This publication was withdrawn on 18 December 2024.

Standard rules permit SR2008 No 8 has been withdrawn because it has been consolidated into standard rules permit <u>SR2022 No 4: non-hazardous waste</u> recycling with asbestos, hazardous batteries, cable and WEEE storage.

You need to check if you comply with the new standard rules permit. If not, you must <u>apply to vary your permit</u> into a bespoke permit within 3 months of the date. The consolidated standard rules were published (18 December 2024).
