Product Type	Electrical appliances and equipment - Avalanche transceiver
Product Identifiers	Brand: Mammut Models: Barryvox 2 and Barryvox S2. Please access Annex A on page 2 for further details on the affected products.
Product Description	Two models of avalanche transceiver sold individually and as part of packages. An avalanche transceiver is a lifesaving instrument used to locate individuals buried in avalanches. It transmits and receives signals to quickly and accurately determine the position of those buried.
Country of Origin	Switzerland
Counterfeit	No
Risk Level	High
Risk Type	Entrapment
Risk Description	The products present a risk of entrapment and injuries as it has been identified that a malfunction can occur due to an assembly issue. The main switch on the affected devices may be misaligned, leading to unintentional switching from send to search mode with lateral pressure, or possibly even turning the device off completely. This malfunction can therefore result in no additional aid in the search and rescue process in the case of an avalanche.
Corrective Measures	The products have been recalled from end users.  Owners of the affected products should contact Mammut for a repair/replacement by filling in the return form here: <a href="https://www.mammut.com/uk/en/support/contact?form=repairWarranty">https://www.mammut.com/uk/en/support/contact?form=repairWarranty</a> .
