

Request for Catchment Sensitive Farming (CSF) support and approval for certain Capital Grant items

PLEASE NOTE: THE CAPITAL GRANTS SCHEME IS TEMPORARILY CLOSED TO NEW APPLICANTS

Please email your completed form to [your local CSF mailbox](#). **(Please note, if this form is not completed correctly, it will be returned by CSF)**

If you are an agent filling in this form on behalf of your client, you **MUST** obtain a written signature from the farmer/holding owner at the end of this form or provide email confirmation from the farmer.

General information	
Applicant name:	
Farm business name:	
CPH number:	
SBI number:	
Farm address and postcode:	
Farm telephone number(s):	
Farm e mail address:	
Farm size and land area owned or rented.	
Main farm enterprises and areas: e.g., arable X ha. grassland Y ha. , dairy, beef, poultry etc.	
Livestock: e.g., species, type, approximate numbers etc.	

Housing system: e.g., open yards, covered yards, cubicles, existing slurry or FYM storage (in months) etc.			
Agent name, e mail address and telephone number(s) (if applicable)			
Have you had advice from CSF before? Please give some details, and name of CSF adviser if known.			
Your project proposal: Please list below details of the Capital Grant items you are requesting CSF to support. (See Annex 2 of the Capital Grant manual for a list of Capital Grant items that require CSF support & approval and where items can be used). Please also see notes at end of form for further information.			
Item code (e.g. RP28)	Field Number (e.g. AB 1234 5678)	Proposed amount/q quantity (e.g. m, m², m³, units)	Amount of grant requested (£)
The above items you have listed must help to improve water & air quality otherwise they will not be supported by CSF			
Please describe the current situation and the impact			

that the source(s) of the pollution is / are having on the local environment.

- Where is the pollution coming from i.e. source?
- Where is it going to i.e. receptor?
- How is it getting there i.e. pathway
- What damage is it causing?

(You could describe scenarios such as water containing nutrients from a livestock loafing yard being washed down a farm track into a nearby river via a ditch; ammonia from a slurry store blowing towards a protected site which is sensitive to high levels of nitrogen etc.)

Please describe how the Capital Grant items you propose will address the pollution issue described above.

(You could describe scenarios such as how roofing over an uncovered yard where cows feed would help to reduce volumes of slurry being created, covering the slurry store to reduce the levels of ammonia being released etc.)

Farmer signature:

This section **must** be completed if submitted by the farmer. If it is not completed CSF will be unable to progress this request.

Farmer:

Signed farmer / land manager / holding owner:

Print name:

Date:

Authorisation:

This section **must** be completed if this form was submitted by an agent. (If it is not completed CSF will be unable to progress this request.)

Agent:

I confirm that I have discussed the proposal with farmer / land manager and have authorisation to make this request.

Signed agent:

Print name:

Date:

Farmer:

I confirm that I have discussed the proposal with the agent named above and give them authorisation to make this request on my behalf.

(Please note a typed name is not acceptable. Alternatively, you can forward a confirmation e mail from the farmer / land manager / holding owner)

Signed farmer / land manager / holding owner:

Print name:

Date:

Please note:-

- Supporting information such as photographs, maps, yard plans, diagrams etc. must be provided to support the above form. These can be e mailed as separate documents, alongside the form, if required.
- CSF will endeavour to provide support and approvals to meet applicants projected timescales. If there is a particularly high demand, then this can't be guaranteed. If CSF is unable to provide support and approval before you wish to start work, you will be able to proceed with your application without the items which require CSF approval.
- For full details on Capital Grant eligibility and the specifications for item please read the relevant manual and individual specifications on the gov.uk website.
