

# **CMDMG - Volume 4: Information Gathering**

## **Summary of changes from May 2022**

### **Amended Chapters March 2025**

#### **Chapter 39: Information gathering**

Please note amendment to CMDMG chapter 39 as follows:

39004 The Commissioner stated that the DM can send a document either to the address last known by the DM or last notified to the DM. A person's last known or notified address is not necessarily the same as a person's current address, such as when a NRP notifies a correspondence address. Rather than focusing on how DMs acquire this information, the Commissioner stated that DMs must form a judgement, on the balance of probabilities, as to whether an address given for the NRP is likely to be an effective address. This includes consideration of all the circumstances and the exercise of reasonable diligence.

### **Amended Chapters July 2024**
