

Free Allocation Review consultation engagement

Overview webinar

On 14 January the UK ETS Authority held a webinar to give an overview of the Free Allocation Review, including:

- The consultation on carbon leakage and free allocation for CBAM sectors launched in December
- The Authority responses on moving the start of the second free allocation period, also published in December
- The Authority response on the treatment of permanent cessations, published in November

Detailed workshops

Following on from the overview webinar, the UK ETS Authority is holding workshops between 28 January and 6 February to explain the consultation in more detail and offer an opportunity to give feedback. The workshops will cover the main policy areas covered by the review. These are:

- The approach to calculating the Carbon Leakage Indicator and setting the Carbon Leakage List
- The approach to adjusting Free Allocations for Carbon Border Adjustment Mechanism (CBAM) sectors
