Conditions attached to this authorisation

1. The consignment must be packed in packaging that prevents any leakage
2. Each consignment must be accompanied by a commercial document which includes:
 - description of the material and the animal species of origin
 - category of the material
 - quantity of the material
 - place dispatch of the material
 - name and the address of the consignor
 - name and the address of the consignee
 - details allowing the identification of the authorisation of the competent authority of destination.
3. The display item must originate from third countries referred to in the column 'Third countries' list' of row 14 of Table 2 of Section 1 of Chapter II of Annex XIV to Regulation No 142/2011.
4. Importers must submit an import notification on IPAFFS (see general note 7) to notify enforcement authorities about the import of the products listed on this authorisation. This is also known as a common health entry document (CHED). You must do this at least one working day before the consignment is expected to arrive at the point of entry.
5. The product(s) must enter England through a point of entry with a Border Control Post (BCP) that is designated to check them. The product(s) may be subject to veterinary checks (see general note 8).
6. Display items must be sent directly to the authorised user following the veterinary checks provided for in the Official Controls Regulation.
7. After the exhibition or after the artistic activity has been concluded, display items shall be:
 - re-dispatched to the third country of origin

- dispatched to another country or territory, if such dispatch has been authorised by the competent authority of the country or territory of destination in advance; or
 - disposed of in accordance with Articles 12, 13 and 14 of Regulation (EC) No 1069/2009.
8. Any breach of these conditions must be reported to the Animal and Plant Health Agency (APHA) Centre for International Trade, Carlisle.

General notes

1. This authorisation replaces IMP/GEN/2025/02 which has now been revoked and cannot be used.
2. This authorisation does not need to accompany the consignment.
3. References to European Union (EU) legislation within this document are references to direct EU legislation which has been assimilated in Great Britain (assimilated direct legislation), as defined in the Retained EU Law (Revocation and Reform) Act 2023. This can be viewed on the UK legislation website (legislation.gov.uk).
4. This authorisation is granted under animal and public health import legislation. It gives no exemption from any prohibition, regulation or restriction imposed by any other government department or agency.
5. If the material is to be re-exported, you should ensure that the importing country will permit entry and that you have the correct paperwork to accompany the product prior to export.
6. Import conditions in general authorisations can be subject to change. To check you are using the current version, visit:

9. In accordance with Annex VIII, Chapter III, point 5 of Regulation (EU) No 142/2011, all records and related documentation associated with material imported under this authorisation must be kept for a minimum of 24 months for presentation to the competent authority.

10. Any products, or records relating to the product, imported under this authorisation must be provided for inspection if requested by an officer of the Animal and Plant Health Agency or an enforcement authority, at any place nominated by them. The importer or their agent must provide any assistance required by the officer to carry out the inspection. The importer will be responsible for meeting any costs related to carrying out the inspection.
