To: Section 62A Applications <section62a@planninginspectorate.gov.uk>
Subject: Application S62A/2025/0077 land at west end of Stebbing High Street

This planning application has been rejected by the residents, parish council, and district council, yet has, after minor adjustments, been resubmitted directly to the Planning Directorate.

The objections remain largely valid, both those relating to the impact on an historic site and those on the availability of green space within the community.

A further objection, which does not seem to figure in the district response, is the Risk to Life of another vehicle junction adjacent to the Primary School.

There might also be a consideration of the impact of extra traffic on an already crowded village street.

Please reject this attempt to sidestep local opinion by denying this application

Edward Conder
