**Inspection of licence applications** can be requested under the provisions of Regulation 9 of the Goods Vehicles (Licensing of Operators) Regulations 1995 by anybody who holds statutory objector status. Applications may be inspected free of charge at the Office of the Traffic Commissioner in Leeds by any person who carries written authorisation to act in that capacity.

**Objections against published applications** may be made in writing by a Chief Officer of Police, a local authority, a planning authority or a prescribed trade union or association within 21 days of the date on which notice of an application is published in Applications and Decisions. Objections must be made either on the grounds that any of the requirements listed in Section 13 of the Goods Vehicles (Licensing of Operators) Act 1995 are not met and/or that a nominated operating centre will be unsuitable for use as such. A copy of the objection must be sent by the objector to the applicant at the same time that it is sent to the Traffic Commissioner. The onus of proof in terms of the grounds on which an objection is lodged lies with the objector.

**Classification of Operator Licences** – There are three classes of licence:

- A **Restricted (R)** licence authorises the use of a goods vehicle on public roads in Great Britain for the carriage of the licence holder's own goods in the course of his trade or business. The licence holder cannot carry goods for other people for hire or reward;
- A **Standard National (SN)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward, on public roads in Great Britain. He can also carry his own goods on journeys abroad;
- A **Standard International (SI)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward. These activities can be undertaken both in Great Britain and on international journeys.

Courses must be run by a trade association (Logistics UK/RHA/BAR/CPT), a professional body (IoTA/CILT/SOE/IRTE) or an OCR-approved exam centre offering the transport manager CPC qualification in [goods][passenger] transport.

Virtual online courses must satisfy the criteria for such courses established by the traffic commissioners. Whether attending in person or participating in an online course, proof of attendance must be kept by the operator and provided to the OTC or DVSA upon request.

For information – not part of the formal undertaking:

The criteria for virtual transport manager CPC refresher courses are:

- the instructor and all course participants must be visible to each other and audible throughout the training;
- participants must participate by means of a tablet, laptop or PC with the necessary camera/microphone capability. Participation by smartphone is not acceptable unless it has the full functionality of the larger devices;
- the course provider must be able to verify the identity of all participants and do so before the course commences;
- the instructor must be able to interact with participants, display material and discuss it simultaneously;
- the course must replicate as far as is possible the training which would have been delivered in a physical environment.
- there must be some element of assessment at a point or points during the training, to verify that participants have actively engaged in the course;
- while the virtual element of the course need not last 14 hours, total participation time for each attendee (including prior reading, completion of “homework” modules etc) should be in this region.

If you are in doubt as to whether a course fulfils these criteria, please check with the OTC before booking it.

Please note that in offering the undertaking you, as the operator, are required to ensure compliance with it and provide all evidence by the due date. This office will not send you any reminders and failure to comply with the undertaking may lead to regulatory action being taken against your licence.. Attached to licence. ## Section 3 – Schedule 4 Applications

**Schedule 4** to the Goods Vehicles (Licensing of Operators) Act 1995 allows, in certain situations, the transfer of operating centres from one existing licence to either another existing licence or as part of a new licence application. A range of qualifying criteria has to be met, with approval at the Traffic Commissioner's discretion. An important consideration in the process is any environmental history relating to the subject operating centre or any potentially adverse environmental impact resulting from the transfer. Legislation prevents any statutory objection against the Schedule 4 element of an application.

**New Applications (Section 3.1):** where the Traffic Commissioner has given a direction that the provisions of paragraph 2 of Schedule 4 shall apply, objections may only be lodged against the published application under Section 12(1)(a) of the 1995 Act, disregarding the suitability of the operating centre for use as such by the applicant as set out in Section 13(5)(d) of the Act.

**Variation Applications (Section 3.2):** where the Traffic Commissioner has given a direction that the provisions of paragraph 4 of Schedule 4 shall apply, objections may again only be lodged against the published application under Section 12(1)(a) of the 1995 Act unless that transfer can be accommodated without any overall increase in the existing overall vehicle/trailer authorisation on the receiving licence, in which case there is no statutory requirement to publish details of that application. However, **Section 3.3** does detail any such applications in order that interested parties are made aware of changes to authorised operators at listed operating centres
