Depreciation	6,292	E	Box 3.62 & Box 3.44					
		61,858	7.T.					
Net profit	£25,192							

In the following notes the box number refers to the 'Self-employment (full)' pages. The equivalent box number on the Partnership Tax Return is given in brackets.

Note 1

Herd basis adjustment to exclude the cost of home-bred additions to the herd. Following the suggestions in this helpsheet, the herd basis reconciliation is included in the 'Any other information' box, box 103 (3.116). The dairy herd is dealt with on the herd basis and is therefore a fixed asset and included in box 84 (3.100) in the 'Balance Sheet'.

Note 2

Miscellaneous receipts comprise haulage (£401) and way leaves (£249). Haulage has been included as an item of business income in box 15 (3.29). The way leaves are included in box 16 (3.50).

Note 3

The private proportions of rent and rates and water are respectively £475 and £200. These amounts need to be disallowed in arriving at the profit for tax purposes and are included in box 36 (3.34).

Note 4

There are several figures making up the overall insurance expense. £210 relates to motor vehicles partly used for private purposes. This amount is included in the entry in box 20 (3.37) (read Note 5 below). As far as the balance is concerned, there's a choice on the 'Self-employment' pages either box 21 or box 23. In this example box 23 (3.52) has been used. Whatever box is chosen, it should be used on a consistent basis from year to year.

Note 5

The equipment and vehicle expenditure comprises the following: tractor/combine repairs, £6,351, tractor/combine diesel, £5,102 and motor car expenses, £4,470. This latter figure, together with the motor insurance costs, is entered in box 20 (3.55). Of the total motoring costs of £4,680 (£4,470 + £210), 30% are for private use and are disallowed by entering the private proportion (£1,404) in box 35 (3.37). The tractor/combine expenditure has been treated as a direct cost of production and included in the entry in box 17 (3.48), although it would be equally acceptable to separate the repairs expenditure and enter it in box 22 (3.53).

Note 6

The private proportions of light and heat and phone are respectively £650 and £150. To arrive at the profit for tax purposes, these amounts have to be disallowed and are included in the entries for boxes 36 (3.34) and 38 (3.36) respectively.

Note 7

Contracting and plant hire comprises costs of a ditching contractor £1,767 and plant hire £224. The expenditure all relates to maintenance of the farm and has been entered in box 22 (3.53). Had the contracting been in respect of contract milkers or contract harvesters, for example, it would have been entered in box 17 (3.48) as a direct cost of production.

Note 8

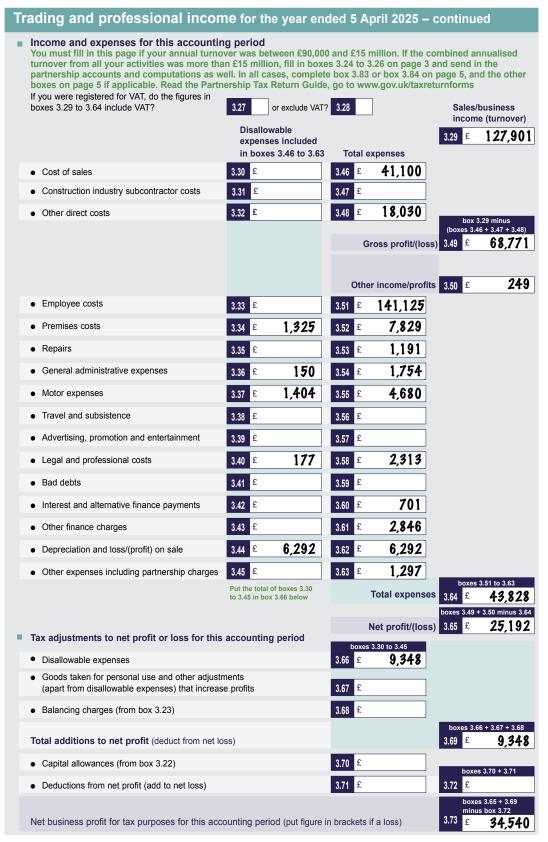

Veterinary expenses includes £177 for treatment to a privately owned pony. This has been disallowed by including the amount in the entry in box 43 (3.40). All associated expenses of the pony's upkeep have been met privately or charged to drawings.

Note 9

Bank charges include £701 interest charges which are entered separately in box 25 (3.61).

Note 10

Details of the valuation at the year end are included in the 'Any other information' box, box 103 (3.116) to help clarify the figure shown in box 85 (3.101). It is not necessary for a professional valuation to be obtained but the likely reliability of the valuation will be one of the factors we'll consider in deciding whether to open an enquiry.
