Subject: Bulls field planning application

Dear Sir\Madam

I am writing to object to the Warish Hall development of 90 houses at Bulls Field, Smiths Green in Takeley.

It is a beautiful rural area with many listed homes and wildlife that would be decimated and should be protected. It has beautiful walking areas that in these desperate times we so badly need. The countryside also adds to the historical character of the listed properties in and around the proposed site.

We need these green belt areas to protect our countryside and all the wildlife this encourages.

I live on [REDACTED] which does not have the capability to accommodate any more cars. The surrounding schools, Doctors would also suffer as they are at full capacity already.

Regards

Tina Horlock
