| Other                            | 0     |
| Remove Handcuffs                 | 0     |
| Method of Entry                  | 0     |
| Total                            | 118   |

<sup>&</sup>lt;sup>1</sup> Use of force can be used for several reasons in any given incident; there is a staged escalation process in the Police Service and therefore multiple reasons may be recorded for a single incident.

#### Table 2: Impact factors leading to use of force

01 January 2024 - 31 March 2024

| Impact factors <sup>2</sup> | Count |
|-----------------------------|-------|
| Alcohol                     | 21    |
| Mental Health               | 16    |

#### Table 3: Primary conduct/behaviour of subject during stop

01 January 2024 – 31 March 2024

| Primary conduct/behaviour of subject <sup>3</sup> | Count |
|---------------------------------------------------|-------|
| Compliant                                         | 24    |
| Passive Resistance                                | 6     |
| Active Resistance                                 | 5     |
| Aggressive Resistance                             | 3     |
| Verbal Resistance / Gestures                      | 2     |
| Serious or Aggravated Resistance                  | 1     |
| No Data Available                                 | 0     |
| Total                                             | 41    |

Definitions of the conduct/behaviour categories are provided at End Note i

<sup>&</sup>lt;sup>2</sup> Impact factors are not always relevant to instances of use of force and fewer impact factors than incidents may therefore be recorded. Likewise, it is possible to have multiple impact factors for one incident.

<sup>&</sup>lt;sup>3</sup> Officers use the categories listed to best describe the primary conduct/behaviour of subjects. If the subject displays more than one conduct/behaviour, the officer will only record the most relevant or severe. Definitions of the conduct/behaviour categories are provided at End Note i.

<sup>&</sup>lt;sup>4</sup> The breakdown of instances shown against each tactic is limited to 'Most common', 'Second most common, and 'Third most common' so, in cases where more than three types of tactics have been used, the corresponding figures for each will not always equate to the total number of instances. In addition, the information provided in Table 4 and any corresponding bullet points does not include specific details on the deployment of Conducted Energy Devices (Tasers) or Firearms; where applicable, that information is provided at Table 5.

### **Officer Injuries**

- 2 officers were assaulted from an intentional assault which incurred minor injuries
- 1 officer was spat at by the subject
- 0 officers were threatened with a weapon
- 0 officers were assaulted with a weapon

Table 3: Primary conduct behaviour of subjects – Definitions

**Compliant:** No resistance to instructions

**Verbal resistance:** Verbal abuse or gestures made but does not offer any physical resistance e.g. verbally swearing, offensive finger gestures

**Passive resistance:** Resistance that is not physical in nature but is intended to stop an officer or the general public from leading their day-to-day activities e.g. sitting in the road, refusing to move

**Active resistance:** A form of resistance or obstruction that is mildly physical in nature e.g. pushing, shoving

**Aggressive resistance:** A stage above active resistance where physical resistance is more pronounced but has no intention to injure an officer e.g. struggling against an officer

**Serious/aggravated resistance:** Use of violence against police with the intention to seriously injure or evade arrest e.g. striking with a weapon, punching
