The West Midlands region comprises Shropshire, Staffordshire, Herefordshire, Worcestershire and Warwickshire.

Key statistics for the West Midlands region

- Total Income from Farming¹ in 2023 was £527 million, a decrease of 19% since 2022 (Source: [Total Income from Farming for the regions of England](#)).
- In 2023, the largest contributors to the output² value (£3.1 billion) were milk (£553 million), poultry (£541 million) and wheat (£253 million). These commodities accounted for 43% of the output (Source: [Total Income from Farming for the regions of England](#)).
- The average farm size in 2023 was 67 hectares (Table 1.1). This is the smallest average farm size of all the English regions and smaller than the English average of 88 hectares.
- The predominant farm types in 2023 were grazing livestock (44% of the region's holdings) and general cropping (21% of the region's holdings) farms (Figure 1.4).
- Across all farm types, average Farm Business Income³ was £87,100 per farm in 2022/23, which was an increase of 19% from 2021/22 (Figure 1.6).

¹ Total Income from Farming (TIFF) is the net income to farms once costs have been accounted for, so is calculated as “outputs & subsidies” minus “inputs & costs”. [More information on aggregate agricultural accounts can be found on GOV.UK.](#)

² Output is the total value (at market prices) of commodities produced without considering production costs or any additional income received through subsidies. [More information on aggregate agricultural accounts can be found on GOV.UK.](#)

³ In simple terms, Farm Business Income (FBI) is the output generated by the farm business minus total farm costs. [More information on Farm Business Income can be found on GOV.UK.](#)

Table 1.4: Labour force in 2023 (number of people)

Measure	West Midlands	England	West Midlands as % of England
Total labour	39,825	292,401	14%
Total labour per farm	2.9	2.9	[z]
Regular workers	7,528	64,583	12%
Regular workers per farm	0.6	0.6	[z]
Casual workers	6,853	37,027	19%
Casual workers per farm	0.5	0.4	[z]
% full time	44%	46%	[z]
% part time	36%	37%	[z]
% casual	17%	13%	[z]

Source: [Defra, June Survey](#)

Notes:

1. “[z]” means “not applicable”
2. Total labour includes farmers, partners, directors, spouses, salaried managers, regular and casual workers.
3. Casual workers are those usually employed for less than 20 weeks of the year.
4. Number of workers per farm calculations are averages based on the total number of farm holdings in the region.
5. Part time workers are those employed for less than 39 hours a week.
6. Percentage calculations for full and part time workers do not include salaried managers.

Section 2: Data notes

Figures are for commercial holdings as at June 2023 (unless stated otherwise). Commercial holdings are those with levels of farming activity above a specified threshold as detailed in this publication's [guidance note](#). For further information about the June Survey of Agriculture and Horticulture please visit our [survey notes and guidance page](#) on GOV.UK.

“Region” in this statistical notice refers to [International Territorial Level 1 \(ITL1\)](#) for England. The ITL1 regions for Greater London and the South East have been combined in this statistical notice due to the fact that London has such a small farming infrastructure.

Section 3: Other geographical breakdowns

Defra June Survey data aggregated at other geographical classifications can be found in the [Structure of the agricultural industry in England and the UK at June](#) statistical data set on GOV.UK.

England regional data for aggregate agricultural accounts (including data at ITL2 and ITL3) can be found in the [Total Income from Farming for the regions of England](#) publication on GOV.UK.

English county data for farm accounts from the Farm Business Survey can be found on the [Farm Business Survey web page](#).
