Consultation on draft supplementary guidance for assessing the effects of scope 3 emissions on climate from offshore oil and gas projects – now live!

In August the Government announced it would be providing supplementary EIA guidance for offshore oil and gas projects considering the *Finch* Supreme Court case. The draft supplementary guidance has been developed and is now ready for public consultation. The consultation will run from 30 October 2024 until 8 January 2025, and we encourage stakeholders to provide feedback on the consultation questions that are set out in the consultation document accompanying the draft guidance. The consultation can be found here: <https://www.gov.uk/government/consultations/consultation-on-draft-supplementary-eia-guidance>

Consultation responses should be sent to finch.qanda@energysecurity.gov.uk.
