Instructions for the completion of the official certificate referred to in Article 4 of retained Regulation (EU) 2020/1158 on the conditions governing imports of food and feed originating in third countries following the accident at the Chernobyl nuclear power station

General

To positively select any option, please tick or mark the relevant box with a cross (X).

Whenever mentioned, 'ISO' means the international standard two-letter code for a country, in accordance with the international standard ISO 3166 alpha-2 (List of country names and code elements under: http://www.iso.org/iso/country_codes/iso-3166-1_decoding_table.htm).

Only one of the options may be selected in boxes I.15, I.18, I.20.

Unless otherwise indicated, the boxes are compulsory.

If the consignee, the entry border control post (BCP) or the transport details (that is to say, the means and date) change after the certificate has been issued, the operator responsible for the consignment must advise the competent authority of the port of entry. Such a change shall not result in a request for a replacement certificate.

In case the certificate is submitted in IPAFF, the following applies:

- the entries or boxes specified in Part I constitute the data dictionaries for the electronic version of the official certificate.
- the sequences of boxes in Part I of the model official certificate and the size and shape of those boxes are indicative.
- where a stamp is required, its electronic equivalent is an electronic seal. Such seal shall comply with the rules for the issuance of electronic certificates referred to in point (f) of the first paragraph of Article 90 of retained Regulation (EU) 2017/625.

Part I: Details of the dispatched consignment

- Box reference I.1: Consignor/Exporter: the name and address (street, city and region, province or state, as appropriate) of the natural or legal person dispatching the consignment that must be located in the third country.
- Box reference I.2: Certificate reference No: the unique mandatory code assigned by the competent authority of the third country in accordance with its own classification. This box is compulsory for all certificates not submitted in IPAFF.
- Box reference I.2.a: IPAFFS reference No: the unique reference code automatically assigned by IPAFFS if the certificate is registered in IPAFFS. This box must not be completed if the certificate is not submitted in IPAFFS.
- Box reference I.3: Central competent authority: name of the central authority in the third country issuing the certificate.
- Box reference I.4: Local competent authority: if applicable, the name of the local authority in the third country issuing the certificate.
- Box reference I.5: Consignee/Importer: name and address of the natural or legal person to whom the consignment is intended in Great Britain.
- Box reference I.6: Operator responsible for the consignment: the name and address of the person in Great Britain in charge of the consignment when presented to the BCP and who makes the necessary declarations to the competent authorities either as the importer or on behalf of the importer. This box is optional.
- Box reference I.7: Country of origin: the name and ISO code of the country where the goods are originating from, grown, harvested or produced.

Box reference I.9: Country of destination: the name and ISO code country of destination of the products.

Box reference I.11: Place of dispatch: the name and address of the holdings or establishments from which the products come from.

Any unit of a company in the food sector. Only the establishment shipping the products is to be named. In the case of trade involving more than one third country (triangular movement), the place of dispatch is the last third-country establishment of the export chain from which the final consignment is transported to Great Britain.

Box reference I.12: Place of destination: this information is optional.

For the placing on the market: the place where the products are sent for final unloading. Give the name, address and approval number of the holdings or establishments of the place of destination, if applicable.

Box reference I.14: Date and time of departure: the date when the means of transport departs (aeroplane, vessel, railway or road vehicle).

Box reference I.15: Means of transport: means of transport leaving the country of dispatch.

Mode of transport: aeroplane, vessel, railway, road vehicle or other. 'Other' means modes of transport not covered by retained Regulation (EC) 1/2005 .

Identification of the means of transport: for aeroplanes, the flight number, for vessels, the ship name(s), for railways, the train identity and wagon number, for road transports, the registration number plate with trailer number plate if applicable.

In the case of a ferry, the identification of the road vehicle, the registration number plate with trailer number plate if applicable, and the name of the scheduled ferry must also be provided.

Box reference I.16: Entry BCP: state the name of the BCP and its identification code assigned by IPAFF.

Box reference I.17: Accompanying documents:

Laboratory report: indicate the reference number and the date of issuance of the report/results of laboratory analysis referred to in Article 4(6) of retained Regulation (EU) 2020/1158.

Other: the type and reference number of documents must be stated when a consignment is accompanied by other documents such as a commercial document (for example, the airway bill number, the bill of lading number or the commercial number of the train or road vehicle).

Box reference I.18: Transport conditions: category of required temperature during the transport of products (ambient, chilled, frozen). Only one category may be selected.

Box reference I.19: Container No/Seal No: if applicable, the corresponding numbers.

The container number must be provided if the goods are transported in closed containers.

Only the official seal number must be stated. An official seal applies if a seal is affixed to the container, truck or rail wagon under the supervision of the competent authority issuing the certificate.

Box reference I.20: Goods certified as: state the intended use for products

Human consumption: concerns only products intended for human consumption.

Box reference I.22: For internal market: for all consignments destined to be placed on the market.

II.a. Certificate reference no.	II.b. IPAFF reference no.

Box reference I.23: Total number of packages: the number of packages. In the case of bulk consignments, this box is optional.

Box reference I.24: Quantity:

Total net weight: this is defined as the mass of the goods themselves without immediate containers or any packaging.

Total gross weight: overall weight in kilograms. This is defined as the aggregate mass of the products and of the immediate containers and all their packaging but excluding transport containers and other transport equipment.

Box reference I.25: Description of goods: State the relevant Harmonised System code (HS code) and the title defined by the World Customs Organisation as referred to in Council Regulation (EEC) No 2658/87. This customs description shall be supplemented, if necessary, by additional information required to classify the products.

Indicate the species, types of products, the number of packages, type of packaging, batch number, net weight, and final consumer (i.e., products are packed for final consumer).

Species: the scientific name or as defined in accordance with European Union legislation. Type of packaging: identify the type of packaging according to the definition given in Recommendation No 21 of UN/CEFACT (United Nations Centre for Trade Facilitation and Electronic Business) (Last version: Revision 9 Annexes V and VI as published on: <http://www.unece.org/tradewelcome/un-centre-for-trade-facilitation-and-e-business-uncefact/outputs/cefactrecommendationsrec-index/list-of-trade-facilitation-recommendations-n-21-to-24.ahtml>).

Part II: Certification

This part must be completed by a certifying officer authorised by the competent authority of the third country to sign the official certificate, as provided for in retained Article 88(2) of Regulation (EU) 2017/625.
