

Women and the Criminal Justice System Dashboard

A [web-based data visualisation tool](#) has been created alongside the report this year, allowing users to view and customise charts based on the published statistics. This dashboard should be seen as a prototype, and we hope to continue to develop it for future iterations if there is significant interest. The dashboard should be used as way to discover the data available from the Criminal Justice System and be used a launching point for further investigation. The production team are looking to focus more on the dashboard and reduce commentary within the WCJS bulletin in the future in order to maximise the experience of our users and flexibility of analysis. Feedback on this proposal is welcomed.
