

Delays to Pensions Savings Statements for Tax Year 23/24

The issue of the delayed Pension Savings Statements for 23/24 will commence from 6 February, with statements uploaded to SCIO, this is available on both MODNET and through the Defence Gateway. This application is available for all three services and is accessed using your PUID and MODNET password. If accessing via MODNET the PSS will be available via My Profile under Attachments, if accessing via Defence Gateway use the menu to navigate to your 'my attachments'. Once statements are uploaded you will receive a notification via your MODNET email address.

Where a statement has not been issued via SCIO and you were on the 'at risk' list an email will be sent to your MODNET address by 14 February which will either state that you have not exceeded and therefore no statement will be sent, or your calculations are still pending, and you may receive a statement.

Members should note that SCIO is the distribution hub and cannot answer questions or queries related to your PSS. If you have questions related to the content of your PSS use the contact details in your letter, if your inquiry is about the issuing of your statement email People-AFPensionSavingsStatement@mod.gov.uk.
