

<p><b>Unit H</b>  <b>Eastgate Retail Park</b>  <b>Eastgate Road</b>  <b>Eastgate</b>  <b>Bristol</b>  <b>BS5 6XX</b></p>	<p><b>Photo Schedule</b>  <b>External Alterations</b></p>	<p><b>PV.1434</b>  <b>June 2024</b></p>
--	---	---

1.&2.

1. North-east elevation showing the external architectural design of the building, including the use of white coloured metal sheet cladding, extensive glazing with light grey aluminium framing, the existing access and projecting roof parapet. The first section of the roof parapet will remain unchanged. The second section will be amended to sit back and create a more comfortable relationship with the adjacent Unit G.

2. North-east elevation showing the external architectural design, materials palette, existing entrance and the roof parapet and corner tower feature to be removed. This shows the dark and uninviting undercroft under the corner tower feature.

3.

3. Longer view of the north-east elevation, showing the external architectural design of the facade, including the palette of materials, the ratio of glazing to cladding, the roof parapet, the corner tower feature and the relationship with Unit G.

4.&5.

4. North-east elevation focusing on the corner tower feature to be removed, the roof parapet and the relationship with the adjacent Unit G.

5. The corner tower feature. This shows the dark undercroft area limits accessibility on the pavement but is also a magnet for anti-social behaviour. It also reveals the uncomfortable architectural relationship between Units H and G.

6.

6. Part of north-east elevation showing the existing entrance that will be altered to provide a single door and the area of glazing that will be changed to provide a set of glazed double doors.

7.&8.

7.& 8. South/south-west elevation (the principal elevation). This will remain unchanged.
