

National Highways Planning Response (NHPR 21-09) Formal Recommendation to an Application for Planning Permission

From: Martin Fellows (Regional Director)
Operations Directorate
East Region
National Highways
PlanningEE@highwaysengland.co.uk

To: Uttlesford District Council

CC: transportplanning@dft.gov.uk
spatialplanning@highwaysengland.co.uk

Council's Reference: S62A/2024/0049

National Highways Ref: NH/24/07665

Location: Land South of Bedwell Road, Elsenham

Proposal: Town and Country Planning Act 1990 (Section 62A Applications)
Approval of reserved matters following outline approval for Up to 50 market and affordable dwellings, public open space and associated highways and drainage infrastructure - all matters reserved except access.

Referring to the consultation on a planning application dated 21 August 24 referenced above, in the vicinity of the A120 that forms part of the Strategic Road Network, notice is hereby given that National Highways' formal recommendation is that we:

- a) offer no objection (see reasons at Annex A);
- ~~b) recommend that conditions should be attached to any planning permission that may be granted (see Annex A – National Highways recommended Planning Conditions & reasons);~~
- ~~c) recommend that planning permission not be granted for a specified period (see reasons at Annex A);~~
- ~~d) recommend that the application be refused (see reasons at Annex A)~~

Highways Act 1980 Section 175B is not relevant to this application.¹

¹ Where relevant, further information will be provided within Annex A.

This represents National Highways' formal recommendation and is copied to the Department for Transport as per the terms of our Licence.

Should the Local Planning Authority not propose to determine the application in accordance with this recommendation they are required to consult the Secretary of State for Transport, as set out in the [Town and Country Planning \(Development Affecting Trunk Roads\) Direction 2018](#), via transportplanning@dft.gov.uk and may not determine the application until the consultation process is complete.

Annex A National Highway's assessment of the proposed development

National Highways has been appointed by the Secretary of State for Transport as a strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the Strategic Road Network (SRN). The SRN is a critical national asset and as such we work to ensure that it operates and is managed in the public interest, both in respect of current activities and needs as well as in providing effective stewardship of its long-term operation and integrity.

This response represents our formal recommendations with regards to S26A/2023/0031 and has been prepared by Mark Norman.

This site although adjacent to the M11, is remote from the SRN, and any impact in traffic terms is likely to be small. There would appear to be no implications for the M11 in regards to drainage or development being in relatively close proximity of the Motorway. Therefore we have no objection to the granting of permission, if you have not already done so you should consult with Essex County Council as Local Highway Authority

Standing advice to the local planning authority

The Climate Change Committee's [2022 Report to Parliament](#) notes that for the UK to achieve net zero carbon status by 2050, action is needed to support a modal shift away from car travel. The NPPF supports this position, with paragraphs 73 and 105 prescribing that significant development should offer a genuine choice of transport modes, while paragraphs 104 and 110 advise that appropriate opportunities to promote walking, cycling and public transport should be taken up.

Moreover, the build clever and build efficiently criteria as set out in clause 6.1.4 of [PAS2080](#) promote the use of low carbon materials and products, innovative design solutions and construction methods to minimise resource consumption.

These considerations should be weighed alongside any relevant Local Plan policies to ensure that planning decisions are in line with the necessary transition to net zero carbon.
