Subject: Weston Homes -Development between Roseacres & Priors Green

Dear Sir/ Madam,

I was very upset to hear that Weston Homes are once again trying to Develop on the above land. I live in Little Canfield and the amount of Development that has been happening since I moved here is getting out of control .We live down [REDACTED] and Weston Homes put a number of new homes on the site where they had their Car Park for staff so that could be near where their offices are.Low and behold a few years later that all changed and they got permission to build the houses.They back on to the Flitch where we have a lot of wild life just like it is where they now wish to get permission for the above.

The local people were furious with WESTON HOMES because if you walk down to where they are built they also took some of the land which was originally on the Flitch how was that ever allowed !! That is theft if it was any of us pinching land we would be prosecuted but not Weston Homes. The infer-structure cannot cope with this the amount of heavy Lorries while they are building these sites do a lot of harm the roads cannot cope the water supplies cannot cope and where will all the wildlife go?

So please reconsider this as Weston Homes are not doing it for the Community they are doing it for the Directors of their company and the big Bonuses they get .

Please the Countryside around there is beautiful and should be left like it.

Kind Regards

Mrs Elaine Godwin
