About these statistics

This factsheet presents the latest statistics on trade and investment between the UK and France. It summarises a wide range of publicly available data, from data providers such as the Office for National Statistics (ONS) and HM Revenue and Customs (HMRC), as well as international data providers.

This factsheet is part of a wider range produced by the Department for Business and Trade which draws together many data sources into one single compendium document for each individual trade and investment partner. The full set of factsheets for different individual partners can be found on the [Trade and Investment Factsheets website](#) on GOV.UK.

Where data are available, these factsheets contain metrics on:

- [Headline trade statistics between the UK and each trading partner for the latest four quarters.](#)
- [Trade statistics by commodity and service type.](#)
- [Trade between the UK and each trading partner, broken down by UK country and English region.](#)
- [Trade in services between the UK and each trading partner, broken down by mode of supply.](#)
- [UK's market share as a total of all imports for each trading partner.](#)
- [Number of VAT-registered businesses trading goods.](#)
- [UK's Foreign Direct Investment \(FDI\) with each investment partner.](#)
- [Summary trade and investment data as reported by each trade and investment partner, as well as economic data and projections.](#)

All statistics are correct at the time of publication, with upcoming release dates available on the [Government update schedule for Official Statistics](#). The Department for Business and Trade strongly recommends users download the latest factsheet to ensure the most up-to-date statistics are used. Please do not use previous factsheets to analyse earlier time periods than those shown in the most recent factsheets, as the data will have been revised and previous factsheets will no longer be correct. For analysis of earlier time periods, please use the published source data.

For the most up to date snapshot of the UK's trade and investment position with all partners, please see the [UK trade in numbers](#) publication or the [trade and investment core statistics book](#). These statistics are based on the same data sources as this factsheet and therefore are comparable. A list of all [Official Statistics](#) publications from the Department for Business and Trade can be found online.

Trade definitions

- **UK exports** - Goods and services that were produced or sourced in the UK, which were sold to France.
- **UK imports** - Goods and services that were sold to the UK, which were produced or sourced by France.
- **Total or 'bilateral' trade** - The value of total trade between the UK and France (exports plus imports).
- **Trade balance** - The difference between exports and imports, calculated by UK exports minus UK imports.
- **Trade surplus** - This occurs when the value of UK exports to France is greater than the value of UK imports from France.
- **Trade deficit** - This occurs when the value of UK exports to France is less than the value of UK imports from France.

Headline trade statistics include trade in non-monetary gold (reported within the unspecified goods category), which can significantly affect trends for some partners. Please see the factsheet [quality and methodology report](#) for more information. These statistics are given on a balance of payments (change of ownership) basis.

Note: UK trade statistics experienced higher levels of volatility between 2019 and 2022, due to the pandemic, global recession, supply chain disruption, EU Exit, Russia's invasion of Ukraine, price inflation, conflict in the Middle East, and data collection changes. All figures are reported in current prices (not adjusted for inflation), unless otherwise stated. We recognise that some of the recent changes in UK trade values will be partly due to price changes.

Total trade in goods and services (exports plus imports) between the UK and France was £103.6 billion in the four quarters to the end of Q3 2024, an increase of 0.2% or £216 million in current prices from the four quarters to the end of Q3 2023.

In the four quarters to the end of Q3 2024, **total UK exports** to France amounted to £46.1 billion (an increase of 2.4% or £1.1 billion in current prices, compared to the four quarters to the end of Q3 2023).

Of all UK exports to France in the four quarters to the end of Q3 2024, £24.0 billion (52.1%) were **goods** and £22.1 billion (47.9%) were **services**. In the four quarters to the end of Q3 2024, UK **exports of goods** to France decreased by 4.0% or £990 million in current prices, compared to the four quarters to the end of Q3 2023 while UK **exports of services** to France increased by 10.4% or £2.1 billion in current prices, compared to the four quarters to the end of Q3 2023.

In the four quarters to the end of Q3 2024, **total UK imports** from France were £57.5 billion (a decrease of 1.5% or £866 million in current prices, compared to the four quarters to the end of Q3 2023).

Of all UK imports from France in the four quarters to the end of Q3 2024, £37.9 billion (65.9%) were **goods** and £19.6 billion (34.1%) were **services**. In the same period, UK **imports of goods** from France decreased by 6.3% or £2.5 billion in current prices, compared to the four quarters to the end of Q3 2023 while UK **imports of services** from France increased by 9.3% or £1.7 billion in current prices, compared to the four quarters to the end of Q3 2023.

This means the UK reported a **total trade deficit** of £11.4 billion with France, compared to a trade deficit of £13.3 billion in the four quarters to the end of Q3 2023. In the four quarters to the end of Q3 2024, the UK had a **trade in goods deficit** of £13.9 billion with France, compared to a trade in goods deficit of £15.4 billion in the four quarters to the end of Q3 2023. Meanwhile, in the four quarters to the end of Q3 2024 the UK reported a **trade in services surplus** of £2.5 billion with France, compared to a trade in services surplus of £2.1 billion in the four quarters to the end of Q3 2023.

⁸Office of National Statistics (ONS) data source for total trade: [UK total trade data \(seasonally adjusted\)](#).

⁹This factsheet contains data as reported by the UK, users are advised to use UK-reported data where possible for consistency between partners. These data are subject to [asymmetries](#) e.g. the value of UK exports to France (reported by the UK) may not match the value of France imports from the UK (reported by France).

¹⁰Data are in current prices, meaning no adjustment has been made to account for changes in inflation or exchange rate. The totals may not exactly match the sum of their parts due to rounding.'

The charts below present a time series for trade between the UK and France for each year between 2014 and 2023:

Source: ONS, UK trade in goods and services, Q3 2024

The data that are presented in the charts above are given in the table below in £ billion:

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
Value of total trade	65.6	65.0	69.9	78.7	83.8	85.2	66.3	65.9	95.1	104.8

In the four quarters to the end of Q3 2024, France was the UK's:¹¹

- **4th largest trading partner** (accounting for 6.1% of total UK trade).
 - 5th largest **goods** trading partner (6.6% of UK goods trade).
 - 2nd largest **services** trading partner (5.5% of UK services trade).
- **5th largest export market** (accounting for 5.5% of total UK exports).
 - 5th largest **goods** export market (6.4% of UK goods exports).
 - 4th largest **services** export market (4.7% of UK services exports).
- **4th largest import market** (accounting for 6.7% of total UK imports).
 - 5th largest **goods** import market (6.7% of UK goods imports).
 - 3rd largest **services** import market (6.7% of UK services imports).

More timely data, for trade in goods only¹², show that UK exports of goods to France decreased by 6.4% the 12 months to December 2024 in current prices, compared to the same period the previous year. UK imports of goods from France decreased by 11.7%, in current prices, over the same period.

¹¹Rankings are based on the ONS dataset which contains data for all individual partners: [UK total trade data \(seasonally adjusted\)](#).

¹²ONS data source for trade in the latest 12 months up to December 2024: [UK Trade data \(seasonally adjusted\)](#). More timely data for trade in goods reports the latest 12 month period, which includes data during 2021 and 2022. Due to a change in data collection methodology for Great Britain imports from the EU, data collected in 2022 are not fully comparable with data collected in 2021. More information on this methodology change can be found in an [article by the ONS](#).

¹⁷Service type data may be unavailable for some quarters, due to the suppression of figures for the confidentiality of individual traders.

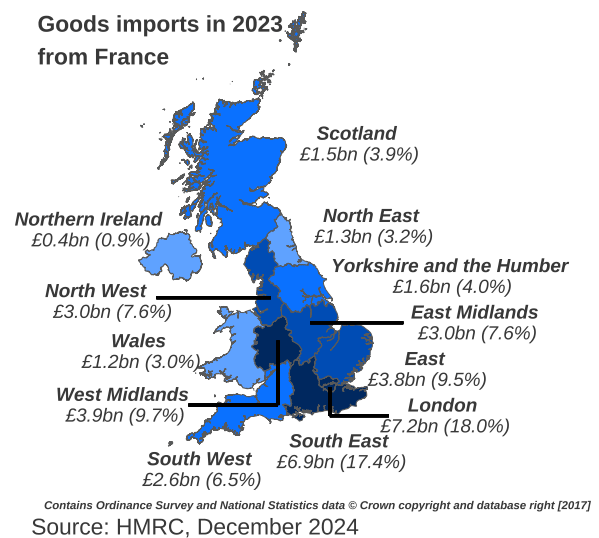

Trade in goods by UK countries and English regions, in current prices (HMRC)¹⁸

19

Regional trade definitions

- **UK regions** - The UK is categorised into 12 regions based on the International Territorial level 1 (ITL1). This level includes 9 regions in England, as well as Wales, Scotland and Northern Ireland.
- **Regional trade data** - The data are compiled by merging HM Revenues & Customs (HMRC) trade data with employment data from the Interdepartmental Business Register (IDBR) so a business' trade can be allocated to a UK region based on the proportion of its employees employed in that region. Where a trader is not matched with the IDBR, its trade is matched with ONS postcode data to obtain the UK region in which the Head Office of the VAT-registered business is based.

The maps below show the value of UK goods exports and imports between each UK region and France in 2023. The maps are shaded with the 3 UK regions with the highest amount of trade as the darkest colour, and the 3 UK regions with the lowest amount of trade as the lightest colour.

The data that are presented in the maps above for 2023 in £ billion are also given in the table below:

UK country or English region	Exports to France					Imports from France						
	North East	North West	Yorkshire and the Humber	East Midlands	West Midlands	East	London	South East	South West	Wales	Scotland	Northern Ireland
Value of goods exports to France	1.0	1.5	1.1	2.4	2.1	2.3	2.4	2.7	2.0	1.7	2.2	0.4
Percentage of total goods exports to France	4.1%	6.5%	4.8%	10.3%	8.8%	9.8%	10.0%	11.3%	8.3%	7.2%	9.4%	1.7%
Value of goods imports from France	1.3	3.0	1.6	3.0	3.9	3.8	7.2	6.9	2.6	1.2	1.5	0.4
Percentage of total goods imports from France	3.2%	7.6%	4.0%	7.6%	9.7%	9.5%	18.0%	17.4%	6.5%	3.0%	3.9%	0.9%

Note that these figures from HMRC are reported on a physical movement basis and are **not directly comparable** to trade data from ONS which are reported on a change of ownership basis. **Percentages will not total 100%** as data not allocated to a single UK country or English region are not presented.

¹⁸ HMRC data source for regional UK trade data: [HMRC Regional Trade Statistics](#) (data extracted from the spreadsheet download using the HMRC interactive tables).

¹⁹ Totals presented here will differ from overall HMRC trade figures due to the exclusion of trade in non-monetary gold and non-response estimates and the exclusion of data not allocated to a UK country or region. Figures for 2023 are provisional and subject to change.

Trade in services by mode of supply, in current prices (ONS)^{20 21}

Trade in Services by Mode of Supply definitions

- **Modes of Supply** define the way services trade is conducted. The World Trade Organisation's [General Agreement on Services](#) categorises methods for trade in services into four different modes of supply, which depend upon on the territorial presence of the supplier and the consumer at the time of transaction.
- **Mode 1** - Remote trade (a supplier in one country sells a service to a customer in another, without the movement of people).
- **Mode 2** - Consumption abroad (the person receiving the service travels to the supplier's country).
- **Mode 3** - Commercial presence (e.g. a company subsidiary) - this mode is not counted as part of UK services trade on a balance of payments basis and is not reported in this release. This means that total figures are only the total of Modes 1, 2 and 4.
- **Mode 4** - Presence of natural persons (a supplier sends its personnel to the customer's country to provide service).

UK services exports to France by mode of supply in 2022:

- £13.5 billion of services exports to France were delivered by Mode 1 (73.7%).
- £3.1 billion of services exports were delivered by Mode 2 (16.7%).
- £1.8 billion of services exports were delivered by Mode 4 (9.6%).

UK services imports from France by mode of supply in 2022:

- £8.3 billion of services imports from France were delivered by Mode 1 (50.7%).
- £6.3 billion of services imports were delivered by Mode 2 (38.4%).
- £1.8 billion of services imports were delivered by Mode 4 (10.9%).

UK Market Share (ONS and UNCTAD)^{22 23}

Market Share definitions

- **UK market share** – Imports from the UK as a percentage of all the goods and services imported by France. Market share is provided for total imports from the UK, as well as for goods and services separately.
- **Market share methodology** – These UK market share statistics are derived by the Department for Business and Trade, using publicly available data from the Office of National Statistics (ONS) and the United Nations Conference on Trade and Development (UNCTAD). These new statistics allows users to estimate the importance of UK trade on imports to each trading partner. Market share is calculated as the value of imports from the UK using data from [ONS](#), divided by the value of total imports using data from [UNCTAD](#). Data from UNCTAD are converted from US dollars into pounds sterling by using the annual average spot exchange rate²⁴.

The UK's market share for France in 2023 was as follows:

- **The total UK market share in France was 5.1% in 2023 for goods and services.** This is an increase of 0.2 percentage points from 2022.
- The UK market share in France was 4.0% in 2023 for **goods only**. This is unchanged from 2022.
- The UK market share in France was 8.0% in 2023 for **services only**. This is an increase of 0.2 percentage points from 2022.

The table below presents the UK's market share for France between 2014 and 2023. Values presented in italics are based on UNCTAD estimates of imports.

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
Total goods and services	5.6%	5.9%	5.7%	5.8%	5.6%	5.6%	5.1%	4.7%	5.0%	5.1%
Goods only	4.8%	4.9%	4.8%	5.0%	4.8%	4.9%	4.2%	3.9%	3.9%	4.0%

Number of VAT-registered businesses trading goods (HMRC)^{25 26 27}

Business counts definition (Regional Trade in Goods Statistics)

- Business counts report UK VAT-registered business exporting and importing goods. Data is collected primarily from customs declarations (using the Intrastat survey and VAT returns for Northern Ireland businesses trading with the EU).
- Counts exclude businesses trading below the statistical value thresholds for customs declarations and exclude trade in non-monetary gold.

Businesses trading with France in 2023:

- In 2023, around 30,600 UK VAT-registered businesses exported goods to France.
- In 2023, around 42,800 UK VAT-registered businesses imported goods from France.

Businesses trading with the world in 2023:

- In 2023, around 125,600 UK VAT-registered businesses exported goods to the world.
- In 2023, around 251,200 UK VAT-registered businesses imported goods from the world.

²⁵HMRC data source for Regional Trade Statistics business counts data: [UK trade in goods statistics](#).

²⁶Data for UK businesses engaged in trade of services with France are not available. A single business may trade with multiple trading partners abroad, so care should be taken when adding figures for multiple trading partners.

²⁷HMRC does not receive partner country information for customs declarations with commodity line values that fall under the statistical value threshold of £873 (in value) and 1,000kg (in net mass). Therefore, these counts of exporting/importing businesses only capture those businesses with exports/imports (respectively) above the statistical value threshold. The number of businesses has been rounded to the nearest 100.

Trade in Value Added (OECD)^{28 29}

Trade in Value Added definitions

- **Trade in Value Added (TiVA)** - TiVA is a statistical approach to examine supply chains, which is not possible with conventional ('gross') trade statistics. This is because TiVA treats international trade flows as flows of value added rather than gross flows of final goods and services.
- **Domestic and foreign value added** - In TiVA, gross exports are decomposed into domestic and foreign value added. Domestic value added measures the value added generated by the domestic economy in the production of its exports (e.g. the value added by UK car manufacturers and their UK supply chains in car exports). Foreign value added measures the value added contribution that foreign suppliers make to these exports (e.g. the import of foreign car parts).
- **TiVA statistics** - Although TiVA offers advantages over traditional ways of measuring trade, these statistics are not fully developed. These results are estimates which should be considered complementary to conventional trade statistics and not be over-interpreted. In addition, the geographical detail is limited for developing countries. More information on TiVA can be found in a recent [research report](#) by the Department for Business and Trade and Cambridge Econometrics.
- **UK forward linkages for exports** - Measures the reliance of foreign exporters on UK value added (inputs).
- **UK backward linkages for exports** - Measures the reliance of UK exporters on foreign value added (inputs).
- **Employment supported by exports** - This provides an estimate of the number of employees in exporting industries, and their domestic supply chains that are supported by exporting activity.

UK forward linkages for exports:

- **In 2020, 1.4% of the total value added in gross exports from France originated in the UK.**
- In 2020, 21.8% of the value added content in gross exports from France reflected foreign imports from abroad. The largest sources of foreign value added for gross exports from France were Germany (3.2%), United States (2.2%), and China (1.7%).

UK backward linkages for exports:

- **In 2020, 0.9% of the total value added in gross exports from the UK originated in France.**
- In 2020, 14.3% of the value added content in gross exports from the UK reflected foreign imports from abroad. The largest sources of foreign value added for gross exports from the UK were United States (2.4%), Germany (1.5%), and China (1.2%).

Employment supported by exports.³⁰

- Exporting activity in France supported 5.7 million persons in 2020 (20.2% of total France employment). Exports to the UK supported around 413,400 jobs in France in 2020.
- Exporting activity in the UK supported 6.7 million persons in 2020 (20.6% of total UK employment). Exports to France supported around 472,800 jobs in the UK in 2020.

²⁸The estimates in this factsheet are based on Trade in Value Added statistics published by the Organisation for Economic Co-operation and Development (OECD): a) [Trade in Value Added database \(origin of value added in gross exports\), June 2024](#); and b) [Trade in employment \(TIM\) database, February 2024](#), indicators EXGR_DEM.

²⁹The data shown in this factsheet is from 2020.

³⁰These estimates measure employees directly and indirectly supported by exports i.e. workers employed in exporting businesses and in other domestic businesses supplying inputs to the exporting businesses. The estimates should be interpreted as employment *supported* by exports, rather than employment *created* by exports, as the jobs may have previously existed to serve the domestic market. Employees may also be supported by exports from a multiple number of trading partners. As with the core TiVA data, these estimates are based on a number of assumptions and modelling, so should be interpreted with caution.

Foreign Direct Investment with France (ONS)^{31 32 33}

Foreign direct investment definitions

- **Foreign direct investment (FDI)** - Investment made by a firm or individual in one economy ('direct investor') to acquire a 'lasting interest' in an enterprise operating in another economy. The lasting interest is deemed to exist if the direct investor acquires at least 10% of equity, or equivalently 10% of the voting rights, of the company.
- **FDI stock** - The accumulated value of all previous investments at the end of a reference period. Figures are net, that is the value of investment minus disinvestment. **UK outward FDI stock** provides the total value of FDI by UK investors in economies abroad (investment of a UK parent company in France), while **UK inward FDI stock** provides the total value of FDI by non-UK investors in the UK (investment of a France parent company in the UK).
- **Data disclosure** - It can happen that FDI is coming from only a few investors. In that case, figures are suppressed by the ONS to avoid disclosure of information relating to individual enterprises.

Note: The FDI data for 2020 have been affected by changes in sampling methodology. Improvements have been made to the population which has been sampled and the way that businesses are sampled from the population, capturing a wider range of businesses. This means data from 2020 and onward are more representative of UK FDI with overseas partners and are comparable.

More information about the methodology changes can be found on the [ONS website](#).

UK outward FDI stock:

- In 2023, the **stock of FDI from the UK in France** was £101.2 billion, 10.5% or £9.6 billion higher than in 2022. In 2023, France accounted for 5.5% of the total UK outward FDI stock.
- In 2023, the total UK FDI abroad was £1.9 trillion. In 2023, the **top destination for UK FDI** was United States, accounting for 26.7% of the total UK outward FDI stock, followed by Netherlands (14.8%) and Luxembourg (7.6%).

UK inward FDI stock:

- In 2023, the **stock of FDI from France in the UK** was £117.5 billion, 2.3% or £2.7 billion higher than in 2022. In 2023, France accounted for 5.6% of the total UK inward FDI stock.
- In 2023, the total FDI in the UK in was £2.1 trillion. In 2023, the **top investor in the UK** was United States, accounting for 34.1% of the total UK inward FDI stock, followed by Luxembourg (9.1%) and Jersey (7.9%).

³¹ ONS data source for FDI statistics: [Foreign Direct Investment involving UK companies](#).

³² Data are presented on a directional basis which means they are not directly comparable to the asset/liability report prepared by ONS as part of the Balance of Payments statistical release. Figures are on net basis (investments minus disinvestments) and are given in nominal terms. Negative FDI values occur when disinvestments are greater than investments. Data are on an immediate destination/source basis and not an ultimate destination/source, which is likely to overstate financial centres such as the Netherlands and Luxembourg.

³³ This factsheet contains data as reported by the UK and are subject to asymmetries e.g. UK outward FDI to France (reported by the UK) may not match France inward FDI from the UK (reported by France). For consistency when comparing between partners, users are advised to use UK-reported data as far as possible.

The chart below shows FDI between the UK and France between 2014 and 2023:

Source: ONS, 2023 FDI main release. Data are on a directional basis, data suppression can cause breaks in the trends.

The data that are presented in the charts above are given in the table below in £ billion:

Top goods traded with the world by France, in current prices (UN Comtrade)^{40 41}

Data presented here show the top commodities traded with the world, not solely the UK, by France. These data are based on a different commodity classification system to the ONS commodity data used earlier in this factsheet, and the two sections should therefore not be directly compared.

Top goods exported to the world by France in 2023:

Rank	HS Commodity	\$USD billion	% of total goods exported
1	84 - Machinery and mechanical appliances	71.9	11.2%
2	87 - Vehicles other than railway or tramway stock	60.4	9.4%
3	85 - Electrical machinery and equipment	49.7	7.8%
4	88 - Aircraft, spacecraft, and parts thereof	37.7	5.9%
5	30 - Pharmaceutical products	37.3	5.8%
6	27 - Mineral fuels or oils, products of their distillation	33.4	5.2%
7	33 - Essential oils and resinoids; perfumery	25.2	3.9%
8	39 - Plastics and articles thereof	23.2	3.6%
9	22 - Beverages, spirits and vinegar	21.8	3.4%
10	90 - Optical, photographic, cinematographic and medical equipment	18.0	2.8%
	All goods exported	640.2	100.0%

Top goods imported from the world by France in 2023:

Rank	HS Commodity	\$USD billion	% of total goods imported
1	27 - Mineral fuels or oils, products of their distillation	104.6	13.5%
2	84 - Machinery and mechanical appliances	89.1	11.5%
3	87 - Vehicles other than railway or tramway stock	87.2	11.2%
4	85 - Electrical machinery and equipment	69.1	8.9%
5	30 - Pharmaceutical products	36.2	4.7%
6	39 - Plastics and articles thereof	27.6	3.6%
7	90 - Optical, photographic, cinematographic and medical equipment	23.2	3.0%
8	29 - Organic chemicals	14.6	1.9%
9	72 - Iron and steel	14.5	1.9%
10	73 - Articles of iron or steel	14.4	1.9%
	All goods imported	777.1	100.0%

⁴⁰United Nations (UN) Comtrade data are sourced from the online [UN Comtrade Database](#). The data reported above are for 2023, but as the data upload to UN Comtrade is continuous, more timely data may be available from the source.

Top services traded with the world by France, in current prices (ITC Trade Map)^{42 43 44}

Data presented here shows the top service types traded to the world, not solely the UK, by France.

Top services exported to the world by France in 2022:

Rank	EBOPS Service Type	\$USD billion	% of total services exported
1	Other business services	95.3	27.7%
2	Transport	86.9	25.2%
3	Travel	59.7	17.3%
4	Telecommunications, computer, and information services	25.6	7.4%
5	Financial services	19.8	5.8%
	All services exported	344.3	100.0%

Top services imported from the world by France in 2022:

Rank	EBOPS Service Type	\$USD billion	% of total services imported
1	Other business services	88.7	30.7%
2	Transport	64.2	22.2%
3	Travel	41.3	14.3%
4	Telecommunications, computer, and information services	32.1	11.1%
5	Charges for the use of intellectual property n.i.e.	13.4	4.6%
	All services imported	289.5	100.0%

Background Notes

This document is one of a wider set of factsheets between the UK and its individual trade and investment partners which can be found on the [Trade and Investment Factsheets website](#). All of these factsheets are published as [Official Statistics](#) as defined by the [UK Statistics Authority](#).

Our statistical practice is regulated by the Office for Statistics Regulation (OSR). OSR sets the standards of trustworthiness, quality and value in the [Code of Practice for Statistics](#) that all producers of official statistics should adhere to. You are welcome to contact us directly with any comments about how we meet these standards. Alternatively, you can contact OSR by emailing regulation@statistics.gov.uk or via the OSR website.

The publication of these factsheets as Official Statistics was agreed by the Chief Statistician at the Department for Business and Trade, who monitors these factsheets to ensure they continue to adhere to the [Code of Practice for Statistics](#). These factsheets have not been formally assessed by the [Office of Statistics Regulation](#) and are therefore not designated as [Accredited Official Statistics](#).

As a requisite of publishing as Official Statistics, a [quality and methodology report](#) has been produced which outlines the quality of these factsheets, as well as providing more information on the methodology of the data sources presented here. This report contains hyperlinks to information on the strengths and weaknesses for each data source. Statistics contained in the factsheets from UK data providers all come from Official Statistics publications, with some sources also being from National Statistics publications.

Future updates of these factsheets can be found on the [Government update schedule for Official Statistics](#). These scheduled updates are in line with significant updates from UK data providers when they release new data. Unscheduled releases of the factsheets may also be necessary to accommodate data updates where little or no advanced notice are given, such as in the case of international data updates. Please see the data update schedule and revisions policy in the [quality and methodology report](#) for more information. Please note that there may be occasions where more recent data than is provided here can be found directly from the data providers.

The Department for Business and Trade welcome any feedback or comments on these factsheets, please send these to statistics@businessandtrade.gov.uk.
