1 Introduction

1.1 Context

The Whole of Government Accounts (WGA) are prepared by HM Treasury in accordance with the Government Resources and Accounts Act 2000.

These financial statements consolidate more than 10,000 entities that appear to HM Treasury to exercise functions of a public nature or to be entirely or substantially funded from public money and as such includes central government departments, non-departmental public bodies, public corporations, local authorities, the National Health Service, and the devolved administrations.

This guidance is for those within local government that participate in the production of Whole Government Accounts.

Data is collected from entities using the OSCAR system.

The external auditors of a local government entity have a statutory responsibility to review and report on the Whole of Government Accounts return if the entity is above the audit threshold limit.

1.2 OSCAR – Key Points

- Organisations can run the counterparty Matches Report themselves and are able to see live published data from other organisations for easier rectification of counterparty transactions
- Restatements Analysis Worksheet requires single input that will feed into the relevant proforma tabs
- More than one person can work on the submission at the same time on near real time data
- SCOA codes will be available on the OSCAR and on [GOV.UK](https://www.gov.uk)
- CG01 and CG02 forms can be downloaded from OSCAR
- Historic DCTs for 2022-23 can be viewed and downloaded to excel from OSCAR as well as the facility to toggle between 2022-23 and 2023-24 financial years. They can also be downloaded to Excel by each individual tab (see section 7.3.6).
- Ability to download the individual tabs of the DCT instead of the Audit Report, and run the primary financial statements report, accessed alongside the Audit Report options. This could be used to provide the auditors with assurance (see section 7.3).
- Less time taken to run Audit Reports due to the facility of being able to limit the number of CPID transactions processed for your entity (see section 7.3).
- Frequently asked questions – see Section 1.8.
- IFRS16 input – **second year of implementation**
- Historic Audit Reports

- Expanded section on clearing validation errors (see section 7.2.5)

1.3 Purpose of this document

The purpose of this document is to provide users with information on the processes related to Whole of Government Accounts (WGA) which will be performed within OSCAR.

1.4 Related materials

This guidance is to be read in conjunction with the following materials:

- WGA finance guidance including forms and associated guidance (available on [GOV.UK - https://www.gov.uk/government/collections/whole-of-government-accounts](https://www.gov.uk/government/collections/whole-of-government-accounts))
- Guidance videos.

1.5 How to use this guidance

The guidance has been divided into sections to meet the reporting requirements of the WGA process. Users should be able to refer to specific sections to achieve a task e.g., submit counterparty transactions, or to enter financial information into the proforma tabs.

1.6 Additional support

If you have any issues or queries do not hesitate to get in touch:

- For technical queries relating to OSCAR access and the WGA application, please contact oscar.support@keysource.co.uk
- For any queries relating to the requirements and definitions for the WGA data please contact LG_WGAreturns LG_WGAreturns@hmtreasury.gov.uk.
- For devolved administrations, please refer to your devolved administration contacts:
Northern Ireland Bodies contact: wga.afmd@finance-ni.gov.uk

1.7 Key Dates, Deadlines and Thresholds

1.7.1 Key Dates and Deadlines

The WGA deadlines apply to all local government bodies except for the bodies listed below.

Submissions	16 August 2024	13 September 2024
Data Collection Tool	Unaudited Data DCT (Cycle 1)	Audited Data DCT (Cycle 2)
Forms & Documents		Final CG04 Management Review Checklist Copy of Final Published Accounts

		CG05 Audit Completion Form (entities over the Audit Threshold, signed and counter-signed)
--	--	---

Entities should only submit Cycle 1 data where their data is based on unaudited accounts and / or their DCT Return (if above the audit threshold) has not been audited. Cycle 2 data should only be submitted where their data is based on audited accounts and their DCT Return (if above the audit threshold) has been audited.

It is essential that these deadlines are met, so that the overall process and publication of the accounts are not delayed. Any delays must be notified to the WGA Team at the earliest opportunity.

The timetable above does not apply to local government bodies in Devolved Administrations, who are covered by separate arrangements.

1.7.2 Thresholds

DCT Audit: A local government entity's DCT must be audited if it breaches any of the below thresholds:

Any of the below items above £2bn:

- ❖ Total assets excluding PPE
- ❖ Total liabilities less pension liabilities (note – for pension schemes, pension liabilities are included)
- ❖ Total income
- ❖ Total expenditure

For entities below the audit threshold, we still require a completed and signed CG-04 Management Review Checklist. The audit thresholds above do not apply to the devolved administrations and their sponsored bodies. Please refer to the guidance provided by devolved administrations in relation to these.

The Comptroller and Auditor General (C&AG) is the group auditor of the WGA in line with Government Resource and Accounts Act 2000, section 11 (GRAA). In line with the GRAA, a person who acts as auditor for the purposes of section 10(2)(c) or (8)(c) shall give to the Comptroller and Auditor General such information and explanations as he may require for the purposes of this section. Under ISA 600, the group auditor has the right to direct component auditors to conduct specific work to support their audit of the group. The National Audit Office (NAO) conduct the work of the C&AG.

The rights and requirements of the NAO can extend beyond the thresholds set by HMT, which do not prejudice the rights of the NAO. The NAO have informed us that they will need to consider the revised HMT thresholds alongside HMT's developing analytical review controls to determine whether they require, for their purposes, any assurances from auditors of components who are below the HMT thresholds. If/where additional work is required the NAO will contact the relevant component auditor(s) regarding the scope and timing of this work.

Minor Bodies:

Any entity that believes they are exempt from the WGA process due to being a minor body must complete and submit form CG03 by 31 August 2024. The minor body thresholds can be found within the CG03 form, which is published on the Treasury WGA website. For reference, the minor bodies thresholds are as follows:

All these items must be below £30m for 2022-23 **and** 2023-24 to qualify as a minor body:

- ❖ Gross expenditure for both years
- ❖ Gross income for both years
- ❖ Gross assets as at 31 March 2023 and 31 March 2024
- ❖ Gross liabilities as at 31 March 2023 and 31 March 2024

Reporting Balances on the CPID Transactions sheet:

There is no threshold, please report all balances with WGA counterparties to the granularity level which you have available. In determining the available granularity level, bodies may take a pragmatic approach, with due regard to what is material to their own accounts, so that significant amounts of time are not spent recording immaterial balances.

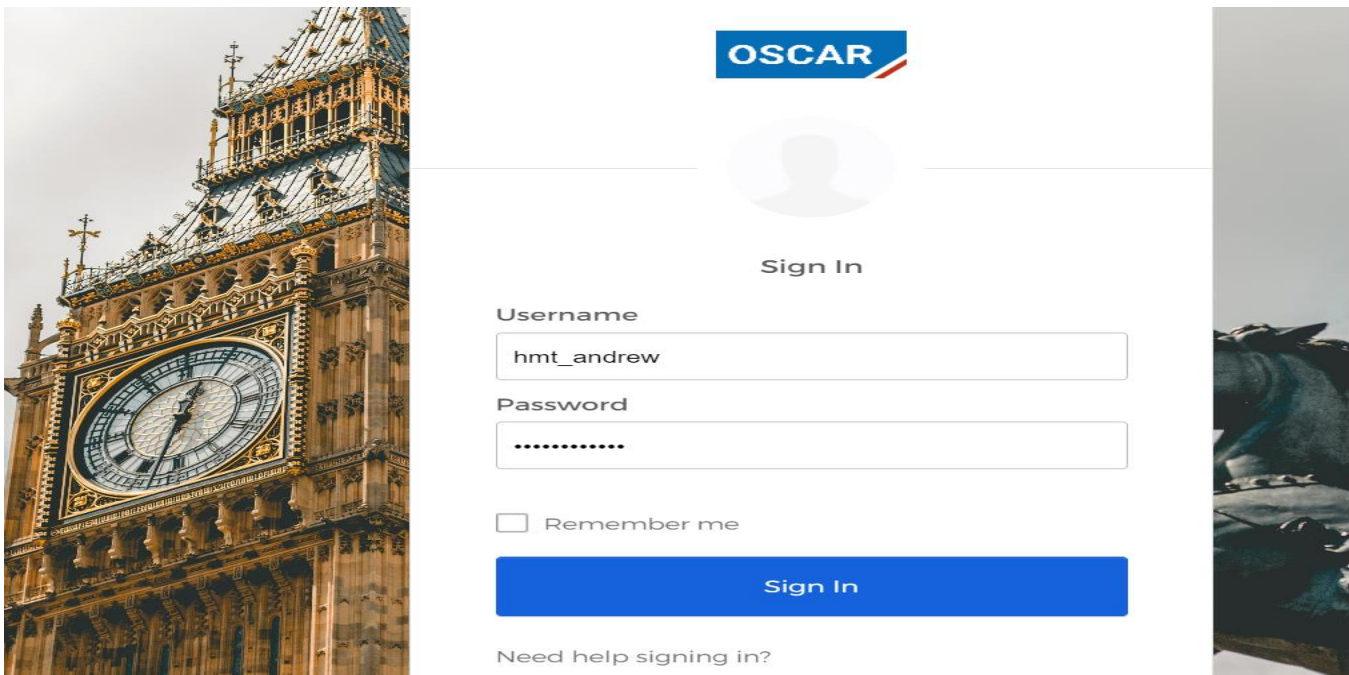

1.8 Frequently asked questions

How do I log on?

This is covered in Section 3.2.

How do I change my password?

Access the login page for OSCAR as follows - <https://oscar.okta-emea.com/login/login.htm>

The screenshot shows the OSCAR login interface. At the top center is the OSCAR logo. Below it is a circular placeholder for a user profile picture. Underneath the placeholder is the text "Sign In". The login form consists of two input fields: "Username" with the text "hmt_andrew" and "Password" with masked characters ".....". Below the password field is a checkbox labeled "Remember me". A prominent blue button labeled "Sign In" is positioned below the form. At the bottom of the form area, there is a link that says "Need help signing in?". The page is framed by decorative images: a large clock tower (Big Ben) on the left and a dragon sculpture on the right.

Click on “need help signing in?” and then “forgot password?”.

Enter your OSCAR username and then click on “reset via email” to change your password. You will receive notification by email.

Reset Password

hmt_andrew

Reset via Email

[Back to sign in](#)

How do I set myself up on OSCAR?

The user access forms are on One Finance – link as follows: <https://gff.civilservice.gov.uk/>

From the home page, put Oscar in the search engine, accessing the following page - <https://gff.civilservice.gov.uk/standards-policy-and-procedures/oscar/>

Select user forms from the Oscar page.

General OSCAR II information

What is OSCAR and what is it used for?

OSCAR II Users & User Authorisers: Forms

OSCAR II User Guidance and Information

Support Contact Details

OSCAR II Processes: Guidance and further information

Scroll down the screen and select the type of form relevant to your organisation. Follow the instructions provided.

How to become an OSCAR User

To become an OSCAR User, you must download and complete the relevant User Forms in the table below, and send a completed form to your designated User Authoriser.

Process	User Form	User Authorisers
Cash Management Scheme (CMS)	Cash Management User Form (Word)	User Authorisers (Excel)
Forecast Outturn (MFO)	General OSCAR User Form (Word)	User Authorisers (Excel)
PFI	General OSCAR User Form (Word)	User Authorisers (Excel)
WGA (Central Government only)	WGA Central Government OSCAR User Form (Word)	User Authorisers (Excel)
WGA (Local Government and Public Corporations)	WGA LG & PC User Form (Excel)	Email the WGA team for approval
WPR	General OSCAR User Form (Word)	User Authorisers (Excel)
Budgeting (Outturn and Plans)	General OSCAR User Form (Word)	User Authorisers (Excel)

If approved your User Authoriser will submit your request to the [Keysource Service Desk](#) to be processed. Shortly after this, you will receive a “noreply” activation email from OKTA to set up your OSCAR account. You can find further details in the [OSCAR User guide](#).

Guidance for completing a [User and User Authoriser form \(Word\)](#).

How do I access and run Audit Reports?

This is covered in Section 7.3.

How do I access and run the summary Audit Reports?

This is covered in Section 7.3.

There is no data in the TB output tab on the Audit Report, why is this the case?

This will be due to the Trial Balance input method been chosen (auto-population of the DCT tabs) instead of the pro-forma method (manual completion of the DCT tabs). On the Audit Report, the DCT input tabs and posted tabs will be populated with TB data instead.

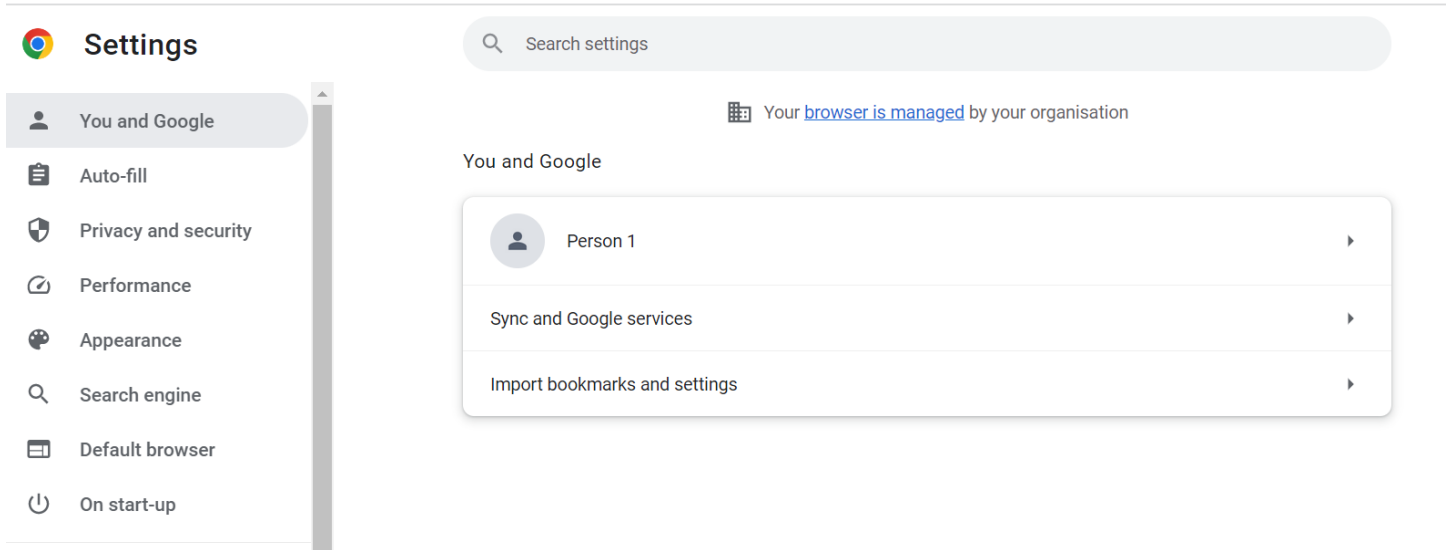

How do I view Historic DCT data?

This is covered in Section 7.3.6.

Why won't pages load within the DCT and why is no data being displayed?

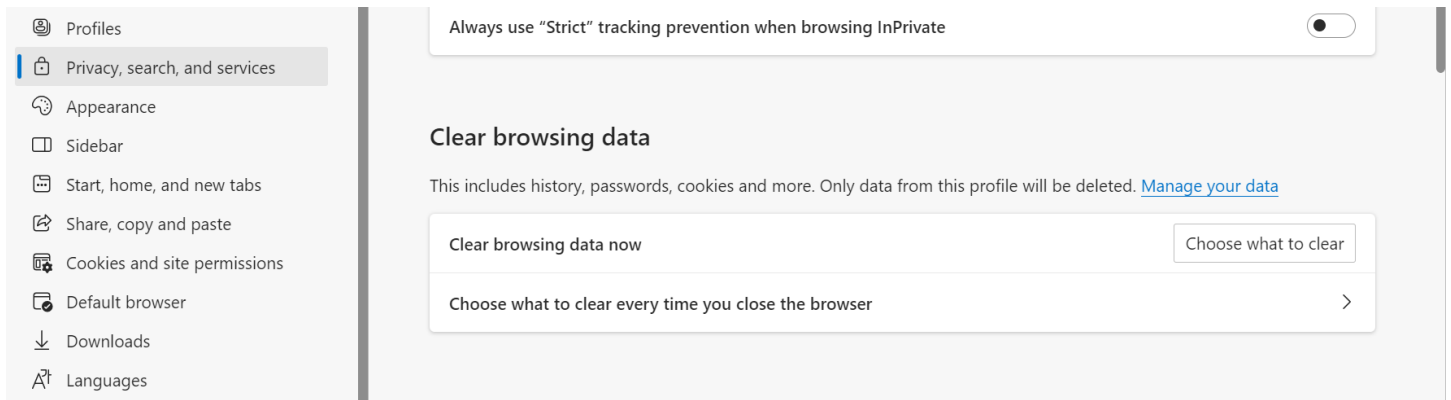

OSCAR data is displayed via a series of web sheets. You may need to clear cookies and the cache within the browser settings as follows:

Within Google Chrome, select Privacy and Security within the settings option.

Then select Clear browsing data and follow the instructions.

Within Microsoft Edge, select Privacy, search, and services within the settings option.

Then select Clear browsing data now and follow the instructions.

My opening balances are not pulling through correctly, how do I rectify this?

This may be due to your submission not being completed or completely submitted for the prior year. We have worked with our supplier to set you opening balances to zero where this is the case. You may need to get our supplier to re-input your opening balances to present a balanced position by raising a ticket. In the first instance, you should contact the WGA Team. Alternatively, you may have restated last year's closing balances and hence opening balances for the current year. In this case, you will need to restate your opening balances. Guidance on this is covered in Section 7.2.3.5.

Why is my CPID data not showing on the Matches Analysis Tool?

You will need to publish your data so that others can see the data. This can be done via the Homepage in your DCT. Click on “publish”.

Step 2 - Publish CPID transactions

Publish the CPID transaction to matches report.

(Matches will now be visible to counterparties)

PUBLISH

CPID Transactions

WGA 2020-21: match relationships

If you subsequently update your CPID transactions, you can re-populate the Matches Analysis Tool with the updated data via the populate button on the CPID transactions tab.

Select to populate the latest data into the Matches Analysis Report

POPULATE

Select "Switch Method" of Input for CPID Data to switch to "CPID Transaction"

Current input method: *CPID Transaction*

**SWITCH
METHOD**

I have selected the incorrect audit threshold on my DCT, how do I rectify this?

You should contact the WGA Team who will be able to alter this in your workflow status. The alternative is to reset your DCT to “open” status, but this will clear any data that has been submitted.

Is there a mapping tool for SCOA codes in the DCT?

There is a mapping tool on the WGA website – link as follows:

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/1071838/WGA_DCT_Documentation_mapping_tool_2020-21.xlsx

How do I rectify an invalid CPID code?

This is covered in Section 6.3.3. You should also refer to the tab alongside the Matches Analysis Tool which has the complete list of CPID codes which are valid. This can be downloaded to excel.

	Long Name	Return_Required	Org Detailed Type	Org LG/CG
BISADJ	BISADJ - BIS ADJUSTMENT	N - Adjustment		
BISCLS	BISCLS - CLS - DEPT FOR BUSINESS, ENERGY & INDUSTRIAL STRAT			
A...	ACA084 - Advisory Conciliation and Arbitration Service ACAS	N - Consolidated in Parent Return	BEIS Group	Central Gov
A...	AHC084 - Arts and Humanities Research Council	N - Other (Explain in Notes)

DL...	DLS084 - Diamond Light Source Ltd	N - Consolidated in Parent Return	BEIS Group	Central Gov

The complete list of SCOA's can also be accessed here (third tab) for each match relationship. Both lists are also published on the WGA website - <https://www.gov.uk/government/publications/whole-of-government-accounts-2020-to-2021-guidance-for-preparers>

What do the workflow statuses mean when completing DCT's?

This is covered in Section 4.2.2.

Why can't I enter any data into the DCT?

This may be due to the DCT being locked at Cycle 1 or Cycle 2 submission status – locked for audit acceptance. To unlock the DCT, you will need to re-visit Step 5 on the Homepage and reopen the cycle. You will then be able to enter data into your DCT.

Steps for Cycle 2

Step 5 - Reopen for Cycle 2 changes

If your return is below the audit threshold, select to reopen DCT for cycle 2 changes. For audited organisations, unlock to enter auditor agreed revisions.

REOPEN FOR CYCLE 2 CHANGES

Why can't I view the CPID transactions on the CPID transactions tab?

You will need to zoom out to see the CPID transactions. This is covered in Section 5.2.7.

Can I re-publish my updated CPID data?

If you subsequently update your CPID transactions, you can re-populate the Matches Analysis Tool with the updated data via the populate button on the CPID transactions tab and re-publish the data.

Select to populate the latest data into the Matches Analysis Report

POPULATE

Select "Switch Method" of Input for CPID Data to switch to "CPID Transaction"

Current input method: CPID Transaction

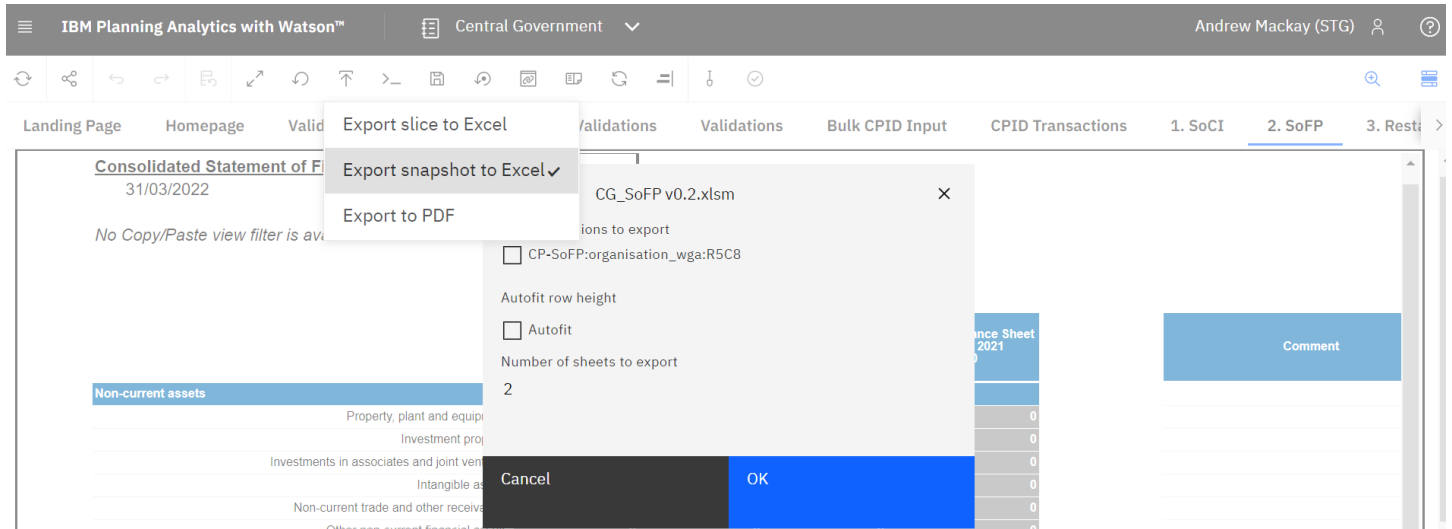

SWITCH METHOD

How do I download DCT extracts to excel?

Go to the tab you want to download in the DCT. Click on anywhere on the tab screen to reveal the toolbar.

Click on the download button on the toolbar. Select download snapshot to excel.

Select ok and the file will be downloaded to your desktop.

How do I delete multiple or individual rows from the CPID transactions tab?

Within the CPID transactions tab, you can either delete single or multiple rows using the functionality shown below. Note that key rows will not be deleted in their entirety only the CPID data will be deleted (key rows are where account balances are shown and external balances).

Delete Rows

There are two methods of deleting rows- either select an individual account and a row no. to delete (as well as the option to delete 'All' rows), or select a range of accounts and rows to delete.

Select Account	<input type="text"/>	OR	Enter row no. to delete	<input type="text"/>	DELETE ROW
Select Range of Accounts			Enter range of rows to delete		
Lowest Account	<input type="text"/>		Lowest Row no.	<input type="text"/>	DELETE RANGE
Highest Account	<input type="text"/>		Highest Row no.	<input type="text"/>	

How do I add multiple or individual rows in the CPID transactions tab?

Within the CPID transactions tab, you can add multiple or single rows using the functionality shown below.

If the current input method selected is "Bulk CPID Input" you cannot edit this sheet - to edit this sheet you have to click the "Switch Method" button.

"Switch Method" can be used as often as required. Please note data will be incremented each time you "Refresh CPID Transactions" from the "Bulk CPID Input" tab.

Add Rows Select Account Enter no. of rows **ADD ROWS**

Note that to amend and edit the CPID transactions tab, you must select the switch method and not the bulk CPID method. You can also copy / paste directly into the tab from a spreadsheet or use the bulk CPID tab to enter multiple rows.

How do I clear hard and soft validations on the CPID transactions tab?

Hard validations will need clearing and explanations provided for both hard and soft validations before you can submit the DCT. In some instances, hard validations can become soft validations if an explanation is provided – all explanations need to be provided in the “User comment” column of the CPIDs transactions tab.

Row No	Account Code	Account Code Description	MR	Trial Balance	Total External Balance	User Comment
1	18414000	CA - LIQUID DEPOSITS	11	0	0	
1	18511000	CA - DEPOSITS	11	0	0	
1	18521000	CA - DERIVATIVES	11	0	0	
1	18531000	CA - SHARES AND EQUITY TYPE INV	11	0	0	

Examples of common errors are covered in Section 6.3.3.

When you have cleared the errors – click on validate.

The screenshot shows the IBM Planning Analytics interface. At the top, it says "IBM Planning Analytics with Watson™" and "Central Government". The user is identified as "Andrew Mackay (STG)". The navigation bar includes tabs for "Validations", "Bulk CPID Input", "CPID Transactions", "1. SoCI", "2. SoFP", "3. Restatement Analysis", "4. Tax", "5. Operating Income", "6. Operating Cost", and "7.". Below the navigation bar, there is a section with the text "Select 'Switch Method' of Input for CPID Data to switch to 'CPID Transaction'" and "Current input method: Bulk CPID Input". There are two green buttons: "SWITCH METHOD" and "VALIDATE".

You should then check on the Homepage the number of errors remaining (published):

step 2 - Publish CPID transactions

Publish the CPID transaction to matches report.
(Matches will now be visible to counterparties)

PUBLISH

Hard Validations 0	Soft Validations 0
------------------------------	------------------------------

The validations for this step are detailed on the CPID Transactions tab as 'Publish' validation errors.

[NGA 2020-21: match relationships](#)

[NGA 2020-21: counter-party identifier \(CPID\) list](#)

You should also check the total validation errors before submitting (also on the Homepage) – these include CPID transaction errors as well as other DCT validation errors which are shown on the validation report.

SUBMIT FOR CYCLE 1

REFRESH VALIDATIONS

Hard Validations 2	Soft Validations 5	Submission Deadline 28-06-2022
------------------------------	------------------------------	--

The validations for this step are a total of those shown on the Validation Report tab and those detailed on the CPID Transactions tab as 'Submission' validation errors.

steps for Cycle 2

Using the TB input method for my DCT, how do I clear SCOA not valid errors?

You will need to use valid SCOA’s – these are listed on the WGA website. Note you can only use SCOA’s that map across to the DCT. These codes can also be found in the DCT mapping tool on the WGA website.

I have used the TB input method, but the TB hasn’t posted?

You will need to validate the trial balance and then populate the DCT to post the figures. These steps are carried out on the TB input tab of the Trial Balance Input section of OSCAR. The trial balance will only post if there are no validation errors.

IBM Planning Analytics with Watson™ | Trial Balance Inp ... Government | Andrew Mackay (STG)

Homepage | SCOA Mapping | **Trial Balance Input** | Trial Balance Posted Amount | Available SCOA

4.1. Enter number of rows required for your Trial Balance and select "Create Trial Balance Rows" button. **CREATE TRIAL BALANCE ROWS**
 Number of rows created: 50

4.2. Select "Clear Trial Balance" button if you would like to clear the current data from the input table. **CLEAR TRIAL BALANCE**

4.3. Then place your Trial Balance codes in column "Your Code" and the amount in column "Amount £". Ensure all Trial Balance codes used have been entered and mapped in the SCOA Mapping tab first.

Select "Validate Trial Balance" button to proceed. Check the status and correct any errors identified. Repeat steps 4 and 5 until status on step 5 is Green. After selecting "Validate Trial Balance", you can view the tab "Trial Balance Posted Amount" to check the amounts will be posted correctly and if a rounding adjustment has been made. **No validation errors** **VALIDATE TRIAL BALANCE**

Select "Populate Input" button to proceed. The values will then be populated into the proforma tabs in the Central Government workbook. Proceed to the Central Government workbook and check the pro forma tabs to ensure data has been populated as expected. Some tabs will require additional data to be entered manually. **POPULATE INPUT**

Amount £	Status	Status Comments / User Action	OSCAR Code	OSCAR Description
0				

I have completed my DCT but need to reload an updated TB via the TB input method, how do I do this?

You can reload an updated TB at any time of the process using the Trial Balance input section in OSCAR. Please note that the revised figures will completely overwrite the previous set of figures posted to the DCT and you will need to go through the DCT proforma tabs to check whether there are any errors. You should also check opening balances as errors can arise where your opening balance does not match the opening balances on OSCAR. These may need to be dealt with through the Restatements tab where opening balances can be restated.

To start trial balance workflow, please select the button below to be directed to the central government homepage and select 'Start' for your selected organisation. Then use the Trial Balance tabs above to load data and map to the input tabs. You can then go back to the Central Government tabs for editing.

CG HOMEPAGE

This is covered in Section 7.2.3 in detail.

How do I clear hard validation errors on the DCT?

You should refer to the validation report tab of the DCT. It is good practice to press the validate button to ensure you are looking at the current state of play.

OSCAR WGA – Local Government Guidance

Filter Failed Validations Only

Total No. of Failed Validations 7

Hard Validations	2	Hard validations must be resolved before submission to WGA
Soft Validations	5	Un-resolved soft validations must have a full Explanation added to them before submission to WGA

If you re-run the proforma validations any explanations in the 'User Explanation' column will remain- please ensure that these are kept up to date before you lock

Validation Code	Validation Category	Validation Type	Validation Description
899I0021	Internal Consistency	Soft	Staff numbers information must be filled in.
899M0001	Materiality	Soft	NIC contributions should be between 6% and 12% of gross wages. If they are not, could you please provide an explanation.
899N0129	Admin	Hard	All mandatory questions must be answered. Please check the box at the top of the sheet.
899N0130	Admin	Hard	All mandatory questions must be answered.

REFRESH **VALIDATE**

The number of hard validations is displayed, and these must be cleared prior to submitting the DCT data. These are also listed in the table below with an explanation for why validations have failed. The validations are also covered in more detail by clicking the validations tab and scrolling down for individual validation errors. Please note that the trial balance must balance before your DCT can be submitted. This will often be shown as a generic hard validation error and will clear when other hard validation errors have been cleared.

When you have cleared a hard validation error, you need to click on the validate button to refresh the errors and to see whether these have been cleared.

How do I clear soft validation errors on the DCT?

You should refer to the validation report tab of the DCT. It is good practice to press the validate button to ensure you are looking at the current state of play.

Filter Failed Validations Only

Total No. of Failed Validations 7

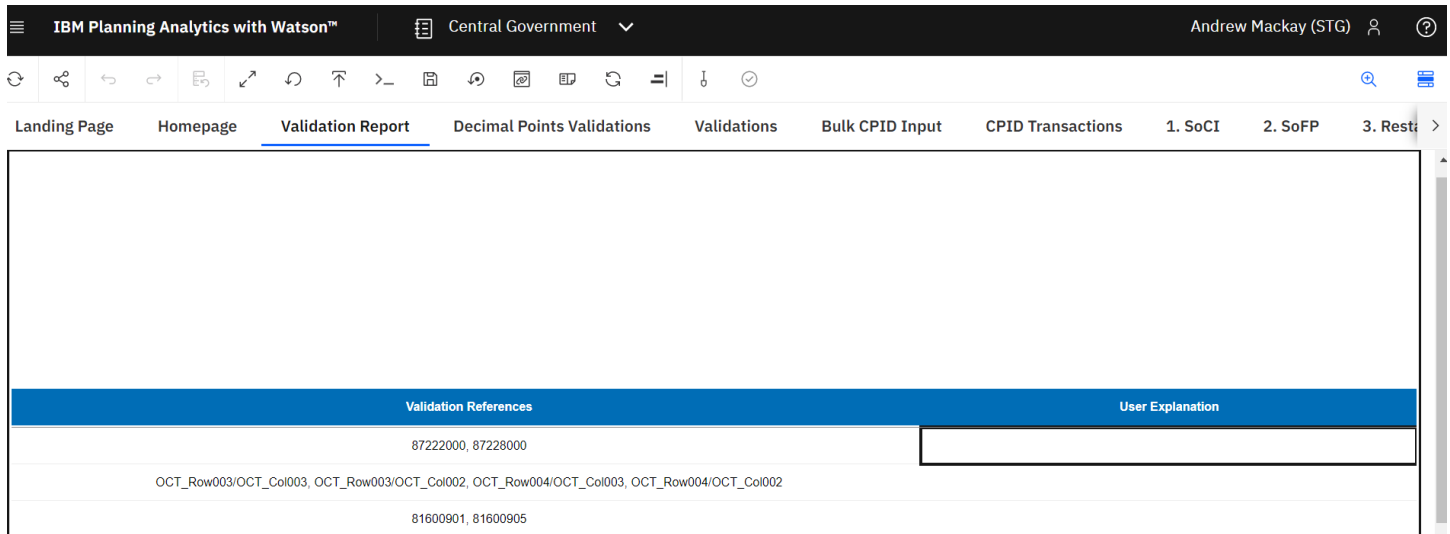

Hard Validations	2	Hard validations must be resolved before submission to WGA
Soft Validations	5	Un-resolved soft validations must have a full Explanation added to them before submission to WGA

If you re-run the proforma validations any explanations in the 'User Explanation' column will remain- please ensure that these are kept up to date before you lock

Validation Code	Validation Category	Validation Type	Validation Description
899I0021	Internal Consistency	Soft	Staff numbers information must be filled in.
899M0001	Materiality	Soft	NIC contributions should be between 6% and 12% of gross wages. If they are not, could you please provide an explanation.
899N0129	Admin	Hard	All mandatory questions must be answered. Please check the box at the top of the sheet.
899N0130	Admin	Hard	All mandatory questions must be answered.

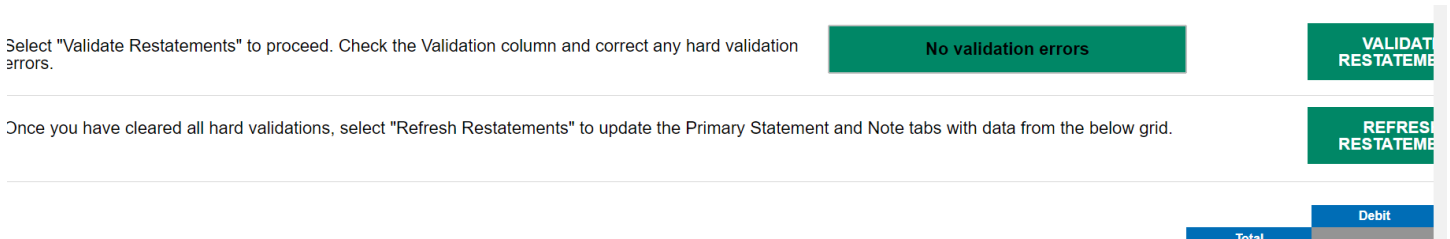

REFRESH **VALIDATE**

The number of soft validations is displayed and each of these must be given a user explanation, note – most soft validations will just be consistency checks. Again, details of the validations can be found on the validations tab, scrolling down to individual validations.

My restatements are not flowing through to the primary statements, what do I do?

You will need to populate your restatements into the primary statements tab. To do this you should check for any validation errors by clicking on the validate restatements button. No validation errors must be displayed. Then click on Refresh restatements to populate the primary statements.

How do I remove restatements from the restatements tab?

You can delete individual rows in the restatements tab. Then click on clear restatements (which removes everything from the primary statements tabs), followed by validate restatements (to check the validity of entries still there) followed by refresh restatements (which ensures that the remaining entries flow through to the primary statements tabs).

... cleared all hard validations, select "Refresh Restatements" to update the Primary Statement and Note tabs with data from the below grid. **REFRESH RESTATEMENTS**

Why can't I enter data into most of the cells on the Financial Instruments tab?

Most of the cells on the Financial Instruments are derived from other cells within the DCT (for example, Trade and Other Payables is populated from the Trade and Other Payables balance on that tab less any balances internal to WGA on the CPID transactions tab). The Financial instruments tab will only show balances external to WGA for disclosure purposes.

Most inputs on this tab comprise answering the mandatory questions and providing a further breakdown of balances by credit rating level etc.

I have cleared validations, but these have not been updated on the DCT, how do I update?

You will need to perform a master validate of the DCT. Go to the Homepage and click on the validate button and then check the number of validations on the Homepage and the validations report tab.

The CG03, CG04 and CG05 forms can be found on the WGA website – guidance for prepares. These can be downloaded and completed. Details of these forms are also included in Section 9.

How do I complete the administration section on the DCT?

It is mandatory to complete this section and you will not be able to submit your DCT until this is completed.

From the Landing page, navigate to the Homepage and scroll down to the bottom of the page.

Please complete the following details before locking for submission:

	Update value	Current value
Entity's Contact Name	Fred Bloggs	Fred Bloggs
Entity's Contact Telephone Number	01234 567890	
Entity's Contact E-mail Address		
Auditor's Name		
Auditor's Contact Name		
Auditor's Contact Telephone Number		
Auditor's Contact E-mail Address		
Link to published financial statements		

UPDATE

Populate the left-hand side (Update value) with all your details. These will be highlighted in green prior to update. Click on update and the values will be updated and populated under current value.

Are you sure you want to execute the process?

UPDATE

What documentation is available on the WGA website?

The following documents are published on our website:

- Data Collection Tool Central Government User Guidance
- Data Collection Tool Local Government User Guidance
- Counter party identifier (CPID) List (useful for checking CPID codes for agreeing balances)
- List of Standard Chart of Accounts (SCOAs) (useful for checking account codes and their validity)
- Standard chart of accounts to data collection tool cell reference document (useful for resolving DCT validation cell errors and checking the account code mapping to DCT cells)
- Match relationships list (useful in the balance agreement process)
- CG02 template for agreement of balances
- CG03 template (for minor body status)

- CG04 Management checklists (Central and Local Government)
- CG05 template for notification of audit completion

I have completed my DCT submission, what documentation do I need to complete?

Details of the forms required to be submitted are covered in Section 9. Entities should also forward a final copy of the Audit Report to their auditors, together with a list of adjusted and unadjusted errors (on the CG-05 form).

2 Roles and Responsibilities

The key deliverables for local government organisations are the DCT, and the resulting entry of statement of accounts and counterparty data onto OSCAR.

Other forms which may need to be completed to support the completion of the DCT are:

- **CG-03 – Confirmation of Minor Body status**
- **CG-04 – Management Review Checklist**
- **CG-05 – Notification of Audit Completion (only for entities above the audit threshold)**

Links to these forms can be found on the Local Government '**Homepage**' for OSCAR. These forms are also available on the HM Treasury WGA website:

<https://www.gov.uk/government/collections/whole-of-government-accounts>

For additional guidance on LG forms, please see section 9 in this document.

The Consolidation Officer is the person who signs the Resource Accounts and the final WGA return. This Consolidation Officer will normally be the Accounting Officer or Financial Controller.

2.1 Requesting access to OSCAR

2.1.1 Local Government

To submit a request to become an OSCAR user, you must complete a new user form available on [GOV.UK](#) and send through the completed form to the WGAOSCAR@hmtreasury.gov.uk.

Once the WGA team has confirmed your request has been accepted, you should receive an activation email from noreply@okta.com shortly after this to set up your OSCAR account.

You can find further details on the OSCAR User Guide at:

<https://www.gov.uk/government/collections/the-online-system-for-central-accounting-and-reporting-oscar-tool>.

For clarification purposes, User Authorisers (UAs) are nominated users who are authorised to add new users, amend existing user access, and remove users from the OSCAR all system.

3 Accessing OSCAR

3.1 Brief description

This section explains how to obtain access to the OSCAR system and navigate to the WGA area.

3.2 Activities

The activities to carry out this step are as follows:

- Log in page
- Navigating to WGA.

3.2.1 Log in page

After you have successfully created an account (<https://www.gov.uk/government/publications/the-online-system-for-central-accounting-and-reporting-oscar-user-guide>), you will be able to access the login page (you can also do so by using the link provided in the 'Welcome to OSCAR' email).

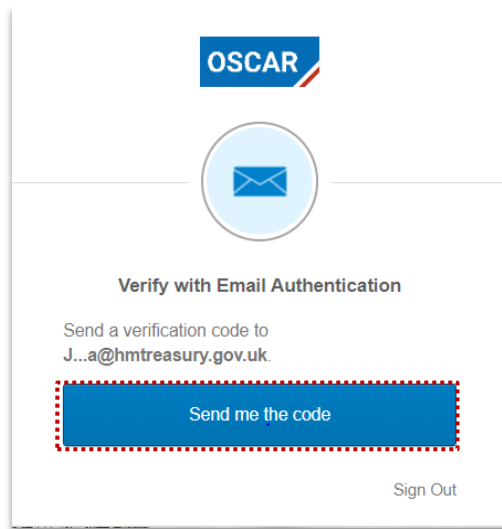

In the login page, you will find 'Email authentication,' with your email address partly masked. Email authentication provides an additional layer of information security and will be required every time you log into OSCAR. The authentication process includes three steps:

- Generate a single-use authentication code.
- Retrieve the code from your inbox; and
- Enter the code in the login page.

To log into OSCAR, use the link <https://oscar.hmt.gov.uk> and you will arrive at the log in page to enter your username and password:

To generate the single-use authentication code click on ‘**Send me the code**’ in the Email Authentication Form.

Once done, an email will be sent to your inbox, with subject ‘One-time OSCAR verification code.’ In the email you will find a code, as shown in the example below.

IMPORTANT:

Your code might arrive in your Junk/Spam inbox, please check these folders for email from OKTA

In the OSCAR Email Authentication Form, you will find an empty field titled '**Verification code.**' To access the system, you will need to copy the verification code from the email, paste it into the field (or type it in manually) and click on the blue '**Verify**' button.

OSCAR

Verify with Email Authentication

A verification code was sent to J...a@hmtreasury.gov.uk. Check your email and enter the code below.

Haven't received an email? [Send again](#)

Verification code

227545

Verify

[Sign Out](#)

3.2.2 Navigating to WGA

Once you have successfully logged in using your credentials you will be able to navigate to the WGA area by the following steps.

In the OSCAR landing page, you will find two options:

- | | |
|---------------------|---|
| <i>Enter data</i> | This directs users to the data entry pages |
| <i>View Reports</i> | This directs users to the OSCAR reporting interface |

Click the '**Enter Data**' tile to proceed to the area that contains access to all the processes required for data submission (including WGA).

After clicking on the **'Enter Data'** tile, you will reach a screen titled "IBM Planning Analytics". This is where you will find folders which relate to different processes. To proceed to the WGA area, click 'Reports and Analysis' followed by **'WGA'**.

3.3 Next steps

More detail on what these books are can be found below:

- Local Government Book – Section 7 in this guidance
- Matches Analysis Tool – section 6.2.4
- CG Forms – section 9 Annex B.

4 WGA on OSCAR

4.1 Brief description

Data collection for the Whole of Government Accounts return has been organised into ‘books’ for data providers to enter. This section will outline the ‘books’ and activities which can be completed in each. Please note that the screenshots show 2019-20 but equally apply to 2020-21.

4.2 Activities

The activities to carry out this step are as follows:

- Introduction to WGA books
- Overview of the WGA process.

4.2.1 Introduction to WGA books

There are several WGA books where you can perform several different tasks:

Reports and Analysis

Local Government *Entry and submission of Local Government financial information*

Matches Analysis Tool *Dynamic table to view published counter party transactions*

4.2.2 Overview of the WGA process

Below diagram shows the steps involved in the WGA submission process:

Start	This step is to begin the input process
Publish CPID transactions	Users can enter counterparty transactions and publish at any point of the input process before submission
Lock submission for review/audit acceptance	Above audit threshold: This indicates to the WGA team input is ready for audit acceptance
	Below audit threshold: Select once you have completed input and progress to Cycle 1 submission step
Submit and close for Cycle 1	Above audit threshold: Submit to finalise Cycle 1 data and commence the audit process
	Below audit threshold: Review data and submit for Cycle 1
Reopen for Cycle 2 changes	Above audit threshold: Select reopen to enter any audit revisions
	Below audit threshold: Select reopen for any Cycle 2 changes
Lock for Cycle 2	Above audit threshold: Select to lock the submission and generate a final pack for audit completion
	Below audit threshold: Select once you have completed any changes and progress to Cycle 2 submission step
Submit to finalise Cycle 2 and complete WGA Return	Above audit threshold: Once the audit has completed and changes agreed and processed, submit to finalise the WGA return
	Below audit threshold: Review data and submit to finalise the WGA return

4.2.3 Historic DCT's

There is now the facility on OSCAR to view both 2019-20 and 2020-21 DCT's alongside each other by toggling between the two financial years. These can be accessed as follows by selecting "Data Collection Historic" and then "Local Government Historic" or "Central Government Historic" sets of books as follows (example shows a central government organisation but a local government organisation or Public Corporation can be selected):

3. Filter for user to choose cycle

4.3 Next Steps

You will be able to select the correct book based on what action you want to perform and understand the collection cycles. Also, please note that you need to reselect all the options above for the data to refresh and show correctly.

5 Step: Data entry features

5.1 Brief description

This section describes the steps for data providers submitting project data to the OSCAR system.

The input screen is the focal point to the WGA book as it allows data providers to enter data for the current year, forecast data, and view historical data once this has been migrated to the new system.

5.2 Activities

The activities to carry out this step are as follows:

- Select the organisation
- Navigating tabs
- Entering data
- Saving and refreshing data
- Copy / paste input view
- Exporting data.

5.2.1 Selecting the organisation

Click on Data collection within Data entry to access the Local Government set of books for entering DCT data.

Selecting Local Government takes you to the landing page as follows:

The screenshot shows the OSCAR Whole of Government Accounts interface. At the top, there is a navigation bar with the IBM Planning Analytics with Watson logo, the current entity 'Local Government', and the user name 'Andrew Mackay (STG)'. Below the navigation bar is a breadcrumb trail: Landing Page, Homepage, Validation Report, Decimal Points Validation, Validations, Bulk CPID Input, CPID Transactions, A. CI&E, and B. I&E NCS Subjective. The main content area features the OSCAR logo and the title 'Whole of Government Accounts'. Under the heading 'Entity Selection', there is a dropdown menu showing 'organisation_wga Bath & North East Somerset Council'. Below this, the section 'Navigating the Local Government book' contains a welcome message and instructions on how to use the landing page and navigate between tabs.

Entity Selection

organisation_wga
Bath & North East Somerset Council

Navigating the Local Government book

Welcome to the Whole of Government Accounts Data Collection Tool for Local Government entities.
This is a new landing page that will take you directly into your DCT input tabs to do your submission. This will facilitate speedier navigation within your DCT.
 This landing page will help you navigate the different tabs that are available at the top of the screen.
Note: the Homepage is not required to be opened unless you are wanting to start your submission or change the workflow of your entity. In all other instances, please navigate directly to the tab you wish to work on.
 - Homepage: this tab will allow the entity to start their submission or move through the workflow.

5.2.2 Navigating tabs

The below screenshot shows the areas presented as tabs along the top of each page and are accessible from any area.

At the top of each screen, you are presented with tabs which lists activities which can be performed as shown below and you scroll along to display additional tabs using the forward and back buttons:

The screenshot shows the navigation tabs at the top of the page. The tabs are: Landing Page, Homepage, Validation Report, Decimal Points Validation, Validations, Bulk CPID Input, CPID Transactions, A. CI&E, and B. I&E NCS Subjective. The 'Landing Page' tab is currently selected and highlighted.

You can navigate from tab to tab by simply clicking on a tab, scrolling to the relevant tab.

The current tab will be highlighted as blue underlined, while hovering over a tab will highlight the tab as shown below.

5.2.3 Entering data

When you enter data and move to a different cell, the recent inputs will turn green. This is to differentiate between new data entry and data which has already been committed to the database. When you 'Save' or 'Refresh' the page, entered data will turn to black and be saved into the proforma.

IMPORTANT:

Please note negative numbers are to be entered with a minus sign (-). Using brackets to indicate negatives e.g. (1,000) will return an error.

Please be mindful of this when copying and pasting from your own workbook.

In the proforma templates different colour of cells have different functionality:

1. *White cells* - allow data input and will be saved into the database when you click 'Save' or 'Refresh'
2. *Light grey cells* – these cells represent calculated cells, prior year data, or pull data from other proforma tabs e.g., restatement data. You may be able to enter data into these cells, however when you click 'Save' or 'Refresh', entered data disappear and will not save into the database.
3. *Dark grey cells* – these are not required for data entry. You may be able to enter data into these cells, however when you click 'Save' or 'Refresh', entered data disappear and will not save into the database.

	Development Expenditure £'000	Patents £'000	Information Technology £'000	Other software & software licences £'000	Goodwill £'000
Intangible Assets Cost					
Carried forward at 31 March (as shown in last year's accounts)	6,288	0	6,170	14,739	1,772
Adjustment	0	0	0	0	0
Restated balance	6,288	0	6,170	14,739	1,772
Balance brought forward at 1 April	0	0	0	0	0
Additions	0	0	0	0	0
Donations	0	0	0	0	0
Impairment losses	0	0	0	0	0
Impairment reversal	0	0	0	0	0
Disposals	0	0	0	0	0
Revaluations	0	0	0	0	0
Reclassifications	0	0	0	0	0
Transfers	0	0	0	0	0
As at 31 March 2020	0	0	0	0	0

IMPORTANT:

You can enter data into the dark grey cells, and it will impact on any subtotals/totals that are in this sheet. However, the data will not be saved to the database (and therefore will not count as part of your return), it may cause validations to fail and will disappear if you refresh the tab.

5.2.4 Saving and refreshing data

Once you have entered data, saving, or refreshing the page will turn the text black and commit the data to the database.

Clicking the 'Save' button will commit data to the database per the screenshot below:

CI&E Account: Net Operating Expenditure and Surplus/Deficit for the year
As at 31/03/2020

Spreadsheet View: REBUILD VIEW SAVE

	£'000	Comment
Net cost of services	0	
Corporate income and expenditure		
Provisions expense (any amount not in NCS)	0	
Trading operation results - Income	0	
Trading operation results - Expense	0	
Other corporate income	0	
Other corporate expense	0	
(Following Group Accounts Only)		
[SLG ONLY] Police, Fire, SESTRAN & Strathclyde Pship for Transport	0	

You can also click on the refresh button indicated below which will also commit the data to the database and act as a saving function.

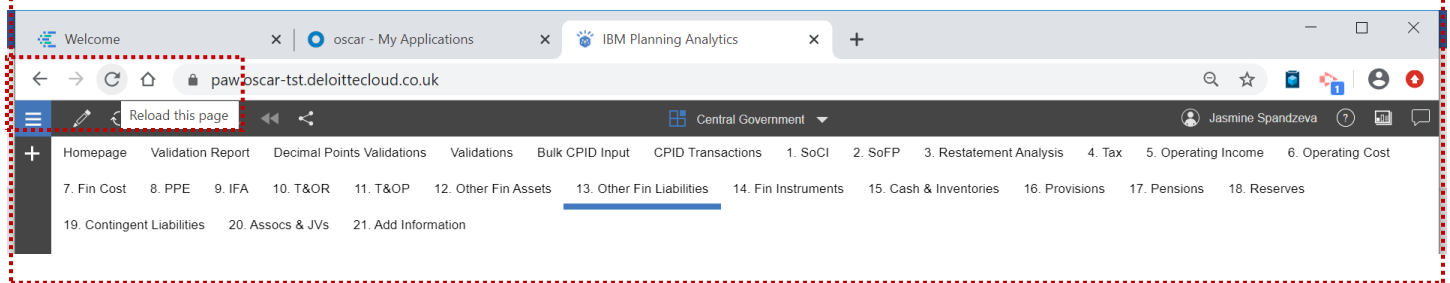

Refresh your data

Please note that if you do not 'Save' or 'Refresh' your tab and navigate away, or close the web page, entered data will be lost.

IMPORTANT:

Do Not Use the Refresh button on your web browser but the Refresh/Save buttons on your worksheet.

5.2.5 Copy / paste input view

Some proforma tabs which have multiple tables can select a copy and paste spreadsheet view. This will allow you to easily copy and paste blocks of data from your own workbook directly into OSCAR.

The relevant tabs will have the below drop-down menu, where you can select Copy/Paste and then 'Rebuild view' to change the sheet view.

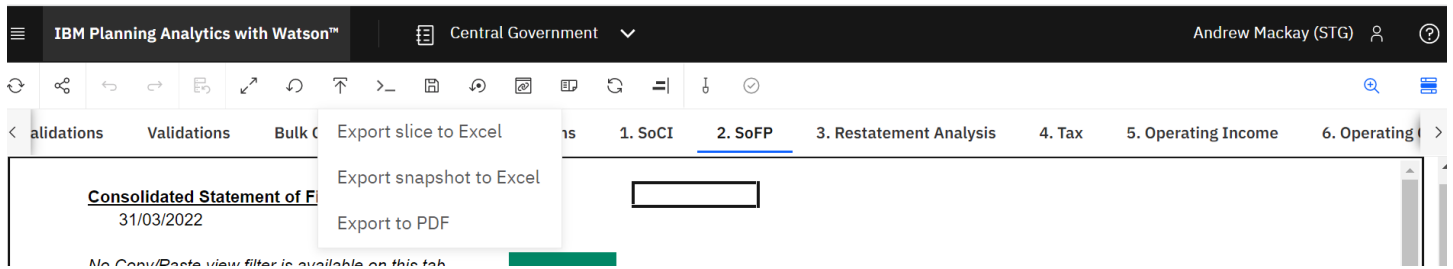

You will find guidance on enabling copy and paste here:

<https://www.gov.uk/government/publications/the-online-system-for-central-accounting-and-reporting-oscar-user-guide>

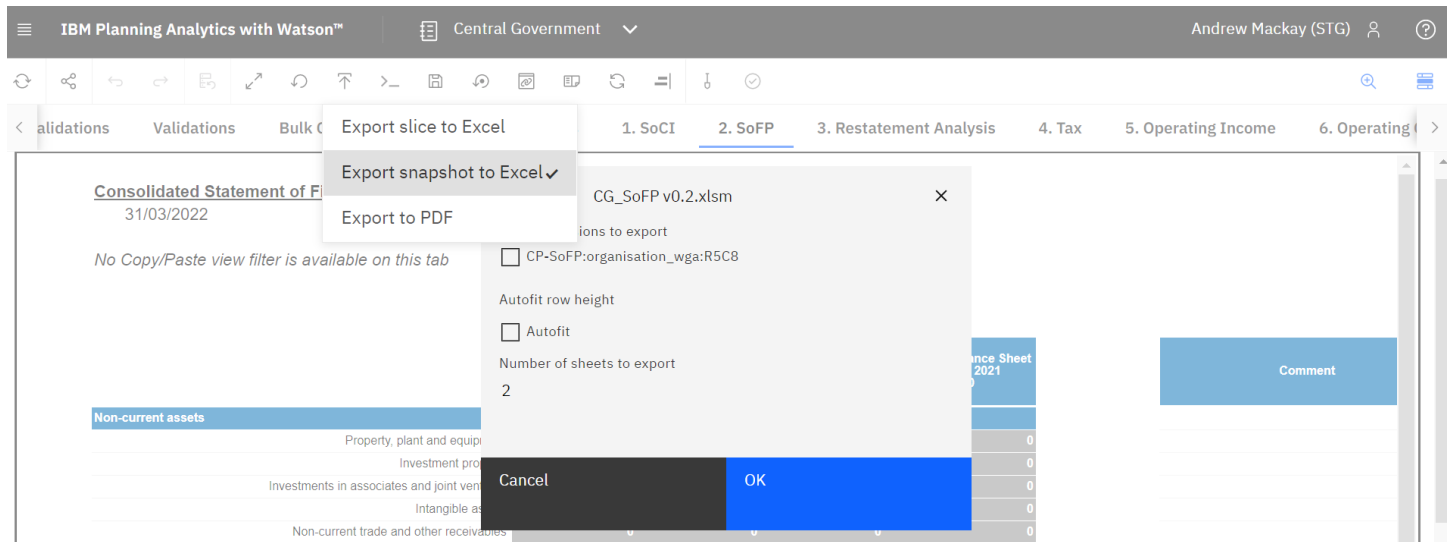

5.2.6 Exporting data

Users can export the current proforma tab into an excel document.

Click on anywhere within the tab to reveal the full toolbar as follows and select export:

Click on export snapshot to excel and follow the instructions to download the excel file to your desktop.

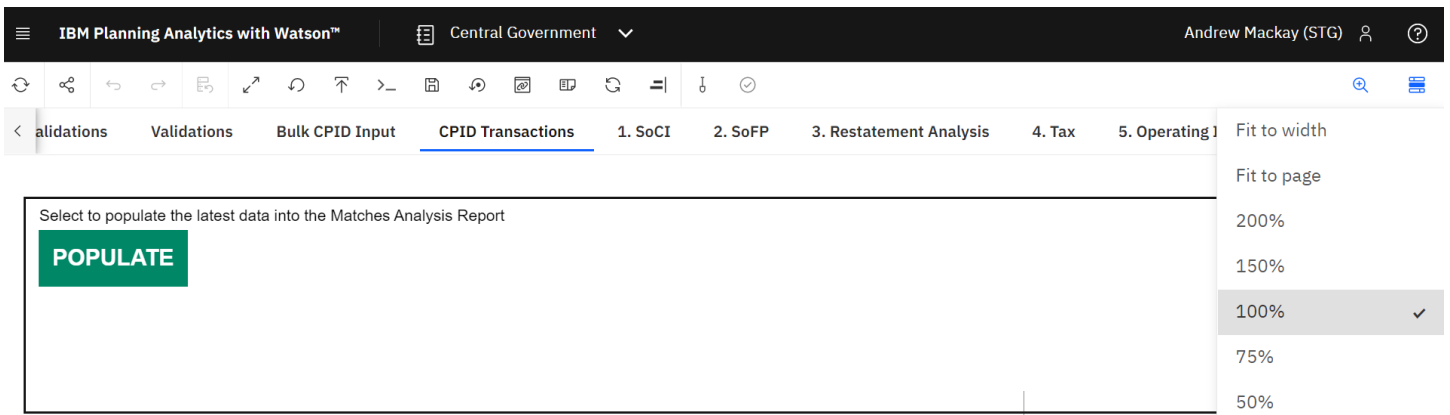

Please note that no formulas will be downloaded when you export the document.

5.2.7 Zoom Function

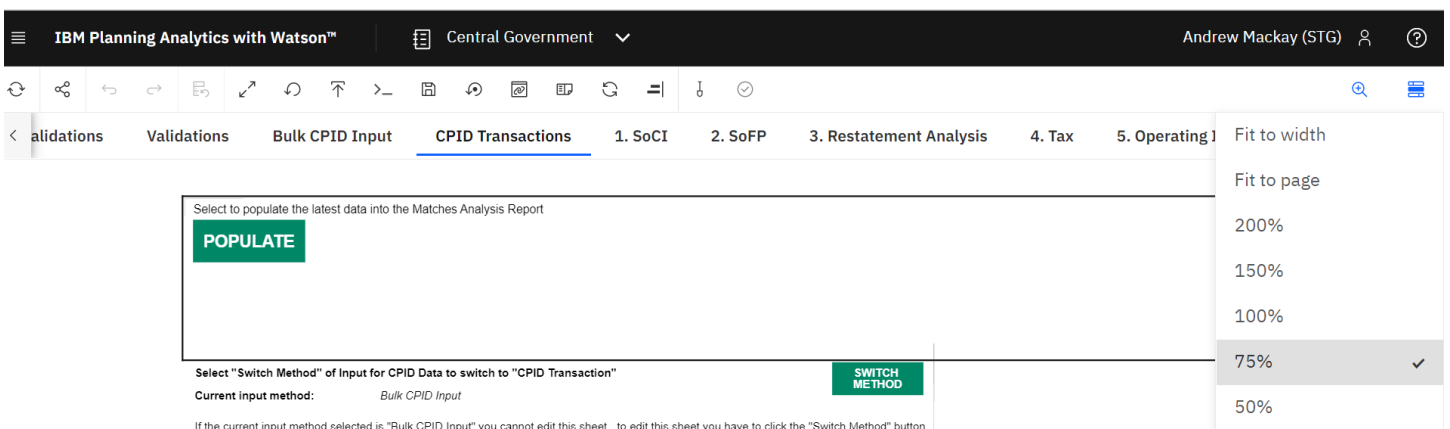

You can use the zoom functionality to be able to zoom in / out to view data within the tabs on the screen. There is a zoom button to the far right of the toolbar as follows:

Clicking on this will give you options to zoom in / out. Select the relevant option you require.

This is especially useful to display data in the CPID transactions tab. Click on 75% as follows:

Scroll down the screen to view transactions as follows:

OSCAR WGA – Local Government Guidance

5.3 Next steps

You will now be aware of the features found within the data input books to navigate, enter data effectively, save, and export data.

6 Step: Counter party transactions

6.1 Brief description

Once you have clicked 'Start' on the Homepage you will be able to input counter party data. There are two options for entering counterparty transactions, either via the CPID transactions method, or bulk CPID input method. If you have few counterparty transactions you may want to use 'CPID transactions,' else if you have a significant amount of counterparty transactions you may want to use 'Bulk CPID input.'

6.2 Mismatches - overview

Mismatches occur when there are differences between what you are pointing to another WGA organisation and what the corresponding organisation is pointing back

This chapter will cover some broad categories of mismatch. It should be noted that there are many more individual reasons why data may not match which would require investigation on a case-by-case basis.

A mismatch analysis tool, or the mismatch report generated using this tool, can be made available to you on request. This will show your mismatches with other entities based on the current dataset available in OSCAR on that date. Alternatively, you may be sent a mismatch report by the WGA team when a mismatch is being investigated. If this is before Cycle 2, then data can be amended within the DCT to resolve the mismatch. If the involved party's data has already been submitted, this may require a manual journal by the WGA team (therefore we would want to pick up on mismatches to prevent or correct them at an early stage).

Difference in amounts

This mismatch type occurs when the entities record the transaction to each other at differing amounts.

The balance agreement process should minimise the occasions when this occurs within central government for significant balances and ensure that evidence is recorded via the CG forms when significant mismatches do still exist.

Difference in counterparty allocation

One counterparty may have omitted to point to the other counterparty. This can be corrected within that parties CPID transactions sheet if picked up before the Cycle 2 stage.

This can also occur where there is confusion as to the correct counterparty due to an agency relationship. The resolution to such an issue would need to ensure that all balances internal to WGA are eliminated. Ideally the solution is agreed between all the parties to the transaction so that each step in the transaction is recorded in a way that aligns.

If one party reports a balance of say £900k, and the other doesn't due to materiality, the other party should report an equal amount in a similar MR to eliminate the balances.

Error in positive/negative signage

If you are allocating part of a negative signage amount to an entity on the CPID transactions sheet, you will need to ensure your allocation uses negative signage. If you use the opposite signage to what is expected, and the other party uses the correct signage, this causes a mismatch of double the value of the balance.

Please be alert to the warning messages within the CPID transactions tab which appear if unexpected signage is used.

Different match relationships

Agreement on use of match relationships forms part of the balance agreement process, so we would expect that occurrence of this issue on significant balances within central government would be limited.

The issue would occur when counterparties are classifying the balance differently, for instance one party treating an amount as a loan, while the other party records a trade receivable. The two sides of the transaction would then fall into different match relationships (which are designed to group together similar transaction types) and this causes a mismatch.

Resolution of this issue would require agreement of how the balance should be treated and corresponding amendment of the data in one parties DCT.

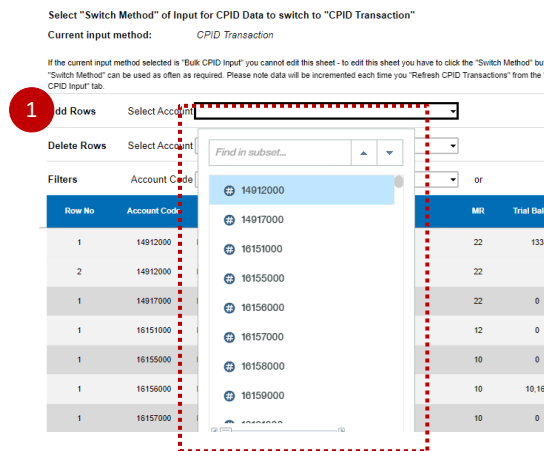

6.3 Activities

- CPID transactions
- Bulk CPID input
- Counterparty validation errors
- Matches analysis.

6.3.1 CPID transactions

If you have chosen to enter your Counterparty Transactions via CPID Transaction method, please follow the steps below:

1. Under 'Add Rows', select the account code that you wish to enter CPID transactions

2. Enter the number of rows / transactions for the selected account code and select 'Add rows'

Select "Switch Method" of Input for CPID Data to switch to "CPID Transaction"

Current input method: *CPID Transaction*

If the current input method selected is "Bulk CPID Input" you cannot edit this sheet - to edit this sheet you have to click the "Switch Method" button. "Switch Method" can be used as often as required. Please note data will be incremented each time you "Refresh CPID Transactions" from the "Bulk CPID Input" tab.

Add Rows Select Account

SWITCH METHOD

Enter no. of rows

ADD ROWS

2

3. Under the Instigating Entity Code, enter in the organisation codes
4. After selecting the instigating entity, select the organisation ID for the Counter party Code
5. When you have the list of instigating and counterparty organisations you can enter the values of the transactions between the organisations that make up the TB amount, in the CPID Amount column

Total External Balance	Instigating Entity Code	Counter Party Code	CPID Amount	Instigating Entity Description	Counter Party Description	Total CPID Balance
-4,744	CAB010	BIS084	100	Cabinet Office	Dept. for Business, Energy & Industrial Strategy	4,877
			4,777			
0			0			0
0	3	4	5			0
0			0			0
10,163			0			0
			0			
			0			

6. Mach Relationship Code will be presented in the 'MR' column
7. You can make comments in the 'User Comments' column, if needed

MR	Trial Balance	User Comment	Auditor Comment	CPID Input Latest User and Timestamp
22	0			
22	0			
12	0			
10	0	7		
10	0			
10	0			
11	0			
10	0			

8. Select validate when you have completed your data entry
9. Your validation errors will appear in the 'Publish' and 'Submission' columns.

VALIDATE	8	Hard Validation Errors:	Publish	281	9	Submission	281
		Soft Validation Errors:		0			0

Please make sure that all 'Hard Validation Errors' are resolved and for all 'Soft Validation Errors', comments are provided. You will not be able to Publish counter party transaction if there are Hard Validation Errors.

Publish validation errors prevent you from being able to share CPID transactions (e.g., incorrect CPID code) for other organisations to view, while submission validation errors prevent you from progressing in the workflow steps (e.g., entering a negative where a positive value is expected).

Please note:

The total amount for the CPID transactions that make up the Trial Balance Account Balance will be automatically populated on the top row of the data set for that transaction. This will allow you to compare the total value of your CPID transactions, particularly if there are numerous transactions for that CPID, against the Trial Balance Value.

6.3.2 Bulk CPID input

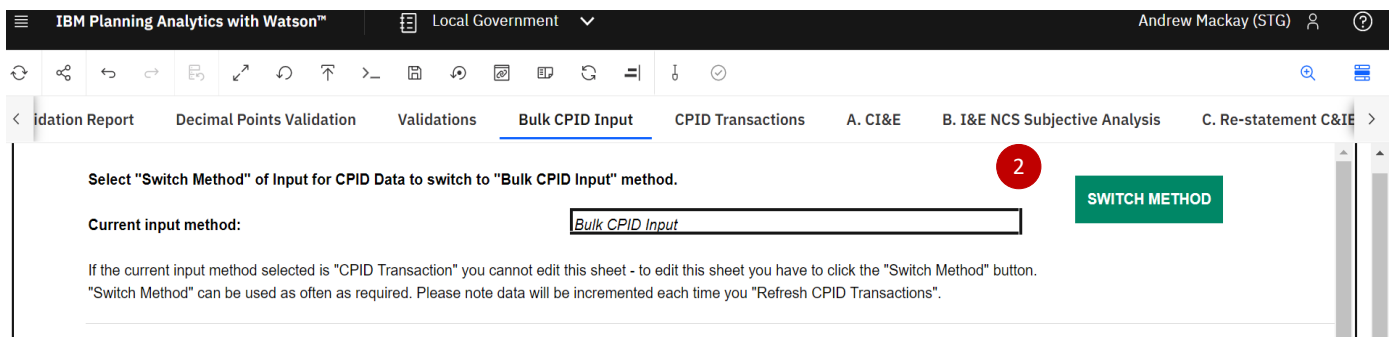

If you do have multiple CPID transactions to enter at once, you can use 'Bulk CPID Input' method.

1. If there is already data in this worksheet, that you would like to clear, select 'Clear data'

Select "Clear Data" to remove all data in the input grid.

2. Please make sure your current input method is 'Bulk CPID Input' before entering data on this worksheet

3. Select the number of Counter Party Transactions and select 'Add CPID Rows'

Enter number of rows required for your CPID Input and select "Add CPID Rows" button. Please enter a positive whole number between 1-3000.

50

ADD CPID ROWS

- Once you have entered (or used copy and paste) the "Account Code", "Instigating Entity Code", "Counter Party Code", "CPID Amount £000s" and "User Comment (Optional)" if desired, for each of your lines then press "Validate CPID Input" to validate data

No validation errors

VALIDATE CPID INPUT

Account Code	Instigating Entity Code	Counter Party Code	CPID Amount £000s	Instigating Entity Description	Counter Party Description	Description	Status	Complete
14912000	BIS004	CPS016	350	Dept. for Business, Energy & Industrial Strategy	The Crown Prosecution Service	IA - EMISSIONS ALLOWANCES - COST - ADDITIONS	G	Complete

- Any Validation errors will appear in this section'
- Once you have completed and validated your 'CPID INPUT,' select 'Refresh CPID Transactions.' Please note data entered and refreshed will also appear in the 'CPID Transactions' worksheet.

REFRESH CPID TRANSACTIONS

6.3.3 Counterparty validation errors

Please be aware of counterparty validation errors listed below which will prevent your ability to 'Publish' counterparty transaction:

- Incomplete data fields
- Account code does not exist
- Instigating Entity does not exist
- Counter Party does not exist
- The column CPID Amount £000 contains a decimal place. Please remove the decimal place
- This SCOA must be 100% Allocated
- If the TB amount is zero, there should be no CPID amount
- Please delete the Instigator or CPID from the row
- Please delete the Instigator/CPID as there is no CPID value
- Invalid CPID Entity in column Counter Party Code
- Invalid Instigator Entity. The counter party is in your group
- Your chosen CPID is within your Instigator group
- Incomplete CPID entities provided

- The Counterparty code has been entered more than once for the same SCOA. Please aggregate the amounts and report as one line entry.

Please ensure these issues are resolved to allow you to 'Publish' your counterparty transactions.

6.3.4 Matches Analysis Tool

You are able to run the Matches Analysis tool where you are able to view other organisations published counterparty transactions. This can be run at any time and is dependant on organisations inputting and publishing counterparty transactions via the Homepage.

This is one of the most significant changes to OSCAR compared to the previous way of collecting data. The ability to create a matches report and review mismatches before you make your cycle 1 submission should reduce the number of adjustments needed between cycle 1 and cycle 2. For local government users we recommend focussing on mismatches between local government bodies, as there will be timing and accounting treatment differences between Central Government and local government.

To navigate to the Matches Analysis Tool, return to the WGA landing page and select Matches Analysis Tool as highlighted below:

This will open the below tab with multiple filters, which will generate a report of counterparty transactions based on selections to identify counterparty mismatches:

1. *MR* – filter for specific match relationships
2. *Account filter* – for specific SCOA codes
3. *Organisaton* – filter for Organisations
4. *Org LG/CG* – filter for Local or Central Government bodies
5. *Org Detailed Type* – filter for a specific organisation types within the organisational hierachy e.g. Departmental Group, or England Central government
6. *CPID* – filter for a specific counterparty

7. *CPID LG/CG* – filter for the counterparty Local or Central Government bodies
8. *CPID Detailed type* – filter for a counterparty organisational type within the organisational hierachy e.g. Departmental Group, or England Central government
9. You can select the number of transactions to display in the drop-down list and select the ‘Refresh’ button to update the view of transactions.

The Matches tool is flexible enough to allow you to select up to five sets of filters based on selections for specific matches to view:

MR	Account	Organisation	Org LG/CG	Org Detailed Type	CPID	CPID LG/CG	CPID Detailed Type	Display TOP
All	Total SCOA ▾	HMT087 ▾	All	All	Select an existing CPID ▾	All	All	10
All	Total SCOA ▾	Select an existing organisation ▾	All	All	Select an existing CPID ▾	All	All	Mismatches by Absolute Value
All	Total SCOA ▾	Select an existing organisation ▾	All	All	Select an existing CPID ▾	All	All	REFRESH
All	Total SCOA ▾	Select an existing organisation ▾	All	All	Select an existing CPID ▾	All	All	

MR	SCOA	Organisation	CPID	Instigated	Received	Mismatch	Absolute Value	CPID Status

7 Step: Local Government Data Entry

7.1 Brief description

In this section you will be able to enter and submit your financial data.

7.2 Activities

- Selecting your organisation and starting your submission
- Homepage and Submission cycles
- Proformas
- Restatements
- Validations.

7.2.1 Selecting your organisation and starting your submission

By selecting Central Government Book you will be presented with the following ‘Homepage’ screen, which is the start point for the data collection, following access to the landing page, navigate to the Homepage screen.

You will be able to select your organisation for which to submit data for in the Entity selection drop down box. Once selected here, the organisation will be applied to all other input tabs.

A summary of the workflow steps is also shown here for reference.

The screenshot displays the 'Homepage' screen of the IBM Planning Analytics with Watson™ Local Government interface. The navigation bar at the top includes tabs for 'Landing Page', 'Homepage', 'Validation Report', 'Decimal Points Validation', 'Validations', 'Bulk CPID Input', 'CPID Transactions', 'A. CI&E', and 'B. I&E NCS Subjective'. Below the navigation bar, there are buttons for 'LG PROFORMA GUIDANCE VIDEOS', 'OTHER GUIDANCE VIDEOS', and 'VALIDATE'. The 'Entity Selection' section shows a dropdown menu with 'organisation_wga Bath & North East Somerset Council' selected. The 'Return Information' section includes a 'Workflow Status' of 'Open' and a 'Workflow Description' table.

Workflow Step	Guidance
START submission	Firstly select if your organisation is above or below the audit thresh and is a major or minor body from the dropdown lists provided, then press 'Start' to commence DCT input.
SUBMIT CPID	Publish CPID transaction to matches report.

7.2.2 Homepage and submission cycles

Step 1 – start submission

To start inputting data, you will need to select:

- If your organisation is a Minor body Yes/No.
- If your organisation is above or below your audit threshold
- If you are below the minor bodies threshold, you will need to complete a CG03 form. OSCAR provides a link to this form.

You can then select the 'Start' button as indicated below to begin the submission.

Steps for Cycle 1

Step 1 - Start submission

Press 'Start' to commence DCT Input.

Is your organisation a minor body?

Select

Are you above or below the audit threshold?

Select

START

Please provide an alternate contact, this can be a line manager, colleague or senior member of the finance team. This will allow us to keep in touch if you move on or are not available.

Alternate Email

Current value

test1@email.com

Update value

UPDATE

[WGA 2018-19 form: CG-03 template for minor body exemption from completing WGA returns](#)

An alternative contact can be provided and saved in the form. You will find the OSCAR General Data Protection Regulation (GDPR) policy at <https://www.gov.uk/government/collections/the-online-system-for-central-accounting-and-reporting-oscar-tool>.

Step 2 – Publish CPID transactions

Once you have started the submission you are able to enter counterparty transactions in either the Bulk CPID Input or CPID Transaction input forms (Section 6.2.1 and 6.2.2).

When you have completed entering CPID data, click 'Publish' on the Homepage for all other counterparties to view.

This will enable organisations to work with other organisations to resolve counterparty balances at any point before Cycle 2 submission.

Step 2 - Publish CPID transactions

Publish the CPID transaction to matches report.
(Matches will now be visible to counterparties)

PUBLISH

[WGA 2018-19: match relationships](#)
[WGA 2018-19: counter-party identifier \(CPID\) list](#)
[WGA 2018-19 form: CG-01 template for agreeing balances with other WGA bodies](#)

Hard Validations 0	Soft Validations 0
------------------------------	------------------------------

The validations for this step are detailed on the CPID Transactions tab as 'Publish' validation errors.

IMPORTANT:

You will only be able to Publish if there are no Hard validation errors, therefore all these need to be resolved before publishing counterparty data.

There are links which allow you to download useful document such as the match relationships, list of counterparty identifiers, and the CG-templates.

Step 3 – Lock submission for review/audit acceptance

Once you have completed the proformas you can 'Lock submission' which will indicate the submission is ready for the auditors to review.

For organisations below audit threshold, you will be able to lock and progress to Cycle 1 submission

Step 3 - Lock submission for review/audit acceptance

If your organisation is below the audit threshold, select this step to proceed to cycle 1 submission. You will have a chance to review before submitting cycle 1.
For audited organisations, select this step to lock your submission for audit acceptance.

LOCK SUBMISSION **BACK TO STEP 2 PUBLISH CPID**

You can run the Audit report and share with auditors to ensure they are content to commence the audit. Instructions for running the Audit report can be found at **'7.3 Audit report'**.

Step 4 – Submit and close Cycle 1

To complete Cycle 1, click the 'Submit for Cycle 1' button which also allows the audit process to begin.

For organisations below audit threshold, you will be able to submit for Cycle 1 after locking the submission.

Please note you will not be able to submit if there are hard validation errors, and once submitted you will not be able to amend your submission until Cycle 2.

For organisations above the audit threshold, you can run the Audit report at this point. Instructions for running the Audit report can be found at **'7.3 Audit report'**.

Step 4 - Submit and close Cycle 1

If your return is below the audit threshold, select to submit the DCT for cycle 1.

For audited organisations, submit to finalise your cycle 1 WGA return and commence the audit process.

NOTE: Once submitted, you will not be able to move back to previous workflow step without Central WGA team's unlock request.

SUBMIT FOR CYCLE 1

Submission Deadline
01-01-2019

The validations for this step are a total of those shown on the Validation Report tab and those detailed on the CPID Transactions tab as 'Submission' validation errors.

Step 5 - Reopen for Cycle 2 changes

Following audit review, you can reopen the submission to make any changes agreed with your auditor to your data.

For organisations below audit threshold, you will be able to reopen your submission for Cycle 2 after you have submitted Cycle 1.

Steps for Cycle 2

Step 5 - Reopen for Cycle 2 changes

If your return is below the audit threshold, select to reopen DCT for cycle 2 changes.

For audited organisations, unlock to enter auditor agreed revisions.

REOPEN FOR CYCLE 2 CHANGES

Step 6 – Lock for Cycle 2

To complete Cycle 2, click the 'Lock for Cycle 2' button.

There are also links which download the *CG-04 management review checklist* and *CG-05 template for the notification of audit completion*.

For organisations below audit threshold, you will be able to submit for Cycle 2 after locking the submission.

Please note you will not be able to submit if there are hard validation errors.

Step 6 - Lock for Cycle 2

If you are above the audit threshold, please click to lock for cycle 2 and provide the updated auditor report to your auditors. If they confirm they are happy with the final numbers, please proceed to step 7. If not, please make changes as agreed with your auditors before proceeding to step 7.

If your return is below the audit threshold, select to lock for cycle 2. You will have the chance to review before submitting.

LOCK FOR CYCLE 2

Submission Deadline
01-04-2019

The validations for this step are a total of those shown on the Validation Report tab and those detailed on the CPID Transactions tab as 'Submission' validation errors.

[WGA 2018-19 form: CG-04 management review checklist for central government](#)

[WGA 2018-19 form: CG-05 template for the notification of audit completion](#)

You can also run the Audit report at this point. Instructions for running the Audit report can be found at ‘**7.3 Audit report**’.

Step 7 – Submit to finalise Cycle 2 and complete WGA return

To finalise your submission, enter the contact details for your organisation and auditor details before clicking the ‘Submit to finalise WGA return’ to complete the WGA process. **You should only lock the cycle 2 submission on completion of your audit, and you have received confirmation from the auditors.**

Please note once you have submitted the final return you will not be able to make any changes to data. If you do need to make changes please contact the central WGA team at LG_WGAreturns@hmtreasury.gov.uk.

There is no confirmation email following final submission. You can check whether you have submitted on your Homepage – workflow status should show this.

Step 7 - Submit to finalise Cycle 2 and complete WGA return

If your return is below the audit threshold, submit to finalise your WGA return.

For audited organisations, submit to finalise your WGA return once audit is completed and changes are agreed and processed.

NOTE: Once submitted, you will not be able to move back to previous workflow steps, your WGA return will be complete.

**SUBMIT TO FINALISE
WGA RETURN**

SAVE

7.2.3 Trial balance method

The Trial Balance functionality is used to automatically post your TB values to the Proformas depending on the mappings you provide.

To enter your Trial Balance, select your Trial Balance Input Book:

Reports and Analysis

Shared Personal Favorites Recents

Shared / WGA / Data Collection

Name	Location	Type	Last modified
Journal Report	Shared/WGA/Data Collection	Book	27/06/2022 17:07
Trial Balance...cal Government	Shared/WGA/Data Collection	Book	13/04/2022 12:02
Trial Balance...ral Government	Shared/WGA/Data Collection	Book	13/04/2022 09:02

Under the Trial Balance Input book, you will find the following tabs:

Trial Balance entry steps outlined:

To input your Trial Balance data, you must first map your TB codes to the OSCAR Standard Chart of Accounts (SCOA) codes.

Follow the steps as outlined in the SCOA Mapping Tab:

1. Select "Clear Mapping" button if you would like to clear the current mappings from the input table

2. Enter the number of accounts that you would like to map against available SCOA and select create mapping rows. The system supports 3,000 rows, to allow for mass population

OSCAR WGA – Local Government Guidance

- Input your Trial Balance codes in column "Your Code" and the OSCAR codes to be mapped in column "OSCAR Code." Reference to 'Your Code' is your organisational account code (sometimes referred to as 'Local Chart of Accounts (LCOA).') The system can accommodate account codes made up of letters, numbers, or combination of both. Once you have completed your mapping move to step 4. You can find a list of OSCAR Standard Chart of Accounts (SCOA) available for use in Trial Balance mapping on the "Available SCOA" tab. Some entities use the OSCAR chart of accounts for their own local account codes. You will still need to map these codes, but it should be as straightforward as having the same data in the 'your code' and 'OSCAR code' columns

3

Your Code	OSCAR Code	OSCAR Description	Status	Status Comments/User Action	
1	12345	11111000	PPE - LAND (OWNED) - COST - O/BAL	G	Passed
2					
3					

- Map each of your account codes against available SCOA and select 'Validate Mapping'

4

No validation errors

VALIDATE MAPPING

- Only account codes mapped to existing OSCAR SCOA'S can be validated. Validation checks exists on this page to ensure this. Please Validate and Submit mapping

If there are any incorrect or incomplete mappings, you will see that the 'Status' box will turn red. You will be notified of the lines that need to be corrected in the Status Comments box. You will also see that the individual mappings have their own status and comments, which will guide you in how to rectify any errors.

The following steps are for inputting the mapping for your TB

Steps	Instructions	Input	Buttons
1	1.1. Enter number of rows required for your TB mapping and select "Create Mapping Rows" button. <i>Number of rows created: 50</i> 1.2. Select "Clear Mapping" button if you would like to clear the current mappings from the input table. 1.3. Then place your Trial Balance codes in column "Your Code" and the OSCAR codes to be mapped in column "OSCAR Code". Once completed move to step 2. You can find a list of OSCAR Standard Chart of Accounts (SCOA) available for use in Trial Balance mapping on the "Available SCOA" tab.	50	<div style="background-color: #2e8b57; color: white; padding: 5px; margin-bottom: 5px;">CREATE MAPPING ROWS</div> <div style="background-color: #2e8b57; color: white; padding: 5px;">CLEAR MAPPING</div>
2	Select "Validate Mapping" button to proceed. Check the status and correct any errors identified. Repeat steps 1 and 2 until status on step 2 is Green.	1 validation error(s)	<div style="background-color: #2e8b57; color: white; padding: 5px; border-radius: 5px;">VALIDATE MAPPING</div>
3	Select "Submit Mapping" button to proceed when all validation errors have been corrected and input your Trial Balance on the "Trial Balance Input" tab.		<div style="background-color: #2e8b57; color: white; padding: 5px;">SUBMIT MAPPING</div>

5

- After correcting any errors press the 'Validate Mapping' button and 'Submit Mapping.'

SUBMIT MAPPING 6

7.2.3.1 Trial balance input

After you have mapped and submitted your mapping on your chart of accounts against available SCOA, the next step would be to input or copy and paste your trial balance and your codes will be mapped to SCOA's

This is a change from the Excel Based DCT. In that, it was possible to place validations on each proforma tab meaning that decimal places could not be entered. The OSCAR platform does not have this functionality. This means that users can enter decimal places, but this validation prevents them from being written to the database.

1. On the Trial Balance Input worksheet, enter the number of rows required for your Trial Balance and select 'Create Trial Balance Rows'

Steps

4

4.1. Enter number of rows required for your Trial Balance and select "Create Trial Balance Rows" button.
Number of rows created: 50

4.2. Select "Clear Trial Balance" button if you would like to clear the current data from the input table.

4.3. Then place your Trial Balance codes in column "Your Code" and the amount in column "Amount £". Ensure all Trial Balance codes used have been entered and mapped in the SCOA Mapping tab first.

To start trial balance workflow, please select the button below to be directed to the local government homepage and select 'Start' for your selected organisation. Then use the Trial Balance tabs above to load data and map to the input tabs. You can then go back to the Local Government tabs for editing.

5 **LG HOMEPAGE**

Please note:

Please Note the default rows on the ‘SCOA Mapping’ and ‘Trial Balance Input’ worksheet is 50.

This means if you input more 50 rows on these worksheets, on the subsequent login to OSCAR Trial Balance, you will be able to see only 50 rows.

Your Trial balance mapping and posted amount will remain the same as previously posted and you will be able to see all posted rows by increasing the number of rows in create rows sections.

--	--	---	--

The next step in your DCT is to go through the worksheets tabs proformas and input any additional data that is required by the DCT, but not provided by your TB, for example statistical data such as staff numbers.

7.2.4 Proformas

Before you start entering data in your DCT navigate to the Balance Sheet tab and check that your opening balances have populated correctly by checking to last year’s closing balances. Opening balances provided will be based on prior year submitted data. If, for example, you did not submit a cycle 2 submission in the prior year then you may have data that does not agree to your published financial statements. If you are unsure how to proceed, please contact the WGA team at LG_WGAreturns@hmtreasury.gov.uk.

7.2.4.1 CI&E – Comprehensive Income & Expenditure Statement: Net Operating Expenditure and Surplus/Deficit for the year.

The CI & E worksheet collects income and expenditure information, including grant and taxation income.

1. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data
2. Select ‘Rebuild View’ if you have changed your spreadsheet view
3. Enter any comments that you may have
4. Select ‘Save’.

Net gains/losses on disposal of assets held for sale	300	
[ELG, WLG ONLY] Local (Parish Council) Precepts	200	
[ELG, WLG ONLY] Amounts payable to Housing Capital Receipts Pool	6,777	
Other operating expenditure	8,361	
Financing and investment income and expenditure		

3

For IFRS 16 entries, amounts relating to interest on lease liabilities should be entered in the following table:

		A. CI&E	B. I&E NCS Subjective Analysis	C. R
Other operating expenditure				
	Levies (not included in service lines)	0		
	Net gains/losses on disposal of PPE	0		
	Net gains/losses on disposal of intangibles	0		
	Net gains/losses on disposal of assets held for sale	0		
	[ELG, WLG ONLY] Local (Parish Council) Precepts	0		
	[ELG, WLG ONLY] Amounts payable to Housing Capital Receipts Pool	0		
	Other operating expenditure	0		
Financing and investment income and expenditure				
Interest payable and similar charges				
	Interest element of on-balance sheet PFI contract	0		
	Interest on Lease Liabilities (ROU)	403		
	Finance charges for finance leases (non-PFI)	0		
	Impairment losses - debtors	0		
	Impairment losses on other financial instrumts in the loan & receivables (less debtor impmt shown separately above) & available-for-sale assets categories	0		
	Losses arising on the derecognition of financial instruments	0		

For other entries (non IFRS 16), these would be recorded against the other lines in the above table.

For IFRS 16 entries relating to rental charges and income from sub-leasing of Right of Use assets (as lessor) – these should be entered in the following table:

		A. CI&E	B. I&E NCS Subjective Analysis
	Net interest on the net defined benefit liability (asset)	0	
	Premeasurements of the net defined benefit liability (asset) recognised in the pensions reserve	0	
	Interest and investment income	0	
	Income & exp in relation to investment properties and changes in their fair value		
	Rental Income from investment properties	0	
	IFRS 16 - Rentals under non-PFI Lease Liabilities - Land	40	
	IFRS 16 - Rentals under non-PFI Lease Liabilities - Buildings	40	
	IFRS 16 - Rentals under non-PFI Lease Liabilities - P&M	40	
	IFRS 16 - Rentals under non-PFI Lease Liabilities - Other	40	
	IFRS 16 - Rentals under PFI Lease Liabilities - Land	40	
	IFRS 16 - Rentals under PFI Lease Liabilities - Buildings	40	
	IFRS 16 - Rentals under PFI Lease Liabilities - P&M	40	
	IFRS 16 - Rentals under PFI Lease Liabilities - Other	40	
	IFRS 16 - Rentals under PFI Lease Liabilities - Off balance sheet exp	40	
	IFRS 16 - Service element of PFI Leases	40	
	Income of Sub-Leasing ROU assets	0	

The categories are split between land, buildings, plant & machinery and other.

7.2.4.2 I&E NCS Subjective Analysis

This tab collects income and expenditure information according to your net cost of services, with pensions and staff data feeding from the applicable tabs. Please only use the miscellaneous income category as a last resort.

OSCAR WGA – Local Government Guidance

Enter your Net Cost of Services in the categories provided:

1. Select Input option, if you would like to manually enter data select Copy/Paste option and press
2. 'Rebuild View' if you want to copy paste the data
3. There is an additional analysis section at the bottom of the page, to input any other purchases of goods and services. Please complete this section and specify the category
4. Select 'Save'.

7.2.4.3 Re-Statement CI&E

The aim of this sheet is to align the CI&E data with the prior year statutory accounts. Restatements and restatement reasons are captured separately on the ‘Restatement Analysis’ tab and prepopulated into the below table.

1. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data
2. Select ‘Rebuild View’ if you have changed your spreadsheet view
3. Restatements entered on the ‘Restatement Analysis’ tab are prepopulated here
4. Enter any comments that you may have
5. Select ‘Save’.

7.2.4.5 Restatement Analysis

To those familiar with the previous Excel DCT, this is the largest change in the process. In the past, users would have to manually enter restatements into this tab, into the individual proformas and again into the primary statements. In OSCAR, users will only need to enter restatement information here, and it will then populate the Re-statement CI&E, and relevant proformas, which in turn will populate the relevant primary

statements.

1. Select Primary Statement from the drop-down list in the first column
2. Select "Update Note Drop Down" to filter the second column based on the Primary Statement you have selected and select a Note. The list of note level codes here will not be filtered to the relevant primary statement, so please take care to make sure you select the appropriate primary and note level code.

Restatements which are not shown on individual tabs will display the following: "N/A - Restatements not shown on individual note tabs.

3. Select your restatement reason from the drop-down list please note the examples of when the restatement reasons should be used below:

- *Entity Specific Accounting Policy Change & Errors* - for example if there is a prior period error that is corrected, or a change in accounting policy that only affects your organisation.
- *Global Accounting Policy Change* - implementation of new IFRS, for example IFRS 16 and 17
- *Other Machinery of Government Change* - if you are receiving or giving balances to another WGA body
- *Aligning Opening Balance to Last Year's Closing Balance* - if the balances played back to you do not align to the opening balances in your own financial statements
- *Other* - anything else

4. Then enter the debits and credits into the schedule with (-) sign where appropriate
5. Validate and refresh data and then check if it has been brought through to the Balance Sheet tab or the CI&E tab (depending on whether it is a Balance sheet or I&E restatement)

Restatement Analysis

Please complete this schedule if you have made Prior Period Adjustments, detailing transactions at SCOA level, which affect your Statements. This sheet will auto populate the proforma sheet restatements.

Select a Primary Statement from the first column.

Click "Update Note Drop Down" to filter the second column based on the Primary Statement you have selected and select a Note. Restatements which are not shown on individual tabs will display the following: "N/A - Restatements not shown on individual note tabs"

Complete the remaining columns: Restatement Reason, Counter Party Code (if applicable), Debit or Credit and Comment.

Select "Validate Re-Statements" to proceed. Check the Validation column and correct any hard validation errors.

Once you have cleared all hard validations, select "Refresh Re-statements" to update the Primary Statement and Note tabs with data from the below grid.

Primary Statement		Note		Restatement Reason	Counter Party Code	Total		Primary Statement Restated Balance
Submitted Balance as at 31 March 2019	Note Submitted Balance as at 31 March 2019	Debit £'000	Credit £'000					
CP-S&FP - Other non-current financial assets - CIO01726	CP-O-Fin-Assets - Deposits - 816512BA	-	-	Global Accounting Policy Change		(100)	-	(100)
CP-S&FP - Current trade and other payables - CIO01726	CP-T&CP - Other borrowings - 826122BA	(175,098)	-	Global Accounting Policy Change		1,100	-	(173,998)
Total		3,367	(3,367)					

6. If Debits and Credits do not match, the following Validation error will occur:

Debit	Credit	Validation	Status
115	115	Debits and credits do not match - DO NOT SUBMIT.	R

Correct the validation errors, if any, and 'Validate' and select 'Refresh Re-statement'.

7.2.4.6 PPE & Invest Prop – Property, Plant & Equipment, and Investment Properties.

This tab collects data on Property plant and Investments. Please note that we require land to be split out separately from buildings. Please also remember to fill out the cash flow information section at the bottom of the tab.

1. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data
2. Select 'Rebuild View' if you have changed your spreadsheet view. The below screen shows the 'Input view'
3. Enter your data as per the categories provided in the white cells of the table
4. Select 'Save.'

A toolbar contains various icons, including an export icon. A dropdown menu is open over the export icon, showing three options: 'Export slice to Excel', 'Export snapshot to Excel', and 'Export to PDF'. The 'Export snapshot to Excel' option is highlighted. Below the menu, the spreadsheet view is visible, showing the same table as above. The 'REBUILD VIEW' and 'SAVE' buttons are also visible.

Select 'Export snapshot to Excel'

You will also need to enter data into the Asset Financing cells, analysing the split of the ROU net book value totals.

OSCAR WGA – Local Government Guidance

Carrying Amount at 31 March 2021	0	0	0	0
Opening Carrying Amount at 1 April 2020	0	0	0	0
Asset Financing (the split should equal the total NBV)				
Owned (includes donated)				
Leased	0	0	0	0
PFI On-balance sheet	0	0	0	0
PFI Residual interest	0	0	0	0
Carrying Amount at 31 March 2021	0	0	0	0

You will also need to enter any CPID data relating to ROU assets where you have any transactions relating to other government bodies (including any lease liabilities (in other creditors), lease receivables (in trade and other receivables as lessor), lessor income and lessee expenditure (interest)).

Navigate to bulk CPID input and input your CPID data or use the CPID transactions tab to add lines for your CPID data. See screen shots below.

Bulk CPID input:

Validations
Bulk CPID Input
CPID Transactions
Data Collection
1. SoCI
2. SoFP
3. Restatement Analysis
4. Tax
5. Operating Income
6. Operating Cost
7. Fin Cost
8. PPE
9. ROU
10. IFA
11. T&OR
12. T&OP

Select "Switch Method" of Input for CPID Data to switch to "Bulk CPID Input" method.

Current input method: CPID Transaction SWITCH METHOD

If the current input method selected is "CPID Transaction" you cannot edit this sheet - to edit this sheet you have to click the "Switch Method" button. "Switch Method" can be used as often as required. Please note data will be incremented each time you "Refresh CPID Transactions".

Enter number of rows required for your CPID Input and select "Add CPID Rows" button. Please enter a positive whole number between 1-3000. 50 ADD CPID ROWS

Select "Clear Data" to remove all data in the input grid. CLEAR DATA

Please fill out columns "Account Code", "Instigating Entity Code", "Counter Party Code", "CPID Amount £000s" and "User Comment (Optional)". The remaining columns are formulas based on the data you select.

Once you have entered the "Account Code", "Instigating Entity Code", "Counter Party Code", "CPID Amount £000s" and "User Comment (Optional)" if desired, for each of your lines then press "Validate CPID Input" to validate data. No validation errors VALIDATE CPID INPUT

The cells in grey for CPID Input rows will auto complete if your data is valid. Check the Complete column and correct any errors.

Once you have completed your Bulk CPID data you can press "Refresh CPID Transactions" to transfer this to the CPID Transactions tab. REFRESH CPID TRANSACTIONS

You must leave all your data on this sheet as it refreshes in full. You can leave blank lines or put multiple transactions to the same CPID per account code - however please note you are limited to a maximum of 3000 lines of data to keep the size of the tab down.

Account Code	Instigating Entity Code	Counter Party Code	CPID Amount £000s	Instigating Entity Description	Counter Party Description	Description	Status	Complete

7.2.4.8 Intangibles- Intangible Assets

This tab collects data on intangible assets. Please note that heritage assets have been designed so that they cannot be depreciated. If you need to depreciate an intangible heritage asset, this will need to be entered in the other movement line.

1. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data
2. Select 'Rebuild View' if you have changed your spreadsheet view. The below screen shows the 'Input view'
3. Enter your data as per the categories provided in the white cells of the table
4. Select 'Save.'

	£'000	
Cash from purchases of intangible assets	0	Purchases positive value (+)
Cash from sales of intangible assets	0	Sales negative value (-)
Total net cash flow	0	

7.2.4.9 Inv, JVs & Assoc Investments, Joint Ventures, and Associates.

We have incorporated changes made to IFRS 9. The public sector will apply retrospective application without restatement of comparatives.

We collect short term and long-term investment totals, and then ask you to split these between amounts with WGA counterparties (“internal” amounts) and amounts with external parties. Please ensure this split is in line with the counterparty allocations you plan to make on the CPID transactions tab later.

For the other financial assets table, there are three implemented categories. The categories are now “amortised cost,” “Fair value through profit or loss” and “Fair value through OCI.”

External balance will be brought through from the earlier tables and split out manually. You also need to categorise the assets for current deposits and current loans as either “Fair value through profit or loss” or “Fair

value through OCI.” If you do not have external balances for current loans or current deposits, please do not complete this tab.

1. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data
2. Select ‘Rebuild View’ if you have changed your spreadsheet view
3. Select ‘Save’.

Investments, Joint Ventures and Associates

Cells shaded in dark grey will not be loaded to the database.

Note the additional cash flow requirements at the bottom of this sheet.

Joint Ventures and Associates: this could potentially be a large net liability balance
We expect that the equity method is applied, so only your share of the balance is recorded in your accounts

Share of post tax results of associates and joint ventures	€'000	Comment
Associates balance		
Closing balance as at 31 March 2019 (closing balance from last years WGA return)	0	
Adjustments	0	
Restated balance as at 1 April 2019	0	
Share of net assets/liabilities at 1 April 2019	0	
Share of post tax results	0	
Dividends	0	
Impairments	0	
Acquisitions	0	
Disposals	0	
Revaluations	0	
Reclassifications	0	
Share of net assets/liabilities at 31 March 2020	0	
Share of post tax results of associates and joint ventures	0	
Total assets	0	
Total liabilities and shareholders' equity	0	
Net total (should be same as above)	0	

Investments

The Investment section has four questions around collecting short term and long-term investment totals, then splitting them between balances internal to the WGA boundary (internal) and balances held with the counterparties outside the WGA boundaries (external), entering details of the valuation basis for external balances and their categorisation.

Please ensure this split in question 2 is in line with the counterparty allocations you plan to make on the CPID transactions tab later.

OSCAR WGA – Local Government Guidance

Guidance Note

The format below is required for WGA. It differs from the format set out in the CODE. The data is collected from in three steps. At Step 2, you are asked to split your balances between balances internal to the WGA boundary (internal) and balances held with counterparties outside the WGA boundary (external). Valuation information at Step 3 is then only requested for your external balances. This ensures consistency between the primary statements and the notes, as we only wish to report on balances held with external counterparties.

Step 1) Enter total short term and long term investments as per your resource accounts (this will include balances that are outside and inside the WGA boundary)

	Balance as at 31 March 2020 £'000	Restated Balance as at 31 March 2019 £'000	Adjustment £'000	Submitted Balance as at 31 March 2019 £'000	Comment
Short Term Investments					
Shares and equity type investments	0	0	0	0	
Deposits	0	49,082	0	49,082	
Loans	0	0	0	0	
Other	0	0	0	0	
As at 31 March 2020	0	49,082	0	49,082	
Long Term Investments					
Shares and equity type investments	0	51,862	0	51,862	
Deposits	0	0	0	0	
Loans	0	0	0	0	
Other	0	0	0	0	
As at 31 March 2020	0	51,862	0	51,862	

Step 2) Split the balances disclosed in Step 1 between external balances (outside the WGA boundary) and internal balances (within the WGA boundary). The balances disclosed as internal must agree with the total counterparty balances recorded on the CPID Transactions sheet. Please re-check this tab after you complete the CPID Transactions sheet to ensure this agrees. Bodies that are within the WGA boundary are listed on the CPID list which can be downloaded from the link on the Homepage. For example, deposits with the Debt Management Account (DMA888) are with an entity within the WGA boundary since it appears on the CPID list. However, deposits with a commercial bank are with an entity outside the WGA boundary.

If you do not have external balances for current loans or current deposits, please do not complete this table.

Step 3) Enter details of the valuation basis for your external balances only

	TOTAL EXTERNAL from Step 2: to split between categories 31 March 2020 £'000	Amortised Cost 31 March 2020 £'000	Fair Value Through Profit or Loss (FVPL) 31 March 2020 £'000	Fair Value Through OCI (FVOCI) 31 March 2020 £'000	Total 31 March 2020 £'000	Comment
Other Current Financial Assets						
Shares and equity type investments	10	0	0	0	0	
Deposits - PLEASE PROVIDE CATEGORISATION OF ASSETS AT STEP 4	30	0	0	0	0	
Loans - PLEASE PROVIDE CATEGORISATION OF ASSETS AT STEP 4	10	0	0	0	0	
Other	14	0	0	0	0	
As at 31 March 2020	64	0	0	0	64	
Other Non-Current Financial Assets						
Shares and equity type investments	40	0	0	0	0	
Deposits	30	0	0	0	0	
Loans	0	100,000	0	0	100,000

7.2.4.12 Financial Instruments

If you have a material risk in particular areas, such as credit risk, additional information will also be required on the tab. In the fair values section, we ask you to confirm the amount of the balance, which is held with WGA counterparties, and then only disclose the fair value of the remaining, externally held amount.

In the expected credit loss section, you need to identify expected credit loss impacting financial assets held at amortised costs, split between the categories for Stage 1, 2, 3 or simplified impairment rule & paragraph 5.5.15

rule (trade receivables, contract assets or lease receivables for which the loss allowances are measured in accordance with paragraph 5.5.15 of IFRS 9).

The financial instruments tab will contain data fed through from the Investments, JVs, and Associates tabs, as well as from trade and other payables and trade and other receivables. Therefore, please ensure you have entered data into those tabs before beginning financial instruments.

Where the loss allowance has been calculated based on this method, it should be entered into the appropriate cell for 12 months expected credit losses.

You need to identify expected credit loss impacting financial assets held at amortised costs, split between the categories for Stage 1, 2 and 3 or the simplified impairment rule & paragraph 5.5.15 of IFRS 9 (trade receivable, contract assets or lease receivables for which the loss allowances are measured in accordance with paragraph 5.5.15).

1. Select your answers from the drop-down list in the Questions list
2. Select 'Save' when you have completed the relevant data entry sections.

Instructions for completing this tab:

Some cells auto-populate with data brought through from other tabs. Therefore please ensure you complete LP-Inv, JVs & Assoc, LP-Current Assets & AHFS, and LP-Liabilities & Provs before completing this tab.

All entities who have financial instruments will need to complete the "income, expense, gains and losses" table and the "fair values" tables.

There are some additional tables on the tab which only some entities need to complete. Please answer the questions below, your answers will indicate which of the additional tables you will need to complete.

Questions

Were your total assets or total financial liabilities at the year end greater than £50m, and:

- 1) did you need to disclose Credit Risk as a material risk in your accounts?
- 2) did you need to disclose Liquidity Risk as a material risk in your accounts?
- 3) did you need to disclose Interest Rate Risk as a material risk in your accounts?

1

Select Yes or No on dropdown

Yes If YES, co
 Select If YES, co
 Select If YES, co

Please complete the Credit Risk Table only if you have answered Yes to the Credit Risk question at the top of the worksheet.

If you have a material risk area, such as credit risk, additional information will also be required on the tab.

In the expected credit loss section, you need to identify expected credit loss impacting financial assets held at amortised costs, split between the categories for Stage 1, 2, 3 or simplified impairment rule & paragraph 5.5.15 rule.

CREDIT RISK SECTION - Only complete these tables if you answered Yes to the Credit Risk question at the top of the tab.

Guidance Note for completion of Financial Assets by credit rating and by geographic area tables
 Amounts held with external counterparties under each category are automatically brought through from the LP-Inv, JV & Associates tab, except for Cash and Cash Holdings where the figure needs to be manually entered. Please then split out these external balance totals by credit rating in the first table and by geographic area in the second table.

Financial Assets by credit rating at year end (before collateral held or other credit enhancements)
 Please enter gross credit exposure by credit rating at year end. Information should be entered for external data only.

Financial Assets by credit rating at year end	External Assets - to be split by credit rating €'000	of which AAA or equivalent €'000	of which AA or equivalent €'000	of which A or equivalent €'000	of which rated not strong €'000	of which not rated €'000	TOTAL €'000
Cash and cash equivalents - In "External Assets to be split by credit rating" cell, please enter your total Cash Holdings from the Current Assets & AHFS tab less any amounts held within the WGA boundary	0	0	0	0	0	0	0
All other assets held at amortised cost	0	0	0	0	0	0	0
All other assets held at FVPL	0	0	0	0	0	0	0

Comment

Liquidity Risk Table and Interest Rate Risk Table is required only if you have selected 'Yes' to the Liquidity Risk Question and Interest Rate Risk Question respectively at the top of the tab.

LIQUIDITY RISK SECTION - Only complete this table if you answered Yes to the Liquidity Risk question at the top of the tab							
Contractual maturity for financial liabilities	Maturity analysis for financial liabilities					Total as at 31 March £'000	Comment
	0 to 12 months £'000	1 to 2 years £'000	2 to 5 years £'000	5 to 10 years £'000	over 10 years £'000		
Total short term and long term financial liabilities	0	0	0	0	0	0	

INTEREST RATE RISK SECTION - Only complete these tables if you answered Yes to the Interest Rate Risk question at the top of the tab					
Interest Rate Profile					Comment
Information should be entered for external data only	Non-interest bearing £'000	Floating rate £'000	Fixed rate £'000	Total £'000	
Financial Assets					
In Sterling	0	0	0	0	
In Other Currencies	0	0	0	0

In Other Currencies	0	0	0	0	
As at 31 March 2020	0	0	0	0	

Financial Liabilities - Analysis of sensitivity to movements in interest rates e.g. impact of 1% change in interest rate on operating balance/net worth As per CODE guidance p734, but less detail required

Information should be entered for external data only

	Impact on surplus/deficit on provision of services £'000	Impact on net worth £'000	Comment
Financial Liabilities			
Increase by 1% (100 basis points)	0	0	
Decrease by 1% (100 basis points)	0	0	

Note: Data entered in the dark grey cells will not be saved.

7.2.4.13 Collection Fund

The collection fund tab will not be visible to Welsh, Scottish or Northern Irish local authorities. Only English local authorities will complete this. This worksheet is used to record the breakdown of the Collection Fund Adjustment Account balance as at year end.

This tab is used for both preceptor and billing authority. So, depending on which one you are will depend on how you fill in this spreadsheet. The worksheet is divided into two sections – the top section is for Council Tax and the bottom section is for Business Rates.

Data is required on any line not marked "Leave row blank."

Where the WGA preparer is a Billing Authority – the Council Tax section will disclose the name of the Billing Authority and its Major Preceptors, and the Business Rates section will disclose the name of the Billing Authority and its Major Preceptors and Central Government.

Where the WGA preparer is a County Council or Fire Authority – the Council Tax and Business Rates sections will disclose the names of each Billing Authority.

Where the WGA preparer is a Police and Crime Commissioner – the Council Tax section will disclose the name of each Billing Authority, but the Business rates section shows the message “leave row blank.”

Where the WGA preparer is a body that does not receive Council Tax or Business Rates, then both sections will be marked “leave row blank.”

Last year’s brought forward balances are included. Any changes to these must be made in the re-statement analysis tab. Closing balances are shown gross of impairment allowance, these allowances are summarised.

1. Select ‘Save’ to commit data to the database

Collection Fund Account Information - Council Tax and Business Rates
As at 31/03/2020

- 1. Enter amounts as £'000 (whole numbers only);
- 2. Enter credit amounts as negative values;
- 3. Enter debit amounts as positive numbers

Council Tax

7.2.4.14 IAS 19 Pension liabilities

This tab collects information on your scheme assets and liabilities, as well as additional disclosure and analysis information. Please provide the additional information if it is available to you in your actuarial report. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data.

- 1. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data

2. Select 'Rebuild View' if you have changed your spreadsheet view
3. Select 'Save.'

IAS 19 Pension Liability

As at 31/03/2019

The screenshot shows a software interface for 'IAS 19 Pension Liability'. At the top, it says 'As at 31/03/2019'. Below this, there is a section labeled 'Spreadsheet View' which contains the word 'Input'. To the right of this section are two buttons: 'REBUILD VIEW' and 'SAVE'. Red circles with numbers 1, 2, and 3 are overlaid on the image to indicate the steps: 1 points to the 'Input' field, 2 points to the 'REBUILD VIEW' button, and 3 points to the 'SAVE' button.

Disclosures - YOUR ACTUARIES MAY NOT PROVIDE ALL THE INFORMATION BELOW - PLEASE COMPLETE IF AVAILABLE. ADD COMMENTS TO VALIDATION SHEETS IF NECESSARY.

Although disclosures are expressed in percentages please record numbers only. For example; 2.5% should be shown as 2.5. Please round the numbers to one decimal point. For example; 2.45 should be shown as 2.5.

7.2.4.15 Reserves

This tab is divided into two tables - General fund table and Revaluation & Reserves Table.

Please note that pensions are now no longer separated out from reserves. These are included within the general reserve. An accounting test has been added to maintain oversight of pension balances in reserves and the income statement.

When completing your reserves data, if you cannot locate a column for a particular usable reserve, please note there is an “other reserves” column available.

7.2.4.16 Non-Current Assets- Additional Information

The NCA Additional Information tab is used to identify material assets not consolidated into WGA, such as voluntary aided schools or shared ownership assets.

In case, you do not have any interest in a shared ownership asset, select No from the dropdown and complete School Assets Table only.

The level of detail is a little different for the two sections. For Shared Ownership Assets, please complete one row for each asset, providing as much detail as possible to enable the assets to be identified with disclosures provided by other public sector bodies. For School Assets, please complete the required fields for each category of school.

1. Select Yes / No in Q1 below if you have an interest in a shared ownership asset
2. Please complete the information on shared ownership in the table
3. Select 'Save' when you have completed the data entry.

Q1. Do you have an interest in a shared ownership asset?

(i) Shared Ownership Assets

Please complete one row for each shared ownership asset

	Shared ownership asset	Capital Value (if known) £'000	What is your percentage interest in the asset?	Are they on your balance sheet? [Yes or No]	Comment
1		0	0%		
2		0	0%

Complete table (ii) only

7.2.4.17 Additional data – Additional Disclosures

This worksheet collects data on Leases (IFRS 16 – 1(a)), finance and operating leases, PFI contracts, financial commitments, post balance sheet events, staff numbers (including exit packages) and NNDR / Council Tax data.

IMPORTANT:
Please note that staff numbers must be entered as whole numbers (not £000's).

1. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data
2. Select 'Rebuild View' if you have changed your spreadsheet view

3. Select ‘Save’ when you have finished entering data.

Leases data input is split into two parts – 1(a) covers IFRS 16 disclosures (i.e., entities who are following implementation of the IFRS 16 standard), 1(b) covers non IFRS 16 disclosures (i.e., entities who are still following the old IAS 17 leasing standard). Entities should complete EITHER the tables in 1(a) or 1(b), but not both. **DO NOT COMPLETE BOTH SETS OF TABLES.**

For IFRS 16 compliant entities, the tables in 1(a) need to be completed together with prior year data if early adoption was chosen. Data can be manually entered into the additional information tab of the DCT into the following tables:

(1a) IFRS 16

Maturity profile of lease commitments (non-PFI)

Future minimum lease payments under non-cancellable operating leases comprise:
(Please split the land and buildings leases into separate elements)

	2020-21 Land £'000	2020-21 Buildings £'000	2020-21 Other £'000
Maturity profile of lease commitments (non-PFI) - entity as LESSEE			
Operating leases as lessor			
Payments due within 1 year	0	0	0
Payments due between 1 and 5 years	0	0	0
Payments due after 5 years	0	0	0
Total operating leases as a lessor commitment	0	0	0

Lease Liabilities

Total future lease payments under leases are given in the table below:

	Infrastructure Assets £'000		Land & Buildings £'000
	2020-21	2019-20	2020-21
Infrastructure			
Payments due within 1 year	0	0	0
Payments due between 1 and 5 years	0	0	0
Payments due after 5 years	0	0	0
Subtotal Infrastructure	0	0	0
Less Interest Element	0	0	0
Present Value Obligation	0	0	0
Land and Buildings			
Payments due within 1 year	0	0	0
Payments due between 1 and 5 years	0	0	0
Payments due after 5 years	0	0	0
Subtotal Land and Buildings	0	0	0
Less Interest Element	0	0	0
Present Value Obligation	0	0	0
Other			

Entities will also need to complete a table as follows for the impact of first-time adoption (if adopted for the first time in the current year):

OSCAR WGA – Local Government Guidance

Impact on Financial Statements

On transition to IFRS 16, the group recognised an additional right of use assets and lease liabilities, recognising the difference in the general fund account.

	31 March £'000	Comm
Operating lease commitment at 31 March	0	
Discounted using discount rates	0	
Finance Lease liabilities at 31 March	0	
Exemptions for		
Short terms leases	0	
Leases of low value assets	0	
Intangible assets	0	
Extensions and termination options reasonably certain to be exercised	0	
Variable lease payments on an index or a rate	0	
Residual values guarantees	0	
Advance payments	0	
Excluding previous included non lease components	0	
Impacts of restatements for Operating Lease and Finance Lease	0	
Re-assessment for IFRS16	0	
Lease Liabilities recognised at 1 April	0	

For non IFRS 16 compliant entities, the tables in 1(b) need to be completed. Data can be manually entered into the additional information tab of the DCT into the following tables:

(1b) Non IFRS 16

Maturity profile of lease commitments (non-PFI)

Future minimum lease payments under non-cancellable leases comprise:
(Please split the land and buildings leases into separate elements)

	2020-21 Land £'000	2020-21 Buildings £'000	2020-21 Other £'000
Operating leases (non-PFI)			
Payments due within 1 year	0	0	0
Payments due between 1 and 5 years	0	0	0
Payments due after 5 years	0	0	0
Total operating leases as a lessor commitment	0	0	0
Finance leases			
Payments due within 1 year	0	0	0
Payments due between 1 and 5 years	0	0	0
Payments due after 5 years	0	0	0
Total payments	0	0	0
Less: interest element	0	0	0
Total Finance Lease Commitment	0	0	0

Please enter any details on Private Finance Initiative in this section.

7.2.5 Validation Report

Validations can be viewed on the ‘Validations Report’ worksheet on OSCAR.

1. Select if you would like to view all validations – ‘Select All’ or ‘Failed Validations Only’

2. Select ‘Refresh’ to adjust your worksheet view according to the applied filter in Step 1
3. Total number of Validations will appear in this section
4. Select ‘Validate’ to reflect on recent changes made

Total No. of Failed Validations	15
Hard Validations	13
Soft Validations	2

3 Hard validations must be resolved before submission to WGA
Un-resolved soft validations must have a full Explanation added to them before submission to WGA

2 REFRESH 4 VALIDATE

5. In the Validation Report output section, you will find the following details:

- *Validation Code* – automated code allocated to each validation error, for internal purposes
- *Validation Category* – internal consistency, materiality, numerical accuracy
- *Validation Type* – Soft/Hard. Hard validation failures will need to be resolved before submission and on all soft validations, comments must be provided. DCT can still be validated with soft validation failures if you provide comments. You can still proceed with comments on soft validations.
- *Validation Description* - details and guidance on each validation error for example:
NIC contributions should be between 6% and 12% of gross wages. If they are not, could you please provide an explanation
- *Status* – used to describe the status for example FAIL, please provide cometary/PASS

If you re-run the proforma validations any explanations in the 'User Explanation' column will remain- please ensure that these are kept up to date before you lock

Validation Category	Validation Type	Validation Description	Status
Internal Consistency	Soft	Staff numbers information must be filled in.	FAIL, Please check or provide commentary
Materiality	Soft	NIC contributions should be between 6% and 12% of gross wages. If they are not, could you	FAIL, Please check or provide commentary
Numerical Accuracy	Hard	The top half of the SOFP must equal the bottom half of the SOFP (i.e.-the SOFP must	FAIL
Numerical Accuracy	Hard	Current OFA total balances must equal the sum of the internal and external balances reported	FAIL
Numerical Accuracy	Hard	The external asset type breakdown total must equal the external OFA current balance on the movement table	FAIL
Numerical Accuracy	Hard	Where a financial asset type has a carrying value, a fair value must also be recognised	FAIL
Numerical Accuracy	Hard	In the step 3 table, make sure that your amortised cost + FVPL + FVOCI amount for each line, tallies to the total external balance as shown in the left hand column	FAIL
Internal Consistency	Hard	In the valuation hierarchy table, make sure that the total you have split out between levels 1, 2 and 3, tallies back to the total at FVPL and/or FVOCI available to be categorised as shown	FAIL

- *Value Returned* – the value of the validation error

OSCAR WGA – Local Government Guidance

- *Validation Message* – details on why validation has failed for example ‘values do not balance’
- *Used In* – location of the validation error for exaple ‘Financial Instruments ‘ worksheet
- *Validation References* – account codes and other internal reference code concerned with specific validation error
- *User Explanations* – any comments entered on the validation errors.

Validation References	User Explanation
No Reference, No Reference

87883012, 87883011, 87883010, 87883087, 87883086, 87883085	
81600901, 81600905	
87000008, 87924250	
C0201203	
C1802000	
C1001202	
C1101202	

IMPORTANT:

Where you have soft validation errors, you must enter a comment more than fifteen characters to pass the validation.

You must clear all hard validation errors on the validation report and provide explanations for soft validations before you can submit the DCT Return. The same also applies to CPID validations.

To run the validation report, navigate to the validation report tab as follows on the DCT.

The screenshot shows the 'Validation Report' tab selected in the navigation bar. Below the navigation bar, there is a 'Filter' dropdown set to 'Select All'. A summary table indicates 10 total failed validations: 5 Hard and 5 Soft. A note states that hard validations must be resolved before submission to WGA, and soft validations must have a full explanation. There are 'REFRESH' and 'VALIDATE' buttons. Below this is a table of validation errors:

Validation Code	Validation Category	Validation Type	Validation Description
899N0030	Numerical Accuracy	Hard	The external liability type breakdown total must equal the current external OFL balance disclosed on the movement table
899N0031	Numerical Accuracy	Hard	The external liability type breakdown total must equal the external OFA non current balance disclosed on the movement table
899N0032	Numerical Accuracy	Hard	The opening balance adjustment cells for net PP&E must equal the sum of the 'reason for restatement' cells on the SoFP
899N0033	Numerical Accuracy	Hard	The restated opening balance must equal the balance at the 1st April
899N0034	Numerical Accuracy	Hard	The restated opening balance must equal the balance at the 1st April

As you can see above, in this example, there are 5 hard validation errors and 5 soft validation errors. You can filter on failed validations only as follows (select failed validations and click on refresh to display).

OSCAR WGA – Local Government Guidance

Navigation bar with tabs: Validation Report, Decimal Points Validations, Validations, Bulk CPID Input, CPID Transactions, Data Collection, 1. SoCI, 2. SoFP, 3. Restatement Anal

Filter: Failed Validations Only

Total No. of Failed Validations 10
 Hard Validations 5
 Soft Validations 5

Hard validations must be resolved before submission to WGA
 Un-resolved soft validations must have a full Explanation added to them before submission to WGA

REFRESH **VALIDATE**

If you re-run the proforma validations any explanations in the 'User Explanation' column will remain- please ensure that these are kept up to date before you lock

Validation Code	Validation Category	Validation Type	Validation Description
899I0021	Internal Consistency	Soft	Staff numbers information must be filled in.
899M0001	Materiality	Soft	NIC contributions should be between 6% and 12% of gross wages. If they are not, could you please provide an explanation.
899N0026	Numerical Accuracy	Hard	Current OFL total balances must equal the sum of the internal and external balances reported
899N0055	Numerical Accuracy	Hard	Gen fund restated opening balance must equal the balance at the 1st April
899N0126	Internal Consistency	Hard	In the step 2 table, make sure for each line that the total classed as external + the total classed as internal, matches back to the total balance for that class of C/NC liability
899N0129	Admin	Hard	All mandatory questions must be answered. Please check the box at the top of the sheet.

To validate the DCT Return at any stage – just click on the validate button as follows:

899N0129	Admin	Hard	All mandatory questions must be answered. Please check the box at the top of the sheet.	FAIL

OSCAR WGA – Local Government Guidance

Value Returned	Validation Message	Used in	Validation References
4	No staff number information	Operating Cost	87222000, 87228000
0	Provide explanation why NIC contributions are not within expected boundaries	Operating Cost	OCT_Row003/OCT_Col003, OCT_Row003/OCT_Col002, OCT_Row004/OCT_Col003, OCT_Row004/OCT_Col002
-864000000	Total current financial liabilities must equal the sum of internal and external balances noted	Other Fin Liabilities	OFL_Row004/OFL_Col004, OFL_Row004/OFL_Col003, C111
-864000000	Restated balances must equal the balance as at 1 April	Reserves	31521000, 31511000, 31111000, C1401200
2	Step 2 - The sum of the internal and external balances for each line must equal the totals from Step 1	Other Fin Liabilities	OFL_Row005/OFL_Col004, OFL_Row005/OFL_Col003, OFL_Row040/OFL_Col004

Looking at the above, the report detail tells us the validation category, validation type (hard or soft error), validation description (in this case the issue is with general fund opening balances), status (in this case FAIL), value returned (£864 billion – the value of the error), validation message (what should be the case, in this example, restated balances must equal balances at 1 April), Used in (area of the accounts in the DCT – here it is reserves), validation reference (account codes on the DCT).

To clear the validation, Oscar needs a restated opening balance of £864 billion to match the opening balance on the reserves tab. This is currently showing as zero on the DCT – see below tab:

< T&P 13. Other Fin Assets 14. Other Fin Liabilities 15. Fin Instruments 16. Cash & Inventories 17. Provisions 18. Pensions 19. Reserves 20. ...

General fund includes the donated asset and government grant reserves combined less any revaluations where they were previously shown separately

General Fund	General Fund £'000	Comment
Accumulated Income & Expenditure Reserve, the Income & Expenditure Reserves of Funded and Unfunded Pension Schemes, Donated Assets Reserve, Government Grant Reserve		
Carried forward at 31 March (as shown in last year's accounts)	0	
SOCI prior year adjustments (auto feed from SOCI)	0	
General fund - adjustments	0	
Funded pension scheme - adjustments	0	
Unfunded pension scheme - adjustments	0	
Restated balance at 1 April 2023	0	
Balance brought forward at 1 April - General Fund	864,000,000	
Balance brought forward at 1 April - funded pension scheme	0	
Balance brought forward at 1 April - unfunded pension scheme	0	
Retained (Surplus)/Deficit for year	0	

This requires two entries on the restatements tab – debiting reserves and crediting other financial liabilities with £864 billion to clear.

Navigate to the restatements tab and enter the two entries, equal and opposite. Remember that debit entries are positive numbers and credit entries are preceded with “-” as negative numbers and always work in £’000s. Validate and refresh to populate the DCT Return.

Hard	Other reserves restated opening balance must equal the balance at the 1st April		PASS

Note: all soft validation errors must have a user explanation before you can submit. Users must manually enter this.

CPID validations are cleared in a comparable way.

To view the number of CPID transaction errors, navigate to the Homepage and scroll down to view.

Navigation: Home Page | **Homepage** | View synchronization groups | Decimal Points Validations | Validations | Bulk CPID Input | CPID Transactions | Data Collection | 1. SoCI | 2. SoFP

audited organisations, submit to finalise your cycle 1 WGA return and commence the audit process.
 E: Once submitted, you will not be able to move back to previous workflow step.

SUBMIT FOR CYCLE 1 **REFRESH VALIDATIONS**

Hard Validations 4	Soft Validations 5	Submission Deadline 16-08-2024
------------------------------	------------------------------	--

The validations for this step are a total of those shown on the Validation Report tab and those detailed on the CPID Transactions tab as 'Submission' validation errors.

Steps for Cycle 2

- Reopen for Cycle 2 changes

our return is below the audit threshold, select to reopen DCT for cycle 2 changes.
 audited organisations, unlock to enter auditor agreed revisions.

The above includes all validation errors – all those on the validation report plus any errors on the CPID transactions tab.

To clear CPID transaction validation errors, navigate to the CPID transactions tab as follows:

OSCAR WGA – Local Government Guidance

Select "Switch Method" of Input for CPID Data to switch to "CPID Transaction"

Current input method: SWITCH METHOD

If the current input method selected is "Bulk CPID Input" you cannot edit this sheet - to edit this sheet you have to click the "Switch Method" button.

"Switch Method" can be used as often as required. Please note data will be incremented each time you "Refresh CPID Transactions" from the "Bulk CPID Input" tab.

Add Rows Select Account: Enter no. of rows: ADD ROWS

Delete Rows

There are two methods of deleting rows- either select an individual account and a row no. to delete (as well as the option to delete 'All' rows), or select a range of accounts and rows to delete.

Select Account: OR Enter row no. to delete: DELETE ROW

Select Range of Accounts

Lowest Account: Enter range of rows to delete: DELETE RANGE

Highest Account: Highest Row no.:

Filters Account Code: or Match Relationship: REBUILD VIEW

Scroll down to see the individual lines.

Reset book report

MR	Trial Balance	Total External Balance	Instigating Entity Code	Counter Party Code	CPID Amount	Instigating Entity Description	Counter Party Description	Total CPID Balance	Status
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G

Scroll down to see any lines with a Red RAG status. These validation errors must be cleared before you submit. Follow the instructions provided in the error message. The most common error is that tax balances must be 100% allocated to HMRC Taxes CPID code (IRT813). Clear the hard validation errors and then click on Validate. Some of the validation errors just require a user explanation – this should be manually entered.

17	Scoa	11812900			+			

7.2.7 Decimal Points Validation

This worksheet is designated for errors on decimal points. If you have entered decimal points across the DCT, these will display as errors on this tab.

Please note, no decimal points entry should be made, all entries should be rounded to the nearest whole number.

Make sure all errors are corrected as per the information provided in this worksheet and select 'Refresh.'

This is a change from the Excel Based DCT. In that, it was possible to place validations on each proforma tab meaning that decimal places could not be entered. The OSCAR platform does not have this functionality. This means that users can enter decimal places, but this validation prevents them from being written to the database.

SCOA Code	Used In	Description	Value	
011715ZF	CP-PP&E	Payments on account & assets under construction-Cost	58 617 000000000	The value entered for this SCOA contains a decimal place. Please remove the decimal place.
018919BF	CP-Q-Fin-Assets	Other	25 985 000000000	The value entered for this SCOA contains a decimal place. Please remove the decimal place.
88887000	CP-T&OR	Increases/decreases due to cash received/paid	-290 333333333	The value entered for this SCOA contains a decimal place. Please remove the decimal place.
88888000	CP-T&OR	Transfers from contract liabilities to receivables/payables	-290 333333333	The value entered for this SCOA contains a decimal place. Please remove the decimal place.
88889000	CP-T&OR	Changes in the measure of progress	-290 333333333	The value entered for this SCOA contains a decimal place. Please remove the decimal place.

7.3 Main Audit report

The Audit Report provides a view of all data submitted on the proforma tabs for the current year's WGA return. This report can be downloaded and shared with auditors to aid their review of your organisation's return. It is applicable only to organisations above the audit threshold.

Please note that the Audit Report can take some time to run, depending on the number of CPID transactions.

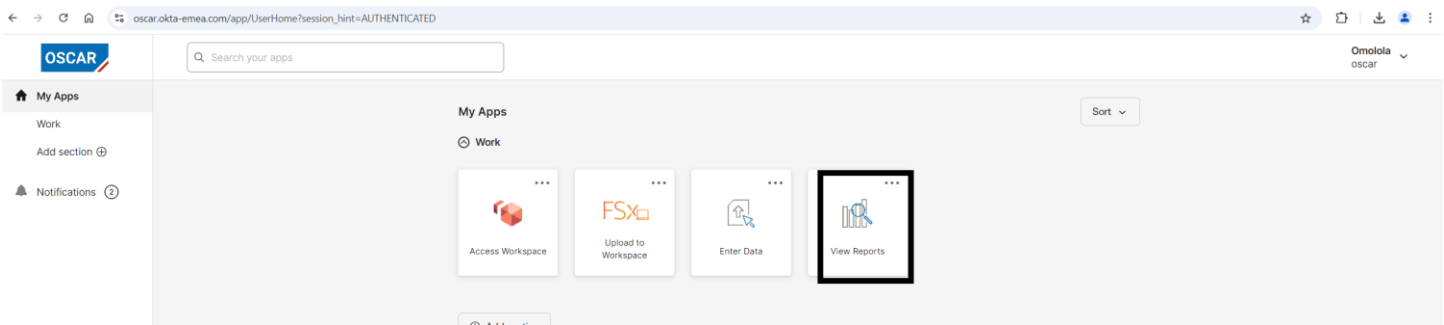

The CPID Transactions will return a row for every SCOA regardless of whether there is data on that row or not. You will have to scroll down to find the data on the report that has been entered against the relevant SCOAs.

In some cases, it may be more appropriate to download the individual tabs of the DCT and run the new primary financial statements report, which can be accessed alongside the Audit Report options.

The Primary financial statements Audit report provides a header sheet with headline details, a Statement of Comprehensive Income, a Statement of Financial Position, and Reserves. This report can also be used to provide assurance to auditors.

7.3.1 Accessing the Local Government – CPID Transaction Report Only (No Previous Year Data) Audit report

To access and view reports in OSCAR, select 'View Reports':

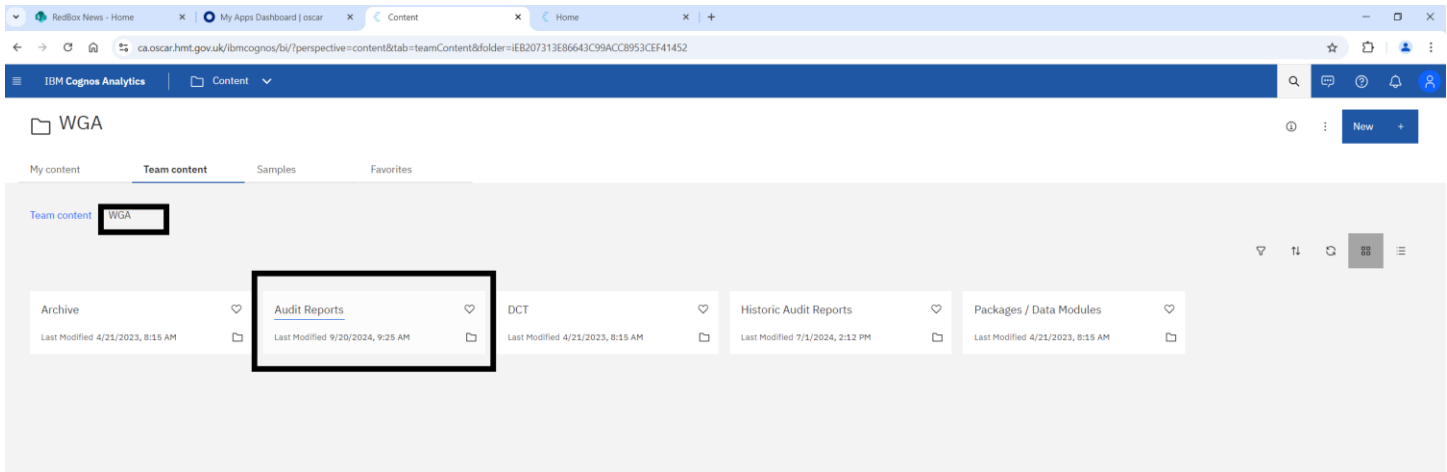

OSCAR WGA – Local Government Guidance

Select content via the top left hand corner of the screen.

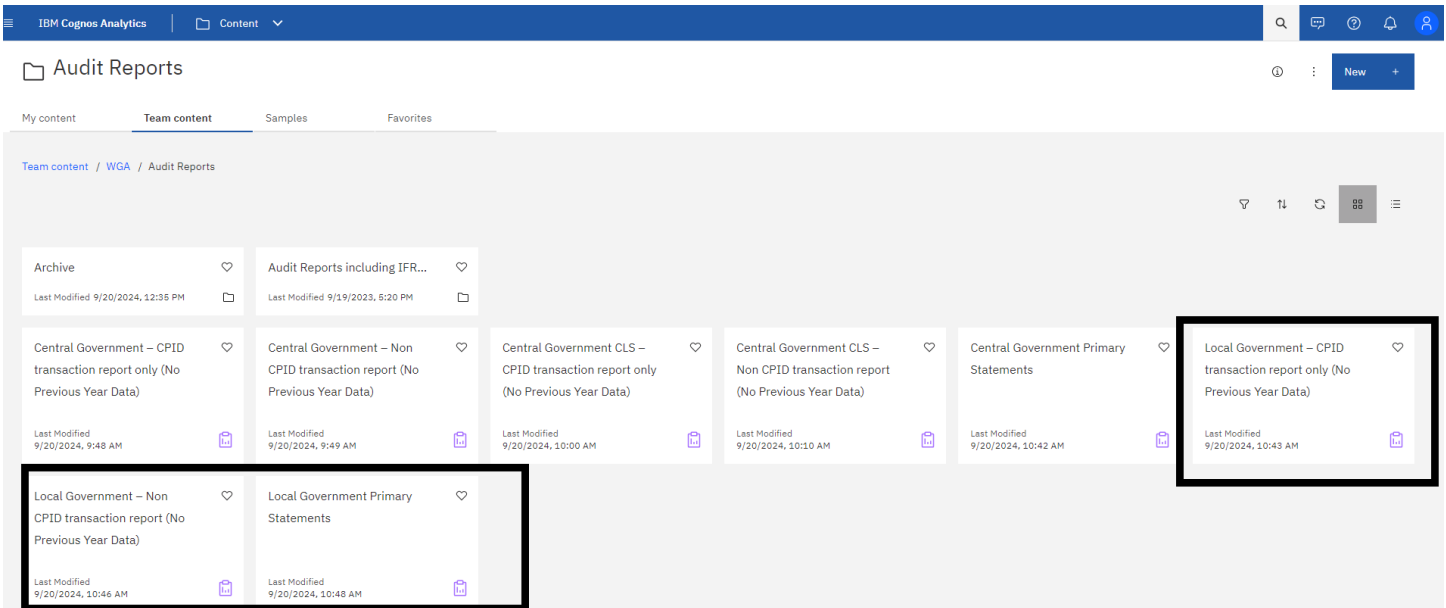

Select WGA.

Select Audit Reports.

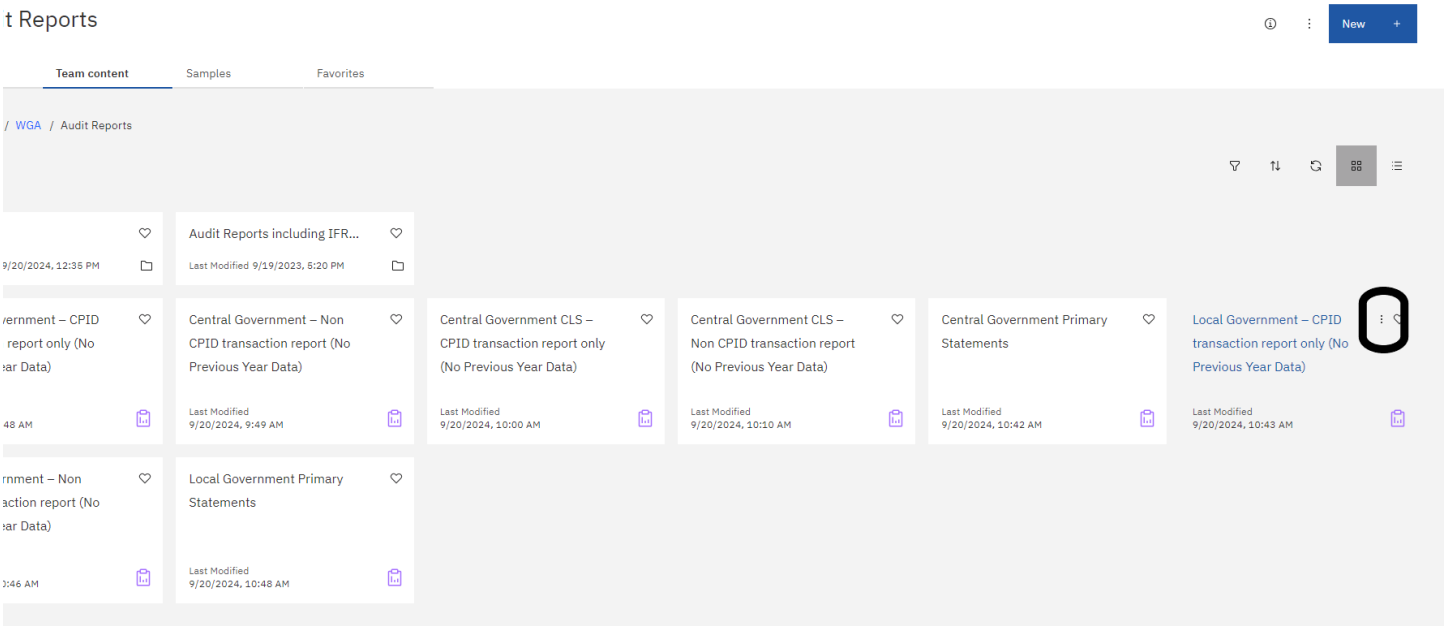

Select the type of report from the list.

OSCAR WGA – Local Government Guidance

Tick the report and click on the three dots.

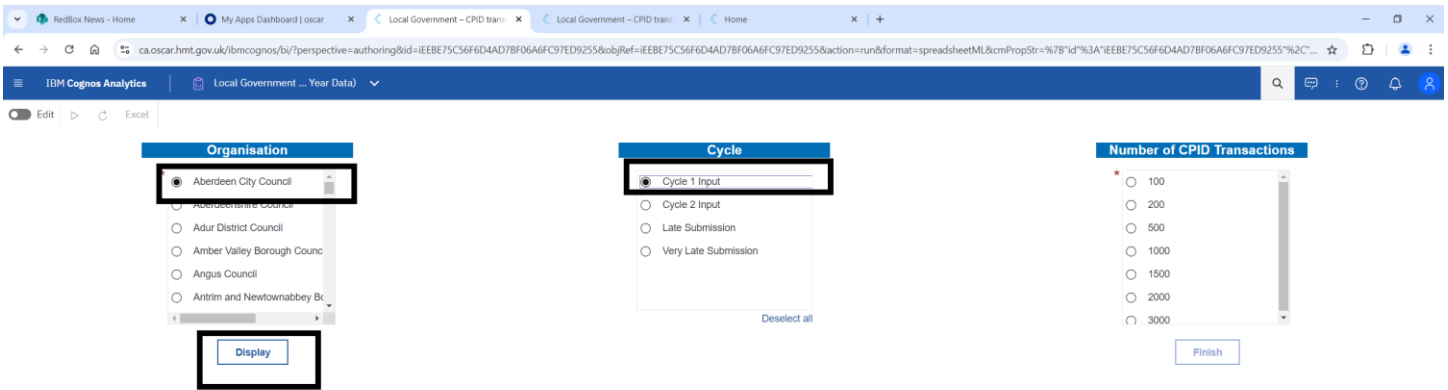

Click on run as and select excel, click on run.

OSCAR WGA – Local Government Guidance

The screenshot shows the IBM Cognos Analytics interface. At the top, there are browser tabs and a navigation bar with 'IBM Cognos Analytics' and 'Content'. The main area is titled 'Audit Reports' and shows a grid of report cards. A context menu is open over one of the report cards, listing options: 'Run as', 'Edit report', 'Create report view', 'View versions', 'Copy to', 'Add shortcut', 'Add to favorites', and 'Details'. In the foreground, a 'Run as' dialog box is open. It has two radio buttons: 'Run in background' (unselected) and 'Prompt me' (selected). Below these is a search field labeled 'Find'. The 'Format' section has a 'Use default format' toggle (selected) and radio buttons for 'HTML', 'Excel Data', 'PDF', 'CSV', 'Excel' (selected), and 'XML'. The 'Accessibility' section has a checkbox for 'Enable accessibility support' (unchecked). On the right side of the dialog, there is a 'Summary' section with details about the report view. At the bottom right of the dialog, there are 'Cancel' and 'Run' buttons.

Select the Organisation and Cycle
Click Display

OSCAR WGA – Local Government Guidance

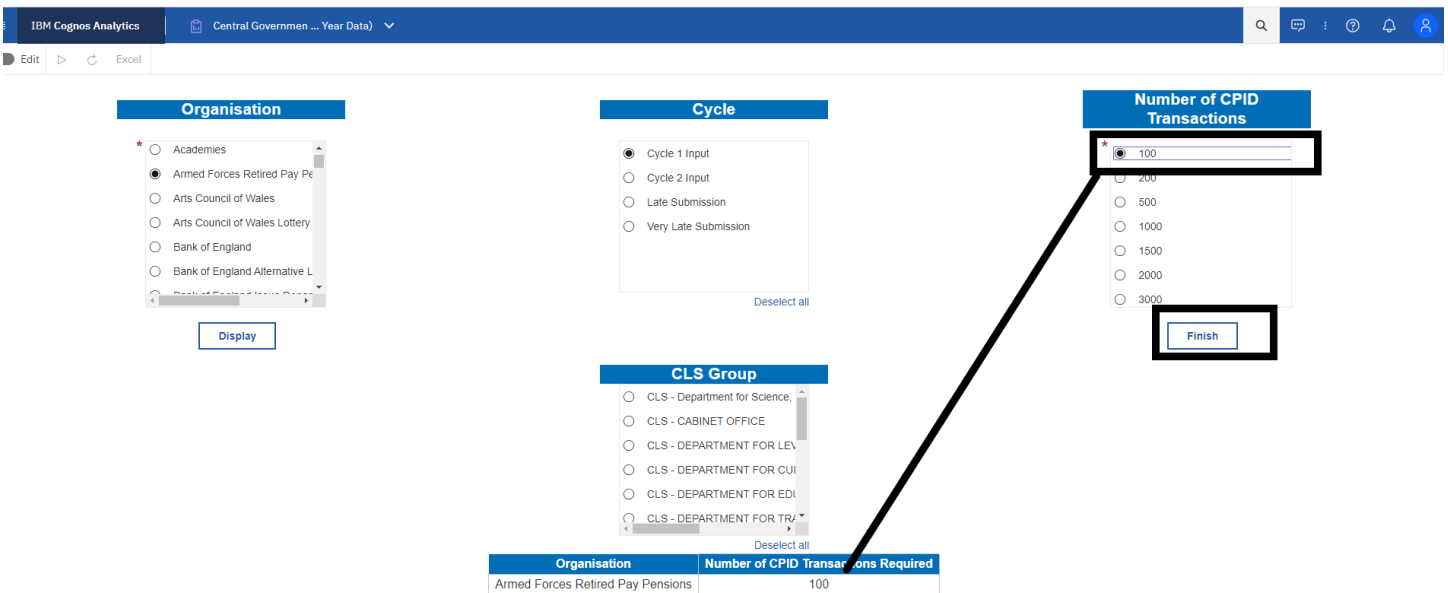

Please select an organisation and click 'Display' to show the required number of CPID transactions to select in the prompt above.

PLEASE NOTE:

After Selecting Organisation this report can take upwards of 30minutes to run. Please do not try refreshing or rerunning while the report is working.

The system will display the number of CPID transactions. Select the appropriate number of CPID transactions and click "Finish."

PLEASE NOTE:

After Selecting Organisation this report will take upwards of 30minutes to run. Please do not try refreshing or rerunning while the report is working.

The report will start running as shown.

OSCAR WGA – Local Government Guidance

PLEASE NOTE:

After Selecting Organisation this report can take upwards of 30minutes to run. Please do not try refreshing or rerunning while the report is working.

Once it is complete, it will download to your desktop.

This will populate all the tabs based on your submission, use the arrows to scroll through the tabs.

7.3.2 Accessing the Local Government – Non CPID Transaction Report Only (No Previous Year Data) Audit report

To access and view reports in OSCAR, select ‘View Reports’:

Select “Content” and then “Team Content.”

OSCAR WGA – Local Government Guidance

Select WGA.

Select Audit Reports.

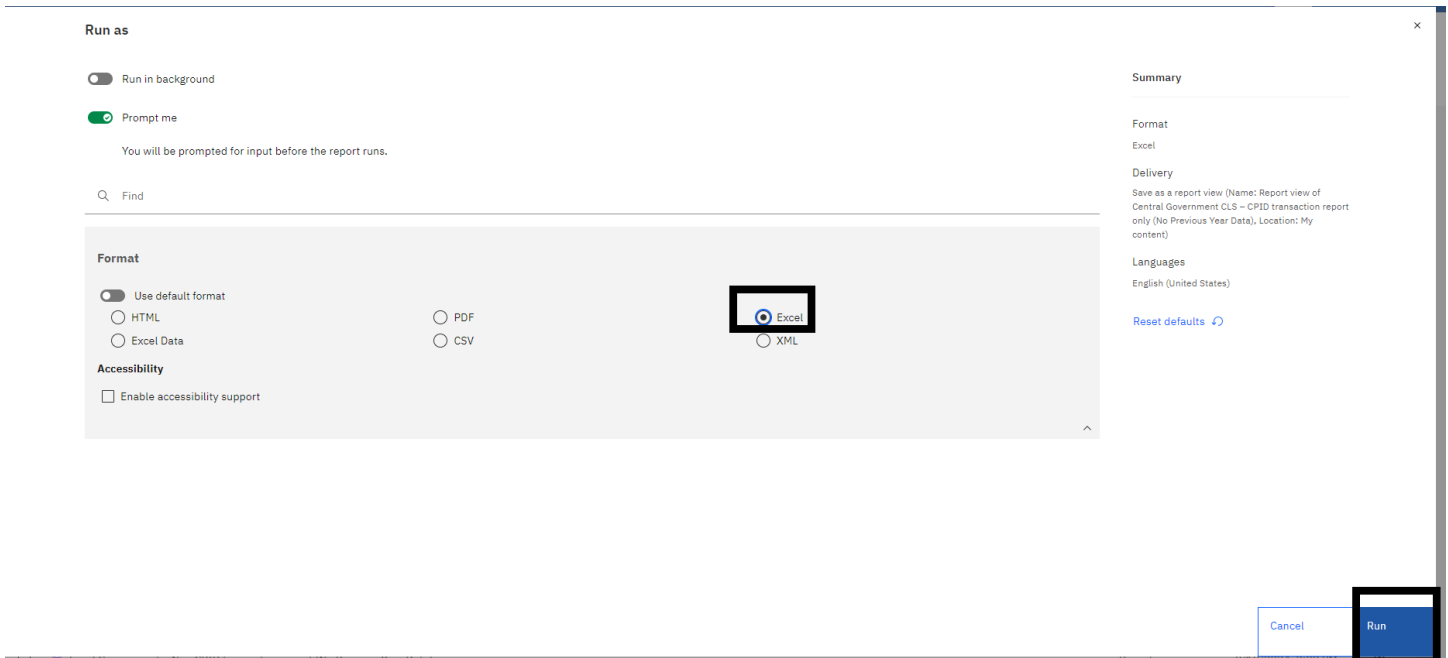

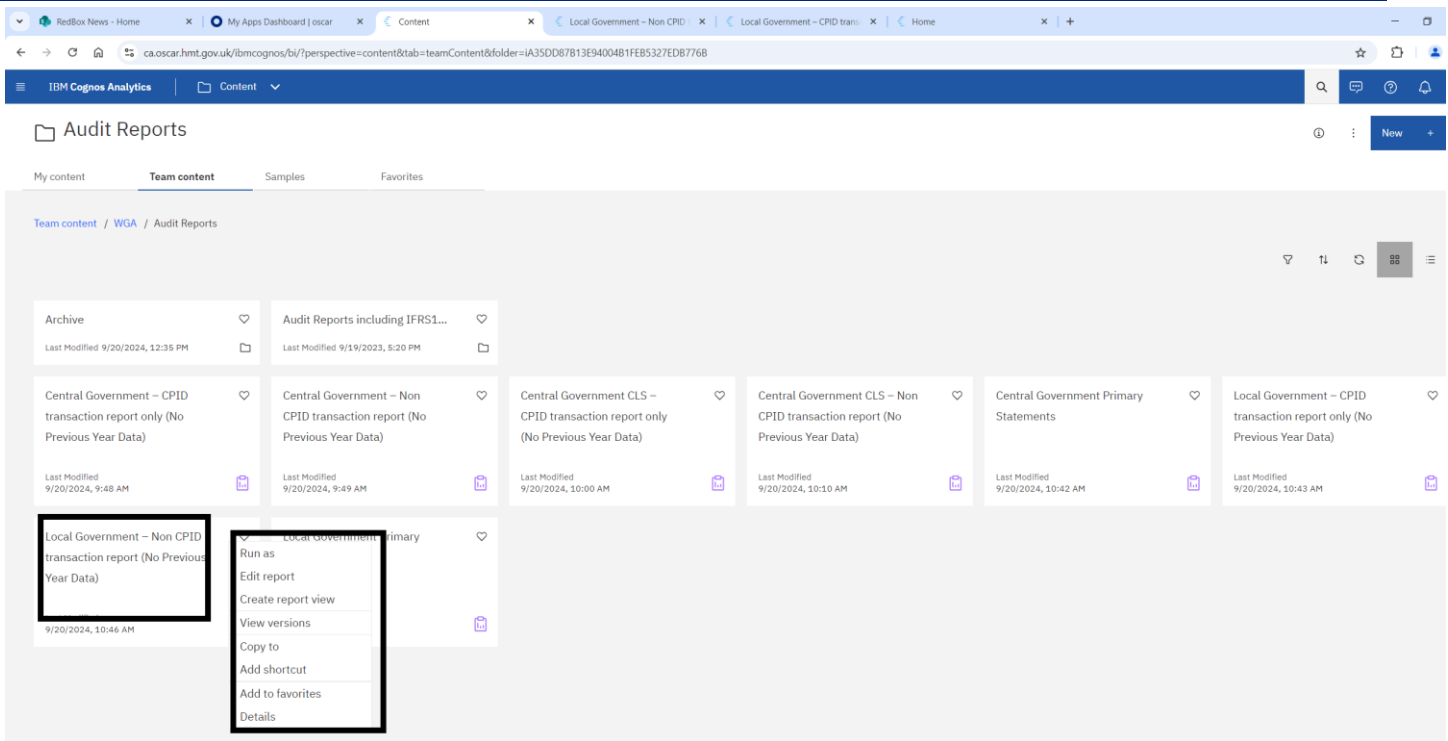

Select the type of report from the list.

Tick the report and click on the three dots.

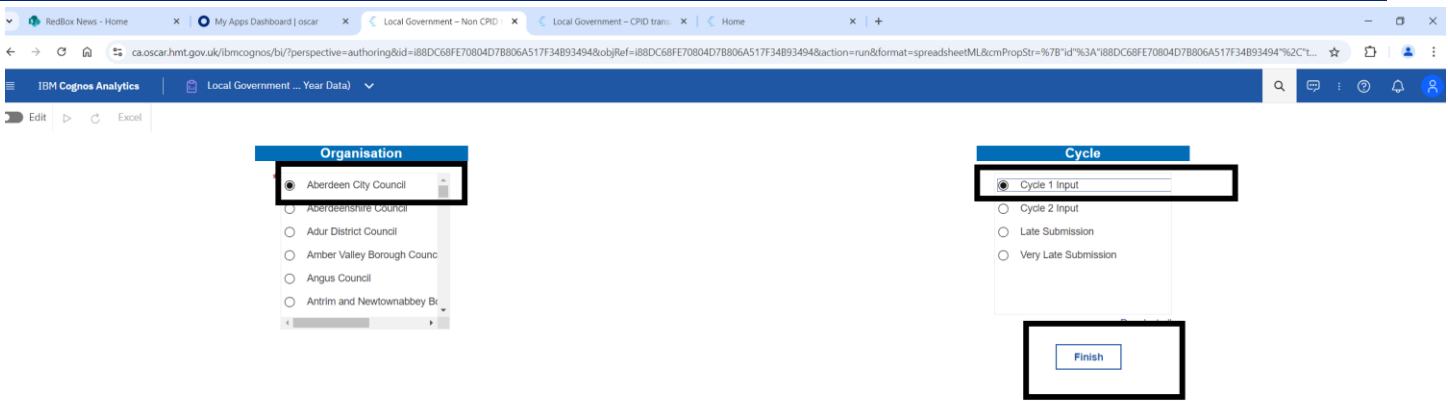

Click on run as and select excel, click on run.

OSCAR WGA – Local Government Guidance

Select the Organisation and Cycle, Finish

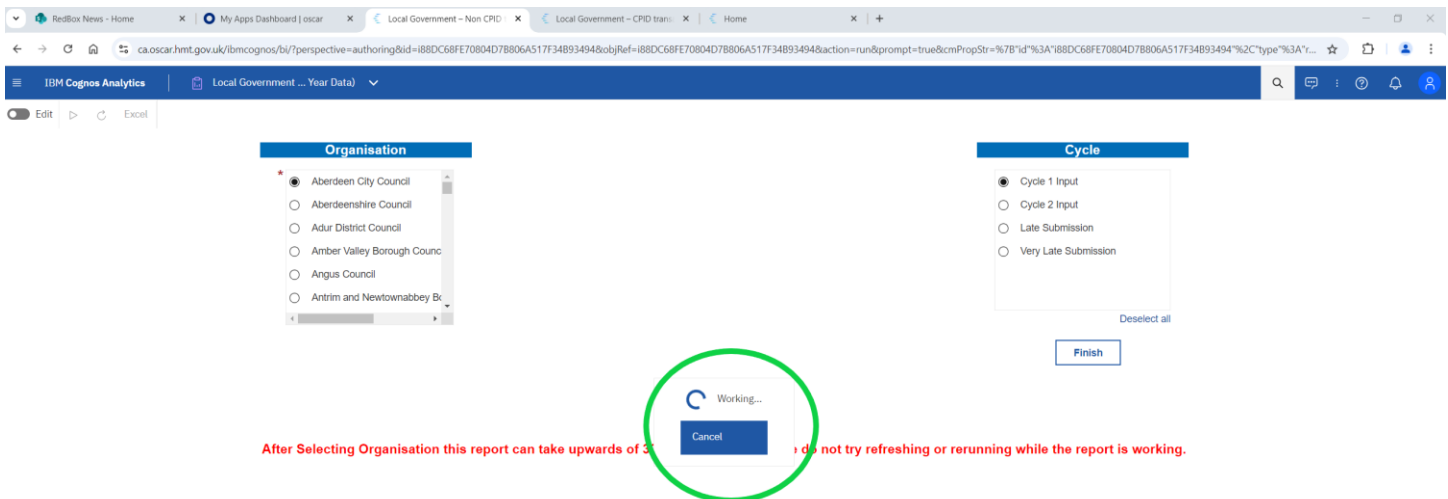

OSCAR WGA – Local Government Guidance

PLEASE NOTE:

After Selecting Organisation this report can take upwards of 30minutes to run. Please do not try refreshing or running while the report is working.

The report will start running as shown.

After Selecting Organisation this report can take upwards of 30minutes to run. Please do not try refreshing or running while the report is working.

Once it is complete, it will download to your desktop.

This will populate all the tabs based on your submission, use the arrows to scroll through the tabs.

Follow the Steps above to run the **Local Government Primary Statement Audit report**.

7.3.3 Proforma tabs in the Audit report

Proforma tabs from the data input screens are replicated in the Audit report. There are some added items to be aware of on the Audit report as described below:

1. On the proforma tabs there are SCOA codes included for reference
2. To scroll through the page, you can use the 'Page up' and 'Page down' buttons highlighted.
3. Auditor comments can be captured.

IMPORTANT:

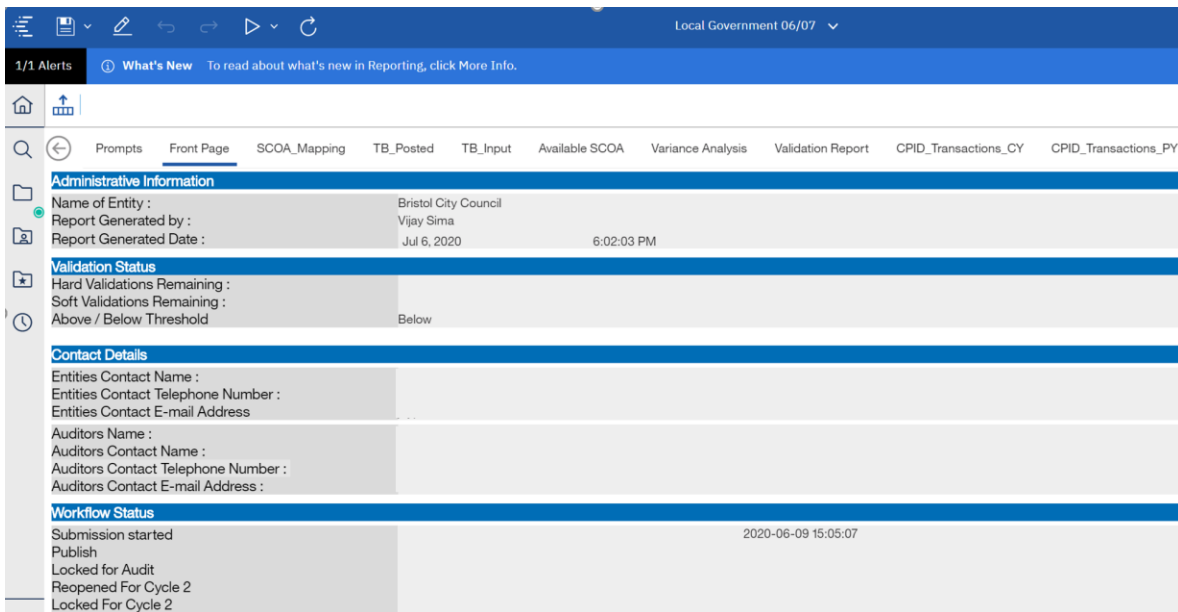

The Auditor report should be run and shared with your auditors at ‘**Step 4 – Submit and close Cycle 1**’ and again at ‘**Step 6 – Lock for Cycle 2**’.

7.3.4 Additional tabs in the Audit report

There are some additional tabs on the Audit report which are presented in a different format or not included on the data input screen.

Front Page

This page shows key information including validations, contact details, and timestamps for the key workflow stages. A report generation date is included to ensure version control is preserved.

Variance Analysis

This shows the difference in data from Cycle 1 to Cycle 2.

OSCAR WGA – Local Government Guidance

Variance Analysis between Cycle 1 and Cycle 2 returns
This tab shows differences at a total SCOA level between cycle 1 and cycle 2 submissions. This will not identify differences between CPID allocations within the same SCOA

	Cycle 1	Cycle 2	Variance
11211000	633,436		633,436
11221000	-32,811		-32,811
11311000	1,664,774		1,664,774
11321000	-8,309		-8,309
11511000	64,984		64,984

11215000	G	This code cannot be used for CPID input.
11216000	G	This code cannot be used for CPID input.

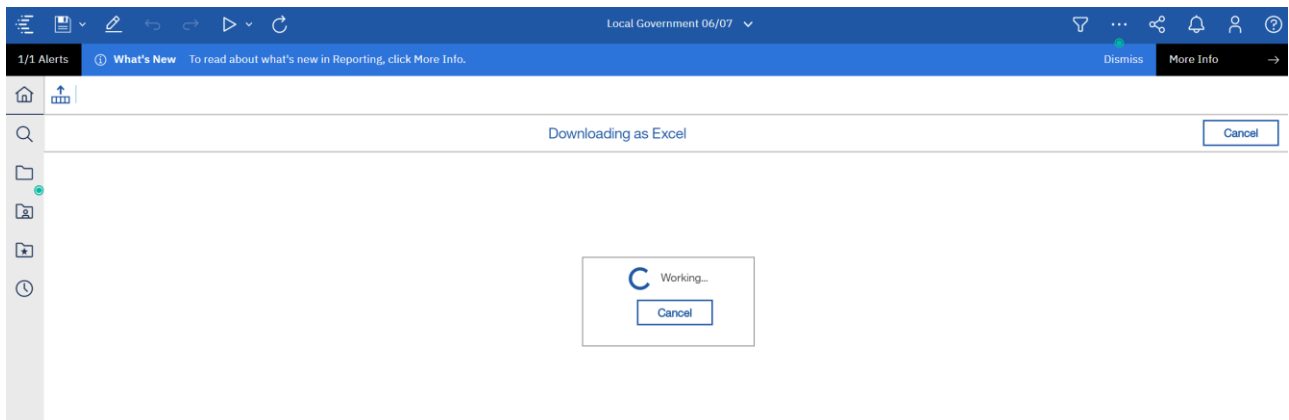

7.3.5 Exporting the Audit report

You can export the Audit report in multiple formats to share with your auditors for review:

1. Select your preferred option from the drop-down list to run or export the report indicated by the 'play' button.
2. It is advised to export the report in excel, please select 'Run Excel.'

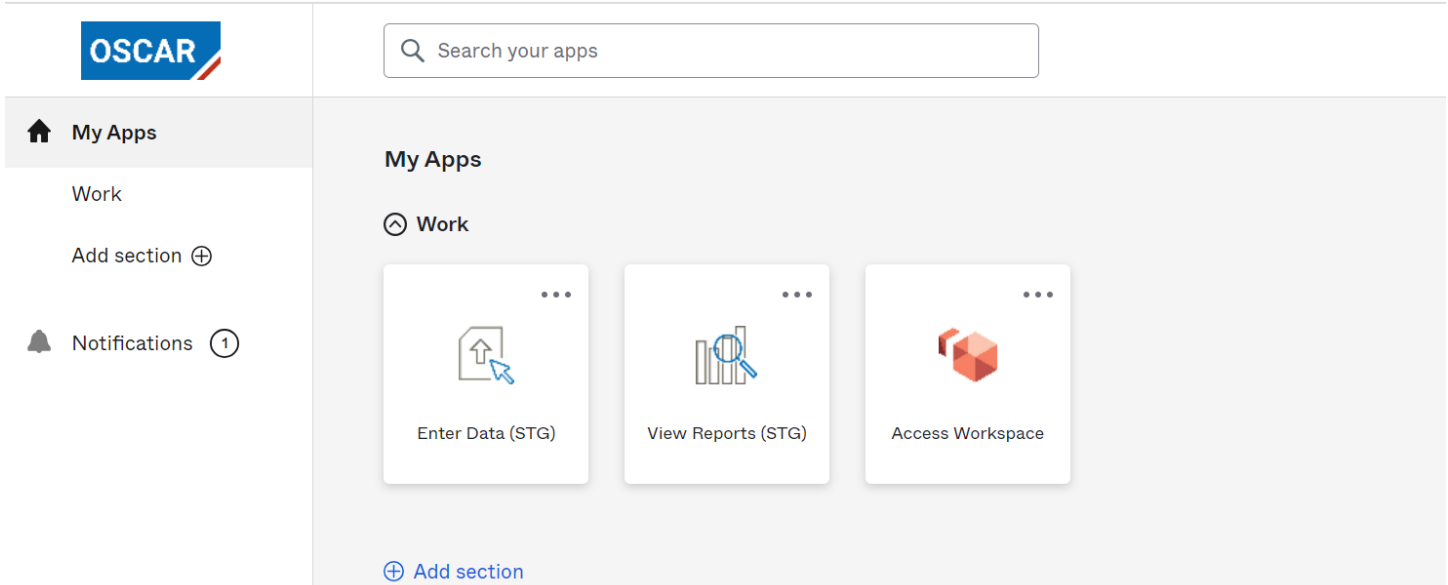

3. The following screen will be presented to indicate the report is being downloaded and can be saved to your device.

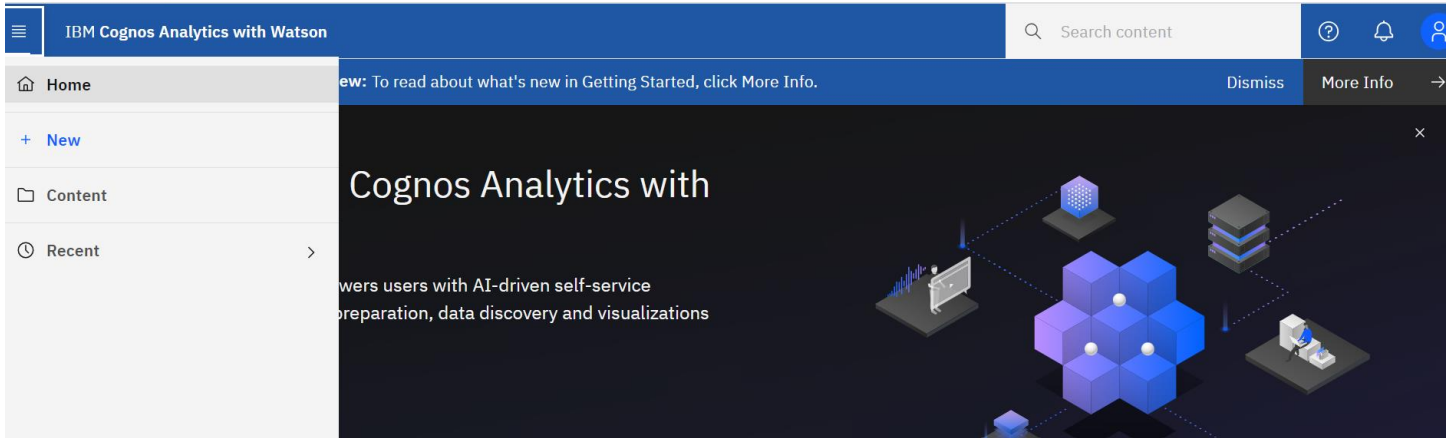

7.3.6 Historic Audit Reports

Historic Audit Reports can be run for the prior year. These can be accessed as follows in Cognos Analytics on Oscar.

Select “View Reports” from the Homepage on Oscar.

Select “Content” and then “Team Content.”

Select “WGA.”

OSCAR WGA – Local Government Guidance

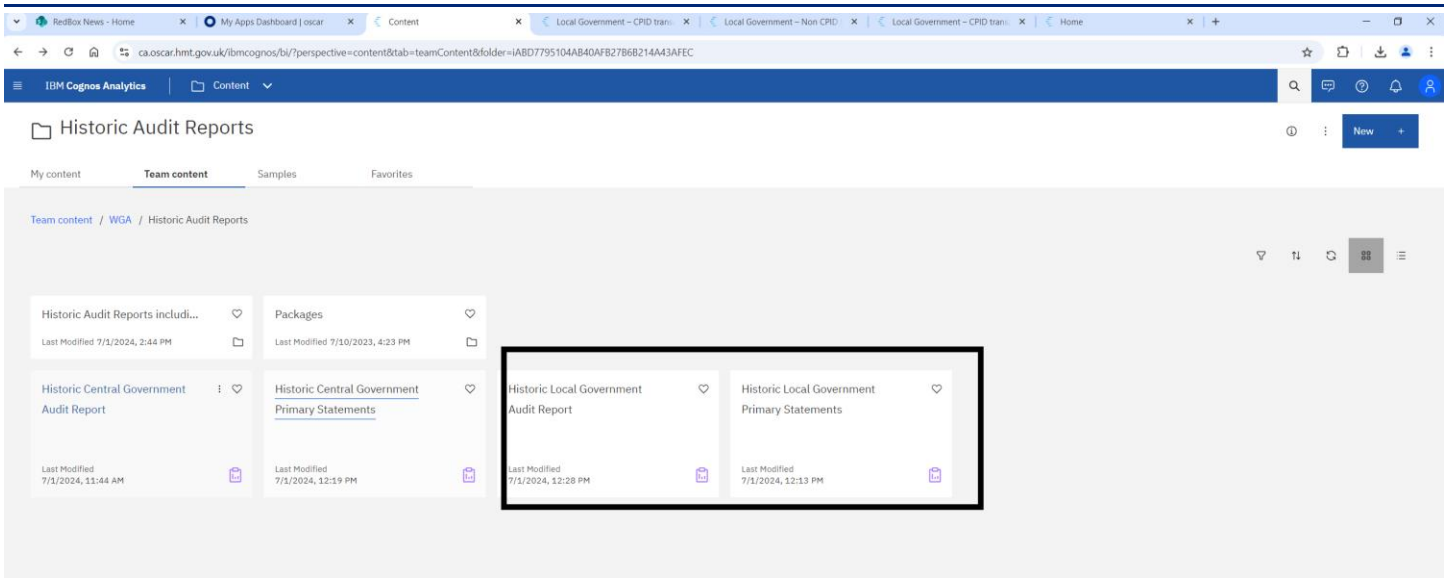

The screenshot shows the IBM Cognos Analytics interface. At the top, there is a navigation bar with 'IBM Cognos Analytics with Watson', 'Content', and a search bar. Below the navigation bar, the main heading is 'Content'. There are two tabs: 'My content' and 'Team content', with 'Team content' selected. A 'New +' button is in the top right. The main area displays a grid of folders under 'Team content'. The folders are: 'FR1' (Last Accessed 2/23/2023, 12:11 PM), 'Security testing' (Last Accessed 2/23/2023, 12:11 PM), 'testing' (Last Accessed 2/23/2023, 12:11 PM), 'WGA' (Last Accessed 6/29/2023, 2:46 PM), 'WPR OSCAR I and OSCAR II Reconcili...' (Last Accessed 2/23/2023, 12:11 PM), and 'WPR Reports' (Last Accessed 2/23/2023, 12:11 PM). A toolbar with various icons is visible at the top right of the grid.

Then select “Historic Audit Reports.”

The screenshot shows the IBM Cognos Analytics interface with the 'WGA' folder selected. The breadcrumb path is 'Team content / WGA'. The main area displays a grid of folders under 'Team content'. The folders are: 'Archive' (Last Accessed 6/29/2023, 2:46 PM), 'Audit Reports' (Last Accessed 5/10/2023, 6:28 PM), 'Consolidation' (Last Accessed 2/23/2023, 12:11 PM), 'DCT' (Last Accessed 2/23/2023, 12:11 PM), 'Historic Audit Reports' (Last Accessed 7/13/2023, 11:32 AM), and 'Packages' (Last Accessed 2/23/2023, 12:11 PM). A toolbar with various icons is visible at the top right of the grid.

Run

Historic Local Government Primary

Click on "run."

OSCAR WGA – Local Government Guidance

Please select an organisation and click 'Display' to show the required number of CPID transactions to select in the prompt above.

PLEASE NOTE:

After Selecting Organisation this report can take upwards of 30minutes to run. Please do not try refreshing or rerunning while the report is working.

Select Cycle 1 or Cycle 2

Click on Display

The system will tell you show you the number of CPID transactions.

Tick the relevant number of CPID transactions and click finish.

Click 'Finish' to run the report. This will download to your desktop in excel.

This will populate all the tabs based on your submission, use the arrows to scroll through the tabs.

After Selecting Organisation this report can take upwards of 30 minutes to run. Please do not try refreshing or rerunning while the report is working.

The report will run and be downloaded to Excel on your desktop. This process typically takes between 8-10 minutes, but it can take up to 15-20 minutes.

The layout of the Historic Audit Report is identical to the Audit Report layout and includes all the tabs of the submitted DCT.

7.4 Next steps

After completing the proformas and passed all validations, you would have successfully submitted the WGA return.

8 Annex A – Proforma tabs

Worksheet Description	Comments	Action
CI&E	Comprehensive Income & Expenditure Accounts: Net Operating Expenditure and Surplus/Deficit for the year	The C I & E tab collects income and expenditure information, including grant and taxation income.
Restatement CI&E	Prior Year Comprehensive Income & Expenditure Statement - Restated	If you have any restatements for prior year comprehensive income and expenditure, enter the adjustment amount to align to last year's CI&E figure. Any necessary restatements according to the income or expenditure type (such as staff costs, or grants and subsidies), and reason for the adjustment (such as accounting policy changes, or changes to your authority's structure etc.) will be populated from the Restatement Analysis tab.
Balance Sheet	Balance Sheet – Including Restatements	The balance sheet is populated from the other proforma sheets within the OSCAR. Last year's opening balances will be automatically pre-populated.
Restatement Analysis	Restatement Analysis	<p>The aim of this sheet is to provide details of any prior period restatements, which will feed through to the primary statements and relevant tabs of the DCT.</p> <p>Any entity who has made a prior period adjustment must complete this tab. Please select the primary statement, note (SCOA will automatically complete), and restatement reason. Then enter the debits and credits into the schedule.</p>

OSCAR WGA – Local Government Guidance

Liabilities & Provs	Liabilities & Provisions	This tab collects data on long- and short-term creditor balances, long and short-term receipts in advance, provisions, and donated assets. Note that certain short-term creditor cells are linked to the Collection Fund tab. There are additional analysis sections to further split out “other” short term and long-term creditor balances.
Fin Inst	Financial Instruments	<p>If you have a material risk in particular areas, such as credit risk, additional information will also be required on the tab. In the fair values section, we ask you to confirm the amount of the balance, which is held with WGA counterparties, and then only disclose the fair value of the remaining, externally held amount.</p> <p>In the expected credit loss section, you need to identify expected credit loss impacting financial assets held at amortised costs, split between the categories for Stage 1, 2, 3 or simplified impairment rule & paragraph 5.5.15 rule (trade receivables, contract assets or lease receivables for which the loss allowances are measured in accordance with paragraph 5.5.15 of IFRS 9)</p> <p>The financial instruments tab will contain data fed through from the Investments, JVs, and Associates tabs, as well as from trade and other payables and trade and other receivables. Therefore, please ensure you have entered data into those tabs before beginning financial instruments.</p>
Non-Curr Assets – Add Info	Non-Current Assets – Additional Information	The NCA Additional Information tab is used to identify material assets not consolidated into WGA, such as voluntary aided schools or shared ownership assets
PP&E & Invest Prop	Property, Plant & Equipment, and Investment Properties	For PP&E, please note that we require land to be split out separately from buildings. Please also remember to fill out the cash flow information section at the bottom of the tab.
ROU	Right of Use Assets	IFRS 16 introduces Right of use assets effective from 1 April 2022. Entities should record leased asset data here if adopting IFRS 16. Otherwise, leased asset data for non IFRS 16 compliant entities should be recorded in the usual way in the PPE and IFA tabs. You must also provide opening balance data on first time adoption as well as asset financing data.
Intangibles	Intangible Assets	One point to note is that heritage assets have been designed so that they cannot be depreciated. If you need to depreciate an intangible heritage asset, this will need to be entered in the other movement line.

OSCAR WGA – Local Government Guidance

<p>Inv, JVs & Assoc</p>	<p>Joint Ventures & Associates and Investments</p>	<p>We have incorporated changes made to IFRS 9. The public sector will apply retrospective application without restatement of comparatives from 1 April 2018. We collect short term and long-term investment totals, and then ask you to split these between amounts with WGA counterparties (“internal” amounts) and amounts with external parties. Please ensure this split is in line with the counterparty allocations you plan to make on the CPID transactions tab later. For the other financial assets table, there are three new implemented categories. The categories are now “amortised cost”, “Fair value through profit or loss” and “Fair value through OCI”. External balance will be brought through from the earlier tables and split out manually. You also need to categorise the assets for current deposits and current loans as either “Fair value through profit or loss” or “Fair value through OCI”. If you do not have external balances for current loans or current deposits, please do not complete this table.</p>
<p>Current Assets & AHFS</p>	<p>Current Assets (including long-term debtors) & Assets Held for Sale</p>	<p>This tab collects data on inventories, debtors, cash holdings and assets held for sale.</p>

OSCAR WGA – Local Government Guidance

CollFund	Collection Fund	<p>The collection fund tab will not be visible to Welsh, Scottish or Northern Irish local authorities. Only English local authorities will complete this. This worksheet is used to record the breakdown of the Collection Fund Adjustment Account balance as at year end.</p> <p>This tab is used for both preceptor and billing authority. So, depending on which one you are will depend on how you fill in this spreadsheet. The worksheet is divided into two sections – the top section is for Council Tax and the bottom section is for Business Rates.</p> <p>Data is required on any line not marked “Leave row blank”.</p> <p>Where the WGA preparer is a Billing Authority – the Council Tax section will disclose the name of the Billing Authority and its Major Preceptors, and the Business Rates section will disclose the name of the Billing Authority and its Major Preceptors and Central Government.</p> <p>Where the WGA preparer is a County Council or Fire Authority – the Council Tax and Business Rates sections will disclose the names of each Billing Authority.</p> <p>Where the WGA preparer is a Police and Crime Commissioner – the Council Tax section will disclose the name of each Billing Authority, but the Business rates section shows the message “leave row blank”.</p> <p>Where the WGA preparer is a body that does not receive Council Tax or Business Rates, then both sections will be marked “leave row blank”.</p>
IAS 19 Pensions	IAS 19 Pension Liability	<p>This tab collects information on your scheme assets and liabilities, as well as additional disclosure and analysis information. Please provide the additional information if it is available to you in your actuarial report.</p>
Reserves	Reserves	<p>When completing your reserves data, if you cannot locate a column for a particular usable reserve, please note there is an “other earmarked reserves” column available</p>
I&E NCS Subjective Analysis	Comprehensive Income and Expenditure Accounts: Net Cost of Services	<p>This tab collects income and expenditure information according to your net cost of services, with pensions and staff data feeding from the applicable tabs. Please only use the miscellaneous income category as a last resort.</p>

OSCAR WGA – Local Government Guidance

Additional Data	Additional Disclosures	This tab looks at your finance and operating leases (non IFRS 16) and leases (IFRS 16), and PFI contracts. Please note that staff numbers must be entered as whole numbers (not £000's).
Add Info transferred debt	Additional Disclosure: transferred debt	This tab is only relevant for English local government, who should complete this tab if they are holding transferred debt as a balance sheet liability.

9 Annex B – CG forms

9.1 CG-03- Confirmation of Minor Body status

This form is to confirm minor body status. Consolidation Managers of minor bodies should complete the form. Completed forms should be sent to the Treasury WGA Team at LG_WGAreturns@hmtreasury.gov.uk

9.2 CG-04 -Management Review Checklist

All entities that submit a WGA return must complete a CG-04 form. **There is no longer a requirement for CEO's to lock the OSCAR submission prior to submission.**

This form is to document management's review of the WGA submission.

The Management Review Checklist provides assurance that proper procedures are in place for providing WGA data in line with the entity's accounts and that the quality of WGA data is of the standard required for a true and fair audit opinion. This checklist informs and records the management processes of preparation, review, and validation of WGA submissions.

9.3 CG-05 - Notification of Audit Completion

This form is completed at the end of the DCT audit process and signed-off by the Consolidation Manager. This should then be forwarded to the auditors, who will provide it to Treasury along with the version of the Auditor Report that they signed off on.

10 Annex C - Acronyms and jargon (A-Z)

Acronym	Description
%	Percentage
£	Pounds sterling
£k	Thousands, pounds sterling
ALB	Arm's length body
CG	Central Government
CLOS	Clear line of sight
CPID	Counter party identification
CR	Credit
Cycle	Collection year
DCT	Data collection tool
DR	Debit
FinCost	Financial costs
FReM	Financial Reporting Manual
FVOCI	Fair Value through Other Comprehensive Income
FVPL	Fair value through profit or loss
FX	Foreign exchange
Hard validation	Will show a warning which will prevent a user from moving onto the next step i.e., submit
HMT	Her Majesty's Treasury
I&E	Income and Expenditure
IAS	International Accounting Standard
IFA	Intangible fixed asset
IFRS	International Financial Reporting Standard
JV	Joint Venture
JV&A	Joint venture and associates
LG	Local Government
MOG	Machinery of Government
MR	Match relationship
N/A	Not applicable
NAO	National Audit Office
NCA	Non-current asset
NDPB	Non departmental public body
O-Fin-Assets	Other financial assets
O-Fin-Liab	Other financial liabilities
OSCAR	Online System for Central Accounting and Reporting
PFI	Private Finance Initiative
PFI team	Private Finance Initiative team
PPE	Property, Plant, and Equipment
PPP	Public Private Partnerships

OSCAR WGA – Local Government Guidance

Acronym	Description
SCOA	<i>Standard chart of account</i>
SOCI	<i>Statement of Comprehensive Income</i>
SOFP	<i>Statement of Financial Position</i>
<i>Soft validation</i>	<i>Will show a warning that the value entered may need to be checked however will not prevent a user from progressing to the next step</i>
T&OP	<i>Trade and other payable</i>
T&OR	<i>Trade and other receivable</i>
TB	<i>Trial balance</i>
WF	<i>Workflow</i>
WGA	<i>Whole of Government Accounts</i>
