

# Offshore Petroleum Regulator for Environment & Decommissioning

## German Offshore Spaceport Alliance (GOSA) Rocket Launch

The Department has been consulted by the Marine Management Organisation (MMO) on an application for a marine licence under the Marine and Coastal Access Act 2009. The Marine License Application is submitted by the German Offshore Spaceport Alliance (GOSA) in the frame of the planning of the GOSA Demo-Mission #1. This consists of a single campaign and includes the launch of four (4) unguided suborbital rockets from an offshore barge set at the North-Western edge of the German EEZ.

The Department is being consulted as the rockets will land and be retrieved within the UK maritime area. We have no environmental concerns related to the operation. However, this alert is to draw the application to your attention if it may affect your operations.

The application can be viewed at

<https://marinelicensing.marinemanagement.org.uk/mmofox5/fox/live/>

The application reference is **MLA/2024/00130**

Any questions should be directed to the MMO: [info@marinemanagement.org.uk](mailto:info@marinemanagement.org.uk)
