## Section 1 – Applications Received

**Inspection of licence applications** can be requested under the provisions of Regulation 9 of the Goods Vehicles (Licensing of Operators) Regulations 1995 by anybody who holds statutory objector status. Applications may be inspected free of charge at the Office of the Traffic Commissioner in Leeds by any person who carries written authorisation to act in that capacity.

**Objections against published applications** may be made in writing by a Chief Officer of Police, a local authority, a planning authority or a prescribed trade union or association within 21 days of the date on which notice of an application is published in Applications and Decisions. Objections must be made either on the grounds that any of the requirements listed in Section 13 of the Goods Vehicles (Licensing of Operators) Act 1995 are not met and/or that a nominated operating centre will be unsuitable for use as such. A copy of the objection must be sent by the objector to the applicant at the same time that it is sent to the Traffic Commissioner. The onus of proof in terms of the grounds on which an objection is lodged lies with the objector.

**Classification of Operator Licences** – There are three classes of licence:

- A **Restricted (R)** licence authorises the use of a goods vehicle on public roads in Great Britain for the carriage of the licence holder's own goods in the course of his trade or business. The licence holder cannot carry goods for other people for hire or reward;
- A **Standard National (SN)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward, on public roads in Great Britain. He can also carry his own goods on journeys abroad;
- A **Standard International (SI)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward. These activities can be undertaken both in Great Britain and on international journeys.

## Section 3 – Schedule 4 Applications

**Schedule 4** to the Goods Vehicles (Licensing of Operators) Act 1995 allows, in certain situations, the transfer of operating centres from one existing licence to either another existing licence or as part of a new licence application. A range of qualifying criteria has to be met, with approval at the Traffic Commissioner’s discretion. An important consideration in the

process is any environmental history relating to the subject operating centre or any potentially adverse environmental impact resulting from the transfer. Legislation prevents any statutory objection against the Schedule 4 element of an application.

**New Applications (Section 3.1):** where the Traffic Commissioner has given a direction that the provisions of paragraph 2 of Schedule 4 shall apply, objections may only be lodged against the published application under Section 12(1)(a) of the 1995 Act, disregarding the suitability of the operating centre for use as such by the applicant as set out in Section 13(5)(d) of the Act.

**Variation Applications (Section 3.2):** where the Traffic Commissioner has given a direction that the provisions of paragraph 4 of Schedule 4 shall apply, objections may again only be lodged against the published application under Section 12(1)(a) of the 1995 Act unless that transfer can be accommodated without any overall increase in the existing overall vehicle/trailer authorisation on the receiving licence, in which case there is no statutory requirement to publish details of that application. However, **Section 3.3** does detail any such applications in order that interested parties are made aware of changes to authorised operators at listed operating centres

**Anyone wishing to observe a physical or virtual public inquiry must request to do so from the relevant Office of the Traffic Commissioner in advance of the hearing. Due to space or technology restrictions we may not be able to accommodate all requests.**

**Please contact [keith.holliday@otc.gov.uk](mailto:keith.holliday@otc.gov.uk) for further information.**

There is no obligation on the traffic commissioner to provide a transcript of proceedings. Any decision to release will refer to the reasons for the request and there may be restrictions placed on its use. That request should be made via the relevant Office of The Traffic Commissioner and the applicant must understand that they will be liable for the cost of producing the transcript. This will vary according to demand and size of content.

Appeals against any decision published in this section must be lodged with the Upper Tribunal – Administrative Appeal Chamber (Transport), 5th Floor, Rolls Building, 7 Rolls Buildings, Fetter Lane, London, EC4A 1NL not later than one month after the date of the

letter conveying the Traffic Commissioner's (or Deputy Traffic Commissioner's) decision. Appellants can obtain guidance on lodging appeals, including downloading the appeal form, from the website: [www.administrativeappeals.tribunals.gov.uk](http://www.administrativeappeals.tribunals.gov.uk)

**S26 - Licence revoked with immediate effect**

**After carefully considering all of the evidence I gave a long, and fully reasoned, oral decision. A very short summary of that oral decision is as follows.**

**The allegations made by the DVSA were all found to be proven on the balance of probabilities. I adopted those proven allegations as my own findings of fact in addition to the findings of fact I made for myself. The principle findings of fact that I relied upon in my decision making process were:**

- 1. No documents/data in accordance with the calling in letter and Case Management Directions had been provided**
- 2. A vehicle was used without an MOT for 5.5 months. During that period the vehicle was not in a fit and serviceable condition as it had no MOT in force to show that it was. A PMI does not count as a substitute for an MOT.**
- 3. No meaningful brake tests, in accordance with para 5.3 of the GTMR, were being undertaken.**
- 4. Of 8 PMIs looked at, 3 were late. The stated frequency is 42 days. The lates were at 49 days x 2 and 1 x 58 days.**
- 5. No, or no effective, DDR reporting system with driver spottable defects found at PMI but no corresponding DDR sheet. One instance in the SIPCAT report showed a dangerous defect identified in the PMI on 10/01/24 which was driver spottable but no evidence was provided that the driver had spotted it.**
- 6. No evidence of any effective tyre and wheel management system in place.**
- 7. Road safety clearly put at risk by the above findings of fact**
- 8. There was no effective management control by Mr Wilson of the driver and of maintenance related documents.**
- 9. In addition I found that as at the date of the public inquiry, Mr Wilson had no understanding of what was required to operate a compliant transport operation.**

Despite the positives in the case, and the credit that I gave for them, I determined that this case fell into the “Serious” category for consideration of regulatory action. I did not put this case into the “severe” category as there was no deliberate breaking of the rules. However, it was proportionate to revoke the operator’s licence, with immediate effect, under section 26(1)(f); breach of the general undertakings on the operator’s licence which I particularised in the hearing.
