## About these statistics

This factsheet presents the latest statistics on trade and investment between the UK and Hong Kong SAR. It summarises a wide range of publicly available data, from data providers such as the Office for National Statistics (ONS) and HM Revenue and Customs (HMRC), as well as international data providers.

This factsheet is part of a wider range produced by the Department for Business and Trade which draws together many data sources into one single compendium document for each individual trade and investment partner. The full set of factsheets for different individual partners can be found on the [Trade and Investment Factsheets website](#) on GOV.UK.

Where data are available, these factsheets contain metrics on:

- [Headline trade statistics between the UK and each trading partner for the latest four quarters.](#)
- [Trade statistics by commodity and service type.](#)
- [Trade between the UK and each trading partner, broken down by UK country and English region.](#)
- [Trade in services between the UK and each trading partner, broken down by mode of supply.](#)
- [UK's market share as a total of all imports for each trading partner.](#)
- [Number of VAT-registered businesses trading goods.](#)
- [UK's Foreign Direct Investment \(FDI\) with each investment partner.](#)
- [Summary trade and investment data as reported by each trade and investment partner, as well as economic data and projections.](#)

All statistics are correct at the time of publication, with upcoming release dates available on the [Government update schedule for Official Statistics](#). The Department for Business and Trade strongly recommends users download the latest factsheet to ensure the most up-to-date statistics are used. Please do not use previous factsheets to analyse earlier time periods than those shown in the most recent factsheets, as the data will have been revised and previous factsheets will no longer be correct. For analysis of earlier time periods, please use the published source data.

For the most up to date snapshot of the UK's trade and investment position with all partners, please see the [UK trade in numbers](#) publication or the [trade and investment core statistics book](#). These statistics are based on the same data sources as this factsheet and therefore are comparable. A list of all [Official Statistics](#) publications from the Department for Business and Trade can be found online.

### Trade definitions

**UK exports** - Goods and services that were produced or sourced in the UK, which were sold to Hong Kong SAR.

**UK imports** - Goods and services that were sold to the UK, which were produced or sourced by Hong Kong SAR.

**Total or 'bilateral' trade** - The value of total trade between the UK and Hong Kong SAR (exports plus imports).

**Trade balance** - The difference between exports and imports, calculated by UK exports minus UK imports.

**Trade surplus** - This occurs when the value of UK exports to Hong Kong SAR is greater than the value of UK imports from Hong Kong SAR.

**Trade deficit** - This occurs when the value of UK exports to Hong Kong SAR is less than the value of UK imports from Hong Kong SAR.

**Headline trade statistics include trade in non-monetary gold (reported within the unspecified goods category), which can significantly affect trends for some partners. Please see the factsheet [quality and methodology report](#) for more information. These statistics are given on a balance of payments (change of ownership) basis.**

**Note:** UK trade statistics experienced higher levels of volatility between 2019 and 2022, due to the pandemic, global recession, supply chain disruption, EU Exit, Russia's invasion of Ukraine, price inflation, conflict in the Middle East, and data collection changes. All figures are reported in current prices (not adjusted for inflation), unless otherwise stated. We recognise that some of the recent changes in UK trade values will be partly due to price changes.

**Total trade** in goods and services (exports plus imports) between the UK and Hong Kong SAR was £25.2 billion in the four quarters to the end of Q2 2024, a decrease of 18.3% or £5.7 billion in current prices from the four quarters to the end of Q2 2023.

In the four quarters to the end of Q2 2024, **total UK exports** to Hong Kong SAR amounted to £16.1 billion (a decrease of 23.6% or £5.0 billion in current prices, compared to the four quarters to the end of Q2 2023).

Of all UK exports to Hong Kong SAR in the four quarters to the end of Q2 2024, £9.0 billion (55.6%) were **goods** and £7.1 billion (44.4%) were **services**. In the four quarters to the end of Q2 2024, UK **exports of goods** to Hong Kong SAR decreased by 37.9% or £5.5 billion in current prices, compared to the four quarters to the end of Q2 2023 while UK **exports of services** to Hong Kong SAR increased by 7.2% or £479 million in current prices, compared to the four quarters to the end of Q2 2023.

In the four quarters to the end of Q2 2024, **total UK imports** from Hong Kong SAR were £9.1 billion (a decrease of 6.8% or £667 million in current prices, compared to the four quarters to the end of Q2 2023).

Of all UK imports from Hong Kong SAR in the four quarters to the end of Q2 2024, £4.3 billion (46.8%) were **goods** and £4.8 billion (53.2%) were **services**. In the same period, UK **imports of goods** from Hong Kong SAR decreased by 16.2% or £823 million in current prices, compared to the four quarters to the end of Q2 2023 while UK **imports of services** from Hong Kong SAR increased by 3.3% or £156 million in current prices, compared to the four quarters to the end of Q2 2023.

This means the UK reported a **total trade surplus** of £7.0 billion with Hong Kong SAR, compared to a trade surplus of £11.3 billion in the four quarters to the end of Q2 2023. In the four quarters to the end of Q2 2024, the UK had a **trade in goods surplus** of £4.7 billion with Hong Kong SAR, compared to a trade in goods surplus of £9.4 billion in the four quarters to the end of Q2 2023. Meanwhile, in the four quarters to the end of Q2 2024 the UK reported a **trade in services surplus** of £2.3 billion with Hong Kong SAR, compared to a trade in services surplus of £2.0 billion in the four quarters to the end of Q2 2023.

<sup>9</sup>This factsheet contains data as reported by the UK, users are advised to use UK-reported data where possible for consistency between partners. These data are subject to [asymmetries](#) e.g. the value of UK exports to Hong Kong SAR (reported by the UK) may not match the value of Hong Kong SAR imports from the UK (reported by Hong Kong SAR).

<sup>10</sup>Data are in current prices, meaning no adjustment has been made to account for changes in inflation or exchange rate. The totals may not exactly match the sum of their parts due to rounding.

## Trade in goods by UK countries and English regions, in current prices (HMRC)<sup>18 19</sup>

### Regional trade definitions

**UK regions** - The UK is categorised into 12 regions based on the International Territorial level 1 (ITL1). This level includes 9 regions in England, as well as Wales, Scotland and Northern Ireland.

**Regional trade data** - The data are compiled by merging HM Revenues & Customs (HMRC) trade data with employment data from the Interdepartmental Business Register (IDBR) so a business' trade can be allocated to a UK region based on the proportion of its employees employed in that region. Where a trader is not matched with the IDBR, its trade is matched with ONS postcode data to obtain the UK region in which the Head Office of the VAT-registered business is based.

The maps below show the value of UK goods exports and imports between each UK region and Hong Kong SAR in 2023. The maps are shaded with the 3 UK regions with the highest amount of trade as the darkest colour, and the 3 UK regions with the lowest amount of trade as the lightest colour.

The data that are presented in the maps above for 2023 in £ billion are also given in the table below:

UK country or English region	North East	North West	Yorkshire and the Humber	East Midlands	West Midlands	East	London	South East	South West	Wales	Scotland	Northern Ireland
Value of goods exports to Hong Kong SAR	0.1	0.3	0.1	2.8	0.4	0.4	1.6	0.4	0.8	0.1	0.3	0.0
Percentage of total goods exports to Hong Kong SAR	1.7%	4.4%	1.7%	37.2%	5.0%	4.9%	20.8%	5.3%	10.7%	1.8%	4.0%	0.4%
Value of goods imports from Hong Kong SAR	0.1	0.3	0.2	0.4	0.4	0.3	0.9	1.0	0.3	0.1	0.1	0.0
Percentage of total goods imports from Hong Kong SAR	1.6%	6.4%	4.1%	8.1%	7.7%	6.4%	19.4%	22.9%	5.5%	1.8%	2.2%	0.6%

Note that these figures from HMRC are reported on a physical movement basis and are **not directly comparable** to trade data from ONS which are reported on a change of ownership basis. **Percentages will not total 100%** as data not allocated to a single UK country or English region are not presented.

<sup>18</sup>HMRC data source for regional UK trade data: [HMRC Regional Trade Statistics](#) (data extracted from the spreadsheet download using the HMRC interactive tables).

<sup>19</sup>Totals presented here will differ from overall HMRC trade figures due to the exclusion of trade in non-monetary gold and non-response estimates and the exclusion of data not allocated to a UK country or region. Figures for 2023 are provisional and subject to change.

## Trade in services by mode of supply, in current prices (ONS)<sup>20 21</sup>

### Trade in Services by Mode of Supply definitions

**Modes of Supply** define the way services trade is conducted. The World Trade Organisation's [General Agreement on Services](#) categorises methods for trade in services into four different modes of supply, which depend upon on the territorial presence of the supplier and the consumer at the time of transaction.

**Mode 1** - Remote trade (a supplier in one country sells a service to a customer in another, without the movement of people).

**Mode 2** - Consumption abroad (the person receiving the service travels to the supplier's country).

**Mode 3** - Commercial presence (e.g. a company subsidiary) - this mode is not counted as part of UK services trade on a balance of payments basis and is not reported in this release. This means that total figures are only the total of Modes 1, 2 and 4.

**Mode 4** - Presence of natural persons (a supplier sends its personnel to the customer's country to provide service).

### UK services exports to Hong Kong SAR by mode of supply in 2022:

- £4.7 billion of services exports to Hong Kong SAR were delivered by Mode 1 (75%).
- £1.1 billion of services exports were delivered by Mode 2 (18.1%).
- £429 million of services exports were delivered by Mode 4 (6.9%).

### UK services imports from Hong Kong SAR by mode of supply in 2022:

- £3.1 billion of services imports from Hong Kong SAR were delivered by Mode 1 (74.7%).
- £522 million of services imports were delivered by Mode 2 (12.4%).
- £541 million of services imports were delivered by Mode 4 (12.9%).

## UK Market Share (ONS and UNCTAD)<sup>22 23</sup>

### Market Share definitions

**UK market share** – Imports from the UK as a percentage of all the goods and services imported by Hong Kong SAR. Market share is provided for total imports from the UK, as well as for goods and services separately.

**Market share methodology** – These UK market share statistics are derived by the Department for Business and Trade, using publicly available data from the Office of National Statistics (ONS) and the United Nations Conference on Trade and Development (UNCTAD). These new statistics allows users to estimate the importance of UK trade on imports to each trading partner. Market share is calculated as the value of imports from the UK using data from [ONS](#), divided by the value of total imports using data from [UNCTAD](#). Data from UNCTAD are converted from US dollars into pounds sterling by using the annual average spot exchange rate<sup>24</sup>.

The UK's market share for Hong Kong SAR in 2023 was as follows:

- **The total UK market share in Hong Kong SAR was 3.1% in 2023 for goods and services.** This is a decrease of 0.3 percentage points from 2022.
- The UK market share in Hong Kong SAR was 2.1% in 2023 for **goods only**. This is a decrease of 0.5 percentage points from 2022.
- The UK market share in Hong Kong SAR was 11.2% in 2023 for **services only**. This is a decrease of 1.0 percentage points from 2022.

The table below presents the UK's market share for Hong Kong SAR between 2014 and 2023. Values presented in italics are based on UNCTAD estimates of imports.

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
Total goods and services	2.1%	2.3%	2.3%	2.4%	2.5%	2.6%	2.8%	2.5%	3.5%	3.1%
Goods only	1.6%	1.6%	1.6%	1.7%	1.7%	1.8%	1.9%	1.5%	2.6%	2.1%
Services only	6.1%	6.9%	7.1%	7.5%	8.0%	8.2%	11.8%	13.6%	12.2%	<i>11.2%</i>

## Number of VAT-registered businesses trading goods (HMRC)<sup>25 26 27</sup>

### Business counts definition (Regional Trade in Goods Statistics)

Business counts report UK VAT-registered business exporting and importing goods. Data is collected primarily from customs declarations (using the Intrastat survey and VAT returns for Northern Ireland businesses trading with the EU).

Counts exclude businesses trading below the statistical value thresholds for customs declarations and exclude trade in non-monetary gold.

#### Businesses trading with Hong Kong SAR in 2023:

- In 2023, around 10,300 UK VAT-registered businesses exported goods to Hong Kong SAR.
- In 2023, around 19,800 UK VAT-registered businesses imported goods from Hong Kong SAR.

#### Businesses trading with the world in 2023:

- In 2023, around 125,600 UK VAT-registered businesses exported goods to the world.
- In 2023, around 251,200 UK VAT-registered businesses imported goods from the world.

<sup>25</sup>HMRC data source for Regional Trade Statistics business counts data: [UK trade in goods statistics](#).

<sup>26</sup>Data for UK businesses engaged in trade of services with Hong Kong SAR are not available. A single business may trade with multiple trading partners abroad, so care should be taken when adding figures for multiple trading partners.

<sup>27</sup>HMRC does not receive partner country information for customs declarations with commodity line values that fall under the statistical value threshold of £873 (in value) and 1,000kg (in net mass). Therefore, these counts of exporting/importing businesses only capture those businesses with exports/imports (respectively) above the statistical value threshold. The number of businesses has been rounded to the nearest 100.

## Trade in Value Added (OECD)<sup>28 29</sup>

### Trade in Value Added definitions

**Trade in Value Added (TiVA)** - TiVA is a statistical approach to examine supply chains, which is not possible with conventional ('gross') trade statistics. This is because TiVA treats international trade flows as flows of value added rather than gross flows of final goods and services.

**Domestic and foreign value added** - In TiVA, gross exports are decomposed into domestic and foreign value added. Domestic value added measures the value added generated by the domestic economy in the production of its exports (e.g. the value added by UK car manufacturers and their UK supply chains in car exports). Foreign value added measures the value added contribution that foreign suppliers make to these exports (e.g. the import of foreign car parts).

**TiVA statistics** - Although TiVA offers advantages over traditional ways of measuring trade, these statistics are not fully developed. These results are estimates which should be considered complementary to conventional trade statistics and not be over-interpreted. In addition, the geographical detail is limited for developing countries. More information on TiVA can be found in a recent [research report](#) by the Department for Business and Trade and Cambridge Econometrics.

**UK forward linkages for exports** - Measures the reliance of foreign exporters on UK value added (inputs).

**UK backward linkages for exports** - Measures the reliance of UK exporters on foreign value added (inputs).

**Employment supported by exports** - This provides an estimate of the number of employees in exporting industries, and their domestic supply chains that are supported by exporting activity.

### UK forward linkages for exports:

- In 2020, 0.8% of the total value added in gross exports from Hong Kong SAR originated in the UK.
- In 2020, 20.8% of the value added content in gross exports from Hong Kong SAR reflected foreign imports from abroad. The largest sources of foreign value added for gross exports from Hong Kong SAR were China (7.5%), United States (1.9%), and Japan (1.6%).

### UK backward linkages for exports:

- In 2020, 0.1% of the total value added in gross exports from the UK originated in Hong Kong SAR.
- In 2020, 14.3% of the value added content in gross exports from the UK reflected foreign imports from abroad. The largest sources of foreign value added for gross exports from the UK were United States (2.4%), Germany (1.5%), and China (1.2%).

### Employment supported by exports:<sup>30</sup>

- Data for Hong Kong SAR on employment supported by exports in 2020 are not available.
- Exporting activity in the UK supported 6.6 million persons in 2020 (20.3% of total UK employment). Exports to Hong Kong SAR supported around 45,000 jobs in the UK in 2020.

<sup>28</sup>The estimates in this factsheet are based on Trade in Value Added statistics published by the Organisation for Economic Co-operation and Development (OECD): a) [Trade in Value Added database \(origin of value added in gross exports\), June 2024](#); and b) [Trade in employment \(TiM\) database, February 2024](#), indicators EXGR\_DEM.

<sup>29</sup>The data shown in this factsheet is from 2020.

<sup>30</sup>These estimates measure employees directly and indirectly supported by exports i.e. workers employed in exporting businesses and in other domestic businesses supplying inputs to the exporting businesses. The estimates should be interpreted as employment *supported* by exports, rather than employment *created* by exports, as the jobs may have previously existed to serve the domestic market. Employees may also be supported by exports from a multiple number of trading partners. As with the core TiVA data, these estimates are based on a number of assumptions and modelling, so should be interpreted with caution.

### Foreign direct investment definitions

**Foreign direct investment (FDI)** - Investment made by a firm or individual in one economy ('direct investor') to acquire a 'lasting interest' in an enterprise operating in another economy. The lasting interest is deemed to exist if the direct investor acquires at least 10% of equity, or equivalently 10% of the voting rights, of the company.

**FDI stock** - The accumulated value of all previous investments at the end of a reference period. Figures are net, that is the value of investment minus disinvestment. **UK outward FDI stock** provides the total value of FDI by UK investors in economies abroad (investment of a UK parent company in Hong Kong SAR), while **UK inward FDI stock** provides the total value of FDI by non-UK investors in the UK (investment of a Hong Kong SAR parent company in the UK).

**Data disclosure** - It can happen that FDI is coming from only a few investors. In that case, figures are suppressed by the ONS to avoid disclosure of information relating to individual enterprises.

**Note:** *The FDI data for 2020 have been affected by changes in sampling methodology. Improvements have been made to the population which has been sampled and the way that businesses are sampled from the population, capturing a wider range of businesses. This means data from 2020 and onward are more representative of UK FDI with overseas partners and are comparable.*

More information about the methodology changes can be found on the [ONS website](#).

#### UK outward FDI stock:

- In 2022, the **stock of FDI from the UK in Hong Kong SAR** was £97.5 billion, 25.1% or £19.5 billion higher than in 2021. In 2022, Hong Kong SAR accounted for 5.1% of the total UK outward FDI stock.
- In 2022, the total UK FDI abroad was £1.9 trillion. In 2022, the **top destination for UK FDI** was United States, accounting for 26.9% of the total UK outward FDI stock, followed by Netherlands (15.8%) and Luxembourg (6.3%).

#### UK inward FDI stock:

- In 2022, the **stock of FDI from Hong Kong SAR in the UK** was £18.2 billion, 7.4% or £1.3 billion higher than in 2021. In 2022, Hong Kong SAR accounted for 0.9% of the total UK inward FDI stock.
- In 2022, the total FDI in the UK in was £2.1 trillion. In 2022, the **top investor in the UK** was United States, accounting for 34.0% of the total UK inward FDI stock, followed by Jersey (10.5%) and Luxembourg (6.9%).

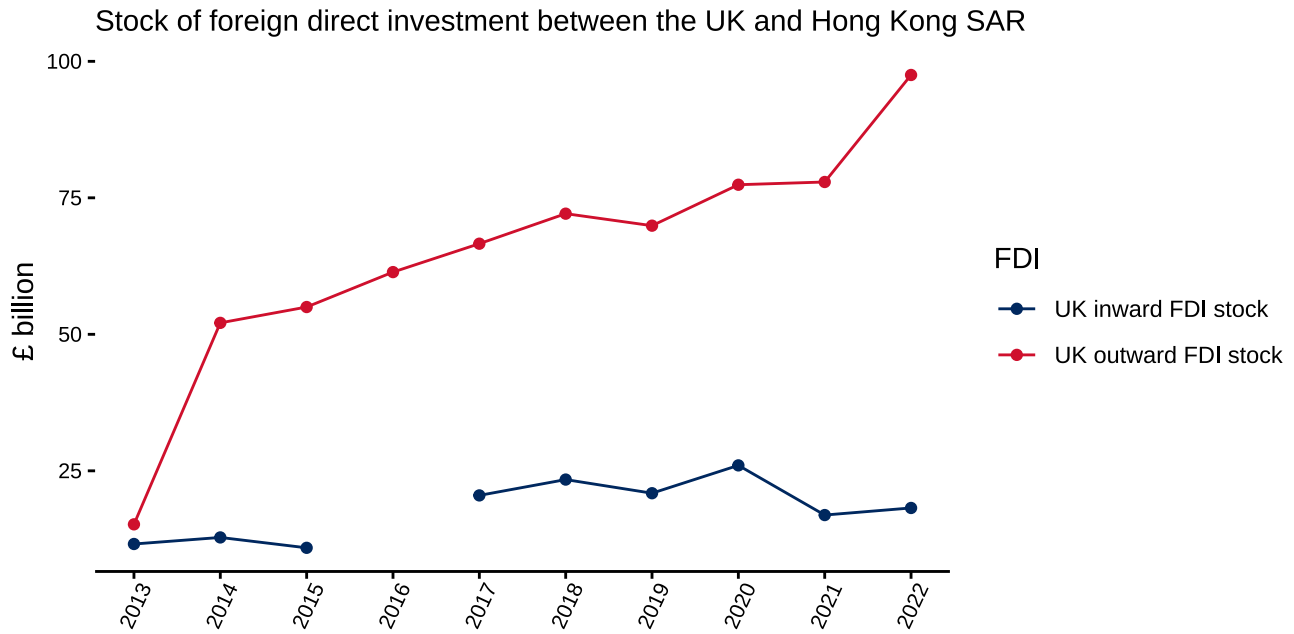

<sup>31</sup>ONS data source for FDI statistics: [Foreign Direct Investment involving UK companies](#).

<sup>32</sup>Data are presented on a directional basis which means they are not directly comparable to the asset/liability report prepared by ONS as part of the Balance of Payments statistical release. Figures are on net basis (investments minus disinvestments) and are given in nominal terms. Negative FDI values occur when disinvestments are greater than investments. Data are on an immediate destination/source basis and not an ultimate destination/source, which is likely to overstate financial centres such as the Netherlands and Luxembourg.

<sup>33</sup>This factsheet contains data as reported by the UK and are subject to asymmetries e.g. UK outward FDI to Hong Kong SAR (reported by the UK) may not match Hong Kong SAR inward FDI from the UK (reported by Hong Kong SAR). For consistency when comparing between partners, users are advised to use UK-reported data as far as possible.

The chart below shows FDI between the UK and Hong Kong SAR between 2013 and 2022:

## Background Notes

This document is one of a wider set of factsheets between the UK and its individual trade and investment partners which can be found on the [Trade and Investment Factsheets website](#). All of these factsheets are published as [Official Statistics](#) as defined by the [UK Statistics Authority](#).

Our statistical practice is regulated by the Office for Statistics Regulation (OSR). OSR sets the standards of trustworthiness, quality and value in the [Code of Practice for Statistics](#) that all producers of official statistics should adhere to. You are welcome to contact us directly with any comments about how we meet these standards. Alternatively, you can contact OSR by emailing [regulation@statistics.gov.uk](mailto:regulation@statistics.gov.uk) or via the OSR website.

The publication of these factsheets as Official Statistics was agreed by the Chief Statistician at the Department for Business and Trade, who monitors these factsheets to ensure they continue to adhere to the [Code of Practice for Statistics](#). These factsheets have not been formally assessed by the [Office of Statistics Regulation](#) and are therefore not designated as [Accredited Official Statistics](#).

As a requisite of publishing as Official Statistics, a [quality and methodology report](#) has been produced which outlines the quality of these factsheets, as well as providing more information on the methodology of the data sources presented here. This report contains hyperlinks to information on the strengths and weaknesses for each data source. Statistics contained in the factsheets from UK data providers all come from Official Statistics publications, with some sources also being from National Statistics publications.

Future updates of these factsheets can be found on the [Government update schedule for Official Statistics](#). These scheduled updates are in line with significant updates from UK data providers when they release new data. Unscheduled releases of the factsheets may also be necessary to accommodate data updates where little or no advanced notice are given, such as in the case of international data updates. Please see the data update schedule and revisions policy in the [quality and methodology report](#) for more information. Please note that there may be occasions where more recent data than is provided here can be found directly from the data providers.

The Department for Business and Trade welcome any feedback or comments on these factsheets, please send these to [statistics@businessandtrade.gov.uk](mailto:statistics@businessandtrade.gov.uk).
