

**PLANNING COMMENT FOR APPLICATION REF: 5/2024/1530**

John & Sue Bourke

Object to Proposal

Over development for the size of the plot. There was two small homes on this and before and now there is planning permission for 5 x 4 bedroom properties. Parking is atrocious already and with 5 homes on this land with probably only one space per home this will create more parking issues for the residents already living close by this planned development. Also during the building of this development there will huge consequences to the residents already living here with disruption all day everyday and causing issues for in many different ways. We ask that you seriously consider objecting this application to build 5 homes on this land.
