

ORDER FORM – Special/ bespoke label request

Request for permission to produce official labels which allows the addition of trade information or other bespoke requirements (“special labels”).

Note: the DEF 1005 and 1015 Mixture labels are the only double length labels available from stock, at the price quoted on the order form – all other extended labels must be approved by APHA and the price negotiated with the contractor.

All official information as required by the Seed Marketing Regulations must still be included and the minimum size adhered to. Please note: approval must be given by APHA to ensure compliance with Regulations, before you contact the label contractor for a quotation. Repeat orders with exactly the same requirements do not need permission from APHA. Delivery may exceed 10 working days with agreement of customer.

Return to: APHA, Eastbrook, Shaftesbury Road, Cambridge CB2
