Construction Period will be calculated in accordance with the following formula:

$$DF_t = ADF_t$$

where:

Term	Description	Price Base
DF_t	means the Debt Fees for SRAV Calculation Period _t	£ real (Base Year)
ADF_t	means the Actual Debt Fee Costs accrued to the SRAV during SRAV Calculation Period _t in accordance with Special Conditions F10.4 to F10.6	£ real (Base Year)

Part B: Actual Debt Fee Costs

10.4 Subject to Special Condition F10.6, the Licensee's Actual Debt Fee Costs shall accrue to the SRAV in real (Base Year) prices, provided that in the event that the Licensee's cumulative Actual Debt Fee Costs exceed the Debt Fee Allowance, only the Actual Debt Fee Costs up to (but not exceeding) the Debt Fee Allowance shall accrue to the SRAV.

10.5 To give effect to limb (c) of the definition of Actual Debt Fee Costs and limb (b) of the definition of Excluded Project Spend, any fees incurred by the Licensee in respect of the facilities listed as "Adjustment for Notional Gearing" in the column entitled "Full Reimbursement or Prorating of Fees" in Part A of Schedule 8 shall be pro-rated in accordance with the methodology set out in the column entitled "Full Reimbursement or

Prorating of Fees" in Part A of Schedule 8, and only such pro-rated fees shall accrue to the SRAV as Actual Debt Fee Costs.

- 10.6 In the event that the Licensee incurs Actual Debt Fee Costs in respect of the facilities set out in Part B (*Facilities capable of Debt Fee Allowance adjustment*) of Schedule 8 (*Licensee debt facilities*) which are in excess of the Debt Fee Allowance, then the Regulator shall determine an adjustment to the Debt Fee Allowance to reflect such Actual Debt Fee Costs incurred in excess of the Debt Fee Allowance and will make amendments to update the Financial Settlement Document to reflect such adjustment.

Part C: Provision of information

- 10.7 At each End of Quarter Date during the Construction Period, the Licensee must provide to the Regulator details of:
- (a) the Actual Debt Fee Costs incurred by the Licensee;
 - (b) any Excluded Project Spend incurred by the Licensee;
 - (c) the Licensee's forecasted Actual Debt Fee Costs for the current SRAV Calculation Period and all remaining SRAV Calculation Periods in the Construction Period and Commissioning Periods;
 - (d) any updates to any values provided by the Licensee in accordance with Special Condition E2.2(e) (*Interpretation*); and
 - (e) any other information required relating to the Debt Fees pursuant to the RIGs or any Regulator guidance.

Special Condition F11 Disposals during the Construction Period

Introduction

11.1 This special condition sets out how the Regulator will determine any adjustments to the SRAV in respect of any permitted Disposals of T&S Assets.

Calculation of SRAV Adjustment

11.2 Where there is a Disposal of a T&S Asset which is permitted under Standard Condition B8 (*Disposals*), the Licensee must provide to the Regulator details of:

- (a) the actual sale value of the T&S Asset subject to a permitted Disposal;
- (b) the value ascribed to such T&S Asset in the SRAV; and
- (c) any further information in relation to such Disposal as is required by the Regulator.

11.3 Following receipt of the information required pursuant to Special Condition F11.2, the Regulator will determine an adjustment to the SRAV to reflect the impact on the SRAV of the Disposal of such T&S Asset and will make any required amendments to update the APDP to reflect such disposal.

Special Condition F12: Return During Construction

Introduction

- 12.1 The purpose of this special condition is to set out how the Return During Construction is to:
- (a) be calculated for each SRAV Calculation Period during the Construction Period; and
 - (b) accrue to the SRAV.

Structure

- 12.2 This special condition is structured as follows:
- (a) Part A sets out the calculation of the Return During Construction for each SRAV Calculation Period; and
 - (b) Part B explains how the Return During Construction will accrue to the SRAV.

Part A: Calculation of Return During Construction

- 12.3 The Return During Construction for the first SRAV Calculation Period during the Construction Period other than where the first SRAV Calculation Period during the Construction Period is a part year, will be calculated in accordance with the following formula:

$$RDC_t = PreCODWACC_t \times \left(Day1SRAV + \frac{SRA_t}{2 + PreCODWACC} \right)$$

where:

Term	Description	Price Base
RDC_t	means the Return During Construction for SRAV Calculation Period _t	£ real (Base Year)
$PreCODWACC_t$	means the PreCOD WACC for SRAV Calculation Period _t	N/A
Day1SRAV	means the Day1 SRAV	£ real (Base Year)
SRA_t	means the SRAV Additions for SRAV Calculation Period _t calculated in accordance with Special Condition F4.9 (<i>SRAV During the Construction Period</i>)	£ real (Base Year)

- 12.4 The Return During Construction for the first SRAV Calculation Period during the Construction Period where such SRAV Calculation Period is a part year will be calculated in accordance with the following formula:

$$RDC_t = ((1 + PreCODWACC_t)^{Partial\ Period\ Share} - 1) \times (Day1SRAV + \frac{SRA_t}{2 + ((1 + PreCODWACC_t)^{Partial\ Period\ Share} - 1)})$$

where:

Term	Description	Price Base
RDC _t	means the Return During Construction for SRAV Calculation Period _t	£ real (Base Year)
PreCOD WACC _t	means the PreCOD WACC for SRAV Calculation Period _t	N/A
Partial Period Share	means the share of the partial period in SRAV Calculation Period _t and which is calculated by dividing the number of days in the partial period by the number of days that there would have been in SRAV Calculation Period _t had SRAV Calculation Period _t not been a part year	N/A
Day1SRAV	means the Day1 SRAV	£ real (Base Year)
SRA _t	means the SRAV Additions for SRAV Calculation Period _t calculated in accordance with Special Condition F4.9 (<i>SRAV During the Construction Period</i>)	£ real (Base Year)

- 12.5 The Return During Construction for each SRAV Calculation Period during the Construction Period other than:

- (a) the first SRAV Calculation Period during the Construction Period; and
- (b) any SRAV Calculation Period during the Construction Period which is a part year,

will be calculated in accordance with the following formula:

$$RDC_t = PreCODWACC_t \times (CSRAV_{t-1} + \frac{SRA_t}{2 + PreCODWACC_t})$$

where:

Term	Description	Price Base
RDC _t	means the Return During Construction for SRAV Calculation Period _t	£ real (Base Year)
PreCOD WACC _t	means the PreCOD WACC for SRAV Calculation Period _t	N/A
CSRAV _{t-1}	means the Closing SRAV for SRAV Calculation Period _{t-1}	£ real (Base Year)

Term	Description	Price Base
SRA _t	means the SRAV Additions for SRAV Calculation Period _t calculated in accordance with Special Condition F4.9 (<i>SRAV During the Construction Period</i>)	£ real (Base Year)

- 12.6 The Return During Construction for each SRAV Calculation Period during the Construction Period which is a part year, other than the first SRAV Calculation Period during the Construction Period, will be calculated in accordance with the following formula:

$$RDC_t = ((1 + PreCODWACC_t)^{Partial\ Period\ Share} - 1) \times (CSRAV_{t-1} + \frac{SRA_t}{2 + ((1 + PreCODWACC_t)^{Partial\ Period\ Share} - 1)})$$

where:

Term	Description	Price Base
RDC _t	means the Return During Construction for SRAV Calculation Period _t	£ real (Base Year)
PreCOD WACC _t	means the PreCOD WACC for SRAV Calculation Period _t	N/A
Partial Period Share	means the share of the partial period in SRAV Calculation Period _t and which is calculated by dividing the number of days in the partial period by the number of days that there would have been in SRAV Calculation Period _t had SRAV Calculation Period _t not been a part year	N/A
CSRAV _{t-1}	means the Closing SRAV for SRAV Calculation Period _{t-1}	£ real (Base Year)
SRA _t	means the SRAV Additions for SRAV Calculation Period _t calculated in accordance with Special Condition F4.9 (<i>SRAV During the Construction Period</i>)	£ real (Base Year)

- 12.7 In the event that the SRAV Additions for an SRAV Calculation Period include material cost items that have not been incurred by the Licensee evenly over the relevant SRAV Calculation Period and the Regulator considers that this will result in a material impact on the calculation of the Return During Construction for such SRAV Calculation Period, the Regulator will have the right to determine an adjustment (which may be positive or negative) to the Return During Construction for such SRAV Calculation Period to account for the impact of such material cost item having not been incurred evenly over such SRAV Calculation Period.

- 12.8 In accordance with Special Condition F4.5 (*SRAV During the Construction Period*), any values used in the calculation of the Return During Construction which have been provided by the Licensee on a provisional basis must be updated by the Licensee in the next SRAV Calculation Period and such updates will be subject to a reconciliation by the Regulator in accordance with Special Condition F4.5 (*SRAV During the Construction Period*).

Part B: Accrual of Return During Construction

- 12.9 The Return During Construction calculated in accordance with Special Conditions F12.3 to F12.6 as relevant shall accrue to the SRAV.

Section G: Commissioning Period conditions

Reference	Subject matter	Page
Special Condition G1	Commissioning Period	256
Special Condition G2	Obligation to achieve System Acceptance	257
Special Condition G3	COD Readiness	262
Special Condition G4	First User Delay	265
Special Condition G5	Longstop Date	270
Special Condition G6	System Acceptance/Commercial Operations Date	273
Special Condition G7	SRAV During the Commissioning Period	275
Special Condition G8	Re-use Assets Valuation	278
Special Condition G9	SRAV Capex and Opex during the Commissioning Period	279
Special Condition G10	SRAV Capex and Opex Incentive during the Commissioning Period	281
Special Condition G11	Pass Through Costs during the Commissioning Period	283
Special Condition G12	Ongoing Devex during the Commissioning Period	287
Special Condition G13	Debt Fees during the Commissioning Period	290
Special Condition G14	Disposals during the Commissioning Period	292
Special Condition G15	Return During Commissioning	293
Special Condition G16	Post Construction Review	295

Special Condition G1: Commissioning Period

- 1.1 The special conditions in this Section G set out the provisions that apply in respect of the Commissioning Activities and in respect of and during the Commissioning Period.
- 1.2 The Licensee must also comply with the special conditions set out in Section J (*Overarching Special Conditions*) where relevant.

Special Condition G2: Obligation to achieve System Acceptance

Introduction

2.1 The purpose of this special condition is to set out the Licensee's obligations in relation to achieving System Acceptance.

Structure

2.2 This special condition is structured as follows:

- (a) Part A sets out the Licensee's obligation to achieve completion of the Commissioning Activities;
- (b) Part B requires the Licensee to provide monthly updates to the Regulator in respect of the Commissioning Activities;
- (c) Part C requires the Licensee to notify the Regulator if the Licensee is reasonably likely to fail to achieve System Acceptance by (i) the Scheduled COD; and/or (ii) the Longstop Date;
- (d) Part D requires the Licensee to notify the Regulator where the Licensee has failed to achieve System Acceptance by (i) the Scheduled COD; or (ii) the Longstop Date; and
- (e) Part E sets out the conditions which apply where certain of the Commissioning Activities will not or cannot be completed on-time.

Part A: Obligation to achieve completion of the Commissioning Activities

2.3 The Licensee must:

- (a) finance and complete the Commissioning Activities; and
- (b) in doing so, use reasonable endeavours to achieve the System Acceptance by the Scheduled COD; and in any event, achieve System Acceptance by the Longstop Date.

Part B: Provision of monthly updates in respect of the Commissioning Activities

2.4 The Licensee must provide updates to the Regulator in the form approved by the Regulator setting out the Licensee's progress in respect of the Commissioning Activities in each Commissioning Month in relation to the Project Programme, which update shall:

- (a) include:
 - (i) progress in relation to the Project Programme; and
 - (ii) details of the Licensee's forecasted spend against the relevant construction and commissioning budget including up-to date details of all funding sources; and

- (b) in each case be provided no later than five Business Days following the expiry of the relevant Commissioning Month.

Part C: Notification of likely failure to achieve System Acceptance by (i) the Scheduled COD; or (ii) the Longstop Date

2.5 The Licensee must notify the Regulator as soon as reasonably practicable after the Licensee becomes aware that it is reasonably likely to fail to achieve System Acceptance by:

- (a) the Scheduled COD; and/or
- (b) the Longstop Date.

2.6 A notice issued by the Licensee to the Regulator under Special Condition G2.5 must give particulars of:

- (a) the event(s) and/or circumstance(s) leading to such likely failure;
- (b) the reasons behind such event(s) and/or circumstance(s);
- (c) the actions that the Licensee has implemented, and/or will implement, to avoid such likely failure;
- (d) the forecast impact of such likely failure, including:
 - (i) the impact on any third parties, including Users, Future Users and any potential Users;
 - (ii) the impact on the Licensee's financing arrangements; and
 - (iii) the length of any delay to the Commercial Operations Date resulting from such likely failure and how such potential delay has been calculated,

in each case as reasonably expected by the Licensee based on the information available to the Licensee at the time; and

- (e) the actions that the Licensee proposes to implement to mitigate the impact of any such likely failure and any potential resulting delay.

Part D: Notification of failure to achieve System Acceptance by (i) the Scheduled COD; or (ii) the Longstop Date

2.7 The Licensee must promptly notify the Regulator where the Licensee fails to achieve System Acceptance by:

- (a) the Scheduled COD; and/or
- (b) the Longstop Date.

2.8 A notice issued by the Licensee to the Regulator under Special Condition G2.7 must give particulars of:

- (a) the event(s) and/or circumstance(s) leading to such failure;

- (b) the reasons behind such event(s) and/or circumstance(s);
- (c) the actions that the Licensee implemented to attempt to avoid such failure;
- (d) the forecast impact of such failure, including:
 - (i) the impact on any third parties, including Users, Future Users and any potential Users;
 - (ii) the impact on the Licensee's financing arrangements; and
 - (iii) the length of any delay to the Commercial Operations Date resulting from such failure,in each case as reasonably expected by the Licensee based on the information available to the Licensee at the time; and
- (e) the actions that the Licensee proposes to implement to mitigate the impact of any such failure and any resulting delay.

Part E: Deferral of part(s) of the Commissioning Activities where the Licensee is unable to complete them by the date of completion of the rest of the Commissioning Activities

2.9 The Licensee must notify the Regulator if the Licensee considers that:

- (a) it is not, or will not be, able to complete any part of the Commissioning Activities without causing undue delay to System Acceptance; and/or
- (b) taking into consideration all relevant circumstances and acting in accordance with Good Industry Practice, it is not, or would not, be economic, efficient and effective to complete any part of the Commissioning Activities,

(in each case such Commissioning Activities, once notified, being the "**Notified Commissioning Activities**"), prior to, or by no later than, the date of completion of the Commissioning Activities other than the Notified Commissioning Activities.

2.10 A notice issued by the Licensee to the Regulator under Special Condition G2.9 must give particulars of:

- (a) any investigations and additional works undertaken to try to complete the Notified Commissioning Activities prior to, or by no later than, the date of completion of the Commissioning Activities other than the Notified Commissioning Activities;
- (b) the root cause analysis detailing why the Notified Commissioning Activities cannot or will not be completed prior to, or by no later than, the date of completion of the Commissioning Activities other than the Notified Commissioning Activities and/or where Special Condition G2.9(b) applies, a detailed justification, together with relevant Supporting Information, as to why the Licensee considers that it is not, or would not, be economic, efficient and effective to complete any part of the Notified Commissioning Activities prior to, or by no later than, the date of completion of the Commissioning Activities other than the Notified Commissioning Activities;

- (c) the forecast impact of not completing the Notified Commissioning Activities prior to, or by no later than, the date of completion of the Commissioning Activities other than the Notified Commissioning Activities, including any impact on:
 - (i) any third parties, including Users, Future Users and any potential Users, including, where relevant, a confirmation that any Users that are scheduled to connect to the T&S Network in the six-month period immediately following the notice, or Scheduled COD, whichever is later, will not be impacted by the non-completion of the Notified Commissioning Activities prior to, or by no later than, the date of completion of the Commissioning Activities other than the Notified Commissioning Activities;
 - (ii) the Licensee's ability to carry out other Commissioning Activities; and
 - (iii) any potential delay to the Commercial Operations Date;
- (d) the Licensee's proposed approach to mitigating the impact of non-completion of the Notified Commissioning Activities prior to, or by no later than, the date of completion of the Commissioning Activities other than the Notified Commissioning Activities; and
- (e) such other Supporting Information that the Regulator has notified the Licensee that the Regulator requires.

2.11 Where Special Condition G2.9 applies the Regulator will review and consider the notice issued by the Licensee to the Regulator under Special Condition G2.9 and may:

- (a) determine that all of the Notified Commissioning Activities shall be removed from the Commissioning Activities and completed in the Operational Period as part of the Phase 2 Activities;
- (b) determine that part of the Notified Commissioning Activities shall be removed from the Commissioning Activities and completed in the Operational Period as part of the Phase 2 Activities; or
- (c) determine that none of the Notified Commissioning Activities shall be removed from the Commissioning Activities and completed in the Operational Period as part of the Phase 2 Activities.

2.12 As part of any agreement or determination made by the Regulator in respect of Deferred Commissioning Activities under Special Condition G2.11, the Regulator will:

- (a) impose such conditions as the Regulator considers appropriate, in the context of the deferral of the Deferred Commissioning Activities from the Commissioning Period into the Operational Period and make amendments to update the APDP to reflect such conditions;
- (b) determine adjustments (if any) to the SRAV Capex and Opex Commissioning Period Allowance, the Ongoing Capex Allowance and the Opex Allowance to reflect the deferral of the Deferred Commissioning Activities from the Commissioning Period into

the Operational Period and make amendments to update the Financial Settlement Document to reflect any such adjustments; and

- (c) make amendments to update:
 - (i) the Technical Details Document to include one or more Scheduled Phase 2 Handover Dates and Scheduled Phase 2 Acceptance Dates (as may be applicable) in respect of the Deferred Commissioning Activities; and
 - (ii) the APDP to remove the Deferred Commissioning Activities from the definition of "Commissioning Activities" and include them as a Phase 2 Tranche (or as Phase 2 Tranches as appropriate) and include any associated testing and certification requirements (and "**Commissioning Activities**", and "**Phase 2 Activities**" shall thereafter be construed accordingly for the purposes of this licence).

2.13 The Licensee must provide such assistance and such Supporting Information as the Regulator may require in connection with any Deferred Commissioning Activities and/or Special Condition G2.11.

Special Condition G3: COD Readiness

Introduction

- 3.1 The purpose of this special condition is to set out the provisions that apply in relation to COD Readiness and COD Readiness Activities.

Structure

- 3.2 This special condition is structured as follows:
- (a) Part A sets out the conditions which apply where certain of the COD Readiness Activities will not or cannot be completed on-time; and
 - (b) Part B sets out the procedure for achieving COD Readiness.

Part A: Deferral of part(s) of the COD Readiness Activities where the Licensee is unable to complete them for the purposes of COD Readiness

- 3.3 The Licensee must notify the Regulator if the Licensee considers that:
- (a) it is not, or will not be, able to complete any part of the COD Readiness Activities for the purpose of achieving COD Readiness; and/or
 - (b) taking into consideration all relevant circumstances and acting in accordance with Good Industry Practice, it is not, or would not, be economic, efficient and effective to complete any part of the COD Readiness Activities for the purpose of achieving COD Readiness,

in each case such COD Readiness Activities, once notified, being the **"Notified COD Readiness Activities"**.

- 3.4 A notice issued by the Licensee to the Regulator under Special Condition G3.3 must give particulars of:
- (a) any investigations and additional works undertaken by the Licensee to try to complete the Notified COD Readiness Activities for the purpose of achieving COD Readiness;
 - (b) the root cause analysis detailing why the Notified COD Readiness Activities cannot be completed for the purpose of achieving COD Readiness;
 - (c) the forecast impact of not completing the Notified COD Readiness Activities for the purpose of achieving COD Readiness, including any impact on the Licensee's ability to carry out other COD Readiness Activities and/or Commissioning Activities and any potential delay to the Commercial Operations Date;
 - (d) where Special Condition G3.3(b) applies, a detailed justification, together with relevant Supporting Information, as to why the Licensee considers that it is not, or would not, be economic, efficient and effective to complete the Notified COD Readiness Activities for the purpose of achieving COD Readiness;

- (e) the Licensee's proposed approach to mitigating the impact of non-completion of the Notified COD Readiness Activities for the purpose of achieving COD Readiness; and
- (f) such other Supporting Information that the Regulator notifies the Licensee that the Regulator requires.

3.5 Where Special Condition G3.3 applies the Regulator will review and consider the notice issued by the Licensee to the Regulator under Special Condition G3.3 and may:

- (a) determine that all of the Notified COD Readiness Activities are removed from the COD Readiness Activities for the purpose of achieving COD Readiness;
- (b) determine that part of Notified COD Readiness Activities are removed from the COD Readiness Activities for the purpose of achieving COD Readiness; or
- (c) determine that none of the Notified COD Readiness Activities shall be removed from the COD Readiness Activities for the purpose of achieving COD Readiness.

3.6 As part of any agreement or determination in respect of Removed COD Readiness Activities under Special Condition G3.5, the Regulator will:

- (a) impose such conditions as the Regulator considers appropriate in the context of the removal of the Removed COD Readiness Activities from the COD Readiness Activities for the purpose of achieving COD Readiness and make amendments to update the APDP to reflect such conditions;
- (b) confirm that such Removed COD Readiness Activities continue to form part of the Commissioning Activities; and
- (c) make amendments to update the APDP to remove the relevant Removed COD Readiness Activities from the definition of "**COD Readiness Activities**" (and the term "**COD Readiness Activities**" shall thereafter be construed accordingly for the purposes of this licence).

3.7 The Licensee must provide such assistance and such Supporting Information to the Regulator as the Regulator may require in connection with any Removed COD Readiness Activities and/or Special Condition G3.5.

Part B: Achievement of COD Readiness

3.8 Where the Licensee wishes to achieve COD Readiness for the purposes of Special Condition G4 (*First User Delay*), the Licensee must provide to the Regulator:

- (a) a certified copy of the COD Readiness Certificate, which may be issued by the Independent Certifier notwithstanding that there are applicable COD Readiness Punchlist Items; and
- (b) any further Supporting Information that the Regulator has notified the Licensee that it requires in respect of the completion of the COD Readiness Activities.

- 3.9 Within 20 Business Days of receipt of the information in respect of the completion of the COD Readiness Activities under Special Condition G3.8 in respect of the completion of the COD Readiness Activities, the Regulator will consider such information and will:
- (a) determine:
 - (i) that the COD Readiness Activities are complete (notwithstanding that there may be applicable COD Readiness Punchlist Items);
 - (ii) that COD Readiness has been achieved; and
 - (iii) the date on which the COD Readiness was achieved, being the date on which the Licensee provided all Supporting Information (including the certified copy of the COD Readiness Certificate) in respect of the completion of the COD Readiness Activities required by the Regulator in accordance with Special Condition G3.8; or
 - (b) determine that:
 - (i) the COD Readiness Activities are not complete; and
 - (ii) COD Readiness has not been achieved; or
 - (c) require further Supporting Information from the Licensee to determine whether the COD Readiness Activities have been completed; and/or
 - (d) otherwise inform the Licensee that it requires additional time to consider whether the COD Readiness Activities have been completed.

3.10 Where the Regulator:

- (a) determines under Special Condition G3.9(b) that the COD Readiness Activities are not complete, the Licensee must:
 - (i) complete any outstanding COD Readiness Activities; and
 - (ii) refer the matter back to the relevant Independent Certifier,and the procedures in Special Conditions G3.8 and G3.9 shall be repeated; or
- (b) requires further Supporting Information from the Licensee under Special Condition G3.9(c), the Licensee must provide such Supporting Information to the Regulator as soon as reasonably practicable and the procedure in Special Condition G3.9 shall be repeated,

in each case until the Regulator determines to the Licensee that the COD Readiness Activities are complete and COD Readiness has been achieved.

Special Condition G4: First User Delay

Introduction

4.1 The purpose of this special condition is to set out the provisions that apply in relation to an Event of First User Delay.

Structure

4.2 This special condition is structured as follows:

- (a) Part A sets out the Licensee's obligations and options in circumstances where one or more First User(s) is causing delay to the COD beyond the Scheduled COD;
- (b) Part B sets out the process for determination of the occurrence of an Event of First User Delay;
- (c) Part C sets out the process for calculation of the Proposed Revised Scheduled COD;
- (d) Part D sets out the process for determination of the Proposed Revised Scheduled COD;
- (e) Part E provides for the Regulator to determine certain amounts relating to Events of First User Delays; and
- (f) Part F sets out a process for the Regulator to determine an adjustment to the SRAV to take account of any payments made to the Licensee pursuant to the Revenue Support Agreement in respect of an Event of First User Delay.

Part A: Delay Notice

4.3 Where the Licensee:

- (a) has achieved COD Readiness; and
- (b) reasonably believes that one or more First User is causing, or shall cause, delay to the COD beyond the Scheduled COD, the Licensee:
 - (i) must use reasonable endeavours to mitigate the impact of the action or inaction of such First User(s); and
 - (ii) may provide to the Regulator a relevant Delay Notice or (as the case may be) a copy of the relevant Delay Notice(s).

Part B: Regulator consideration of Delay Notice

- 4.4 Following receipt of a copy of a Delay Notice (or Delay Notices) from the Licensee, the Regulator will, having considered the circumstances of the relevant delay as detailed in the Delay Notice(s) provided by the Licensee under Special Condition G4.3(b):
- (a) determine that it is satisfied that the delay to the COD is, or will be, caused by one or more First User, in which case, the Regulator will determine:
 - (i) that an **"Event of First User Delay"** has occurred;
 - (ii) the date on which such Event of First User Delay occurred; and
 - (iii) the period of delay caused by the Event of First User Delay; or
 - (b) determine that the delay is, or was, not caused by one or more First User; or
 - (c) require further Supporting Information from the Licensee to determine whether the delay is, or was, caused by one or more First User.
- 4.5 Where the Regulator requires further Supporting Information from the Licensee under Special Condition G4.4(c), the Licensee must provide such Supporting Information to the Regulator as soon as reasonably practicable and the procedure in Special Condition G4.4 shall be repeated until the Regulator determines that either:
- (a) the delay is, or was, caused by one or more First User; or
 - (b) the delay is, or was, not caused by one or more First User.

Part C: Calculation of Proposed Revised Scheduled COD

- 4.6 Where the Regulator has determined that an Event of First User Delay has occurred pursuant to Special Condition G4.4(a), promptly following a notification by the Licensee under Special Condition G4.3 regarding a consequent delay to the Scheduled COD, the Licensee must calculate the date on which the Licensee anticipates the delayed Commercial Operations Date shall occur (a **"Proposed Revised Scheduled COD"**).
- 4.7 When calculating a Proposed Revised Scheduled COD, the Licensee must:
- (a) act reasonably and in accordance with Good Industry Practice;
 - (b) take into account all relevant circumstances, including the need to mitigate delay and/or the impact of delay on the Commissioning Activities; and
 - (c) act in a transparent and proportionate manner.

Part D: Extension to the Scheduled COD

- 4.8 Where Special Conditions G2.5 (*Obligation to achieve System Acceptance*), G4.6 and G4.7 apply:
- (a) the Licensee must promptly notify the Regulator of the relevant Proposed Revised Scheduled COD and must provide to the Regulator upon request satisfactory Supporting Information that, when calculating such Proposed Revised Scheduled COD, the Licensee complied with the requirements of Special Condition G4.7;
 - (b) following receipt of the notice referred to in Special Condition G4.8(a), the Regulator will consider the relevant Proposed Revised Scheduled COD, together with any Supporting Information provided by the Licensee in respect of the calculation of such date, and will:
 - (i) determine that such Proposed Revised Scheduled COD is accepted and, for the purposes of these licence conditions, shall apply by way of extension to the Scheduled COD; or
 - (ii) determine that such Proposed Revised Scheduled COD is not accepted; or
 - (iii) require further Supporting Information from the Licensee in respect of such Proposed Revised Scheduled COD and its calculation; and
 - (c) where the Regulator:
 - (i) determines under Special Condition G4.8(b)(ii) that a Proposed Revised Scheduled COD is not accepted, the Licensee must revisit its calculation of the relevant Proposed Revised Scheduled COD and the procedures in Special Conditions G4.8(a) and G4.8(b) shall be repeated; or
 - (ii) requires further Supporting Information from the Licensee under Special Condition G4.8(b)(iii), the Licensee must provide such Supporting Information to the Regulator as soon as reasonably practicable and the procedure in Special Condition G4.8(b) shall be repeated; and
 - (d) where, following the proposal of a revised Proposed Revised Scheduled COD pursuant to Special Condition G4.8(c)(i), the Regulator determines under Special Condition G4.8(b)(ii) that the revised Proposed Revised Scheduled COD is not accepted, the Regulator will determine the date which shall instead apply by way of extension to the Scheduled COD for the purposes of these licence conditions.

Part E: Regulator determination of First User Delay amounts

- 4.9 Where the Regulator has determined that an Event of First User Delay has occurred pursuant to Special Condition G4.4(a), the Regulator will determine the Allowed Unavoidable Opex.

- 4.10 Within ten Business Days following the end of, as applicable:
- (a) each relevant SRAV Calculation Period during which an Event of First User Delay is continuing; or
 - (b) the SRAV Calculation Period within which the Event of First User Delay has ceased,
- the Licensee must provide to the Regulator:
- (i) the Difference Payment Calculations and all Difference Payment Information that the Licensee has submitted to the RSA Counterparty for First User Delay Difference Payments pursuant to the Revenue Support Agreement, including a breakdown of:
 - (A) any amounts incurred by the Licensee in respect of:
 - (aa) Allowed Unavoidable Opex in nominal terms and any other costs incurred by the Licensee that the Licensee considers to be Unavoidable Opex;
 - (bb) Allowed Cost of Debt;
 - (cc) Allowed Cost of Equity; and
 - (dd) Allowed Cost of Depreciation; and
 - (B) any adjustment in respect of a previous First User Delay Difference Payment Reconciliation Amount owed to the Licensee,
- in respect of the relevant SRAV Calculation Period to which the Difference Payment Calculations relate; and
- (c) any further information reasonably required by the Regulator from the Licensee to enable the Regulator to determine the amounts referred to in Special Condition G4.10.

- 4.11 Following receipt of the information from the Licensee in accordance with Special Condition G4.10, the Regulator will determine the amounts referred to in Special Condition G4.10 in respect of the relevant SRAV Calculation Period and such amount shall form part of the Licensee's evidence of Regulator determination for the relevant First User Delay Difference Payment Reconciliation Amount under the Revenue Support Agreement.

Part F: Adjustment to SRAV in respect of Event of First User Delay

- 4.12 In the event that:
- (a) the Licensee is entitled to a payment in respect of an Event of First User Delay under the Revenue Support Agreement, either pursuant to any First User Delay Difference Payment, First User Delay Difference Payment Reconciliation Amount or as part of any Final Reconciliation Difference Payment; or

- (b) where there is a negative First User Delay Difference Payment Reconciliation Amount owed to the Licensee under the Revenue Support Agreement,

the Regulator will determine an adjustment to the SRAV as part of the Post Commissioning Review such that the Licensee is not entitled to any double recovery of any amounts covered by the payments in respect of an Event of First User Delay under the Revenue Support Agreement under this licence.

Special Condition G5: Longstop Date

Introduction

- 5.1 The purpose of this special condition is to set out the provisions that apply in relation to the Licensee's obligations to achieve System Acceptance by the Longstop Date and any extensions to the Longstop Date.

Structure

- 5.2 This special condition is structured as follows:
- (a) Part A sets out the circumstances in which the Licensee's obligations under Special Condition G5.4 shall apply;
 - (b) Part B sets out the Licensee's obligations to produce a remedial plan;
 - (c) Part C sets out the Licensee's obligations to take account of the Regulator's comments and produce a revised remedial plan;
 - (d) Part D provides for the extension of the Longstop Date in certain circumstances; and
 - (e) Part E requires the Licensee to provide updates to the Regulator on its implementation of any remedial plan.

Part A: Failure to achieve System Acceptance by the Longstop Date

- 5.3 Special Condition G5.4 shall apply where:
- (a) the Licensee notifies the Regulator under Special Condition G2.5 (*Obligation to achieve System Acceptance*) that it is reasonably likely to fail to achieve System Acceptance by the Longstop Date; and/or
 - (b) where a notice has not been issued to the Regulator under Special Condition G2.6 (*Obligation to achieve System Acceptance*), but the Licensee nevertheless fails to achieve System Acceptance by the Longstop Date.

Part B: Remedial plan

- 5.4 In the circumstances set out in Special Condition G5.3, the Licensee must provide to the Regulator a remedial plan which complies with the requirements of Special Condition G5.5, such plan to be provided as soon as reasonably practicable, and, unless otherwise agreed by the Regulator, in any event within 40 Business Days following the earlier of the date of:
- (a) the notice issued by the Licensee under Special Condition G2.5 (*Obligation to achieve System Acceptance*); and
 - (b) the Licensee's failure to achieve System Acceptance by the Longstop Date.

- 5.5 During the period in which the Licensee is developing the remedial plan in accordance with Special Condition G5.4, the Licensee must provide updates to the Regulator in such form and at any such times as the Regulator may require.
- 5.6 The remedial plan provided by the Licensee under Special Condition G5.4 must set out:
- (a) details of the steps which the Licensee intends to take to address the cause(s) of delay to the Commercial Operations Date and to achieve System Acceptance;
 - (b) details of any other potential mitigations that were considered and the reasons why they were not adopted;
 - (c) an assessment of the costs and benefit of taking the planned and potential mitigation actions referred to in Special Conditions G5.6(a) and (b); and
 - (d) any planned adjustments required to implement the mitigation and the corresponding impact, as relevant.

Part C: Revised remedial plan

- 5.7 The Regulator shall be entitled to raise comments on any proposed remedial plan provided by the Licensee under Special Condition G5.4 and the Licensee must, as soon as reasonably practicable following receipt of any such comments:
- (a) take account of the comments; and
 - (b) to the extent the Licensee considers appropriate (having taken into account the relevant comments), amend the remedial plan and issue a revised remedial plan to the Regulator.
- 5.8 Where the Licensee has issued a revised remedial plan under Special Condition G5.7, the Regulator will review the revised remedial plan and either confirm that its comments have been addressed or identify any of its comments which have not been addressed.
- 5.9 Where the Regulator identifies that any of its comments have not been addressed in a revised remedial plan (including where no revised remedial plan is issued under Special Condition G5.7), the Licensee must issue a further revised remedial plan which addresses such comments and/or set out in writing an explanation as to why it has not addressed any such comments.
- 5.10 The Licensee must use reasonable endeavours to implement and comply with any remedial plan issued in accordance with Special Condition G5.4 (as may be revised in accordance with Special Conditions G5.7 and G5.11) so as to achieve the System Acceptance by the date proposed in the relevant remedial plan.

Part D: Extension to the Longstop Date

- 5.11 The Longstop Date will be extended by such additional time as the Licensee requires to achieve System Acceptance as set out in its remedial plan issued in accordance with Special Condition G5.4 (as revised in accordance with Special Conditions G5.7 to G5.11), provided that the extension shall be a maximum of 12 months from the original Longstop Date (as such date may have been extended pursuant to the conditions of this licence other than this Special Condition G5) without any extension pursuant to this Special Condition G5.

Part E: Implementation of remedial plan

- 5.12 The Licensee must provide updates to the Regulator regarding its implementation of the remedial plan issued in accordance with Special Condition G5.4 (as revised in accordance with Special Conditions G5.7 to G5.11) on a quarterly basis and at such other times as the Regulator may reasonably direct, such updates to include:
- (a) progress in relation to the proposed programme of works and/or activities included within the remedial plan; and
 - (b) details of spend so far as against the relevant budget, including up-to-date details of all funding sources.

Special Condition G6: System Acceptance/Commercial Operations Date

Introduction

- 6.1 The purpose of this special condition is to set out the Licensee's obligations in relation to the completion of the Commissioning Activities and achievement of System Acceptance.

Structure

- 6.2 This special condition is structured as follows:
- (a) Part A requires the Licensee to notify the Regulator of the date of anticipated completion of the Commissioning Activities; and
 - (b) Part B sets out the procedure for achieving System Acceptance.

Part A: Notification of date of anticipated completion of the Commissioning Activities

- 6.3 The Licensee must give the Regulator no less than 25 Business Days' notice of the date that it anticipates the Commissioning Activities will be completed, together with the Supporting Information available at that time to substantiate the completion of any of the Commissioning Activities.
- 6.4 In the event that the date notified to the Regulator under Special Condition G6.3 changes following the date of notification, the Licensee must give the Regulator notice of the revised date of anticipated completion as soon as reasonably practicable following the change.

Part B: Completion of the Commissioning Activities and achievement of System Acceptance

- 6.5 As soon as reasonably practicable following issue of the same by the relevant Independent Certifier, the Licensee must provide to the Regulator:
- (a) a certified copy of the System Acceptance Certificate, which may be issued by the Independent Certifier notwithstanding that there are applicable System Acceptance Punchlist Items; and
 - (b) any further Supporting Information that the Regulator has notified the Licensee that it requires in respect of the completion of the Commissioning Activities.
- 6.6 Within 20 Business Days of receipt of the information in respect of the completion of the Commissioning Activities under Special Condition G6.5, the Regulator will consider such information and will:
- (a) determine:
 - (i) that System Acceptance has been achieved (notwithstanding that there may be applicable System Acceptance Punchlist Items); and

- (ii) the date on which System Acceptance was achieved, being the date on which the Licensee provided all Supporting Information (including the certified copy of the System Acceptance Certificate) in respect of the completion of the Commissioning Activities required by the Regulator in accordance with Special Condition G6.5; or
- (b) determine that:
 - (i) the Commissioning Activities are not complete; and
 - (ii) System Acceptance has not been achieved; or
- (c) require further Supporting Information from the Licensee to determine whether the Commissioning Activities have been completed; and/or
- (d) inform the Licensee that it requires additional time to consider whether the Commissioning Activities have been completed.

6.7 Where the Regulator:

- (a) determines under Special Condition G6.6(b) that the Commissioning Activities are not complete, the Licensee must:
 - (i) complete any outstanding Commissioning Activities; and
 - (ii) refer the matter back to the relevant Independent Certifier,and the procedures in Special Conditions G6.5 to G6.6 shall be repeated; or
- (b) requires further Supporting Information from the Licensee under Special Condition G6.6(c), the Licensee must provide such Supporting Information to the Regulator as soon as reasonably practicable and the procedure in Special Condition G6.6 shall be repeated,

in each case until the Regulator determines that the Commissioning Activities are complete and System Acceptance has been achieved.

Special Condition G7: SRAV During the Commissioning Period

Introduction

7.1 The purpose of this special condition is to set out how amounts will accrue to the SRAV for each SRAV Calculation Period during the Commissioning Period and how the Closing SRAV will be calculated for each SRAV Calculation Period during the Commissioning Period.

Structure

7.2 This special condition is structured as follows:

- (a) Part A sets out how the SRAV will build-up during the Commissioning Period;
- (b) Part B sets certain provisions relating to the calculation of the SRAV;
- (c) Part C sets out how the value of the Closing SRAV for each SRAV Calculation Period during the Commissioning Period will be calculated; and
- (d) Part D sets out how the SRAV Additions for each SRAV Calculation Period during the Commissioning Period will be calculated.

Part A: SRAV build-up during the Commissioning Period

7.3 During the Commissioning Period, the:

- (a) SRAV Capex and Opex;
- (b) Pass Through Costs;
- (c) Ongoing Devex;
- (d) Debt Fees;
- (e) Return During Commissioning;
- (f) Disposals; and
- (g) Re-use Assets Valuation (if any),

will accrue to the SRAV in accordance with the provisions of Special Conditions G9 (*SRAV Capex and Opex during the Commissioning Period*) to G8 (*Re-use Assets Valuation*).

Part B: Calculation and Reconciliation of SRAV

7.4 In calculating the value of the SRAV in accordance with the provisions of this special condition, the Regulator will rely on input data provided by the Licensee for individual components of the calculation and any other evidence that may appropriately inform the Regulator's assessment of the validity of the data provided by the Licensee.

- 7.5 In accordance with Special Condition E2.2(e) (*Interpretation*) any values provided on a provisional basis must be updated by the Licensee in each SRAV Calculation Period, with any interim updates reflecting the most accurate forecast available at that time, until such a time as the provisional value has been substituted for an actuals value. Any such updates will be reflected in the calculation of the value of the SRAV for the relevant SRAV Calculation Period as part of the Annual Iteration Process.
- 7.6 As part of the Annual Iteration Process, the Regulator will also reconcile the calculation of the value of the SRAV for any relevant SRAV Calculation Period to reflect the correction of errors and/or revisions of data identified as a result of assurance activities.
- 7.7 An additional reconciliation of the SRAV will occur pursuant to the Post Commissioning Review in accordance with Special Condition H2 (*Post Commissioning Review*).

Part C: Calculation of the Closing SRAV

- 7.8 The Closing SRAV for each SRAV Calculation Period during the Commissioning Period will be calculated in real (Base Year) prices in accordance with the following formula:

$$CSRAV_t = SRAV_{Day1} + \left[\sum_{n=1}^t SRA_n \right] + \left[\sum_{n=1}^t RDC_n \right]$$

where:

Term	Description	Price Base
CSRAV _t ⁷	means the Closing SRAV as at the end of the SRAV Calculation Period	£ real (Base Year)
SRAV _{Day1}	means Day1 SRAV	£ real (Base Year)
SRA _n	means for each SRAV Calculation Period _n , the SRAV Additions for that SRAV Calculation Period calculated in accordance with either Special Condition F4.9 (<i>SRAV During the Construction Period</i>) or Special Condition G7.9 (<i>SRAV During the Commissioning Period</i>) (as applicable)	£ real (Base Year)
RDC _n	means, for each SRAV Calculation Period _n , the Return During Construction for that SRAV Calculation Period calculated in accordance with Special Condition F12.3 (<i>Return During Construction</i>) or the Return During Commissioning for that SRAV Calculation Period calculated in accordance with Special Condition G15.3 (<i>Return During Commissioning</i>) (as applicable)	£ real (Base Year)

⁷ **Explanatory note:** the Closing SRAV in the Commissioning Period is intended to be a cumulative measure from the Day1 SRAV and therefore captures all of the Construction Period SRAV as well as new amounts accrued to the SRAV during the Commissioning Period up to the current SRAV Calculation Period,

Part D: Calculation of SRAV Additions

7.9 The SRAV Additions for each SRAV Calculation Period during the Commissioning Period will be calculated in real (Base Year) prices in accordance with the following formula:

$$SRA_t = RUAV_t + SRAVCO_t + SRCOI_t + PTC_t + OD_t + DF_t - Dis_t$$

where:

Term	Description	Price Base
SRA_t	means the SRAV Additions for SRAV Calculation Period _t	£ real (Base Year)
$RUAV_t$	means the Re-use Assets Valuation (if any) for SRAV Calculation Period _t calculated in accordance with Special Condition G8 (<i>Re-use Assets Valuation</i>)	£ real (Base Year)
$SRAVCO_t$	means the SRAV Capex and Opex for SRAV Calculation Period _t calculated in accordance with Special Condition G9.3 (<i>SRAV Capex and Opex during the Commissioning Period</i>)	£ real (Base Year)
$SRCOI_t$	means the SRAV Capex and Opex Incentive for SRAV Calculation Period _t calculated in accordance with Special Condition G10 (<i>SRAV Capex and Opex Incentive during the Commissioning Period</i>)	£ real (Base Year)
PTC_t	means the Pass Through Costs for SRAV Calculation Period _t calculated in accordance with Special Condition G11.4 (<i>Pass Through Costs during the Commissioning Period</i>)	£ real (Base Year)
OD_t	means the Ongoing Devex for SRAV Calculation Period _t calculated in accordance with Special Condition G12.3 (<i>Ongoing Devex during the Commissioning Period</i>)	£ real (Base Year)
DF_t	means the Debt Fees for SRAV Calculation Period _t calculated in accordance with Special Condition G13.3 (<i>Debt Fees during the Commissioning Period</i>)	£ real (Base Year)
Dis_t	means any adjustment in respect of any approved disposals of T&S Assets determined by the Regulator for SRAV Calculation Period _t in accordance with Special Condition G14 (<i>Disposals during the Commissioning Period</i>)	£ real (Base Year)

Special Condition G8: Re-use Assets Valuation

Introduction

- 8.1 The purpose of this special condition is to set out how the Re-use Assets Valuation is to:
- (a) be calculated for each SRAV Calculation Period during the Commissioning Period; and
 - (b) accrue to the SRAV.
- 8.2 The Re-use Assets Valuation for each re-use asset shall, subject to Special Condition G8.3, accrue to the SRAV in the SRAV Calculation Period in which such asset is paid for by the Licensee.
- 8.3 The Regulator may determine an adjustment to the Re-use Assets Valuation which is to accrue to the SRAV pursuant to Special Condition G8.2 to take account of any tax treatment of such re-use asset that has had an impact on the Re-use Assets Valuation since Licence Award.
- 8.4 The Licensee must provide the Regulator with any information reasonably required to enable the Regulator to determine any adjustment to a Re-use Assets Valuation.

Special Condition G9: SRAV Capex and Opex during the Commissioning Period

Introduction

9.1 The purpose of this special condition is to set out how the SRAV Capex and Opex costs will be calculated and accrue to the SRAV during the Commissioning Period.

Structure

9.2 This special condition is structured as follows:

- (a) Part A sets out the calculation of the SRAV Capex and Opex for each SRAV Calculation Period during the Commissioning Period;
- (b) Part B sets out the how the Actual SRAV Capex and Opex Costs shall accrue to the SRAV; and
- (c) Part C sets out certain information that must be provided by the Licensee.

Part A: Calculation of SRAV Capex and Opex

9.3 The SRAV Capex and Opex for each SRAV Calculation Period during the Commissioning Period will be calculated in accordance with the following formula:

$$SRAVCO_t = ASRAVCO_t$$

where:

Term	Description	Price Base
$SRAVCO_t$	means the SRAV Capex and Opex for SRAV Calculation Period _t	£ real (Base Year)
$ASRAVCO_t$	means the Actual SRAV Capex and Opex Costs accrued to the SRAV during SRAV Calculation Period _t in accordance with Special Condition G9.4	£ real (Base Year)

Part B: Accrual of Actual SRAV Capex and Opex Costs

9.4 The Licensee's Actual SRAV Capex and Opex Costs during the Commissioning Period shall accrue to the SRAV in real (Base Year) prices.

Part C: Provision of information

9.5 At each End of Quarter Date during the Commissioning Period, the Licensee must provide to the Regulator details of:

- (a) the Actual SRAV Capex and Opex Costs incurred by the Licensee;
- (b) any Excluded Project Spend incurred by the Licensee;

- (c) the Licensee's forecasted Actual SRAV Capex and Opex Costs for the current SRAV Calculation Period and all remaining SRAV Calculation Periods in the Commissioning Period;
- (d) any updates to any values provided by the Licensee in accordance with Special Condition E2.2(e) (*Interpretation*); and
- (e) any other information required relating to Capex and Opex pursuant to the RIGs or any Regulator guidance.

Draft

Special Condition G10: SRAV Capex and Opex Incentive during the Commissioning Period

Introduction

10.1 The purpose of this special condition is to set out how the SRAV Capex and Opex Incentive will be calculated for each SRAV Calculation Period during the Commissioning Period.

SRAV Capex and Opex Incentive

10.2 In order to determine the SRAV Capex and Opex Incentive, first the Cumulative Actual SRAV Capex and Opex during the Commissioning Period will be calculated in accordance with the following formula:

$$CASRAVCO_t = \sum_{n=SRC_{Com}}^t ASRAVCO_t$$

where:

Term	Description	Price Base
CASRAVCO _t	means the Cumulative Actual SRAV Capex and Opex during the Commissioning Period up to and including SRAV Calculation Period _t	£ real (Base Year)
ASRAVCO _t	means the Actual SRAV Capex and Opex Costs accrued to the SRAV during the Commissioning Period up to and including SRAV Calculation Period _t in accordance with Special Condition G9.4 (<i>SRAV Capex and Opex during the Commissioning Period</i>)	£ real (Base Year)
SRC _{Com}	means the first SRAV Calculation Period during the Commissioning Period	N/A

10.3 Next, the Cumulative Capex and Opex Variance for the SRAV Calculation Period will be calculated in accordance with the following formula:

$$CCOV_t = SRAVCOA - CASRAVCO_t$$

where:

Term	Description	Price Base
CCOV _t	means the Cumulative Capex and Opex Variance for SRAV Calculation Period _t	£ real (Base Year)

Term	Description	Price Base
SRAVCOA	means the SRAV Capex and Opex Commissioning Period Allowance	£ real (Base Year)
CASRAVCO _t	means the Cumulative Actual SRAV Capex and Opex during the Commissioning Period up to and including SRAV Calculation Period _t	£ real (Base Year)

- 10.4 For each SRAV Calculation Period_t during the Commissioning Period where the Cumulative Actual SRAV Capex and Opex for the Commissioning Period is greater than the SRAV Capex and Opex Commissioning Period Allowance (an "**SRAV Capex and Opex Commissioning Period Overspend**"), the SRAV Capex and Opex Incentive for the SRAV Calculation Period will be calculated in accordance with the following formula:

$$SRCOI_t = (CCOV_t - CCOV_{t-1}) \times SCOSF$$

where:

Term	Description	Price Base
SRCOI _t	means the SRAV Capex and Opex Incentive for SRAV Calculation Period _t	£ real (Base Year)
CCOV _t	means the Cumulative Capex and Opex Variance for SRAV Calculation Period _t	£ real (Base Year)
CCOV _{t-1}	means the Cumulative Capex and Opex Variance for SRAV Calculation Period _{t-1} , which in respect of the first SRAV Calculation Period _t in the Commissioning Period in which there is an SRAV Capex and Opex Commissioning Period Overspend only, shall be deemed to be zero	£ real (Base Year)
SCOSF	means the SRAV Capex and Opex Sharing Factor	N/A

- 10.5 For each SRAV Calculation Period_t during the Commissioning Period where the Cumulative Actual SRAV Capex and Opex for the Commissioning Period is less than the SRAV Capex and Opex Commissioning Period Allowance (an "**SRAV Capex and Opex Commissioning Period Underspend**"), the SRAV Capex and Opex Incentive shall be set to zero other than for the final SRAV Calculation Period in the Commissioning Period where the SRAV Capex and Opex Incentive will be calculated in accordance with the following formula:

$$SRCOI_t = CCOV_t \times SCOSF$$

where:

Term	Description	Price Base
SRCOI _t	means the SRAV Capex and Opex Incentive for SRAV Calculation Period _t	£ real (Base Year)
CCOV _t	means the Cumulative Capex and Opex Variance for SRAV Calculation Period _t	£ real (Base Year)
SCOSF	means the SRAV Capex and Opex Sharing Factor	N/A

10.6 The value of any SRAV Capex and Opex Incentive calculated pursuant to:

- (a) Special Condition G10.4 will be negative; and
- (b) Special Condition G10.5 will either be zero or positive (as applicable).

Special Condition G11: Pass Through Costs during the Commissioning Period

Introduction

- 11.1 The purpose of this special condition is to set out how:
- (a) the Pass Through Costs shall accrue to the SRAV during the Commissioning Period; and
 - (b) the Pass Through Costs will be calculated for each SRAV Calculation Period for the purposes of the calculation of the SRAV Additions pursuant to Special Condition G15.3 (*Return During Commissioning*).

Structure

- 11.2 This special condition is structured as follows:
- (a) Part A sets out the calculation to determine the Pass Through Costs for each SRAV Calculation Period during the Commissioning Period;
 - (b) Part B sets out the information required from the Licensee to evidence its Pass Through Costs; and
 - (c) Part C sets out the Pass Through Costs Review Procedure.

Part A: Calculation of Pass Through Costs

- 11.3 In accordance with Special Conditions G11.6, G11.8 and G11.9, the Licensee will be entitled to certain amounts on a pass through basis that are incurred by the Licensee during the Commissioning Period and which are outside of its control.
- 11.4 The Regulator may request evidence from the Licensee in support of any costs incurred by the Licensee in respect of which it is entitled to account for as part of the Pass Through Costs during the relevant Commissioning Period.
- 11.5 The Licensee may request that the Regulator considers whether additional fees incurred or to be incurred by the Licensee to regulators in connection with the Approved T&S Network and which are outside of its control should be included in the calculation of Pass Through Costs by direction. Where the Regulator agrees to such direction, the Regulator will modify this licence as necessary to give effect to its direction.
- 11.6 The Pass Through Costs for each SRAV Calculation Period during the Commissioning Period will be calculated in accordance with the following formula:

$$PTC_t = BR_t + RLF_t + NSTAF_t + CELF_t + SCAF_t + EA_t + OPRED_t + IC_t$$

where:

Term	Description	Price Base
PTC _t	means the Pass Through Costs for SRAV Calculation Period _t	£ real (Base Year)
BR _t	means the Business Rates incurred by the Licensee during SRAV Calculation Period _t	£ real (Base Year)
RLF _t	means the Regulator Licence Fees incurred by the Licensee during SRAV Calculation Period _t	£ real (Base Year)
CELF _t	means the Crown Estate Lease Fees incurred by the Licensee during SRAV Calculation Period _t	£ real (Base Year)
NSTAF _t	means the NSTA Fees incurred by the Licensee during SRAV Calculation Period _t	£ real (Base Year)
SCAF _t	means the SCA Fee incurred by the Licensee during SRAV Calculation Period _t	£ real (Base Year)
EA _t	means the EA Fees incurred by the Licensee during SRAV Calculation Period _t	£ real (Base Year)
OPRED _t	means the OPRED Fees incurred by the Licensee during SRAV Calculation Period _t	£ real (Base Year)
IC _t	means the Independent Certifier Fees incurred by the Licensee during SRAV Calculation Period _t	£ real (Base Year)

Part B: Provision of information

11.7 At each End of Quarter Date during the Commissioning Period, the Licensee must provide to the Regulator details of:

- (a) the Pass Through Costs incurred by the Licensee in the Quarter ending on such End of Quarter Date in accordance with the RIGs or any Regulator guidance including evidence:
 - (i) to substantiate that the Pass Through Costs incurred were unavoidable; and
 - (ii) that the Pass Through Costs were verified and mitigated by the Licensee to the extent possible; and
- (b) the Licensee's forecast of any Pass Through Costs to be incurred in the current SRAV Calculation Period and all remaining SRAV Calculation Periods in the Commissioning Period.

- 11.8 The Regulator will, using the information provided by the Licensee under Special Condition G11.7(a), assess any Pass Through Costs incurred by the Licensee in accordance with the Regulator's Cost Guidance. The Regulator will also assess the extent to which any Pass Through Costs incurred by the Licensee were unavoidable, verified and mitigated by the Licensee (to the extent possible). Where the Regulator considers that any Pass Through Costs were not unavoidable, verified and mitigated by the Licensee (to the extent possible), the Regulator may adjust the value of the Pass Through Costs by direction.
- 11.9 The Regulator will assess any Pass Through Costs incurred by the Licensee in accordance with the Regulator's Cost Guidance and may adjust the value of the Pass Through Costs by direction.

Part C: Pass Through Costs Review Procedure

- 11.10 The Licensee must engage with the Relevant Valuation Regulator and use reasonable endeavours to minimise its liabilities in respect of the Business Rates.
- 11.11 The Licensee must engage with regulators whose fees are Pass Through Costs to ensure that invoices are accurate, this will include but not be limited to engagement with charging reviews to minimise liabilities in respect of Pass Through Costs. For the avoidance of doubt, the Licensee should not suppress technical engagement with any entity in order to minimise these liabilities.
- 11.12 The Regulator may review the Licensee's engagement with the Relevant Valuation Regulator with respect to a revaluation.
- 11.13 If, after reviewing the Licensee's engagement in accordance with Special Condition G11.12 and requesting any Supporting Information required from the Licensee, the Regulator considers that the Licensee has not complied with Special Condition G11.10 the Regulator may adjust the value of the Pass Through Costs for an SRAV Calculation Period by direction.
- 11.14 Before making a direction under Special Condition G11.13 the Regulator will publish on the Regulator's Website:
- (a) the text of the proposed direction;
 - (b) the reasons for the proposed direction; and
 - (c) a period during which representations may be made on the proposed direction, which must not be less than 28 days.

Special Condition G12: Ongoing Devex during the Commissioning Period

Introduction

- 12.1 The purpose of this special condition is to set out how:
- (a) the Actual Ongoing Devex Costs and any Ongoing Devex Underspend Amounts shall accrue to the SRAV during the Commissioning Period; and
 - (b) the Ongoing Devex will be calculated for each SRAV Calculation Period during the Commissioning Period for the purpose of the calculation of the SRAV Additions under Special Condition G4.9 (*SRAV During the Commissioning Period*).

Structure

- 12.2 This special condition is structured as follows:
- (a) Part A sets out the calculation to determine the Ongoing Devex for each SRAV Calculation Period during the Commissioning Period;
 - (b) Part B sets out how the Actual Ongoing Devex Costs accrue to the SRAV;
 - (c) Part C sets out how costs will accrue to the SRAV where an Ongoing Devex Underspend has occurred during the Commissioning Period; and
 - (d) Part D sets out the information required from the Licensee in relation to its Ongoing Devex costs.

Part A: Calculation of Ongoing Devex

- 12.3 The Ongoing Devex for each SRAV Calculation Period will be calculated in accordance with the following formula:

$$OD_t = AODC_t + ODUAt$$

where:

Term	Description	Price Base
OD _t	means the Ongoing Devex for SRAV Calculation Period _t	£ real (Base Year)
AODC _t	means the Actual Ongoing Devex Costs accrued to the SRAV during SRAV Calculation Period _t in accordance with Special Conditions G12.4 to G12.7	£ real (Base Year)
ODUA _t	means any Ongoing Devex Underspend Amount that has accrued to the SRAV during SRAV Calculation Period _t in accordance with Special Condition G12.7	£ real (Base Year)

Part B: Accrual of Actual Ongoing Devex Costs

- 12.4 The Licensee's Actual Ongoing Devex Costs shall accrue to the SRAV in real (Base Year) prices, provided that in the event that Licensee's cumulative Actual Ongoing Devex Costs in relation to the relevant Ongoing Devex Allowance exceeds such Ongoing Devex Allowance, only the Actual Ongoing Devex Costs up to (but not exceeding) such Ongoing Devex Allowance shall accrue to the SRAV.

Part C: Ongoing Devex Underspend Amount

- 12.5 In the event that an Ongoing Devex Underspend occurs during an SRAV Calculation Period in the Commissioning Period, then the provisions of Special Conditions G12.6 to G12.7 shall apply.
- 12.6 Where there has been an Ongoing Devex Underspend, the Licensee must provide to the Regulator evidence that:
- (a) the activities associated with the relevant Ongoing Devex Allowance have been completed by the Licensee; and
 - (b) the Actual Ongoing Devex Costs incurred by the Licensee in relation to such activities are less than the relevant Ongoing Devex Allowance.
- 12.7 Provided that the Regulator is satisfied that there has been an Ongoing Devex Underspend, then the Ongoing Devex Underspend Amount shall accrue to the SRAV in real (Base Year) prices.

Part D: Provision of information

- 12.8 At each End of Quarter Date during the Commissioning Period, the Licensee must provide to the Regulator details of:
- (a) the Actual Ongoing Devex Costs incurred by the Licensee;
 - (b) any relevant Ongoing Devex Allowance, with reference to the amount of Actual Ongoing Devex Costs incurred by the Licensee against such allowances;
 - (c) any Excluded Project Spend incurred by the Licensee;
 - (d) the Licensee's forecast Actual Ongoing Devex Costs to be incurred in the current SRAV Calculation Period and all remaining SRAV Calculation Periods in the Commissioning Period;
 - (e) any updates to any values provided by the Licensee in accordance with Special Condition E2.2(e) (*Interpretation*); and
 - (f) any other information required relating to Ongoing Devex pursuant to the RIGs or any Regulator guidance.

- 12.9 For the avoidance of doubt, where the Licensee's Actual Ongoing Devex Costs incurred are in excess of any relevant Ongoing Devex Allowance, the Licensee shall still be required to provide details of such Actual Ongoing Devex Costs in accordance with Special Condition G12.8.

Draft

Special Condition G13: Debt Fees during the Commissioning Period

Introduction

13.1 The purpose of this special condition is to set out how the Actual Debt Fee Costs will be calculated and accrue to the SRAV for each SRAV Calculation Period during the Commissioning Period.

Structure

13.2 This special condition is structured as follows:

- (a) Part A sets out the calculation of the Debt Fees for each SRAV Calculation Period during the Commissioning Period;
- (b) Part B sets out the how the Actual Debt Fee Costs shall accrue to the SRAV; and
- (c) Part C sets out the information that must be provided by the Licensee in relation to its Actual Debt Fee Costs.

Part A: Calculation of Debt Fees

13.3 The Debt Fees for each SRAV Calculation Period during the Commissioning Period will be calculated in accordance with the following formula:

$$DF_t = ADF_t$$

where:

Term	Description	Price Base
DF_t	means the Debt Fees for SRAV Calculation Period _t	£ real (Base Year)
ADF_t	means the Actual Debt Fee Costs accrued to the SRAV during SRAV Calculation Period _t in accordance with Special Conditions G13.4 to G13.6	£ real (Base Year)

Part B: Actual Debt Fee Costs

13.4 Subject to Special Condition G13.6, the Licensee's Actual Debt Fee Costs shall accrue to the SRAV in real (Base Year) prices, provided that in the event that the Licensee's cumulative Actual Debt Fee Costs exceed the Debt Fee Allowance, only the Actual Debt Fee Costs up to (but not exceeding) the Debt Fee Allowance shall accrue to the SRAV.

13.5 To give effect to limb (c) of the definition of Actual Debt Fee Costs and limb (b) of the definition of Excluded Project Spend, any fees incurred by the Licensee in respect of the facilities listed as "Adjustment for Notional Gearing" in the column entitled "Full Reimbursement or Prorating of Fees" in Part A of Schedule 8 shall be pro-rated in accordance with the methodology set out in the column entitled "Full Reimbursement or

Prorating of Fees" in Part A of Schedule 8, and only such pro-rated fees shall accrue to the SRAV as Actual Debt Fee Costs.

- 13.6 In the event that the Licensee incurs Actual Debt Fee Costs in respect of the facilities set out in Part B (*Facilities capable of Debt Fee Allowance adjustment*) of Schedule 8 (*All Licensee debt facilities*) which are in excess of the Debt Fee Allowance, then the Regulator shall determine an adjustment to the Debt Fee Allowance to reflect such Actual Debt Fee Costs incurred in excess of the Debt Fee Allowance and will make amendments to update the Financial Settlement Document to reflect such adjustment.

Part C: Provision of information

- 13.7 At each End of Quarter Date during the Commissioning Period, the Licensee must provide to the Regulator details of:
- (a) the Actual Debt Fee Costs incurred by the Licensee;
 - (b) any Excluded Project Spend incurred by the Licensee;
 - (c) the Licensee's forecasted Actual Debt Fee Costs for the current SRAV Calculation Period and all remaining SRAV Calculation Periods in the Commissioning Period;
 - (d) any updates to any values provided by the Licensee in accordance with Special Condition E2.2(e) (*Interpretation*); and
 - (e) any other information required relating to the Debt Fees pursuant to the RIGs or any Regulator guidance.

Special Condition G14: Disposals during the Commissioning Period

Introduction

- 14.1 This special condition sets out how the Regulator will determine any adjustments to the SRAV in respect of any permitted Disposals of T&S Assets.

Calculation of SRAV Adjustment

- 14.2 Where there is a Disposal of a T&S Asset which is permitted under Standard Condition B8 (*Disposals*), the Licensee must provide to the Regulator details of:
- (a) the actual sale value of the T&S Asset subject to a permitted Disposal;
 - (b) the value ascribed to such T&S Asset in the SRAV; and
 - (c) any further information in relation to such Disposal as is required by the Regulator.
- 14.3 Following receipt of the information required pursuant to Special Condition G14.2, the Regulator will determine an adjustment to the SRAV to reflect the impact on the SRAV of the Disposal of such T&S Asset and will make any required amendments to update the APDP to reflect such disposal.

Special Condition G15: Return During Commissioning

Introduction

15.1 The purpose of this special condition is to set out how the Return During Commissioning is to be calculated for each SRAV Calculation Period during the Commissioning Period.

Structure

15.2 This special condition is structured as follows:

- (a) Part A sets out the calculation of the Return During Commissioning for each SRAV Calculation Period; and
- (b) Part B explains how the Return During Commissioning will accrue to the SRAV.

Part A: Calculation of Return During Commissioning

15.3 The Return During Commissioning for each SRAV Calculation Period during the Commissioning Period other than where such SRAV Calculation Period is a part year, will be calculated in accordance with the following formula:

$$RDC_t = PreCODWACC_t \times \left(CSR_{AV,t-1} + \frac{SRA_t}{2 + PreCODWACC_t} \right)$$

where:

Term	Description	Price Base
RDC_t	means the Return During Commissioning for SRAV Calculation Period _t	£ real (Base Year)
$PreCODWACC_t$	means the PreCOD WACC for SRAV Calculation Period _t	N/A
$CSR_{AV,t-1}$	means the Closing SRAV for SRAV Calculation Period _{t-1}	£ real (Base Year)
SRA_t	means the SRAV Additions for SRAV Calculation Period _t calculated in accordance with Special Condition G7.9 (<i>SRAV During the Commissioning Period</i>)	£ real (Base Year)

- 15.4 The Return During Commissioning for each SRAV Calculation Period during the Commissioning Period which is a part year, will be calculated in accordance with the following formula:

$$RDC_t = ((1 + PreCODWACC_t)^{Partial\ Period\ Share} - 1) \times (CSRAV_{t-1} + \frac{SRA_t}{2 + ((1 + PreCODWACC_t)^{Partial\ Period\ Share} - 1)})$$

where:

Term	Description	Price Base
RDC _t	means the Return During Commissioning for SRAV Calculation Period _t	£ real (Base Year)
PreCOD WACC _t	means the PreCOD WACC for SRAV Calculation Period _t	N/A
Partial Period Share	means the share of the partial period in SRAV Calculation Period _t and which is calculated by dividing the number of days in the partial period by the number of days that there would have been in SRAV Calculation Period _t had SRAV Calculation Period _t not been a part year	N/A
CSRAV _{t-1}	means the Closing SRAV for SRAV Calculation Period _{t-1}	£ real (Base Year)
SRA _t	means the SRAV Additions for SRAV Calculation Period _t calculated in accordance with Special Condition G7.9 (<i>SRAV during the Commissioning Period</i>)	£ real (Base Year)

- 15.5 In the event that the SRAV Additions for an SRAV Calculation Period include material cost items that have not been incurred by the Licensee evenly over the relevant SRAV Calculation Period and the Regulator considers that this will result in a material impact on the calculation of the Return During Construction for such SRAV Calculation Period, the Regulator will have the right to determine an adjustment (which may be positive or negative) to the Return During Commissioning for such SRAV Calculation Period to account for the impact of such material cost item having not been incurred evenly over such SRAV Calculation Period.
- 15.6 In accordance with Special Condition G7.5 (*SRAV during the Commissioning Period*), any values used in the calculation of the Return During Commissioning which have been provided by the Licensee on a provisional basis must be updated by the Licensee in the next SRAV Calculation Period and such updates will be subject to a reconciliation by the Regulator in accordance with Special Condition G7.5 (*SRAV during the Commissioning Period*).

Part B: Accrual of Return During Commissioning

- 15.7 The Return During Commissioning calculated in accordance with Special Conditions G15.3 to G15.4 as relevant, shall accrue to the SRAV.

Special Condition G16: Post Construction Review

Introduction

16.1 The purpose of this special condition is to establish the Post Construction Review process.

Structure

16.2 This special condition is structured as follows:

- (a) Part A sets out the purpose of the Post Construction Review;
- (b) Part B requires the Licensee to provide information to the Regulator;
- (c) Part C requires the Licensee to provide Supporting Information and answer Regulator queries;
- (d) Part D provides for the Regulator to calculate the Day1 RAV;
- (e) Part E provides for the Regulator to calculate (on a provisional basis) the Allowed Revenue for the initial Operational Charging Year(s); and
- (f) Part F requires the Licensee to publish the Use of System Charging Statement for the first Operational Charging Year.

Part A: Purpose of the Post Construction Review

16.3 The purpose of the Post Construction Review is:

- (a) to establish the Day1 RAV;
- (b) to calculate the Allowed Revenue in respect of the first Operational Charging Year and, where the second Operational Charging Year will commence prior to the conclusion of the first Annual Iteration Process, the second Operational Charging Year; and
- (c) to calculate the SRAV Capex and Opex Incentive for the final SRAV Calculation Period in the Construction Period in accordance with Special Condition F7 (*SRAV Capex and Opex Incentive during the Construction Period*).

16.4 The Post Commissioning Review will involve a full assessment of all matters in the Construction Period and Commissioning Period, and the Regulator's decision at the Post Construction Review shall not be construed as binding as to any outcome of the Post Commissioning Review.

Part B: Provision of information

16.5 No later than the PConR Deadline, the Licensee must provide to the Regulator:

- (a) access to copies of all formal correspondence and other formal documentation between the Licensee and the Independent Certifier(s) in respect of works and/or

activities undertaken during the Construction Period (including in respect of any Commissioning Activities, Phase 2 Activities and/or Expansion Activities taking place in such period), to the extent such correspondence and other documentation has not already been provided to the Regulator under Special Condition J3 (*Independent Certifier*);

- (b) the Licensee's forecasted figures for the Construction Period, which shall:
 - (i) be based to the extent possible on the information already provided by the Licensee to the Regulator under Special Conditions F6.5 (*SRAV Capex and Opex during the Construction Period*), F8 (*Pass Through Costs during the Construction Period*) and F9 (*Ongoing Devex during the Construction Period*); and
 - (ii) include any SRAV Capex and Opex which relates to any Commissioning Activities, Phase 2 Activities and/or Expansion Activities undertaken by the Licensee during the Construction Period (which shall, in each case, be separately identified);
- (c) the Licensee's forecasted figures for the Commissioning Period, which shall include any forecasted SRAV Capex and Opex which relates to any Phase 2 Activities and/or Expansion Activities anticipated to be undertaken by the Licensee during the Commissioning Period (which shall, in each case, be separately identified);
- (d) the Licensee's calculation of the Closing SRAV for the final SRAV Calculation Period for the Commissioning Period (the "**Proposed COD SRAV**"), which shall be:
 - (i) based on:
 - (A) the Licensee's forecasted figures for the Construction Period as provided under Special Condition G16.5(b);
 - (B) to the extent possible, the estimate of the relevant Closing SRAV in the PCFM; and
 - (C) the Licensee's forecasted figures for the Commissioning Period as provided under Special Condition G16.5(c); and
 - (ii) calculated in accordance with the methodology set out in Special Conditions G7.8 (*SRAV During the Commissioning Period*) and G7.9 (*SRAV During the Commissioning Period*);
- (e) the Licensee's calculation of the Allowed Revenue for the first Operational Charging Year and, where the second Operational Charging Year will commence prior to the conclusion of the first Annual Iteration Process, the second Operational Charging Year, calculated in accordance with the requirements set out in the latest published version of the RIGs and Special Condition H8.6 (*Allowed Revenue during the Operational Period*), with such calculation relying on:

- (i) the information provided by the Licensee under this Special Condition G16.5;
and
- (ii) the Proposed COD SRAV;
- (f) a provisional Use of System Charging Statement for the first Operational Charging Year, prepared in accordance with the requirements of Special Condition H26 (*Use of System Charging Statement*);
- (g) any other information required to be provided pursuant to the Regulator's Cost Guidance and/or RIGs; and
- (h) such other Supporting Information as the Regulator may request in connection with the Post Construction Review.

Part C: Responding to Regulator queries regarding information provided by the Licensee

16.6 Where in connection with the information provided by the Licensee under Special Condition G16.5 the Regulator:

- (a) requires Supporting Information from the Licensee; and/or
- (b) raises any queries,

the Licensee shall provide the required Supporting Information and respond to the queries to the Regulator's satisfaction as soon as reasonably practicable.

Part D: Calculation of the Day1 RAV

16.7 The Regulator will calculate on a provisional basis the Closing SRAV for the final SRAV Calculation Period for the Commissioning Period:

- (a) in accordance with the methodology set out in Special Conditions G7.8 (*SRAV During the Commissioning Period*) and G7.9 (*SRAV During the Commissioning Period*); and
- (b) relying on the input data provided by the Licensee under Special Conditions G16.5 and G16.6 and any other evidence that may appropriately inform the Regulator's assessment of the validity of the data provided by the Licensee,

which, from the Commercial Operations Date, shall be the Day1 RAV.

Part E: Allowed Revenue in respect of the initial Operational Charging Year(s)

16.8 The Regulator will calculate the value of the Allowed Revenue for the first Operational Charging Year and, where the second Operational Charging Year will commence prior to the conclusion of the first Annual Iteration Process, the second Operational Charging Year:

- (a) in accordance with the formula set out in Special Condition H9.3 (*Calculation of Allowed Revenue during the Operational Period*); and

- (b) relying on the input data provided by the Licensee under Special Conditions G16.5 and G16.6 and any other evidence that may appropriately inform the Regulator's assessment of the validity of the data provided by the Licensee.

Part F: Use of System Charging Statement for the first Operational Charging Year

- 16.9 The Licensee must publish its Use of System Charging Statement for the first Operational Charging Year as soon as reasonably practicable following the Regulator's calculation of the Allowed Revenue under Special Condition G16.8, which statement must be prepared in accordance with the requirements of Special Condition H26 (*Use of System Charging Statement*).

Special Condition H1: Operational Period

- 1.1 The special conditions in this Section H set out the provisions that apply with effect from the Commercial Operations Date and in respect of and during the Operational Period.
- 1.2 The Licensee must also comply with the special conditions set out in Section J (*Overarching Special Conditions*) where relevant.

Special Condition H2: Post Commissioning Review

Introduction

2.1 The purpose of this special condition is to establish the Post Commissioning Review process.

Structure

2.2 This special condition is structured as follows:

- (a) Part A sets out the purpose of the Post Commissioning Review;
- (b) Part B requires the Licensee to provide information to the Regulator;
- (c) Part C sets out the process for the assessment and reconciliation of the Day1 RAV by the Regulator; and
- (d) Part D deals with the post-COD adjustment to the RAV.

Part A: Purpose of the Post Commissioning Review

2.3 The purpose of the Post Commissioning Review is:

- (a) for the Regulator to undertake a detailed assessment of each of the Construction Period and the Commissioning Period (including in respect of any Commissioning Activities, Phase 2 Activities and/or Expansion Activities taking place in such periods), taking into account:
 - (i) the information provided by the Licensee under Special Condition G16.5 (*Post Construction Review*);
 - (ii) the Day1 RAV; and
 - (iii) Supporting Information provided by the Licensee under this Special Condition H2;
- (b) to undertake a detailed assessment of the Day1 RAV and to reconcile the same, such assessment and reconciliation to be undertaken notwithstanding any determination of the Day1 RAV by the Regulator under Special Condition G16 (*Post Construction Review*), taking into account:
 - (i) the actual figures for the Construction Period provided by the Licensee under Special Condition H2.4(b);
 - (ii) the actual and, where necessary, forecasted figures for the Commissioning Period provided by the Licensee under Special Condition H2.4(c); and
 - (iii) any First User Delay Difference Payments or Final Reconciliation Difference Payments received by the Licensee pursuant to the Revenue Support Agreement, in accordance with Special Condition G4.12 (*First User Delay*).

Part B: Provision of information

- 2.4 As soon as reasonably practicable, and, in any event, no later than six months following the Commercial Operations Date, the Licensee must provide the Regulator with all such information as the Regulator may require to enable it to carry out the Post Commissioning Review, including:
- (a) access to copies of all formal correspondence and other formal documentation between the Licensee and the Independent Certifier(s) in respect of works and/or activities undertaken during the Construction Period and the Commissioning Period (including in respect of any Phase 2 Activities and/or Expansion Activities taking place in such period), to the extent such correspondence and other documentation has not already provided to the Regulator under Special Conditions G16 (*Post Construction Review*) or Special Condition J3 (*Independent Certifier*);
 - (b) actual figures for the Construction Period, which shall:
 - (i) be based on the information already provided by the Licensee to the Regulator under Special Conditions F6.4 (*SRAV Capex and Opex during the Construction Period*), F8 (*Pass Through Costs during the Construction Period*) and F9 (*Ongoing Devex during the Construction Period*); and
 - (ii) include any Actual SRAV Capex and Opex Costs which relates to Commissioning Activities, Phase 2 Activities and Expansion Activities undertaken by the Licensee during the Construction Period (which shall, in each case, be separately identified);
 - (c) actual and, where necessary, forecasted figures for the Commissioning Period, which shall:
 - (i) be based on the information already provided by the Licensee to the Regulator under Special Conditions G9.5 (*SRAV Capex and Opex during the Commissioning Period*), G11.7 (*Pass Through Costs during the Commissioning Period*) and G12.8 (*Ongoing Devex during the Commissioning Period*); and
 - (ii) include any Actual SRAV Capex and Opex Costs which relate to Phase 2 Activities and Expansion Activities undertaken by the Licensee during the Commissioning Period (which shall, in each case, be separately identified);
 - (d) the Licensee's calculation of the reconciled Day1 RAV, which shall be:
 - (i) based on:
 - (A) the actual figures for the Construction Period provided by the Licensee under Special Condition H2.4(b); and
 - (B) the actual and forecasted figures for the Commissioning Period provided by the Licensee under Special Condition H2.4(c); and

- (ii) calculated in accordance with the methodology set out in Special Conditions G7.8 (*SRAV During the Commissioning Period*) and G7.9 (*SRAV During the Commissioning Period*);
- (e) any other information required to be provided pursuant to the Regulator's Cost Guidance and/or RIGs; and
- (f) such other Supporting Information as the Regulator may request.

Part C: Assessment and reconciliation of the Day1 RAV

2.5 The Regulator will undertake a detailed assessment and reconciliation of the Day1 RAV, in accordance with the methodology set out in Special Conditions G7.8 (*SRAV during the Commissioning Period*) and G7.9 (*SRAV during the Commissioning Period*) (the reconciled Day1 RAV being the "**COD SRAV**"), which reconciliation shall take into account:

- (a) the actual figures for the Construction Period provided by the Licensee under Special Condition H2.4(b);
- (b) the actual and forecasted figures for the Commissioning Period provided by the Licensee under Special Condition H2.4(c); and
- (c) any First User Delay Difference Payments or Final Reconciliation Difference Payments received by the Licensee pursuant to the Revenue Support Agreement, in accordance with Special Condition G4.12 (*First User Delay*).

Part D: Post COD adjustment to RAV

2.6 The Regulator will determine an adjustment to the RAV following conclusion of the Post Commissioning Review to reconcile the value of the COD SRAV as against the Day1 RAV (the "**Post Commissioning Review RAV Adjustment**") in accordance with Special Condition H3.7 (*Calculation of RAV*).

Special Condition H3: Calculation of RAV

Introduction

- 3.1 The purpose of this special condition is to detail:
- (a) how the RAV will be calculated and reconciled during the Operational Period; and
 - (b) how the value of the Closing RAV will be calculated for each Operational Charging Year.⁸

Structure

- 3.2 This special condition is structured as follows:
- (a) Part A sets out how the RAV will be calculated and reconciled during the Operational Period;
 - (b) Part B sets out how Closing RAV will be calculated for each Operational Charging Year; and
 - (c) Part C sets out how the RAV Additions will be calculated for each Operational Charging Year.

Part A: Calculation and Reconciliation of RAV

- 3.3 In calculating the value of the RAV in accordance with the provisions of this special condition, the Regulator will rely on input data provided by the Licensee for individual components of the calculation and any other evidence that may appropriately inform the Regulator's assessment of the validity of the data provided by the Licensee.
- 3.4 In accordance with Special Condition E2.2(e) (*Interpretation*), any values provided on a provisional basis must be updated by the Licensee in each Operational Charging Year (as relevant) with any interim updates reflecting the most accurate forecast available at that time, until such a time as the provisional value has been substituted for an actuals value. Any such updates will be reflected in the calculation of the value of the RAV for the relevant Operational Charging Year as part of the Annual Iteration Process.
- 3.5 As part of the Annual Iteration Process, the Regulator will also reconcile the calculation of the value of the RAV for any relevant Operational Charging Year to reflect the correction of errors and/or revisions of data identified as a result of assurance activities.

⁸ **Explanatory note:** where injection on the T&S Network has ceased such that the decommissioning of the T&S Network shall commence, the intention is that Allowed Revenue will cease to be provided for under the Licence and the RAV will have depreciated to zero. Modifications to this licence may be made at the relevant point in time to reflect that amounts are no longer being logged to the RAV and the RAV is no longer being calculated under the Licence.

- 3.6 Any updates to the calculation of the value of RAV in accordance with Special Condition H3.4 or reconciliations undertaken pursuant to Special Condition H3.5 will also be reflected in the calculation of the Allowed Revenue (including in relation to the Return on Capital Building Block and the Depreciation Building Block) in accordance with the K-Factor true up process described in Special Condition H9.7 (*Calculation of Allowed Revenue during the Operational Period*) to H9.12 (*Calculation of Allowed Revenue during the Operational Period*).

Part B: Calculation of the Closing RAV

- 3.7 The Closing RAV for each Operational Charging Year will be calculated in accordance with the following formula:

$$CRAV_t = RAV_{Day1} + \left[\sum_{n=1}^t RA_n \right] + \left[\sum_{n=1}^t PComRA_n \right] - \left[\sum_{n=1}^t Dep_n \right] + \left[\sum_{n=1}^t OCI_n \right] + \left[\sum_{n=1}^t CMCI_n \right] + \left[\sum_{n=1}^t NCMCI_n \right]$$

where:

Term	Description	Price Base
CRAV _t	means the Closing RAV as at 31 March in Operational Charging Year _t	£ real (Base Year)
RAV _{Day1}	means the Day1 RAV	£ real (Base Year)
RA _n	means for each Operational Charging Year _n , the RAV Additions for that Operational Charging Year calculated in accordance with Special Condition H3.8	£ real (Base Year)
PComRA _n	means for each Operational Charging Year _n , any Post Commissioning Review RAV Adjustment to be made to the RAV for that Operational Charging Year as determined by the Regulator in the Post Commissioning Review	£ real (Base Year)
Depr _n	means for each Operational Charging Year _n , the depreciation for that Operational Charging Year calculated in accordance with Special Condition H12 (<i>Depreciation Building Block</i>)	£ real (Base Year)
OCI _n	means for each Operational Charging Year _n , the Ongoing Capex Incentive for that Operational Charging Year calculated in accordance with Special Condition H5 (<i>Ongoing Capex Incentive during the Operational Period</i>)	£ real (Base Year)
CMCI _n	means for each Operational Charging Year _n , the RP-CM Capex Costs Incentive for that Operational Charging Year calculated in accordance with Special Condition H20.5 (<i>Corrective Measures-related spend under a Remediation Plan</i>)	£ real (Base Year)
NCMCI _n	means for each Operational Charging Year _n , the RP-Non-CM Capex Costs Incentive for that Operational Charging Year calculated in accordance with Special	£ real (Base Year)

Term	Description	Price Base
	Condition H21.5 (<i>Availability-related spend under a Remediation Plan</i>)	

Part C: Calculation of the RAV Additions

3.8 The RAV Additions for each Operational Charging Year will be calculated in real (Base Year) prices in accordance with the following formula:

$$RA_t = OC_t + OD_t + CMC_t + NCMC_t + TSRAV_t - Dis_t$$

where:

Term	Description	Price Base
RA _t	means the RAV Additions for Operational Charging Year _t .	£ real (Base Year)
OC _t	means the Ongoing Capex for Operational Charging Year _t calculated in accordance with Special Condition H4.3 (<i>Ongoing Capex during the Operational Period</i>)	£ real (Base Year)
OD _t	means the Ongoing Devex for Operational Charging Year _t calculated in accordance with Special Condition H6.3 (<i>Ongoing Devex during the Operational Period</i>)	£ real (Base Year)
CMC _t	means the RP-related CM Capex for Operational Charging Year _t calculated in accordance with Special Condition H20 (<i>Corrective Measures-related spend under a Remediation Plan</i>)	£ real (Base Year)
NCMC _t	means the RP-related Non-CM Capex for Operational Charging Year _t calculated in accordance with Special Condition H21 (<i>Availability-related spend under a Remediation Plan</i>)	£ real (Base Year)
TSRAV _t	means any SRAV which has been transferred to the RAV in Operational Charging Year _t ⁹	£ real (Base Year)
Dis _t	means any adjustment in respect of any approved disposals of T&S Assets determined by the Regulator for Operational Charging Year _t in accordance with Special Condition H7 (<i>Disposals</i>)	£ real (Base Year)

⁹ **Explanatory note:** this is the mechanic to enable any additional SRAVs to be transferred to the RAV once the relevant assets which are the subject of the additional SRAV have been commissioned.

Special Condition H4: Ongoing Capex during the Operational Period

Introduction

4.1 The purpose of this special condition is to set out how Ongoing Capex will be calculated and accrue to the RAV during the Operational Period.

Structure

4.2 This special condition is structured as follows:

- (a) Part A sets out the calculation to determine the Ongoing Capex for each Operational Charging Year;
- (b) Part B sets out how the Actual Ongoing Capex Costs accrue to the RAV; and
- (c) Part C sets out the information required from the Licensee in relation to its Actual Ongoing Capex Costs.

Part A: Calculation of Ongoing Capex

4.3 The Ongoing Capex for each Operational Charging Year will be calculated in accordance with the following formula:

$$OC_t = AOCC_t$$

where:

Term	Description	Price Base
OC_t	means the Ongoing Capex for Operational Charging Year _t	£ real (Base Year)
$AOCC_t$	means the Actual Ongoing Capex Costs accrued to the RAV during Operational Charging Year _t in accordance with Special Condition H4.4	£ real (Base Year)

Part B: Accrual of Actual Ongoing Capex Costs

4.4 The Licensee's Actual Ongoing Capex Costs shall accrue to the RAV in real (Base Year) prices.

Part C: Provision of information

4.5 At each End of Quarter Date during the Operational Period, the Licensee must provide to the Regulator details of:

- (a) the Actual Ongoing Capex Costs incurred by the Licensee;
- (b) any Excluded Project Spend incurred by the Licensee;

- (c) the Licensee's forecasted Actual Ongoing Capex Costs for the current Operational Charging Year and all remaining Operational Charging Years in the Regulatory Period;
- (d) any updates to any values provided by the Licensee in accordance with Special Condition H3.4 (*Calculation of RAV*); and
- (e) any other information required relating to Capex pursuant to the RIGs or any Regulator guidance.

Special Condition H5 Ongoing Capex Incentive during the Operational Period

Introduction

- 5.1 The purpose of this special condition is to set out how the Ongoing Capex Incentive will be calculated for each Operational Charging Year.

Calculation of Ongoing Capex Incentive

- 5.2 The Ongoing Capex Incentive for each Operational Charging Year will be calculated in accordance with the following formula:

$$OCI_t = (OCA_t - AOCC_t) \times OCSF$$

where:

Term	Description	Price Base
OCI_t	means the Ongoing Capex Incentive for Operational Charging Year _t	£ real (Base Year)
OCA_t	means the Ongoing Capex Allowance for Operational Charging Year _t	£ real (Base Year)
$AOCC_t$	means the Actual Ongoing Capex Costs accrued to the RAV during Operational Charging Year _t in accordance with Special Condition H4.4 (<i>Ongoing Capex during the Operational Period</i>)	£ real (Base Year)
OCSF	means the Ongoing Capex Sharing Factor	N/A

- 5.3 The value of the Ongoing Capex Incentive for each Operational Charging Year may be positive or negative.

Special Condition H6: Ongoing Devex during the Operational Period

Introduction

- 6.1 The purpose of this special condition is to set out how:
- (a) the Actual Ongoing Devex Costs and any Ongoing Devex Underspend Amounts shall accrue to the RAV during the Operational Period; and
 - (b) Ongoing Devex for each Operational Charging Year will be calculated for the purpose of the calculation of the RAV Additions under Special Condition H3.8 (*Calculation of RAV*).

Structure

- 6.2 This special condition is structured as follows:
- (a) Part A sets out the calculation of Ongoing Devex for each Operational Charging Year;
 - (b) Part B sets out how Actual Ongoing Devex Costs will accrue to the RAV;
 - (c) Part C sets out how costs will accrue to the RAV where an Ongoing Devex Underspend has occurred during the Operational period; and
 - (d) Part D sets out the information required from the Licensee in relation to its Actual Ongoing Devex Costs.

Part A: Calculation of Ongoing Devex

- 6.3 The Ongoing Devex for each Operational Charging Year will be calculated in accordance with the following formula:

$$OD_t = AODC_t + ODUAt$$

where:

Term	Description	Price Base
OD_t	means the Ongoing Devex for Operational Charging Year _t	£ real (Base Year)
$AODC_t$	means the Actual Ongoing Devex Costs accrued to the RAV during Operational Charging Year _t in accordance with Special Condition H6.4	£ real (Base Year)
$ODUA_t$	means any Ongoing Devex Underspend Amount that has accrued to the RAV during Operational Charging Year _t in accordance with Special Condition H6.7	£ real (Base Year)

Part B: Accrual of Actual Ongoing Devex Costs

- 6.4 The Licensee's Actual Ongoing Devex Costs shall accrue to the RAV in real (Base Year) prices, provided that in the event that Licensee's cumulative Actual Ongoing Devex Costs in relation to the relevant Ongoing Devex Allowance exceeds such Ongoing Devex Allowance, only the Actual Ongoing Devex Costs up to (but not exceeding) such Ongoing Devex Allowance shall accrue to the RAV.

Part C: Calculation of Ongoing Devex Underspend Amount

- 6.5 In the event that an Ongoing Devex Underspend has occurred during an Operational Charging Year, then the provisions of Special Conditions H6.6 to H6.7 shall apply.
- 6.6 Where there has been an Ongoing Devex Underspend, the Licensee must provide to the Regulator evidence that:
- (a) the activities associated with the relevant Ongoing Devex Allowance have been completed by the Licensee; and
 - (b) the Actual Ongoing Devex Costs incurred by the Licensee in relation to such activities are less than the relevant Ongoing Devex Allowance.
- 6.7 Provided that the Regulator is satisfied that there has been an Ongoing Devex Underspend, then the Ongoing Devex Underspend Amount shall accrue to the RAV in real (Base Year) prices.

Part D: Provision of information

- 6.8 At each End of Quarter Date during the Operational Period, the Licensee must provide to the Regulator details of:
- (a) the Actual Ongoing Devex Costs incurred by the Licensee;
 - (b) any Ongoing Devex Allowances, with reference to the amount of Actual Ongoing Devex Costs incurred by the Licensee against such allowances;
 - (c) any Excluded Project Spend incurred by the Licensee;
 - (d) the Licensee's forecasted Actual Ongoing Devex Costs for the current Operational Charging Year and all remaining Operational Charging Years in the Regulatory Period;
 - (e) any updates to any values provided by the Licensee in accordance with Special Condition H3.4 (*Calculation of RAV*); and
 - (f) any other information required relating to Ongoing Devex pursuant to the RIGs or any Regulator guidance.

- 6.9 For the avoidance of doubt, where the Licensee's Actual Ongoing Devex Costs incurred are in excess of any relevant Ongoing Devex Allowance, the Licensee must still be required to provide details of such Actual Ongoing Devex Costs in accordance with Special Condition H6.8.

Special Condition H7: Disposals

Introduction

7.1 This special condition sets out how the Regulator will determine any adjustments to the RAV in respect of any permitted Disposals of T&S Assets.

Calculation of RAV Adjustment

7.2 Where there is a Disposal of a T&S Asset which is permitted under Standard Condition B8 (*Disposals*), the Licensee must provide to the Regulator details of:

- (a) the actual sale value of the T&S Asset subject to a permitted Disposal;
- (b) the value ascribed to such T&S Asset in the RAV; and
- (c) any further information in relation to such Disposal as is required by the Regulator.

7.3 Following receipt of the information required pursuant to Special Condition H7.2, the Regulator will determine an adjustment to the RAV to reflect the impact on the RAV of the Disposal of such T&S Asset and will make any required amendments to update the APDP to reflect such disposal.

Special Condition H8: Allowed Revenue during the Operational Period

Introduction

8.1 The purpose of this special condition is to detail the general provisions that apply to the calculation of the Allowed Revenue that the Licensee is entitled to recover for each Operational Charging Year¹⁰.

Structure

8.2 This special condition is structured as follows:

- (a) Part A sets out how the Allowed Revenue is to be calculated in accordance with the conditions of this Licence;
- (b) Part B sets out the requirements to enable the Regulator to notify the Allowed Revenue for each Operational Charging Year; and
- (c) Part C sets out certain provisions relating to the recovery of Use of System Charges during the Operational Period.

Part A: Allowed Revenue

8.3 The Allowed Revenue for each Operational Charging Year (in whole or part) will be calculated in accordance with the formula set out in Special Condition H9.3 (*Calculation of Allowed Revenue during the Operational Period*).

Part B: Notification and determination of Allowed Revenue

8.4 Other than for any Operational Charging Year in relation to which the process set out in Special Condition G16.8 (*Post Construction Review*) is to apply, in respect of each Operational Charging Year_t, the Licensee must provide its calculation of the Allowed Revenue for each Operational Charging Year_t to the Regulator in Operational Charging Year_{t-1} in accordance with the requirements set out in the latest published version of the Price Control Financial Handbook.

8.5 The Licensee must, when calculating the value of the Allowed Revenue for an Operational Charging Year, use the latest versions of the Price Control Financial Model and the Price Control Financial Handbook.

¹⁰ **Explanatory note:** where injection on the T&S Network has ceased such that the decommissioning of the T&S Network shall commence, the intention is that Allowed Revenue will cease to be provided for under the Licence. Where decommissioning of only a part of the T&S Network is to commence, the entitlement to Allowed Revenue under the Licence will be reduced accordingly. Decommissioning (including the decommissioning of a part of the network only) should be paid for using amounts from funds established under C2 and D2 and not additional Allowed Revenues. Modifications to this licence may be made at the relevant point in time to enact this.

- 8.6 In determining the value of the Allowed Revenue, the Regulator will rely on input data provided by the Licensee for individual components of the calculation and any other evidence that may appropriately inform the Regulator's assessment of the validity of the data provided by the Licensee.
- 8.7 In accordance with Special Condition E2.2(e) (*Interpretation*) any values provided on a provisional basis must be updated by the Licensee in each Operational Charging Year with any interim updates reflecting the most accurate forecast available at that time, until such a time as the provisional value has been substituted for an actuals value. Any such updates will be reflected in calculating the value of the Allowed Revenue in accordance with the K-Factor true up process described in Special Conditions H9.7 (*Calculation of Allowed Revenue during the Operational Period*) to H9.12 (*Calculation of Allowed Revenue during the Operational Period*).
- 8.8 Provided the Licensee has complied with its obligations to deliver:
- (a) the information required to be delivered to the Regulator in accordance with Special Condition H8.4; and
 - (b) any other information requested by the Regulator in accordance with this licence,
- in Operational Charging Year_{t-1}, the Regulator will notify the Licensee of the Allowed Revenue for Operational Charging Year_t by no later than [31 October] of Operational Charging Year_{t-1} in accordance with the Annual Iteration Process.
- 8.9 As part of the notification of the Allowed Revenue in accordance with Special Condition H8.8, the Regulator will also notify its determination of:
- (a) the proportion of the Allowed Revenue that relates to the Onshore Transportation System (the "**Allowed Onshore Revenue**"), for the purposes of calculating the Use of System Charges payable by Onshore Users in accordance with the Use of System Charging Methodology; and
 - (b) the proportion of the Allowed Revenue that relates to the Offshore Transportation and Storage System (the "**Allowed Offshore Revenue**"), for the purposes of calculating the Use of System Charges payable by Offshore Users in accordance with the Use of System Charging Methodology,

where the sum of the Allowed Onshore Revenue and the Allowed Offshore Revenue is equal to the Allowed Revenue.

Part C: Recovery of Use of System Charges

- 8.10 The Licensee's maximum revenue entitlement in any Operational Charging Year is capped at the Allowed Revenue for the relevant Operational Charging Year.
- 8.11 Where the Recovered Revenue in any Operational Charging Year_{t-2} (or part thereof) is greater than the Allowed Revenue for that Operational Charging Year_{t-2}, the Allowed Revenue for Operational Charging Year_t will be subject to an adjustment pursuant to the K-

factor process set out in Special Condition H9.10 to account for such difference between the Recovered Revenue and Allowed Revenue for Operational Charging Year_{t-2}.

8.12 The Licensee must use reasonable endeavours to:

- (a) recover Use of System Charges; and
- (b) enforce any collateral in the recovery of Use of System Charges.

Special Condition H9: Calculation of Allowed Revenue during the Operational Period

Introduction

9.1 The purpose of this special condition is to provide an overview of the formula that the Regulator will use to calculate the amount of Allowed Revenue that the Licensee is entitled to recover in each Operational Charging Year.

Structure

9.2 This special condition is structured as follows:

- (a) Part A sets out how the Allowed Revenue will be calculated for each Operational Charging Year;
- (b) Part B sets out the formula for calculating the Calculated Revenue for each Operational Charging Year;
- (c) Part C sets out the formula for calculating the Base Revenue for each Operational Charging Year;
- (d) Part D sets out the formula for calculating the Price Indexation Term for each Operational Charging Year; and
- (e) Part E sets out the purpose of the K-Factor true up and the formula for calculating the K-Factor true up in each Operational Charging Year.

Part A: Allowed Revenue during the Operational Period

9.3 The Allowed Revenue for each Operational Charging Year will be calculated in accordance with the following formula:

$$AR_t = CR_t \times PI_t + K_t$$

where:

Term	Description	Price Base
AR _t	means the Allowed Revenue for Operational Charging Year _t	£ Operational Charging Year _t
CR _t	means the Calculated Revenue for Operational Charging Year _t calculated in accordance with Special Condition H9.5	£ real (Base Year)
PI _t	means the Price Indexation Term for Operational Charging Year _t calculated in accordance with Special Condition H9.6	N/A
K _t	means the K-Factor for Operational Charging Year _t as calculated in accordance with Special Condition H9.10	£ Operational Charging Year _t

Part B: Calculation of Calculated Revenue

9.4 The Calculated Revenue for each Operational Charging Year will be calculated in accordance with the following formula:

$$CR_t = BR_t + Tax_t$$

where:

Term	Description	Price Base
CR _t	means the Calculated Revenue for Operational Charging Year _t	£ real (Base Year)
BR _t	means the Base Revenue for Operational Charging Year _t calculated in accordance with Special Condition H9.5	£ real (Base Year)
Tax _t	means the Tax Building Block for Operational Charging Year _t calculated in accordance with Special Condition H17 (<i>Tax Building Block during the Operational Period</i>)	£ real (Base Year)

Part C: Calculation of Base Revenue

9.5 The Base Revenue for each Operational Charging Year will be calculated in accordance with the following formula:

$$BR_t = ROC_t + Depr_t + Opex_t + OI_t + ETS_t + PTC_t + \left(\frac{Decom_t}{PI_t} \right) + AA_{t-2} + CMO_t + NCMO_t + CMOI_t + NCMOI_t$$

where:

Term	Description	Price Base
BR _t	means the Base Revenue for Operational Charging Year _t	£ real (Base Year)
ROC _t	means the Return on Capital Building Block for Operational Charging Year _t calculated in accordance with Special Condition H10.3 (<i>Return on Capital Building Block</i>)	£ real (Base Year)
Depr _t	means the Depreciation Building Block for Operational Charging Year _t calculated in accordance with Special Condition H11 (<i>Depreciation Building Block</i>)	£ real (Base Year)
Opex _t	means the Opex Building Block for Operational Charging Year _t calculated in accordance with Special Condition H12.10 (<i>Opex Building Block</i>)	£ real (Base Year)

Term	Description	Price Base
OI_t	means the Opex Incentive Building Block for Operational Charging Year _t calculated in accordance with Special Condition H13 (<i>Opex Incentive Building Block</i>)	£ real (Base Year)
ETS_t	means the ETS Building Block for Operational Charging Year _t calculated in accordance with Special Condition H14 (<i>ETS Building Block</i>)	£ real (Base Year)
PTC_t	means the Pass Through Costs Building Block for Operational Charging Year _t calculated in accordance with Special Condition H15 (<i>Pass Through Costs Building Block</i>)	£ real (Base Year)
$Decom_t$	means the Decommissioning Building Block for Operational Charging Year _t calculated in accordance with Special Condition H16 (<i>Decommissioning Building Block</i>)	£ Operational Charging Year _t
PI_t	means the Price Indexation Term for Operational Charging Year _t calculated in accordance with Special Condition H9.6	N/A
AA_{t-2}	means the Availability Adjustment for Operational Charging Year _{t-2} calculated in accordance with Special Condition H18 (<i>Availability incentive</i>)	£ real (Base Year)
CMO_t	means the RP-related CM Opex for Operational Charging Year _t referred to in Special Condition H20.9 (<i>Corrective Measures-related spend under a Remediation Plan</i>)	£ real (Base Year)
$NCMO_t$	means the RP-related Non-CM Opex for Operational Charging Year _t referred to in Special Condition H21.9 (<i>Availability-related spend under a Remediation Plan</i>)	£ real (Base Year)
$CMOI_t$	means the RP-CM Opex Costs Incentive for Operational Charging Year _t calculated in accordance with Special Condition H20.10 (<i>Availability-related spend under a Remediation Plan</i>)	£ real (Base Year)
$NCMOI_t$	means the RP-Non-CM Opex Costs Incentive for Operational Charging Year _t calculated in accordance with Special Condition H21.11 (<i>Availability-related spend under a Remediation Plan</i>)	£ real (Base Year)

Part D: Calculation of Price Indexation Term

9.6 The Price Indexation Term for each Operational Charging Year, which is the adjustment to be applied to inflate a value from the Base Year to the value in that Operational Charging Year will be calculated in accordance with the following formula:

$$PI_t = \frac{CPIH_t}{CPIH_b}$$

where:

Term	Description	Price Base
PI _t	means the Price Indexation Term for Operational Charging Year _t	N/A
CPIH _t	means the year average CPIH across Operational Charging Year _t	N/A
CPIH _b	means the year average CPIH across the Base Year	N/A

Part E: K-Factor True Up

9.7 The K-Factor true up in each Operational Charging Year will take into account the replacement of forecasts, provisional or estimated values with actual out-turn values for the following building blocks:

- (a) Return on Capital Building Block;
- (b) Depreciation Building Block;
- (c) Opex Building Block;
- (d) Opex Incentive Building Block;
- (e) ETS Building Block;
- (f) Tax Building Block;
- (g) Pass Through Costs Building Block;
- (h) RP-related CM Building Block; and
- (i) RP-related Non-CM Building Block.

9.8 The K-Factor true up also takes into account:

- (a) the correction of errors and revisions of data identified as a result of assurance activities (including in respect of outturn CPIH data); and
- (b) any adjustments to any building blocks made pursuant to a re-opener in accordance with this licence.

9.9 Where, pursuant to the Revenue Support Agreement, the Monthly IDP Amount is less than any negative Monthly QRP Adjustment applied, the difference between those two amounts shall be addressed as part of the K-Factor true up.

9.10 The K-Factor for each Operational Charging Year will be calculated in accordance with the following formula:

$$K_t = (AR_{t-2} - RR_{t-2}) \times (1 + TVM_{t-1}) \times (1 + TVM_{t-2})$$

where:

Term	Description	Price Base
K_t	means the K-Factor for Operational Charging Year _t	£ Operational Charging Year _t
AR_{t-2}	means the Allowed Revenue for Operational Charging Year _{t-2} calculated in accordance with Special Condition H9.3 taking account of any true-ups or adjustments in accordance with Special Condition H9.7 and H9.8.	£ nominal
RR_{t-2}	means the Recovered Revenue for Operational Charging Year _{t-2} calculated in accordance with Special Condition H9.11	£ nominal
TVM_{t-1}	means the Time Value of Money for Operational Charging Year _{t-1} calculated in accordance with Special Condition H9.12	N/A
TVM_{t-2}	means the Time Value of Money for Operational Charging Year _{t-2} calculated in accordance with Special Condition H9.13	N/A

9.11 The Recovered Revenue for each Operational Charging Year_{t-2} will be calculated in accordance with the following formula:

$$RR_{t-2} = RSAP_{t-2} + MR_{t-2}$$

where:

Term	Description	Price Base
RR_{t-2}	means the Recovered Revenue for Operational Charging Year _{t-2} after deduction of value added tax (if any) and any other taxes charged directly by reference to the amounts so derived	£ nominal
$RSAP_{t-2}$	means the amounts receivable by the Licensee from the RSA Counterparty for Operational Charging Year _{t-2} under the RSA, excluding any First User Delay Difference Payment or First User Delay Difference Payment Reconciliation Amount	£ nominal
MR_{t-2}	means the Market Revenue for Operational Charging Year _{t-2} ;	£ nominal

9.12 The TVM for each Operational Charging Year_{t-1} will be calculated in accordance with the following formula:

$$TVM_{t-1} = \left[(1 + PostCODWACC_{t-1}) \times \frac{CPIH_t}{CPIH_{t-1}} \right] - 1$$

where:

Term	Description	Price Base
TVM _{t-1}	means the Time Value of Money for Operational Charging Year _{t-1}	N/A
PostCOD WACC _{t-1}	means the PostCOD WACC for Operational Charging Year _{t-1}	N/A
CPIH _t	means CPIH in Operational Charging Year _t	N/A
CPIH _{t-1}	means CPIH in Operational Charging Year _{t-1}	N/A

9.13 The TVM for each Operational Charging Year_{t-2} will be calculated in accordance with the following formula:

$$TVM_{t-2} = \left[(1 + PostCODWACC_{t-2}) \times \frac{CPIH_{t-1}}{CPIH_{t-2}} \right] - 1$$

where:

Term	Description	Price Base
TVM _{t-2}	means the Time Value of Money for Operational Charging Year _{t-2}	N/A
PostCOD WACC _{t-2}	means the PostCOD WACC for Operational Charging Year _{t-2}	N/A
CPIH _{t-1}	means CPIH in Operational Charging Year _{t-1}	N/A
CPIH _{t-2}	means CPIH in Operational Charging Year _{t-2}	N/A

Special Condition H10: Return on Capital Building Block

Introduction

10.1 The purpose of this special condition is to calculate the value of the Return on Capital Building Block for each Operational Charging Year.

Structure

10.2 This special condition is structured as follows:

- (a) Part A sets out how the Return on Capital Building Block will be calculated for each Operational Charging Year;
- (b) Part B sets out how the NPV-Neutral RAV Return Base will be calculated for each Operational Charging Year;
- (c) Part C sets out how the Discounted RAV will be calculated for each Operational Charging Year;
- (d) Part D explains that the Return on Capital Building Block shall be subject to a reconciliation; and
- (e) Part E sets out how the Regulated Return on Equity will be calculated for each Operational Charging Year.

Part A: Calculation of Return on Capital Building Block

10.3 The Return on Capital Building Block for each Operational Charging Year, other than any Operational Charging Year which is a part year, will be calculated in accordance with the following formula:

$$ROC_t = NNRAV_t \times PostCODWACC_t$$

Where:

Term	Description	Price Base
ROC_t	means the Return on Capital Building Block for Operational Charging Year _t	£ real (Base Year)
$NNRAV_t$	means the NPV-Neutral RAV Return Base for Operational Charging Year _t calculated in accordance with Special Condition H10.5	£ real (Base Year)
PostCOD WACC _t	means the PostCOD WACC for Operational Charging Year _t	N/A

- 10.4 The Return on Capital Building Block for each Operational Charging Year where such Operational Charging Year is a part year will be calculated in accordance with the following formula:

$$ROC_t = NNRAV_t \times ((1 + PostCODWACC_t)^{PartialPeriodShare} - 1)$$

Where:

Term	Description	Price Base
ROC_t	means the Return on Capital Building Block for Operational Charging Year _t	£ real (Base Year)
$NNRAV_t$	means the NPV-Neutral RAV Return Base for Operational Charging Year _t calculated in accordance with Special Condition H10.5	£ real (Base Year)
$PostCODWACC_t$	means the PostCODWACC for Operational Charging Year _t	N/A
Partial Period Share	means the share of the partial period in Operational Charging Year _t and which is calculated by dividing the number of days in the partial period by the number of days that there would have been in Operational Charging Year _t had Operational Charging Year _t not been a part year	N/A

Part B: Calculation of NPV-Neutral RAV Return Base

- 10.5 The NPV-Neutral RAV Return Base for each Operational Charging Year will be calculated in real (Base Year) prices in accordance with the following formula:

$$NNRAV_t = \frac{(CRAV_{t-1}) + (DCRAV_t)}{2}$$

where:

Term	Description	Price Base
$NNRAV_t$	means the NPV-Neutral RAV Return Base for Operational Charging Year _t	£ real (Base Year)
$CRAV_{t-1}$	means the Closing RAV for Operational Charging Year _{t-1}	£ real (Base Year)
$DCRAV_t$	means the Discounted RAV for Operational Charging Year _t	£ real (Base Year)

Part C: Calculation of Discounted RAV

10.6 The Discounted RAV for each Operational Charging Year will be calculated in real (Base Year) prices in accordance with the following formula:

$$DCRAV_t = (CRAV_t) \times \left(\frac{1}{1 + ((1 + PostCODWACC_t)^{Period\ Share} - 1)} \right)$$

where:

Term	Description	Price Base
DCRAV _t	means the Discounted RAV for Operational Charging Year _t	£ real (Base Year)
CRAV _t	means the Closing RAV for Operational Charging Year _t	£ real (Base Year)
PostCOD WACC _t	means the PostCOD WACC for Operational Charging Year _t	N/A
Period Share	means: a) where Operational Charging Year _t is a year other than a part year, 1; or b) where Operational Charging Year _t is a part year the share of the partial period in Operational Charging Year _t and which is calculated by dividing the number of days in the partial period by the number of days that there would have been in Operational Charging Year _t had Operational Charging Year _t not been a part year	N/A

Part D: Reconciliation of the Return on Capital Building Block

10.7 The Return on Capital Building Block will, in the first instance, be calculated based on values provided by the Licensee on a provisional basis. The Licensee will update these values in accordance with Special Condition H8.7 (*Allowed Revenue during the Operational Period*) and the Return on Capital Building Block will be subject to a reconciliation in accordance with Special Condition H9.7 (*Calculation of Allowed Revenue during the Operational Period*).

Part E: Regulated Return on Equity

10.8 The Regulated Return on Equity for each Operational Charging Year, which forms part of the Availability Incentive in accordance with Special Condition H18.18, will be calculated in accordance with the following formula:

$$RROE_t = RoC_t \times \frac{PostCODCoE \times (1 - NotionalGearing)}{PostCODWACC}$$

where:

Term	Description	Price Base
RROE _t	means the Regulated Return on Equity	£ real (Base Year)
RoC _t	means the Return on Capital Building Block for Operational Charging Year _t	£ real (Base Year)
PostCODCoE	means the PostCOD Cost of Equity	N/A
Notional Gearing	means the Notional Gearing	N/A
PostCODWACC	means the PostCOD WACC	N/A

Special Condition H11: Depreciation Building Block

Introduction

- 11.1 This special condition sets out how:
- (a) depreciation of the RAV is to be calculated during the Operational Period; and
 - (b) how the Depreciation Building Block for the calculation of the Allowed Revenue will be determined for each Operational Charging Year.

Structure

- 11.2 This special condition is structured as follows:
- (a) Part A sets out how the Depreciation Building Block will be calculated for each Operational Charging Year; and
 - (b) Part B explains that the Depreciation Building Block will be subject to a reconciliation.

Part A: Calculation of Depreciation

- 11.3 From COD:
- (a) the Depreciation Building Block forms part of the Allowed Revenue calculation in accordance with Special Condition H9 (*Calculation of Allowed Revenue during the Operational Period*); and
 - (b) the value of the Depreciation Building Block for each Operational Charging Year shall be deducted from the calculation of the RAV for each Operational Charging Year in accordance with Special Condition H3 (*Calculation of RAV*).
- 11.4 For the First Regulatory Period, the Depreciation Building Block will be calculated assuming a real terms straight line RAV depreciation profile based on the RAV Asset Life.
- 11.5 Depreciation will commence:
- (a) at COD for the Day1 RAV;
 - (b) in the Operational Charging Year following the Operational Charging Year in which:
 - (i) any relevant Actual Ongoing Capex Costs, Actual Ongoing Devex Costs, Logged RP-related CM Capex Costs, Logged RP-related Non-CM Capex Costs, Excess RP-related CM Capex Costs and Excess RP-related Non-CM Capex Costs have accrued to the RAV; or
 - (ii) any amounts from an additional SRAV are transferred to the RAV.
- 11.6 For each Regulatory Period following the First Regulatory Period, the Regulator will determine the applicable depreciation profile included in the Price Control Financial Model as part of the relevant PR Determination.

Part B: Reconciliation of the Depreciation Building Block

- 11.7 The Depreciation Building Block will be subject to a reconciliation in accordance with Special Condition H9.7 (*Calculation of Allowed Revenue during the Operational Period*).

Special Condition H12: Opex Building Block

12.1 The purpose of this special condition is to calculate the value of the Opex Building Block applicable during each Operational Charging Year.

Structure

12.2 This special condition is structured as follows:

- (a) Part A sets out the information required from the Licensee relating to the Opex Allowances and how the Regulator will determine the Opex Allowances for the First Regulatory Period prior to the Commercial Operations Date;
- (b) Part B sets out how the Opex Building Block will be calculated for each Operational Charging Year;
- (c) Part C sets out how the Regulator will calculate an adjustment to the Variable Opex Allowance to reflect actual throughput in tonnes of CO₂;
- (d) Part D sets out how the Regulator will calculate an adjustment to the Variable Opex Allowance to reflect the outturn price of energy;
- (e) Part E sets out how the Regulator will calculate an adjustment to the Variable Opex Allowance for the Energy Relationship Adjustment;
- (f) Part F sets out how the Regulator will calculate the Average Price of Energy;
- (g) Part G explains that the Opex Building Block shall be subject to a reconciliation;
- (h) Part H sets out the requirement for the Licensee to supply the Draft Energy Procurement Strategy to the Regulator for approval; and
- (i) Part I sets out the information required from the Licensee in relation to the Opex Building Block.

Part A: Opex Allowances

12.3 In accordance with the RIGs, the Licensee is required:

- (a) to provide quarterly updates throughout the Construction Period and Commissioning Period of the Licensee's forecasted Actual Opex Costs for each Operational Charging Year during the First Regulatory Period; and
- (b) to provide the Licensee's assessment as to whether such forecasted Actual Opex Costs are such that amendments are required to be made to the provisional Opex Allowances that were agreed prior to Licence Award.

12.4 Eight months prior to Scheduled COD, taking into consideration the information provided by the Licensee pursuant to Special Condition H12.3 and any additional information provided pursuant to the RIGs or any Regulator guidance, the Regulator will determine the Opex

Allowances for each Operational Charging Year in the First Regulatory Period and will make amendments to update the Financial Settlement Document to reflect such determinations.

- 12.5 Subject to Special Condition H12.6, the Opex Allowances for the First Regulatory Period will be an annual allowance in respect of each Operational Charging Year unless otherwise determined by the Regulator.
- 12.6 Where the first Operational Charging Year in the First Regulatory Period is a part year, the Regulator will reduce the Opex Allowance in respect of such Operational Charging Year accordingly (and the Regulator will make amendments to update the Financial Settlement Document to reflect such reduction) and such reduction will be determined by the Regulator as part of its determination that System Acceptance has been achieved in accordance with Special Condition G6 .
- 12.7 Where the Licensee's forecasted Actual Opex Costs for the Operational Period provided to the Regulator pursuant to Special Condition H12.3 show irregular Actual Opex Cost requirements associated with material one-off activities, the Regulator will have the right to determine an appropriate profiling period for such irregular Actual Opex Costs in setting the Opex Allowances.
- 12.8 Where the determination of the Regulator pursuant to Special Condition H12.7 creates a temporal mismatch in cost recovery, the Regulator will adjust any payment in arrears by PostCOD WACC.
- 12.9 As part of any Opex Allowance to be determined by the Regulator in accordance with Special Conditions H12.4 and H12.6, the Regulator will:
- (a) for Opex costs which are variable (by reference to throughput of CO₂), determine the relevant part of the Opex Allowance by reference to:
 - (i) a fixed unit cost (per tonne of CO₂) (the "**Fixed Unit Cost Element**"); and
 - (ii) a forecast level of throughput (in tonnes of CO₂) (the "**Forecasted Throughput Element**"),a "**Variable Opex Allowance**", which shall form part of the overall Opex Allowance and not its own discrete allowance for any Operational Charging Year; and
 - (b) as part of the Variable Opex Allowance, determine an allowance in respect of the Re-use Service on the same basis as set out in Special Condition H12.9(a) (the "**Re-use Service Opex Allowance**"), which shall form part of the overall Variable Opex Allowance (and therefore the Opex Allowance) and not its own discrete allowance for any Operational Charging Year¹¹.

¹¹ **Explanatory note:** the Re-use Service Opex Allowance is to form the basis of Allowed Re-use Service Revenue under the Network Code, to be charged to Users of the Re-use Service.

Part B: Calculation of Opex Building Block

12.10 The Opex Building Block for each Operational Charging Year will be calculated in accordance with the following formula:

$$Opex_t = OA_t$$

where:

Term	Description	Price Base
Opex _t	means the Opex Building Block for Operational Charging Year _t	£ real (Base Year)
OA _t	means the Opex Allowance for Operational Charging Year _t	£ real (Base Year)

Part C: Regulator Adjustment to Variable Opex Allowance to Reflect Actual Throughput

12.11 Where a Variable Opex Allowance for Operational Charging Year_t has been set based on a Forecasted Throughput Element in accordance with the conditions of this Licence, once actual throughputs have been established (in tonnes of CO₂) in respect of an Operational Charging Year_t, the Regulator will determine an adjustment to the Variable Opex Allowance for such Operational Charging Year_t to replace the Forecasted Throughput Element with the actual outturn CO₂ throughput (in tonnes of CO₂) in respect of Operational Charging Year_t and the Regulator will make amendments to update the Financial Settlement Document to reflect such adjustment.

Part D: Regulator Adjustment to Variable Opex Allowance to Reflect the Outturn Price of Energy

12.12 Provided that the Licensee has complied with the requirements of Special Conditions H12.23 to H12.28 and subject to Special Condition H12.13, the Regulator will (in addition to the adjustment in H12.11) determine an adjustment to the Fixed Unit Cost Element of the Variable Opex Allowance for Operational Charging Year_t to reflect the difference between the price of energy assumed in the setting of the Fixed Unit Cost Element of the Variable Opex Allowance for Operational Charging Year_t (expressed in £ per tonne of CO₂) and the Average Price of Energy incurred by the Licensee in respect of Operational Charging Year_t and the Regulator will make amendments to update the Financial Settlement Document to reflect such adjustment.

12.13 Where the Regulator determines that any energy prices incurred by the Licensee in respect of Operational Charging Year_t were procured other than in compliance with the Approved Energy Procurement Strategy, then the Regulator will not determine an upwards adjustment to the Fixed Unit Cost Element of the Variable Opex Allowance in respect of any such energy prices incurred by the Licensee in respect of Operational Charging Year_t which were procured other than in compliance with the Approved Energy Procurement Strategy.

Part E: Energy Relationship Adjustment

12.14 For each Operational Charging Year_t in the First Regulatory Period, the Regulator may also make an Energy Relationship Adjustment in respect of any Variable Opex Allowance. The purpose of the Energy Relationship Adjustment is to:

- (a) enable the Regulator to calculate an adjustment to the Fixed Unit Cost Element of the Variable Opex Allowance for Operational Charging Year_t in respect of the differences between the actual observed MWh/tCO₂ ratio for such Operational Charging Year_t and the MWh/tCO₂ ratio assumption used in setting the Fixed Unit Cost Element of the Variable Opex Allowance for such Operational Charging Year_t, such adjustments to be calculated in accordance with Special Conditions H12.15 and H12.16 (as applicable) but the making of any such Energy Relationship Adjustment is subject to a de minimis threshold (in accordance with Special Conditions H12.15 and H12.16) based on the cost impact of such difference to the Licensee (in which event the adjustment shall be zero); and
- (b) where an adjustment (other than zero) is calculated in accordance with Special Condition H12.14(a), enable the Regulator to determine an adjustment in accordance with Special Condition H12.17 to the Fixed Unit Cost Element of the Variable Opex Allowance(s) for the remaining Operational Charging Years in the First Regulatory Period to reflect the differences between the actual observed MWh/tCO₂ ratio for such Operational Charging Year_t and the MWh/tCO₂ ratio assumption used in setting the Fixed Unit Cost Element of the Variable Opex Allowance for the remaining Operational Charging Year(s) in the First Regulatory Period.

12.15 The Energy Relationship Adjustment for each Operational Charging Year where the actual observed MWh/tCO₂ ratio for Operational Charging Year_t is greater than the MWh/tCO₂ ratio assumption used in setting the Fixed Unit Cost Element of the Variable Opex Allowance for Operational Charging Year_t shall be calculated as follows:

$$ERA_t = \text{Max}\{(AOER_t - FER_t) \times M_t \times e_t - Th, 0\}$$

where:

Term	Description	Price Base
ERA _t	means the Energy Relationship Adjustment for Operational Charging Year _t	£ Operational Charging Year _t
AOER _t	means the actual observed energy relationship (in MWh/tCO ₂) for Operational Charging Year _t	N/A
FER _t	means the forecast energy relationship assumption (in MWh/tCO ₂) used in the setting of the Fixed Unit Cost Element of the Variable Opex Allowance for Operational Charging Year _t	N/A
M _t	means the actual outturn CO ₂ throughput (in tCO ₂) for Operational Charging Year _t	N/A

Term	Description	Price Base
e_t	means the Average Price of Energy (in £/MWh) for Operational Charging Year _t calculated in accordance with Special Condition H12.19	£ Operational Charging Year _t
Th	means a threshold amount equal to £1,000,000 (CPIH Indexed) and which will be a positive value when AOER _t is greater than FER _t and a negative value when AOER _t is less than FER _t	£ Operational Charging Year _t

- 12.16 The Energy Relationship Adjustment for each Operational Charging Year where the actual observed MWh/tCO₂ ratio for Operational Charging Year_t is less than the MWh/tCO₂ ratio assumption used in setting the Fixed Unit Cost Element of the Variable Opex Allowance for Operational Charging Year_t shall be calculated as follows:

$$ERA_t = \text{Min}\{(AOER_t - FER_t) \times M_t \times e_t - Th, 0\}$$

where:

Term	Description	Price Base
ERA _t	means the Energy Relationship Adjustment for Operational Charging Year _t	£ Operational Charging Year _t
AOER _t	means the actual observed energy relationship (in MWh/tCO ₂) for Operational Charging Year _t	N/A
FER _t	means the forecast energy relationship assumption (in MWh/tCO ₂) used in the setting of the Fixed Unit Cost Element of the Variable Opex Allowance for Operational Charging Year _t	N/A
M _t	means the actual outturn CO ₂ throughput (in tCO ₂) for Operational Charging Year _t	N/A
e_t	means the Average Price of Energy (in £/MWh) for Operational Charging Year _t calculated in accordance with Special Condition H12.19	£ Operational Charging Year _t
Th	means a threshold amount equal to £1,000,000 (CPIH Indexed) and which will be a positive value when AOER _t is greater than FER _t and a negative value when AOER _t is less than FER _t	£ Operational Charging Year _t

- 12.17 Where the Energy Relationship Adjustment calculated pursuant to Special Conditions H12.15 and H12.16 (as applicable) for Operational Charging Year_t is greater or less than zero, the Regulator shall determine an adjustment to the Fixed Unit Cost Element of the Variable Opex Allowance(s) for the remaining Operational Charging Year(s) in the First Regulatory Period taking into consideration the differences between the actual observed MWh/tCO₂ ratio for such Operational Charging Year_t and the MWh/tCO₂ ratio assumption used in setting the Fixed Unit Cost Element of the Variable Opex Allowance for the remaining Operational Charging Year(s) in the First Regulatory Period.

- 12.18 The Regulator will make amendments to update the Financial Settlement Document to reflect any adjustments to the Variable Opex Allowance in accordance with Special Conditions H12.15 to H12.17.

Part F: Average Price of Energy

- 12.19 The Average Price of Energy for each Operational Charging Year will be calculated in accordance with the following formula:

$$e_t = \frac{u_t}{q_t}$$

where:

Term	Description	Price Base
e_t	means the Average Price of Energy (in £/MWh) for Operational Charging Year _t	£ Operational Charging Year _t
u_t	means the total amount paid for energy (in £) calculated on an accrual basis for Operational Charging Year _t in accordance with the Approved Energy Procurement Strategy	£ Operational Charging Year _t
q_t	means the total quantity of energy (in MWh) in accordance with the Approved Energy Procurement Strategy calculated on an accrual basis for Operational Charging Year _t	N/A

Part G: Reconciliation of Opex Building Block

- 12.20 The Opex Building Block (including any Opex Allowances which are adjusted in accordance with this Special Condition) will be subject to a reconciliation in accordance with Special Condition H9.7 (*Calculation of Allowed Revenue during the Operational Period*).
- 12.21 Where the Opex Building Block is subject to a positive or negative K-Factor true up pursuant Special Condition H9.7 (*Calculation of Allowed Revenue during the Operational Period*), the Regulator shall allocate a proportion of such true up as an adjustment to the Re-use Service Opex Allowance for Operational Charging Year_t based on the aggregate of the Re-use Daily Quantity for all Users of the Re-use Service for Operational Charging Year_{t-2} divided by the aggregate of the Daily Quantity for all Users of the T&S Network for Operational Charging Year_{t-2} and the value of "K" calculated pursuant to Special Condition H9.10 shall be reduced by an equivalent amount.
- 12.22 The Regulator will make amendments to update the Financial Settlement Document to reflect any adjustments to the Re-use Service Opex Allowance in accordance with Special Condition H12.21.

Part H: Energy Procurement Strategy

- 12.23 The Licensee shall supply the Draft Energy Procurement Strategy to the Regulator twelve months prior to Scheduled COD.
- 12.24 The Draft Energy Procurement Strategy shall specify:
- (a) the Licensee's approach to procuring energy in the short, medium and long term, with supporting justification outlining how the specified approach will:
 - (i) provide value for money to Users;
 - (ii) be at arm's length (unless the Regulator has permitted otherwise);
 - (iii) minimise volatility of Use of System Charges; and
 - (iv) provide a balanced risk profile for the energy costs of the Approved T&S Network, and
 - (b) any actions that the Licensee expects to take in the event of market crises or other failures.
- 12.25 Following submission of the Draft Energy Procurement Strategy by the Licensee to the Regulator, the Licensee must provide to the Regulator any additional information that the Regulator considers appropriate and requests from the Licensee.
- 12.26 As soon as possible following receipt of the Draft Energy Procurement Strategy, the Regulator will notify the Licensee:
- (a) whether the Draft Energy Procurement Strategy is the Approved Energy Procurement Strategy;
 - (b) whether it approves the Draft Energy Procurement Strategy, subject to reasonable adjustments to be reflected in the Approved Energy Procurement Strategy, along with its reasons for such adjustments;
 - (c) whether it does not approve the Draft Energy Procurement Strategy, along with its reasons, which may include the Licensee's failure to respond to the request for additional information in accordance with Special Condition H12.25; or
 - (d) where the Regulator requires additional time to consider the Draft Energy Procurement Strategy, of the date on which the Regulator will issue its decision in respect of such Draft Energy Procurement Strategy.
- 12.27 The Licensee shall maintain an up to date Approved Energy Procurement Strategy in place at all times during the Operational Period. Where the Licensee makes any amendments to the Approved Energy Procurement Strategy within a Regulatory Period, the Licensee must:
- (a) submit any modifications to the Regulator for approval; and
 - (b) provide any additional information that the Regulator considers appropriate and requests from the Licensee.

- 12.28 The Regulator may request that the Licensee updates the Approved Energy Procurement Strategy to ensure that it is in line with best practice and following such request the Licensee shall make such amendments as are necessary to satisfy the Regulator's request and submit such modifications to the Regulator for approval in accordance with Special Condition H12.27.

Part I: Information Requirements

- 12.29 At each End of Quarter Date during the Operational Period, the Licensee must provide to the Regulator details of:
- (a) the Actual Opex Costs incurred by the Licensee with reference to the amount of Actual Opex Costs incurred by the Licensee against the Opex Allowance;
 - (b) any Excluded Project Spend incurred by the Licensee;
 - (c) the Licensee's forecasted Actual Opex Costs for the current Operational Charging Year and all remaining Operational Charging Years in the Regulatory Period;
 - (d) any updates to any values provided by the Licensee in accordance with Special Condition H9.7 (*Allowed Revenue during the Operational Period*); and
 - (e) any other information required relating to the Opex Building Block pursuant to the RIGs or any Regulator guidance.
- 12.30 As soon as possible following each Operational Charging Year, the Licensee shall provide to the Regulator:
- (a) confirmation by the Licensee that the energy costs incurred in such Operational Charging Year were in accordance with the Approved Energy Procurement Strategy;
 - (b) details of the actual energy prices incurred by the Licensee in such Operational Charging Year;
 - (c) the difference between the actual energy prices incurred by the Licensee and the forecast energy prices used in the setting of the Fixed Unit Cost Element of the Variable Opex Allowance for such Operational Charging Year;
 - (d) details of the cost impact to the Licensee of the level of actual energy prices incurred by the Licensee being different to the forecast energy prices used in the setting of the Fixed Unit Cost Element of the Variable Opex Allowance for such Operational Charging Year; and
 - (e) details of the actual outturn CO₂ throughput in tCO₂ for such Operational Charging Year and details of the difference between the actual throughputs of CO₂ and the forecast amount assumed in the setting of the Variable Opex Allowance for such Operational Charging Year;
 - (f) details of the level of the observed MWh/tCO₂ ratio during such Operational Charging Year;

- (g) details of the energy consumed for such Operational Charging Year;
- (h) the Licensee's calculation of the Average Price of Energy incurred by the Licensee in accordance with the Approved Energy Procurement Strategy for such Operational Charging Year;
- (i) the aggregate Re-use Daily Quantity for all Users of the Re-use Service for such Operational Charging Year; and
- (j) the aggregate Daily Quantity for all Users of the T&S Network for such Operational Charging Year; and
- (k) evidence to substantiate the figures provided in accordance with this Special Condition H12.30.

12.31 Where the Regulator considers that the confirmation, analysis or information received under Special Condition H12.30 is insufficient, then the Regulator can make a request for any additional information that it considers appropriate and the Licensee must provide such information to the Regulator within ten Business Days of the request, or within such extended time as agreed by the Regulator.

Special Condition H13: Opex Incentive Building Block

Introduction

13.1 The purpose of this special condition is to calculate the value of the Opex Incentive Building Block applicable during each Operational Charging Year.

Structure

13.2 This special condition is structured as follows:

- (a) Part A sets out how the Opex Incentive Building Block will be calculated in each Operational Charging Year; and
- (b) Part B explains that the Opex Incentive Building Block shall be subject to a reconciliation.

Part A: Calculation of Opex Incentive Building Block

13.3 The Opex Incentive Building Block will apply in each Operational Charging Year.

13.4 The Opex Incentive Building Block for each Operational Charging Year during the Operational Period will be calculated in accordance with the following formula:

$$OI_t = (AO_t - OA_t) \times OSF$$

where:

Term	Description	Price Base
OI_t	means the Opex Incentive Building Block for Operational Charging Year _t	£ real (Base Year)
AO_t	means the Actual Opex Costs for Operational Charging Year _t	£ real (Base Year)
OA_t	means the Opex Allowance(s) for Operational Charging Year _t	£ real (Base Year)
OSF	means the Opex Sharing Factor	N/A

13.5 The value of the Opex Incentive Building Block for each Operational Charging Year may be positive or negative.

Part B: Reconciliation of Opex Incentive Building Block

13.6 The Opex Incentive Building Block will be subject to a reconciliation in accordance with Special Condition H9.7 (*Calculation of Allowed Revenue during the Operational Period*).

Special Condition H14: ETS Building Block

Introduction

- 14.1 The purpose of this special condition is to calculate the value of the ETS Building Block applicable during each Operational Charging Year.

Structure

- 14.2 This special condition is structured as follows:
- (a) Part A sets out how allowances are to be set in respect of UK ETS;
 - (b) Part B sets out how the ETS Building Block will be calculated in each Operational Charging Year;
 - (c) Part C explains that the ETS Building Block shall be subject to a reconciliation; and
 - (d) Part D sets out the information required from the Licensee in relation to its costs relating to the ETS Building Block.

Part A: ETS Allowances

- 14.3 In accordance with the RIGs, the Licensee is required:
- (a) to provide quarterly updates throughout the Construction Period and Commissioning Period of the Licensee's forecasted ETS Costs (including forecasted ETS prices) for each Operational Charging Year during the First Regulatory Period; and
 - (b) to provide the Licensee's assessment as to whether such forecasted ETS Costs are such that amendments are required to be made to the provisional ETS Allowances that were agreed prior to Licence Award.
- 14.4 Eight months prior to Scheduled COD, taking into consideration the information provided by the Licensee pursuant to Special Condition H14.3 and any additional information provided pursuant to the RIGs or any Regulator guidance, the Regulator will determine the ETS Allowance for each Operational Charging Year in the First Regulatory Period and will make amendments to update the Financial Settlement Document to reflect such determination.
- 14.5 Unless otherwise determined by the Regulator, the ETS Allowances for the First Regulatory Period will be an annual allowance for each Operational Charging Year (such allowances to be reduced on a proportionate basis where the relevant Operational Charging Year is a part year).
- 14.6 In determining the ETS Allowances for the First Regulatory Period in accordance with Special Condition H14.4 (*ETS Building Block*):
- (a) the volume element of the ETS Allowance is to be set on an ex ante basis; and
 - (b) the price component of the ETS Allowance is to be set on a forecast basis.

- 14.7 In accordance with Special Conditions H14.8 and E2.2(e), the price component of the ETS Allowance will be subject to a true up once actual outturn prices are known.

Part B: Calculation of ETS Building Block

- 14.8 The ETS Building Block for each Operational Charging Year will be calculated in accordance with the following formula:

$$ETS_t = (ETSV_t \times PETSP_t) + (ETSV_t \times (ATESP_t - PETSP_t))$$

where:

Term	Description	Price Base
ETS_t	means the ETS Building Block for Operational Charging Year _t	£ real (Base Year)
$ETSV_t$	means the ETS volume component of the ETS Allowance (in tCO ₂) for Operational Charging Year _t	N/A
$PETSP_t$	means the forecast price component (based on a forecast of the average clearing price of the UK ETS auctions set to take place over Operational Charging Year _t , as published by ICE Futures Europe) of the ETS Allowance (in £/tCO ₂) for Operational Charging Year _t	£ real (Base Year)
$ATESP_t$	means the actual outturn price of the forecast price component (based on the average clearing price of the UK ETS auctions that take place over Operational Charging Year _t , as published by ICE Futures Europe) of the ETS Allowance for Operational Charging Year _t	£ real (Base Year)

Part C: Reconciliation of ETS Building Block

- 14.9 The ETS Building Block will be subject to a reconciliation in accordance with Special Condition H9.7 (*Calculation of Allowed Revenue during the Operational Period*).

Part D: Provision of information

- 14.10 At each End of Quarter Date during the Operational Period, the Licensee must provide to the Regulator details of:
- (a) the ETS expenditure (which shall be separate from any information provided in respect of the Actual Opex Costs incurred by the Licensee in accordance with Special Condition H12.29 (*Opex Building Block*)) and any available actual ETS outturn prices relating to the ETS Building Block;
 - (b) any Excluded Project Spend incurred by the Licensee;
 - (c) the Licensee's forecasted ETS expenditure for the current Operational Charging Year and all remaining Operational Charging Years in the Regulatory Period;
 - (d) any updates to any values provided by the Licensee in accordance with Special Condition H8.7 (*Allowed Revenue during the Operational Period*); and

- (e) any other information required relating to the ETS Building Block pursuant to the RIGs or any Regulator guidance.

Special Condition H15: Pass Through Costs Building Block

Introduction

15.1 The purpose of this special condition is to calculate the value of the Pass Through Costs Building Block for each Operational Charging Year.

Structure

15.2 This special condition is structured as follows:

- (a) Part A sets out the calculation of the Pass Through Costs Building Block;
- (b) Part B sets out the information required from the Licensee to evidence its Pass Through Costs;
- (c) Part C sets out the Pass Through Costs Review Procedure; and
- (d) Part D explains that the Pass Through Costs Building Block shall be subject to a reconciliation.

Part A: Calculation of the Pass Through Costs Building Block

15.3 In accordance with Special Conditions H15.6, H15.8 and H15.9 the Licensee will be entitled to certain amounts, on a pass through basis, in respect of specified costs incurred or to be incurred by the Licensee in connection with the Approved T&S Network that are outside of its control.

15.4 The Regulator may request evidence from the Licensee in support of any costs incurred by the Licensee in respect of which it is entitled to account for as part of the Pass Through Costs Building Block.

15.5 The Licensee may request that the Regulator considers whether additional fees incurred or to be incurred by the Licensee to regulators in connection with the Approved T&S Network and which are outside of its control should be included in the calculation of Pass Through Costs by direction. Where the Regulator agrees to such direction, the Regulator will modify this licence as necessary to give effect to its direction.

15.6 The Pass Through Costs Building Block for each Operational Charging Year will be calculated in accordance with the following formula:

$$PTC_t = BR_t + RLF_t + NSTAF_t + CELF_t + SCAF_t + EA_t + OPRED_t + IC_t$$

where:

Term	Description	Price Base
PTC _t	means the Pass Through Costs Building Block for Operational Charging Year _t	£ real (Base Year)

Term	Description	Price Base
BR _t	means the Business Rates payable by the Licensee in Operational Charging Year _t	£ real (Base Year)
RLF _t	means the Regulator Licence Fees payable by the Licensee in Operational Charging Year _t	£ real (Base Year)
NSTAF _t	means the NSTA Fees payable by the Licensee in Operational Charging Year _t	£ real (Base Year)
CEL _{Ft}	means the Crown Estate Lease Fees payable by the Licensee during Operational Charging Year _t	£ real (Base Year)
SCAF _t	means the SCA Fee payable by the Licensee in Operational Charging Year _t	£ real (Base Year)
EA _t	means the EA Fees incurred by the Licensee in Operational Charging Year _t	£ real (Base Year)
OPRED _t	means the OPRED Fees incurred by the Licensee in Operational Charging Year _t	£ real (Base Year)
IC _t	means the Independent Certifier Fees incurred by the Licensee in Operational Charging Year _t	£ real (Base Year)

Part B: Provision of information

15.7 At each End of Quarter Date during the Operational Period, the Licensee must provide to the Regulator details of:

- (a) the Pass Through Costs incurred by the Licensee in the Quarter ending on such End of Quarter Date (which shall be separate from any information provided in respect of the Actual Opex Costs incurred by the Licensee in accordance with H12.29) in accordance with the RIGs or any Regulator guidance including evidence:
 - (i) to substantiate that the Pass Through Costs incurred were unavoidable; and
 - (ii) that the Pass Through Costs were verified and mitigated by the Licensee to the extent possible; and
- (b) the Licensee's forecast of any Pass Through Costs to be incurred in the current Operational Charging Year and all remaining Operational Charging Years in the Regulatory Period.

15.8 The Regulator will, using the information provided by the Licensee under Special Condition H15.7(a), assess any Pass Through Costs incurred by the Licensee in accordance with the Regulator's Cost Guidance. The Regulator will also assess the extent to which any Pass Through Costs incurred by the Licensee were unavoidable, verified and mitigated by the Licensee (to the extent possible). Where the Regulator considers that any Pass Through Costs were not unavoidable, verified and mitigated by the Licensee (to the extent possible), the Regulator may adjust the value of the Pass Through Costs by direction.

- 15.9 The Regulator will assess any Pass Through Costs incurred by the Licensee in accordance with the Regulator's Cost Guidance and may adjust the value of the Pass Through Costs by direction.

Part C: Pass Through Costs Review Procedure

- 15.10 The Licensee must engage with the Relevant Valuation Regulator and use reasonable endeavours to minimise its liabilities in respect of the Business Rates.
- 15.11 The Licensee must engage with any regulators whose fees form part of the calculation of the Pass Through Costs in accordance with Special Condition H15.6 to ensure that invoices are accurate and engage with any relevant charging review to minimise the Licensee's liabilities which are calculated as a part of the Pass Through Costs. The Licensee shall ensure that it engages fully in technical engagement with any regulator whose fees are part of the calculation of the Pass Through Costs in order to minimise these liabilities.
- 15.12 The Regulator may review the Licensee's engagement with the Relevant Valuation Regulator with respect to a revaluation.
- 15.13 If, after reviewing the Licensee's engagement in accordance with Special Condition H15.12 and requesting any Supporting Information required from the Licensee, the Regulator considers that the Licensee has not complied with Special Condition H15.10, the Regulator may adjust the value of the Pass Through Costs Building Block for an Operational Charging Year by direction.
- 15.14 Before making a direction under Special Condition H15.13 the Regulator will publish on the Regulator's Website:
- (a) the text of the proposed direction;
 - (b) the reasons for the proposed direction; and
 - (c) a period during which representations may be made on the proposed direction, which must not be less than 28 days.

Part D: Reconciliation of Pass Through Costs Building Block

- 15.15 The Pass Through Costs Building Block will be subject to a reconciliation in accordance with Special Condition H9.7 (*Calculation of Allowed Revenue during the Operational Period*).

Special Condition H16: Decommissioning Building Block

Introduction

16.1 The purpose of this special condition is to set out how the Decommissioning Building Block will be calculated for each Operational Charging Year.

Decommissioning Building Block

16.2 The Licensee will be entitled to an annual decommissioning allowance as part of its Allowed Revenue in respect of amounts required to be paid by the Licensee into the Onshore Decommissioning Fund and the Offshore Decommissioning Fund.

16.3 The Decommissioning Building Block for each Operational Charging Year will be calculated in accordance with the following formula:

$$Decom_t = OFFCA_t + ONCA_t$$

where:

Term	Description	Price Base
$Decom_t$	means the Decommissioning Building Block for Operational Charging Year _t	£ Operational Charging Year _t
$OFFCA_t$	means Offshore Decommissioning Fund Contribution Amount for Operational Charging Year _t , approved by the Regulator pursuant to Standard Condition D2.9 (<i>Offshore Decommissioning Fund</i>)	£ Operational Charging Year _t
$ONCA_t$	means Onshore Decommissioning Fund Contribution Amount for Operational Charging Year _t , approved by the Regulator pursuant to Standard Condition C2.9 (<i>Onshore Decommissioning Fund</i>)	£ Operational Charging Year _t

Special Condition H17: Tax Building Block during the Operational Period

Introduction

17.1 The purpose of this special condition is to provide the tax allowance to compensate the Licensee for its expected tax costs during the Operational Period.

Structure

17.2 This special condition is structured as follows:

- (a) Part A sets out details of the calculation of the Tax Building Block;
- (b) Part B sets out when the tax allowance clawback mechanism will be triggered;
- (c) Part C provides details of the process that the Regulator will follow before determining any Tax Allowance Adjustment;
- (d) Part D sets out the Licensee's obligation to send the Regulator an annual assurance statement in relation to the Tax Reconciliation;
- (e) Part E provides details of steps that the Regulator may take prior to the revocation or determination of this licence;
- (f) Part F explains that the Tax Building Block shall be subject to a reconciliation; and
- (g) Part G sets out the information required for the Licensee in relation to its costs relating to the Tax Building Block.

Part A: Tax Building Block

17.3 The Tax Building Block forms part of the annual Allowed Revenue calculation and is calculated on a notional basis to reflect an amount allowed by the Regulator in respect of Corporation Tax paid, allowed or received in the Operational Charging Year by the Licensee.

17.4 The approach to calculating the Tax Building Block amount will be determined in accordance with the Price Control Financial Model, the Price Control Financial Guidance and the Price Control Financial Handbook.

17.5 In any Operational Charging Year where the Licensee's liability to pay or receive an amount in respect of Corporation Tax or any Corporation Tax rebate or allowance is zero, unless other reconciliations or adjustments apply in accordance with Special Condition H17.16, the Tax Building Block amount will be zero.

- 17.6 For each Operational Charging Year during the Operational Period, the value of the Tax Building Block will be calculated in accordance with the following formula:

$$Tax_t = TAX_t + TAXA_t$$

where:

Term	Description	Price Base
Tax_t	means the Tax Building Block for Operational Charging Year _t	£ real (Base Year)
TAX_t	means the Calculated Tax Allowance for Operational Charging Year _t where the Licensee's liability to pay or receive an amount in respect of Corporation Tax or any Corporation Tax rebate or allowance is zero its value will be zero	£ real (Base Year)
$TAXA_t$	means the Tax Allowance Adjustment that is to be applied to adjust the Allowed Revenue in accordance with a determination by the Regulator pursuant to Special Conditions H17.8 to H17.13	£ real (Base Year)

Part B: Tax clawback

- 17.7 If the Licensee's Actual Corporation Tax Liability is less than the amount of the Tax Building Block in Operational Charging Year_{t-2} and such variation is due to a divergence between the Licensee's actual gearing and the Notional Gearing assumption made by the Regulator for the purpose of setting the Tax Building Block, the Regulator may deduct this from the Allowed Revenue in Operational Charging Year_t.

Part C: Tax Allowance Adjustment ($TAXA_t$)

- 17.8 The Regulator will consider whether a tax adjustment is appropriate and, if so, determine the Tax Allowance Adjustment (" $TAXA_t$ ").
- 17.9 The effect is to adjust the Allowed Revenue, if required, following a review of material differences between the Licensee's Calculated Tax Allowance and its Actual Corporation Tax Liability, in accordance with [Chapter [●] of the Price Control Financial Handbook].
- 17.10 The Regulator may also make an adjustment to the $TAXA$ in accordance with the process set out in Special Conditions H17.9 to H17.13.

Undertaking a tax review

- 17.11 The Regulator may undertake a tax review of any material differences between the Licensee's Calculated Tax Allowance and its Actual Corporation Tax Liability, in accordance with Chapter [●] of the Price Control Financial Handbook.

- 17.12 Where the Regulator notifies the Licensee that it has decided to undertake a tax review and given the reasons for that decision, the Licensee must:
- (a) procure an Appropriately Qualified Independent Examiner to examine the differences between the Licensee's Calculated Tax Allowance and its actual tax liability and submit a report to the Regulator;
 - (b) carry out any reasonable steps specified by the Regulator for such a procurement and comply with any requirements reasonably specified by the Regulator as to the terms of appointment of the Appropriately Qualified Independent Examiner;
 - (c) ensure that the Appropriately Qualified Independent Examiner carries out the work within the scope, and by the date, reasonably specified by the Regulator as to the terms of appointment of the Appropriately Qualified Independent Examiner; and
 - (d) send to the Regulator a report from the Appropriately Qualified Independent Examiner in the form, and containing the content, specified by the Regulator, after discussing with the Appropriately Qualified Independent Examiner.
- 17.13 Following receipt of the Appropriately Qualified Independent Examiner's report, the Regulator will:
- (a) determine any adjustment to the value of the TAXA_t term that it considers should be made taking account of the report;
 - (b) specify the Operational Charging Years to which the adjustment relates; and
 - (c) set out its reasons for its assessment under sub-paragraphs (a) and (b).

Part D: Tax Reconciliation assurance statement

- 17.14 The Licensee is required to send to the Regulator an annual assurance statement in relation to the Tax Reconciliation template and sets out the form of that statement.
- 17.15 The Licensee must, by [●] of each Operational Charging Year, send to the Regulator an assurance statement, relating to Operational Charging Year_{t-2} that:
- (a) has been approved by a resolution of the Licensee's board of directors; and
 - (b) is set out in the form prescribed in Special Condition H17.16 or, where Special Condition H17.17 applies, in the form prescribed in Special Condition H17.18.
- 17.16 "In accordance with the requirements of Special Condition H17.16 (*Tax during the Operational Period*), the Directors of [Licensee] (the "Licensee") hereby certify that for the Operational Charging Year [Operational Charging Year_{t-2}] in their opinion:
- (a) the adjusted notional tax allowance as shown in the Tax Reconciliation template represents a fair interpretation of the Licensee's adjusted Actual Corporation Tax Liability as show in the Licensee's Company Tax Return (CT600);

- (b) the Tax Reconciliation has been submitted to the Office of Gas and Electricity Markets along with a copy of:
 - (i) the Licensee's most recent CT600 as submitted to His Majesty's Revenue and Customs;
 - (ii) the Licensee's most recently submitted Senior Accounting Officer (SA02) certificate as per sub-paragraph (i); and
 - (iii) the Licensee's published tax strategy;
- (c) where appropriate, further information has also been provided to support and explain reconciling items in accordance with the Price Control Financial Guidance;
- (d) all adjustments made have been appropriately explained in the Tax Reconciliation supporting commentary; and
- (e) reconciling differences have been appropriately explained and any remaining, unexplained difference is considered immaterial, in aggregate."

17.17 Where the Licensee anticipates a material variance to arise in the Tax Reconciliation as described in Chapter [●] of the Price Control Financial Handbook, the prescribed form for the assurance statement is set out in Special Condition H17.18.

17.18 "In accordance with the requirements of Special Condition H17.15 (*Tax during the Operational Period*), the Directors of [Licensee] (the "Licensee") hereby certify that for the Operational Charging Year [Operational Charging Year_{t-2}] in their opinion:

- (a) the adjusted notional tax allowance as shown in the Tax Reconciliation template does not represent a fair interpretation of the Licensee's adjusted Actual Corporation Tax Liability as show in the Licensee's Company Tax Return (CT600);
- (b) the Tax Reconciliation has been submitted to the Office of Gas and Electricity Markets along with a copy of:
 - (i) the Licensee's most recent CT600 (i) as submitted to His Majesty's Revenue and Customs;
 - (ii) the Licensee's most recently submitted Senior Accounting Officer (**SA02**) certificate as per sub-paragraph (i); and
 - (iii) the Licensee's published tax strategy;
- (c) where appropriate, further information has also been provided to support and explain reconciling items in accordance with the Price Control Financial Guidance;
- (d) all adjustments made have been appropriately explained in the Tax Reconciliation supporting commentary; and
- (e) a notification has been given to the Regulator under Chapter [●] of the Price Control Financial Handbook."

Part E: End of life tax matters

17.19 The Regulator may conduct a review of the Licensee's obligations in relation to tax and the approach to setting the Tax Building Block at any time where the Regulator considers that there may be less than 5 years until the revocation or determination of this licence in accordance with this licence.

Part F: Reconciliation of the Tax Building Block

17.20 The Tax Building Block will be subject to a reconciliation in accordance with Special Condition H9.7 (*Calculation of Allowed Revenue during the Operational Period*).

Part G: Provision of information

17.21 At each End of Quarter Date during the Operational Period, the Licensee must provide to the Regulator details of:

- (a) the actual value of the Corporation Tax paid by the Licensee (which shall be separate from any information provided in respect of the Actual Opex Costs incurred by the Licensee in accordance with Special Condition H12.29);
- (b) any Excluded Project Spend incurred by the Licensee;
- (c) the Licensee's forecasted Corporation Tax costs for the current Operational Charging Year and all remaining Operational Charging Years in the Regulatory Period; and
- (d) any other information required relating to the Tax Building Block pursuant to the RIGs or any Regulator guidance.

Special Condition H18: Availability incentive

Introduction

18.1 The purpose of this special condition is to set out the financial incentive on the Licensee to maximise T&S Network performance and T&S Storage Site performance, minimise outages and to schedule planned outages in an efficient manner.

Structure

18.2 This special condition is structured as follows:

- (a) Part A sets out the Licensee's obligation to use reasonable endeavours to achieve the Availability Target in each Operational Charging Year;
- (b) Part B sets out the Licensee's obligation to achieve the Availability Floor in each Operational Charging Year;
- (c) Part C sets out the method for calculation of Availability in each Operational Charging Year;
- (d) Part D requires the Licensee to keep (and make available) records relating to Availability and Availability Relief Factors;
- (e) Part E requires the Licensee to submit its Availability calculation for each Operational Charging Year and to notify the Regulator of any potential Availability Relief Factors;
- (f) Part F provides for the Regulator to consider and accept or reject:
 - (i) whether any applicable Availability Relief Factors have occurred; and
 - (ii) the Licensee's Availability calculation;
- (g) Part G sets out the definition of "Availability Relief Factors";
- (h) Part H sets out the process which applies where a Licensee's calculation of Availability is not accepted or further evidence is required by the Regulator in respect of the same; and
- (i) Part I sets out the possible Availability Adjustments that may apply to the Allowed Revenue.

Part A: Availability Target

18.3 In each Operational Charging Year, the Licensee must use reasonable endeavours to achieve the Availability Target.

Part B: Availability Floor

- 18.4 In each Operational Charging Year, the Licensee must achieve the Availability Floor.
- 18.5 Where the Licensee does not achieve the Availability Floor in an Operational Charging Year as required by Special Condition H18.4, the Licensee will not be in breach of this licence in respect of such failure where the Licensee:
- (a) in respect of such failure has in place a Correction Plan and (where relevant) an associated Remediation Plan in accordance with Special Conditions H19.4 (*Correction Plans and associated Remediation Plans*) and H19.6 (*Correction Plans and associated Remediation Plans*) approved by the Regulator pursuant to Special Condition H19.10(a) (*Correction Plans and associated Remediation Plans*); and
 - (b) is diligently implementing and complying with such plan(s) in all material respects.

Part C: Calculation of Availability

- 18.6 In each Operational Charging Year, "Availability" will be calculated in accordance with the following formula:

$$A = \left(1 - \frac{\sum_{hh=1}^{THH} \sum_{dp=1}^{TDP} (ACRC_{dphh} + ACN_{dphh})}{\sum_{hh=1}^{THH} \sum_{dp=1}^{TDP} RC_{dphh}} \right)$$

where:

Term	Description
A	means Availability for Operational Charging Year _t
ACN	means Adjusted Curtailed Nominations in MTPA CO ₂
ACRC	means Adjusted Constrained Registered Capacity in MTPA CO ₂
dp	means a Delivery Point
hh	means a Delivery Period
TDP	means the total number of Delivery Points in the T&S Network
THH	means the total number of Delivery Periods in Operational Charging Year _t
RC	means Registered Capacity in MTPA CO ₂

- 18.7 For the purposes of the calculation of Availability under Special Condition H18.6:
- (a) where the Licensee fails to achieve a Phase 2 Acceptance by the relevant Scheduled Phase 2 Acceptance Date, from the Scheduled Phase 2 Acceptance Date until the date on which the relevant Phase 2 Acceptance has been achieved, each Unconnected User shall be deemed to have a Constrained Registered Capacity of 100% of such Unconnected User's anticipated Registered Capacity; and

- (b) fails to achieve an ExpA Acceptance by the relevant Scheduled ExpA Acceptance Date, from the Scheduled ExpA Acceptance Date until the date on which the relevant ExpA Acceptance has been achieved, each Unconnected User shall be deemed to have a Constrained Registered Capacity of 100% of such Unconnected User's anticipated Registered Capacity.

Part D: Records relating to Availability and Availability Relief Factors

- 18.8 The Licensee must keep written records of any potential Availability Relief Factors that have occurred during an Operational Charging Year, which must include the details referred to in Special Conditions H18.10(b)(i) and H18.10(b)(ii) in respect of each such potential Availability Relief Factor.
- 18.9 The Licensee must provide to the Regulator:
- (a) access at all times to, the records referred to in Special Condition H18.8, as well as any other written records which the Licensee is required to keep, publish and/or supply to Users under the CCS Network Code relating to:
 - (i) Curtailed Nominations; and
 - (ii) Constrained Registered Capacity;
 - (b) in the case of records relating to any potential Availability Relief Factors that have occurred during an Operational Charging Year, copies of the same promptly following occurrence of the relevant potential Availability Relief Factor; and
 - (c) in the case of records relating to any applicable Availability Relief Factors, copies of the same promptly following the cessation of any relevant Availability Relief Factor, including details of the number of days which were impacted by any Curtailed Nominations and/or Constrained Registered Capacity.

Part E: Availability calculation

- 18.10 The Licensee must submit its calculation of the Availability (calculated in accordance with the formula set out in Special Condition H18.6) for each Operational Charging Year within one month from the end of that Operational Charging Year, together with any further evidence that the Regulator has notified the Licensee that it requires in respect of the same, which shall include:
- (a) written notice of the occurrence of any potential Availability Relief Factors during the relevant Operational Charging Year; and
 - (b) (where relevant) evidence satisfactory to the Regulator in respect of:
 - (i) the nature, cause(s) and duration of each such potential Availability Relief Factors; and
 - (ii) the impact of each such potential Availability Relief Factor on Nominated Quantity and/or Registered Capacity, including the duration of such impact and the affected Delivery Periods.

Part F: Consideration of evidence provided in respect of the calculation of Availability and applicable potential Availability Relief Factors

- 18.11 The Regulator will consider the evidence provided by the Licensee in respect of the calculation of the Availability for an Operational Charging Year, which will include the evidence provided by the Licensee in respect of the occurrence of potential applicable Availability Relief Factors, and will:
- (a) where applicable Availability Relief Factors have potentially occurred:
 - (i) confirm that an Availability Relief Factor has occurred;
 - (ii) confirm that an Availability Relief Factor has not occurred; or
 - (iii) require further evidence from the Licensee to confirm whether an Availability Relief Factor has occurred; and
 - (b) having confirmed, where applicable, whether or not any applicable Availability Relief Factors have occurred:
 - (i) confirm that the calculation of the Availability for such Operational Charging Year is accepted; or
 - (ii) confirm that the calculation of the Availability for such Operational Charging Year is not accepted; or
 - (iii) require further evidence from the Licensee to confirm whether the calculation of Availability for such Operational Charging Year can be accepted.
- 18.12 Where the Regulator requires further evidence from the Licensee under Special Condition H18.11(a)(iii) or H18.11(b)(iii), the Licensee must promptly provide such evidence to the Regulator and the relevant procedure in this Special Condition H18 shall be repeated.

Part G: Availability Relief Factors

- 18.13 An "**Availability Relief Factor**", subject to limbs (i) and (ii) of this Special Condition H18.13 and Special Condition H18.14, is any of the following factors:
- (a) the occurrence of a Force Majeure Event;
 - (b) the occurrence of a Qualifying Change in Law;
 - (c) disruption to power supply resulting from a network outage on a licensed electricity transmission or distribution network (including as a result of any action by the electricity system operator), the impact of which is beyond the reasonable control of the Licensee, as determined by the Regulator in accordance with Special Condition H18.14;

- (d) an act or omission of a User, including any breach by a User of the CCS Network Code, but excluding the exercise of any rights and/or entitlements by a User under the CCS Network Code, the impact of which is beyond the reasonable control of the Licensee, as determined by the Regulator in accordance with Special Condition H18.14;
- (e) asset damage caused by third parties or natural causes, subject to the Licensee's compliance with Special Condition H27 (*Insurance*); and
- (f) the occurrence of an Insured Risk Event; and
- (g) any other factor designated as an "Availability Relief Factor" in paragraph [2] (*Availability Relief Factors*) of Schedule 10 (*Project-specific conditions*),

in each case:

- (i) provided that the Licensee has provided evidence to the Regulator's satisfaction that such factor directly caused Curtailed Nominations and/or Constrained Registered Capacity in the relevant Operational Charging Year which, in each case, could not have been avoided or overcome or otherwise mitigated by the Licensee acting in accordance with Good Industry Practice; and
- (ii) to the extent that the Licensee has provided evidence to the Regulator's satisfaction that neither such factor nor any such Curtailed Nominations and/or Constrained Registered Capacity were caused or contributed to by acts and/or omissions of the Licensee or of:
 - (A) any of its Affiliates, Related Undertakings or Ultimate Controllers; or
 - (B) any of its agents, employees, contractors, subcontractors or other suppliers (of any tier) working on its behalf,

save where any such Affiliates, Related Undertaking, Ultimate Controller, agent, employee, contractor, subcontractor or other supplier (of any tier) is (i) acting (or omitting to act) solely in its capacity as User; and/or (ii) acting solely on behalf of a User.

18.14 Where the Licensee notifies the Regulator of a potential Availability Relief Factor:

- (a) within limbs (c) and/or (d) of the definition of "**Availability Relief Factor**" set out in Special Condition H18.13; and/or
- (b) where so indicated in paragraph [2] (*Availability Relief Factors*) of Schedule 10 (*Project-specific conditions*), within limb (g) of the definition of "**Availability Relief Factor**" set out in Special Condition H18.13,

in determining whether or not the relevant impact is beyond the reasonable control of the Licensee the Regulator will consider whether it is reasonable in all the circumstances to expect that the Licensee, acting in accordance with Good Industry Practice:

- (a) should have been aware of the relevant triggers and/or contributory factors for:
 - (i) the relevant potential Availability Relief Factor; and
 - (ii) the impact of the same; and
- (b) should have controlled or changed some or all of such triggers or contributory factors to prevent the relevant potential Availability Relief Factor from occurring or to prevent or minimise its impact,

provided that lack of funds shall not, in any circumstances, be interpreted as a cause beyond the reasonable control of the Licensee.

Part H: Licensee's calculation of Availability is not accepted or further evidence is required by the Regulator

18.15 Where the Regulator:

- (a) confirms under Special Condition 18.11(b) that the calculation of the Availability for such Operational Charging Year is not accepted, the Licensee must reassess and resubmit its calculation to the Regulator and the procedures in Special Condition H18.11 shall be repeated; or
- (b) requires further evidence from the Licensee under Special Condition H18.12, the Licensee must provide such evidence to the Regulator and the procedures in Special Condition H18.11 shall be repeated.

18.16 Where, following the resubmission of the Licensee's calculation of the Availability for an Operational Charging Year under Special Condition H18.15(a), the Regulator determines under Special Condition H18.11(b) that the resubmitted calculation is not accepted as the calculation of the Availability for that Operational Charging Year, the Regulator will determine the calculation of the Availability for that Operational Charging Year.

Part I: Availability Adjustment to the Allowed Revenue

18.17 The Availability Adjustment for Operational Charging Year_{t-2} (AA_{t-2}) shall be applied in accordance with Special Condition H9.5 (*Calculation of Allowed Revenue during the Operational Period*) in Operational Charging Year_t.

18.18 Where Confirmed Availability for Operational Charging Year_{t-2}:

- (a) is equal to the Availability Target for Operational Charging Year_{t-2}, the Availability Adjustment for Operational Charging Year_{t-2} shall be zero;
- (b) exceeds the Availability Target for Operational Charging Year_{t-2} by any amount up to and including the Availability Ceiling for Operational Charging Year_{t-2}, the Availability Adjustment for Operational Charging Year_{t-2} shall comprise a positive adjustment to the Allowed Revenue for Operational Charging Year_t up to a cap calculated by reference to 25% of the Regulated Return on Equity for Operational Charging Year_{t-2}, as follows:

(i) where:

- (A) Confirmed Availability for Operational Charging Year_{t-2} is equal to or greater than the Availability Ceiling for Operational Charging Year_{t-2}, the Availability Adjustment for Operational Charging Year_{t-2} will be calculated in accordance with the following formula:

$$AA_{t-2} = \text{Max Reward}_{t-2} \times (1 - AF_{t-2})$$

where:

Term	Description
AA _{t-2}	means the Availability Adjustment for Operational Charging Year _{t-2} pursuant to this Special Condition H18.18(b)(i)(A)
Max Reward _{t-2}	means 25% of the Regulated Return on Equity for Operational Charging Year _{t-2}
AF _{t-2}	means the Adjustment Factor for Operational Charging Year _{t-2} , as calculated in accordance with Special Condition H18.19

- (B) Confirmed Availability for Operational Charging Year_{t-2} is lower than the Availability Ceiling for Operational Charging Year_{t-2} and greater than the Availability Target for Operational Charging Year_{t-2}, the Availability Adjustment for Operational Charging Year_{t-2} will be calculated in accordance with the following formula:

$$AA_{t-2} = \left(\frac{CA_{t-2} - AT_{t-2}}{AC_{t-2} - AT_{t-2}} \right) \times \text{Max Reward}_{t-2} \times (1 - AF_{t-2})$$

where:

Term	Description
AA _{t-2}	means the Availability Adjustment for Operational Charging Year _{t-2} pursuant to this Special Condition H18.18(b)(i)(B)
CA _{t-2}	means Confirmed Availability for Operational Charging Year _{t-2}
AT _{t-2}	means the Availability Target for Operational Charging Year _{t-2}

Term	Description
AC _{t-2}	means the Availability Ceiling for Operational Charging Year _{t-2}
Max Reward _{t-2}	means 25% of the Regulated Return on Equity for Operational Charging Year _{t-2}
AF _{t-2}	means the Adjustment Factor for Operational Charging Year _{t-2} , as calculated in accordance with Special Condition H18.19

(c) fails to meet the Availability Target for Operational Charging Year_{t-2}, the Availability Adjustment for Operational Charging Year_{t-2} shall comprise a negative adjustment to the Allowed Revenue up to a cap calculated by reference to 100% of the Regulated Return on Equity for Operational Charging Year_{t-2}, as follows:

(i) where:

(A) Confirmed Availability for Operational Charging Year_{t-2} is lower than the Availability Target for Operational Charging Year_{t-2} and greater than the Availability Floor for Operational Charging Year_{t-2}, the Availability Adjustment for Operational Charging Year_{t-2} will be calculated in accordance with the following formula:

$$AA_{t-2} = \left(\frac{AT_{t-2} - CA_{t-2}}{AT_{t-2} - AFL_{t-2}} \right) \times \text{Max Deduction}_{t-2} \times (1 - AF_{t-2})$$

where:

Term	Description
AA _{t-2}	means the Availability Adjustment for Operational Charging Year _{t-2} pursuant to this Special Condition H18.18(c)(i)(A)
CA _{t-2}	means Confirmed Availability for Operational Charging Year _{t-2}
AT _{t-2}	means the Availability Target for Operational Charging Year _{t-2}
AFL _{t-2}	means the Availability Floor for Operational Charging Year _{t-2}
Max Deduction _{t-2}	means 100% of the Regulated Return on Equity for Operational Charging Year _{t-2}

Term	Description
AF _{t-2}	means the Adjustment Factor for Operational Charging Year _{t-2} , as calculated in accordance with Special Condition H18.19

- (B) Confirmed Availability for Operational Charging Year_{t-2} is equal to or lower than the Availability Floor for Operational Charging Year_{t-2}, the Availability Adjustment for Operational Charging Year_{t-2} calculated in accordance with the following formula:

$$AA_{t-2} = \text{Max Deduction}_{t-2} \times (1 - AF_{t-2})$$

where:

Term	Description
AA _{t-2}	means the negative adjustment to the Allowed Revenue for Operational Charging Year _{t-2} pursuant to this Special Condition H18.18(c)(i)(B)
Max Deduction _{t-2}	means 100% of the Regulated Return on Equity for Operational Charging Year _{t-2}
AF _{t-2}	means the Adjustment Factor for Operational Charging Year _{t-2} , as calculated in accordance with Special Condition H18.19

18.19 For the purposes of Special Condition H18.17, the applicable "**Adjustment Factor**" shall be:

- (a) where the First Operational Year coincides with the first Operational Charging Year:
 - (i) the applicable Adjustment Factor for the first Operational Charging Year shall be 0.5; and
 - (ii) the applicable Adjustment Factor for all Operational Charging Years subsequent to the first Operational Charging Year shall be 0; and
- (b) where the First Operational Year spans two Operational Charging Years:
 - (i) the applicable Adjustment Factor for the first Operational Charging Year shall be 0.5;

- (ii) the applicable Adjustment Factor for the second Operational Charging Year shall be:

$$0.5 \times \left(\frac{\text{NFOY} - \text{NFOCY}}{\text{NSOCY}} \right); \text{ and}$$

where:

Term	Description
NFOY	means the number of days in the First Operational Year
NFOCY	means the number of days in the first Operational Charging Year
NSOCY	means the number of days in the second Operational Charging Year

- (iii) the applicable Adjustment Factor for all Operational Charging Years subsequent to the second Operational Charging Year shall be 0.

Special Condition H19: Correction Plans and associated Remediation Plans

Introduction

19.1 The purpose of this special condition is to set out:

- (a) the circumstances in which a Correction Plan is required; and
- (b) provisions that apply where a Correction Plan is required.

Structure

19.2 This special condition is structured as follows:

- (a) Part A requires the Licensee provide information relating to any Corrective Measures that the Licensee is required to undertake in respect of the T&S Network;
- (b) Part B requires the Licensee to submit a Correction Plan in certain circumstances;
- (c) Part C provides for a Remediation Plan to be included in a Correction Plan in certain circumstances;
- (d) Part D provides for the Licensee to provide Supporting Information in respect of Correction Plans and Remediation Plans;
- (e) Part E sets out the process by which a Correction Plan and Approved CP Allowances may be approved by the Regulator;
- (f) Part F requires updates to be provided regarding the progress of works and/or activities contemplated by a Correction Plan; and
- (g) Part G requires the Licensee to demonstrate that the relevant works/activities under a Correction Plan have been completed.

Part A: Corrective Measures

19.3 Where the Licensee is required to undertake Corrective Measures in respect of the T&S Network:

- (a) pursuant to:
 - (i) the Licensee's Corrective Measures Plan as included in the Storage Permit; and/or
 - (ii) a Corrective Measures Direction; and/or

- (b) in respect of any Corrective Measures (and/or measures for the protection of human health) required under the Storage Permit which do not fall within Special Condition H19.3(a),

the Licensee must promptly provide to the Regulator:

- (A) the details of such Corrective Measures Plan, Corrective Measures Direction and Corrective Measures (if any); and
- (B) any related and/or additional information that the Regulator considers appropriate and requests from the Licensee in respect of such Corrective Measures Plan, Corrective Measures Direction and Corrective Measures (if any).

Part B: Correction Plans relating to Availability issues and Corrective Measures

19.4 The Licensee must submit a draft Correction Plan to the Regulator for approval where:

- (a) an Availability Issue occurs;
- (b) a Corrective Measures Issue occurs; and/or
- (c) the Licensee makes an Availability Improvement Works Proposal.

19.5 A draft Correction Plan:

- (a) required under Special Condition H19.4(a) must be submitted within two months of the Regulator's determination of Availability in respect of the relevant Operational Charging Year under Special Condition H18.11(a) (*Availability incentive*);
- (b) required under Special Condition H19.4(b) must be submitted as soon as reasonably practicable following occurrence of the relevant Corrective Measures Issue; and
- (c) required under Special Condition H19.4(c) must be submitted within two months of the relevant Availability Improvement Works Proposal.

Part C: Remediation Plans

19.6 A Remediation Plan must be included as part of any draft Correction Plan which is required to be submitted under Special Condition H19.4 in whole or in part because:

- (a) an Availability Issue has occurred as a result of or in connection with a Store Issue and the Licensee forecasts that Substantive Store Capex/Opex¹² is required directly as a result of or in connection with the implementation of the relevant element(s) of the Correction Plan;

¹² **Explanatory note:** where combined Capex and Opex exceeds the relevant de minimis threshold.

- (b) a Corrective Measures Issue has occurred and the Licensee forecasts that Substantive CM Capex/Opex¹³ is required directly as a result of or in connection with the implementation of the relevant element(s) of the Correction Plan; and/or
 - (c) the Licensee is making an Availability Improvement Works Proposal and forecasts that Substantive AIW Capex/Opex¹⁴ is required directly as a result of or in connection with the implementation of the relevant element(s) of the Correction Plan.
- 19.7 A Remediation Plan must include details of such remediation works and/or activities as are necessary:
- (a) in the case of Special Conditions H19.6(a) and H19.6(c), to improve Availability; and
 - (b) in the case of Special Condition H19.6(b) and subject to Special Condition H19.8, to meet the Corrective Measures Requirements.
- 19.8 Where a Remediation Plan includes remediation works and/or activities necessary to meet any Corrective Measures Requirements, the Licensee must:
- (a) provide evidence that it has informed [the NSTA, HSE, OPRED] of such Remediation Plan and, where required by [the NSTA, HSE, OPRED], that it has discussed the elements of the Remediation Plan which relate to such Corrective Measures-related works and/or activities with [the NSTA, HSE, OPRED]; and
 - (b) take into account any comments provided by [the NSTA, HSE, OPRED] (if any) on the elements of the Remediation Plan which relate to such Corrective Measures-related works and/or activities.

Part D: Supporting Information required in respect of Correction Plans and Remediation Plans

- 19.9 When submitting a draft Correction Plan to the Regulator in accordance with Special Condition H19.4, the Licensee must also provide:
- (a) Supporting Information evidencing the Licensee's justification for:
 - (i) the proposed works and/or activities contained within the Correction Plan (including any alternative works and/or activities considered by the Licensee); and
 - (ii) the proposed programme of such works and/or activities; and

¹³ **Explanatory note:** where combined Capex and Opex exceeds the relevant de minimis threshold.

¹⁴ **Explanatory note:** where combined Capex and Opex exceeds the relevant de minimis threshold.

- (b) forecasts of the following costs that the Licensee expects to incur in respect of the proposed works and/or activities contained within the Correction Plan (each a "**CP Forecast**"):
- (i) Capex costs, including individual forecasts in respect of:
 - (A) RP-related Store Capex¹⁵;
 - (B) RP-related CM Capex¹⁶;
 - (C) RP-related AIW Capex¹⁷; and
 - (D) Non-RP-related Capex; and
 - (ii) Opex costs, including individual forecasts in respect of:
 - (A) RP-related Store Opex¹⁸;
 - (B) RP-related CM Opex¹⁹;
 - (C) RP-related AIW Opex²⁰; and
 - (D) Non-RP-related Opex; and
 - (c) any related and/or additional Supporting Information that the Regulator requests from the Licensee in respect of such Correction Plan.

Part E: Approval of Correction Plan and Approved CP Allowances

19.10 Subject to the Licensee having complied with Special Conditions H19.8 and H19.9 where the Licensee has provided a draft Correction Plan to the Regulator for approval under Special Condition H19.4, the Regulator will review such draft Correction Plan and will:

- (a) determine that the draft Correction Plan is approved and, as part of such approval:
 - (i) determine that any Remediation Plan included within the draft Correction Plan is approved; and

¹⁵ **Explanatory note:** Store Capex which is provided for within a Remediation Plan (i.e. where the de minimis threshold for Capex and Opex has been exceeded).

¹⁶ **Explanatory note:** CM Capex which is provided for within a Remediation Plan (i.e. where the de minimis threshold for Capex and Opex has been exceeded).

¹⁷ **Explanatory note:** AIW Capex which is provided for within a Remediation Plan (i.e. where the de minimis threshold for Capex and Opex has been exceeded).

¹⁸ **Explanatory note:** Store Opex which is provided for within a Remediation Plan (i.e. where the de minimis threshold for Capex and Opex has been exceeded).

¹⁹ **Explanatory note:** CM Opex which is provided for within a Remediation Plan (i.e. where the de minimis threshold for Capex and Opex has been exceeded).

²⁰ **Explanatory note:** AIW Opex which is provided for within a Remediation Plan (i.e. where the de minimis threshold for Capex and Opex has been exceeded).

- (ii) taking into account the factors referred to in Special Condition H19.12 (but not being bound by any CP Forecast submitted by the Licensee), determine:
 - (A) the approved level of spend as against each CP Forecast (each an **"Approved CP Spend"**);
 - (B) taking into account the CP Forecasts for each Operational Charging Year, determine the approved aggregate level of spend in each Operational Charging Year for each of:
 - (aa) CM Capex and CM Opex;
 - (bb) Store Capex and Store Opex; and
 - (cc) AIW Capex and AIW Opex; andwhich aggregate approved level of spend shall, in each case, be the total of the relevant Approved CP Spend(s) in respect of the Operational Charging Year to which the relevant spend relates (each an **"Approved CP Allowance"**);
 - (b) determine that the draft Correction Plan is not approved and provide its reasons for such non-approval; or
 - (c) require further Supporting Information from the Licensee to determine whether to approve the draft Correction Plan.
- 19.11 Unless otherwise determined by the Regulator, any Approved CP Allowance set under this Special Condition H19 will be an annual allowance for each Operational Charging Year in which a Correction Plan is anticipated to be implemented covering (as the case may be) all:
- (a) CM Capex and CM Opex;
 - (b) Store Capex and Store Opex; or
 - (c) AIW Capex and AIW Opex.
- 19.12 In considering whether to approve a draft Correction Plan under Special Condition H19.10:
- (a) the Regulator will assess whether each CP Forecast included in the relevant draft Correction Plan is economic, efficient and effective, taking into account and reducing the relevant Approved CP Spend(s) and Approved CP Allowance(s) accordingly, among other things:
 - (i) any element of each CP Forecast in respect of which allowances have already been provided pursuant to the conditions of this licence, including in respect of Phase 2 Activities or Expansion Activities which have not achieved Phase 2 Acceptance or ExpA Acceptance (as relevant);

- (ii) the extent to which any forecast Store Capex and/or Store Opex directly relates to the implementation of the relevant Correction Plan (or relevant part thereof) which addresses the remediation of the relevant Store Issue(s), where relevant;
- (iii) the extent to which any forecast CM Capex and/or CM Opex directly relates to the implementation of the part of the relevant Correction Plan (or relevant part thereof) which addresses Corrective Measures Action(s), where relevant;
- (iv) the extent to which any forecast AIW Capex and/or AIW Opex directly relates to the implementation of the part of the relevant Correction Plan (or relevant part thereof) which addresses the Availability Improvement Works, where relevant;
- (v) in the context of Store Capex, Store Opex, AIW Capex and/or AIW Opex, the extent to which a failure to meet the Availability Target is caused or contributed to by acts and/or omissions of the Licensee, including any failure by the Licensee to take reasonable steps that are consistent with Good Industry Practice to manage, minimise and/or otherwise mitigate the effects on Availability, provided that, where this Special Condition H19.12(a)(v) applies, the percentage of Store Capex, Store Opex, AIW Capex and/or AIW Opex (as applicable) that is included in the relevant Approved CP Spend and Approved CP Allowance may be reduced on a proportionate basis; and/or
- (vi) in the context of CM Capex and/or CM Opex, the extent to which the need to perform a Corrective Measure is attributable to any fault, negligence and/or misconduct of the Licensee, provided that, where this Special Condition H19.12(a)(vi) applies, the percentage of CM Opex and/or CM Capex that is included in the relevant Approved CP Spend and Approved CP Allowance may be reduced on a proportionate basis;
- (vii) in the context of AIW Capex, the extent to which:
 - (A) the relevant AIW is required; and
 - (B) it would be efficient for the relevant AIW to be carried out, at the proposed time, taking into account all relevant circumstances; and

- (b) in relation to the Regulator's determination of the relevant Approved CP Spend(s) Approved CP Allowance(s) in respect of RP-related Opex and Non-RP-related Opex, the Regulator's rights pursuant to Special Condition H12.7 (*Opex Allowances*) shall apply in respect of such each such allowance.

19.13 Where the Regulator:

- (a) determines under Special Condition H19.10(a) that the draft Correction Plan is approved:
 - (i) the draft Correction Plan will constitute a Correction Plan for the purposes of this licence; and
 - (ii) the Licensee must implement the approved Correction Plan as soon as reasonably practicable; or
- (b) determines under Special Condition H19.10(b) that the Correction Plan is not approved:
 - (i) the Licensee must promptly amend and resubmit the Correction Plan to the Regulator; and
 - (ii) the procedures in Special Condition H19.10 shall be repeated.

Part F: Provision of updates regarding works and/or activities contemplated by the relevant Correction Plan

19.14 The Licensee must provide updates to the Regulator at regular intervals as determined by the Regulator on a case-by-case basis and such updates shall:

- (a) be in the form approved by the Regulator;
- (b) set out the Licensee's progress in respect of the works and/or activities required by the relevant Correction Plan, including in relation to the proposed programme of such works and/or activities included in the relevant Correction Plan; and
- (c) include:
 - (i) an update as to progress of the relevant works and/or activities, including as against any milestones set out in the relevant Correction Plan; and
 - (ii) details of spend so far as against the relevant budget, including up-to-date details of all funding sources.

19.15 The Licensee must notify the Regulator if at any time the Licensee considers that a Correction Plan needs to be updated or otherwise amended, which notice must give particulars of:

- (a) the Licensee's proposals to update or otherwise amend the Correction Plan;
- (b) any investigations and additional works undertaken by the Licensee to try to implement the Correction Plan without update or other amendment;

- (c) a detailed justification, together with relevant Supporting Information, as to why the Licensee considers that:
 - (i) the Correction Plan cannot be implemented without update or other amendment or it would not be economic, efficient and effective to implement the Correction Plan without update or other amendment; and
 - (ii) it is, or would be, economic, efficient and effective to update or otherwise amend the Correction Plan as proposed by the Licensee under Special Condition H19.15(a);
- (d) the forecast impact of implementing the Correction Plan without such update or other amendment as proposed by the Licensee under Special Condition H19.15(a);
- (e) the Licensee's proposed approach to mitigating the impact of updating or otherwise amending the Correction Plan as proposed by the Licensee under Special Condition H19.15(a); and
- (f) such other Supporting Information that the Regulator notifies the Licensee that the Regulator requires.

19.16 Where Special Condition H19.15 applies the Regulator may:

- (a) determine that the relevant Correction Plan be updated or amended as proposed by the Licensee under Special Condition H19.15(a) and determine adjustments (if any) to the relevant Approved CP Spend(s) and Approved CP Allowance(s);
- (b) determine that that the relevant Correction Plan may not be updated or amended as proposed by the Licensee under Special Condition H19.15(a); or
- (c) require further Supporting Information from the Licensee to determine whether the relevant Correction Plan may be updated or otherwise amended as proposed by the Licensee under Special Condition H19.15(a).

19.17 Where the Regulator:

- (a) determines under Special Condition H19.15(a) that the relevant Correction Plan be updated or otherwise amended as proposed by the Licensee under Special Condition H19.15(a):
 - (i) the updated or otherwise amended Correction Plan will thereafter constitute the relevant Correction Plan for the purposes of this licence;
 - (ii) the Licensee must implement such updated or otherwise amended Correction Plan as soon as reasonably practicable; and
 - (iii) any costs incurred by the Licensee in respect of the relevant Correction Plan prior to the Regulator's determination that the relevant Correction Plan be updated or otherwise amended shall be assessed by the Regulator as against the relevant Correction Plan prior to such determination.

19.18 Where the Regulator:

- (a) determines under Special Condition H19.16(b) that the relevant Correction Plan may not be updated or otherwise amended as proposed by the Licensee under Special Condition H19.15(a):
 - (i) the Licensee may amend its proposals for the update or otherwise amendment of the Correction Plan under Special Condition H19.15(a) and resubmit the same to the Regulator; and
 - (ii) the procedures in Special Condition H19.15 and H19.16 shall be repeated.

19.19 The Licensee must provide such assistance and such Supporting Information to the Regulator as the Regulator may require in connection with Special Condition H19.16.

Part G: Completion of works and/or activities contemplated by the relevant Correction Plan

19.20 As soon as reasonably practicable following completion of the works and/or activities contemplated by a Correction Plan, the Licensee must:

- (a) demonstrate to the Regulator's satisfaction that such works and/or activities contemplated by the relevant approved Correction Plan have been completed by the Licensee in accordance with the relevant Correction Plan; and
- (b) provide Supporting Information in respect of the same as may be requested by the Regulator.

19.21 The Regulator will consider the Supporting Information provided by the Licensee under Special Condition H19.20 in respect of completion of works and/or activities contemplated by a Correction Plan and will:

- (a) determine that the works and/or activities contemplated by the relevant approved Correction Plan have been completed by the Licensee;
- (b) determine that the works and/or activities contemplated by the relevant approved Correction Plan have not been completed by the Licensee; or
- (c) require further Supporting Information from the Licensee to determine whether the works and/or activities contemplated by the relevant approved Correction Plan have been completed.

19.22 Where the Regulator:

- (a) determines under Special Condition H19.21(b) that the works and/or activities contemplated by the approved Correction Plan have not been completed by the Licensee, the Licensee must take further steps to complete them and the procedures in Special Conditions H19.20 and H19.21 shall be repeated; or
- (b) requires further Supporting Information from the Licensee under Special Condition H19.21(c), the Licensee must provide such Supporting Information to the Regulator and the procedure in Special Condition H19.21 shall be repeated,

in each case until the Regulator determines that the works and/or activities contemplated by the approved Correction Plan have been completed.

Special Condition H20: Corrective Measures-related spend under a Remediation Plan

Introduction

20.1 The purpose of this special condition is to set out the provisions that apply in relation to RP-related CM Capex and RP-related CM Opex spend.

Structure

20.2 This special condition is structured as follows:

- (a) Part A sets out the provisions that apply in relation to RP-related CM Capex;
- (b) Part B sets out the provisions that apply in relation to RP-related CM Opex;
- (c) Part C sets the information required from the Licensee in relation to its Actual RP-related CM Capex Costs and Actual RP-related CM Opex Costs and
- (d) Part D explains that the RP-related CM Building Block shall be subject to a reconciliation.

Part A: RP-related CM Capex

20.3 Any Actual RP-related CM Capex Costs shall not constitute Actual Ongoing Capex Costs for the purposes of the calculation of Ongoing Capex under Special Condition H4 (*Ongoing Capex during the Operational Period*) or the Ongoing Capex Incentive calculation.

20.4 The RP-related CM Capex for each Operational Charging Year will be calculated in accordance with the following formula:

$$CMC_t = LOGCMC_t + EXCMC_t$$

where:

Term	Description	Price Base
CMC_t	means the RP-related CM Capex for Operational Charging Year _t	£ real (Base Year)
$LOGCMC_t$	means the Logged RP-related CM Capex Costs for Operational Charging Year _t	£ real (Base Year)
$EXCMC_t$	means the Excess RP-related CM Capex Costs for Operational Charging Year _t	£ real (Base Year)

which, save where Special Condition H20.6 applies, shall form part of the calculation of RAV Additions for Operational Charging Year_t under Special Condition H3.8 (*Calculation of the RAV Additions*).

20.5 The RP-CM Capex Costs Incentive will be calculated as follows:

$$CMCI_t = (ACPACMC_t - APMC_t) \times RPCMCSF$$

where:

Term	Description	Price Base
CMCI _t	means the RP-CM Capex Costs Incentive for Operational Charging Year _t	£ real (Base Year)
ACPACMC _t	means the relevant Approved CP Allowance(s) relating to RP-related CM Capex for Operational Charging Year _t	£ real (Base Year)
APMC _t	means the Actual RP-related CM Capex Costs for Operational Charging Year _t	£ real (Base Year)
RPCMCSF	means the RP-CM Capex Costs Incentive Sharing Factor	N/A

20.6 In respect of each Correction Plan, the Regulator may include in its determination to approve the Correction Plan under Special Condition H19.10(a) an election that all or some of the Actual RP-related CM Capex Costs that relate to the relevant Correction Plan (such costs being the **"AR CM Capex Costs"**) will not accrue to the RAV under Special Condition H20.5, and where such an election is made;

- (a) the Regulator will determine a separate allowance in respect of the AR CM Capex Costs (an **"AR CM Capex CP Allowance"**) and the relevant Approved CP Allowance will be adjusted accordingly to reflect such determination;
- (b) the Regulator will determine any necessary adjustments to be made to reflect such election, including:
 - (i) to the RP-CM Capex Costs Incentive; and
 - (ii) applying an AR CM Capex Costs incentive (which shall be on the same basis as for the RP-CM Capex Costs Incentive (including as to timing and the relevant sharing factor)), as adjusted to reflect the AR CM Capex Costs incurred by the Licensee and the AR CM Capex CP Allowance (the **"AR CM Capex Costs Incentive"**);
- (c) the relevant AR CM Capex Costs will not accrue to the RAV as Actual RP-related CM Capex Costs; and
- (d) the calculation of Base Revenue in Special Condition H9.5 (*Calculation of Base Revenue*) shall be construed to include:
 - (i) the AR CM Capex Costs for each Operational Charging Year in which the relevant Correction Plan applies; and

- (ii) the AR CM Capex Costs Incentive for each Operational Charging Year in which the relevant Correction Plan applies.

20.7 The value of the RP-CM Capex Costs Incentive for each Operational Charging Year may be positive or negative.

Part B: RP-related CM Opex

20.8 Any Actual RP-related CM Opex Costs shall not constitute Actual Opex Costs for the purposes of the Opex Building Block or the Opex Incentive Building Block.

20.9 The RP-related CM Opex for each Operational Charging Year will be calculated in accordance with the following formula:

$$CMO_t = LOGCMO_t + EXCMO_t$$

where:

Term	Description	Price Base
CMO _t	means the RP-related CM Opex for Operational Charging Year _t	£ real (Base Year)
LOGCMO _t	means the Logged RP-related CM Opex Costs for Operational Charging Year _t	£ real (Base Year)
EXCMO _t	means the Excess RP-related CM Opex Costs for Operational Charging Year _t	£ real (Base Year)

20.10 The RP-CM Opex Costs Incentive:

- (a) will apply in each Operational Charging Year_t with the RP-CM Opex Costs Incentive reflected in the Allowed Revenue calculation as a positive or negative adjustment in Operational Charging Year_t; and
- (b) will be calculated in accordance with the following formula:

$$CMOI_t = (ACPACMO_t - ACMO_t) \times RPCMOSF$$

where:

Term	Description	Price Base
CMOI _t	means the RP-CM Opex Costs Incentive for Operational Charging Year _t	£ real (Base Year)
ACPACMO _t	means the relevant Approved CP Allowance(s) relating to RP-related CM Opex for Operational Charging Year _t	£ real (Base Year)

Term	Description	Price Base
ACMO _t	means the Actual RP-related CM Opex Costs during Operational Charging Year _t	£ real (Base Year)
RPCMOSF	means the RP-CM Opex Costs Incentive Sharing Factor	N/A

20.11 The value of the RP-CM Opex Costs Incentive for each Operational Charging Year may be positive or negative.

Part C: Provision of Information

20.12 At each End of Quarter Date during the Operational Period, the Licensee must provide to the Regulator details of:

- (a) the Actual RP-related CM Capex Costs and the Actual RP-related CM Opex Costs incurred by the Licensee;
- (b) any Excluded Project Spend incurred by the Licensee;
- (c) the Licensee's forecasted Actual RP-related CM Capex Costs and the Actual RP-related CM Opex Costs for the current Operational Charging Year and all remaining Operational Charging Years in the Operational Period;
- (d) any updates to any values provided by the Licensee in accordance with Special Condition H3.4 (*Calculation of RAV*) or where the process in Special Condition H20.6 applies, Special Condition H8.7 (*Allowed Revenue during the Operational Period*); and
- (e) any other information required in relation to the Actual RP-related CM Capex Costs and the Actual RP-related CM Opex Costs pursuant to the RIGs or any other relevant guidance issued by the Regulator.

Part D: Reconciliation of the RP-related CM Building Block

20.13 The RP-related CM Building Block will be subject to a reconciliation in accordance with Special Condition H9.7 (*Calculation of Allowed Revenue during the Operational Period*).

Special Condition H21: Availability-related spend under a Remediation Plan

Introduction

21.1 The purpose of this special condition is to set out the provisions that apply in relation to RP-related Non-CM Capex and RP-related Non-CM Opex spend.

Structure

21.2 This special condition is structured as follows:

- (a) Part A sets out the provisions that apply in relation to RP-related Non-CM Capex;
- (b) Part B sets out the provisions that apply in relation to RP-related Non-CM Opex;
- (c) Part C sets the information required from the Licensee in relation to its Actual RP-related Non-CM Capex Costs and RP-related Non-CM Opex Costs; and
- (d) Part D explains that the RP-related Non-CM Building Block shall be subject to a reconciliation.

Part A: RP-related Non-CM Capex

21.3 Any Actual RP-related Non-CM Capex Costs shall not constitute Actual Ongoing Capex Costs for the purposes of the calculation of Ongoing Capex under Special Condition H4 (*Ongoing Capex during the Operational Period*) or the Ongoing Capex Incentive calculation.

21.4 The RP-related Non-CM Capex for each Operational Charging Year will be calculated in accordance with the following formula:

$$NMC_t = LOGNMC_t + EXNMC_t$$

where:

Term	Description	Price Base
NMC_t	means the RP-related Non-CM Capex for Operational Charging Year _t	£ real (Base Year)
$LOGNMC_t$	means the Logged RP-related Non-CM Capex Costs for Operational Charging Year _t	£ real (Base Year)
$EXNMC_t$	means the Excess RP-related Non-CM Capex Costs for Operational Charging Year _t	£ real (Base Year)

which, save where Special Condition H21.6 applies, shall form part of the calculation of RAV Additions for Operational Charging Year_t under Special Condition H3.8 (*Calculation of the RAV Additions*).

21.5 The RP-Non-CM Capex Costs Incentive will be calculated as follows:

$$NCMCI_t = (ACPANCMC_t - ANCMC_t) \times RPNCMCSF$$

where:

Term	Description	Price Base
NCMCI _t	means the RP-Non-CM Capex Costs Incentive for Operational Charging Year _t	£ real (Base Year)
ACPANCMC _t	means the relevant Approved CP Allowance(s) relating to RP-related Non-CM Capex for Operational Charging Year _t	£ real (Base Year)
ANCMC _t	means the Actual RP-related Non-CM Capex Costs for Operational Charging Year _t	£ real (Base Year)
RPNCMCSF	means the RP-Non-CM Capex Costs Incentive Sharing Factor	N/A

21.6 In respect of each Correction Plan, the Regulator may include in its determination to approve the Correction Plan under Special Condition H19.10(a) an election that all or some of the Actual RP-related Non-CM Capex Costs that relate to the relevant Correction Plan (such costs being the **"AR Non-CM Capex Costs"**) will not accrue to the RAV under Special Condition H20.5, and where such an election is made;

- (a) the Regulator will determine a separate allowance in respect of the AR Non-CM Capex Costs (an **"AR Non-CM Capex CP Allowance"**) and the relevant Approved CP Allowance will be adjusted accordingly to reflect such determination;
- (b) the Regulator will determine any necessary adjustments to be made to reflect such election, including:
 - (i) to the RP-Non-CM Capex Costs Incentive; and
 - (ii) applying an AR Non-CM Capex Costs incentive (which shall be on the same basis as for the RP-Non-CM Capex Costs Incentive (including as to timing and the relevant sharing factor)), as adjusted to reflect the AR Non-CM Capex Costs incurred by the Licensee and the AR Non-CM Capex CP Allowance (the **"AR Non-CM Capex Costs Incentive"**);
- (c) the relevant AR Non-CM Capex Costs will not accrue to the RAV as Actual RP-related Non-CM Capex Costs; and
- (d) the calculation of Base Revenue in Special Condition H9.5 (*Calculation of Base Revenue*) shall be construed to include:
 - (i) the AR Non-CM Capex Costs for each Operational Charging Year in which the relevant Correction Plan applies; and

- (ii) the AR Non-CM Capex Costs Incentive for each Operational Charging Year in which the relevant Correction Plan applies.

21.7 The value of the RP-Non-CM Capex Costs Incentive for each Operational Charging Year may be positive or negative.

Part B: RP-related Non-CM Opex

21.8 Any Actual RP-related Non-CM Opex Costs shall not constitute Actual Opex Costs for the purposes of the Opex Building Block or the Opex Incentive Building Block.

21.9 The RP-related Non-CM Opex for each Operational Charging Year will be calculated in accordance with the following formula:

$$NCMO_t = LOGNCMO_t + EXNCMO_t$$

where:

Term	Description	Price Base
NCMO _t	means the RP-related Non-CM Opex for Operational Charging Year _t	£ real (Base Year)
LOGNCMO _t	means the Logged RP-related Non-CM Opex Costs for Operational Charging Year _t	£ real (Base Year)
EXNCMO _t	means the Excess RP-related Non-CM Opex Costs for Operational Charging Year _t	£ real (Base Year)

21.10 The calculation of Base Revenue in Special Condition H9.5 (*Calculation of Base Revenue*) shall take account of:

- (a) Logged RP-related Non-CM Opex Costs; and
- (b) the Excess RP-related Non-CM Opex Costs.

21.11 The RP-Non-CM Opex Costs Incentive:

- (a) will apply in each Operational Charging Year_t with the RP-Non-CM Opex Costs Incentive reflected in the Allowed Revenue calculation as a positive or negative adjustment in Operational Charging Year_t; and

(b) will be calculated in accordance with the following formula:

$$NCMOI_t = (ACPANCMO_t - ANCMO_t) \times RPNCMOSF$$

where:

Term	Description	Price Base
NCMOI _t	means the RP-Non-CM Opex Costs Incentive for Operational Charging Year _t	£ real (Base Year)
ACPANCMO _t	means the relevant Approved CP Allowance(s) relating to RP-related Non-CM Opex for Operational Charging Year _t	£ real (Base Year)
ANCMO _t	means the Actual RP-related Non-CM Opex Costs during Operational Charging Year _t	£ real (Base Year)
RPNCMOSF	means the RP-Non-CM Capex Costs Incentive Sharing Factor	N/A

21.12 The value of the RP-Non-CM Opex Costs Incentive for each Operational Charging Year may be positive or negative.

Part C: Provision of Information

21.13 At each End of Quarter Date during the Operational Period, the Licensee must provide to the Regulator details of:

- (a) the Actual RP-related Non-CM Capex Costs and the Actual RP-related Non-CM Opex Costs incurred by the Licensee;
- (b) any Excluded Project Spend incurred by the Licensee;
- (c) the Licensee's forecasted Actual RP-related Non-CM Capex Costs and the Actual RP-related Non-CM Opex Costs for the current Operational Charging Year and all remaining Operational Charging Years in the Operational Period;
- (d) any updates to any values provided by the Licensee in accordance with Special Condition H3.4 (*Calculation of RAV*) or where the process in Special Condition H21.6 applies, Special Condition H8.7 (*Allowed Revenue during the Operational Period*); and
- (e) any other information required relation to the Actual RP-related Non-CM Capex Costs and the Actual RP-related Non-CM Opex Costs pursuant to the RIGs or any other relevant guidance issued by the Regulator.

Part D: Reconciliation of the RP-related Non-CM Building Block

- 21.1 The RP-related Non-CM Building Block will be subject to a reconciliation in accordance with Special Condition H9.7 (*Calculation of Allowed Revenue during the Operational Period*).

Special Condition H22: Storage Site performance

Introduction

22.1 The purpose of this special condition is to set out the provisions that apply in relation to the Licensee's auditing, monitoring and reporting of Storage Site performance obligations.

22.2 The purpose of each Competent Person's Report is to:

- (a) evaluate Storage Site performance predictions (including Storage Capacity, injection rate and reservoir pressure responses) from time to time; and
- (b) to provide a baseline for evaluating future injection rates and pressures, and any deviations outside of predicted ranges.

Structure

22.3 This special condition is structured as follows:

- (a) Part A requires the Licensee to monitor and report on Storage Site performance;
- (b) Part B sets out the requirement for Competent Person's Audits to be undertaken and Competent Person's Reports to be provided;
- (c) Part C sets out the process of appointment of a Competent Auditor;
- (d) Part D sets out the required contents of a Competent Person's Report;
- (e) Part E sets out the audit/reporting requirements in relation to additional Storage Site(s); and
- (f) Part F states that a store performance incentive will be implemented at the first Periodic Review.

Part A: Reporting on Storage Site performance

22.4 The Licensee must:

- (a) monitor Storage Site performance and prepare Storage Capacity forecasts in respect of the T&S Network; and
- (b) provide reports to the Regulator in respect of the same in accordance with:
 - (i) the programme; and
 - (ii) the format,

in each case as specified by the Regulator from time to time.

Part B: Competent Person's Audits and Competent Person's Reports

22.5 In each case in accordance with the requirements of Special Conditions H22.6 to H22.12, the Licensee must procure that:

- (a) independent audits of the Licensee's Storage Capacity assumptions (including models) and each corresponding Carbon Storage Development Plan(s) (as applicable) are undertaken and completed (each a **"Competent Person's Audit"**); and
- (b) the results of any such audit are promptly provided to the Regulator, together with a report in respect of the same which complies with the requirements of Part D of this Special Condition H22 (each a **"Competent Person's Report"**) or as an update to a previously provided Competent Person's Report.

22.6 Following the Commercial Operations Date, the Licensee must procure that:

- (a) a Competent Person's Audit is carried out at least once within the First Operational Year and, subject to Special Condition H22.7, thereafter:
 - (i) where the second Operational Charging Year commences within six months of the Commercial Operations Date, a further Competent Person's Audit is carried out at least once within the third Operational Charging Year;
 - (ii) where the second Operational Charging Year commences six months or more after the Commercial Operations Date, a further Competent Person's Audit is carried out at least once within the second Operational Charging Year; and
 - (iii) further Competent Person's Audits are carried out at least once in each subsequent Operational Charging Year,

with such audits in each case to be completed no later than the end of the ninth month of the relevant 12-month period;

- (b) promptly following the completion of a Competent Person's Audit undertaken pursuant to Special Condition H22.6(a), the Initial Competent Person's Report or the Initial Competent Person's Report as updated in respect of the preceding audit (as the case may be) (the **"Preceding Competent Person's Report"**) is:
 - (i) promptly updated to reflect the results of such Competent Person's Audit; and
 - (ii) once updated, promptly provided to the Regulator,

provided that each updated Competent Person's Report is provided to the Regulator no later than 12 months from the date that the relevant Preceding Competent Person's Report was provided to the Regulator.

22.7 The frequency of Competent Person's Audits and updates to the Competent Person's Report during the second and/or subsequent Regulatory Periods may be determined by the Regulator.

- 22.8 Where the Regulator considers that there has been a significant and adverse deviation from the expected behaviour of a T&S Storage Site (such expected behaviour being based on the findings of previous Competent Person's Audits as recorded in the relevant updated Competent Person's Report):
- (a) the Licensee shall, promptly upon request and based on the information available to the Licensee at the time, provide details of:
 - (i) the event(s) and/or circumstance(s) leading to such deviation; and
 - (ii) the reasons behind such event(s) and/or circumstance(s); and
 - (b) the Regulator shall be entitled to determine the relevant parts and/or elements of such Competent Person's Report that are to be updated to take into account such deviation and the Licensee must procure that such relevant parts and/or elements of the Competent Person's Report are promptly updated.

Part C: Appointment of a Competent Auditor

- 22.9 Any Competent Person's Audit and Competent Person's Report (and any updates thereto) must be undertaken by a Competent Auditor (as defined in Special Condition H22.10).
- 22.10 To qualify as a Competent Auditor for the purposes of this licence, the relevant auditor must be an independent and qualified auditor who has:
- (a) experience in undertaking audits of carbon capture, usage and storage and/or oil and gas development projects similar in scope, character and complexity to the Project and has the expertise to assess and report on the matters that are set out in condition H22.12; and
 - (b) been appointed in accordance with the following process:
 - (i) the Licensee must send details of the proposed auditor to the Regulator, including information about how the auditor satisfies the criteria set out in limb (a) of this Special Condition H22.10;
 - (ii) the Regulator will consider the information provided by the Licensee under Special Condition H22.10(b)(i) and advise the Licensee whether it approves (or does not approve) the auditor selected by the Licensee; and
 - (iii) if the Regulator has approved the auditor then the Licensee must appoint that auditor, but if the Regulator has failed to provide its approval then the Licensee must seek the Regulator's approval to an alternative auditor in accordance with the requirements of this Special Condition H22.10.
- 22.11 Where the Regulator considers that a Competent Person's Audit and/or Competent Person's Report is of unsatisfactory quality, the Regulator may direct the Licensee to appoint an alternative auditor in accordance with the requirements of Special Condition H22.10.

Part D: Contents of a Competent Person's Report

22.12 The Licensee must procure that any Competent Person's Report (and any updates thereto) addresses the following matters:

- (a) an assessment of the Storage Resources (as such term is defined in the SRMS Guidelines) for each T&S Storage Site, that is:
 - (i) "P1 Proved", "P2 Probable" and ("P3 Possible", and "1P(Low)", "2P (Best Estimate)" and "3P (High)") (as each such term is defined in the SRMS Guidelines) of Storage Capacity which will be based on forecast user demand and licence duration;
 - (ii) Technical Storage Capacity both in aggregate (Mt) and annually (MTPA), using the same technical assumptions as "1P (Low)" "2P (Best Estimate)" and "3P (High)" (as each such term is defined in the SRMS Guidelines) without constraints due to:
 - (A) Registered Capacity;
 - (B) annual capacity constraints under the relevant Storage Permit(s);
 - (C) RAV Asset Life;
 - (D) Onshore Transportation System design capacity;
 - (E) Terminal design capacity; or
 - (F) Offshore Pipeline Infrastructure design capacity;²¹
 - (iii) the "C1", "C2" and "C3", and "1C", "2C" and "3C" (as each such term is defined in the SRMS Guidelines) of Contingent Store Resources;
- (b) outstanding uncertainties and current level of residual risk associated with 1P, 2P and 3P (as each such term is defined in the SRMS Guidelines), including:
 - (i) details of the following assumptions that are used in generating the capacity profiles:
 - (A) input parameters for deterministic 1P, 2P and 3P (as each such term is defined in the SRMS Guidelines) cases;
 - (B) probabilistic ranges of uncertainty for input parameters if probabilistic method used; and

²¹ **Explanatory note:** the purpose of this requirement is to assess the potential of the T&S Storage Sites to which the Phase 1 Activities and the Phase 2 Activities relate to accept additional capacity, either by upstream debottlenecking or extending asset life, compared to the initial ONC. It is anticipated that this figure will evolve over time as understanding of the T&S Storage Site(s) improves.

- (C) risk events factored into the modelling; and
 - (ii) known risks which have been excluded from the modelling due to being highly improbable;
- (c) injection profiles, including (but not limited to):
 - (i) the injection profile by individual well; and
 - (ii) the injection profile by T&S Storage Site;
- (d) Availability data relating to:
 - (i) the T&S Network as a whole;
 - (ii) each T&S Storage Site; and
 - (iii) each individual well,noting the impact of any assumed actions on projected profiles;
- (e) data relating to:
 - (i) the physical condition of each individual well (as such data may reasonably be available at the relevant time);
 - (ii) the uptime of each individual well (i.e. the percentage of time CO₂ is being injected into the relevant well);
 - (iii) the uptime of the T&S Network as a whole (i.e. the percentage of time the T&S Network is available for the delivery and storage of CO₂); and
 - (iv) power consumption;
- (f) pressure data and associated analysis, including (but not limited to):
 - (i) downhole pressure by individual well;
 - (ii) surface pressure [(upstream of the choke)] by individual well;
 - (iii) fall off tests by individual well;
 - (iv) leak off tests by individual well;
 - (v) inflow profiles by individual well;
 - (vi) interference tests by individual well;
 - (vii) reservoir pressure at a suitable datum, e.g. the crest, against time and injected CO₂ mass for both:
 - (A) a T&S Storage Site; and
 - (B) individual wells;

- (viii) injection tubing-head pressure profile by individual well; and
- (ix) pressure dissipation in the wider aquifer (at consistent locations from one Competent Person's Report (or update thereof, as applicable) to another to allow comparison (or update the location thereof, as applicable)); and
- (g) the assumptions applied when producing the information referred to in Special Conditions H22.12(a) to H22.12(f), together with information relating to any changes in such assumptions since the previous Competent Person's Report (or update thereof, as applicable), including (without limitation) the timing of and reasoning behind such changes,

provided that in respect of Special Conditions H22.12(a) to H22.12(f), the required information must include:

- (i) the actual information in respect of the preceding Operational Charging Year (save where the year during which the report is being prepared is the First Operational Year);
- (ii) confirmation of the information that had previously been forecast in respect of the Operational Charging Year referred to in limb (i) (or where the year during which the report is being prepared is the first Operational Charging Year, the first Operational Charging Year);
- (iii) confirmation of the information that had previously been forecast for all Operational Charging Years subsequent to the Operational Charging Year referred to in limb (i) (or where the year during which the report is being prepared is the first Operational Charging Year, subsequent to the first Operational Charging Year); and
- (iv) current revised forecasts for the Operational Charging Year in which the report is being prepared and all subsequent Operational Charging Years.

22.13 At the same time as providing any Competent Person's Report (or any update thereto) to the Regulator in accordance with this Special Condition H22, the Licensee must provide a copy of the report to:

- (a) the NSTA; and
- (b) where such report is produced during, or relates to, the First Regulatory Period, the Secretary of State.

Part E: Audit/reporting in relation to additional, expanded or enhanced Storage Site(s)

- 22.14 Where the Licensee intends to propose a Change in Scope which would involve an additional T&S Storage Site or T&S Storage Sites or an expansion to or enhancement of an existing T&S Storage Site (an "**Additional or Expanded/Enhanced Storage Site**"):
- (a) the Licensee must:
 - (i) procure that the Competent Auditor then appointed undertakes and completes a Competent Person's Audit in respect of the Additional or Expanded/Enhanced Storage Site; and
 - (ii) produce to the Regulator as part of the relevant CiS Submission a Competent Person's Report in accordance with the requirements of Special Condition H22.12 reporting the results of the relevant Competent Person's Audit; and
 - (iii) simultaneously provide a copy of the Competent Person's Report referred to in Special Condition H22.14(a)(iii) to the NSTA and, during the First Regulatory Period, the Secretary of State; and
 - (b) the Regulator may require further Competent Person's Audits and Competent Person's Reports as part of any Ongoing Devex Stage Check Activities.
- 22.15 Following the date of completion of a Competent Person's Audit referred to in Special Condition H22.14(a) in respect of an Additional or Expanded/Enhanced Storage Site, the Licensee must procure that following the relevant commercial operations date associated with the Additional or Expanded/Enhanced Storage Site (if any):
- (a) the relevant Additional or Expanded/Enhanced Storage Site must thereafter be audited as part of the T&S Network-wide Competent Person's Audits which take place under and in accordance with Special Condition H22.5 and Special Conditions H22.6 to H22.12; and
 - (b) the results of any Competent Person's Audit which relate to such Additional or Expanded/Enhanced Storage Site must be included in the relevant updates to the T&S Network-wide Competent Person's Report as referred to in Special Condition H22.6.

Part F: Implementation of a store performance incentive

- 22.16 As part of the first PR Determination, the Regulator will set an incentive in relation to store performance, which incentive shall take effect in accordance with Special Condition H28.7 (*Periodic Reviews*).
- 22.17 The implementation of a store performance incentive as referred to in Special Condition H22.16, including any associated amendments to Project-Specific Documents, will be implemented by way of a modification of the conditions of this licence in accordance with section 13 of the Act.

Special Condition H23: Credit rating

Introduction

23.1 The purpose of this special condition is to set out the provisions that apply in circumstances where the Licensee is required to obtain and maintain an Investment Grade Issuer Credit Rating.

Structure

23.2 This special condition is structured as follows:

- (a) Part A sets out the process for notifying the Regulator of the Licensee's analysis of the impact (if any) of undertaking an Indicative Credit Rating Process;
- (b) Part B sets out the process for the Regulator to determine the impact (if any) of the Licensee obtaining and maintaining the Investment Grade Issuer Credit Rating; and
- (c) Part C sets out the process for the Licensee to provide additional information to the Regulator for the Regulator to determine the impact (if any) of the Licensee obtaining and maintaining the Investment Grade Issuer Credit Rating.

Part A: Determination of impact (if any) of Indicative Credit Rating Process

23.3 Where Standard Condition B18.5 (*Financial Resilience and Credit Quality*) applies, the Licensee must issue a notice to the Regulator giving particulars of the Licensee's analysis of any reasonable adjustment(s):

- (a) to the Opex Allowance as a result of the costs arising from undertaking the Indicative Credit Rating Process; and
- (b) the Licensee anticipates would be required to take into account the requirement for it to obtain and maintain the Investment Grade Issuer Credit Rating.

23.4 Where Special Condition H23.3 applies, the Regulator will:

- (a) confirm or withdraw the requirement under Standard Condition B18.5 (*Financial Resilience and Credit Quality*) for the Licensee to undertake an Indicative Credit Rating Process; and
- (b) where the Regulator confirms the requirement under Standard Condition B18.5 (*Financial Resilience and Credit Quality*) for the Licensee to undertake an Indicative Credit Rating Process under Special Condition H23.4(a):
 - (i) determine the impact (if any) of the Licensee undertaking the Indicative Credit Rating Process; and
 - (ii) determine any adjustments to the ex ante allowances in respect of Opex as a result of the costs arising from undertaking the Indicative Credit Rating

Process and the Regulator will make amendments to update the Financial Settlement Document to reflect any such adjustments.

Part B: Determination of impact (if any) of requirement to obtain and maintain the Investment Grade Issuer Credit Rating

23.5 Where Standard Condition B18.7 (*Financial Resilience and Credit Quality*) applies:

- (a) the Regulator shall notify the Licensee that it requires that the Licensee use reasonable endeavours to obtain and maintain an Investment Grade Issuer Credit Rating of at least BBB- (S&P, Fitch or DBRS Morningstar) or Baa3 (Moody's) under Standard Condition B18.7(a) (*Financial Resilience and Credit Quality*);
- (b) the Licensee must promptly following receipt of a notice under Special Condition H23.5(a) issue a notice to the Regulator confirming or updating the Licensee's analysis provided under Special Condition H23.3(b) of any reasonable adjustment(s) required to take into account the requirement for it to obtain and maintain the Investment Grade Issuer Credit Rating;
- (c) where the Licensee has issued an updated analysis under Special Condition H23.5(b):
 - (i) the Regulator will confirm or withdraw the requirement under Standard Condition B18.7 (*Financial Resilience and Credit Quality*) for the Licensee to use reasonable endeavours to obtain and maintain the Investment Grade Issuer Credit Rating; and
 - (ii) where the Regulator confirms the requirement under Standard Condition B18.7 (*Financial Resilience and Credit Quality*) for the Licensee to use reasonable endeavours to obtain and maintain the Investment Grade Issuer Credit Rating under Special Condition H23.5(c)(i), Standard Conditions B18.7(b) and (c) (*Financial Resilience and Credit Quality*) shall apply.

Part C: Provision of additional information

23.6 Following notification by the Regulator under Standard Condition B18.7 (*Financial Resilience and Credit Quality*), the Licensee must provide to the Regulator any additional information that the Regulator considers appropriate and requests from the Licensee in respect of:

- (a) the Licensee obtaining and maintaining the Investment Grade Issuer Credit Rating and the potential impact of the same; and
- (b) where applicable in the context of an increase or decrease of the Licensee's costs pursuant to Special Condition H23.5(c), satisfactory evidence to the Regulator that obtaining and maintaining the Investment Grade Issuer Credit Rating [has a cost impact in respect of Ongoing Devex, Capex or Opex.]

- 23.7 The amount of any increases to the Licensee's costs pursuant to Special Condition H23.6(b) shall be subject to the Licensee providing satisfactory evidence that obtaining and maintaining the Investment Grade Issuer Credit Rating has a cost impact in respect of Ongoing Devex, Capex or Opex.

Special Condition H24: Regulated/Non-Regulated Revenue

24.1 The purpose of this special condition is to set out the provisions that apply in relation to Regulated Revenue, Non-Regulated Activities and Non-Regulated Revenue.

Structure

24.2 This special condition is structured as follows:

- (a) Part A sets out the provisions that apply in relation to Regulated Revenue; and
- (b) Part B sets out the provisions that apply in relation to Non-Regulated Activities and Non-Regulated Revenue.

Part A: Regulated Revenue

24.3 Any revenue generated by the Licensee in relation to the use of the T&S Network shall be Regulated Revenue.

Part B: Non-Regulated Activities and Non-Regulated Revenue

24.4 The Licensee must not:

- (a) undertake any Non-Regulated Activities; or
- (b) earn any Non-Regulated Revenue,

without the prior approval of the Regulator.

Special Condition H25: Use of System Charging Methodology

Introduction

25.1 The purpose of this condition is to set out the Licensee's obligations relating to the Use of System Charging Methodology.

Structure

25.2 This special condition is structured as follows:

- (a) Part A sets out the Licensee's obligations with respect to the Use of System Charging Methodology;
- (b) Part B sets out the provisions in relation to the review and modification of the Use of System Charging Methodology; and
- (c) Part C sets out the key features of the Use of System Charging Methodology.

Part A: Licensee's obligations to have a Use of System Charging Methodology

25.3 The Licensee must:

- (a) at all times have in place a methodology, which sets out the methodology for the determination of the rates for the Use of System Charges, through which the Licensee can recover its Allowed Revenue for each Operational Charging Year ("**Use of System Charging Methodology**");
- (b) calculate the rates for all Use of System Charges, as set out in the Licensee's Use of System Charging Statement, in accordance with the Use of System Charging Methodology; and
- (c) publish the current version of the Use of System Charging Methodology on the Licensee's website or as may be more particularly prescribed under the CCS Network Code.

25.4 The Licensee's Use of System Charging Methodology that applies as at Licence Award is the Use of System Charging Methodology set out in Section H of the CCS Network Code.

Part B: Review and modification of Use of System Charging Methodology

25.5 Subject to Special Condition H25.6 and Part C of this condition, the Licensee must,

- (a) for the purpose of ensuring that the Use of System Charging Methodology achieves the Relevant Objectives, keep the Use of System Charging Methodology at all times under review; and
- (b) in accordance with the provisions of the CCS Network Code, propose such modifications to the Use of System Charging Methodology as may be requisite for the purpose of better achieving the Relevant Objectives.

25.6 Any modifications to the Use of System Charging Methodology cannot take effect without the approval of the Regulator.

Part C: Key features of the Use of System Charging Methodology

25.7 Subject to Standard Condition H25.8, the Use of System Charging Methodology must provide for a mutualisation process to enable any Shortfall to be recovered from Users in the first instance.

25.8 When the Shortfall is recovered from Users, the amount recovered from any User is subject to the Mutualisation Cap, so that the overall Use of System Charges payable by a User on a £/tCO₂ basis do not exceed the Mutualisation Cap.

25.9 The Mutualisation Cap shall be apportioned in accordance with the methodology set out in the Use of System Charging Methodology, to determine:

- (a) the Onshore Proportion of the Mutualisation Cap; and
- (b) the Offshore Proportion of the Mutualisation Cap.

25.10 In this Part C, the following defined terms apply:

"Shortfall" means any shortfall in the Allowed Revenue that is forecast to be recovered from Users through Use of System Charges in any Operational Charging Year;

"Mutualisation Cap" means, for each Charging Year *t* (that is an Operational Charging Year), a cap, expressed in £[*x*]/tCO₂, equal to the average of the daily average price observed, as at 31 October of Charging Year *t*-1, for the March *t*-1, December *t*, and March *t* UK Emissions Trading Scheme futures contract (UKA Futures Contract), published by ICE Futures Europe, over the preceding three-month period; and

"Onshore Proportion" and **"Offshore Proportion"** have the meaning given to those terms in the CCS Network Code.

Special Condition H26: Use of System Charging Statement

Introduction

26.1 The purpose of this condition is to set out the Licensee's obligations to prepare and publish a Use of System Charging Statement.

Structure

26.2 This special condition is structured as follows:

- (a) Part A sets out the Licensee's obligations in respect of the Use of System Charging Statement;
- (b) Part B requires the Use of System Charging Statement to comply with the Use of System Charging Methodology;
- (c) Part C sets out the other general requirements in relation to the Use of System Charging Statement;
- (d) Part D sets out the contents of the Use of System Charging Statement;
- (e) Part E sets out the obligations in relation to charging in compliance with the Use of System Charging Statement; and
- (f) Part F sets out the provisions in relation to amendments to the rates for the Use of System Charges.

Part A: Licensee's obligations

26.3 For each Operational Charging Year, the Licensee must prepare a charging statement that sets out the basis on which charges will be made for Use of System of the Licensee's T&S Network, in the form approved by the Regulator (the "**Use of System Charging Statement**").

26.4 The Licensee must ensure that the information in the Use of System Charging Statement is accurate in all material respects.

26.5 Other than where Special Condition G16.9 (*Post Construction Review*) is intended to apply, the Licensee must publish its Use of System Charging Statement for each Operational Charging Year t by [30 November] of Operational Charging Year $t-1$.

Part B: Compliance of Use of System Charging Statement with the Use of System Charging Methodology

26.6 Except with the Regulator's approval, the Use of System Charging Statement must be prepared in accordance with the Use of System Charging Methodology.

Part C: Other general requirements in relation to Use of System Charging Statement

- 26.7 Except with the Regulator's approval, the Use of System Charging Statement must:
- (a) be presented in the form approved by the Regulator;
 - (b) include such detail as would enable any person to make a reasonable estimate of the Use of System Charges for which that person would become liable in respect of Use of System; and
 - (c) be published (and remain publicly available) in such manner as the Licensee believes will ensure adequate publicity for them (including on the Licensee's website) and as may be more particularly prescribed under the CCS Network Code.
- 26.8 During any period in which the Licensee's website is unavailable and/or the Use of System Charging Statement cannot be accessed via the Licensee's website (for whatsoever reason) the Licensee must give or send a copy of the Use of System Charging Statement to any person who requests it.

Part D: Contents of the Use of System Charging Statement

- 26.9 The Licensee must prepare a template form for the Use of System Charging Statement for approval by the Regulator before the date that the Licensee is required to publish its first Use of System Charging Statement.
- 26.10 The information that the Use of System Charging Statement must include is specified in the Schedule of Contents set out at Appendix 1, which is part of this condition.
- 26.11 The Regulator may from time to time, by direction, amend the Schedule of Contents set out in Appendix 1.
- 26.12 Before making a direction under Special Condition H26.11, the Regulator will publish on the Regulator's Website:
- (a) the text of the proposed direction, including details of the update being made to the Schedule of Contents set out in Appendix 1;
 - (b) the reasons for the proposed direction;
 - (c) a period during which representations may be made on the proposed direction, which will not be less than 28 days; and
 - (d) the date on which it is to have effect or the mechanism by which that date is to be determined.

Part E: Charging in accordance with the Use of System Charging Statement

- 26.13 Except with the Regulator's approval, every arrangement entered into by the Licensee for the purposes of providing Use of System must ensure that the Licensee's Use of System Charges comply with the Use of System Charging Statement in force the time at which such charges are to be made under the arrangement.

Part F: Amendment to rates for Use of System Charges

- 26.14 The Licensee must prepare and publish an updated Use of System Charging Statement on an annual basis, in accordance with the requirements of Part A of this condition.
- 26.15 The Regulator shall, in respect of any Use of System Charging Statement published by the Licensee, be entitled to require further supporting information from the Licensee and/or require amendments to the Use of System Charging Statement where it is identified that there is a discrepancy between the Use of System Charging Statement and the Use of System Charging Methodology.
- 26.16 Before making any amendment to its Use of System Charges, the Licensee must give the Regulator a revised Use of System Charging Statement that sets out the amended charges and rates and specifies the date from which they are to have effect.
- 26.17 Without prejudice to paragraph H26.16 and any requirements under this licence and the CCS Network Code relating to modification of the Use of System Charging Methodology, the Licensee must, before any modification of its Use of System Charging Methodology comes into effect, give the Regulator a revised Use of System Charging Statement that sets out the amended charges and rates of those charges and specifies the date from which they are to have effect.

Appendix 1 to Special Condition H26

Schedule of Contents of Use of System Charging Statement

This Appendix specifies the information that must be included in the Use of System Charging Statement.

As provided for by Special Condition H26.9, the information to be set out in the Use of System Charging Statement for each Charging Year t must include:

- (a) the rates for each of the Use of System Charges that apply in Charging Year t ;
- (b) the calculations used to determine each of the rates for each of the Use of System Charges that apply in Charging Year t ; and
- (c) the charges forecast for Charging Year t as provided by each of the Users of the T&S Network in accordance with the Use of System Charging Methodology and used by the Licensee for the purposes of calculating of the Use of System Charges for Charging Year t .

Special Condition H27: Insurance

Introduction

27.1 This special condition requires the Licensee to procure and maintain Business Interruption Insurance and Asset Damage Insurance to cover damage and loss that may be incurred by the Licensee during the Operational Period of the T&S Network.

Structure

27.2 This special condition is structured as follows:

- (a) Part A sets out the Licensee's obligations to procure and maintain certain insurances;
- (b) Part B sets out the Licensee's obligations to pay the relevant insurance premiums and not to do anything that could render the relevant insurances void, voidable, suspended, impaired or defeated;
- (c) Part C requires the Licensee to provide certain information and documentation relating to the relevant insurances; and
- (d) Part D sets out the Licensee's obligations in respect of claims under the Business Interruption Insurance.

Part A: Obligation to procure and maintain insurance

27.3 Subject to Special Condition H27.5, on or prior to the Commercial Operations Date, to the extent that it is commercially available at economic, efficient and effective rates, the Licensee must procure (and thereafter maintain) the following insurance in accordance with the requirements of this Special Condition:

- (a) Asset Damage Insurance; and
- (b) Business Interruption Insurance,

where, for the purposes of this Special Condition H27:

- (i) **"Asset Damage Insurance"** means insurance indemnifying the Licensee against costs, losses and liabilities arising as a result of physical loss of or physical damage to the T&S Network during the Operational Period; and
- (ii) **"Business Interruption Insurance"** means insurance indemnifying the Licensee for business interruption costs, losses and liabilities arising as a result of physical loss of or physical damage to the T&S Network during the Operational Period.

- 27.4 The Licensee must ensure that, to the extent such insurance is commercially available at economic, efficient and effective rates, the Asset Damage Insurance and the Business Interruption Insurance is placed and maintained through insurers or underwriters of reputable standing with (at the time of placement and any subsequent renewal):
- (a) a minimum insurer rating of [●] for lead insurers; and
 - (b) a minimum insurer rating of [●] for following insurers.
- 27.5 For the purposes of this Special Condition H27, the obligation to take out and maintain Asset Damage Insurance and Business Interruption Insurance under this Special Condition H27 shall not require the Licensee to procure or maintain any insurance that the Licensee is required to procure or maintain in relation to the Insured Risks pursuant to the Supplemental Compensation Agreement.

Part B: Maintenance and protection of cover

- 27.6 The Licensee must:
- (a) ensure the due and punctual payment of all premiums as required by the terms of each Asset Damage Insurance and Business Interruption Insurance; and
 - (b) upon the request of the Regulator, promptly produce evidence of such payment.
- 27.7 The Licensee must not do (or omit to do) anything or, insofar as it is reasonably within its power, permit anything to occur in relation to the Asset Damage Insurance or the Business Interruption Insurance:
- (a) whereby the Asset Damage Insurance or the Business Interruption Insurance could reasonably be expected to be rendered void or voidable or suspended, impaired or defeated in whole or in part or which could reasonably be expected otherwise to render any sum paid under any such policy repayable in whole or in part; or
 - (b) which would entitle any insurer to refuse to pay any claim under the Asset Damage Insurance or the Business Interruption Insurance.

Part C: Information undertakings

- 27.8 The Licensee must:
- (a) provide evidence, including original or certified copy documents, at the request of and to the reasonable satisfaction of the Regulator that the Licensee is in compliance with the requirements of this special condition; and
 - (b) promptly provide to the Regulator a broker's letter of undertaking, issued by a reputable and recognised insurance broker and in a form and substance that meets market standards and is satisfactory to the Regulator as soon as practicable and, in any event, no later than ten Business Days after the Asset Damage Insurance and the Business Interruption Insurance are effected or renewed.

Part D: Claims under Business Interruption Insurance

27.9 Where the Licensee becomes aware of any event or occurrence which could reasonably be expected to entitle the Licensee to make a claim under the Business Interruption Insurance then the Licensee must:

- (a) notify the Regulator; and
- (b) use reasonable endeavours to make a successful claim under the Business Interruption Insurance to recover any Allowed Revenue that would otherwise have been payable by Users of the T&S Network in accordance with the provisions of the CCS Network Code, had the relevant event or occurrence not occurred.

Special Condition H28 Periodic Reviews

Introduction

28.1 The purpose of this special condition is to establish the Periodic Review process.

Structure

28.2 This special condition is structured as follows:

- (a) Part A establishes the timing of the Periodic Reviews and related PR Determinations;
- (b) Part B sets out what will be included in the PR Determination;
- (c) Part C sets out the process for issuing the PR Determination; and
- (d) Part D sets out how the PR Determination will be implemented.

Part A: Timing of the Periodic Review and PR Determination

28.3 Each Periodic Review will commence on the relevant Periodic Review Start Date.

28.4 The Licensee must ensure that, on or before the relevant Periodic Review Start Date, it has submitted any Supporting Information or any other documentation specified by the Regulator to facilitate its PR Determination.

28.5 Once the Regulator is satisfied that it has received the information it requires to make its PR Determination it will notify the Licensee of the date by which the Regulator will make its PR Determination.

Part B: Contents of the PR Determination

28.6 The purpose of the Periodic Review is for the Regulator to determine the settlement for the next Regulatory Period, and such determination may include, without limitation:

- (a) the Licensee's allowances that are to apply for the next Regulatory Period;
- (b) the PostCOD WACC for the next Regulatory Period;
- (c) the Base Year for the next Regulatory Period;
- (d) any amendments to any building blocks for the Regulatory Period (including the introduction of any new building blocks, removal of any building blocks (including but not limited to where Allowed Revenue is to be 'switched off' following cessation of CO₂ injection) or amendments to the formula or sharing rates for any building blocks);
- (e) any updates to the Availability and/or Storage Site performance regime in Special Condition H18 (*Availability incentive*);
- (f) the length of the next Regulatory Period; and
- (g) the next Periodic Review Start Date; and

- (h) any modification required to this licence.

Part C: The PR Determination

28.7 The Regulator will:

- (a) issue each PR Determination by notice to the Licensee; and
- (b) make such adjustments to allowances, amendments to update Project-Specific Documents and/or modifications to this licence as necessary to give effect to the PR Determination.

28.8 The PR Determination will be implemented from [●] in the Operational Charging Year following the Operational Charging Year in which the PR Determination was delivered.

Part D: PR Determination implementation

28.9 Each final PR Determination will constitute a licence modification to be made by the Regulator in accordance with section 13 of the Act and any such determination including any associated amendments to Project-Specific Documents will be implemented by way of modification of the conditions of this licence in accordance with section 13 of the Act.

Special Condition H29 System Acceptance Punchlist Items

Introduction

29.1 The purpose of this special condition is to set out the Licensee's obligations in respect of any System Acceptance Punchlist Items.

Structure

29.2 This special condition is structured as follows:

- (a) Part A:
 - (i) requires the Licensee to provide a proposed programme for the rectification, resolution and/or completion of System Acceptance Punchlist Items where the System Acceptance Certificate is expressed to be subject to such System Acceptance Punchlist Items; and
 - (ii) sets out the procedure for such programme to be approved by the Regulator; and
- (b) Part B requires the Licensee to rectify, resolve and/or complete any System Acceptance Punchlist Items in accordance with the agreed programme.

Part A: Provision of a proposed programme for the rectification, resolution and/or completion of System Acceptance Punchlist Items

29.3 In the event that the System Acceptance Certificate is expressed to be subject to System Acceptance Punchlist Items, the Licensee shall promptly provide to the Regulator:

- (a) a list of the System Acceptance Punchlist Items; and
- (b) a reasonable proposed programme for the rectification, resolution and/or completion of the System Acceptance Punchlist Items (a "**System Acceptance Punchlist Programme**"), which programme shall require that each System Acceptance Punchlist Item shall be rectified, resolved and/or completed:
 - (i) within [●] of the Commercial Operations Date; or
 - (ii) within such other timeframe as is reasonably practicable in the circumstances.

29.4 In respect of any System Acceptance Punchlist Programme provided by the Licensee under Special Condition H29.3, the Regulator may:

- (a) determine that the proposed System Acceptance Punchlist Programme is approved;
- (b) determine that the proposed System Acceptance Punchlist Programme is not approved and raise comments on the proposed System Acceptance Punchlist Programme; and/or
- (c) require Supporting Information from the Licensee.

- 29.5 Where the Regulator makes a determination under Special Condition H29.4(b) and raises comments on a System Acceptance Punchlist Programme provided by the Licensee under Special Condition H29.3:
- (a) the Licensee must take account of such comments and, where appropriate, the Licensee must issue a revised System Acceptance Punchlist Programme to the Regulator as soon as reasonably practicable, together with:
 - (i) confirmation of which of the Regulator's comments have not been addressed; and
 - (ii) an explanation as to why such comments have not been addressed; and
 - (b) where the Licensee has issued a revised System Acceptance Punchlist Programme under Special Condition H29.5(a), the Regulator will review the revised System Acceptance Punchlist Programme (and any accompanying explanation as to why the Regulator's comments have not been addressed) and the Regulator will:
 - (i) determine that the proposed System Acceptance Punchlist Programme is approved; or
 - (ii) determine that the proposed System Acceptance Punchlist Programme is not approved and identify any of its comments which have not been addressed (and in respect of which the Licensee has not satisfactorily explained why they have not been addressed).
- 29.6 Where the Regulator makes a determination under Special Condition H29.5(b)(ii), the Regulator shall be entitled to raise comments on the proposed System Acceptance Punchlist Programme and the procedure in Special Condition H29.5 shall be repeated.

Part B: Requirement to rectify, resolve and/or complete System Acceptance Punchlist Items

- 29.7 The Licensee must rectify, resolve or complete any System Acceptance Punchlist Items:
- (a) in accordance with the System Acceptance Punchlist Programme as approved under Special Condition H29.4 or H29.5(b)(i) or as amended by the Regulator under Special Condition H29.7; and
 - (b) to the satisfaction of the Independent Certifier.

Section I: T&S Network development conditions

Reference	Subject matter	Page
Special Condition I1	T&S Network development	406
Special Condition I2	T&S Network expansion and additional construction, commissioning and operational periods	407

Draft

Special Condition I1: T&S Network development

Introduction

- 1.1 The purpose of this special condition is to set out the obligations of the Licensee relating to the development of the T&S Network in the First Regulatory Period.

Requirements relating to development of the T&S Network

- 1.2 The Licensee must:
- (a) comply with the provisions of Special Conditions F1 (*Construction Period*) to F11 (*Return During Construction*) (inclusive) in relation to the Handover Works;
 - (b) comply with the provisions of Special Conditions G1 (*Commissioning Period*) to G16 (*Post Construction Review*) (inclusive) in relation to the Commissioning Activities; and
 - (c) comply with the Approved Project Development Plan in relation to the development of the T&S Network.

Special Condition I2: T&S Network expansion and additional construction, commissioning and operational periods

Introduction

2.1 The purpose of this special condition is to set out the provisions that apply in relation to:

- (a) the Approved Project Development Plan; and
- (b) the development/expansion of the T&S Network through the carrying out of Phase 2 Activities, Expansion Activities (where relevant) and Development Activities.

Structure

2.2 This Special Condition is structured as follows:

- (a) Part A sets out the content of the Approved Project Development Plan;
- (b) Part B sets out the Licensee's obligation to achieve completion of Phase 2 Activities;
- (c) Part C sets out the Licensee's obligation to achieve completion of any Expansion Activities;
- (d) Part D requires the Licensee to provide updates to the Regulator in respect of:
 - (i) Phase 2 Activities; and
 - (ii) any Expansion Activities;
- (e) Part E requires the Licensee to notify the Regulator if the Licensee is reasonably likely to fail to achieve:
 - (i) Phase 2 Handover by a relevant Scheduled Phase 2 Handover Date; or
 - (ii) (where relevant) ExpA Handover by a relevant Scheduled ExpA Handover Date;
- (f) Part F requires the Licensee to notify the Regulator where the Licensee has failed to achieve:
 - (i) Phase 2 Handover by a relevant Scheduled Phase 2 Handover Date; or
 - (ii) (where relevant) ExpA Handover by a relevant Scheduled ExpA Handover Date;
- (g) Part G sets out the conditions which apply where certain of the Phase 2 Handover Works or (where relevant) ExpA Handover Works will not or cannot be completed on-time;

- (h) Part H confirms that the Licensee may commence part(s) of the Phase 2 Commissioning Activities or ExpA Commissioning Activities prior to the relevant Phase 2 Handover or (where relevant) ExpA Handover (respectively);
- (i) Part I requires the Licensee to notify the Regulator of the date of anticipated completion of:
 - (i) Phase 2 Handover Works; or
 - (ii) (where relevant) any ExpA Handover Works;
- (j) Part J sets out the procedure for achieving Phase 2 Handover;
- (k) Part K sets out the procedure for achieving ExpA Handover (where relevant);
- (l) Part L requires the Licensee to notify the Regulator if the Licensee is reasonably likely to fail to achieve:
 - (i) any Phase 2 Acceptance by the relevant Scheduled Phase 2 Acceptance Date; or
 - (ii) any ExpA Acceptance by the relevant Scheduled ExpA Acceptance Date;
- (m) Part M sets out provisions which apply where the Licensee reasonably believes that a Phase 2/ExpA Delay Event has occurred;
- (n) Part N requires the Licensee to notify the Regulator where the Licensee has failed to achieve:
 - (i) any Phase 2 Acceptance by the relevant Scheduled Phase 2 Acceptance Date; or
 - (ii) any ExpA Acceptance by the relevant Scheduled ExpA Acceptance Date;
- (o) Part O sets out the conditions which apply where certain of the Phase 2 Commissioning Activities or ExpA Commissioning Activities will not or cannot be completed on-time;
- (p) Part P requires the Licensee to notify the Regulator of the date of anticipated completion of Phase 2 Commissioning Activities or ExpA Commissioning Activities (as applicable);
- (q) Part Q sets out the procedure for achieving Phase 2 Acceptance;
- (r) Part R sets out provisions which require the rectification, resolution and/or completion of any Phase 2 Acceptance Punchlist Items;
- (s) Part S sets out the procedure for achieving ExpA Acceptance;
- (t) Part T sets out provisions which require the rectification, resolution and/or completion of any ExpA Acceptance Punchlist Items; and

- (u) Part U sets out the how the Licensee must develop the Approved T&S Network by conducting the Development Activities.

Part A: Approved Project Development Plan

2.3 The Approved Project Development Plan sets out (among other things):

- (a) an overview of the Project;
- (b) the scope of the Approved T&S Network;
- (c) the Phase 1 Activities;
- (d) any Phase 2 Activities;
- (e) any Development Activities; and
- (f) any Expansion Activities.

Part B: Obligation to achieve Phase 2 Handover and Phase 2 Acceptance

2.4 The Licensee must:

- (a) finance and carry out the Phase 2 Handover Works; and
- (b) finance and complete the Phase 2 Commissioning Activities; and
- (c) in doing so, use reasonable endeavours to achieve:
 - (i) Phase 2 Handover by the relevant Scheduled Phase 2 Handover Date(s); and
 - (ii) Phase 2 Acceptance by the relevant Scheduled Phase 2 Acceptance Date(s).

Part C: Expansion Activities and the obligation to achieve (i) ExpA Handover (where relevant); and (ii) ExpA Acceptance

2.5 In making a determination in respect of Expansion Activities under Special Condition J2.9 (*Supervening Event Re-opens, Insured Risk Events and Relief Events*), the Regulator may determine that the Expansion Activities:

- (a) be divided into ExpA Handover Works and ExpA Commissioning Activities; or
- (b) form a single group of Expansion Activities with no distinction between ExpA Handover Works and ExpA Commissioning Activities, in which case:
 - (i) all references to ExpA Handover Works in this licence shall be disregarded in the context of such Expansion Activities; and
 - (ii) all references to ExpA Commissioning Activities shall be deemed to be references to the relevant Expansion Activities,

and the conditions of this licence shall apply *mutatis mutandis* to such Expansion Activities accordingly.

- 2.6 The Licensee must:
- (a) finance and carry out any ExpA Handover Works (where relevant);
 - (b) finance, carry out and complete any ExpA Commissioning Activities; and
 - (c) in doing so, use reasonable endeavours to achieve:
 - (i) ExpA Handover by any relevant Scheduled ExpA Handover Date(s) (where relevant); and
 - (ii) ExpA Acceptance by any relevant Scheduled ExpA Acceptance Date(s).

Part D: Provision of updates regarding Phase 2 Activities and Expansion Activities

- 2.7 The Licensee must provide updates to the Regulator in the form approved by the Regulator setting out the Licensee's progress in respect of the Phase 2 Activities and/or any Expansion Activities (as the case may be) in each relevant P2/ExpA Reporting Period in relation to the Project Programme, which update shall:
- (a) include:
 - (i) progress in relation to the Project Programme; and
 - (ii) details of the Licensee's forecasted spend against the relevant construction and commissioning budget including up-to date details of all funding sources; and
 - (b) be provided in respect of each:
 - (i) in the context of Phase 2 Activities, of the P2/ExpA Reporting Periods relevant to such Phase 2 Activities from the relevant Reporting Commencement Date until the date of the relevant Phase 2 Acceptance; and
 - (ii) in the context of any Expansion Activities, of the P2/ExpA Reporting Periods relevant to such Expansion Activities from the date on which the Licensee commences the relevant Expansion Activities (or the relevant ExpA Tranche, where relevant) until the date of the relevant ExpA Acceptance; and
 - (c) be provided in each case no later than five Business Days following the expiry of the relevant P2/ExpA Reporting Period to which the update relates.

Part E: Notification of likely failure to achieve Phase 2 Handover and/or ExpA Handover by the relevant Scheduled Phase 2 Handover Date or Scheduled ExpA Handover Date

- 2.8 The Licensee must notify the Regulator as soon as reasonably practicable after the Licensee becomes aware that it is reasonably likely to fail to achieve:
- (a) Phase 2 Handover by a relevant Scheduled Phase 2 Handover Date; or
 - (b) subject to Special Condition I2.5(b), ExpA Handover by a relevant Scheduled ExpA Handover Date (where relevant).

- 2.9 A notice issued by the Licensee to the Regulator under Special Condition I2.8 must give particulars of:
- (a) the event(s) and/or circumstance(s) leading to such likely failure;
 - (b) the reasons behind such event(s) and/or circumstance(s);
 - (c) the actions that the Licensee has implemented, and/or will implement, to avoid such failure;
 - (d) the forecast impact of such failure, including:
 - (i) the impact on any third parties, including Users, Future Users and any potential Users;
 - (ii) the impact on the Licensee's financing arrangements; and
 - (iii) the length of any delay to the relevant Phase 2 Handover or (where relevant) ExpA Handover (as the case may be) resulting from such likely failure as well as any resulting potential delay to the relevant Phase 2 Acceptance or (where relevant) the relevant ExpA Acceptance (as the case may be) and how such potential delay has been calculated,in each case as reasonably expected by the Licensee based on the information available to the Licensee at the time; and
 - (e) the actions that the Licensee proposes to implement to mitigate the impact of any such likely failure and any potential resulting delay.

Part F: Notification of failure to achieve Phase 2 Handover or ExpA Handover by the relevant Scheduled Phase 2 Handover Date or Scheduled ExpA Handover Date

- 2.10 The Licensee must promptly notify the Regulator where the Licensee fails to achieve:
- (a) Phase 2 Handover by a relevant Scheduled Phase 2 Handover Date; or
 - (b) ExpA Handover by a relevant Scheduled ExpA Handover Date (where relevant).
- 2.11 A notice issued by the Licensee to the Regulator under Special Condition I2.10 must give particulars of:
- (a) the event(s) and/or circumstance(s) leading to such failure;
 - (b) the reasons behind such event(s) and/or circumstance(s);
 - (c) the actions that the Licensee implemented to attempt to avoid such failure;
 - (d) the forecast impact of such failure, including:
 - (i) the impact on any third parties, including Users, Future Users and any potential Users;
 - (ii) the impact on the Licensee's financing arrangements; and

- (iii) the length of any delay to the relevant Phase 2 Handover or (where relevant) ExpA Handover (as the case may be) resulting from such failure as well as any resulting potential delay to the relevant Phase 2 Acceptance or (where relevant) the relevant ExpA Acceptance (as the case may be) and how such potential delay has been calculated,

in each case as reasonably expected by the Licensee based on the information available to the Licensee at the time; and

- (e) the actions that the Licensee proposes to implement to mitigate the impact of any such failure and any resulting delay.

Part G: Deferral of part(s) of the Phase 2 Handover Works or ExpA Handover Works where the Licensee is unable to complete them by the date of completion of the rest of the relevant Phase 2 Handover Works or ExpA Handover Works (as applicable)

2.12 The provisions of Special Conditions F2.10 (*Obligation to achieve Handover*) to F2.13 (*Obligation to achieve Handover*) shall apply to Phase 2 Handover Works as if references to:

- (a) [Handover Works were to the relevant Phase 2 Handover Works;
- (b) Commissioning Activities were to the relevant Phase 2 Commissioning Activities;
- (c) the Commercial Operations Date were to the date of the relevant Phase 2 Acceptance;
- (d) the Commissioning Period were to the period following the relevant Phase 2 Handover and before the relevant Phase 2 Acceptance;
- (e) the Construction Period were to the period following the date on which the Licensee commences the relevant Phase 2 Activities (or the relevant Phase 2 Tranche, where relevant) until the relevant Phase 2 Handover; and
- (f) the SRAV Capex and Opex Construction Period Allowance and the SRAV Capex and Opex Commissioning Period Allowance were to the SRAV Capex and Opex Construction Period Allowance and the SRAV Capex and Opex Commissioning Period Allowance or the Ongoing Capex Allowance and the Opex Allowance (as relevant).]

2.13 The provisions of Special Conditions F2.10 (*Obligation to achieve Handover*) to F2.13 (*Obligation to achieve Handover*) shall apply to ExpA Handover Works (where relevant) as if references to:

- (a) [Handover Works were to the relevant ExpA Handover Works;
- (b) Commissioning Activities were to the relevant ExpA Commissioning Activities;
- (c) the Commercial Operations Date were to the date of the relevant ExpA Acceptance;
- (d) the Commissioning Period were to the period following the relevant ExpA Handover and before the relevant ExpA Acceptance;

- (e) the Construction Period were to the period following the date on which the Licensee commences the relevant Expansion Activities (or the relevant ExpA Tranche, where relevant) until the relevant ExpA Handover; and
- (f) the SRAV Capex and Opex Construction Period Allowance and the SRAV Capex and Opex Commissioning Period Allowance were to the SRAV Capex and Opex Construction Period Allowance and the SRAV Capex and Opex Commissioning Period Allowance or the Ongoing Capex Allowance and the Opex Allowance (as relevant).]

Part H: Commencement of Phase 2 Commissioning Activities prior to Phase 2 Handover or ExpA Commissioning Activities prior to ExpA Handover

2.14 The provisions of Special Conditions F2.15 (*Obligation to achieve Handover*) shall apply to Phase 2 Commissioning Activities as if references to:

- (a) [Commissioning Activities were to the relevant Phase 2 Commissioning Activities;
- (b) Handover were to Phase 2 Handover (where relevant); and
- (c) Handover Works were to relevant Phase 2 Handover Works (where relevant)].

2.15 Where relevant, the provisions of Special Condition F2.15 (*Obligation to achieve Handover*) shall apply to the ExpA Commissioning Activities as if:

- (a) [Commissioning Activities were to the relevant ExpA Commissioning Activities;
- (b) Handover were to ExpA Handover (where relevant); and
- (c) Handover Works were to the relevant ExpA Handover Works (where relevant)].

Part I: Notification of date of anticipated completion of Phase 2 Handover Works and ExpA Handover Works

2.16 The Licensee must give the Regulator no less than 25 Business Days' notice of the date that it anticipates:

- (a) Phase 2 Handover Works will be completed; or
- (b) any ExpA Handover Works will be completed (where relevant),

together with the Supporting Information available at that time to substantiate the completion of any of the relevant works and/or activities.

2.17 In the event that a date notified to the Regulator under Special Condition I2.16 changes following the date of such notification, the Licensee must give the Regulator notice of the revised date of anticipated completion as soon as reasonably practicable following the change.

Part J: Completion of Phase 2 Handover Works and achievement of Phase 2 Handover

- 2.18 As soon as reasonably practicable following issue of the same by an Independent Certifier, the Licensee must provide to the Regulator:
- (a) a certified copy of any Phase 2 Handover Certificate, which may be issued by the Independent Certifier notwithstanding that there are applicable Phase 2 Handover Punchlist Items; and
 - (b) any further Supporting Information that the Regulator has notified the Licensee that it requires in respect of the completion of any Phase 2 Handover Works.
- 2.19 Within 20 Business Days of receipt of the information in respect of the completion of the Phase 2 Handover Works under Special Condition I2.18, the Regulator will consider such information and will:
- (a) determine that:
 - (i) the relevant Phase 2 Handover Works are complete (notwithstanding that there may be applicable Phase 2 Handover Punchlist Items); and
 - (ii) the relevant Phase 2 Handover has been achieved;
 - (b) determine that:
 - (i) the relevant Phase 2 Handover Works are not complete; and
 - (ii) the relevant Phase 2 Handover has not been achieved;
 - (c) require further Supporting Information from the Licensee to determine whether the relevant Phase 2 Handover Works have been completed; or
 - (d) otherwise inform the Licensee that it requires additional time to consider whether the relevant Phase 2 Handover Works have been completed.
- 2.20 Where the Regulator:
- (a) determines under Special Condition I2.19(b) that the relevant Phase 2 Handover Works are not complete, the Licensee must:
 - (i) complete any outstanding Phase 2 Handover Works; and
 - (ii) refer the matter back to the relevant Independent Certifier,and the procedures in Special Conditions I2.18 and I2.19 shall be repeated; or
 - (b) requires further Supporting Information from the Licensee under Special Condition I2.19(c), the Licensee must provide such Supporting Information to the Regulator as soon as reasonably practicable and the procedure in Special Condition I2.19 shall be repeated,

in each case until the Regulator determines that the relevant Phase 2 Handover Works are complete and the relevant Phase 2 Handover has been achieved.

Part K: Completion of ExpA Handover Works and achievement of ExpA Handover

- 2.21 Where relevant, as soon as reasonably practicable following issue of the same by an Independent Certifier, the Licensee must provide to the Regulator:
- (a) a certified copy of any ExpA Handover Certificate, which may be issued by the Independent Certifier notwithstanding that there are applicable ExpA Handover Punchlist Items; and
 - (b) any further Supporting Information that the Regulator has notified the Licensee that it requires in respect of the completion of the relevant ExpA Handover Works.
- 2.22 Where relevant, within 20 Business Days of receipt of the information in respect of the completion of the relevant ExpA Handover Works under Special Condition I2.18, the Regulator will consider such information and will:
- (a) determine that:
 - (i) the relevant ExpA Handover Works are complete (notwithstanding that there may be applicable ExpA Handover Punchlist Items); and
 - (ii) the relevant ExpA Handover has been achieved;
 - (b) determine that:
 - (i) the relevant ExpA Handover Works are not complete; and
 - (ii) the relevant ExpA Handover has not been achieved;
 - (c) require further Supporting Information from the Licensee to determine whether the relevant ExpA Handover Works have been completed; or
 - (d) otherwise inform the Licensee that it requires additional time to consider whether the relevant ExpA Handover Works have been completed.
- 2.23 Where relevant, where the Regulator:
- (a) determines under Special Condition I2.22(b) that the relevant ExpA Handover Works are not complete, the Licensee must:
 - (i) complete any outstanding ExpA Handover Works; and
 - (ii) refer the matter back to the relevant Independent Certifier,and the procedures in Special Conditions I2.21 and I2.22 shall be repeated; or

- (b) requires further Supporting Information from the Licensee under Special Condition 12.22(c), the Licensee must provide such Supporting Information to the Regulator as soon as reasonably practicable and the procedure in Special Condition 12.19 shall be repeated,

in each case until the Regulator determines that the relevant ExpA Handover Works are complete and the relevant ExpA Handover has been achieved.

Part L: Notification of likely failure to achieve Phase 2 Acceptance by a Scheduled Phase 2 Acceptance Date or ExpA Acceptance by a Scheduled ExpA Acceptance Date

2.24 The Licensee must notify the Regulator as soon as reasonably practicable after the Licensee becomes aware that it is reasonably likely to fail to achieve:

- (a) a Phase 2 Acceptance by a relevant Scheduled Phase 2 Acceptance Date; or
- (b) an ExpA Acceptance by a relevant Scheduled ExpA Acceptance Date.

2.25 A notice issued by the Licensee to the Regulator under Special Condition 12.23 must give particulars of:

- (a) the event(s) and/or circumstance(s) leading to such likely failure;
- (b) the reasons behind such event(s) and/or circumstance(s);
- (c) the actions that the Licensee has implemented, and/or will implement, to avoid such failure;
- (d) the forecast impact of such likely failure, including:
 - (i) the impact on any third parties, including Users, Future Users and any potential Users;
 - (ii) the impact on the Licensee's financing arrangements; and
 - (iii) the length of any delay to the relevant Phase 2 Acceptance or ExpA Acceptance (as the case may be) resulting from such likely failure and how such potential delay has been calculated,

in each case as reasonably expected by the Licensee based on the information available to the Licensee at the time; and

- (e) the actions that the Licensee proposes to implement to mitigate the impact of any such likely failure and any potential resulting delay.

Part M: Delays to Phase 2 Acceptance and ExpA Acceptance

2.26 Where the Licensee reasonably believes that (as the case may be):

- (a) in the context of the Phase 2 Activities or, where there are Phase 2 Tranches, a Phase 2 Tranche, a relevant User is causing or shall cause delay to the relevant Phase 2 Acceptance beyond the relevant Scheduled Phase 2 Acceptance Date; or

- (b) in the context of Expansion Activities or, where there are ExpA Tranches, an ExpA Tranche, a relevant Future User is causing or shall cause delay to the relevant ExpA Acceptance beyond the relevant Scheduled ExpA Acceptance Date,

(each a "**Phase 2/ExpA Delay Event**"), the Licensee:

- (i) must use reasonable endeavours to mitigate the impact of the relevant Phase 2/ExpA Delay Event; and
- (ii) may provide to the Regulator a notice from the Licensee informing the Regulator of the relevant delay and its cause, together with Supporting Information substantiating to the Regulator's satisfaction the relevant delay and its cause (a "**Phase 2/ExpA Delay Notice**").

2.27 Following receipt of a Phase 2/ExpA Delay Notice from the Licensee, the Regulator will, having considered the circumstances of the relevant delay as detailed in the relevant Phase 2/ExpA Delay Notice:

- (a) determine that it is satisfied that (as the case may be):
 - (i) the delay to the relevant Phase 2 Acceptance is, or will be, caused by the relevant Phase 2/ExpA Delay Event; or
 - (ii) the delay to the relevant ExpA Acceptance is, or will be, solely and directly caused by the relevant Phase 2/ExpA Delay Event,

in which case, the Regulator will determine:

- (A) that an "**Event of Phase 2/ExpA Delay**" has occurred;
 - (B) the date on which such Event of Phase 2/ExpA Delay occurred; and
 - (C) the period of delay caused by the Event of Phase 2/ExpA Delay;
- (b) determine that the delay is, or was, not caused by the relevant Phase 2/ExpA Delay Event; or
 - (c) require further Supporting Information from the Licensee to determine whether the delay is, or was, caused by the relevant Phase 2/ExpA Delay Event.

2.28 Where the Regulator requires further Supporting Information from the Licensee under Special Condition I2.27(c), the Licensee must provide such Supporting Information to the Regulator as soon as reasonably practicable and the procedure in Special Condition I2.27 shall be repeated until the Regulator determines that either:

- (a) the delay is, or was, caused by the relevant Phase 2/ExpA Delay Event; or
- (b) the delay is, or was, not caused by the relevant Phase 2/ExpA Delay Event.

2.29 Where the Regulator has determined that an Event of Phase 2/ExpA Delay has occurred pursuant to Special Condition I2.27(a), promptly following a notification by the Licensee under Special Condition I2.26 regarding a consequent delay to the relevant Scheduled

Phase 2 Acceptance Date or Scheduled ExpA Acceptance Date (as the case may be), the Licensee must calculate the date on which the Licensee anticipates the delayed relevant Phase 2 Acceptance or ExpA Acceptance (as the case may be) shall occur (a **"Proposed Revised Scheduled Phase 2/ExpA Acceptance Date"**).

2.30 When calculating a Proposed Revised Scheduled Phase 2/ExpA Acceptance Date, the Licensee must:

- (a) act reasonably and in accordance with Good Industry Practice;
- (b) take into account all relevant circumstances, including the need to mitigate delay and/or the impact of delay on the relevant Phase 2 Activities or Expansion Activities (as the case may be); and
- (c) act in a transparent and proportionate manner.

2.31 Where Special Conditions I2.24, I2.29 and I2.30 apply:

- (a) the Licensee must promptly notify the Regulator of the relevant Proposed Revised Scheduled Phase 2/ExpA Acceptance Date and must provide to the Regulator upon request satisfactory Supporting Information that, when calculating such Proposed Revised Scheduled Phase 2/ExpA Acceptance Date, the Licensee complied with the requirements of Special Condition I2.30;
- (b) following receipt of the notice referred to in Special Condition I2.31(a), the Regulator will consider the relevant Proposed Revised Scheduled Phase 2/ExpA Acceptance Date, together with any Supporting Information provided by the Licensee in respect of the calculation of such date, and will:
 - (i) determine that such Proposed Revised Scheduled Phase 2/ExpA Acceptance Date is accepted and, for the purposes of these licence conditions, shall apply by way of extension to the relevant Scheduled Phase 2 Acceptance Date or Scheduled ExpA Acceptance Date (as the case may be);
 - (ii) determine that such Proposed Revised Scheduled Phase 2/ExpA Acceptance Date is not accepted; or
 - (iii) require further Supporting Information from the Licensee in respect of such Proposed Revised Scheduled Phase 2/ExpA Acceptance Date and its calculation; and
- (c) where the Regulator:
 - (i) determines under Special Condition I2.31(b)(ii) that a Proposed Revised Scheduled Phase 2/ExpA Acceptance Date is not accepted, the Licensee must revisit its calculation of the relevant Proposed Revised Scheduled Phase 2/ExpA Acceptance Date and the procedures in Special Conditions I2.31(a) and I2.31(b) shall be repeated; or

- (ii) requires further Supporting Information from the Licensee under Special Condition I2.31(b)(iii), the Licensee must provide such Supporting Information to the Regulator as soon as reasonably practicable and the procedure in Special Condition I2.31(b) shall be repeated; and
- (d) where, following the proposal of a revised Proposed Revised Scheduled Phase 2/ExpA Acceptance Date pursuant to Special Condition I2.31(c)(i), the Regulator determines under Special Condition I2.31(b)(ii) that the revised Proposed Revised Scheduled Phase 2/ExpA Acceptance Date is not accepted, the Regulator will determine the date which shall instead apply by way of extension to the relevant Scheduled Phase 2 Acceptance Date or Scheduled ExpA Acceptance Date (as the case may be) for the purposes of these licence conditions.

Part N: Notification of failure to achieve Phase 2 Acceptance by a Scheduled Phase 2 Acceptance Date or ExpA Acceptance by a Scheduled ExpA Acceptance Date

- 2.32 The Licensee must promptly notify the Regulator where the Licensee fails to achieve:
- (a) a Phase 2 Acceptance by a relevant Scheduled Phase 2 Acceptance Date; or
 - (b) an ExpA Acceptance by a relevant Scheduled ExpA Acceptance Date.
- 2.33 A notice issued by the Licensee to the Regulator under Special Condition I2.32 must give particulars of:
- (a) the event(s) and/or circumstance(s) leading to such failure;
 - (b) the reasons behind such event(s) and/or circumstance(s);
 - (c) the actions that the Licensee has implemented to attempt to avoid such failure;
 - (d) the forecast impact of such failure, including:
 - (i) the impact on any third parties, including Users, Future Users and any potential Users;
 - (ii) the impact on the Licensee's financing arrangements; and
 - (iii) the length of any delay to the relevant Phase 2 Acceptance or ExpA Acceptance (as the case may be) resulting from such failure and how such potential delay has been calculated,in each case as reasonably expected by the Licensee based on the information available to the Licensee at the time; and
 - (e) the actions that the Licensee proposes to implement to mitigate the impact of any such failure and any resulting delay.

Part O: Deferral of part(s) of the Phase 2 Commissioning Activities or ExpA Commissioning Activities where the Licensee is unable to complete them by the date of completion of the rest of the Phase 2 Commissioning Activities or ExpA Commissioning Activities (as applicable)

- 2.34 The provisions of Special Conditions G2.9 to G2.12 (*Obligation to achieve System Acceptance*) shall apply to the Phase 2 Commissioning Activities as if references to:
- (a) [Commissioning Activities were to relevant Phase 2 Commissioning Activities;
 - (b) the Commercial Operations Date were to the date of the relevant Phase 2 Acceptance;
 - (c) the Commissioning Period were to the period following a relevant Phase 2 Handover and before the relevant Phase 2 Acceptance;
 - (d) the Operational Period were to the part of the Operational Period following the relevant Phase 2 Acceptance;
 - (e) Phase 2 Activities were to a new Phase 2 Tranche, provided that such Phase 2 Tranche is subject to such conditions as the Regulator may determine; and
 - (f) the SRAV Capex and Opex Construction Period Allowance and the SRAV Capex and Opex Commissioning Period Allowance were to the SRAV Capex and Opex Construction Period Allowance and the SRAV Capex and Opex Commissioning Period Allowance or the Ongoing Capex Allowance and the Opex Allowance (as relevant).]
- 2.35 The provisions of Special Conditions G2.9 to G2.12 (*Obligation to achieve System Acceptance*) shall apply to the relevant ExpA Commissioning Activities as if references to:
- (a) [Commissioning Activities were to relevant ExpA Commissioning Activities;
 - (b) the Commercial Operations Date were to the date of the relevant ExpA Acceptance;
 - (c) the Commissioning Period were to the period following a relevant ExpA Handover and before the relevant ExpA Acceptance or, where there are no ExpA Handover Works, the period following the date on which the Licensee commences the relevant Expansion Activities (or the relevant ExpA Tranche, where relevant) until the relevant ExpA Acceptance;
 - (d) the Operational Period were to the part of the Operational Period following the relevant ExpA Acceptance;
 - (e) Expansion Activities were to a new ExpA Tranche, provided that such ExpA Tranche is subject to such conditions as the Regulator may determine under Special Condition J2.9 (*Supervening Event Re-opens, Insured Risk Events and Relief Events*); and

- (f) the SRAV Capex and Opex Construction Period Allowance and the SRAV Capex and Opex Commissioning Period Allowance were to the SRAV Capex and Opex Construction Period Allowance and the SRAV Capex and Opex Commissioning Period Allowance or the Ongoing Capex Allowance and the Opex Allowance (as relevant).]

Part P: Notification of date of anticipated completion of Phase 2 Commissioning Activities and ExpA Commissioning Activities

- 2.36 The Licensee must give the Regulator no less than 25 Business Days' notice of the date that it anticipates:
- (a) any Phase 2 Commissioning Activities will be completed; and
 - (b) where relevant, any ExpA Commissioning Activities will be completed,
- together with the Supporting Information available at that time to substantiate the completion of any of the relevant works and/or activities.
- 2.37 In the event that a date notified to the Regulator under Special Condition I2.36 changes following the date of such notification, the Licensee must give the Regulator notice of the revised date of anticipated completion as soon as reasonably practicable following the change.

Part Q: Completion of Phase 2 Commissioning Activities and achievement of Phase 2 Acceptance

- 2.38 As soon as reasonably practicable following issue of the same by an Independent Certifier, the Licensee must provide to the Regulator:
- (a) a certified copy of any Phase 2 Acceptance Certificate, which may be issued by the Independent Certifier notwithstanding that there are applicable Phase 2 Acceptance Punchlist Items; and
 - (b) any further Supporting Information that the Regulator has notified the Licensee that it requires in respect of the completion of the relevant Phase 2 Commissioning Activities.
- 2.39 Within 20 Business Days of receipt of the information in respect of the completion of the Phase 2 Commissioning Activities under Special Condition I2.38, the Regulator will:
- (a) determine that:
 - (i) the relevant Phase 2 Acceptance has been achieved (notwithstanding that there may be applicable Phase 2 Acceptance Punchlist Items); and
 - (ii) the date on which the relevant Phase 2 Acceptance was achieved, being the date on which the Licensee provided all Supporting Information (including the certified copy of any Phase 2 Acceptance Certificate) in respect of the completion of the relevant Phase 2 Commissioning Activities required by the Regulator in accordance with Special Condition I2.38; or

- (b) determine that:
 - (i) the relevant Phase 2 Commissioning Activities are not complete; and
 - (ii) the relevant Phase 2 Acceptance has not been achieved; or
- (c) require further Supporting Information from the Licensee to determine whether the relevant Phase 2 Commissioning Activities have been completed; and/or
- (d) inform the Licensee that it requires additional time to consider whether the relevant Phase 2 Commissioning Activities have been completed.

2.40 Where the Regulator:

- (a) determines under Special Condition I2.39(b) that the relevant Phase 2 Commissioning Activities are not complete, the Licensee must:
 - (i) complete any outstanding Phase 2 Commissioning Activities; and
 - (ii) refer the matter back to the relevant Independent Certifier,and the procedures in Special Conditions I2.38 and I2.39 shall be repeated; or
- (b) requires further Supporting Information from the Licensee under Special Condition I2.39(c), the Licensee must provide such Supporting Information to the Regulator as soon as reasonably practicable and the procedure in Special Condition I2.39 shall be repeated,

in each case until the Regulator determines that the relevant Phase 2 Commissioning Activities are complete and the relevant Phase 2 Acceptance has been achieved.

Part R: Rectification, resolution and/or completion of Phase 2 Acceptance Punchlist Items

2.41 In the event that a Phase 2 Acceptance Certificate is expressed to be subject to Phase 2 Acceptance Punchlist Items, the Licensee shall promptly provide to the Regulator:

- (a) a list of the relevant Phase 2 Acceptance Punchlist Items; and
- (b) a reasonable proposed programme for the rectification, resolution and/or completion of the relevant Phase 2 Acceptance Punchlist Items (a "**P2 Acceptance Punchlist Programme**"), which programme shall require that each such Phase 2 Acceptance Punchlist Item shall be rectified, resolved and/or completed:
 - (i) within [●] of the relevant Phase 2 Acceptance; or
 - (ii) within such other timeframe as is reasonably practicable in the circumstances.

2.42 In respect of any P2 Acceptance Punchlist Programme provided by the Licensee under Special Condition I2.41, the Regulator may:

- (a) determine that the proposed P2 Acceptance Punchlist Programme is approved;

- (b) determine that the proposed P2 Acceptance Punchlist Programme is not approved and raise comments on the proposed P2 Acceptance Punchlist Programme; and/or
 - (c) require Supporting Information from the Licensee.
- 2.43 Where the Regulator makes a determination under Special Condition I2.42(b) and raises comments on a P2 Acceptance Punchlist Programme provided by the Licensee under Special Condition I2.41:
- (a) the Licensee must take account of such comments and, where appropriate, the Licensee must issue a revised P2 Acceptance Punchlist Programme to the Regulator as soon as reasonably practicable, together with:
 - (i) confirmation of which of the Regulator's comments have not been addressed; and
 - (ii) an explanation as to why such comments have not been addressed; and
 - (b) where the Licensee has issued a revised P2 Acceptance Punchlist Programme under Special Condition I2.43(a), the Regulator will review the revised P2 Acceptance Punchlist Programme (and any accompanying explanation as to why the Regulator's comments have not been addressed) and the Regulator will:
 - (i) determine that the proposed P2 Acceptance Punchlist Programme is approved; or
 - (ii) determine that the proposed P2 Acceptance Punchlist Programme is not approved and identify any of its comments which have not been addressed (and in respect of which the Licensee has not satisfactorily explained why they have not been addressed).
- 2.44 Where the Regulator makes a determination under Special Condition I2.43(b)(ii), the Regulator shall be entitled to raise comments on the proposed P2 Acceptance Punchlist Programme and the procedure in Special Condition I2.43 shall be repeated.
- 2.45 The Licensee must rectify, resolve or complete any Phase 2 Acceptance Punchlist Items:
- (a) in accordance with the P2 Acceptance Punchlist Programme as approved under Special Conditions I2.42(a) or I2.43(b)(i) or as amended by the Regulator under Special Condition I2.44; and
 - (b) to the satisfaction of the Independent Certifier.

Part S: Completion of ExpA Commissioning Activities and achievement of ExpA Acceptance

- 2.46 As soon as reasonably practicable following issue of the same by an Independent Certifier, the Licensee must provide to the Regulator:
- (a) a certified copy of any ExpA Acceptance Certificate, which may be issued by the Independent Certifier notwithstanding that there are applicable ExpA Acceptance Punchlist Items; and

- (b) any further Supporting Information that the Regulator has notified the Licensee that it requires in respect of the completion of the relevant ExpA Commissioning Activities.

2.47 Within 20 Business Days of receipt of the information in respect of the completion of the relevant ExpA Commissioning Activities under Special Condition I2.46, the Regulator will:

- (a) determine that:
 - (i) the relevant ExpA Commissioning Activities are complete (notwithstanding that there may be applicable ExpA Acceptance Punchlist Items);
 - (ii) the relevant ExpA Acceptance has been achieved; and
 - (iii) the date on which the relevant ExpA Acceptance was achieved, being the date on which the Licensee provided all Supporting Information (including the certified copy of any ExpA Acceptance Certificate) in respect of the completion of the relevant ExpA Commissioning Activities required by the Regulator in accordance with Special Condition I2.48; or
- (b) determine that:
 - (i) the relevant ExpA Commissioning Activities are not complete; and
 - (ii) the relevant ExpA Acceptance has not been achieved; or
- (c) require further Supporting Information from the Licensee to determine whether the relevant ExpA Commissioning Activities have been completed; and/or
- (d) otherwise inform the Licensee that it requires additional time to consider whether the relevant ExpA Commissioning Activities have been completed.

2.48 Where the Regulator:

- (a) determines under Special Condition I2.47(b) that the relevant ExpA Commissioning Activities are not complete, the Licensee must:
 - (i) complete any outstanding ExpA Commissioning Activities; and
 - (ii) refer the matter back to the relevant Independent Certifier,and the procedures in Special Conditions I2.44 and I2.45 shall be repeated; or
- (b) requires further Supporting Information from the Licensee under Special Condition I2.47(c), the Licensee must provide such Supporting Information to the Regulator as soon as reasonably practicable and the procedure in Special Condition I2.47 shall be repeated,

in each case until the Regulator determines that the relevant ExpA Commissioning Activities are complete and the relevant ExpA Acceptance has been achieved.

Part T: Rectification, resolution and/or completion of ExpA Acceptance Punchlist Items

- 2.49 In the event that an ExpA Acceptance Certificate is expressed to be subject to ExpA Acceptance Punchlist Items, the Licensee shall promptly provide to the Regulator:
- (a) a list of the relevant ExpA Acceptance Punchlist Items; and
 - (b) a reasonable proposed programme for the rectification, resolution and/or completion of the relevant ExpA Acceptance Punchlist Items (an "**ExpA Acceptance Punchlist Programme**"), which programme shall require that each such ExpA Acceptance Punchlist Item shall be rectified, resolved and/or completed:
 - (i) within [●] of the relevant ExpA Acceptance; or
 - (ii) within such other timeframe as is reasonably practicable in the circumstances.
- 2.50 In respect of any ExpA Acceptance Punchlist Programme provided by the Licensee under Special Condition I2.49, the Regulator may:
- (a) determine that the proposed ExpA Acceptance Punchlist Programme is approved;
 - (b) determine that the proposed ExpA Acceptance Punchlist Programme is not approved and raise comments on the proposed ExpA Acceptance Punchlist Programme; and/or
 - (c) require Supporting Information from the Licensee.
- 2.51 Where the Regulator makes a determination under Special Condition I2.50(b) and raises comments on an ExpA Acceptance Punchlist Programme provided by the Licensee under Special Condition I2.49:
- (a) the Licensee must take account of such comments and, where appropriate, the Licensee must issue a revised ExpA Acceptance Punchlist Programme to the Regulator as soon as reasonably practicable, together with:
 - (i) confirmation of which of the Regulator's comments have not been addressed; and
 - (ii) an explanation as to why such comments have not been addressed; and
 - (b) where the Licensee has issued a revised ExpA Acceptance Punchlist Programme under Special Condition I2.51(a), the Regulator will review the revised ExpA Acceptance Punchlist Programme (and any accompanying explanation as to why the Regulator's comments have not been addressed) and the Regulator will:
 - (i) determine that the proposed ExpA Acceptance Punchlist Programme is approved; or
 - (ii) determine that the proposed ExpA Acceptance Punchlist Programme is not approved and identify any of its comments which have not been addressed (and in respect of which the Licensee has not satisfactorily explained why they have not been addressed).

- 2.52 Where the Regulator makes a determination under Special Condition I2.51(b)(ii), the Regulator shall be entitled to raise comments on the proposed ExpA Acceptance Punchlist Programme and the procedure in Special Condition I2.51 shall be repeated.
- 2.53 The Licensee must rectify, resolve or complete any ExpA Acceptance Punchlist Items:
- (a) in accordance with the ExpA Acceptance Punchlist Programme as approved under Special Condition I2.50(a), I2.51(b)(i) or as amended by the Regulator under Special Condition I2.53; and
 - (b) to the satisfaction of the Independent Certifier.

Part U: Development Activities

- 2.54 Subject to the conditions of this licence, the Licensee must develop the Approved T&S Network by conducting the Development Activities in accordance with [section 5] of the APDP.
- 2.55 Promptly following completion of all relevant Development Activities relating to a Development Project, the Licensee must provide notice to the Regulator detailing whether the Licensee considers that following the completion of such Development Activities:
- (a) settlement can now be reached in respect of Capex for the relevant Development Project, such that a Change in Scope shall apply; or
 - (b) where settlement cannot be reached in respect of Capex for the relevant Development Project, such that the Licensee proposes the cancellation of the relevant Development Project and therefore a Change in Scope shall apply.
- 2.56 Where the Licensee has proposed pursuant to Special Condition I2.55 that a Change in Scope shall apply, then the Licensee must comply with the provisions of Part A of Special Condition J2.

Special Condition J11	Excluded Project Spend	469
Special Condition J12	No double recovery	470
Special Condition J13	Price Control Financial Model	471

Special Condition J1: Overarching conditions

Introduction

- 1.1 The special conditions in this Section J set out provisions that apply with effect from Licence Award in addition to those special conditions set out in Sections F (*Construction Period conditions*), G (*Commissioning Period conditions*), H (*Operational Period conditions*) and I (*T&S Network development*).

Draft

Special Condition J2: Supervening Event Re-openers, Insured Risk Events and Relief Events

Introduction

- 2.1 The purpose of this special condition is to set out the provisions that apply in circumstances where the Licensee and/or the Regulator (as the context requires) becomes aware of a Supervening Event Re-opener or a Relief Event (as the case may be) which may impact on the Project.

Structure

- 2.2 This special condition is structured as follows:
- (a) Part A sets out the provisions that apply in circumstances where the Licensee becomes aware of a Change in Scope which may impact on the Project;
 - (b) Part B sets out the provisions that apply in circumstances where the Licensee or the Regulator becomes aware of a Qualifying Change in Law which may impact on the Project;
 - (c) Part C sets out the provisions that apply in circumstances where the Licensee becomes aware of a Force Majeure Event which may impact on the Project;
 - (d) Part D: sets out the provisions that apply in circumstances where an Insured Risk Event occurs;
 - (e) Part E sets out the provisions that apply in circumstances where the Licensee becomes aware of a Relief Event which may impact on the Project; and
 - (f) Part F acknowledges that the impact of a Supervening Event Re-opener as determined by the Regulator under this Special Condition J2 may include additional construction periods and/or commissioning periods (with associated SRAs).

Part A: Changes in Scope

- 2.3 The Licensee must submit a CiS Submission to the Regulator as soon as reasonably practicable after the Licensee becomes aware of a potential Change in Scope.
- 2.4 A CiS Submission must give particulars of:
- (a) the circumstance(s) to which the CiS Submission relates (including the relevant ground at limbs (a) to (c) of the definition of Change in Scope);
 - (b) the reason(s) why the Licensee considers such circumstance(s) to constitute grounds for a Change in Scope;
 - (c) the Licensee's analysis of the likely impact of the relevant potential Change in Scope on the Approved T&S Network, including any impact on the physical infrastructure and/or the operation of the Approved T&S Network;

- (d) the Licensee's proposals to implement the potential Change in Scope, including an assessment of the costs of implementing such potential Change in Scope; and
- (e) the Licensee's analysis of the effect(s), or likely effect(s), of the relevant potential Change in Scope, including a detailed justification in respect of the same, which effect(s) or likely effect(s) may include (where relevant in the context of such potential Change in Scope):
 - (i) any proposed adjustment(s) to the Revenue Calculations as a result of the potential Change in Scope, including:
 - (A) any reasonable increases or decreases to any ex ante allowance and/or any proposed new ex ante allowance(s); and
 - (B) any change to the cost sharing factor;
 - (ii) any proposed adjustment in respect of the Licensee's obligations under this licence where and to the extent that the Licensee is unable to perform or is delayed in performing such obligations as a result of the potential Change in Scope:
 - (A) for such period as is necessary having regard to the potential Change in Scope; or
 - (B) until such time as the obligations have been amended to reflect the impact of the potential Change in Scope;
 - (iii) any proposed adjustments to the targets or outputs (or the assessment of the performance of the T&S Assets against such targets or outputs) under these special conditions to reflect the impact of the potential Change in Scope;
 - (iv) any proposed adjustments to key milestone dates (including the Scheduled Handover Date, the Scheduled COD, the Longstop Date, a Scheduled Phase 2 Handover Date, a Scheduled Phase 2 Acceptance Date, a Scheduled ExpA Handover Date and/or a Scheduled ExpA Acceptance Date as relevant) to take account of the impact of the potential Change in Scope;
 - (v) the proposed inclusion of new construction periods, commissioning periods or operational periods (and associated SRAVs²²) in respect of the potential Change in Scope;
 - (vi) any proposed adjustments to the WACC; and/or
 - (vii) any other proposed amendments and/or modifications required to this licence to reflect the impact of the potential Change in Scope.

²² **Explanatory note:** any additional SRAV would transfer to the RAV as TSRAV once the relevant assets which are the subject of the additional SRAV have been commissioned.

2.5 Where the Licensee becomes aware that two or more Changes in Scope and/or potential Changes in Scope relate to:

- (a) the same expansion or enhancement of the Approved T&S Network; and/or
- (b) cancellation or decommissioning of part of, or of a change to the scope of the Approved T&S Network,

it shall consolidate the CiS Submissions relating to such Changes in Scope and/or potential Changes in Scope into a single CiS Submission under Special Condition J2.3 as if they were a single Change in Scope.

2.6 Following submission of a CiS Submission by the Licensee to the Regulator, the Licensee must provide to the Regulator any Supporting Information that the Regulator considers appropriate and requests from the Licensee in respect of:

- (a) such potential Change in Scope (and the grounds on which the CiS Submission is submitted);
- (b) the Licensee's proposals to implement the potential Change in Scope; and
- (c) the Licensee's analysis of the effect(s), or likely effect(s), of the relevant potential Change in Scope.

2.7 In making a determination under Special Conditions J2.8 and J2.9, the Regulator will have regard to any relevant guidance issued by the Regulator from time to time.

2.8 Following receipt of a CiS Submission and all Supporting Information required under Special Condition J2.6, the Regulator will review such CiS Submission and will either:

- (a) determine that:
 - (i) grounds for a Change in Scope have occurred (as set out in limbs (a) to (c) of the definition of the term "Change in Scope"); and
 - (ii) the implementation of the proposed Change in Scope is approved; or
- (b) determine that:
 - (i) grounds for a Change in Scope have not occurred (as set out in limbs (a) to (c) of the definition of the term "Change in Scope"); and/or
 - (ii) the implementation of the proposed Change in Scope is not approved.

2.9 Where the Regulator makes a determination under Special Condition J2.8(a), the Regulator will:

- (a) determine the impact, or expected impact (if any) on the Project of the relevant Change in Scope; and
- (b) determine any adjustments to be provided to the Licensee to reflect such impact or expected impact (which may include new ex ante allowances),

and any such determination including any associated amendments to update Project-Specific Documents will be implemented by way of a modification of the conditions of this licence in accordance with section 13 of the Act.

- 2.10 Where the Regulator makes a determination under Special Condition J2.8(b), the CiS Submission will be rejected.
- 2.11 Without limiting the generality of Special Condition J2.6, where a Change in Scope involves an Additional or Expanded/Enhanced Storage Site, Special Conditions H22.14 and H22.15 (*Storage Site performance*) shall apply.
- 2.12 Where the Licensee notifies the Regulator under this Special Condition J2 (Part A) of a Change in Scope under limb (c) of the definition of Change in Scope regarding the cancellation of Development Activities and associated Development Project, as part of its determination in respect of such Change in Scope, the Regulator may direct the Licensee as to the treatment of all data, design rights, intellectual property rights, authorisations, approvals and consents and other assets arising from or created as a result of the relevant Development Activities funded by Ongoing Devex and the Licensee shall comply with any such direction. In making any such determination, the Regulator will take account of reasonable restrictions on the Licensee's ability to deal with such data, design rights, intellectual property rights, authorisations, approvals and consents and other assets.
- 2.13 Where a Change in Scope notified to the Regulator under Special Condition J2.3 is a Change in Scope (Variation), Special Condition J7 (*Variation Re-opens*) shall apply.

Part B: Qualifying Changes in Law

- 2.14 The Licensee must submit a QCiL Submission to the Regulator:
- (a) as soon as the Licensee becomes aware of a potential Qualifying Change in Law; or
 - (b) as soon as reasonably practicable following receipt of a notice from the Regulator notifying the Licensee of a Qualifying Change in Law or potential Qualifying Change in Law.
- 2.15 A QCiL Submission must give particulars of:
- (a) the circumstance(s) to which the QCiL Submission relates;
 - (b) where the QCiL Submission is submitted under Special Condition J2.14(a), the reason(s) why the Licensee considers such circumstance(s) to constitute a Qualifying Change in Law;
 - (c) the Licensee's analysis of the likely impact of the relevant potential Qualifying Change in Law or Qualifying Change in Law (as the case may be) on the Approved T&S Network, including any impact on the physical infrastructure and/or the operation of the Approved T&S Network;

- (d) the Licensee's proposals to implement the potential Qualifying Change in Law or Qualifying Change in Law (as the case may be), including an assessment of the costs of implementing such potential Qualifying Change in Law or Qualifying Change in Law;
- (e) the Licensee's analysis of the effect(s), or likely effect(s), of the relevant potential Qualifying Change in Law or Qualifying Change in Law (as the case may be), including a detailed justification in respect of the same, which effect(s) or likely effect(s) may include (where relevant in the context of such potential Qualifying Change in Law or Qualifying Change in Law (as the case may be)):
 - (i) any proposed adjustment(s) to the Revenue Calculations as a result of the potential Qualifying Change in Law or Qualifying Change in Law (as the case may be), including:
 - (A) any reasonable increases or decreases to any ex ante allowance and/or any proposed new ex ante allowance(s); and
 - (B) any change to the cost sharing factor;
 - (ii) any proposed adjustment in respect of the Licensee's obligations under this licence where and to the extent that the Licensee is unable to perform or is delayed in performing such obligations as a result of the potential Qualifying Change in Law or Qualifying Change in Law (as the case may be):
 - (A) for such period as is necessary having regard to the potential Qualifying Change in Law or Qualifying Change in Law (as the case may be); or
 - (B) until such time as the obligations have been amended to reflect the impact of the potential Qualifying Change in Law or Qualifying Change in Law (as the case may be);
 - (iii) any proposed adjustments to the targets or outputs (or the assessment of the performance of the T&S Assets against such targets or outputs) under these special conditions to reflect the impact of the potential Qualifying Change in Law or Qualifying Change in Law (as the case may be);
 - (iv) any proposed adjustments to key milestone dates (including the Scheduled Handover Date, the Scheduled COD, the Longstop Date, a Scheduled Phase 2 Handover Date, a Scheduled Phase 2 Acceptance Date, a Scheduled ExpA Handover Date and/or a Scheduled ExpA Acceptance Date as relevant) to take account of the impact of the potential Qualifying Change in Law or Qualifying Change in Law (as the case may be);

- (v) the proposed inclusion of new construction periods, commissioning periods or operational periods (and associated SRAVs²³) in respect of the potential Qualifying Change in Law or Qualifying Change in Law (as the case may be);
 - (vi) any proposed adjustments to the WACC; and/or
 - (vii) any other proposed amendments and/or modifications required to this licence to reflect the impact of the potential Qualifying Change in Law or Qualifying Change in Law (as the case may be); and
- (f) the actions the Licensee has taken, and is continuing to take, to mitigate the impact of the potential Qualifying Change in Law or Qualifying Change in Law (as the case may be).

2.16 Following submission of a QCiL Submission by the Licensee to the Regulator, the Licensee must provide to the Regulator:

- (a) any Supporting Information that the Regulator considers appropriate and requests from the Licensee in respect of:
 - (i) such Qualifying Change in Law or potential Qualifying Change in Law;
 - (ii) the Licensee's proposals to implement the Qualifying Change in Law or potential Qualifying Change in Law;
 - (iii) the Licensee's analysis of the effect(s), or likely effect(s), of the relevant Qualifying Change in Law or potential Qualifying Change in Law; and
 - (iv) the actions the Licensee has taken, and is continuing to take, to mitigate the impact of the potential Qualifying Change in Law or Qualifying Change in Law (as the case may be) and the extent to which the Licensee; and
- (b) where applicable in the context of an increase or decrease of the Licensee's costs pursuant to Special Condition J2.18(b), satisfactory evidence to the Regulator:
 - (i) that the potential Qualifying Change in Law or Qualifying Change in Law (as the case may be) affects, or will affect, construction and/or commissioning works and activities and/or the operations of the T&S Network (as relevant); and/or
 - (ii) of the cost impact of the potential Qualifying Change in Law or Qualifying Change in Law (as the case may be) in respect of Ongoing Devex, Capex or Opex.

²³ **Explanatory note:** any additional SRAV would transfer to the RAV as TSRAV once the relevant assets which are the subject of the additional SRAV have been commissioned.

- 2.17 In making a determination under Special Condition J2.18, the Regulator will have regard to any relevant guidance issued by the Regulator from time to time.
- 2.18 Following receipt of a QCiL Submission and all Supporting Information and evidence required under Special Condition J2.16, the Regulator will review such QCiL Submission and will:
- (a) where the relevant QCiL Submission relates to a potential Qualifying Change in Law, either:
 - (i) determine that the relevant potential Qualifying Change in Law constitutes a Qualifying Change in Law; or
 - (ii) determine that the relevant potential Qualifying Change in Law does not constitute a Qualifying Change in Law; and
 - (b) where the relevant QCiL Submission relates to a Qualifying Change in Law or where the Regulator makes a determination under Special Condition J2.18(a)(i):
 - (i) determine the impact, or expected impact (if any) on the Project of the relevant Qualifying Change in Law; and
 - (ii) determine any adjustments to be provided to the Licensee to reflect such impact or expected impact such that the Licensee is put in a no better nor worse position than it would have been had the Qualifying Change in Law not occurred (which may include new ex ante allowances),
- provided that:
- (A) in making its determinations the Regulator shall not make any upwards adjustment for any costs incurred as a result of the Licensee's failure to act in accordance with Good Industry Practice (and for this purpose what constitutes "Good Industry Practice" shall take account of the circumstances which were known or which ought reasonably to have been known to the Licensee at the relevant time); and
 - (B) any such determination including any associated amendments to update Project-Specific Documents will be implemented by way of a modification of the conditions of this licence in accordance with section 13 of the Act.
- 2.19 Where the Regulator makes a determination under Special Condition J2.18(a)(ii), the QCiL Submission will be rejected.
- 2.20 The amount of any increases to the Licensee's costs pursuant to Special Condition J2.18(b) shall be subject to the Licensee providing satisfactory evidence pursuant to Special Condition J2.16 that:

- (a) the potential Qualifying Change in Law or Qualifying Change in Law (as the case may be) affects construction and/or commissioning works and activities and/or the operations of the T&S Network (as relevant); and/or
- (b) the cost impact of the potential Qualifying Change in Law or Qualifying Change in Law (as the case may be) in respect of Ongoing Devex, Capex or Opex.

2.21 Without limiting the generality of Special Condition J2.16, where a Qualifying Change in Law involves an Additional or Expanded/Enhanced Storage Site, Special Conditions H22.14 and H22.15 (*Storage Site performance*) shall apply.

Part C: Force Majeure Event

2.22 The Licensee must:

- (a) notify the Regulator as soon as reasonably practicable after the Licensee becomes aware of any potential Force Majeure Event (an **"FME Notice"**);
- (b) notify the Regulator either at the same time as an FME Notice or as soon as reasonably practicable following issue of such FME Notice, notify the Regulator of the circumstance(s) that the Licensee considers constitute a potential Force Majeure Event; and
- (c) attend any meetings to discuss the potential Force Majeure Event as the Regulator so requires.

2.23 Where Special Condition J2.22 applies (and without prejudice to its obligations pursuant to such Special Condition), the Licensee must submit an FME Submission to the Regulator, as soon as reasonably practicable following issue of the notice required under Special Condition J2.22(a).

2.24 An FME Submission must give particulars of:

- (a) the circumstance(s) to which the FME Submission relates;
- (b) the reason(s) why the Licensee considers such circumstance(s) to constitute a Force Majeure Event;
- (c) the Licensee's analysis of the likely impact of the relevant potential Force Majeure Event on the Approved T&S Network, including any impact on the physical infrastructure and/or the operation of the Approved T&S Network;
- (d) the Licensee's proposals to respond to the potential Force Majeure Event, including an assessment of the costs of responding to such potential Force Majeure Event;

- (e) the Licensee's analysis of the effect(s), or likely effect(s), of the relevant potential Force Majeure Event, including a detailed justification in respect of the same, which effect(s) or likely effect(s) may include (where relevant in the context of such potential Force Majeure Event):
 - (i) any proposed adjustment(s) to the Revenue Calculations as a result of the potential Force Majeure Event, including:
 - (A) any reasonable increases or decreases to any ex ante allowance and/or any proposed new ex ante allowance(s); and
 - (B) any change to the cost sharing factor;
 - (ii) any proposed adjustment in respect of the Licensee's obligations under this licence where and to the extent that the Licensee is unable to perform or is delayed in performing such obligations as a result of the potential Force Majeure Event:
 - (A) for such period as is necessary having regard to the potential Force Majeure Event; or
 - (B) until such time as the obligations have been amended to reflect the impact of the potential Force Majeure Event;
 - (iii) any proposed adjustments to the targets or outputs (or the assessment of the performance of the T&S Assets against such targets or outputs) under these special conditions to reflect the impact of the potential Force Majeure Event;
 - (iv) any proposed adjustments to key milestone dates (including the Scheduled Handover Date, the Scheduled COD, the Longstop Date, a Scheduled Phase 2 Handover Date, a Scheduled Phase 2 Acceptance Date, a Scheduled ExpA Handover Date and/or a Scheduled ExpA Acceptance Date, as relevant) to take account of the impact of the potential Force Majeure Event;
 - (v) the proposed inclusion of new construction periods, commissioning periods or operational periods (and associated SRAVs²⁴) in respect of the potential Force Majeure Event;
 - (vi) any proposed adjustments to the WACC; and/or
 - (vii) any other proposed amendments and/or modifications required to this licence to reflect the impact of the potential Force Majeure Event; and
- (f) the actions the Licensee has taken, and is continuing to take, to mitigate the impact of the potential Force Majeure Event and the extent to which the Licensee.

²⁴ **Explanatory note:** any additional SRAV would transfer to the RAV as TSRAV once the relevant assets which are the subject of the additional SRAV have been commissioned.

- 2.25 Following submission of an FME Submission by the Licensee to the Regulator, the Licensee must provide to the Regulator:
- (a) any Supporting Information that the Regulator considers appropriate and requests from the Licensee in respect of:
 - (i) such potential Force Majeure Event;
 - (ii) the Licensee's proposals to respond to the potential Force Majeure Event;
 - (iii) the Licensee's analysis of the effect(s), or likely effect(s), of the relevant potential Force Majeure Event; and
 - (iv) the actions the Licensee has taken, and is continuing to take, to mitigate the impact of the potential Force Majeure Event; and
 - (b) where applicable in the context of an increase or decrease of the Licensee's costs pursuant to Special Condition J2.28, satisfactory evidence to the Regulator:
 - (i) that the potential Force Majeure Event affects, or will affect, construction and/or commissioning works and activities and/or the operations of the T&S Network; and/or
 - (ii) of the cost impact of the potential Force Majeure Event in respect of Ongoing Devex, Capex or Opex.
- 2.26 In making a determination under Special Conditions J2.27 and J2.28, the Regulator will have regard to any relevant guidance issued by the Regulator from time to time.
- 2.27 Following receipt of an FME Submission and all Supporting Information and evidence required under Special Condition J2.25, the Regulator will review such FME Submission and will either:
- (a) determine that the relevant potential Force Majeure Event constitutes a Force Majeure Event; or
 - (b) determine that the relevant potential Force Majeure Event does not constitute a Force Majeure Event.
- 2.28 Where the Regulator makes a determination under Special Condition J2.27(a), the Regulator will:
- (a) determine the impact or expected impact (if any) on the Project of the relevant Force Majeure Event; and
 - (b) determine any adjustments to be provided to the Licensee to reflect such impact or expected impact such that the Licensee is put in a no better nor worse position than it would have been had the Force Majeure Event not occurred (which may include new ex ante allowances), provided always that the Licensee has taken action from Licence Award in accordance with Good Industry Practice to mitigate the relevant impact,

provided that:

- (i) in making its determinations the Regulator shall not make any upwards adjustment for any costs incurred as a result of the Licensee's failure to act in accordance with Good Industry Practice (and for this purpose what constitutes "Good Industry Practice" shall take account of the circumstances which were known or which ought reasonably to have been known to the Licensee at the relevant time); and
- (ii) any such determination including any associated amendments to update Project-Specific Documents will be implemented by way of a modification of the conditions of this licence in accordance with section 13 of the Act.

2.29 Where the Regulator makes a determination under Special Condition J2.27(b), the FME Submission will be rejected.

2.30 The amount of any increases to the Licensee's costs pursuant to Special Condition J2.28 shall be subject to the Licensee providing satisfactory evidence, pursuant to Special Condition J2.25 that:

- (a) the potential Force Majeure Event affects construction and/or commissioning works and activities and/or the operations of the T&S Network (as relevant); and/or
- (b) the cost impact of the potential Force Majeure Event in respect of Ongoing Devex, Capex or Opex.

2.31 Without limiting the generality of Special Condition J2.25, where a Force Majeure Event involves an Additional or Expanded/Enhanced Storage Site, Special Conditions H22.14 and H22.15 (*Storage Site performance*) shall apply.

Part D: Insured Risk Event

- 2.32 The Licensee must:
- (a) notify the Regulator as soon as reasonably practicable after the Licensee becomes aware of any potential Insured Risk Event (an "**Insured Risk Event Notice**");
 - (b) notify the Regulator either at the same time as an Insured Risk Event Notice or as soon as reasonably practicable following issue of such Insured Risk Event Notice, of the circumstance(s) that the Licensee considers constitute a potential Insured Risk Event; and
 - (c) attend any meetings to discuss the potential Insured Risk Event as the Regulator so requires.
- 2.33 Where Special Condition J2.32 applies (and without prejudice to its obligations pursuant to such Special Condition), the Licensee must submit an Insured Risk Event Submission to the Regulator, as soon as reasonably practicable following issue of the notice required under Special Condition J2.32(a) or, where the potential Insured Risk Event has occurred prior to the Commercial Operations Date and the Licensee so elects, by the Commercial Operations Date.
- 2.34 An Insured Risk Event Submission must give particulars of:
- (a) the circumstance(s) to which the Insured Risk Event Submission relates;
 - (b) the reason(s) why the Licensee considers such circumstance(s) to constitute an Insured Risk Event;
 - (c) the Licensee's analysis of the likely impact of the relevant potential Insured Risk Event on the Approved T&S Network, including any impact on the physical infrastructure and/or the operation of the Approved T&S Network;
 - (d) the Licensee's proposals to respond to the potential Insured Risk Event;
 - (e) the Licensee's analysis of the effect(s), or likely effect(s), of the relevant potential Insured Risk Event, including a detailed justification in respect of the same, which effect(s) or likely effect(s) shall (where relevant in the context of such potential Insured Risk Event) be limited to:
 - (i) any proposed adjustments to the Licensee's obligation during the Operational Period to achieve the Obligated Network Capacity pursuant to Standard Condition B3 (Access to the T&S Network) to take into account the impact of the potential Insured Risk Event;
 - (ii) any proposed adjustments to the Licensee's obligations during the Operational Period in respect of Phase 2 Activities and/or Expansion Activities under Section I (*T&S Network Development*) to take into account the impact of the Insured Risk Event; and

- (iii) any proposed adjustments to the Licensee's obligation during the Operational Period to implement Correction Plan(s) under Special Condition H19.13(a)(ii) (*Correction Plans and associated Remediation Plans*) to take into account the impact of the Insured Risk Event.
 - (f) the actions the Licensee has taken, and is continuing to take, to mitigate the impact of the potential Insured Risk Event.
- 2.35 Following submission of an Insured Risk Event Submission by the Licensee to the Regulator, the Licensee must provide to the Regulator any Supporting Information that the Regulator considers appropriate and requests from the Licensee in respect of:
 - (a) such potential Insured Risk Event;
 - (b) the Licensee's proposals to respond to the potential Insured Risk Event;
 - (c) the Licensee's analysis of the effect(s), or likely effect(s), of the relevant potential Insured Risk Event; and
 - (d) the actions the Licensee has taken, and is continuing to take, to mitigate the impact of the potential Insured Risk Event.
- 2.36 In making a determination under Special Conditions J2.37 and J2.38, the Regulator will have regard to:
 - (a) any relevant guidance issued by the Regulator from time to time; and
 - (b) the SoS's response to the Claim (as such term is defined in the Supplemental Compensation Agreement); and
 - (c) the Insurers' (as such term is defined in the Supplemental Compensation Agreement) response to the claim for the relevant Insured Risk Event under the Insurances (as such term is defined in the Supplemental Compensation Agreement), including any confirmations received by the Licensee from the relevant Insurers (as such term is defined in the Supplemental Compensation Agreement).
- 2.37 Following receipt of an Insured Risk Event Submission and all Supporting Information required under Special Condition J2.35, the Regulator will review such Insured Risk Event Submission and will either:
 - (a) determine that the relevant potential Insured Risk Event constitutes an Insured Risk Event; or
 - (b) determine that the relevant potential Insured Risk Event does not constitute an Insured Risk Event.
- 2.38 Where the Regulator makes a determination under Special Condition J2.37(a), the Regulator will:
 - (a) determine the impact or expected impact (if any) on the Project of the relevant Insured Risk Event during the Operational Period; and

- (b) determine the extent (if any) to which the Licensee is granted relief from:
 - (i) the Licensee's obligation during the Operational Period to achieve the Obligated Network Capacity pursuant to Standard Condition B3 (Access to the T&S Network) to take into account the impact of the Insured Risk Event;
 - (ii) the Licensee's obligations during the Operational Period in respect of Phase 2 Activities and/or Expansion Activities under Section I (*T&S Network Development*) to take into account the impact of the Insured Risk Event; and/or
 - (iii) the Licensee's obligation during the Operational Period to implement Correction Plan(s) under Special Conditions H19.13 and H19.17 (*Correction Plans and associated Remediation Plans*) to take into account the impact of the Insured Risk Event.

2.39 Where the Regulator makes a determination under Special Condition J2.37(b), the Insured Risk Event Submission will be rejected.

2.40 The Licensee must notify the Regulator as soon as practicable after the Insured Risk Event ceases or no longer prevents the Licensee from performing its obligations under this licence, and, where the relief granted to the Licensee as part of the determination under Special Condition J2.38 is still subsisting, such relief shall cease immediately following such notification.

Part E: Relief Event

2.41 The Licensee must submit a Relief Event Submission to the Regulator as soon as the Licensee becomes aware of any potential Relief Event during:

- (a) the Construction Period or the Commissioning Period,
- (b) in respect of any Phase 2 Activities, the period from the date on which the Licensee commences the relevant Phase 2 Activities (or the relevant Phase 2 Tranche, where relevant) until the relevant Phase 2 Acceptance; or
- (c) in respect of any Expansion Activities, the period from the date on which the Licensee commences the relevant Expansion Activities (or the relevant ExpA Tranche, where relevant) until the relevant ExpA Acceptance.

2.42 A Relief Event Submission must give particulars of:

- (a) the circumstance(s) to which the Relief Event Submission relates;
- (b) the reason(s) why the Licensee considers such circumstance(s) to constitute a Relief Event;
- (c) the Licensee's proposals to respond to the potential Relief Event;
- (d) the Licensee's analysis of the effect(s), or likely effect(s), of the relevant potential Relief Event, including a detailed justification in respect of the same; and

- (e) the actions the Licensee has taken to mitigate the impact of the Relief Event.
- 2.43 Following submission of a Relief Event Submission by the Licensee to the Regulator, the Licensee must provide to the Regulator any Supporting Information that the Regulator considers appropriate and requests from the Licensee in respect of:
- (a) such potential Relief Event;
 - (b) the Licensee's proposals to respond to the potential Relief Event;
 - (c) the Licensee's analysis of the effect(s), or likely effect(s), of the relevant potential Relief Event; and
 - (d) the actions the Licensee has taken, and is continuing to take, to mitigate the impact of the potential Relief Event.
- 2.44 In making a determination under Special Conditions J2.45 and J2.46, the Regulator will have regard to any relevant guidance issued by the Regulator from time to time.
- 2.45 Following receipt of a Relief Event Submission and all Supporting Information and evidence required under Special Condition J2.43, the Regulator will review such Relief Event Submission and will either:
- (a) determine that the relevant potential Relief Event constitutes a Relief Event; or
 - (b) determine that the relevant potential Relief Event does not constitute a Relief Event.
- 2.46 Where the Regulator makes a determination under Special Condition J2.45(a), the Regulator will:
- (a) determine the impact or expected impact, (if any) of the relevant Relief Event on the Scheduled Handover Date, Scheduled COD, Longstop Date, a Scheduled Phase 2 Handover Date, a Scheduled Phase 2 Acceptance Date, a Scheduled ExpA Handover Date and/or a Scheduled ExpA Acceptance Date (as applicable); and
 - (b) determine any extension(s) to be provided to the Scheduled Handover Date, the Scheduled COD, the Longstop Date, a Scheduled Phase 2 Handover Date, a Scheduled Phase 2 Acceptance Date, a Scheduled ExpA Handover Date and/or a Scheduled ExpA Acceptance Date (as applicable) to reflect such impact.
- 2.47 Where the Regulator makes a determination under Special Condition J2.45(b), the Relief Event Submission will be rejected.

Part F: Additional construction periods and/or commissioning periods (with associated SRAVs)

- 2.48 The Regulator and the Licensee each acknowledge that the impact of a Supervening Event Re-opener as determined by the Regulator under this Special Condition J2 may include the inclusion of additional construction periods, commissioning periods and/or commercial operations dates in respect of Expansion Activities (which are outside the scope of Phase 1 Activities and Phase 2 Activities), with or without associated SRAVs²⁵, provided that the inclusion of any such additional construction periods, commissioning periods and/or commercial operations dates shall not adversely impact on:
- (a) the Licensee's performance of its obligations in respect of:
 - (i) completing the Handover Works and/or Commissioning Activities in accordance with the conditions of this licence;
 - (ii) the Phase 2 Activities; and/or
 - (iii) any Development Activities and/or Expansion Activities being then undertaken; nor
 - (b) the Licensee's ability to recover Allowed Revenue through the Use of System Charges in accordance with the conditions of this licence.

²⁵ **Explanatory note:** any additional SRAV would transfer to the RAV as TSRAV once the relevant assets which are the subject of the additional SRAV have been commissioned.

Special Condition J3: Independent Certifier

Introduction

- 3.1 The purpose of this special condition is to set out the Licensee's obligations in respect of the Independent Certifier(s).

Structure

- 3.2 This special condition is structured as follows:
- (a) Part A sets out the requirement to appoint Independent Certifier(s);
 - (b) Part B sets out the requirements in respect of IC Deeds of Appointment;
 - (c) Part C sets out the Licensee's obligations in relation to the Independent Certifier(s);
 - (d) Part D sets out the requirement for Regulator approval for the Licensee to change the terms of an IC Deed of Appointment;
 - (e) Part E provides that the Regulator may direct the Licensee to terminate an IC Deed of Appointment where a termination right arises under the relevant IC Deed of Appointment;
 - (f) Part F sets out the process for replacing an Independent Certifier; and
 - (g) Part G sets out the requirements for the Licensee to provide documents to the Independent Certifier(s) and the Regulator.

Part A: Requirement to appoint Independent Certifier(s)

- 3.3 The Licensee must appoint, in accordance with the provisions of this Special Condition J3, a suitably qualified and experienced consultant (or consultants) to act as Independent Certifier(s) to the Project for the purposes of this licence upon the terms of the relevant IC Deed(s) of Appointment in respect of the Handover Works and the Commissioning Activities, such appointment to be made no later than nine months following Licence Award.
- 3.4 In respect of any Phase 2 Activities, the Licensee must:
- (a) procure that when entered into:
 - (i) an IC Deed of Appointment in respect of the Handover Works and the Commissioning Activities as referred to in Special Condition J3.3 includes such Phase 2 Activities; or
 - (ii) an IC Deed of Appointment in respect of Major Expansion Activities as referred to in Special Condition J3.5(c) includes such Phase 2 Activities;
 - (b) vary, in accordance with the provisions of this Special Condition J3, an existing IC Deed of Appointment so that the scope of the IC Deed of Appointment is extended to include such Phase 2 Activities; or

- (c) appoint, in accordance with the provisions of this Special Condition J3, a suitably qualified and experienced consultant (or consultants) to act as Independent Certifier(s) to the Project for the purposes of this licence upon the terms of the relevant IC Deed(s) of Appointment in respect of such Phase 2 Activities,

such variation or appointment (as the case may be) to be made no later than the date specified in the Project Programme for the appointment of the relevant Independent Certifier.

3.5 In respect of any Major Expansion Activities, the Licensee must:

- (a) procure that when entered into:
 - (i) an IC Deed of Appointment in respect of the Handover Works and the Commissioning Activities as referred to in Special Condition J3.3 includes such Major Expansion Activities; or
 - (ii) an IC Deed of Appointment in respect of Phase 2 Activities as referred to in Special Condition J3.4(c) includes such Major Expansion Activities;
- (b) vary, in accordance with the provisions of this Special Condition J3, an existing IC Deed of Appointment in respect of the Handover Works and the Commissioning Activities or in respect of any Phase 2 Activities so that the scope of such IC Deed of Appointment is extended to include such Major Expansion Activities; or
- (c) appoint, in accordance with the provisions of this Special Condition J3, a suitably qualified and experienced consultant (or consultants) to act as Independent Certifier(s) to the Project for the purposes of this licence upon the terms of the relevant IC Deed(s) of Appointment in respect of such Major Expansion Activities,

in each case such appointment to be made no later than the date specified in the Project Programme for the appointment of the relevant Independent Certifier.

3.6 To qualify as an Independent Certifier for the purposes of this licence, a relevant consultant must:

- (a) be independent;
- (b) have:
 - (i) suitable qualifications and expertise to act as an Independent Certifier to the Project for the purposes of this licence in the context of the relevant works and activities (e.g. the Handover Works, Commissioning Activities and (where relevant) Phase 2 Activities or (where relevant) Major Expansion Activities); and
 - (ii) experience in acting as an independent certifier, independent verifier and/or independent technical adviser in respect of carbon capture, usage and storage and/or oil and gas development projects similar in scope, character and complexity to the Project; and

- (c) have been appointed in accordance with the following process:
- (i) the Licensee must send details of a proposed Independent Certifier (each a "**Proposed IC**") to the Regulator, including:
 - (A) where the Proposed IC will be appointed under a new IC Deed of Appointment, information about how the Proposed IC satisfies the criteria set out in limbs (a) and (b) of this Special Condition J3.6 to the extent such criteria applies to the relevant works and activities (e.g. the Handover Works, Commissioning Activities and Phase 2 Activities or (where relevant) Major Expansion Activities) at the time of appointment; and
 - (B) where the Proposed IC is already appointed under an existing IC Deed of Appointment and the scope of such IC Deed of Appointment is to be varied under Special Condition J3.4(b) or J3.5(b), information about how the Proposed IC satisfies the criteria set out in limbs (a), (b) and (c) of this Special Condition J3.6 to the extent such criteria applies to the relevant works and activities (e.g. the Phase 2 Activities or (where relevant) Major Expansion Activities) at the time of such variation; and
 - (ii) the Regulator will consider the information provided by the Licensee under Special Condition J3.6(c)(i) and advise the Licensee whether it approves (or does not approve) the Proposed IC; and
 - (iii) where the Regulator has advised the Licensee that it:
 - (A) approves the Proposed IC then the Licensee must:
 - (aa) appoint the Proposed IC as an Independent Certifier in accordance with the provisions of this Special Condition J3; or
 - (bb) vary the relevant existing IC Deed of Appointment such that the scope of such IC Deed of Appointment is extended to the relevant works and activities (e.g. the Phase 2 Activities or (where relevant) Major Expansion Activities),

(as the case may be) in accordance with the provisions of this Special Condition J3; or
 - (B) does not approve the Proposed IC, then the Licensee must seek the Regulator's approval to an alternative consultant in accordance with the requirements of this Special Condition J3.6.

3.7 Where the Regulator considers that an Independent Certifier is not providing a service of satisfactory quality, the Regulator may direct the Licensee to appoint an alternative Independent Certifier in accordance with the provisions of this Special Condition J3.

Part B: IC Deed(s) of Appointment

- 3.8 Where the Regulator has approved a Proposed IC under Special Condition J3.6(c)(ii) the Licensee must promptly provide to the Regulator for approval (as the case may be):
- (a) where the Proposed IC will be appointed under a new IC Deed of Appointment, a draft IC Deed of Appointment; or
 - (b) where the Proposed IC will be appointed under an existing IC Deed of Appointment under Special Condition J3.4(b) or J3.5(b), a draft of the amended IC Deed of Appointment (the "**Draft Varied IC DoA**"),

in each case which complies with the requirements of Special Condition J3.9.

- 3.9 Each IC Deed of Appointment (including where such IC Deed of Appointment is an existing IC Deed of Appointment varied to extend such IC Deed of Appointment to include Phase 2 Activities and/or Major Expansion Activities in accordance with Special Condition J3.4(a) or J3.5(b) (as applicable)) must:
- (a) specify the duties owed by the relevant Independent Certifier to the Regulator and the Licensee, which, in the case of the Regulator shall include a duty of care and an obligation to enter into a collateral warranty with the Regulator in a form approved by the Regulator and attached to the IC Deed of Appointment in template form;
 - (b) require the relevant Independent Certifier to carry out its duties independently, fairly and impartially to and as between the Licensee and the Regulator (and any other relevant party);
 - (c) include a scope of works and activities which is substantially aligned with the IC Scope in respect of each category of works and activities (e.g. Handover Works, Commissioning Activities, Phase 2 Activities and/or Major Expansion Activities) or otherwise approved by the Regulator;
 - (d) require the relevant Independent Certifier to take out professional indemnity insurance at a minimum level to be approved by the Regulator at the time of appointment (and in any event no less than £[●]), such professional indemnity insurance to be maintained for a period of not less than 12 years from the earlier of:
 - (i) the date of final completion of the Independent Certifier's duties under the relevant IC Deed of Appointment; and
 - (ii) the date of termination of the relevant IC Deed of Appointment,

in each case provided that such insurance is available at reasonable commercial rates such that the insurance premium payable for insuring that risk is at such a level that the risk is being generally insured against in the worldwide insurance market with reputable insurers of good standing in the United Kingdom;

- (e) require:
 - (i) in the case of an appointment in respect of the Handover Works and/or the Commissioning Activities, the appointment of the relevant Independent Certifier to be maintained for at least the duration of the Construction Period and Commissioning Period (subject to earlier termination in accordance with the terms of the relevant IC Deed of Appointment);
 - (ii) in the case of an appointment in respect of any Phase 2 Activities, the appointment of the relevant Independent Certifier to be maintained for at least the duration of the relevant Phase 2 Activities (subject to earlier termination in accordance with the terms of the relevant IC Deed of Appointment); and
 - (iii) in the case of an appointment in respect of Major Expansion Activities, to be maintained for at least the duration of such Major Expansion Activities (subject to earlier termination in accordance with the terms of the relevant IC Deed of Appointment).

3.10 Where the Licensee has provided a draft IC Deed of Appointment or Draft Varied IC DoA to the Regulator for approval under Special Condition J3.8, the Regulator will review such draft IC Deed of Appointment or Draft Varied IC DoA (as the case may be) and will:

- (a) determine that the draft IC Deed of Appointment or Draft Varied IC DoA is approved;
- (b) determine that the draft IC Deed of Appointment or Draft Varied IC DoA is not approved and provide its reasons for such non-approval; or
- (c) require further Supporting Information from the Licensee to determine whether to approve the draft IC Deed of Appointment or Draft Varied IC DoA.

3.11 Where the Regulator:

- (a) determines under Special Condition J3.10(a) that a draft IC Deed of Appointment or Draft Varied IC DoA is approved (as the case may be) the Licensee must:
 - (i) appoint the relevant Independent Certifier on the terms of the approved IC Deed of Appointment; or
 - (ii) vary the relevant existing IC Deed of Appointment on the terms of the approved Draft Varied IC DoA so that the scope of the relevant IC Deed of Appointment is extended to include the relevant Phase 2 Activities or Major Expansion Activities,

in each case, as soon as reasonably practicable;

- (b) determines under Special Condition J3.10(b) that the draft IC Deed of Appointment or Draft Varied IC DoA is not approved (as the case may be), the Licensee must promptly:
 - (i) where the Regulator has determined that a draft IC Deed of Appointment is not approved, amend and resubmit the draft IC Deed of Appointment to the Regulator; or
 - (ii) where the Regulator has determined that a Draft Varied IC DoA is not approved, either:
 - (A) amend and resubmit the Draft Varied IC DoA to the Regulator; or
 - (B) provide a draft IC Deed of Appointment to appoint the relevant Independent Certifier in place of the Draft Varied IC DoA, which draft IC Deed of Appointment complies with the requirements of Special Condition J3.9,and in each case the procedures in Special Condition J3.10 shall be repeated; or
- (c) requires further Supporting Information from the Licensee under Special Condition J3.10(c), the Licensee must provide such Supporting Information to the Regulator as soon as reasonably practicable and the procedure in Special Condition J3.10 shall be repeated.

Part C: The Licensee's obligations in relation to the Independent Certifier

- 3.12 The Licensee must as soon as reasonably practicable provide such information and assistance to the Independent Certifier(s), including rights of access in respect of the T&S Network, as each Independent Certifier may reasonably require or request to assist it in fulfilling its role in accordance with the relevant IC Deed of Appointment.
- 3.13 The Licensee must continuously keep the Independent Certifier(s) updated on the Project.
- 3.14 The Licensee must, and must procure that the Independent Certifier(s) shall, comply with and fulfil their respective duties and obligations arising under or in connection with the relevant IC Deed of Appointment.
- 3.15 The Licensee must co-operate with the Independent Certifier(s) and, as appropriate, the Regulator generally in relation to all matters within the scope or in connection with the relevant IC Deed of Appointment.
- 3.16 The Licensee must:
 - (a) give reasonable prior notice to any relevant Independent Certifier of its proposed procedures and programmes for the testing of elements of the T&S Network, and, as soon as reasonably practicable following receipt of any comments provided by the relevant Independent Certifier in respect of the same such comments, review and, to

the extent the Licensee (acting reasonably) considers appropriate, take account of such comments; and

- (b) permit and facilitate the attendance of any relevant Independent Certifier as an observer at such testing of elements of the T&S Network as the Independent Certifier so requests.

3.17 The Licensee must give reasonable prior notice to the Regulator of all inspections undertaken by any Independent Certifier and must permit and facilitate the attendance of the Regulator at such inspections if the Regulator so requests.

3.18 On the date of appointment of an Independent Certifier, the Licensee must provide to the Regulator a planned engagement schedule detailing the meetings that are planned to take place between the Licensee and the Independent Certifier (an **"IC Meeting Schedule"**):

- (a) in the period from the date of appointment of the relevant Independent Certifier until the following End of Quarter Date, or
- (b) where there are fewer than twenty Business Days between the date of appointment of the relevant Independent Certifier and the following End of Quarter Date, in the period from the date of appointment of the relevant Independent Certifier until the second End of Quarter Date to occur thereafter, and

for the remainder of the duration of the relevant Independent Certifier's appointment, the Licensee must update the IC Meeting Schedule on a quarterly basis, with the updated IC Meeting Schedule to be provided to the Regulator no later than ten Business Days prior to the start of each relevant Quarter. The Licensee must permit and facilitate the attendance of the Regulator at such meetings if the Regulator so requests.

Part D: Changes to terms of an IC Deed of Appointment

3.19 The Licensee must not, without the Regulator's prior approval:

- (a) other than in accordance with Special Condition J3.19, terminate, repudiate or discharge any IC Deed of Appointment or treat the same as having been terminated, repudiated or otherwise discharged; or
- (b) waive, settle, compromise or otherwise prejudice any rights or claims which the Licensee may from time to time have against any Independent Certifier; or
- (c) other than in accordance with this Special Conditions J3, vary the terms of any IC Deed of Appointment or the service performed or to be performed by an Independent Certifier.

Part E: Termination of an IC Deed of Appointment

- 3.20 The Regulator is entitled to direct the Licensee to terminate the appointment of an Independent Certifier under an IC Deed of Appointment where:
- (a) the Independent Certifier is in breach of any of the terms of the IC Deed of Appointment which, in the case of a breach capable of remedy, has not been remedied by the IC within 21 days of the Independent Certifier receiving a notice from the Licensee in accordance with the terms of the IC Deed of Appointment specifying such breach and requiring its remedy;
 - (b) the Independent Certifier is incompetent, guilty of fraud, wilful misconduct or negligence or any wilful default or delay in the provision of the relevant services under the IC Deed of Appointment;
 - (c) the Independent Certifier is no longer considered by the Regulator to be independent and/or to be acting independently;
 - (d) in relation to the Independent Certifier:
 - (i) a court makes an order that it be wound up or a resolution for a voluntary winding-up of it is passed;
 - (ii) any receiver or manager in respect of it is appointed or possession is taken by or on behalf of any creditor of any property that is the subject of a charge;
 - (iii) any voluntary arrangement is made for a composition of debts or a scheme of arrangement is approved under the Insolvency Act 1986 or the Companies Act 2006;
 - (iv) an administration order is made;
 - (v) it ceases to carry on business;
 - (vi) it is unable to pay its debts within the meaning of section 123 of the Insolvency Act 1986;
 - (vii) it is dissolved or ceases to exist;
 - (viii) it has a petition advertised for winding up or an administration order presented to any court and has not been withdrawn within [14] days; or
 - (ix) an event analogous to any of the events set out in limbs (i) to (viii) of this Special Condition J3.20(d) occurs in relation to the Independent Certifier in any jurisdiction in which it is incorporated or resident; or
 - (e) where any other termination right arises under the IC Deed of Appointment (e.g. in respect of persistent breach by the Independent Certifier),

and, where the Regulator has given such a direction, the Licensee shall promptly comply and terminate the appointment of the relevant Independent Certifier under the relevant IC Deed of Appointment in accordance with its terms.

Part F: Replacement of the Independent Certifier

3.21 In the event of an Independent Certifier's appointment being terminated otherwise than for full performance, the Licensee must, subject to obtaining the prior approval of the Regulator, appoint, in accordance with this Special Condition J3.21, a replacement consultant to act as Independent Certifier to the Project for the purposes of this licence in respect of the relevant works and activities as soon as reasonably practicable, which consultant shall be suitably qualified and experienced to so act. The identity of any such replacement shall be subject to prior approval by the Regulator, and the terms of their appointment shall, unless otherwise agreed, be as set out in an IC Deed of Appointment which complies with the requirements of this Special Condition J3.

Part G: Provision of documents

3.22 The Licensee must provide the Independent Certifier(s) with true and accurate copies of *[insert details of relevant documents]* (including any variations).

3.23 The Licensee must ensure that the Regulator:

- (a) is provided with copies of all information and advice from the Independent Certifier(s); and
- (b) has access to copies of any correspondence or documentation between the Licensee and the Independent Certifier(s).

Special Condition J4: Delay WACC

Introduction

- 4.1 The purpose of this special condition is to set out the provisions in relation to Delay WACC and Blended WACC.

Structure

- 4.2 This special condition is structured as follows:
- (a) Part A sets out the application of Delay WACC; and
 - (b) Part B sets out the application of Blended WACC.

Part A: Application of Delay WACC

- 4.3 Subject to Special Conditions J4.4 and J4.5, where COD is not achieved by the Scheduled COD, Delay WACC (or Blended WACC in accordance with Special Condition J4.5) shall replace PreCOD WACC for the purposes of the calculation of Return During Construction and/or Return During Commissioning pursuant to Special Conditions F12 (*Return During Construction*) and G15 (*Return During Commissioning*) (respectively), and apply from the Scheduled COD until COD.
- 4.4 Where an event occurs which gives rise to an extension to Scheduled COD pursuant to the conditions of this licence, Delay WACC under Special Condition J4.3 shall cease to apply:
- (a) from the date of the event which gives rise to the relevant extension to Scheduled COD; until
 - (b) the Scheduled COD (as extended as a result of the occurrence of the relevant event),
- and where COD is still not achieved by the Scheduled COD (as extended as a result of the occurrence of the relevant event), Delay WACC (or Blended WACC in accordance with Special Condition J4.5) shall again replace PreCOD WACC for the purposes of the calculation of Return During Construction and/or Return During Commissioning pursuant to Special Conditions F12 (*Return During Construction*) and G15 (*Return During Commissioning*) (respectively), and apply from the Scheduled COD (as extended as a result of the occurrence of the relevant event) until COD.

Part B: Application of Blended WACC

- 4.5 In circumstances where:
- (a) Delay WACC is triggered pursuant to Special Condition J4.3 with effect from a date which falls part way through an SRAV Calculation Period; and/or
 - (b) Delay WACC ceases to apply pursuant to Special Condition J4.4 with effect from a date which falls part way through an SRAV Calculation Period,

a Blended WACC will be calculated that weights the application of the PreCOD WACC and Delay WACC by the number of days during the SRAV Calculation Period to which each relate as follows:

$$BlendedWACC_t = \left(PreCODWACC_t \times \frac{p}{d} \right) + \left(DelayWACC_t \times \frac{q}{d} \right)$$

where:

Term	Description	Price Base
Blended WACC _t	means Blended WACC	N/A
PreCOD WACC _t	means PreCOD WACC for SRAV Calculation Period _t	N/A
Delay WACC _t	means Delay WACC for SRAV Calculation Period _t	N/A
p	is the number of days in the SRAV Calculation Period in respect of which the PreCOD WACC applies	N/A
d	is the number of days in the relevant SRAV Calculation Period	N/A
q	is the number of days in the SRAV Calculation Period in respect of which the DelayWACC applies	N/A

Special Condition J5: Ongoing Devex Re-opener

Introduction

- 5.1 The purpose of this special condition is to:
- (a) establish the re-opener that may be triggered by the Licensee in relation to the Ongoing Devex Stage Check Activities; and
 - (b) set out the process that needs to be followed by the Licensee and the Regulator once such re-opener is triggered.

Structure

- 5.2 This special condition is structured as follows:
- (a) Part A sets out the provisions that apply in relation to an Ongoing Devex Re-opener; and
 - (b) Part B refers to the provisions that apply where an Ongoing Devex Re-opener relates to a Variation.

Part A: Ongoing Devex Stage Check Activities

- 5.3 Where the Regulator considers that not all of the relevant Development Activities are sufficiently certain (either in cost or scope terms) either at Licence Award or at the date such Development Activities are included in the APDP further to a determination under Special Condition J2.9 (*Supervening Event Re-openers, Insured Risk Events and Relief Events*) (as applicable) to set a full and final Ongoing Devex Allowance in respect of all the Development Activities related to an entire Development Project then:
- (a) this Special Condition J5 shall apply;
 - (b) the Development Activities relating to the relevant Development Project shall be referred to as "**Ongoing Devex Stage Check Activities**";
 - (c) such Development Activities shall be divided into tranches of Ongoing Devex Stage Check Activities (each a "**Tranche of Stage Check Activities**"); and
 - (d) such Tranches of Stage Check Activities shall be set out in [section 5] of the APDP.
- 5.4 Prior to completion of any Tranche of Stage Check Activities, the Licensee may submit to the Regulator a draft application for a re-opener under this Special Condition J5 in respect of such Tranche of Stage Check Activities, which draft application will include the particulars referred to in Special Condition J5.6 (a "**Draft Ongoing Devex Re-opener Application**"), and following receipt of a Draft Ongoing Devex Re-opener Application:
- (a) the Regulator will be entitled to request any Supporting Information that it considers appropriate in respect of such Draft Ongoing Devex Re-opener Application, which Supporting information the Licensee shall promptly provide; and

- (b) the Regulator will review and consider the relevant Draft Ongoing Devex Re-opener Application and may provide comments to the Licensee in respect of the same,

provided that any comments or other response made by the Regulator in respect of a Draft Ongoing Devex Re-opener Application shall not be construed as binding as to the Regulator's determination(s) in respect of any application for a re-opener submitted under J5.5(a).

5.5 Promptly following completion of each Tranche of Stage Check Activities:

- (a) the Licensee must submit an application for a re-opener (an "**Ongoing Devex Re-opener**"); and
- (b) the Regulator will determine the impact (if any) of an application for an Ongoing Devex Re-opener,

in accordance with Special Conditions J5.6 to J5.10.

5.6 The Licensee's application for an Ongoing Devex Re-opener under Special Condition J5.5(a) must give particulars of:

- (a) the Ongoing Devex Stage Check Activities that have been completed by the Licensee;
- (b) the Actual Ongoing Devex Costs incurred by the Licensee in completing the relevant Ongoing Devex Stage Check Activities;
- (c) whether any changes should be made to the subsequent Tranche(s) of Stage Check Activities, including whether any additional Development Activities should be included in such Tranche(s) of Stage Check Activities; and
- (d) whether the Licensee considers that following the completion of the relevant Ongoing Devex Stage Check Activities to the current stage:
 - (i) settlement can now be reached in respect of SRAV Capex or Ongoing Capex for the expansion or enhancement of the Approved T&S Network, such that a Change in Scope shall apply; or
 - (ii) the Licensee proposes the cancellation of the remaining Development Activities (including the cancellation of any next Tranche of Stage Check Activities) associated with the Development Project, such that a Change in Scope shall apply.

5.7 Where the Licensee has proposed that it should proceed to undertake the next Tranche of Stage Check Activities (and that Special Condition J5.6(d)(ii) does not apply), the Licensee must provide a forecast of the Actual Ongoing Devex Costs that the Licensee envisages will be incurred in undertaking any next Tranche(s) of Stage Check Activities (including any additional Development Activities proposed to be included in such Tranche(s) of Stage Check Activities under Special Condition J5.6(c)).

- 5.8 Where the Regulator considers that the analysis or information received under Special Conditions J5.6 and J5.7 is insufficient to enable the Regulator to assess the Licensee's proposals then the Regulator can make a request for any Supporting Information that it considers appropriate and the Licensee must provide such information to the Regulator within ten Business Days of the request, or within such extended time as agreed by the Regulator.
- 5.9 Where the Licensee has proposed that it should proceed to undertake the next Tranche of Stage Check Activities (and that Special Condition J5.6(d)(ii) does not apply), the Regulator will:
- (a) determine any positive or negative adjustments (and/or the grant of any new Ongoing Devex Allowance(s)) to be made in respect of:
 - (i) any existing Ongoing Devex Allowance in respect of the Ongoing Devex Stage Check Activities in the next Tranche of Stage Check Activities; and
 - (ii) where relevant, any other Ongoing Devex Stage Check Activities relating to the relevant Development Project,and (where relevant) the Regulator will make amendments to update the Financial Settlement Document to reflect any such adjustments;
 - (b) determine and make any amendments to the Approved Project Development Plan that are required to reflect the Ongoing Devex Stage Check Activities that remain to be undertaken by the Licensee, including any changes (or additions) that may be required to the Ongoing Devex Stage Check Activities which form part of the relevant Tranche of Stage Check Activities or any subsequent Tranche(s) of Stage Check Activities; and
 - (c) determine any additional stage checks to apply to the relevant Ongoing Devex Stage Check Activities to be undertaken by the Licensee (including any creation of any new Tranche of Stage Check Activities and/or reallocation of Ongoing Devex Stage Check Activities between Tranches of Stage Check Activities) and make any associated amendments to the Approved Project Development Plan to reflect any such additional stage checks.
- 5.10 Where the Licensee has proposed pursuant to Special Condition J5.6(d) that a Change in Scope shall apply, then the Licensee must comply with the provisions of Part A of Special Condition J2 (*Supervening Event Re-openers, Insured Risk Events and Relief Events*).
- 5.11 Where following completion of a Tranche of Stage Check Activities the Licensee makes the proposal set out in Special Condition J5.6(d)(ii), the Licensee must notify the Regulator under Special Condition J2 (Part A) (*Supervening Event Re-openers, Insured Risk Events and Relief Events*) of a Change in Scope under limb (c) of the definition of Change in Scope to cancel such Development Activities and associated Development Project.

Part B: Variation

- 5.12 Where an Ongoing Devex Re-opener in respect of a completed Tranche of Stage Check Activities relates to a Variation, Special Conditions J7.1 to J7.6 (*Variation Re-openers*) shall apply.

Draft

Special Condition J6: Uncertain Cost Events

Introduction

- 6.1 The purpose of this special condition is to set out the provisions that apply where an Uncertain Cost Event arises.

Structure

- 6.2 This special condition is structured as follows:
- (a) Part A sets out the provisions that apply in relation to Uncertain Cost Events and Uncertain Cost Event Re-openers; and
 - (b) Part B sets out the provisions that apply where an Uncertain Cost Event Re-opener relates to a Variation.

Part A: Uncertain Cost Event Re-opener

- 6.3 Where an Uncertain Cost Event occurs:
- (a) the Licensee may submit an application for a re-opener (an "**Uncertain Cost Event Re-opener**"); and
 - (b) the Regulator will determine the impact of any Uncertain Cost Event Re-opener, each in accordance with Special Conditions J6.4 to J6.6.
- 6.4 Any application made by the Licensee pursuant to Special Condition J6.3 shall include all information required by the Regulator to assess the impact of the Uncertain Cost Event on the Project, including (where applicable) any information that is expressly required to be provided under the provisions of paragraph [3] (*Uncertain Cost Events*) of Schedule 10 (*Project-specific conditions*).
- 6.5 Where the Regulator considers that the information received by it pursuant to Special Condition J6.4 is insufficient to enable the Regulator to assess the impact of the Uncertain Cost Event, the Regulator can make a request for any Supporting Information that it considers appropriate and the Licensee must provide such information to the Regulator within ten Business Days of the request, or within such extended time as agreed by the Regulator.
- 6.6 Subject to the receipt of all information by the Regulator pursuant to Special Conditions J6.4 and J6.5, the Regulator will, in each case in accordance with the relevant provisions of paragraph [3] (*Uncertain Cost Events*) of Schedule 10 (*Project-specific conditions*):
- (a) determine the impact or expected impact (if any) on the Project of the relevant Uncertain Cost Event in respect of which the Licensee has submitted an application under Special Condition J6.3(a);

- (b) determine any adjustments to be provided to the Licensee to reflect such impact or expected impact; and
- (c) make any required amendments to update the Project-Specific Documents to reflect such determinations.

Part B: Variations

- 6.7 Where an Uncertain Cost Event Re-opener relates to a Variation and Schedule 10 (*Project-specific conditions*) does not provide otherwise, Special Conditions J7.1 to J7.6 (*Variation Re-openers*) shall apply.

Draft

Special Condition J7: Variation Re-openers

Introduction

- 7.1 The purpose of this special condition is to set out the provisions that apply in circumstances where there is a Change in Scope, Ongoing Devex Re-opener or Uncertain Cost Event Re-opener which, in each case, also relates to a Variation.

Re-openers which also constitute Variations

- 7.2 Where the Licensee submits an application and/or submission to the Regulator pursuant to any of the following provisions which relates to a Variation:
- (a) Special Condition J2.3 (*Supervening Event Re-openers, Insured Risk Events and Relief Events*) in relation to a CiS Submission;
 - (b) Special Condition J5 (*Ongoing Devex Re-opener*) in relation to an Ongoing Devex Re-opener; or
 - (c) Special Condition J6 (*Uncertain Cost Events*) in relation to an Uncertain Cost Event Re-opener (provided that Schedule 10 (*Project-specific conditions*) does not provide otherwise),

then any such application and/or submission shall be submitted on a provisional basis only such that it will not be considered to have been received until the process under this Special Condition J7 has been concluded in accordance with its terms (a "**Provisional Variation Submission**") and the Licensee shall promptly notify the Regulator that the relevant application and/or submission is a Provisional Variation Submission.

- 7.3 The Licensee acknowledges that the procedure in relation to Variations as set out in paragraph 2 (*Variation Notice*) of schedule 4 (*Variation Procedure*) of the Liaison Agreement shall apply in respect of a Provisional Variation Submission.
- 7.4 If the SoS comments on a Variation Notice under and in accordance with schedule 4 (*Variation Procedure*) of the Liaison Agreement, the Licensee must promptly update the Provisional Variation Submission referred to in Special Condition J7.2 to take account of any changes.
- 7.5 If the SoS consents to a Variation Notice under and in accordance with schedule 4 of the Liaison Agreement, the Licensee must promptly notify the Regulator that the SoS has so consented and then promptly submit to the Regulator such updated application and/or submission, inclusive of any conditions required by the SoS, in relation to the Change in Scope, Ongoing Devex Re-opener or Uncertain Cost Event Re-opener as relevant (each such updated application and/or submission being a "**Final Variation Submission**").

- 7.6 If the SoS rejects a Variation Notice under and in accordance with schedule 4 of the Liaison Agreement or any condition to a SoS consent to a Variation Notice under and in accordance with schedule 4 of the Liaison Agreement has not been confirmed in writing by the SoS as satisfied or waived:
- (a) the Licensee must (as applicable):
 - (i) promptly inform the Regulator that it does not intend to proceed with the relevant application and/or submission referred to in Special Condition J7.2; and/or
 - (ii) notify the Regulator under Special Condition J2 (Part A) of a Change in Scope under limb (c) of the definition of Change in Scope in respect of the Variation; and
 - (b) the Licensee shall not be obliged to proceed, and shall not proceed, with the implementation of the relevant Change in Scope, Ongoing Devex Stage Check Activities or Uncertain Cost Event the subject of the relevant application and/or submission referred to in Special Condition J7.2.

Special Condition J8: Regulator review of hedging strategies

Introduction

8.1 The purpose of this special condition is to set out the Licensee's obligations in relation to the Licensee's senior debt hedging.

Structure

8.2 This special condition is structured as follows:

- (a) Part A sets out the requirements in relation to the Senior Debt Hedging Policy;
- (b) Part B sets out the hedging confirmations and evidence required to be provided by the Licensee to the Regulator each time a Senior Debt Hedge is entered into; and
- (c) Part C details an adjustment that may be made to the WACC in respect of Senior Debt Hedges placed following Licence Award.

Part A: Senior Debt Hedging Policy

8.3 From the second Regulatory Period onwards, the Licensee shall supply a draft Senior Debt Hedging Policy to the Regulator for approval prior to the relevant Periodic Review Start Date.

8.4 Where the Licensee seeks to make any amendments to the Senior Debt Hedging Policy within a Regulatory Period, the Licensee must:

- (a) submit any modifications to the Regulator for approval; and
- (b) provide any Supporting Information that the Regulator considers appropriate and requests from the Licensee.

Part B: Senior Debt Hedging Confirmations and Senior Debt Hedging Evidence

8.5 Where following Licence Award the Licensee places a new Senior Debt Hedge, the Licensee must as soon as possible following the placing of such Senior Debt Hedge supply the Regulator with confirmation of:

- (a) the date the hedge was entered into;
- (b) the hedge start date;
- (c) the date the hedge expires;
- (d) the value of the cashflows being hedged;
- (e) the relevant swap rate;
- (f) the credit and execution margins;
- (g) any other additional margin(s), premiums or fees;

- (h) the hedge counterparty (including the hedging bank and/or hedging banks);
- (i) the number of banks included in the bidding process; and
- (j) the allocation methodology used,

(together the "**Senior Debt Hedging Confirmations**").

8.6 In addition to the Senior Debt Hedging Confirmations required to be supplied in accordance with Special Condition J8.5, in respect of each Senior Debt Hedge placed by the Licensee following Licence Award, the Licensee must as soon as possible following the placing of such Senior Debt Hedge provide to the Regulator evidence:

- (a) of the parties approached in the market in relation to the placement of such Senior Debt Hedge and a summary of responses from such parties approached;
- (b) that the relevant hedging process was competitive and the best price for such Senior Debt Hedge has been sought by the Licensee;
- (c) that the relevant hedging process has included consideration of the market and the interests of Users; and
- (d) that the Senior Debt Hedge has been entered into in accordance with the Senior Debt Hedging Policy,

(together the "**Senior Debt Hedging Evidence**").

8.7 Following submission of the Senior Debt Hedging Confirmations and the Senior Debt Hedging Evidence by the Licensee to the Regulator, the Licensee must provide to the Regulator any Supporting Information that the Regulator considers appropriate and requests from the Licensee in respect of the relevant Senior Debt Hedge.

Part C: Senior Debt Hedge adjustment

8.8 Where following Licence Award the Licensee has:

- (a) placed a Senior Debt Hedge in compliance with the Senior Debt Hedging Policy;
- (b) supplied the relevant Senior Debt Hedging Confirmations in respect of such Senior Debt Hedge in accordance with Special Condition J8.5;
- (c) supplied the Senior Debt Hedging Evidence in respect of such Senior Debt Hedge in accordance with Special Condition J8.6;
- (d) supplied any additional information required by the Regulator in relation to the Senior Debt Hedging Policy in accordance with Special Condition J8.4; and
- (e) supplied any additional information required by the Regulator in relation to any relevant Senior Debt Hedge in accordance with Special Condition J8.7,

then subject to Special Condition J8.9 and J8.10, the Regulator will determine an adjustment to the PreCOD WACC or PostCOD WACC (as relevant) to account for any change in the

Licensee's financing costs resulting from the relevant Senior Debt Hedge by adjusting the value of the PreCOD Cost of Debt or PostCOD Cost of Debt (as relevant) to account for such change in financing costs (a "**WACC Senior Debt Hedging Adjustment**") and the Regulator will update the Financial Settlement Document to reflect such adjustment.

8.9 It is acknowledged that any changes to the Licensee's financing costs resulting from a Senior Debt Hedge may not materialise at the point in time that the relevant Senior Debt Hedge is placed, and therefore that, subject to Special Condition J8.10, the Regulator may not determine a WACC Senior Debt Hedging Adjustment in accordance with Special Condition J8.8 until such time that as the Regulator considers is appropriate, taking into consideration the time that such financing costs resulting from the Senior Debt Hedge are to materialise.

8.10 The Regulator shall not be required to make any WACC Senior Debt Hedging Adjustments in accordance with Special Condition J8.8:

- (a) in the two years following Licence Award; or
- (b) where a WACC Senior Debt Hedging Adjustment has been determined in the preceding two years,

provided that when determining any WACC Senior Debt Hedging Adjustment and subject to Special Condition J8.9, the Regulator shall take into consideration each Senior Debt Hedge that has been placed by the Licensee in accordance with the provisions of this Special Condition J8 that has not already been taken into consideration in determining the Pre-COD WACC or PostCOD WACC (as relevant).

Special Condition J9: Project-specific conditions

- 9.1 The conditions set out in Schedule 10 (*Project-specific conditions*) form part of these licence conditions.

Draft

Special Condition J10: Submission of re-opener applications in accordance with CCUS Re-opener Guidance and Applications Requirement Document

- 10.1 The Licensee must prepare any applications for a re-opener in accordance with the applicable provisions of the CCUS Re-opener Guidance and Application Requirements Document.

Draft

Special Condition J11: Excluded Project Spend

11.1 No condition of this licence shall entitle the Licensee to recover any Excluded Project Spend.

Draft

Special Condition J12: No double recovery

- 12.1 No amounts shall accrue or otherwise be recoverable by the Licensee, to the extent that such amount has already been accounted for pursuant to the conditions of this licence, or pursuant to any insurance required to be in place pursuant to this licence.

Draft

Special Condition J13: Price Control Financial Model

Introduction

13.1 The purpose of this special condition is to set out the governance provisions for the Price Control Financial Model.

Structure

13.2 This special condition is structured as follows:

- (a) Part A sets out the general governance provisions;
- (b) Part B sets out the process for modifying the Price Control Financial Model;
- (c) Part C sets out the process for modifying the Price Control Financial Guidance;
- (d) Part D sets out the process for modifying the Price Control Financial Handbook;
- (e) Part E sets out how conflicts between the Licence and the Price Control Financial Model will be addressed; and
- (f) Part F sets out the requirements in relation to the publication of the Price Control Financial Instruments.

Part A: General Governance Provisions

13.3 The Price Control Financial Model does not form a part of the Licence.

13.4 The purpose of the Price Control Financial Model is to facilitate the Regulator:

- (a) calculating the Closing SRAV for each SRAV Calculation Period during the Construction Period;
- (b) calculating the Closing SRAV for each SRAV Calculation Period during the Commissioning Period;
- (c) calculating the Closing RAV for each Operational Charging Year; and
- (d) setting the Allowed Revenue for each Operational Charging Year.

13.5 The Price Control Financial Model will be owned and operated by the Regulator.

13.6 The Price Control Financial Model will:

- (a) be in a digital format;
- (b) show or permit to be derived the Licensee's:
 - (i) SRAV and/or RAV value(s) (as relevant);

- (ii) cashflows, including all expenditure, revenues, financing and taxation of the Project; and
- (iii) profit and loss and balance sheets,

in each case, throughout the Regulatory Period.

- 13.7 The Price Control Financial Model will be prepared and maintained on a basis that is consistent with the Price Control Financial Handbook and the Price Control Financial Guidance.
- 13.8 The Licensee must comply with the Price Control Financial Guidance when carrying out its obligations in respect of the calculation of Allowed Revenue for each Operational Charging Year in accordance with Special Condition H8 (*Allowed Revenue during the Operational Period*).

Part B: Modification of the Price Control Financial Model

- 13.9 Other than where the Regulator makes a determination which is implemented by way of a modification of the conditions of this licence in accordance with section 13 of the Act and such modification includes associated amendments to the Price Control Financial Model, the Regulator may amend the Price Control Financial Model in accordance with the process specified in Standard Condition B27.6 (*Project-Specific Documents*), including but not limited to making any amendments required to:
- (a) implement a determination by the Regulator in accordance with the conditions of this licence;
 - (b) make any change necessary to implement a direction made under B27.6 (*Project-Specific Documents*) in relation to any Project-Specific Document;
 - (c) entering a PCFM Variable Value as part of the calculation of Allowed Revenue in accordance with Special Condition H8 (*Calculation of Allowed Revenue during the Operational Period*);
 - (d) changing the filename of the spreadsheet containing the Price Control Financial Model;
 - (e) changing the "publication date" on the "cover" sheet of the Price Control Financial Model;
 - (f) to correct a manifest error;
 - (g) to revise the formatting, such as re-numbering of paragraphs, capitalising defined terms, cell labelling, re-naming or re-ordering of sections or worksheets;
 - (h) where the Regulator considers any such modification is necessary to correct an error of functionality discovered within the Price Control Financial Model;
 - (i) deleting irrelevant material, such as transitional provisions that have expired; and/or

- (j) updates, such as to dates, version numbers of documents, titles of re-enacted legislation and re-named bodies.

Part C: Modifications to the Price Control Financial Guidance

- 13.10 Any modification by the Regulator to the Price Control Financial Guidance will be by direction.

Part D: Modifications to the Price Control Financial Handbook

- 13.11 Other than where the Regulator makes a determination which is implemented by way of a modification of the conditions of this licence in accordance with section 13 of the Act and such modification includes associated amendments to the Price Control Financial Handbook, any modification by the Regulator to the Price Control Financial Handbook will be by direction.

Part E: Conflicts between Licence and the Price Control Financial Model

- 13.12 In the event of any conflict between the provisions of this licence and the Price Control Financial Model, the provisions of this licence will prevail.
- 13.13 If the Licensee becomes aware of any conflict between the provisions of this licence and the Price Control Financial Model, the Licensee must notify the Regulator of such conflict as soon as reasonably practicable.
- 13.14 Where the Regulator identifies a conflict between the provisions of this licence and the Price Control Financial Model or is notified of any such conflict by the Licensee in accordance with Special Condition J13.13, the Regulator may take such actions as it considers appropriate to resolve such conflict, including:
 - (a) amending the provisions of this licence; or
 - (b) amending the Price Control Financial Model in accordance with the provisions of Special Condition J13.9.

Part F: Publication of the Price Control Financial Instruments

- 13.15 The Regulator will publish up to date copies of the Price Control Financial Instruments on the Regulator's Website, having first made any redactions that the Regulator or the Licensee reasonably identify as being necessary to protect commercially sensitive information.
- 13.16 Following the notification of Allowed Revenue in accordance with Special Condition H8.8 (*Allowed Revenue during the Operational Period*), the Regulator will publish a consolidated version of the Price Control Financial Model containing the updated value of the Licensee's Allowed Revenue on the Regulator's Website.
- 13.17 The Regulator will ensure that, as soon as reasonably practicable, any modifications to the Price Control Financial Instruments are incorporated into a consolidated version of the Price Control Financial Instruments maintained on the Regulator's Website.

Schedule 1

Specified Area

United Kingdom

Draft

Schedule 2

Revocation

1. The Regulator may at any time revoke the licence by giving not less than 30 days' notice (24 hours' notice, in the case of a revocation under sub-paragraph 1(g)) in writing to the Licensee:
 - (a) if the Licensee agrees in writing with the Regulator that the licence should be revoked;
 - (b) if not less than 25 years' notice has been served pursuant to paragraph 3 of the terms of the licence, during the period of 60 days prior to determination of the licence pursuant to paragraph 3 of the terms of the licence;
 - (c) if any amount payable under Standard Condition A3 (*Payments by the Licensee to the Regulator*) is unpaid 30 days after it has become due and remains unpaid for a period of 14 days after the Regulator has given the Licensee notice that the payment is overdue – provided that no such notice shall be given earlier than the sixteenth day after the day on which the amount payable became due;
 - (d) if the Licensee fails:
 - (i) to comply with a final order (within the meaning of section [●] of the Act) or with a provisional order (within the meaning of that section) which has been confirmed under that section and (in either case) such failure is not rectified to the satisfaction of the Regulator within three months after the Regulator has given notice of such failure to the Licensee – provided that no such notice shall be given by the Regulator before the expiration of the period within which an application under section [●] of the Act could be made questioning the validity of the final or provisional order or before the proceedings relating to any such application are finally determined; or
 - (ii) to pay any financial penalty (within the meaning of section [●] of the Act) by the due date for such payment and such payment is not made to the Regulator within three months after the Regulator has given notice of such failure to the Licensee – provided that no such notice shall be given by the Regulator before the expiration of the period within which an application under section [●] of the Act could be made questioning the validity or effect of the financial penalty or before the proceedings relating to any such application are finally determined;
 - (e) if the Licensee fails to comply with:
 - (i) an order made by the court under section 34 of the Competition Act 1998;
 - (ii) an order made by the Regulator under sections 158 or 160 of the Enterprise Act 2002;
 - (iii) an order made by the Competition and Markets Authority under sections 76, 81, 83, 84 and 161 of the Enterprise Act 2002;
 - (iv) an order/decision made by the Secretary of State under sections 66, 147, 160 or 161 of the Enterprise Act 2002;
 - (f) if the Licensee:

- (i) has ceased to carry on the development and operation of a network for the transportation and storage of carbon dioxide; or
 - (ii) has not commenced carrying on the activity referred to in paragraph (i) within 30 days of the date on which the licence comes into force;
 - (g) if the Licensee:
 - (i) is unable to pay its debts (within the meaning of section 123(1) or (2) of the Insolvency Act 1986, but subject to paragraphs 2, 3 and 4 of this schedule) or has any voluntary arrangement proposed in relation to it under section 1 of that Act or enters into any scheme of arrangement (other than for the purpose of reconstruction or amalgamation upon terms and within such period as may previously have been approved in writing by the Regulator);
 - (ii) has a receiver (which expression shall include an administrative receiver within the meaning of section 251 of the Insolvency Act 1986) of the whole or any material part of its assets or undertaking appointed;
 - (iii) has an administration order under schedule B1 of the Insolvency Act 1986 made in relation to it;
 - (iv) passes any resolution for winding-up other than a resolution previously approved in writing by the Regulator; or
 - (v) becomes subject to an order for winding-up by a court of competent jurisdiction.
2. For the purposes of sub-paragraph 1(g)(i), section 123(1)(a) of the Insolvency Act 1986 shall have effect as if for "£750" there was substituted "£250,000" or such higher figure as the Regulator may from time to time determine by notice in writing to the Licensee.
3. The Licensee shall not be deemed to be unable to pay its debts for the purposes of sub-paragraph 1(g)(i) if any such demand as is mentioned in section 123(1)(a) of the Insolvency Act 1986 is being contested in good faith by the Licensee with recourse to all appropriate measures and procedures or if any such demand is satisfied before the expiration of such period as may be stated in any notice given by the Regulator under paragraph 1.
4. Any rights the Regulator may have to revoke the licence under paragraphs 1 and 6 of this schedule shall be automatically suspended from the time that the SoS or the Regulator makes an application for a transport and storage administration order in relation to the Licensee under Chapter 4 of Part 1 of the Act until such time as (whichever is earliest):
- (a) such application is dismissed;
 - (b) such application is withdrawn;
 - (c) the Regulator has determined, having consulted with the T&S administrator (as defined in section 49 of the Act), that achieving the objective of the transport and storage administration (as defined in section 43 of the Act), is no longer reasonably practicable; or
 - (d) the SoS, having consulted with the Regulator and the T&S administrator, has notified the Regulator in writing that it intends to make a Section 50 Transfer Scheme within

the next 28 days which would be consistent with the objectives of the transport and storage administration (as defined in section 43 of the Act).

5. The Regulator may at any time revoke the licence by giving no less than seven days' notice in writing to the Licensee where the Regulator is satisfied that there has been a material misstatement (of fact) by, or on behalf of the Licensee, in making its application for the licence.
6. The Regulator may at any time on and from the Discontinuation Date revoke the licence by giving not less than 30 days' notice in writing to the Licensee.
7. Where the Regulator is entitled to revoke the licence, the Licensee acknowledges that a Section 50 Transfer Scheme may be applied.
8. Where the Licensee is insolvent and the Regulator is entitled to revoke the licence under this Schedule 2, in making a decision on revocation the Regulator will have regard to the Enforcement Guidance, but in the event of any conflict between these licence terms and the guidance, the licence terms will prevail.

Schedule 3

Financial Settlement Document

Part 1: Template Financial Settlement Document

[Note: this is a template form of the Financial Settlement Document which, as a Project-Specific Document, does not form part of the Licence and will be populated with the project-specific financial settlement terms.]

Ongoing Devex Allowance

Item reference	Item	Details
Special Condition F9, G12 & H6	Ongoing Devex Allowance ³⁵	[●]

³⁰ Opex Allowances for the Operational Charging Years within the First Regulatory Period to be set on a provisional basis at FID and to be determined by the Regulator 8 months prior to COD pursuant to Special Condition H12.4.

³¹ To be set on an annual basis for the First Regulatory Period.

³² Provisional Variable Opex Allowances to be included here and form a subset to the overall annual, Opex Allowance for an Operational Charging Year. A Re-use Service Opex Allowance is to be included as a subset to the overall Variable Opex Allowance, to form the basis of the Allowed Re-use Service Revenue (as defined in the Network Code) to be charged to Users of the Re-use Service.

³³ ETS Allowances for the First Regulatory Period to be set on a provisional basis at FID and to be determined by the Regulator 8 months prior to COD pursuant to Special Condition H14.4.

³⁴ To be set on an annual basis for the First Regulatory Period.

³⁵ Ongoing Devex Allowance(s) to be included here. This licence envisages that each Ongoing Devex Allowance covers sets of development activities and each allowance may span across one or more of the Construction, Commissioning and Operational Periods.

Part 2: The Mandated Financing Terms

The Mandated Financing Terms which are referred to in Standard Condition B18 (*Financial Resilience and Credit Quality*) means the following terms:

[Note: to be populated with the project-specific mandated financing terms.]

Schedule 5

Licence Derogations Document relating to the carbon dioxide transport and storage licence granted to [***name of licensee***] (the "Licensee") pursuant to section 7 (as modified by section 16 and Schedule 1) of the Energy Act 2023, relating to the [***name of T&S Network***] T&S Network, dated [*date to be inserted*] (the "Licence")

[Note: this is a template form of the Licence Derogations Document which, as a Project-Specific Document, does not form part of the Licence and will be populated with project-specific Licence Derogations.]

Overview

The purpose of this document is to set out certain Licence Derogations, as contemplated by Standard Condition B28 (*Licence Derogations*) ("**SLC B28**").

Any capitalised words and expressions used in the Licence Derogations set out in this document have the meaning given to them in the Licence, unless otherwise specified. The terms "Licence Derogation" and "Derogation" are used interchangeably.

Any references in the Licence Derogations set out in this document to clauses or defined terms in a Derogated Contract are to those clauses or defined terms as set out in that Derogated Contract as at the date of the relevant Licence Derogation.

Each Licence Derogation is subject to review and/or amendment by the Regulator in accordance with SLC B28.

Table of contents

Licence Derogation Number	Licence conditions to which Licence Derogation relates	Subject matter	Page number
1	Standard Condition [●]	[●]	[●]

Licence Derogation [●]

Date: *[to be inserted]*

Licence Derogation relating to the Licensee's request for derogation from certain requirements under paragraph [●] of Standard Licence Condition [●] (*title of licence condition*) ("SLC [●]") of the Licence

The Licensee has applied for a derogation from the requirements under paragraph [●] of SLC [●] of the Licence, in relation *[details of what the derogation relates to]*.

Pursuant to this Derogation, the restriction under paragraph [●] of SLC [●] does not apply to the extent described in section 1, for the time period described in section 2 of this derogation. This derogation includes:

- the conditions set out in section 3 of this Derogation; and
- the reporting obligations set out in section 4 of this Derogation,

1. **The extent of this Derogation**

[details of what is requirements are being derogated from]

2. **Duration of the Derogation**

[duration of derogation]

3. **Conditions of this Derogation**

3.1 The Licensee must comply with the following conditions:

[conditions that must be complied with]

4. **Reporting obligations**

[reporting obligations]

Schedule 6

Template Approved Project Development Plan

Approved Project Development Plan relating to the carbon dioxide transport and storage licence granted to [name of licensee] (the "**Licensee**") pursuant to section 7 (as modified by section 16 and Schedule 1) of the Energy Act 2023, relating to the [name of T&S Network] T&S Network, dated [date to be inserted] (the "**Licence**")

[Note: this is a template form of the Approved Project Development Plan which, as a Project-Specific Document, does not form part of the Licence and will be populated with project-specific information.]

1. ACRONYMS AND DEFINITIONS

- 1.1 In this APDP, capitalised terms defined in the licence shall have the same meaning and, unless otherwise defined within this APDP or the context otherwise requires, capitalised terms used in this APDP shall have the following meaning:

["Mechanical Completion"

is achieved when:

- (a) excluding any relevant Handover Punchlist Items:
 - (i) construction of:
 - (A) the Phase 1 Systems; or
 - (B) any of the Phase 2 Systems
 (as the case may be), is complete in accordance with the requirements of this APDP and any other relevant licence or Project-related requirements;
 - (ii) all inspections and testing of (as the case may be):
 - (A) the Phase 1 Systems (which inspections and testing do not form part of the Commissioning Activities); or
 - (B) any of the Phase 2 Systems (which inspections and testing do not form part of the relevant Phase 2 Commissioning Activities),
 have been satisfactorily completed; and

- (b) in the case of:
 - (i) the Phase 1 Systems, there are no construction related elements of the Phase 1 Systems which are outstanding which would have an adverse effect on the performance of the Commissioning Activities; and
 - (ii) any Phase 2 Systems, there are no construction related elements of such Phase 2 Systems which are outstanding which would have an adverse effect on the performance of the relevant Phase 2 Commissioning Activities;

"Phase 1 User"	means a User that is scheduled in the Project Programme to supply CO2 prior to the Commercial Operations Date;
"Phase 2 Handover Works"	means any and all of the [Phase 2 Tranche A Handover Works] and [Phase 2 Tranche B Handover Works];
"Phase 2 Systems"	means any and all of the [Phase 2 Tranche A Systems] and [Phase 2 Tranche B Systems];

2. OVERVIEW OF THE PROJECT

3. SCOPE OF THE APPROVED T&S NETWORK

3.1 Phase 1 Activities

- (a) [Phase 1 Systems]
- (b) [Handover Works]
- (c) [Commissioning Activities]
- (d) [COD Readiness Activities]

3.2 Phase 2 Activities

- (a) [Phase 2 Tranches]
- (b) [Phase 2 Tranche Systems]
 - (i) [Phase 2 Tranche A Systems]
 - (ii) [Phase 2 Tranche B Systems]
- (c) Phase 2 Handover Works
 - (i) [Phase 2 Tranche A Handover Works]
 - (ii) [Phase 2 Tranche B Handover Works]

- (d) Phase 2 Commissioning Activities
- (i) [Phase 2 Tranche A Commissioning Activities]
- (ii) [Phase 2 Tranche B Commissioning Activities]

3.3 Availability Target and Availability Floor

- (a) The Availability Target is [95]%
- (b) The Availability Floor is [75]%

3.4 Obligated Network Capacity

	Obligated Network Capacity
Maximum Flowrates	Maximum Instantaneous Flowrate: [●] kg/s ([●] MTPA instantaneous) Maximum Annual Cumulative Flow: [●] MtCO ₂
Minimum Flowrate	[●] kg/s ([●] MPTA instantaneous)
Overall Store Capacity	[●] MtCO ₂

4. USERS

4.1 Planned Initial Users

- (a) [The "**Planned Initial Users**" are the potential Users identified in the table below.]
- (b) Planned Initial Users table:
 [insert details]

5. DEVELOPMENT ACTIVITIES

[include details of sets of Ongoing Devex Stage Check Activities.]

6. INDEPENDENT CERTIFIER

[include details]

Schedule 7

Qualifying Acquisition Information

No.	Item	Detail
1.	Acquirer contact details and related notifications	(a) number of all persons involved in the Qualifying Acquisition (b) name of person(s) involved (c) contact details of the person(s) (d) details on any notification to any UK or overseas investment screening regimes that person (or persons) has submitted within the last 12 months
2.	Acquisition details	(a) the percentage of the shares or voting rights that the person(s) holds in the entity (b) expected date of the Qualifying Acquisition (c) approvals required by UK regulators (d) rationale for the Qualifying Acquisition
3.	Entity details	(a) name and address of the entity (b) contact details of the authorised individual in entity (c) companies house registration number (d) standard industrial classification SIC code. (e) details on all licences held to operate within the UK. (f) description of dual use item (g) details on entity relationship with the UK Government (h) pre-Qualifying Acquisition structure chart of the entity (i) details on any non-UK government which have a direct or indirect role in the operation or decision making of the entity
4.	Acquiring person(s) details	(a) name, address, and business registration details (b) details on any non-UK government, or representative of any non-UK government, have share ownership or voting rights in the person(s) (c) details on any non-UK government which have a direct or indirect role in the operation or decision making of the acquirer (d) when the Qualifying Acquisition completes, details on if there will be any contractual arrangements in place regarding

No.	Item	Detail
		share ownership or voting rights between the person(s) and any other party (e) structure chart of person(s) which includes the % ownership and country of incorporation
5.	Additional information	Other relevant documentation and information on the Qualifying Acquisition.
