Date issued: 07 March 2025

Valid until further notice or unless revoked by the Secretary of State

Details

You must comply with the conditions of this general authorisation if you import any of the following products into England:

- non-harmonised animal by-products and derived products

Where all the following apply:

- they are animal by-products or derived products for which there are no legislative requirements in Regulation (EC) 1069/2009 or Regulation (EU) 142/2011 relating to the importation of the consignment.
- they do not include animal by-products or derived products originating from **Germany, Hungary or Slovakia**, that were obtained from any of the following animals:
 - cow, bull, sheep, goat, deer, camel, llama, alpaca, guanaco, vicuna, any other ruminant, any swine (that is, a member of the suborder Suina of the order Artiodactyla), elephant or rodent (other than a pet rodent)

Originating from:

- European Union member states
- European Free Trade Association member states
- Greenland and the Faroe Islands where they align with EU SPS rules

Arriving at:

- any point of entry in England that has a Border Control Post designated for the import of the product described above.

Authorisation issued under Regulation 15 (5) of the Trade in Animal and Related Products Regulations 2011, in accordance with the conditions set out in this authorisation, compliance with which means that the Secretary of State for Environment, Food and Rural Affairs is satisfied that the consignment poses no risk to the animal health status of the UK, on behalf of the Secretary of State for Environment, Food and Rural Affairs by:

Clare Parnham (Officer of the Department for Environment, Food and Rural Affairs)

Conditions attached to this authorisation

1. There must be no risk, to be determined at the sole discretion of the Secretary of State, to the animal health status of the UK, from this consignment.
2. Each consignment must be accompanied by a commercial document in a form conforming to the requirements of the model form published from time to time by the appropriate authority in accordance with paragraph 1 of Chapter 3 of Annex VIII to Regulation 142/2011; and containing the information specified in Chapter 3 of that Annex.
3. Importers must submit an import notification on IPAFFS (see general note 8) to notify enforcement authorities about the import of the products listed on this authorisation. This is also known as a common health entry document (CHED). You must do this at least one working day before the consignment is expected to arrive at the point of entry.
4. The product(s) must enter England through a point of entry with a Border Control Post (BCP) that is designated to check them. The product(s) may be subject to veterinary checks (see general note 9).
5. Any breach of these conditions must be reported to the Animal and Plant Health Agency (APHA) Centre for International Trade, Carlisle.

General notes

1. This authorisation replaces IMP/GEN/2025/01 which has now been revoked and cannot be used.
2. This authorisation does **not** need to accompany the consignment.
3. References to European Union (EU) legislation within this document are references to direct EU legislation which has been assimilated in Great Britain (assimilated direct legislation), as defined in the Retained EU Law (Revocation and Reform) Act 2023. This can be viewed on the UK legislation website (legislation.gov.uk).
4. This authorisation is granted under animal health import legislation and gives no exemption from any prohibition, regulation or restriction imposed by any other government department or agency.
5. If the material is to be re-exported, you should ensure that the importing country will permit entry and that you have the correct paperwork to accompany the product prior to export.

6. Specific rules for the import of the products listed on page 1 of this authorisation, have not been laid down in Regulation (EU) 142/2011 at this time, so this authorisation is issued without prejudice to any future import rules.
7. Import conditions in general authorisations can be subject to change. To check you are using the current version, visit:

10. In accordance with Annex VIII, Chapter III, point 5 of Regulation (EU) No 142/2011, all records and related documentation associated with material imported under this authorisation must be kept for a minimum of 24 months for presentation to the competent authority.
11. Any products, or records relating to the product, imported under this authorisation must be provided for inspection if requested by an officer of the Animal and Plant Health Agency or an enforcement authority, at any place nominated by them. The importer or their agent must provide any assistance required by the officer to carry out the inspection. The importer will be responsible for meeting any costs related to carrying out the inspection
