

Salsa Rangefinder 2.1 Advent and Salsa Rangefinder Deore Bicycle	
Aspect	Details
Images	No image available.
PSD Number	2409-0119
Product Type	Hobby / sports equipment – Bicycle Components
Product Identifiers	Brand: Salsa Sales period: The affected products were sold from 2023 onwards. Please refer to Annex A on page 2 for full details on the affected products.
Product Description	Various models of Salsa branded Rangefinder 2.1 Advent X29 and Rangefinder Deore 11 bicycles.
Country of Origin	United States
Counterfeit	No
Risk Level	Not provided
Risk Type	Injuries
Risk Description	The affected products present a risk of injuries as it has been identified that during a specification change, an incorrect brake rotor was fitted to the bicycles. In addition to the specification change, a 1mm spacer was added to the brake caliper, which causes the brake pads to sit slightly high on the rotor. As a result, the brakes may not function properly, potentially leading to the user falling or injuring themselves. The affected bicycles do not meet the requirements of the General Product Safety Regulations 2005
Corrective Measures	The affected products have been recalled from end users. Affected consumers are advised to contact their place of purchase to receive a replacement 180mm front brake rotor and have a new brake adaptor and appropriate mount installed. A 160mm rear brake rotor will also be supplied to brand match front and rear. For further information, please access the Lyon Equipment site here: https://www.lyon.co.uk/product-notices .
