

# HS2

July 2024

## Air Quality and Dust Monitoring Monthly Report – July 2024

**Buckinghamshire** Council

## Department for Transport

High Speed Two (HS2) Limited has been tasked by the Department for Transport (DfT) with managing the delivery of a new national high speed rail network. It is a non-departmental public body wholly owned by the DfT.

High Speed Two (HS2) Limited,  
Two Snowhill  
Snow Hill Queensway  
Birmingham B4 6GA

Telephone: 08081 434 434

General email enquiries: [HS2enquiries@hs2.org.uk](mailto:HS2enquiries@hs2.org.uk)

Website: [www.gov.uk/hs2](http://www.gov.uk/hs2)

A report prepared by EWCs and MWCCs on behalf of HS2 Ltd.

High Speed Two (HS2) Limited has actively considered the needs of blind and partially sighted people in accessing this document. The text will be made available in full on the HS2 website. The text may be freely downloaded and translated by individuals or organisations for conversion into other accessible formats. If you have other needs in this regard please contact High Speed Two (HS2) Limited.

# Monthly Summary

- 1.1.1 This Summary Report is published in fulfilment of commitments detailed in the High-Speed Rail (London-West Midlands) Environmental Minimum Requirements, Annex 1: Code of Construction Practice, for the nominated undertaker to present the results of dust monitoring undertaken in the Buckinghamshire Council (BC) during July 2024.
- 1.1.2 Figures 1-7 in Appendix A present the current worksites together with the dust monitoring locations.
- 1.1.3 This summary should be read in conjunction with the overview monitoring report available from [www.gov.uk/government/collections/monitoring-the-environmental-effects-of-hs2](http://www.gov.uk/government/collections/monitoring-the-environmental-effects-of-hs2), which highlights the applicable standards and guidance, as well as the air quality and dust monitoring methodologies to be implemented by nominated undertakers throughout construction.
- 1.1.4 The current worksites, as presented in Appendix A, Figures 1-7, include:

## **CVV LTP1 worksite**

- North Embankment Compound: compound operation;
- DWSC Compound: compound operation;
- Haul Road and Jetty Maintenance – River Colne to GUC: operation and maintenance and GUC to Harvil Road: operation and maintenance;
- Ground Investigation works;
- Pier Construction: arch from deck for FRC works for pile cap and pier, standard piers FRC works for pile cap and pier, post-tensioning of AFD legs and tower crane mob / demob;
- Pumping Water Management: pumping water management ch 25.900 to 29.500;
- Satellite Welfares;
- Generator Farms;
- South Abutment: earthworks, CFA piling, pile trimming and pile hat installation, FRC early works on SE and drainage works, South Abutment construction stage 2, South Abutment construction stage 2, South Abutment construction stage 2 – earthworks, yard supporting activities, piling platform construction (Harvil Road) and load transfer platform construction (7-8), soiling and seeding works, embankment FRC works;
- Environmental Maintenance;
- River Colne Crossing: Emergency removal of obstruction to RC crossing;
- Deck Finishes Logistics: preparation and operation of storage yards and installation of below deck access provision, traffic management on the deck surface, installation of parapets, noise barriers, troughs, pipes, steel works and other minor material to the storage yards and deck, installation of access at the top of the deck (HAKI stairs) and finishes support plan;

- Deck Finishes – On-deck Construction: construction of robust kerbs, installation of parapets, construction of concrete stitch, filling of voids and top openings, verge deck waterproofing, trough installation and noise barrier installation;
- Deck Finishes – In-deck Construction: diaphragm walls, concrete works within the deck, drainage works within the deck and steel works within the deck;
- Landscaping: advanced works including removal of cofferdam, early earthworks including ground profiling and cut, initial ground drainage including manhole chamber, early soil placement, hardstanding removal and tree removal & vegetation clearance;
- RC Footbridge installation; and
- Jetty Removal and associated earthworks: Earthworks excavation, backfill, and landscaping, jetty removal, cutting piles and steelworks.

### **Chalfont St Peter Vent Shaft**

- General Site Activities;
- Road Maintenance Works;
- Connection to Tunnels; and
- Building Trades: internal works including steel and zinc cladding.

### **Amersham Vent Shaft**

- General Site Activities;
- Tunnel Connections;
- External Works Phases 1&2;
- Headhouse Superstructure Concrete Works;
- Precast Boundary Wall:
- Internal Works;
- Steel Works and Zinc Cladding; and
- MEP Works.

### **Chalfont St Giles Vent Shaft**

- General Site Activities;
- Steel works and zinc cladding;
- Road Maintenance Works; and
- Building Trades: brickworks and internal works.

### **Little Missenden Vent Shaft**

- General site activity;
- Tunnel Connection;
- Internal Works;
- Steel Works and Cladding; and
- External Works – Phase 1 and Phase 2.

### **Chesham Vent Shaft**

- General site activity:

- Ground Level Works: headhouse ATS concrete works and external works;
- Building Trades: External works; and
- Zinc and Cladding Works.

### **North Portal work site**

- General Plant: Site Activities;
- Building Platform;
- Tracks Platform;
- Piling Platform Reinstatement: scraping/hardstanding/earthworks and dismantling piling platforms;
- Porous Portal Structure: Construct reinforced concrete frame and concrete works;
- TBM dismantling portal and compound works;
- North Portal Building; and
- Batching Plant installation & operation.

### **North Chilterns Area**

#### Grimms Ditch

- HERDS works/survey.

#### Chesham Lane, Wendover Bus 55

- Earthworks (material haulage across site)
- Temporary Surface Water Management
- Hydroseeding of stockpiles.

#### Ellesborough Road

- Pulling cable for the demolition area overhead diversion.
- Diversion of 1205T overhead and overhead removal.
- Removing underground sections of 1205T cable after UKPN diversion.
- Backfilling and tidying up after UKPN works at East and West substations at Ellesborough Road.

#### Nash Lee Road, Nash Lee Lane

- NLOB Piling P1 Piers (progressing with Pile 1 and Pile 4)
- De-vegetating East side of Nash Lee
- Pouring East and West Thrust Walls, Thrust Blocks, installing the bypass connection east and west and backfilling Y branches again on East and West
- NLOB West Abutment Piles - Commencing Excavating to formation level for blinding and heat protection
- NLOB East Abutment Piles - Erecting Steelwork and Formwork and heat protection installation for blinding pour end of this week.

### Bacombe Lane

- 33kV – utility diversion works.
- Installation of ironwork for manholes
- Installation of type 1 on link road.

### Grove Farm

- Moving stockpiles in preparation for POI-001
- Utility demarcation
- Relocation of material from laydown area.
- Constructing Access Road alongside CAB haul road.

### Small Dean Viaduct

- Installation of viaduct fins and welding
- construction of FRC bearing plinths on hammerheads
- large concrete pour for A7 abutment.
- Stockpile movement.

### Wendover Town

- Grass strimming.
- Pre-grouting works.
- LPW installation works.
- Installing culverts for slurry and bentonite pipes.
- Installing walkways site-wide for BKJV.
- Folly bridge embankment removal and SAR realignment works.
- Site services demarcation works.
- Batching plant maintenance.
- Installing domes over the batching plant bins.
- Decommissioning of boreholes and backfilling
- Water deliveries.

### **Calvert Area**

#### Quainton

- Earthworks - Ongoing
- Platform for storage – Completed
- Carpark extension – Ongoing.

#### Woodlands

- Adams Accommodation underbridge – construction of steel reinforcement cages for wing walls.
- River Ray diversion temporary works.
- Aggregate deliveries along the SAR.

FCC / School Hill (Calvert)

- School Hill batching plant – production of concrete.
- School Hill culvert – waterproofing and technical backfill.
- School Hill Overbridge – dig and replace (D&R) under structure and piling platform completed. Excavation and technical backfill.
- Calvert Green overbridge – FRC works.
- Aggregate deliveries along the site access road (SAR).
- Calvert Cutting earthworks – drainage and general maintenance activities.

Other works ongoing in Calvert not within proximity (greater than 1km) to dust monitors include:

- West Street overbridge
- Portway culvert
- Perry Hill overbridge
- EWR culvert
- IMD West culvert
- IMD East Culvert
- Addison Road highway
- Shepherds Furze earthworks (stockpile maintenance)
- Shepherds Furze culvert
- MCJ4 chord earthworks
- Infrastructure maintenance depot (IMD) earthworks
- Secant retaining wall
- Bat mitigation structure
- SCL/13 overbridge
- FCC Cell 6 earthworks (stockpile maintenance)
- FCC Access Road Retaining Wall
- Sheephouse Wood North culvert
- Greatmoor no. 4 culvert and CAG2 underbridge
- Megaditch retaining wall
- Greatmoor no. 3 culvert
- GUN28 overbridge
- QUA36 overbridge
- Hills farm earthworks (stockpile maintenance)
- Edgcott Road overbridge
- QUA26 Underbridge
- Woods drop inlet culvert
- Doddershall Embankment earthworks
- Doddershall No. 6 and No. 7 Culvert
- Quainton cutting
- QUA28 overbridge.

**Twyford to Greatworth**

Turweston North

- Turweston Viaduct Construction
- Turweston Green Overbridge Construction
- Excavate & Replace - Geogrid install
- Loading 1A1
- Hauling 7E2
- DUO Crushing
- Landscape Bund 4 Class 2 fill
- Landscape Bund 4 area prep
- Turweston Cutting benches
- Pond Fill with Class 2
- Vac-ex slab crossing
- Slab crossing construction.

#### Twyford

- Placement of Flex MSE bags for watercourse one and two.
- Placement of material and compaction of Cowley Embankment.
- Deveg of Padbury Brook's surrounding area.
- Twyford Embankment excavate and replace.
- PBI-05: Piling, maintenance of piling platform.

#### Chetwode

- Chetwode Cutting: bulk dig and placement of drainage layer (6N).
- CHW18 Overbridge: FRC Superstructure work (Steel fixing, formwork, and concrete pour).
- CHW18: Preparation for Green highway realignment.

#### School End

- School End O/B: FRC Superstructure work (formwork, steel fixing, concrete pour).

#### General

- Use of SAR: Movement and delivery of materials, Road Sweeper Movements, Dust suppression movements (Tractor and Water Bowser).
- Use of MHR: ADT Movements, haulage of materials.

- 1.1.5 Thirty (30) dust monitors are installed around these worksites, where works are underway. These sites returned a medium dust risk rating.
- 1.1.6 Dust monitoring locations and results are presented in Appendix B, Table 1, together with line charts of monthly data from each dust monitor presented in Figure 8. All continuous dust monitoring is undertaken using indicative monitors. Despite being Environment Agency (MCERTS) certified, indicative monitors carry a higher level of uncertainty than reference monitors, and therefore cannot be strictly compared with Air Quality Standards

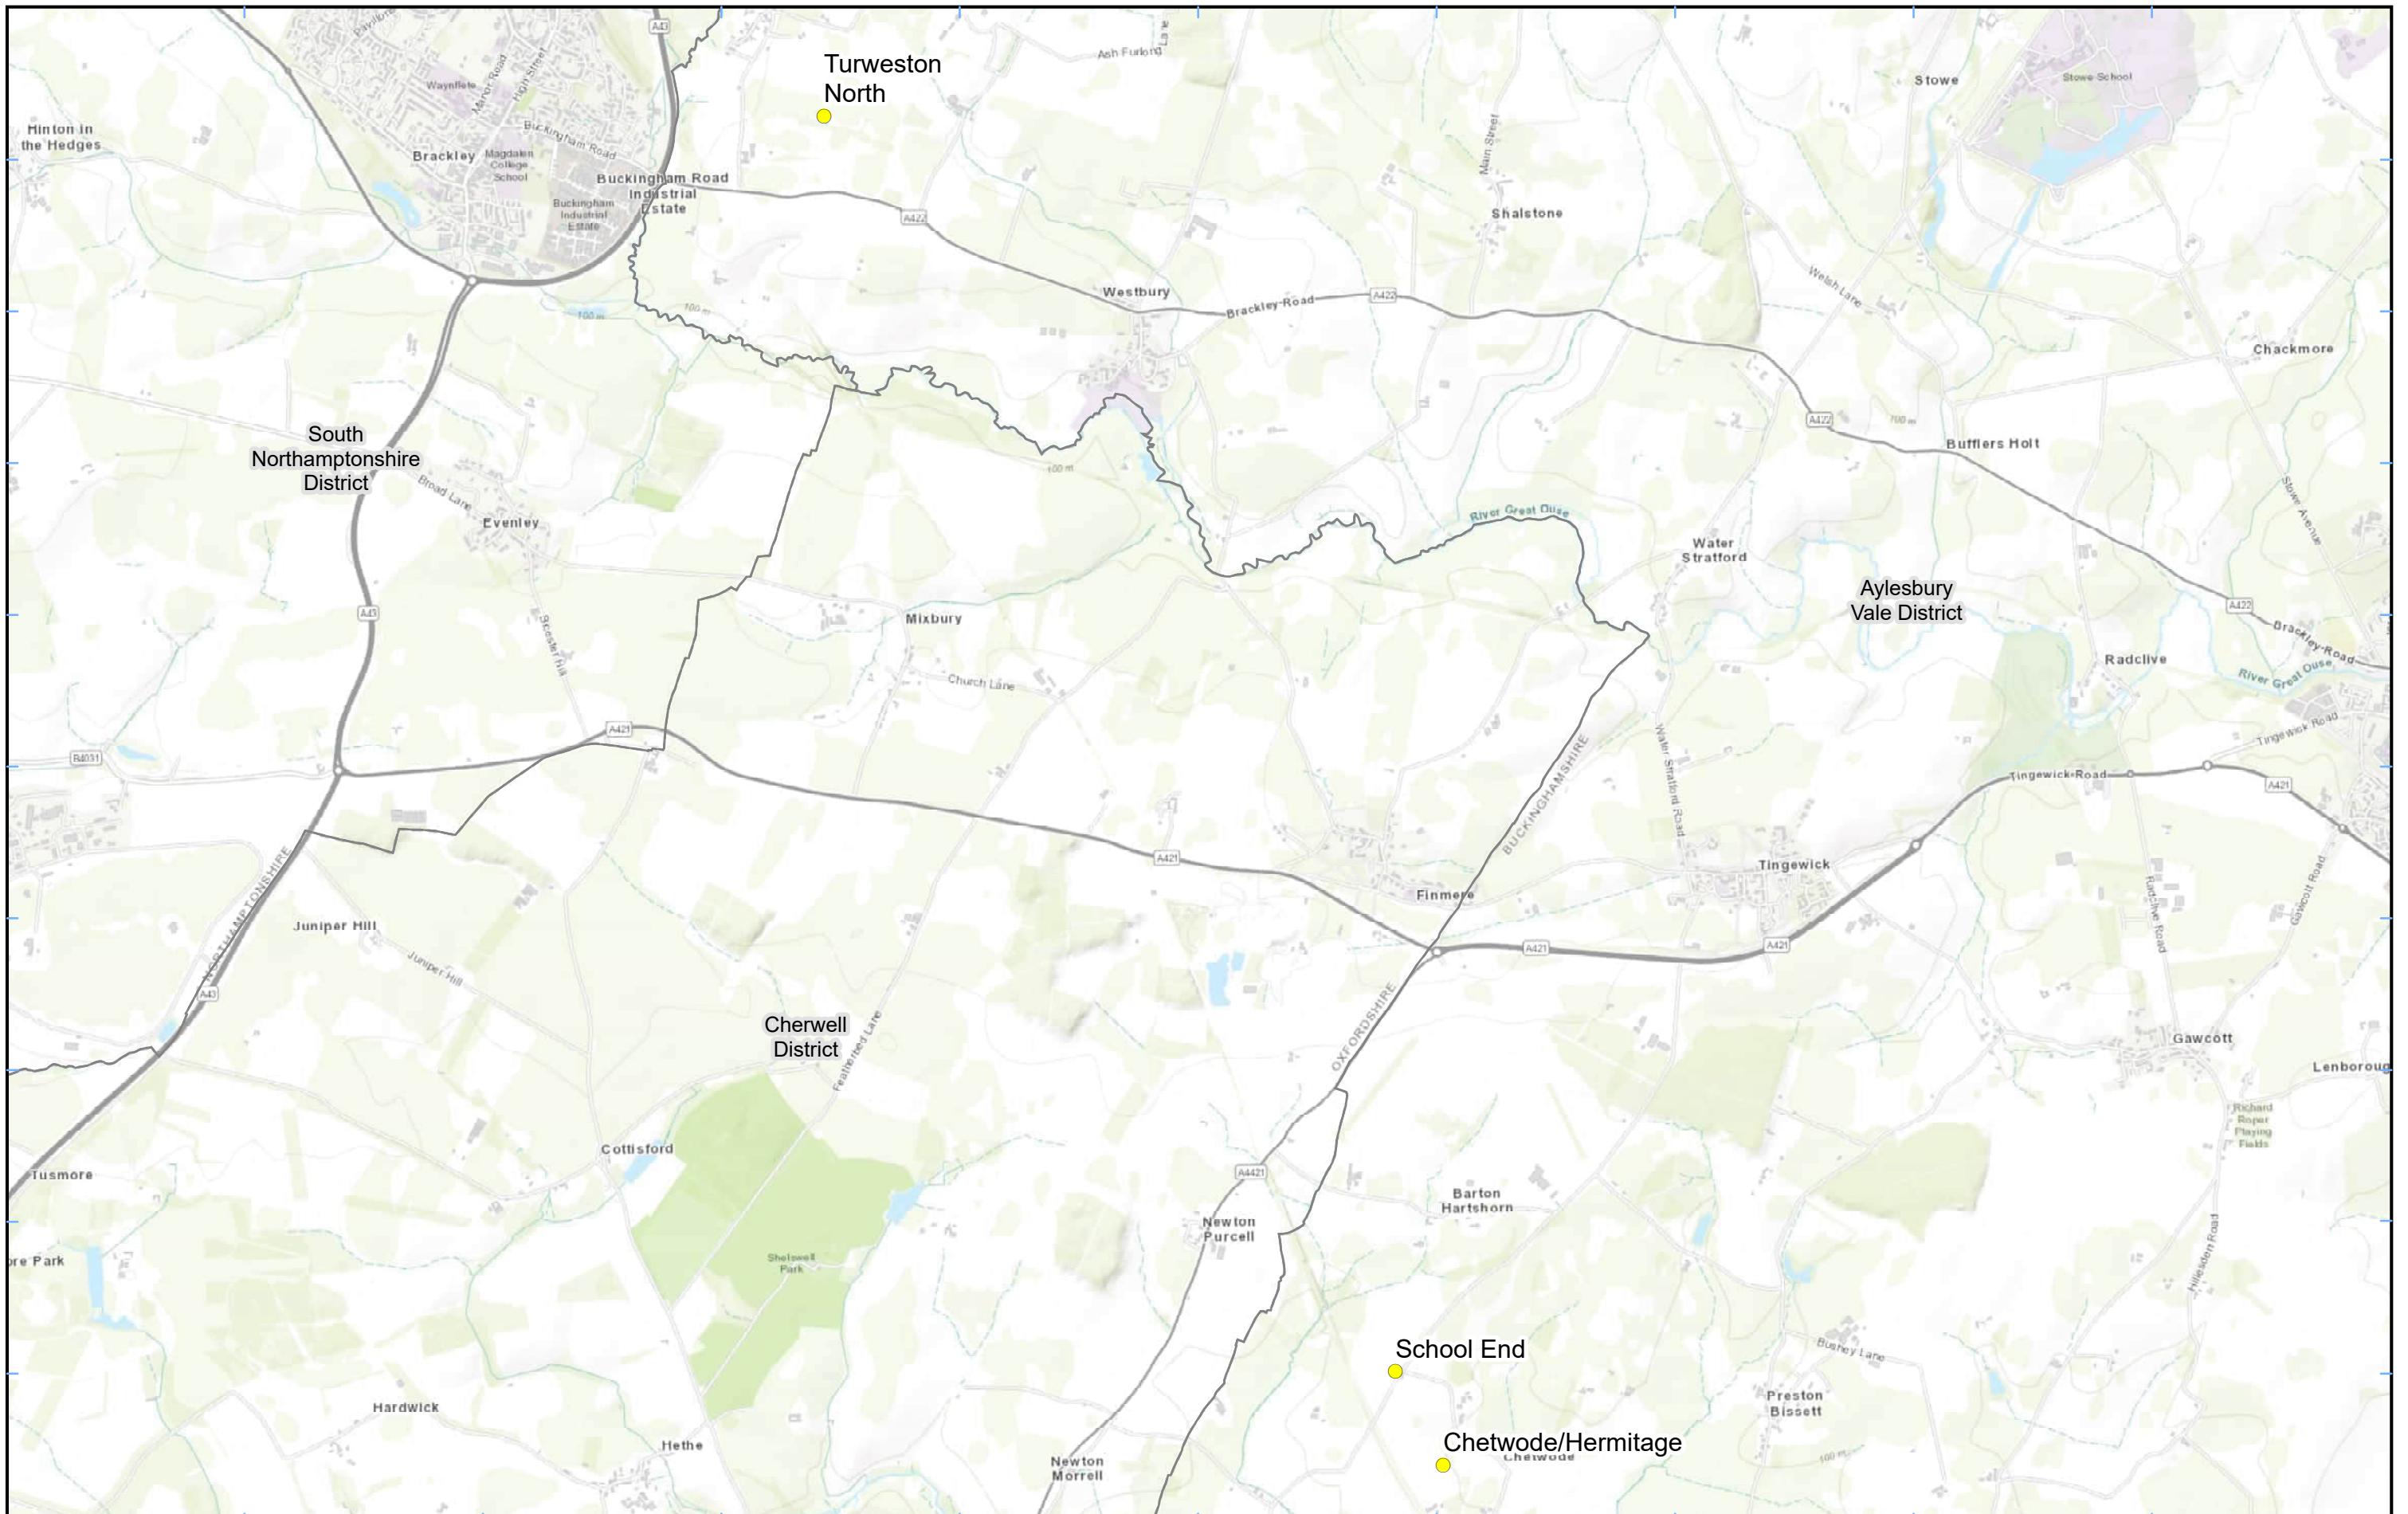

for human health and the environment. The purpose of the monitoring undertaken is to ensure the effectiveness of the on-site mitigation.

- 1.1.7 The trigger level for PM<sub>10</sub> concentrations of 190 µg/m<sup>3</sup>, measured as a 1-hour mean, in accordance with the updated guidance document '*Guidance on Monitoring in the Vicinity of Demolition and Construction Sites – (December 2018)*' has been applied.
- 1.1.8 Details of the trigger alert investigations and remediations are presented in Appendix B, Table 2.
- 1.1.9 Data capture was below 90% for multiple monitors:
- Grove Farm had low data capture due to connectivity issues with the noise monitor. Noise monitor swapped out for repair on 25<sup>th</sup> July. Intermittent data capture after that was due to external battery fault causing rapid loss of power during various hours. Battery replaced on 30<sup>th</sup> July.
  - Twyford's low data capture was due to damaged microphone on the noise monitor. The dust monitor is powered by the noise monitor. Monitor retrieved for repair on 16<sup>th</sup> July.
  - Turweston North had abnormally high data values from 10<sup>th</sup> July to 16<sup>th</sup> July due a suspected airflow blockage. Low data capture was due monitor retrieved for repair on 16<sup>th</sup> July.
  - CHSTG-AQMP2 and CR-AQMP1 both recorded a high number of zero values. CR-AQMP1 was calibrated on 22<sup>nd</sup> August 2024 which has resolved this issue. A field calibration has been organised for CHSTG-AQMP2 in September.
  - Any other sporadic loss of data can be attributed to technical issues and/or loss of power due to insufficient sunlight/wind for monitors using solar/wind power.
- 1.1.10 There were no (0) complaints received during the reporting period (July 2024).

## Appendix B – Dust Monitoring Results

Table 1: Dust Monitoring Locations and Results

Monitoring site ID	Coordinates (X,Y)	Location description	Dust risk rating for site	Monitoring site active during period	Change to site since previous period report	Mean 1-hour PM <sub>10</sub> concentration (µg/m <sup>3</sup> )	Minimum 1-hour PM <sub>10</sub> concentration (µg/m <sup>3</sup> )	Maximum 1-hour PM <sub>10</sub> concentration (µg/m <sup>3</sup> )	Number of 1-hour periods exceeding trigger level of 190 µg/m <sup>3</sup>	Data capture (%)
CVV-AQMP1	503612, 189846	On the north boundary of LTP1	M	Yes	No	2.9	1.0	28.0	0	100.0
CHStP-AQMP1a	500093, 192996	Relocated from CHStP-NMP1 to site-boundary outside residence	M	Yes	Yes	2.7	1.0	12.0	0	99.9
CHStP-AQMP2	499951, 193282	On the western boundary of the site	M	Yes	Yes	2.7	1.0	49.0	0	99.1
AMER-AQMP1	495367, 196722	On the north-eastern boundary of Amersham	M	Yes	Yes	4.3	1.0	15.0	0	100.0
AMER-AQMP2	495263, 196590	On the south-western boundary of Amersham	M	Yes	Yes	3.7	1.0	14.0	0	99.1
CHStG-AQMP1	497170, 194752	On the southern boundary close to Hobbs Hole Cottage	M	Yes	Yes	3.8	1.0	12.0	0	100.0
CHStG-AQMP2	497320, 194770	On southern boundary next to carpark	M	Yes	Yes	2.7	1.0	11.0	0	81.5
LMS-AQMP1	493190, 198848	On the south-west of the site	M	Yes	Yes	3.7	1.0	40.0	0	98.5
LMS-AQMP2	493407, 198731	On the south-east of the site	M	Yes	Yes	3.0	1.0	19.0	0	91.5
CR-AQMP1	491291, 201143	On the Chesham Road Vent Shaft	M	Yes	Yes	2.5	1.0	12.0	0	69.5

Monitoring site ID	Coordinates (X,Y)	Location description	Dust risk rating for site	Monitoring site active during period	Change to site since previous period report	Mean 1-hour PM <sub>10</sub> concentration (µg/m <sup>3</sup> )	Minimum 1-hour PM <sub>10</sub> concentration (µg/m <sup>3</sup> )	Maximum 1-hour PM <sub>10</sub> concentration (µg/m <sup>3</sup> )	Number of 1-hour periods exceeding trigger level of 190 µg/m <sup>3</sup>	Data capture (%)
ORC-AQMP	490503, 201786	Orchard Cottage South-eastern Site Boundary	M	Yes	Yes	3.7	1.0	21.0	0	100.0
NP-AQMP1	490069, 202008	North Portal Site Entrance	M	Yes	Yes	4.0	1.0	18.0	0	99.7
School Hill (CAL-AQMP2) - Dust	469003, 224740	School Hill Compound	M	Yes	Yes	4.2	1.0	16.0	0	99.7
School End - Dust	463666, 230049	School End, Chetwode	M	Yes	Yes	5.1	1.0	32.0	0	99.9
Grimms Ditch - Dust	489135, 203468	Leather Lane, The Lee, South Heath	M	Yes	Yes	2.8	1.0	14.0	0	99.6
Chesham Lane - Dust	487974, 205794	Chesham Lane, The Lee, Wendover	M	Yes	Yes	4.0	1.0	87.0	0	99.9
Wendover Bus 55 - Dust	487574, 205787	Chesham Lane, The Lee, Wendover	M	Yes	Yes	1.5	1.0	6.0	0	95.6
Twyford - Dust	466544, 226883	Twyford, Buckinghamshire	M	Yes	Yes	3.4	1.0	14.0	0	49.3
Chetwode/Hermitage - Dust	463936, 229521	Hermitage, Chetwode	M	Yes	Yes	4.7	1.0	28.0	0	99.9
Turweston North - Dust	460439, 237140	Turweston, Buckinghamshire	M	Yes	Yes	38.9	1.0	575.0	16	50.3
FCC - Dust	469042, 224263	Adjacent Red Kite View, Calvert	M	Yes	Yes	4.3	1.0	19.0	0	99.7
Ellesborough Road - Dust	486458, 207550	Ellesborough Road, Wendover	M	Yes	Yes	3.7	1.0	13.0	0	100.0
Nash Lee Road - Dust	484766, 208782	Nash Lee Lane (west)	M	Yes	Yes	4.5	1.0	25.0	0	99.9
Nash Lee Lane - Dust	485069, 208793	Nash Lee Lane (east)	M	Yes	Yes	4.2	1.0	13.0	0	99.9
Bacombe Lane - Dust	486528, 207217	Bacombe Lane, Wendover	M	Yes	Yes	4.6	1.0	20.0	0	100.0

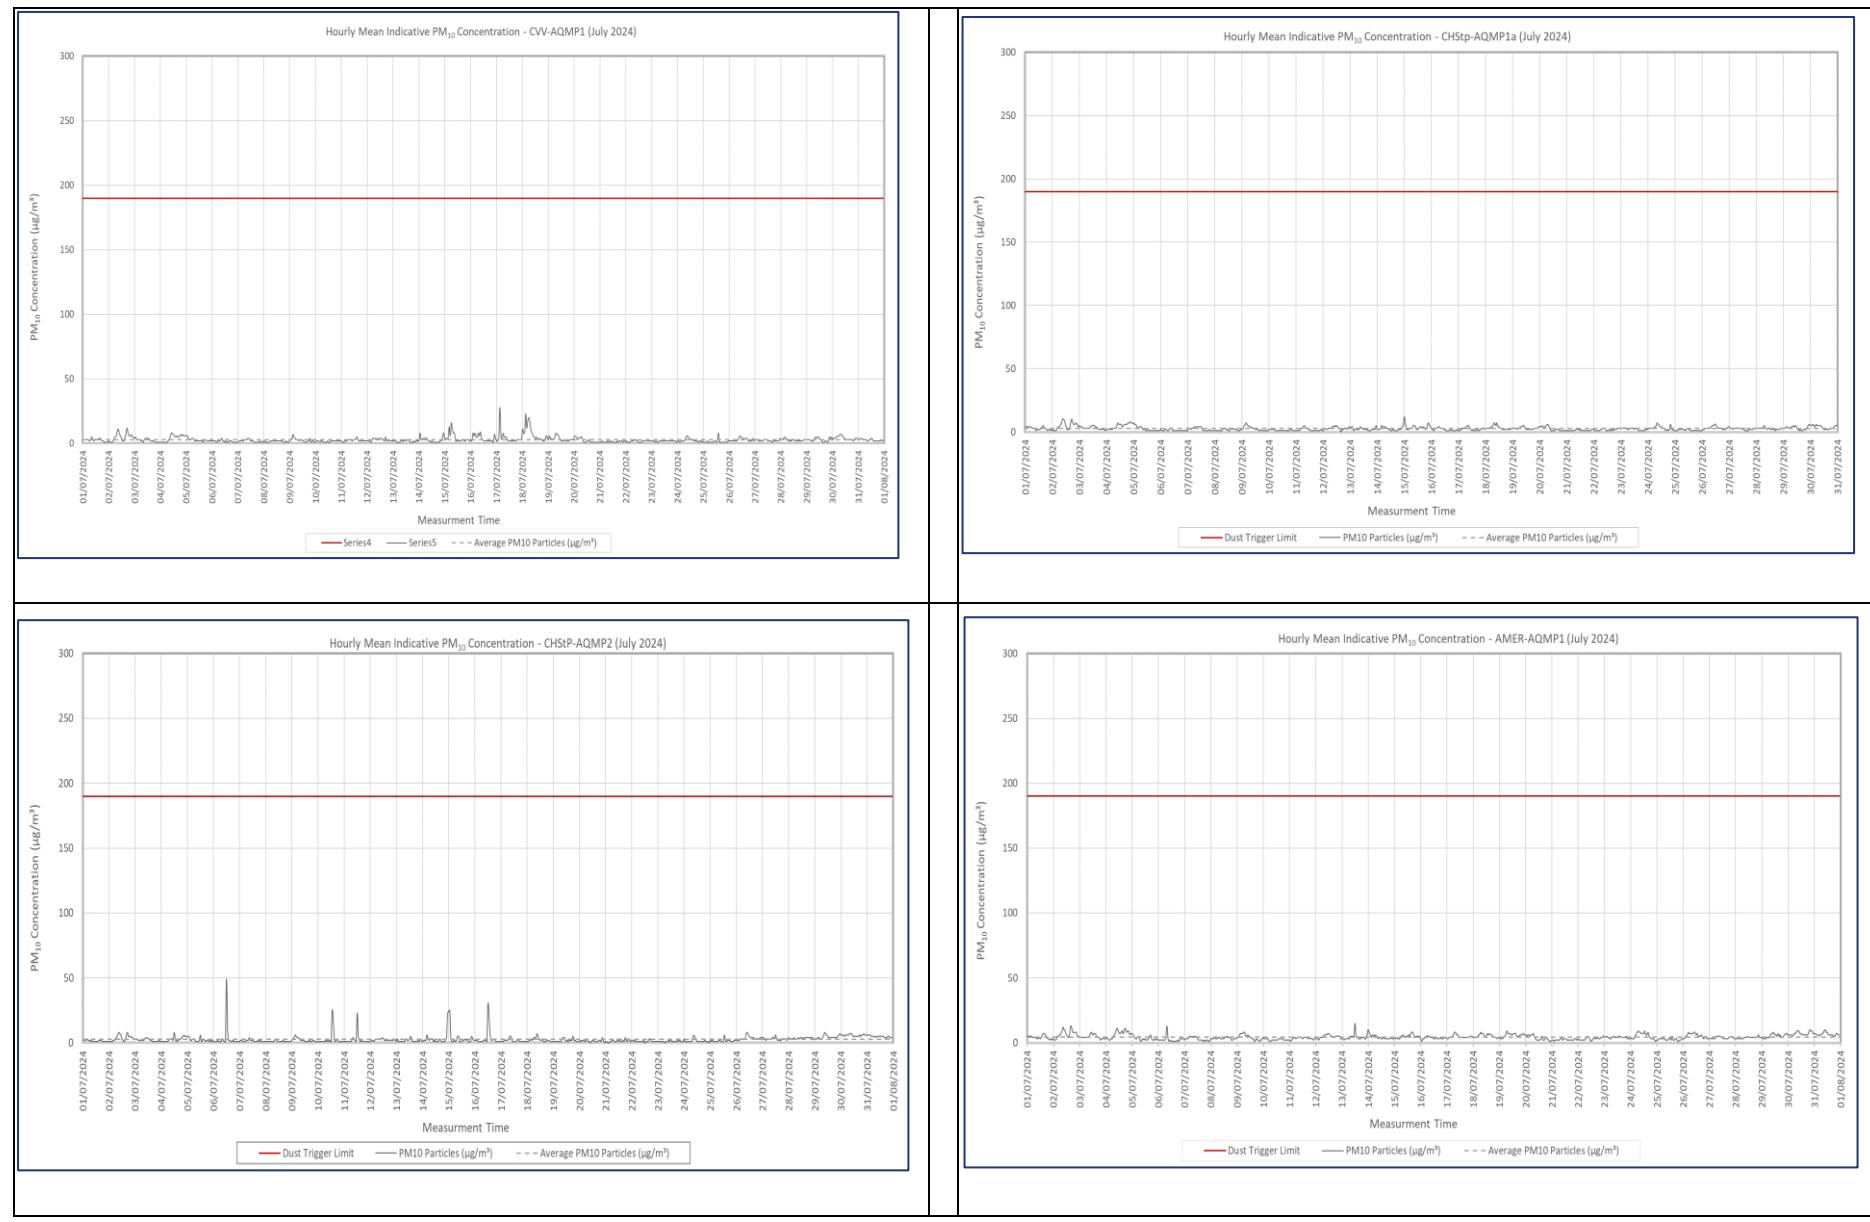

Monitoring site ID	Coordinates (X,Y)	Location description	Dust risk rating for site	Monitoring site active during period	Change to site since previous period report	Mean 1-hour PM <sub>10</sub> concentration (µg/m <sup>3</sup> )	Minimum 1-hour PM <sub>10</sub> concentration (µg/m <sup>3</sup> )	Maximum 1-hour PM <sub>10</sub> concentration (µg/m <sup>3</sup> )	Number of 1-hour periods exceeding trigger level of 190 µg/m <sup>3</sup>	Data capture (%)
SDVC - Dust	487522, 206043	Small Dean Viaduct, London Road	M	Yes	Yes	4.0	1.0	13.0	0	99.9
Station Road - Dust	474068, 219307	Station Road, Quainton	M	Yes	Yes	4.0	1.0	113.0	0	99.7
Wendover Town - Dust	486193, 207950	Wendover Bypass, Wendover	M	Yes	Yes	4.0	1.0	15.0	0	100.0
Woodlands - Dust	471603, 221315	Station Rd, Quainton, Woodlands Farmhouse	M	Yes	Yes	5.1	1.0	58.0	0	99.6
Grove Farm	486957, 206908	Grove Farm, London Road, Wendover	M	Yes	Yes	4.8	1.0	31.0	0	86.2

Table 2: Summary of exceedances during period (July 2024)

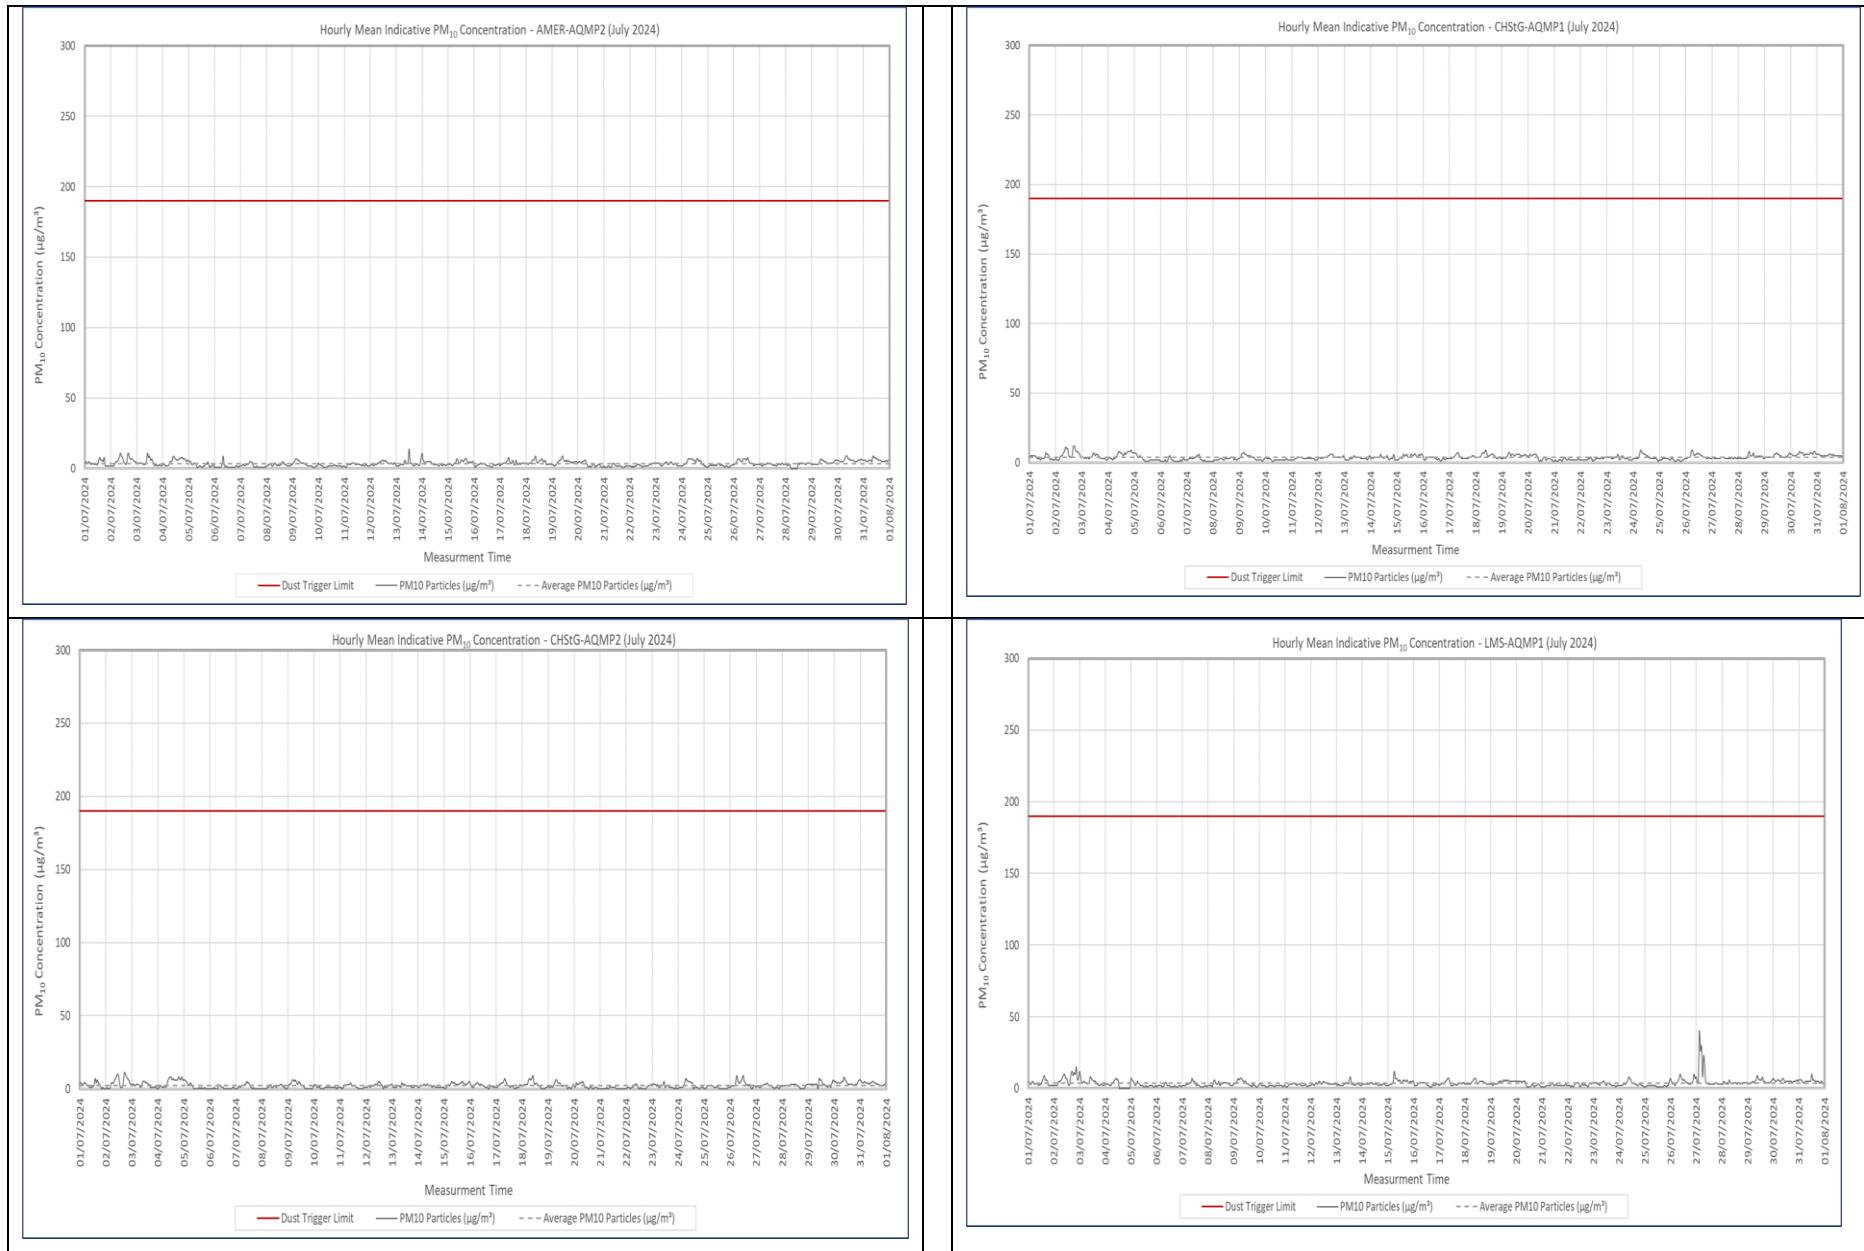

Monitoring Site ID	Period of trigger alert & Concentration recorded	Investigation	Outcomes / Resolution / Remedial measures implemented
Turweston North	14/07/2024 04:01 – 05:00; 207 µg/m³ 05:01 – 06:00; 456 µg/m³ 07:01 – 08:00; 575 µg/m³ 08:01 – 09:00; 459 µg/m³ 09:01 – 10:00; 322 µg/m³ 10:01 – 11:00; 206 µg/m³ 11:01 – 12:00; 213 µg/m³  15/07/2024 14:01 – 15:00; 301 µg/m³ 20:01 – 21:00; 265 µg/m³ 21:01 – 22:00; 256 µg/m³ 22:01 – 23:00; 264 µg/m³ 23:01 – 00:00; 222 µg/m³  16/07/2024 02:01 – 03:00; 243 µg/m³ 03:01 – 04:00; 237 µg/m³ 06:01 – 07:00; 262 µg/m³ 07:01 – 08:00; 267 µg/m³	Monitor fault suspected airflow blockage.	Dust monitor retrieved for repair on 16/07/2024.
